I'm gonna let you know some information that I'm not meant to know.

*You know how there's all of these, like, fee free courses coming out by TAFE, which, if you didn't, you should f***ing most definitely hit that up.*

*Holy f***.*

Pretty sure in Queensland you can just like study to be a nurse, at TAFE, for free.

Like \$30,000 that you don't have to pay.

The TAFEs do not talk to each other.

So if you're into traveling [laughs].

When I first moved to the Sunny Coast, I studied a Cert 3 in conservation land management.

That course was free.

That was kind of more so to help the youth out.

I was under 25 at the time, so it was free.

In the middle of the year, I'm going up to Cairns to study my Coxswain, which is like to drive boats and stuff.

That course falls under the Fee Free TAFE, hence why I'm going to Cairns, I'm getting a cool road trip out of it.

Now enrolled to study Outdoor Education, next year at TAFE Newcastle.

It's free.
