

Esmond Smith

Dear Senate Secretariat,

**RE: Corrections to Proof Committee Hansard from the public hearing on 11/11/16**

Please find attached a printed version with marked corrections to the Proof Committee Hansard, Senate, Education and Employment Reference Committee, Government's workplace bargaining policy and approach to Commonwealth public sector bargaining, (public), Friday 11 November 2016, Canberra. I have only provided the pages (and corrections) relevant to when I appeared.

There is one correction on page 18 (where a missing word should be added), and two corrections on page 20 (where the circled acronym and word should be replaced with the acronym and word indicated).

In addition, as I indicated I would provide for Hansard purposes on line 4 of paragraph two on page 18, I provided the following internet link: <http://www.ena.asn.au/energy-prices> This was provided via email to the Committee Secretariat on 14/11/16 at 7:55am. I assume this link might be added after "for *Hansard* purposes" on page 18 in the final version of Hansard. However, please note that I have not marked the proof Hansard at this point as the proof Hansard is correct as to what was stated in the hearing.

If the Secretariat, or the Committee, requires any clarification or anything further to assist them, they should contact me.

Kind Regards, Esmond Smith
