OPENING STATEMENT SECRETARY LIZ COSSON AM, CSC BUDGET ESTIMATES 2020-21 FOREIGN AFFAIRS, DEFENCE AND TRADE LEGISLATION COMMITTEE 26 OCTOBER 2020 MAIN COMMITTEE ROOM, PARLIAMENT HOUSE

Word count 675 (excludes headings) 5 min

Thank you Chair. I would like to update the Committee on significant developments since our appearance in March.

I take this opportunity to acknowledge and thank all staff of the Department for their efforts maintaining services to veterans and families, continuing with our transformation program and adapting to new ways of working in response to the COVID-19 pandemic.

I also take this opportunity to acknowledge the work of our ex-service organisations and particularly the advocate community, for their ongoing patience during this challenging time and their commitment to our veteran community.

COVID-19

During COVID we have continued to deliver to veterans and their families and reach out to the most vulnerable in our veteran community; released special enews bulletins; sent SMS text messages; maintained communications with exservice organisations and wrote to GPs regarding telehealth services and to pharmacists.

We were also able to contact those residing in designated COVID "hot spots" to offer support.

Open Arms offices remained open with phone counselling available 24/7 and the website remained an important source of self-help, including COVID-specific resources.

We also commemorated the service and sacrifice of Australians in defence of our nation. Anzac Day 2020 saw historic domestic participation in a range of community commemorations. Also a COVID safe nationally televised service to mark the 75th anniversary of the end of the Second World War. There has also been almost 6,000 registrations for the WWII Commemorative Medallion and Certificate of Commemoration.

Veteran Centric Reform – Transformation

We continue to transform through our Veteran Centric Reform program.

We continue to partner with Defence to know veterans and their families when they enlist, during their service and before they transition.

The number of veterans who have registered through our online channel MyService, and the number of claims lodged, continues to increase.

The introduction of the Australian Defence Veterans' Covenant, including the Veteran Card and Lapel Pin, has also helped us identify and connect with more veterans. And the new question regarding ADF service in the 2021 Census will help identify more veterans.

We continued to consolidate our telephone lines and launched 1800 VETERAN.

Claims Processing

We have made it easier for veterans and families to connect with us, resulting in an unprecedented increase in claims received and on hand.

Although we have made incredible productivity gains this year, particularly during COVID and we have increased the number of claims we have finalised, keeping up with the demand and processing claims as quickly as we would like remains a challenge. I acknowledge that some are waiting for long periods for their claims to be finalised.

Budget 2020-21 and Interim Response to the Productivity Commission's Final Report

\$34.8 million (\$11.6 million mini Budget in June 2020, \$23.2 million in the October Budget) in additional funding has been provided to DVA to assist with claims processing.

DVA received funding through the 2020-21 Budget to provide targeted support for the mental health and wellbeing of veterans and their families, and deliver the right support and services for those transitioning to civilian life and supporting them into meaningful employment.

As part of the Budget, the Government also delivered the interim response to the Productivity Commission's report, *A Better Way to Support Veterans*.

The PC's report is wide-ranging and complex and Government will continue to consult with the veteran community to consider and address the remaining recommendations as part of the final response in the 2021-22 Budget.

Turning to other developments in the portfolio.

National Commissioner for Defence and Veteran Suicide Prevention

The Department welcomes the appointment of the interim National Commissioner for Defence and Veteran Suicide Prevention, Dr Bernadette Boss. I am committed to supporting her important work to improve suicide prevention efforts, including through the independent review of past Defence and veteran suicides.

Veteran Family Advocate

I have welcomed the new Veterans' Family Advocate, Ms Gwen Cherne who will directly engage with the families of veterans and help bring their perspectives to the heart of veteran policy and decision-making and also work closely with the National Commissioner.

I look forward to further updating the Committee on progress with other key initiatives including, Psychiatric Assistance dogs, Veteran Wellbeing Centres, the Veterans' Mental Health and Wellbeing Strategy and National Action Plan and the DVA Family and Domestic Violence Strategy 2020-25.

Thank you Chair. Attached to this statement are some facts and figures for the Committee and I welcome questions. ENDS

Facts & Figures (at 30 September 2020)
