

Export Finance Australia – MD&CEO Opening Statement

- Thank you Chair and Committee members.
- As Managing Director and CEO, I'm pleased to inform the Committee that last financial year we delivered over A\$2.1 billion in finance to support Australian businesses and projects.
 - This includes delivering A\$1.5 billion on our Commercial Account, which is our highest ever commercial result.
 - We provided a record \$724 million in finance for small and medium businesses and enabled over \$9.7 billion in export contracts, projects and investments.
 - In total, we supported 131 customers across 471 transactions and contributed a pre-tax profit of \$52.8 million to the Commonwealth.
- These results reflect the growing scale of our operations based on our expanding mandates and the work and dedication of our financing specialists and enabling services and teams.
- As we look ahead, EFA is well positioned for continued strong commercial growth and effective delivery of our mandates.
- We are proud to support Australia's trade, investment and economic security – a commitment that continues to guide everything we do.
