To The  
Portfolio Budget Statements**

## User guide

The purpose of the *2023-24 Portfolio Budget Statements* (PB Statements) is to inform Senators and Members of Parliament of the proposed allocation of resources to government outcomes by entities within the portfolio. Entities receive resources from the annual appropriations acts, special appropriations (including standing appropriations and special accounts), and revenue from other sources.

A key role of the PB Statements is to facilitate the understanding of proposed annual appropriations in Appropriation Bills (No. 1 and No. 2) 2023-24 (or Appropriation (Parliamentary Departments) Bill (No. 1) 2023-24 for the parliamentary departments). In this sense, the PB Statements are Budget related papers and are declared by the Appropriation Acts to be 'relevant documents' to the interpretation of the Acts according to section 15AB of the *Acts Interpretation Act 1901*.

The PB Statements provide information, explanation and justification to enable Parliament to understand the purpose of each outcome proposed in the Bills.

As required under section 12 of the *Charter of Budget Honesty Act 1998*, only entities within the general government sector are included as part of the Commonwealth general government sector fiscal estimates and produce PB Statements where they receive funding (either directly or via portfolio departments) through the annual appropriation acts.

# Department of the House of Representatives overview

## Departmental responsibilities

The department is one of four parliamentary departments supporting the Australian Parliament.

The department's purpose, as set out in its Corporate Plan, is:

To support the House of Representatives, and the wider Parliament, in the role of a representative and legislative body primarily by providing advice and services, and through engaging with the community and other parliaments.

The department provides facilities, support, advice and information to ensure that:

- the Chamber and Federation Chamber operate effectively;
- parliamentary committees operate effectively;
- Members receive appropriate services to fulfil their parliamentary duties;
- international and regional relationships with other parliaments, parliamentary bodies and organisations are maintained;
- the community understands, and interacts with, the work of the House of Representatives and the Australian Parliament; and
- the corporate offices fulfil their responsibilities for the management of people, finances, and office services.

The Speaker, Hon. Milton Dick MP, has accountability obligations to the House of Representatives for the department. The Clerk of the House of Representatives, Ms Claressa Surtees, is responsible for leading the department.

The department works with the Department of the Senate, the Department of Parliamentary Services, the Office of the Governor-General and relevant government agencies to ensure the outcomes of parliamentary proceedings are processed and recorded accurately and on time.

For information on resourcing across the portfolio, please refer to Part 1: Agency Financial Resourcing in the *Budget Paper No. 4: Agency Resourcing*.

## Section 1: Entity overview and resources

### 1.1 Strategic direction statement

The Department of the House of Representatives is one of four departments of the Australian Parliamentary Service established under the *Parliamentary Service Act 1999*. The department's purpose is to support the House of Representatives, and the wider Parliament, in the role of a representative and legislative body primarily by providing advice and services, and through engaging with the community and other parliaments.

The department is committed to the delivery of high standards of service to the House of Representatives, committees and Members; to the wider Parliament; and to the public. We seek to work collaboratively with other parliamentary departments, and with other key people and organisations to ensure a seamless service delivery to our clients.

The strategic priority areas for the department are to:

- develop and maintain a capable and experienced workforce to ensure the department has sufficient and sustainable capability and capacity to undertake the range of activities required to achieve its purpose
- identify ways to improve information management and processes, using a risk-based approach to identify and prioritise information management projects and initiatives
- promote the work of the House and its committees through a range of publications and awareness activities, including digital publications, events, seminars, and social media activities
- manage assets to meet the evolving needs and expectations of stakeholders, and the business requirements of the House and the Parliament
- uphold the institution of the Parliament, and of the House in particular, by building understanding of its history, traditions, procedures and operations; and
- collaborate with colleagues across the parliamentary service and rely on their professional skills to provide services to members and others.

Further details on the performance criteria for each of the department's activity areas can be found in section 2 of this document.

## **1.2 Entity resource statement**

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

## Section 2: Outcomes and planned performance

Outcomes are the intended results, impacts or consequences of actions for the Australian community. Programs are the primary vehicle by which entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

**Note:**

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance measure described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide a complete picture of an entity's planned and actual performance.

## **Section 3: Budgeted financial statements**

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2023-24 budget year, including the impact of budget measures and resourcing on financial statements.

### **3.1 Budgeted financial statements**

#### **3.1.1 Explanatory notes and analysis of budgeted financial statements**

The department expects to finish the 2022-23 financial year with a total comprehensive loss of \$1.2m. The department expects total employee benefits of \$22.8m in line with the budget estimate reported in the 2022-23 Portfolio Budget Statements (PBS). Supplier expenses are forecast to be \$5.1m, \$0.8m above the budget estimate reported in the 2022-23 PBS.

The department received approval to make an additional loss of \$0.8m. This amount was approved in the 2019-20 Budget round to support the Parliament to host the Conference of Speakers and Presiding Officers of the Commonwealth (CSPOC) in January 2022. Due to the impacts of the COVID-19 pandemic, this conference was rescheduled and held in January 2023. Expenses associated with hosting the conference were therefore incurred in 2022-23, rather than in 2021-22.

The full range of the Parliament's travel-related activities has recommenced, following several years of decreased activity due to the impacts of the COVID-19 pandemic. These activities have included committee-related domestic and international travel, and the official incoming and outgoing delegation programs. The department continues to make use of video conferencing, where appropriate, to support committee meetings and virtual conferences. Technologies will continue to be investigated to enhance these capabilities, using existing funding.

The department continues to provide a booking service and hospitality for school groups visiting Parliament House. Funds are provided through administered funding and expenditure is shown at Table 3.7.

The department's balance sheet remains in a strong position with sufficient cash reserves to cover its liabilities. Depreciation and amortisation expenses are not funded as part of operating revenue as the department can make a loss up to these amounts.

The department has chosen to no longer receive a contribution through equity for its departmental capital budget, and for these amounts to be received as departmental appropriations. This is primarily due to the transition of systems to the cloud and the accounting treatment to recognise these expenses. These changes are shown at Table 3.5. All unused capital budgets from prior years have been moved to future years' departmental appropriations.

For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.
