

**TO THE HONOURABLE THE SPEAKER AND MEMBERS OF  
THE HOUSE OF REPRESENTATIVES**

This petition of concerned Australians calls on the House of Representatives to support Government funding for Soliris through the Life Saving Drugs Program (LSDP) for patients living with 'aHUS' – an ultra-rare, life-threatening, genetic disease.

Dr. [Name],  
Member of Parliament,  
[Constituency],  
[State/Territory],  
[Address],  
[City], [State/Territory], [Postcode].  
[Phone Number],  
[Email Address].

I, [Name],  
[Address],  
[City], [State/Territory], [Postcode].  
[Phone Number],  
[Email Address].

I am writing to you regarding the ultra-rare genetic disease 'aHUS' (atypical Hemolytic Uremic Syndrome). This disease is a life-threatening condition that affects the kidneys and can lead to kidney failure, stroke, and other serious complications. There is currently no cure for 'aHUS', and the only treatment available is Soliris (ecplizumab), a life-saving drug that has been shown to significantly improve the quality of life and survival of patients with this disease.

Unfortunately, Soliris is not currently funded by the Life Saving Drugs Program (LSDP) in Australia. This means that patients with 'aHUS' are unable to access this life-saving drug, which is a significant barrier to their health and well-being. I am therefore writing to you to request that you support Government funding for Soliris through the LSDP for patients living with 'aHUS'.

I am confident that you will understand the importance of this request and will take the necessary steps to ensure that patients with 'aHUS' have access to this life-saving drug. Thank you for your time and consideration.
