Primary Care Division	National Stillbirth Action and Implementation Plan	COAG/Department of Health	4 December 2018	\$0.14	Under development. Public release anticipated December 2020.	No funding allocated for implementation.	<p>4 December 2018 – Minister Hunt announced a number of strategies to reduce stillbirth rates in Australia including the development of a National Stillbirth Action and Implementation Plan.</p>	<p>When announcing the development of the Plan, the Minister announced funding of \$7.2 million for research and education programs. This has been allocated to implementing the Safer Baby Bundle, stillbirth education & awareness programs, and stillbirth research. In addition, the government has invested in bereavement support and intensive support for families following stillbirth. All of these measures align with actions in the draft plan.</p> <p>Additional funding will be sought in a Budget context to continue and expand these activities and implement tasks in the Plan.</p>

Primary Care Division	National Palliative Care Strategy 2018	Department of Health https://www.health.gov.au/sites/default/files/national-palliative-care-strategy-2018.pdf	8 March 2017	\$253,000 (GST excl)	Endorsed by all Health Ministers (CHC) in December 2018 Publicly released in February 2019	\$96,905 (GST excl) for the development of the Implementation Plan for the National Palliative Care Strategy. Funded from the Public Health and Chronic Disease Program (PRI025).	CHC Communique outlined endorsement of all Health Ministers.	The National Palliative Care Strategy is intended to be used by all Australian governments, as well as organisations and individuals, in guiding the improvement of palliative care across Australia. The National Palliative Care Strategy provides an overarching vision for Palliative care in Australia: that people affected by life limiting illnesses get the care they need to live well. The Strategy outlines six guiding principles as fundamental to ensure that all people experience the palliative care they need. An Implementation Plan was approved by Health Council out of session on 12 August 2020.
Primary Care Division	National Roadmap for Improving Health Services for People with Intellectual Disability (the Roadmap)	Department of Health https://www1.health.gov.au/internet/main/publishing.nsf/Content/national-roadmap-for-improving-the-health-of-Australians-with-intellectual-disability Latest Ministerial announcement (26 August 2020): https://www.health.gov.au/ministers/the-hon-greg-hunt/mp/media/improving-health-care-for-people-with-intellectual-disability	As requested by Minister Hunt, following his discussions with the Council for Intellectual Disability (CID) in March 2019, a Roundtable on the health of people with intellectual disability was convened on 2 August 2019. The outcomes of the Roundtable were used to develop an Outline of the Roadmap.	Approximately \$14,000 (GST inclusive) was expended to host the August 2019 roundtable with stakeholders. Note that the costs of the 2020 roundtable and smaller group meetings are yet to be finalised.	Under development. The Outline of the Roadmap was approved by the Minister on 16 September 2019, and published on the Department of Health website on 4 October 2019. A further, face-to-face Roundtable was due to be held on 7 April 2020 to further develop the Roadmap. However, due to the COVID-19 pandemic, this had to be cancelled. The Department will instead convene a series of plenary roundtables and targeted smaller group discussions with stakeholders to further develop the Roadmap, between 2 November 2020 and 31 March 2021. The Roadmap will then be submitted to the Minister for consideration in April 2021.	On 27 February 2019, Minister Hunt announced a \$6.5 million (GST excl.) investment over four financial years (2020-21 to 2023-23) for the development and implementation of a Primary Care Enhancement Program (PCEP). The PCEP is a short-term priority under the Roadmap. The Department is providing: <ul style="list-style-type: none"> a total of \$5.75 million (GST exclusive) to four lead Primary Health Networks (PHNs) to develop the PCEP over four years from 2020-21, with a view to a national rollout across all PHN regions; and funding of \$810,762 (GST excl) to the Council for Intellectual Disability (CID) to lead the development of national resources for the PCEP over two years from 2020-21. 	Minister Hunt endorsed the Summary and Recommendations of the Roundtable, including the Outline of the Roadmap, on 16 September 2019. Minister Hunt announced funding for the PCEP on 27 February 2020. <ul style="list-style-type: none"> On 26 August 2020, Minister Hunt announced the four PHNs selected to lead development of the PCEP): <ul style="list-style-type: none"> Central and Eastern Sydney PHN; Western Victoria PHN; Central Queensland, Wide Bay, Sunshine Coast PHN; and Tasmania PHN. 	The Roadmap has not yet been finalised. On 27 February 2020, Minister Hunt announced to the expenditure of funds for development of a PCEP, which is a short term priority under the Roadmap.

Primary Care Division	The Primary Health Care 10 Year Plan	Department of Health	August 2019	To be confirmed, as still in development	Under development, in light of the ongoing COVID-19 situation, the 10 Year Plan will be delivered at Budget 2021–22	\$448.5m for the Voluntary patient enrolment for 70 years and over measures \$7.2m for the Voluntary patient enrolment Indigenous over 50 years measures	August 2019 – Minister Hunt announced Australia’s Long Term National Health Plan 2019-20 Budget Strengthening Primary Care – Primary Care Funding model 2019-20 MYEFO- Guaranteeing Medicare - strengthening primary health care – expanding access to flexible models of care funding for Indigenous Australians 18 October 2019 – Minister Hunt announced the establishment of the Primary Health Reform Steering Group	Voluntary Patient Enrolment for 70 years and over and Indigenous for 50 years and over. The Primary Health Care Reform Steering Group has called for the Government to pursue a revised model of voluntary patient enrolment post COVID-19, as such this measure did not commence on 1 July 2020. The Government is working with health and system experts on the revised voluntary patient enrolment model, which will encourage GPs to enrol their patients to formalise and strengthen the existing relationship between the patient and their regular GP in the setting of the practice/service

	framework for improving Aboriginal and Torres Strait Islander health through research	advice/aboriginal-and-torres-strait-islander-health/road-map-3					us/news-centre/new-focus-first-peoples-renal-emotional-health-cancer	<ul style="list-style-type: none"> Commits to spend at least 5% of its funding on Indigenous health Has undertaken a number of research calls in priority areas of Indigenous health in response to the Roadmap (e.g. Healthy Ageing \$5.6m; Nutrition \$6m) Is in the process of funding a \$10m National Network for Aboriginal and Torres Strait Islander health researchers.
Technology Assessment and Access Division	The draft National Strategy for Organ Donation, Retrieval and Transplantation (the Strategy).	Department of Health https://www.health.gov.au/resources/publications/review-of-the-organ-donation-retrieval-and-transplantation-system-final-report	On 13 April 2018, COAG Health Council members agreed to a two-phased Review of the Australian organ donation, retrieval and transplantation system (Organ Review).	To be determined The cost of the Phase 1 of Review was \$0.4M	Under development The department engaged Ernst and Young to undertake Phase 1 which sought to examine pre and post transplantation services and identify barriers to equity of access to transplant waiting lists and transplantation services for all Australians.	To be confirmed, still in development	On 21 February 2020, the Phase 1 <i>Review of the Australian organ donation, retrieval and transplantation system Final Report</i> (Review Report) and an All Governments' Statement were published on the department's website. In the statement, Commonwealth and state and territory governments acknowledged the issues identified and agreed to consider the 57 recommendations.	<p>A committee comprising senior government officials from all jurisdictions and the Organ and Tissue Authority (OTA) is developing the National Strategy for Organ Donation, Retrieval and Transplantation (the Strategy). Finalisation of the Strategy has been delayed by COVID-19.</p> <p>Due to this delay an Early Action Plan has been developed. It aims to inform the Strategy by consolidating and progressing actions forecast to require policy decisions or could benefit from background work to underpin future actions</p>
Technology Assessment and Access Division	draft National Policy Framework for the Australian Eye and Tissue Sector (the Framework)	In January 2017, all governments accepted the recommendations of the Eye and Tissue Report and agreed to its public release. https://www.health.gov.au/resources/publications/governments-statement-on-the-analysis-of-the-australian-eye-and-tissue-sector https://donatelifegov.au/news-events/news/analysis-australian-tissue-sector	In June 2015, PwC was commissioned by the OTA to undertake an analysis of the Australian eye and tissue sector.	To be determined	Under development In response to a 2016 PricewaterhouseCoopers (PwC) review of the Australian eye and tissue sector, a Commonwealth-led Jurisdictional Eye and Tissue Steering Committee is developing the Framework	To be confirmed, still in development	The all governments' statement shows all Australian governments are strongly committed to eye and tissue donation and transplantation being fair, efficient and supplied within a sustainable and cost-effective framework.	The Eye and Tissue Report presents an overview of the eye and tissue sector, as informed by stakeholders in eye and tissue banking, government and clinical sectors and makes recommendations to ensure the future sustainability of the tissue sector.
Technology Assessment and Access Division	draft National HPC Framework (HPC Framework)	The HPC Review was provided to stakeholders on a confidential basis in June 2018.	All governments funded a review of the HPC sector in 2016-17.	To be determined	Under development	To be confirmed, still in development	Nil	The HPC Framework sets out agreed policy principles and actions relating to publicly-funded HPC donation for transplantation.
