As reported in the *Daily Telegraph* on 12 September 2024, Sheik Ibrahim Dadoun of the UMA celebrated the October 7 attacks at a rally in Lakemba, and the UMA has been linked to the extremist group Hizb ut-Tahrir.

In a media release published by Julian Hill MP, assistant minister for multicultural affairs and citizenship, the UMAC was specifically invited to apply for a social cohesion grant.

Despite his comments, last month assistant minister for multiculturalism Julian Hill specifically invited United Muslims Australia, along with two other Muslim groups, to apply for the grants.

Sheik Ibrahim Dadoun at a rally showing support for Palestine, in Lakemba.

A media release issued by Hill's office at the time said that "empowering young Australian Muslims locally is critical to building connections and tackling division, prejudice and hate."

The United Muslims of Australia website lists Dadoun as one of the organisation's sheiks and promoted as a speaker.

Along with celebrating October 7, Dadoun has also been present at a number of events organised by the group.

The UMA shared a joint statement by the Lebanese Muslim Association, PCiA, Australian Palestinian Advocacy Network, Islamic Council of Victoria et al, that there is “ethnic cleansing of Palestinians” and call for an embargo on weapon exports to Israel and the introduction of sanctions on the state of Israel.

JOINT STATEMENT IN SUPPORT OF SENATOR FATIMA PAYMAN'S STAND ON PALESTINE

From the River to the Sea, Palestine will be Free. 🇵🇸🇩🇪🇮🇸

The graphic is a white rectangular box with a thin grey border. At the top, it features a row of logos for various organizations: Palestinian Christians in Australia, Alliance, Islamic Council of Victoria, PCiA, 40th Anniversary of the Nakba, Jewish Council of Australia, PCiA, LMA, APAN, ICV, Islamic Council, and AMAN. Below the logos, the date "17 May 2024" is displayed. The main title "Support for Senator Fatima Payman's Stand on Palestine" is centered. The text of the statement follows, including a paragraph of support, a quote from Senator Payman, and a demand for action. At the bottom, contact information for ANIC, LMA, ICV, AMAN, and JCA is provided, along with a list of endorsing organizations.

17 May 2024

Support for Senator Fatima Payman's Stand on Palestine

We fully support Senator Fatima Payman's courageous stance on Palestine. Her recent statements, which coincided with the 76th anniversary of the Nakba, highlight her unwavering commitment to justice, human rights, and the pursuit of peace in a region long plagued by conflict and suffering.

Senator Payman's powerful words resonate deeply: *"My conscience has been uneasy for far too long and I must call this out for what it is. This is a genocide and we need to stop pretending otherwise. The lack of clarity, the moral confusion, the indecisiveness is eating at the heart of this nation."* Her recognition of Israel's actions as constituting genocide is a bold and necessary step towards holding accountable those responsible for human rights violations in the region.

In a political landscape often marked by silence or equivocation on the issue, Senator Payman's stance is truly commendable. By speaking out against injustice and raising awareness about the plight of Palestinians, she is shining a light on a humanitarian crisis that demands urgent attention from the international community.

We demand that the Australian government and all people of conscience follow and support Senator Payman's call to stand in solidarity with the Palestinian people. We call for an immediate end to the war on Gaza and the ethnic cleansing of Palestinians, an embargo on all weapon exports to Israel, and the introduction of sanctions on the state of Israel.

Thank you, Senator Payman, for your courage, integrity, and unwavering commitment to justice. Your leadership is indispensable in the fight for a future where all people can live in peace and security, free from oppression and discrimination. May your voice continue to be a powerful force for positive change in Australia and the world.

There is a much much better way. Imagine thinking that division, war, genocide, walls, checkpoints, hatred, dehumanising the other and continued scare mongering tactics are the way to resolve an issue..

Please share this as much as possible. Please read this yourself, encourage the young and old to get their copy, and circulate. It's a gentle reminder of what we could be and could have should we choose.. It is possible. We just need to open our eyes and understand as a first step no matter where you are in the world and which side of the supposed fence you are sitting on ..

Here are the book links to get your copy. At some point we are going to have to say enough.... You can make a difference ..

I wasn't meant to write this book as I was writing a leadership book, but then I realised how relevant it was and so poured my heart out in such a simple and gentle way without shying away from the facts. Then the further tragic events took place. This book obviously had to be written.. As a beautiful renowned author said to me yesterday, it's a voice that has to be heard.

Yesterday we spent time with the Prime Minister of Australia as well as the Minister for Home Affairs and the Minister for Education advocating for Human Rights. This is our duty. It's a call for all people to be treated as equals and we must stop falling for false narratives.

Please note that all profits go to humanitarian aid here in Australia.

I need your help to spread the word and circulate this book to as many people as possible. 🙏❤️

Humanising Freedom with justice and on equal terms is a call for Humanity..

27 October 2024: Ms Reem Borrows posted on her Instagram account (@reembo_1948) an image referencing “Sinwa’s final moment” appearing to praise or glorify Yahya Sinwar, the deceased leader of Hamas.

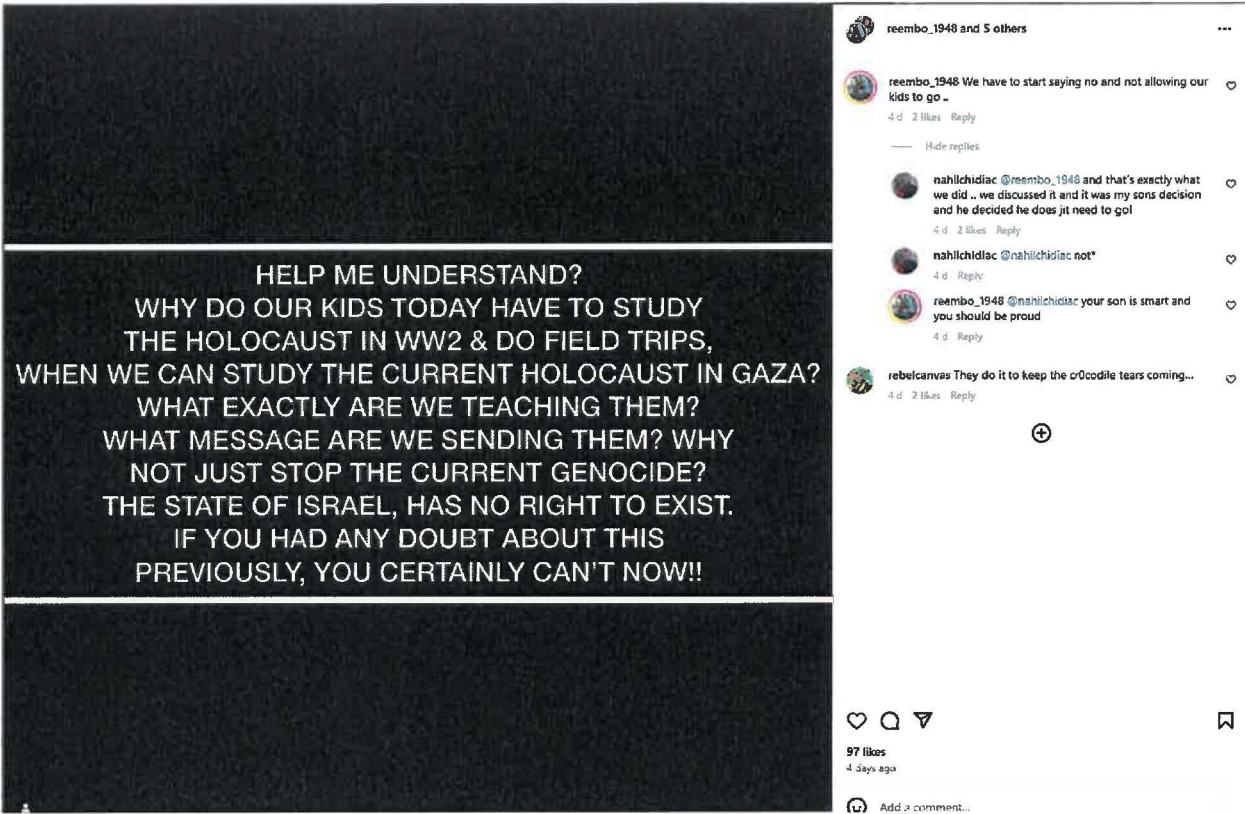

18 October 2024: In an Instagram post, Ms Borrows says “We witnessed today a leader fighting in the trenches to protect his people and was defiant to his very last breath”, appearing to praise or glorify the deceased leader of Hamas, Yahya Sinwar. Ms Banna from the PciA comments in support of the post, “Millions and millions...all over the world”.

Israel’s announcement of Sinwar’s death was announced by Israel’s Prime Minister on 18 October 2024: <https://x.com/netanyahu/status/1847026551629795532>

In October 2024, the IDF released drone footage of Sinwar’s final moments before his death, where he throws an object at the drone before he is killed. The line on this post which says ‘defiant till his very last breath’ appears to be referring to this.

25 October 2024: Ms Borrows posted an image to her Instagram account claiming that there is a Holocaust in Gaza, and that “The state of Israel, has no right to exist”.

23 October 2023: Ms Borrow's questions whether the State of Israel has right to exist and claims "there was always a plan to ethnically cleanse Palestine of its indigenous population" and "Palestine always was and always will be Palestinian land".

reembo_1948 and 4 others

...

reembo_1948 Some really important questions are being asked by many people from all walks of life, including Rabbi Cat Zavis who is exploring the following during an online gathering:

- If "every life is a universe", according to Jewish teaching, how can the current gēnocide be justified?
- How can one people who suffered a Gēnocide now commit a Gēnocide themselves?
- When the world said never again, how did it miss that it was meant to be never again for everyone, not a select few?

Further questions come to mind:

- Does the current State committing these atrocities have a right to exist? Because since 1948, if it wasn't clear then, it's 120% clear now, there was always a plan to ethnically cleanse Palēstīne of its indigenous population.

Palēstīne always was and always will be Palēstīnīan land.

The difference with our statement is that we welcome diversity and include all people and faiths to our land and have never had a calling to ethnically cleanse any set of people.

Expanding the "Greater Israel plan" will have huge negative ramifications on all. All Jews, Palestinians, neighbouring countries and globally will feel the severe negative impact. This is not an over the top post. Just observing and stating the obvious from one persons point of view.

I'm just not sure the Western Allied Governments understand the full catastrophic effects this will have while they are supporting this fascist regime. Is it naivety from the West or lack of care?

While governments are focusing on which flags should or should not be raised at rallies, we are watching the real terror unfold before our eyes.

Which ever way, if it is not stopped now, this will no longer be just a Palestinian plight or a hostile take over of Lebanon. It will be a global issue.

I'm in Australia, how can I help?

Demand the Australian Government act to prevent the ongoing genocide in Gaza:

Write to Prime Minister Anthony Albanese, your MP, Senators, Foreign Minister and Attorney General. Call on them to impose sanctions on Israel in response to the war crimes it is committing in Palestine. Demand that our politicians and government support the ICC's arrest warrants and that they condemn the ongoing violations of international law in Palestine (for guidance or templates, please head to [ACTION: Demand the Australian Government acts to prevent genocide in Gaza - Australia Palestine Advocacy Network - APAN](#))

<https://amwchr.org.au/action-for-gaza-sudan/>

The AMWCHR's Linktree website promotes a call script, 'Payphones for Palestine', which encourages its supporters to call their local senators and MPs and demand the Australian Government "End all support for Israel", including by "cutting off economic, industry, trade, diplomatic and military relationships, cooperation schemes, investments and programs". This is clearly advocating for the anti-Israel Boycotts, Divestments and Sanctions movement.

The AMWCHR's Linktree website also encourages supporters to donate to UNRWA, despite UNRWA being embroiled in allegations that several of its employees may have been involved in Hamas' October 7 attacks. Israel has passed a law banning UNRWA from operating in Israeli territory.

Key demands for an unscripted call

- **Sanction Israeli officials:** impose targeted sanctions on individuals and entities involved in Israel's genocide, occupation and apartheid regime.
- **End all support for Israel:** this includes cutting off economic, industry, trade, diplomatic and military relationships, cooperation schemes, investments and programs.
- **Cut off the weapons:** suspend all arms agreements, cooperation and deals with Israel, including the export, import and transfer of arms, parts, components and dual use items used by Israel in its assaults on the Palestinian people.
- **Stop Australians funding the occupation:** cancel the DGR status of any Australian charities that contribute to, support or benefit from Israel's illegal settlements.
- **Hold Israel accountable:** proactively support investigations into Israeli war crimes and cooperate with the International Court of Justice and International Criminal Court.
- **Respect Palestinian rights:** uphold international law and recognise the rights of the Palestinian people to self-determination.

Payphones for Palestine acknowledge Dja Dja Wurrung, Wurudjeri and Bunurong People as the Traditional Owners of the lands on which we live, work and organise. We pay our respects to their Elders past and present and recognise that the ongoing land theft, occupation and genocide in Palestine is connected to First Nations struggles here and across the globe.

From the river to the sea, always was, always will be.

The AMWCHR claims there is an 'ongoing genocide' in a campaign encouraging supporters to write to their MP and to support the Australian Palestinian Advocacy Network (APAN).

1 July 2024: The Islamic Society of South Australia (ISSA) released a statement – posted on its Instagram account (@islamicsocietyofsa) expressing support for Senator Fatima Payman’s stance on Palestine, and called on Labor to “recognise Palestinian statehood and implement military sanctions on Israel immediately.

https://www.instagram.com/p/C83Jk47PXtC/?img_index=1

Joint community statement regarding Prime Minister's decision in relation to Senator Fatima Payman

1 July 2024 - For Immediate release - 6am

Yesterday, Senator Fatima Payman was indefinitely suspended from the caucus by Prime Minister Anthony Albanese for voting with her conscience against genocide. Her stance was a commitment to justice and the right thing to do.

We fully support Senator Payman's courageous stance in exercising her right to vote according to her conscience, representing the views of millions of fellow Australians.

The reprimand and targeting of Senator Fatima Payman by the Prime Minister is a desperate attempt to save face for failing to decisively speak against genocide and the killing of more than 40,000 Palestinians.

Political calculations and attempts to walk both sides have devastating consequences in Palestine and will ultimately end in failure.

Australians and millions across the world demand decisive action in the form of sanctions and an immediate stop to weapons trade and training. Australia is currently undertaking war games with the United States and Israel. Australia also just removed checks on defence exports to the USA and the UK, which both are key weapons suppliers to Israel.

The dreams and hopes of Palestinians are not any lesser than ours and those of our children.

A vote in the Senate to recognise Palestine as a state would have sent a strong message internationally and domestically.

The Australian Labor Party must echo the voices of the people it represents. This fundamental principle of representation has been abandoned in an effort to protect their positions. Party politics has clearly been allowed to dominate the voices of the people.

We call on Labor to recognise Palestinian statehood and implement military sanctions on Israel immediately.

23 August 2024: In an Instagram post, ISSA promotes a Muslim Vote Matters information session and says, “The events in Gaza have awakened the broader community, prompting action to stop any support for the ongoing genocide. islamicsocietyofsa A powerful reminder! “Muslim Vote Matters” is a slogan that emphasizes the importance of Muslim communities exercising their right to vote and have their voices heard in the democratic process. Every vote counts, and Muslim voters can make a significant impact on election outcomes and policy decisions that affect their communities especially in these difficult times.

The events in Gaza have awakened the broader community, prompting action to stop any support for the ongoing genocide. As a result, the community has recognised the need for greater involvement in politics, to help end the killing of children and to stand firmly against all forms of oppression.

30 June 2024: ISSA published a post accusing Israel of committing “atrocities against Palestinians in Gaza”, and said the Australian Labor Party has “revealed its true colors [sic] by using multiculturalism merely to secure our votes” by suspending Senator Fatima Payman from the Labor caucus.

<https://www.instagram.com/p/C81ramTvxST/>

Senator Fatima Payman suspended from Labor caucus

During the last 8 months of genocide and the massacre of almost 40,000 people, the majority of whom were children and women, the Labor party cowardly failed to condemn even once the Israeli atrocities against Palestinians in Gaza.

Yet today, the Prime Minister used his power against our only genuine Muslim Labor representative and the youngest senator in the nation, not because she stood with the children's killers, but because she opposed this insanity over the past 8 months. The ALP has revealed its true colours by using multiculturalism merely to secure our votes.

Adelaide solidarity with Palestine vigil

Date: Wednesday 13 December 2017

Time: 6pm

Location: South Australian Parliament House, North terrace, Adelaide SA

Hosted by Australian Friends of Palestine Association (AFOPA).

The international community is heavily criticising and condemning Donald Trump's declaration of Jerusalem as the capital city of Israel; opposing international law and reversing American foreign policy on Israel-Palestine precedence.

The leader of the British Labour Party, Jeremy Corbyn, said, "Trump's recognition of Jerusalem as Israel's capital, including occupied Palestinian territory, is a reckless threat to peace."

Eight countries called for an emergency United Nations Security Council meeting yesterday where Trump's decision was denounced by several state representatives.

Furthermore, there have been reports of clashes in Palestine resulting in two Palestinian deaths on Friday alone.

People in cities across Australia and the world have been protesting in solidarity with the Palestinian people.

It is time to add South Australians' voices to the international call for an end to the Israeli occupation of Palestine, respect for international law and the sanctity of Jerusalem as a peaceful city.
