12 Resolution 2CP/10 INTERNATIONAL CONVENTION AGAINST DOPING IN SPORT Annex II - Standards for Granting Therapeutic Use Exemptions Paris, <u>1 January 2011</u> Deleted: 15 March 2010

Extract from the INTERNATIONAL STANDARD FOR THERAPEUTIC USE EXEMPTIONS, 1 January 2010 of the World Anti-Doping Agency (WADA)

PART TWO: STANDARDS FOR GRANTING THERAPEUTIC USE EXEMPTIONS

4.0 Criteria for Granting a *Therapeutic Use* Exemption

A <u>Therapeutic</u> Use Exemption (<u>TUE</u>) may be granted to an <u>Athlete</u> permitting the Use of a <u>Prohibited Substance</u> or <u>Prohibited Method</u>. An application for a <u>TUE</u> will be reviewed by a <u>Therapeutic</u> Use Exemption Committee (<u>TUEC</u>). The <u>TUEC</u> will be appointed by an <u>Anti-Doping Organization</u>.

- 4.1 A <u>TUE</u> will be granted only in strict accordance with the following criteria:
 - (a) The *Athlete* would experience a significant impairment to health if the *Prohibited Substance* or *Prohibited Method* were to be withheld in the course of treating an acute or chronic medical condition.
 - (b) The <u>Therapeutic</u> Use of the Prohibited Substance or Prohibited Method would produce no additional enhancement of performance other than that which might be anticipated by a return to a state of normal health following the treatment of a legitimate medical condition. The Use of any Prohibited Substance or Prohibited Method to increase "low-normal" levels of any endogenous hormone is not considered an acceptable <u>Therapeutic</u> intervention.
 - (c) There is no reasonable <u>Therapeutic</u> alternative to the Use of the otherwise Prohibited Substance or Prohibited Method.
 - (d) The necessity for the Use of the otherwise Prohibited Substance or Prohibited Method cannot be a consequence, wholly or in part, of the prior Use, without a <u>TUE</u>, of a substance or method which was prohibited at the time of Use.
- 4.2 The <u>TUE</u> will be cancelled, if:
 - (a) The *Athlete* does not promptly comply with any requirements or conditions imposed by the *Anti-Doping Organization* granting the exemption.
 - (b) The term for which the <u>TUE</u> was granted has expired.
 - (c) The Athlete is advised that the <u>TUE</u> has been withdrawn by the Anti-Doping Organization.
 - (d) A decision granting a <u>TUE</u> has been reversed by WADA or the Court of Arbitration for Sport.

[Comment: Each <u>TUE</u> will have a specified duration as decided upon by the <u>TUEC</u>. There may be cases when a <u>TUE</u> has expired or has been withdrawn and the Prohibited Substance subject to the <u>TUE</u> is still present in the Athlete's body. In such cases, the Anti-Doping Organization conducting the initial review of an Adverse Analytical Finding will consider whether the finding is consistent with expiry or withdrawal of the <u>TUE.</u>]

- **4.3** An application for a <u>*TUE*</u> will not be considered for retroactive approval except in cases where:
 - (a) Emergency treatment or treatment of an acute medical condition was necessary.
 - (b) Due to exceptional circumstances, there was insufficient time or opportunity for an applicant to submit, or a <u>TUEC</u> to consider, an application prior to *Doping Control.*

[Comment: Medical emergencies or acute medical situations requiring administration of an otherwise Prohibited Substance or Prohibited Method before an application for a <u>TUE</u> can be made, are uncommon. Similarly, circumstances requiring expedited consideration of an application for a <u>TUE</u> due to imminent competition are infrequent. Anti-Doping Organizations granting <u>TUE</u>s should have internal procedures that permit such situations to be addressed.]

5.0. Confidentiality of Information

- 5.1 The collection, storage, processing, disclosure and retention of <u>Personal Information</u> in the <u>TUE</u> process by Anti-Doping Organizations and WADA shall comply with the International Standard for the Protection of Privacy and <u>Personal Information</u>.
- 5.2 An Athlete applying for a <u>TUE</u> shall provide written consent for the transmission of all information pertaining to the application to members of all <u>TUEC</u>s with authority under the *Code* to review the file and, as required, other independent medical or scientific experts, and to all necessary staff involved in the management, review or appeal of <u>TUEs</u>, and WADA. The applicant shall also provide written consent for the decision of the <u>TUEC</u> to be distributed to other relevant Anti-Doping Organizations and National Federations under the provisions of the Code.

[Comment to 5.2: Prior to collecting <u>Personal Information</u> or obtaining consent from an Athlete, the Anti-Doping Organization shall communicate to the Athlete the information set forth in Article 7.1 of the International Standard for the Protection of Privacy and <u>Personal Information.</u>]

Should the assistance of external, independent experts be required, all details of the application will be circulated without identifying the *Athlete* concerned.

- **5.3** The members of the <u>TUEC</u>s, independent experts and the staff of the Anti-Doping Organization involved, will conduct all of their activities in strict confidence and will sign confidentiality agreements. In particular, they will keep the following information confidential:
 - (a) All medical information and data provided by the *Athlete* and physician(s) involved in the *Athlete*'s care.

(b) All details of the application including the name of the physician(s) involved in the process.

Should the *Athlete* wish to revoke the right of any <u>TUEC</u> to obtain any health information on his/her behalf, the *Athlete* shall notify his/her medical practitioner in writing of the fact. As a consequence of such a decision, the *Athlete* will not receive approval for a <u>TUE</u> or renewal of an existing <u>TUE</u>.

5.4 Anti-Doping Organizations shall ensure that <u>Personal Information</u> obtained in the <u>TUE</u> process is retained for a period of eight (8) years, and thereafter only for as long as necessary to fulfill their obligations under the *Code* or where otherwise required by applicable law, regulation or compulsory legal process.

6.0 <u>Therapeutic</u> Use Exemption Committees (<u>TUEC</u>s)

TUECs shall be constituted and act in accordance with the following guidelines:

- 6.1 <u>TUEC</u>s should include at least three (3) physicians with experience in the care and treatment of *Athletes* and a sound knowledge of clinical, sports and exercise medicine. In order to ensure a level of independence of decisions, the majority of the members of any <u>TUEC</u> should be free of conflicts of interest or political responsibility in the *Anti-Doping Organization*. All members of a <u>TUEC</u> will sign a conflict of interest agreement. In applications involving *Athletes* with disabilities, at least one <u>TUEC</u> member shall possess specific experience with the care and treatment of *Athletes* with disabilities.
- 6.2 <u>*TUEC*</u>s may seek whatever medical or scientific expertise they deem appropriate in reviewing the circumstances of any application for a <u>*TUE*</u>.
- 6.3 The <u>WADA TUEC</u> shall be composed following the criteria set out in Article 6.1. The <u>WADA TUEC</u> is established to review the granting or denial of <u>TUE</u>s for International-Level Athletes, Athletes entered in an International Event as described under 7.1(b), or Athletes in their National Anti-Doping Organization's Registered Testing Pool as set forth in Article 4.4 of the Code. In normal circumstances, the <u>WADA TUEC</u> shall render a decision within thirty (30) days of receipt of all requested information.
- 7.0 Responsibilities of International Federations and National Anti-Doping Organizations
- 7.1 Each International Federation shall:
 - (a) Establish a *TUEC* as provided in Article 6.
 - (b) Publish a list of *International Events* for which a *TUE*, granted pursuant to the International Federation's rules, is required.
 - (c) Establish and publish a <u>TUE</u> process whereby any <u>Athlete</u> who is in the International Federation's <u>Registered Testing Pool</u> or who is entered in an <u>International Event</u> described in Article 7.1(b) may request a <u>TUE</u> for a documented medical condition requiring the Use of a <u>Prohibited Substance</u> or a <u>Prohibited Method</u>. Such a <u>TUE</u> process shall comply with Article 4.4 of the

Code, this International Standard and the International Standard for the Protection of Privacy and <u>Personal Information</u>.

- (d) Publish any rule pursuant to which the International Federation will accept <u>*TUEs*</u> granted by other *Anti-Doping Organizations*.
- (e) Promptly report to WADA, through ADAMS, the granting of all <u>TUE</u>s, including the approved substance or method, dosage, frequency and route of administration, the duration of the <u>TUE</u>, any conditions imposed in connection with the <u>TUE</u>, and its entire file.
- (f) Promptly report the granting of a <u>TUE</u> to the relevant National Anti-Doping Organization and National Federation.
- (g) At WADA's request, promptly provide its entire file on any <u>TUE</u> which has been denied.
- 7.2 Each National Anti-Doping Organization shall:
 - (a) Establish a *TUEC* as provided in Article 6.
 - (b) Identify and publish those categories of Athletes within its jurisdiction who are required to obtain a <u>TUE</u> before using a Prohibited Substance or a Prohibited Method. At a minimum, this shall include all Athletes in the National Anti-Doping Organization's Registered Testing Pool and other national-level Athletes as defined by the National Anti-Doping Organization.

[Comment to 7.2(b): National Anti-Doping Organizations will not grant <u>TUEs</u> to Athletes in an International Federation's Registered Testing Pool except in those instances where the International Federation's rules recognize or give authority to National Anti-Doping Organizations to grant <u>TUEs</u> to such Athletes.]

- (c) Establish and publish a <u>TUE</u> process whereby any <u>Athlete</u> who is in the <u>National Anti-Doping Organization's Registered Testing Pool</u> or who is described in 7.2(b) may request a <u>TUE</u> for a documented medical condition requiring the <u>Use</u> of a <u>Prohibited Substance</u> or a <u>Prohibited Method</u>. Such a <u>TUE</u> process shall comply with Article 4.4 of the <u>Code</u>, this <u>International Standard</u> and the <u>International Standard</u> for the Protection of Privacy and <u>Personal Information</u>.
- (d) Promptly report to WADA, through ADAMS, the granting of a <u>TUE</u> to any Athlete in its Registered Testing Pool, and if applicable, to an Athlete in an International Federation's Registered Testing Pool or entered in an International Event described in Article 7.1(b), including the approved substance or method, dosage, frequency and route of administration, the duration of the <u>TUE</u>, any conditions imposed in connection with the <u>TUE</u>, and its entire file.
- (e) At WADA's request, promptly provide its entire file on any <u>TUE</u> that has been denied.
- (f) Promptly report the granting of a <u>TUE</u> to the relevant National Federation and

International Federation where the rules of the International Federation authorize National Anti-Doping Organizations to grant <u>TUE</u>s to International-Level Athletes.

(g) Recognize <u>TUE</u>s granted by International Federations to *Athletes* in the International Federation's *Registered Testing Pool* or entered in an *International Event* as described under 7.1(b).

[As used in this Article 7, the term "publish" means: An Anti-Doping Organization shall publish information by providing the information in a conspicuous place on its website and by sending the information to each National Federation which is subject to its rules.]

8.0 <u>TUE</u> Application Process

- 8.1 Unless the rules of their International Federation provide otherwise, the following *Athletes* shall obtain a *TUE* from their International Federation:
 - (a) Athletes in the International Federation's Registered Testing Pool.
 - (b) Athletes participating in an International Event for which a <u>TUE</u>, granted pursuant to the International Federation's rules, is required.
- 8.2 Athletes not identified in Article 8.1 shall obtain a <u>TUE</u> from their National Anti-Doping Organization.

[Comment to 8.1 and 8.2: Unless the rules of an International Federation provide otherwise, an Athlete who already has a <u>TUE</u> from a National Anti-Doping Organization, but later becomes a member of the International Federation's Registered Testing Pool or seeks to participate in an International Event which the International Federation has identified as requiring an International Federation <u>TUE</u>, shall obtain a new <u>TUE</u> from the International Federation.

The phrase "unless the rules of an International Federation provide otherwise" takes into account the fact that some International Federations, through their rules, are willing to recognize <u>TUE</u>s granted by National Anti-Doping Organizations and do not require a new <u>TUE</u> application at the International Federation level. Where such rules are in place, the Athlete should obtain a <u>TUE</u> from the Athlete's National Anti-Doping Organization.J

- **8.3** The *Athlete* should submit an application for a <u>*TUE*</u> no less than thirty (30) days before he/she needs the approval (for instance, for an *Event*).
- 8.4 A <u>TUE</u> will only be considered following the receipt of a completed application form that shall include all relevant documents (see Annex 1 <u>TUE</u> Form). The application process shall be dealt with in accordance with the principles of strict medical confidentiality.

- 8.5 The <u>TUE</u> application Form, as set out in Annex 1, can be modified by *Anti-Doping* Organizations to include additional requests for information, but no sections or items shall be removed.
- **8.6** The *TUE* application Form may be translated into other languages by *Anti-Doping Organizations*, but the English or French text shall remain on the application Form.
- 8.7 The application shall identify the *Athlete's* level of competition (e.g., International Federation's *Registered Testing Pool*), sport and, where appropriate, discipline and specific position or role.
- 8.8 The application shall list any previous and/or current \underline{TUE} requests, the body to whom the request(s) was made, the decision(s) of that body, and the decision(s) of any other body on review or appeal.
- 8.9 The application shall include a comprehensive medical history and the results of all examinations, laboratory investigations and imaging studies relevant to the application. The arguments related to the diagnosis and treatment, as well as duration of validity, should be guided by the *WADA* "Medical Information to Support the Decisions of <u>TUEC</u>s."
- **8.10** Any additional relevant investigations, examinations or imaging studies requested by the <u>TUEC</u> of the Anti-Doping Organization before approval will be undertaken at the expense of the applicant.

[Comment to 8.10: In some cases, the applicant's National Federation may elect to pay this expense.]

- 8.11 The application shall include a statement by an appropriately qualified physician attesting to the necessity of the otherwise *Prohibited Substance* or *Prohibited Method* in the treatment of the *Athlete* and describing why an alternative, permitted medication cannot, or could not, be used in the treatment of this condition.
- **8.12** The substance or method, dose, frequency, route and duration of administration of the otherwise *Prohibited Substance* or *Prohibited Method* in question shall be specified. In case of change, a new application shall be submitted.
- 8.13 In normal circumstances, decisions of the <u>TUEC</u> should be completed within thirty (30) days of receipt of all relevant documentation and will be conveyed in writing to the <u>Athlete</u> by the relevant <u>Anti-Doping Organization</u>. In case of a <u>TUE</u> application made in a reasonable time limit prior to an <u>Event</u> the <u>TUEC</u> should use its best endeavors to complete the <u>TUE</u> process before the start of the <u>Event</u>.

[Comment to 8.13: When an Anti-Doping Organization has failed to act on an Athlete's <u>TUE</u> application within a reasonable time, the Athlete may seek review by WADA as if the application was denied.]

9.0 Declaration of Use

9.1 <u>There are no longer substances or methods on the *Prohibited List* that require a Declaration of Use and therefore it is not necessary to file a Declaration of Use.</u>

10.0 Review of TUE Decisions by WADA

- 10.1 The <u>WADA TUEC</u> may, at any time, review the granting of a <u>TUE</u> to an Athlete in the International Federation's Registered Testing Pool, entered in an International Event as described in 7.1(b), or a National Anti-Doping Organization's Registered Testing Pool. In addition to the information to be provided as set forth in Articles 7.1 and 7.2, the <u>WADA TUEC</u> may also seek additional information from the Athlete, including further studies as described in Article 8.10. If a decision granting a <u>TUE</u> is reversed by WADA upon review, the reversal shall not apply retroactively and shall not disqualify the Athlete's results during the period for which the <u>TUE</u> had been granted and shall take effect no later than fourteen (14) days following notification of the decision to the Athlete.
- 10.2 An Athlete in an International Federation's Registered Testing Pool, entered in an International Event as described in 7.1(b), or National Anti-Doping Organization's Registered Testing Pool may request that WADA review the denial of a <u>TUE</u> by submitting a written request for review to WADA within twenty-one (21) days of the date of the denial. An Athlete submitting such a request for review to WADA shall pay an application fee as established by WADA and shall provide to the <u>WADA TUEC</u> copies of all information that the Athlete submitted to the Anti-Doping Organization in connection with the <u>TUE</u> application. The <u>WADA TUEC</u> will assess the request based on the file that was available to the Anti-Doping Organization that has denied the <u>TUE</u> but may, for the sake of clarification, seek additional information from the Athlete, including further studies as described in Article 8.10. Until the WADA review process has been completed, the original <u>TUE</u> denial remains in effect. If WADA reverses the denial of a <u>TUE</u>, the <u>TUE</u> shall immediately go into effect in accordance with the conditions set forth in the WADA decision.
- 10.3 Decisions by WADA to affirm or reverse the <u>TUE</u> decisions of an Anti-Doping Organization may be appealed to the Court of Arbitration for Sport as provided in Article 13 of the Code.
- 11.0 Previously Granted Abbreviated Therapeutic Use Exemptions
- 11.1 All previously granted Abbreviated <u>Therapeutic</u> Use Exemptions that have not already expired or been cancelled shall expire on December 31 2009.

Deleted: The Prohibited List identifies certain substances and methods that are not prohibited but for which an Athlete is required to file a declaration of Use. An athlete should satisfy this requirement by declaring the Use on a Doping Control Form and when available by filing a declaration of Use through ADAMS.¶

9.2 An Athlete's failure to declare Use on a Doping Control Form and through ADAMS when available, as stated in Article 9.1 shall not be an anti-doping rule violation. §

Comment to 9.2: The rules of Antt-Doping Organizations with jursdiction over an Athlete may impose consequences other than an anti-doping rule violation for a failure to declare.
