Policy costing request—during the caretaker period for a general election

Name of policy:	Sustainable Water Institute			
Person requesting costing:	Senator Di Natale			
Parliamentary party:	Australian Greens			
Date of request to cost the policy:	1 July 2016			
Note: This policy costing request and the response to this request will be made publicly available.				
Has a costing of this policy been requested under Section 29 of the Charter of Budget Honesty (ie from the Treasury or the Department of Finance)?	No			
Details of the public release of this policy (Date, by whom and a reference to that release):	http://greens.org.au/sites/greens.org.au/files/Policy%20initiative%20- %20Sustainable%20Water%20Institute_0.pdf			
Description of policy				
Summary of policy (as applicable, please attach copies of relevant policy documents):	 Establish a national Sustainable Water Institute, which: Administers a \$100M (over forward estimates) fund for key water innovation programs. Focuses on water-sensitive urban design, sustainable agriculture, water recycling, water efficiency and Australia's water resilience generally. Located in the Adelaide metropolitan area, as an urban renewal project, and because South Australia's climatic conditions make it a key area for water innovation. Staff levels of the institute to reflect that of institutes of a similar size Capital costs developed from scratch. 			
What is the purpose or intention of the policy?	The primary goal is advancing the state of research and development on Australia's water resilience generally. The secondary goal is an urban renewal project – to boost South Australia's economy by investing Commonwealth funds in an Adelaide-based enterprise.			
What are the key assumptions that have been made in the policy, including:				
Is the policy part of a package? If yes, list the components and interactions with proposed or existing policies.	No			

Where relevant, is funding for the policy to be demand driven or a capped amount? If a capped amount, are the costs of administering the policy to be included within the capped amount or additional to the capped amount?	Up to a cap.
Will third parties (for instance the States/Territories) have a role in funding or delivering the policy? If yes, is the Australian Government contribution capped, with additional costs to be met by third parties, or is another funding formula envisaged?	Not directly – some elements of the Institute's work could be implemented by local councils, but this does not affect this proposal.
Are there associated savings, offsets or expenses? If yes, please provide details.	No
Does the policy relate to a previous budget measure? If yes, which measure?	N/A
If the proposal would change an existing measure, are savings expected from the departmental costs of implementing the program?	N/A
Will the funding/program cost require indexation?	No
If yes, list factors to be used.	
Evnected impacts of the proposal	

Expected impacts of the proposal

If applicable, what are the estimated costs each year? If available, please provide details in the table below. Are these provided on an underlying cash balance or fiscal balance basis?

Estimated financial implications (outturn prices)^(a)

	2016–17	2017–18	2018–19	2019–20
Underlying cash balance (\$m)	-1.3	-26.6	-26.6	-26.6
Fiscal balance (\$m)	-1.3	-26.6	-26.6	-26.6

(a) A positive number for the fiscal balance indicates an increase in revenue or a decrease in expenses or net capital investment in accrual terms. A positive number in the underlying cash balance indicates an increase in revenue or a decrease in expenses or net capital investment in cash terms.

What assumptions have been made in deriving the expected financial impact	
in the party costing (please provide	
information on the data sources used	
to develop the policy)?	

Has the policy been costed by a third party?	No			
If yes, can you provide a copy of this costing and its assumptions?				
What is the expected community impact of the policy?	This policy will enhance the state of Australia's research and development capacity on water resilience, with a direct benefit to the engaged in the water and research and development sectors, and a benefit to the community via enhancing the state of our water			
How many people will be affected by the policy?				
What is the likely take up?	resilience.			
What is the basis for these impact assessments/assumptions?				
Administration of policy:				
Who will administer the policy (for example, Australian Government entity, the States, non-government organisation, etc)?	Independent, within the Environment portfolio			
Please specify whether any special administrative arrangements are proposed for the policy and whether these are expected to involve additional transactions/processing (by service delivery agencies).	Yes, there would be expenses associated with the quantum of the funding program and the costs associated with running an Institute and administering the program.			
Intended date of implementation:	1 September 2016			
Intended duration of policy:	Ongoing			
Are there transitional arrangements associated with policy implementation?	No			
List major data sources utilised to develop policy (for example, ABS catalogue number 3201.0).				
Are there any other assumptions that need to be considered?	No			

NOTE:

Please note that:

The costing will be on the basis of information provided in this costing request.

The PBO is not bound to accept the assumptions provided by the requestor. If there is a material difference in the assumptions used by the PBO, the PBO will consult with the requestor in advance of the costing being completed.
