

PETITION TO THE HOUSE OF REPRESENTATIVES

- This petition of East Melbourne residents draws to the attention of the House the increasing amount of air traffic of fixed wing and helicopter aircraft and their patterns of travel over the East Melbourne area, for example helicopters hovering for prolonged periods of time, which is impacting greatly on the quiet enjoyment and general amenity of the residents of East Melbourne and surrounds.
- The undersigned therefore request that the House of Representatives do all in its power to take action to address the noise impacts of aircraft on East Melbourne residents.
