| 001     | Wong    | DPRK sanctions     | <p><b>Ms Adamson:</b> Senator Wong asked that we table a document setting out Australia's autonomous DPRK sanctions implemented earlier this year. We table a document which does this covering amendments to the sanctions regime in July and August this year. Thank you.</p> <p><b>Senator WONG:</b> Could I have one follow-up? Does that mean we would now have, with a question on notice about which I was asking questions and this, a full list of all the sanctions that Australia is engaged in with respect to the DPRK? If not, can I have them in a document?</p> <p><b>Mr Larsen:</b> Yes, you can. I will give you some more material, because there are also some sanctions that have been implemented pursuant to the security council resolution regime.</p> <p><b>Senator WONG:</b> Mr Larsen, could you do a consolidated document so we can look at one thing that says, 'This is the state of Australia's sanctions, unilateral and multilateral, against the DPRK?' That would be best.</p> | DFAT               | Spoken             | 7 and 42     |
| 002     | Wong    | Myanmar - Rohingya | <p><b>Senator WONG:</b> I want to come to that point. Can I first ask about the Kofi Annan report. The Advisory Commission on Rakhine State, chaired by Mr Annan, provided the report <i>Towards a Peaceful, Fair and Prosperous Future for the People of Rakhine</i>. Has the government articulated a position in relation to that report?</p> <p><b>Mr Green:</b> The government of Myanmar?</p> <p><b>Senator WONG:</b> No—our government.</p>  | DFAT               | Spoken             | 14           |

|-----|-------|-----------------------------|---|------|--------|----|
|     |       |                             | <p><b>Mr Green:</b> I don't know whether it's been said in public in any forum, but I can tell you that the position of the government is we support the Annan report and we stand ready to support it not only with words but with funding if there is a possibility of supporting the particular measures that the report indicates are important.</p> <p><b>Senator WONG:</b> It's obviously in the interests of humanity, but also in the international community's interests, for the recommendations of that report to be implemented, given the circumstances you've outlined. Why hasn't the government made any public statement supportive of the Annan recommendations?</p> <p><b>Mr Green:</b> I would have to check whether the government has made a statement. But if I can explain—</p> <p><b>Senator Brandis:</b> Let me take that on notice. It may be that the foreign minister has said something.</p>                  |      |        |    |
| 003 | Singh | Rohingya - Humanitarian aid | <p><b>Senator SINGH:</b> I'm interested in the number of unaccompanied minors currently residing in Cox's Bazar.</p> <p><b>Mr Isbister:</b> We can take that on notice and provide you with that.</p>   | DFAT | Spoken | 17 |
| 004 | Moore | Rohingya-                   | <p><b>Senator MOORE:</b> Can I just ask one question. You can take this away. I'd really like to get the funding actually defined as to where it's gone up until now. Mr Isbister, you've been giving bits of information—that this much is going there and this much is going there. Could we get that spelt out.</p> <p>Also, on the website it talks about the number of people who are going to be assisted. I know that doesn't link, because this could include our joint arrangements with other agencies as well. I just want to ask one question. When we got the numbers earlier, there was the 600,000, which is the current discussed number about the people who are fleeing at the moment, and the number who are in Bangladesh now is about 830,000, including the people who've been stuck there for years in terms of the process. On the website it says: 'The people who are displaced, 603,000; the people in need,</p> | DFAT | Spoken | 19 |

|     |       |                    | <p>1,200,000.' Can I just ask, not now but on notice, what those figures mean.</p> <p><b>Mr Isbister:</b> The main reason is that those in need are not just Rohingya refugees. There are also host communities.</p> <p><b>Senator MOORE:</b> Yes.</p> <p><b>Mr Isbister:</b> The figures that Ms Klugman and Mr Green gave were around the Rohingya, both those who had been before 25 August and those subsequent, but the figures in the Humanitarian Response Plan also include some Bangladeshi in host communities who would be receiving some assistance.</p> <p><b>Senator MOORE:</b> I thought that would be the case, but that's absolutely not clear in the way the website process is put up. It's under the heading 'assistance in response to displacement from Rakhine State, Myanmar'. That's the heading. As you know, there is so much interest at the moment across the community in this. I think people are confused, and they need to get information as straight as they possibly can.</p> <p><b>Mr Isbister:</b> Point taken, Senator. We'll make sure we—</p> <p><b>Senator MOORE:</b> That would be great.</p> <p><b>Mr Isbister:</b> Just on the figures: we can provide that quite easily</p> |      |        |        |
| 005 | Singh | Rohingya           | <p><b>Senator SINGH:</b> Can you provide on notice the responses that have been given to the Australian government from the Myanmar government?</p> <p><b>Mr Green:</b> Some of those would be in private. But, to the extent that they're in the public domain, I would be happy to do that, Senator.</p>  | DFAT | Spoken | 20     |
| 006 | Singh | Myanmar - Rohingya | <p><b>Senator SINGH:</b> Finally, if we can go back to the pledging conference that occurred last Monday, understanding Australia pledged \$10 million, I just want to know how that compares with other countries and whether our portion is a fair share compared to the other countries?</p> <p>....</p> <p><b>Mr Isbister:</b> With the actual pledges on one day, we will take it on notice and give you a figure, but we were certainly</p>   | DFAT | Spoken | 22 -23 |

| 007 | Wong  | DPRK letter        | <p><b>Senator WONG:</b> I've got a few questions here but I think I've got the answer. The decision to make the letter public was made in the foreign minister's office?</p> <p><b>Ms Adamson:</b> I think that's a question for the foreign minister's office.</p> <p><b>Senator WONG:</b> I will ask Senator Brandis, he can take on notice who decided to make that letter public?</p> <p><b>Senator Brandis:</b> Yes.</p>   | DFAT | Spoken | 11 |
| 008 | Abetz | Myanmar - Rohingya | <p><b>Senator ABETZ:</b> Having visited the refugee camps along the Thailand border, can you advise what ongoing support the Australian government is providing in that area or to those camps?</p> <p><b>Mr Green:</b> I would have to take that on notice.</p> <p><b>Senator ABETZ:</b> Alright, please do.</p> <p><b>Mr Isbister:</b> Just briefly, I'd say we continue to provide humanitarian assistance on the Thai-Burma border. The exact amount in this calendar year we can take that on notice and come back to you on.</p>  | DFAT | Spoken | 24 |
| 009 | Moore | Myanmar - Rohingya | <p><b>Senator MOORE:</b> There are a couple of final questions from us around the issue in Myanmar. They relate to Woodside having a third gas discovery off a Rakhine state frontier in Myanmar on 14 August. Can the department tell us what Australian companies have operations in this area? Is there any support being sought by these companies in terms of their own safety, the safety of their personnel, the safety of their investment? Has there been any impact on the activities—it's mainly mining, as we know. Is there any particular process from the government to ensure that companies or their employees are not involved in the crisis, either as victims or as perpetrators?</p> <p>...</p> <p><b>Senator MOORE:</b> Can we put those on notice then, Mr Green. They're questions that we haven't put to you in the number of briefings which the department has provided to</p> | DFAT | Spoken | 35 |

|     |           |                    | <p>people in this place. I want to put on record our appreciation for the number of briefings that DFAT has provided in response to genuine interest in this parliament around all these issues. So can I put that on record. If you could get us a response to that from the whole position of the Woodside company and any other Australian companies that may have activity there. That would be very useful.</p> <p><b>Mr Green:</b> We will get back to you with what we can.</p>  |      |        |    |
| 010 | McKim     | Myanmar - Rohingya | <p><b>Senator McKIM:</b> The department can take this on notice.</p> <p><b>CHAIR:</b> I'm sure they can take it on notice, Senator McKim.</p> <p><b>Senator McKIM:</b> I want to know: to the best of the department's awareness, how many Australian companies currently have investments in Rakhine State, including the Rakhine Basin. And, if there are companies, who are they and to what extent do they have people or assets on the ground in either Rakhine State or Rakhine Basin?</p>  | DFAT | Spoken | 38 |
| 011 | Di Natale | Adani Coal Mine    | <p><b>Senator DI NATALE:</b> Have any assurances about the level of public support provided by the Australian government been given?</p> <p><b>Ms Adamson:</b> Not that I'm aware of. But, as this matter crosses a number of portfolios, I'll take that on notice.</p> <p><b>Senator DI NATALE:</b> Has Adani made any request of DFAT with regard to the advocacy that DFAT has offered internationally?</p> <p><b>Ms Adamson:</b> I'll take that on notice. You were asking a very specific question, and I want to check before I answer it. I may be able to come back to you this afternoon. If I can do that, I will.</p> <p><b>Senator DI NATALE:</b> So you are not aware if Adani has requested any support from the Australian government—any lobbying; any advocacy of any sort?</p> <p><b>Ms Adamson:</b> I'm not aware. I will check with Ms Klugman.</p> <p><b>Ms Klugman:</b> As the secretary said, the department, including through our high commission in Delhi, has stayed</p> | DFAT | Spoken | 39 |

|     |                                |                 | in occasionally contact with the Adani company for updates on the progress of the project. On any specific requests from the Adani company to the Australian government for specific pieces of advocacy, as the secretary said, we will have to take that on notice. As you know, the government's position of support for this development has been repeated, including publicly, many times by representatives of the government.   |      |        |           |
| 012 | Di Natale                      | Adani Coal Mine | <p><b>Senator DI NATALE:</b> Just to be clear: were those letters that Senator Brandis referred to, effectively advocating for the proposal, written at the request of the Adani company?</p> <p><b>Senator Brandis:</b> Senator, I didn't refer to letters; I referred to a letter written by the Australian government to the Chinese government to confirm the project has received all necessary Queensland state government and Australian government environmental and mining approvals. So that's not advocacy; that is informing the Chinese government of certain facts.</p> <p><b>Senator DI NATALE:</b> Was that at Adani's request that that letter was sent?</p> <p><b>Senator Brandis:</b> I don't know.</p> <p><b>Ms Adamson:</b> We'll get back to you on that, Senator. But I would expect so, because a letter setting out the status of the project would have been generated as a result of a perceived need for that, I expect. But I will come back to you on that after the lunch break.</p> | DFAT | Spoken | 40        |
| 013 | Lambie, Di Natale and Xenophon | Adani Coal Mine | <p><b>Senator LAMBIE:</b> Maybe you can enlighten me—why do you need to let the Chinese government know that you are approving all the environmental approvals. Does this have to do with money being lent by the Chinese? Is this a protocol matter where you let the Chinese government know in your letter what is going on with the environmental procedure—what's the rationale behind that?</p> <p><b>Senator Brandis:</b> I don't have the letter to hand, Senator—</p> <p><b>Senator LAMBIE:</b> That's okay. If you can tell me the rationale.</p>   | DFAT | Spoken | 40,43, 44 |

**Senator Brandis:** I'm not in a position to answer your question beyond telling you, as I've told Senator Di Natale, that the letter, as I'm advised, merely confirms certain facts.

**Senator DI NATALE:** Did the letter also include information about public support for the mine?

**Senator Brandis:** I don't have the letter, Senator.

**Senator DI NATALE:** Could we have that letter tabled?

**Ms Adamson:** I don't have the letter, Senator.

**Senator DI NATALE:** Are you prepared to table that letter?

**Senator Brandis:** We will take your request on notice and see if we can help you.

.....

... **Senator XENOPHON:** Thank you. I understand Senator Brandis's unequivocal statements of the government's support for the Adani project, and that's well known. This letter to the Chinese government hasn't been well known. I understand that that will be tabled or provided in due course. Are you able to table that now or not?

**Ms Adamson:** We said we'd take that question on notice.

**Senator XENOPHON:** So you are not committing to tabling that?

**Ms Adamson:** No, I'm not committing to that.

**Senator XENOPHON:** Why not?

**Ms Adamson:** Because the letter, as I understand it—and I don't have a copy myself—has a couple of signatories, and there needs to be a consultation. It's not that we're not willing to, but it's not within my remit to say, yes, we can.

**Senator XENOPHON:** I understand. Can you tell me which part of the Chinese government was written to and at what level?

**Ms Adamson:** I think but would need to check that it was the National Development and Reform Commission. The chairman is He Lifeng, as I recall.

**Senator XENOPHON:** I am trying to understand. Why did the department see fit to write to the Chinese government about publicly available information about approvals? And

|     |           |                 | <p>was this the only information or request in that letter?<br/> <b>Ms Adamson:</b> The letter was not written by the department.<br/> <b>Senator XENOPHON:</b> Sorry. In terms of the correspondence, you're saying that the department didn't write the letter? It was written by the Australian government. Who wrote the letter to the Chinese government?<br/> <b>Ms Adamson:</b> It was not written by the department.<br/> <b>Senator XENOPHON:</b> Okay, so you'll take on notice who wrote that letter and the content of that letter.<br/> <b>Ms Adamson:</b> Yes.</p> <p><b>Senator LAMBIE:</b> Will we be able to obtain that letter as well?<br/> <b>CHAIR:</b> They have already taken it on notice. (p.44)</p>   |      |        |    |
| 014 | Di Natale | Adani Coal Mine | <p><b>Senator DI NATALE:</b> Have ministers or officials had conversations with any foreign officials, beyond the letter that you describe, where they have indicated that the project has all the necessary approvals or that the project would proceed?<br/> <b>Ms Adamson:</b> Again, Senator, not that I'm aware of. Senator Brandis has mentioned a single letter. I said in response to your earlier question that the fact that there are a number of documents I've identified for review shouldn't be read to imply there's been a significant amount of departmental activity. In fact, my understanding is that there has not been a significant amount of departmental activity.<br/> <b>Senator DI NATALE:</b> I'm also asking for any correspondence, any meetings or conversations with foreign officials beyond the letter that's been described. Could you take that on notice?<br/> <b>Ms Adamson:</b> I will, Senator.</p> | DFAT | Spoken | 40 |

| 015 | Di Natale | Adani Coal Mine                   | <p><b>Senator DI NATALE:</b> Has any representation been made about funding by the NAIF? I'm asking if in any of the correspondence—obviously, we have the letter that Senator Brandis says he will consider tabling—but beyond that letter, in other conversations or other correspondence, has any representation been made around whether a loan from the NAIF might proceed?</p> <p>....</p> <p><b>Senator DI NATALE:</b> Does any of the correspondence include information about Efic and any support that might be provided in the form of loans, insurance, et cetera?</p> <p><b>Senator Brandis:</b> As I say, Senator, I'm not aware of any such correspondence, beyond the single letter about which I've got some information. What I've said to you is that we will take on notice your request—may we take it compendiously to be a request—to examine what, if any, correspondence there is in relation to the matter, without conceding that there is, in fact, any correspondence beyond the one letter about which I have instructions.</p> <p>....</p> <p><b>Senator Brandis:</b> I want to add to an answer I gave before the luncheon adjournment in response to questions from Senator McKim. I said I wasn't aware of Adani having sought funding from the Northern Australia Infrastructure Facility. Adani has sought funding from the NAIF for its multi-user rail project linking the Carmichael mine with the port of Abbot Point. Investment decisions under the NAIF are made by an independent board. The government is not involved in those decisions. It's entirely a matter for that board as to what the decision would be. I'm advised the NAIF board is yet to make a decision in relation to the funding application.</p> | DFAT | Spoken | 40 and 43 |
| 016 | Di Natale | Adani Mine - Pacific Island Views | <p><b>Senator DI NATALE:</b> Let me ask this directly: have any Pacific Island leaders urged the Australian government not to proceed with the mine?</p> <p><b>Mr Sloper:</b> I'm not aware of any representation, Senator.</p> <p><b>Senator DI NATALE:</b> Not just representations—has there</p>  | DFAT | Spoken | 42        |

|     |          |   | <p>been any forum or any context in which Pacific Island leaders have urged Australia not to proceed with the Adani mine?</p> <p><b>Mr Sloper:</b> I can take that on record, if you wish, but I am not aware of any specific request of that nature.</p>  |      |        |    |
| 017 | Xenophon | Adani – FOI request and letter to China | <p><b>Senator XENOPHON:</b> Attorney, you said in an opening statement on this that the Commonwealth through its diplomatic missions, as I understand it, made representations to dispel the misrepresentations about the Adani project. Are you able to provide us, or can the department provide us, with details of those representations you the referred to and the context of those representations?</p> <p><b>Senator Brandis:</b> We'll take that on notice, Senator. The only example of which I have any information is the one letter to the Chinese government, which I've referred to. I don't know if there were any others, but, in any event, we will inquiry.</p> <p><b>Ms Adamson:</b> I am not aware, either, that there was anything other than that letter, although Ms Klugman may want to talk about it from an Indian perspective, given the regular contact that she referred to earlier between—</p> <p><b>Senator XENOPHON:</b> Given what the Attorney said quite openly, could we get copies of those letters and the associated documents in respect of that.</p> <p><b>Senator Brandis:</b> Certainly, but I want to stress, Senator, that the government's position of support for the Adani mine is very publicly known and, as the officers have said, from time to time there have been dealings with the High Commission in New Delhi and the company to basically update the situation. So, presumably, the government's support for what Adani proposes to do is generally known in India.</p> | DFAT | Spoken | 42 |

| 018 | Xenophon | FOI        | <p><b>Mr Larsen:</b> The FOI process is currently in train. It's been the subject of one extension of time, and a further extension of time has been requested. So the reference to substantial searches covers various posts and various offices, and potentially a large number of documents have been looked at. That doesn't mean that a large number of documents are necessarily relevant.</p> <p><b>Senator XENOPHON:</b> Although reference is made to several hundred pages of documents. I'm trying to understand how those documents fell within the scope of the request.</p> <p><b>Mr Larsen:</b> The request is currently underway. I don't have visibility of the particularly documents that the reviewer is looking at, but my understanding is that there are several hundred pages of documents potentially—</p> <p><b>Senator XENOPHON:</b> What search terms were used in the context of this?</p> <p><b>Mr Larsen:</b> I don't know the answer to that.</p> <p><b>Senator XENOPHON:</b> If you could take that on notice.</p> <p><b>Ms Adamson:</b> The original request was very broad. It would've been unmanageable. We've been seeking to narrow the scope of the request, and that process is underway. But I can say to you, for the avoidance of all doubt, that this does not indicate a great deal of activity on the department's part at all.</p> | DFAT | Spoken | 43 |
| 019 | Rice     | Falun Gong | <p><b>Senator RICE:</b> Finally, I'm interested in Chinese human rights and, particularly, the treatment of Falun Gong practitioners, which I raised at estimates 12 months ago. I'm interested in knowing what representations the Australian government has made this year, in relation to human rights abuses by Falun Gong practitioners, and what the Chinese government's response has been, and what the response has been to the Senate motion, that was moved last November, asking the Australian government to consider making it an offence to travel overseas to receive an organ acquired from a non-consensual donor, and establishing a register of Australians travelling overseas to acquire organ transplants.</p>  | DFAT | Spoken | 46 |

|     |          |                           | <p><b>Mr Fletcher:</b> We have raised human rights, in relation to Falun Gong, with China on a number of occasions. I'll have to take on notice the last time we raised it specifically in relation to Falun Gong. China's response to those representations has been to repudiate the notion that there are abuses going on. They regard any actions by the authorities against Falun Gong is of a lawful judicial nature and not as an abuse of human rights.</p>   |      |        |    |
| 020 | Kitching | Joyce citizenship presser | <p><b>Senator KITCHING:</b> Senator Brandis, firstly, did the foreign minister speak with you before holding the press conference?</p> <p><b>Senator Brandis:</b> I recall speaking with the foreign minister about the subject, but I don't know when the press conference was, whether it was before or after. Regarding the press conference of which you speak, I'm not in a position to tell you.</p> <p><b>Senator KITCHING:</b> It was 15 August and it was the press conference where the foreign minister discussed the fact that New Zealand was facing an election and that it would be very hard to build trust with those involved in allegations designed to undermine the government of Australia. It was that press conference. You did speak with her on the subject matter, but—</p> <p><b>Senator Brandis:</b> I recall being in conversations with the foreign minister about the matter because it was the political event du jour when it happened for a couple of days. But, as to the sequence of events, I'm not in a position to tell you because I don't remember.</p> <p><b>Senator KITCHING:</b> Are you aware of whether the foreign minister spoke with any other ministers?</p> <p><b>Senator Brandis:</b> That's a question you'd have to ask the foreign minister.</p> <p><b>Senator KITCHING:</b> Can you take it on notice?</p> <p><b>Senator Brandis:</b> Yes.</p> | DFAT | Spoken | 47 |

| 021 | Kitching | Public<br>Diplomacy -<br>Fashion | <p><b>Mr Byrne:</b> What we can provide on notice is a list of fashion related public diplomacy events conducted either in Australia or through our overseas posts in the life of or since the life of that strategy in 2014.</p> <p>...<b>Ms Adamson:</b> We can get you the information that you need. I think what my colleague was rightly worried about, given the resources pressures on us, was just the degree of detail that you wanted, but we can give you a sense of the sorts of things that we do—things like the consulate-general in Hong Kong facilitating and promoting AFC involvement in the world's largest leather trade show in March this year.</p> <p><b>Senator MOORE:</b> Sure. Information about the industry and—</p> <p><b>Ms Adamson:</b> Yes, scholarships, education—</p> <p><b>Senator MOORE:</b> if there are particular designers that are being focused on—that's the kind of thing that we want to know. In 2014-15, under a particular heading of fashion diplomacy, which was a newly promoted phrase in the program, we would like to know where it happened, the kinds of things it was focused on and who was involved. Give us what you can give us and then we'll come back.</p> <p><b>Ms Adamson:</b> We'll give you examples of that to illustrate the points that we've been making.</p> <p><b>Senator KITCHING:</b> And maybe the value of the program, if that's possible.</p> | DFAT | Spoken | 51 and 52 |
| 022 | Wong     | ODA<br>Expenditure               | <p><b>Senator WONG:</b> Okay. If you can do that, I'll have a look at them in the next break and see if there's anything I want to come back on. Can I go to question on notice 67, please. This is on the use of private contractors. You gave me some information—I asked about NGOs and engaging the private sector—and there is a table on page 2 of that, which sets out the amounts of money for contractors. There's also question on notice 236. This is, I think, an answer to a question from Senator Ludlam. So I'll be referring to both of those. At the</p>  | DFAT | Spoken | 53        |

Is that actual expenditure to a particular date for the 2016-17 year?</p> <p><b>Mr Wood:</b> That would be correct.</p> <p><b>Senator WONG:</b> Sorry. There's an asterisk on the next page: 'Data correct as of 10 March 2017'. That would mean 'actual expenditure from ODA as at 10 March 2017'. Can I have an updated figure, an equivalent table?</p> <p><b>Mr Wood:</b> I have to take that on notice.</p> <p><b>Senator WONG:</b> Okay. And what about an updated figure for the last line item, 'Total ODA expenditure'?</p> <p><b>Mr Wood:</b> Yes. Absolutely.</p> <p><b>Senator WONG:</b> You don't have that now? Because that's an actual expenditure for the past financial year.</p> <p><b>Mr Wood:</b> I don't have that information with me, no. We can take that on notice.</p> <p><b>Senator WONG:</b> Okay. Question on notice 236—actually it might be 235. My staff have just reminded me there's a distinction between DFAT ODA—of course—can I have Australian ODA total—so whole of government. I apologise.</p> <p><b>Mr Wood:</b> Thank you, Senator.</p> <p><b>Senator WONG:</b> I apologise, but I think it's meant to be question on notice 235 actually. That's the one with the table which breaks down ODA by different delivery partner type: 'multilateral, contractors, NGOs and other partners'. Is this DFAT ODA or whole-of-government ODA?</p> |      |        |           |
| 023 | Wong | ODA managed by contractors | <p><b>Senator WONG:</b> While that's happening, Senator Ludlam asked chamber question on notice No. 409, on essentially the same topic, the percentage of ODA managed by managing contractors, NGOs and so forth, I'd like an update to parts 3, 4 and 5 of that answer. I suspect you'll have to take that on notice. That is the proportion of aid funding expended through managing contractors as a percentage of total aid funding variation—top 10 contractors by amount, and the three largest contract holders by number of contracts.</p>   | DFAT | Spoken | 53 and 54 |

Is that what you would like?</p> <p><b>Senator WONG:</b> Yes. | 025 | Wong | ODA Expenditure and contractors | <p><b>Senator WONG:</b> Of our bilateral aid programs—bilateral country programs—I want to know how many of those would have had the majority, or perhaps even all, of their ODA expenditure either delivered through contracting out or some other competitive tender process.</p> <p><b>Mr McDonald:</b> I don't think there would be any with 'all'. But we'll have to take it on notice. We can provide that information, yes.</p> <p><b>Ms Adamson:</b> Senator, I just want to be clear about the question. In no case would we contract out the whole of the aid budget for delivering aid programs in a particular country, but are you talking about the proportion of aid delivered in that country, which might come from multilateral programs, delivered by major contractors—</p> <p><b>Senator WONG:</b> Can I tell you what sparked our interest?</p> <p><b>Ms Adamson:</b> Yes.</p> <p><b>Senator WONG:</b> It was a DFAT notice in relation to a Fiji aid program tender, which was headed 'proposed single facility' for delivery of Australia's bilateral aid program in Fiji. It's in a number of locations, three or four that I'm aware of. So it's a facility that has been put in place, and the Fiji one is an example and Mr Sloper can talk more about that. So, yes, they're reasonably new in that sense.</p> <p><b>Senator WONG:</b> So you have three such—I will come to Mr Sloper—</p> <p><b>Mr McDonald:</b> Three or four—I would have to take that on notice.</p>   |      |        |           |
| 026 | Wong | Ongoing bilateral program with Fiji | <p><b>Senator WONG:</b> In relation to single facility, what sort of proportion of Australian ODA goes via that architecture?</p> <p><b>Mr Sloper:</b> I will use an example from Fiji because that was where we started. The facility I think you're referring to is \$66 million over five years from 2017 to 2021. If it's the same one we're talking about, it was accorded to Coffey international development on 23 January in this year.</p> <p>...</p> <p><b>Senator WONG:</b> How much for the ongoing bilateral program is delivered through this architecture?</p> <p><b>Mr Sloper:</b> I would have to work out the exact percentage. As I said, the contract, as I'm aware, is \$66 million over five years. I will just need to do the maths and divide it for you and work it out as a percentage.</p> <p>... <b>Senator WONG:</b> Did you give me a figure in the end?</p> <p><b>Mr Sloper:</b> I gave an estimate of the percentage, which is approximately a third, not the exact figure. I'd like to understand what you understand to be the history in the Australian context of the target of 0.5 per cent of GNI target and the target of 0.7 per cent of GNI.</p> <p><b>Mr McDonald:</b> Well, certainly—while Mr Exell comes to the table—in terms of the bipartisan approach to the 0.5 per cent, leading up to the last few years, I think we've had discussions here on the government's position on that target. But there was a bipartisan target for a number of years, which you're very familiar with from when you were in government previously. That's no longer the target, for the reasons that we've outlined here previously around budget considerations and the like. So, that's my history on the 0.5. Mr Exell might be able to give a bit more on the 0.7.</p> <p><b>Mr Exell:</b> Sorry, Senator, but I can't give you specifics of the years in which various governments have committed to a 0.7 or a 0.5 target. I would have to take that on notice.</p> <p><b>Senator WONG:</b> Well, what's the history of 0.7? What's the genesis of it?</p> <p><b>Mr Exell:</b> The OECD DAC target? Again, I'd have to take on notice the specific years, by my understanding is that, when we look at the gap between financing needs of developing countries and countries' burden or ability to support that gap, then there was a general agreement at a global level for that as an aspirational target.</p> <p>...</p> <p><b>Mr McDonald:</b> Well, the target of 0.5 was originally in place, as you know, as a bipartisan arrangement, and then the discussions here—and Mr Wood might have the exact words—have been that given the budget situation and the need for budget repair there's not a target set, the way I understand it.</p> <p><b>Senator WONG:</b> Not even an aspirational target?</p> <p><b>Mr McDonald:</b> Well, I would like to check the words. Actual expenditure will vary according to the year and the activities, but we are working on the basis of something in that order. Last year, in 2016-17 it was \$70 million, but that was part of scaling up the new facility and programs.</p> <p><b>Senator MOORE:</b> Do you have figures through until 2020?</p> <p><b>Mr Sloper:</b> I don't have figures through there.</p> <p><b>Senator MOORE:</b> You don't have them in front of you, but—</p> <p><b>Mr Sloper:</b> We can come back to you on notice with that, because it's a set contract with a possible extension.</p> <p><b>Senator MOORE:</b> I think that is the contract, 2016-20, to have a look across the whole area. What proportion of Australian ODA to PNG is provided through the facility on an annual basis? It was \$70 million last year.</p> <p><b>Mr Sloper:</b> It was \$70 million last year, and we expect it to be in the order of \$90 million this year.</p> <p><b>Senator MOORE:</b> So proportion? I won't make you play with the computer there. We'll work that out. Senator Wong is after proportion; she is trying to look at that scope of the wider area. We will get that on notice.</p> <p><b>Mr Sloper:</b> To confirm, you would like that as a proportion of the PNG bilateral program and then the total ODA flow to PNG?</p> <p><b>Senator MOORE:</b> Absolutely, the same parameters that she asked in the first round of questions. This was a very big event for the Chinese government. They invited people from all over the world. Our relationship with China is important enough that we needed to have a senior government representative there. They invited Mr Ciobo and he accepted that invitation, and participated as a speaker in one of the sessions, helped with negotiating an outcomes document on trade liberalisation, and had, probably, side meetings with other counterparts.</p> <p><b>Senator GALLACHER:</b> I am going to ask specifically about those.</p> <p><b>Mr Fletcher:</b> I will have to take those on notice, I am afraid.</p> <p><b>Senator GALLACHER:</b> You probably wouldn't have this to hand, but what was the total cost of the visit?
