
Dear

I am seeking information about the funding profile and actual expenditure for the following initiatives associated with the \$100 million commitment to fund the Third Action Plan:

- \$20 million for the prevention and early intervention programs to break the cycle of domestic and family violence.
- \$25 million for services for Aboriginal and Torres Strait Islander Australians experiencing family violence.
- \$15 million to improve and expand national domestic and family violence services
- \$30 million for frontline legal services to support women experiencing violence.
- \$10 million to respond to 'revenge porn' and online abuse.

Specifically:

What was the start date and end date for each of these initiatives?

What is the profile of the estimated expenditure under these initiatives?

What is the actual funding profile to date over the life of the Action Plan?

The \$100m for the 3rd Action Plan built on an ongoing funding pool of \$25 million a year – which underpins the National Plan.

What ongoing programs are funded from the \$25 million?

Please provide the funding profile for each program over the budget and forward estimates.

I would appreciate it if the Department could provide this advice over the course of today's hearings. I am providing a written request in order to facilitate smooth identification of the required information.

If you could forward this to the Department I would appreciate it.

Jenny McAllister
