TO THE
PORTFOLIO BUDGET STATEMENTS**

USER GUIDE

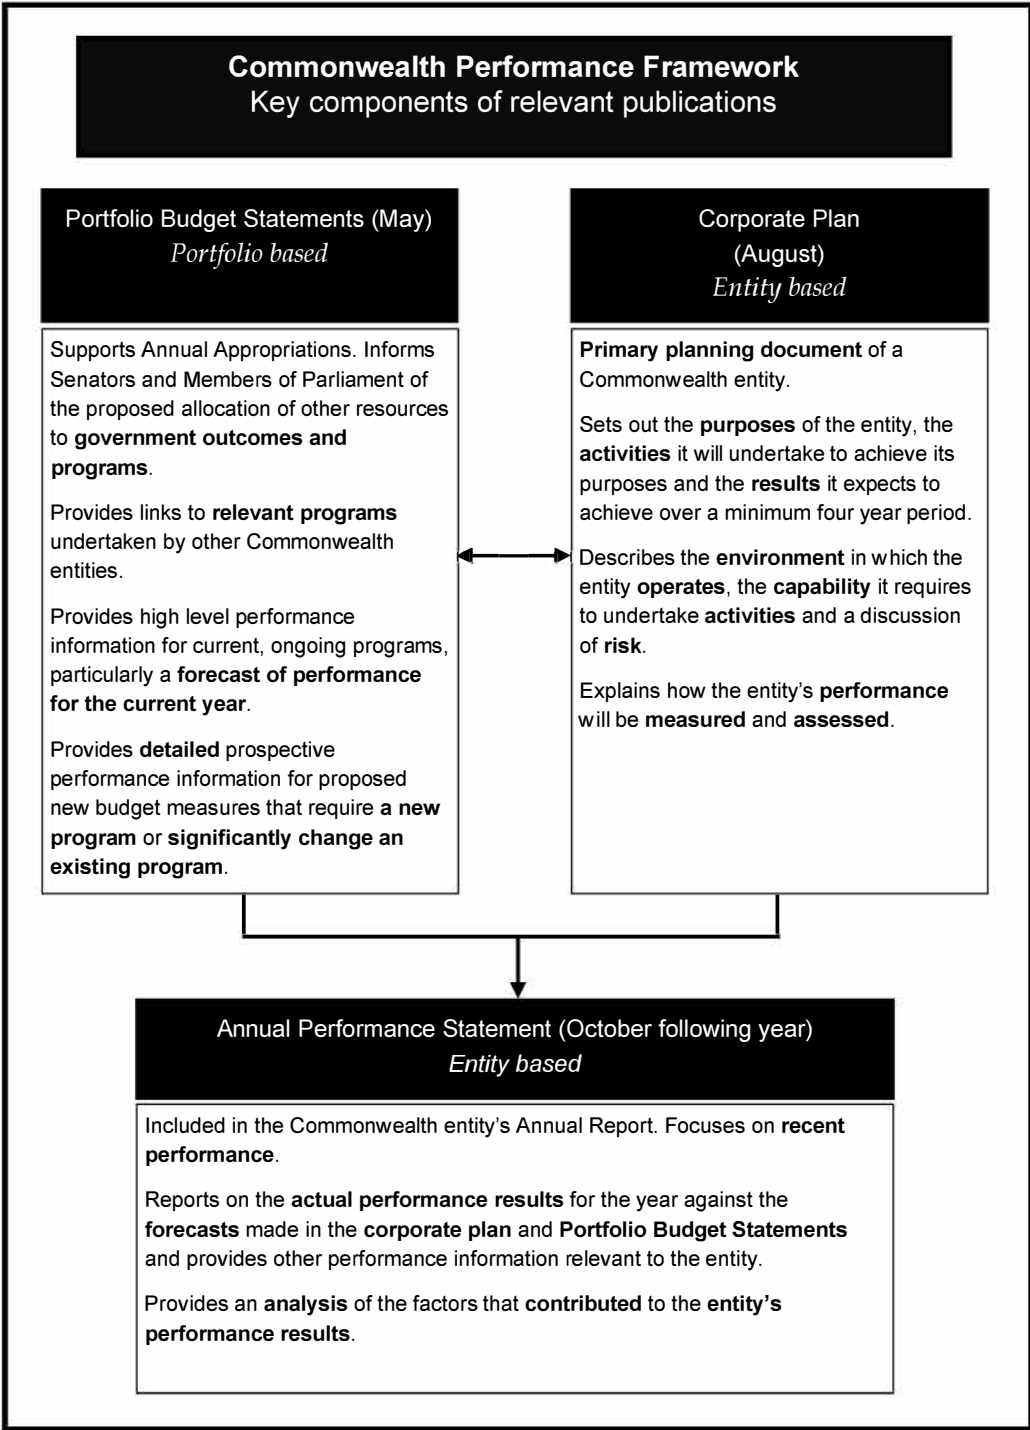

The purpose of the 2021-22 *Portfolio Budget Statements* (PB Statements) is to inform Senators and Members of Parliament of the proposed allocation of resources to the Department of the Senate (the department) and the funding proposed in the appropriation bills.

A key role of the PB Statements is to facilitate the understanding of proposed annual appropriations in the Appropriation (Parliamentary Department) Bill (No. 1) 2021-22. In this sense, the PB Statements are Budget related papers and are declared by the Appropriation Acts to be 'relevant documents' to the interpretation of the Acts according to section 15AB of the *Acts Interpretation Act 1901*.

The PB Statements provide information, explanation and justification to enable Parliament to understand the purpose of each outcome proposed in the Bills.

The Commonwealth Performance Framework

The following diagram outlines the key components of the Commonwealth performance framework. The diagram identifies the content of each of the publications and the relationship between them. Links to the publications can be found in the introduction to Section 2: Outcomes and planned performance.

Department of the Senate

Resources and planned performance

Section 1: Departmental overview and resources

The Department of the Senate is the secretariat to the Australian Senate. All of its functions derive from this purpose and its work is substantially driven by the requirements of the Senate and senators. The department facilitates meetings of the Senate and its committees. It succeeds when the Senate and its committees meet in accordance with their decisions, and when senators and others receive the advice and support they need to participate in those meetings.

The department's outcome is delivered under a single program, comprising services and activities in the following areas:

- Advice about Senate and committee proceedings
- Secretariat support for the Senate
- Secretariat support for committees
- Administrative advice and support for senators
- Public information and parliamentary education
- Capability, governance and accountability.

The department is one of the four parliamentary departments supporting the Australian Parliament. It is responsible to the Senate through the President of the Senate. Its administrative head is the Clerk of the Senate.

The total available appropriation for the department specified in Appropriation (Parliamentary Departments) Bill (No. 1) 2021-2022 is \$26.0m, comprising a departmental appropriation of \$25.8m (\$25.8m in 2020-21) and capital funding of \$0.2m (\$0.4m in 2020-21). Figure 1 shows the trend in departmental appropriations in recent years.

The department's appropriation includes one-off departmental supplementation of \$2.0m in 2021-22. The funding reflects the increased demands on the department due to the continued elevated levels of Senate and joint committee activity supported by the department. This will ensure the department can continue to meet the need of the Senate and senators.

The department has third party access to special appropriations to drawdown funds for the payment of senators' salaries and certain allowances, superannuation, and some postage and freight expenses. The resourcing of these special appropriations is detailed in the statements prepared by the Department of Finance.

1.1 Resource statement

Table 1.1 shows the total funding from all sources available to the department for its operations and to deliver its programs and services.

The table summarises how resources will be applied by outcome.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Section 2: Outcomes and planned performance

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. The performance criteria described in Portfolio Budget Statements will be read with broader information provided in the department's corporate plans and annual performance statements – included in Annual Reports - to provide the department's complete performance.

The most recent corporate plan for the department can be found [here](#).

The most recent annual performance statement can be found [here](#).

(b) Expenses not requiring appropriation in the Budget year are made up of depreciation and amortisation expenses, audit fees and resources received free of charge where recognition of an expense is required.

Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of the department's finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 Budgeted financial statements

3.1.1 Explanatory notes and analysis of budgeted financial statements

Recent parliaments have seen a significant increase in the department's workload, particularly of Senate committees. Senate select and joint select committees stand outside of the Senate's standing committee system. The establishment and workload of select committees is determined by the Senate and, when small in number, the support is absorbed by the existing standing committee secretariats.

The establishment of select committees in the current Parliament far exceeds the levels on which the department's funding was based. The increased level of activity, without affecting the level of support available to legislation and references committees, is not sustainable.

Following one-off supplementation in 2020-21 (of \$2.2m), the department welcomes further supplementation of \$2.0m for 2021-22 to support the continued elevated levels of committee activity, and in particular select committee activity, during the financial year. If the number and duration of committees established by the Senate continues at this level in future parliaments, the department will seek additional resources over the forward estimates to ensure the requirements of the Senate and senators can continue to be met.

The department has reclassified a portion of its capital budget from 2021-22 and onwards, in the order of \$0.2m, to better reflect the changing nature of ICT services.

Glossary

Accrual accounting	System of accounting where items are brought to account and included in the financial statements as they are earned or incurred, rather than as they are received or paid.
Accumulated depreciation	The aggregate depreciation recorded for a particular depreciating asset.
Additional estimates	Where amounts appropriated at Budget time are insufficient, Parliament may appropriate more funds to portfolios through the Additional (Parliamentary Departments) Appropriation Acts.
Annual appropriation	Appropriation Bills are introduced into Parliament and comprise the Budget for the financial year beginning 1 July. Further Bills are introduced later in the financial year as part of the additional estimates. Parliamentary departments have their own appropriations.
Appropriation	An authorisation by Parliament to spend moneys from the Consolidated Revenue Fund for a particular purpose.
Capital expenditure	Expenditure by an agency on capital projects, for example purchasing a building.
Consolidated Revenue Fund	Section 81 of the Constitution stipulates that all revenue raised or money received by the Commonwealth forms the one consolidated revenue fund (CRF). The CRF is not a bank account. The Official Public Account reflects most of the operations of the CRF.
Departmental items	Assets, liabilities, revenues and expenses that are controlled by the agency in providing its outputs. Departmental items would generally include computers, plant and equipment assets used by agencies in providing goods and services and most employee expenses, supplier costs and other administrative expenses incurred.

Depreciation	Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time.
Expense	Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.
Equity or net assets	Residual interest in the assets of an entity after deduction of its liabilities.
Measure	A new policy or savings decision of the Government with financial impacts.
Operating result	Equals revenue less expense.
Outcome	An outcome is the intended result, consequence or impact of government actions on the Australian community.
PGPA Act	<i>Public Governance, Performance and Accountability Act 2013.</i>
Program	Activity that delivers benefits, services or transfer payment to individuals, industry and/or the community as a whole, with the aim of achieving the intended result specified in an outcome statement.
Revenue	Total value of resources earned or received to cover the production of goods and services.
Special appropriations	<p>An amount of money appropriated by a particular Act of Parliament for a specific purpose and number of years. For special appropriations the authority to withdraw funds from the Consolidated Revenue Fund does not generally cease at the end of the financial year.</p> <p>Standing appropriations are a sub-category consisting of ongoing special appropriations – the amount appropriated will depend on circumstances specified in the legislation.</p>
