

**TO THE HONOURABLE THE SPEAKER AND MEMBERS OF
THE HOUSE OF REPRESENTATIVES**

This petition of Australian citizens who recognise that equitable access to cancer-specific services is a priority,

draws to the attention of the House: the unmet need for expert medical advice and support for all Australian patients suffering from **neuroendocrine (NET) cancers** so as to improve their quality of life and clinical outcomes.

We therefore ask the House to: dutifully provide continued funding for the Unicorn Foundation's national Neuroendocrine Cancer Nurse Specialist telephone Support Service. This service operates Monday to Friday from 9am-5pm and provides information, advice, support and a medical referral system which is unique to neuroendocrine cancers and is not replicated or provided for by any other National or State based cancer-related organisation.
