Notes:

1. As per the Group Remuneration Policy, a severance payment is made to an employee upon redundancy to compensate for termination of their role. Accordingly, CBA30QW and CBA32QW reflect the same data.
2. Accumulated severance / redundancy packages captured in the data response includes redundancy payments only. It excludes payments for accrued but untaken annual and long-service leave, payment in lieu of notice, any additional termination payments, any pro-rata STVR payments for performance during the Financial Year of termination, and equity which remains on-foot post termination as these are considered to be remuneration earned pre-termination and not termination payments.
3. Data responses for this question includes KMP, whose roles were made redundant from the Group. KMP categorisation may vary from any disclosed termination arrangements due to inclusion of pre-termination entitlements (e.g. leave and STVR outcomes) in disclosed values.
4. Data related to business that are no longer part of the CBA group have not been included in the table above.
