Dear Mr Wilson

I note comments you made in the House of Representatives Economics Committee hearing on 6 November 2020 of your willingness to correct the record if you had misled the committee.

With that in mind I draw your attention to claims you made in that same hearing that Industry Super Australia was yet to respond to a question from the Committee regarding media reports about CSL CEO Brian McNamee. You said:

“...I just need to clarify not all super funds have responded yet including Industry Super Australia or IFM Investors and we’re very curious to see if they had made contact...”

ISA is not a super fund, nor has it received any such question from you or any other member of the Committee about this matter.

We invite you to correct the record. We further invite you to correct the record regarding matters canvassed in our correspondence to you of 27 October 2020.

Yours sincerely

Bernie Dean
Chief Executive
