Subject: Proof Hansard Corrections - Inquiry into the rehabilitation of mining and resources projects as it relates to Commonwealth responsibilities - Port Augusta public hearing Monday 3 September 2018 [DLM=For-Official-Use-Only]
Date: Thursday, 27 September 2018 4:22:43 PM

For Official Use Only

Good afternoon,

Please note for the record that my response of “June 2015” to the question about the earliest moment the EPA was alerted to the potential closure of power stations was incorrect, it was “February 2015” when the EPA was first alerted.

I would also like to take this opportunity to provide the Committee with the following additional information *as requested during the hearing*:

- SA Health advice: https://www.epa.sa.gov.au/business_and_industry/industry-updates/flinders-power-port-augusta
- SA EPA landfill guidelines: https://www.epa.sa.gov.au/environmental_info/waste_management/solid_waste/landfill
NB: The ash dam is not considered a landfill site, however the SA EPA did take this into account, noting alternate caps can be proposed and assessed by the EPA for existing cells.

Kind regards

Tony Circelli
