Install window surrounds internal, new LED lighting, 3 new electrical boards and replace hardwood flooring to stage and resurface existing timber flooring	The building paint condition is poor and this negatively impacts on the community perception of the facility. Interior flooring in hall resurfaced. Damaged stage floor being replaced to remove holes. LED lighting to replace fluorescent lights in hall.	Jan-21	Apr-21	1,100,000	300,000
NSW	Bega Valley Shire Council	Phase One	Community Infrastructure	Renewal of the Berrambool footbridge and construction of an off road connecting path	Berrambool sporting complex is one of Council's major sporting facilities and is currently disconnected from the CBD via any means of continual active transport options. There is currently a carpark, skatepark clubhouse and a small footpath network within the sporting facility. There is a footbridge over the creek that is in desperate need for renewal but not connected to a path network. The bridge was built by community volunteers many years ago and is a warranted piece of infrastructure that needs to be renewed. By extending the path network from the existing path along the service lane to the existing path at the Berrambool Sporting complex we will be closing a vital missing link in our active transport network. NSW	Bland Shire Council	Phase One	Community Infrastructure	Refurbishment and rejuvenation of internal and external areas within the Bland Community Care Centre.	Since being built in the late 1990's the Community Care Centre has not had any refurbishments, updates or major maintenance works carried out. The decor and furniture is old, worn and past its used by date, the gardens are in urgent need of replacement and major improvements are required to make the outdoor part of the facility accessible and user friendly for clients. The project will create a modern, accessible facility which can be enjoyed by all ages for several years to come. The updated decor, furniture and fittings will facilitate a modern space which will help attract additional visiting services to take up available office space within	Oct-20	Feb-21	81,889	81,889
NSW	Bland Shire Council	Phase One	Road	Raising and widening of the Ungarie School Bridge (Mackrell Street Bridge)	The existing bridge/culvert known locally as Ungarie School Bridge (Mackrell Street bridge) regularly floods, cutting off access from the main township to Ungarie Central School and a number of other properties and parts of Ungarie. Council commissioned an independent Ungarie Floodplain Risk Management Study which identified the raising and widening of the Mackrell Street bridge as a key mitigation strategy to reduce the impact and potential damage caused by the regular overflow of the adjacent Humbug Creek. NSW	Bogan Shire Council	Phase One	Community Infrastructure	Swimming Pool - Water Slide	Nyngan in western NSW has long hot summers, and like many rural and regional towns there is a lack of recreational options for children and youth. Bogan Shire Council would like to install a slide at the pool to enhance the experience for children and youth and to encourage them outside during the summer. Council installed the stage 1 of a water splash play at the pool in 2019 to cater for very small children to make the pool attractive to young families. This project will comprise stage 2 of that with the purchase and installation of four aquatic water play features which can be attached to existing fittings.	Jan-21	Jun-21	200,000	200,000
NSW	Bogan Shire Council	Phase One	Community Infrastructure	Netball Oval - Sealing	Nyngan has no all-weather netball courts which rules it out of hosting competitive games. The five grass courts in town were recently improved with lighting to enable weeknight competition, but the grass surface is slippery in winter, and requires constant maintenance and line marking. Netball is a popular sport in Nyngan, but with no suitable facilities for local competition, the teams must travel 160km to Dubbo to compete.	Mar-21	Apr-21	100,000	100,000
NSW	Bogan Shire Council	Phase One	Community Infrastructure	Upper Bogan River Development	The upper weir area is a popular location for fishing, birdwatching, walking and camping. The site is undeveloped with no amenities. It requires tidying up the existing overgrown vegetation and repairs to the gravel access road. The installation of a toilet block, picnic table, seats, garbage bins and a bird watching platform will make the destination a more attractive and hygienic place for residents and visitors. It will also provide a free of charge option for recreation close to the township.	Feb-21	Jun-21	100,000	100,000
NSW	Bogan Shire Council	Phase One	Community Infrastructure	Hermidale Park - Upgrade	The village of Hermidale is located between Nyngan and Cobar on the Barrier Highway. It is 50km from Nyngan. The playground and park are very old and the equipment is broken and unsafe. The existing wire fencing is not in good order. This is the only play equipment available for the village children. NSW	Bogan Shire Council	Phase One	Community Infrastructure	Lower Bogan River Development	Although the Bogan River flows through Nyngan it has not been recognised by previous town planners as a feature for tourists and residents. In recent years Bogan Shire Council has been gradually developing this area, building a pontoon and a pathway. It has been well received and is a popular exercise and meeting area. Council would like to further develop this area to provide more alternatives for recreation and leisure and to capitalise on the Bogan River. It would also add a new tourism opportunity to the Shire.	Mar-21	Jun-21	130,000	130,000
NSW	Bogan Shire Council	Phase One	Community Infrastructure	Frank Smith Oval - Upgrades	Frank Smith Oval is used for senior and junior cricket and touch football in summer and soccer in winter. The main pitch does not have a boundary fence which means for cricket a boundary has to be made from rope or poly pipe before the games. There is currently no all weather shelter at the oval which means players and spectators must sit in their cars or gather under trees in the typically hot summer. There are no existing cricket sight screens on the oval. There is currently no designated pathway through the scrub between the oval and the nearby Dandaloo Street. An all weather designated path will be used as a regular walking track as well as an access route.	Feb-21	May-21	110,000	110,000

NSW	Bourke Shire Council	Phase One	Community Infrastructure	Information board currently located at Percy Hobson Park will be relocated to North Bourke Park	The Swagman sign currently sits in front of a water tower that will soon have a mural of Percy Hobson painted on it. The Swagman sign will obstruct this mural. The Swagman sign needs to move.	Mar-21	Mar-21	10,000	10,000
NSW	Bourke Shire Council	Phase One	Community Infrastructure	Rotary Park Toilets replacement with a modular building	New Rotary Park Toilets will be WHS compliant and disability accessible. Refurbished toilets to ensure there are appropriate facilities at the Bourke Golf Club precinct for crowds of 40+ people. The toilets can be accessed by Bourke Squash Club, Bourke Childcare Centre and Bourke Golf Club for events that may require additional toilet facilities.	Dec-20	Mar-21	92,500	92,500
NSW	Bourke Shire Council	Phase One	Community Infrastructure	Removal of existing fence, graded fence line and installation of 3.1km's of exclusion fencing and access gates.	Old fence along Golf Course boundary is derelict. The fence does not prevent stock and feral animals from accessing the highway. The existing fence is ineffective in protecting the road and is an eyesore to people arriving into the township of Bourke.	Mar-21	Mar-21	25,000	25,000

NSW	City of Canada Bay Council	Phase One	Road	McKinnon Avenue is a local street that links Lyons Road and Great North Road. Lyons Road is a state road while this portion of Great North Road is maintained by Council. This street is used by motorists who is heading east towards Drummoyne to bypass Lyons Road & Great North Road signal during peak hours. Due to the number of vehicles uses this road, pavement has deteriorated over the time and is now due for renewal. The pavement rehabilitation works will include provision of deeplift pavement where required and resurfacing McKinnon Avenue. Under this project, on-street parking bays will be resurfaced on southern side of McKinnon Avenue.	McKinnon Avenue shows signs of pavement deterioration and isolated pavement failures. The project will see a deeper pavement constructed to address the pavement issues and to cater for increase in vehicle traffic as a result of recent development at the north-east corner of Lyons Road & Great North road.	Feb-21	Jun-21	103,595	103,595
NSW	City of Canada Bay Council	Phase One	Road	Tennyson street is a collector street which is located in the suburb of Mortlake. Tennyson Road connects Mortlake and Breakfast Point with rest of Canada Bay LGA. This road is well utilized by means of public transport, vehicle traffic and active transport. Due to the high volume of vehicles that uses this road to get around, pavement has deteriorated over the time and is now due for renewal. The pavement rehabilitation works will include a geotechnical investigation to assist with pavement design and provision of deeplift pavement along Tennyson Road.	Tennyson Road is experiencing pavement failures which is associated with poor sub-grade conditions. The project will see a deeper pavement constructed to address the pavement failures and to cater for increase in buses and residential traffic due to recent substantial development activities. NSW	Dubbo Regional Council	Phase One	Community Infrastructure	Dubbo Aquatic Leisure Centre - Upgrades	<p>The Dubbo Aquatic Leisure Centre (DALC) is a well-loved community recreation facility, however it is aging facility and is in need of an upgrade. Recent audits of the Centre's security, lighting and pump room facilities, as well as a number of security breaches that have occurred have highlighted major deficiencies in the safety and security of the site.</p> <p>As previous upgrades have been completed in an ad-hoc manner, parts of the existing lighting and security infrastructure are obsolete and do not meet current environmental standards.</p> <p>Lighting: A December 2020 audit of lighting at the DALC highlighted a safety concern for after-hours use of the Centre. At least half of the current floodlights are inoperative and there is no lighting directed at the public car park, staff car park, splash park or waterslide. No lighting exists outside the entrance to the DALC's new foyer and the current floodlights directed at the 50m pool are insufficient for evening events and carnivals.</p> <p>Replacing the existing Metal Halide Flood Lights with LED Flood Lights will reduce the existing energy use by up to 70% and reduce operational costs - every \$100 it costs to run the existing metal halide lights will be reduced to \$30 if replaced by an LED equivalent. Maintenance costs will be significantly reduced as the proposed LED fittings have a three year replacement warranty excluding labour and have a life span of approximately 35,000 hours.</p>	Feb-21	Jun-21	150,000	150,000

NSW	Gilgandra Shire Council	Phase One	Road	The project involves construction of a concrete causeway over the existing culvert on Doorroombah Road which will support improved road safety outcomes. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users on an existing unsealed road. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Doorroombah Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. The existing culvert is continually being washed away, preventing access for road users. Construction of concrete causeway over the culvert will improve stability of the area, along with improving accessibility, conditions and overall safety for road users.	Apr-21	Jun-21	90,000	90,000
NSW	Gilgandra Shire Council	Phase One	Road	The project involves construction of an approach slab to Milpulling Creek to improve stability of the area. The project supports improved road safety outcomes through enhanced access and improved conditions for road users. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing causeway over the culvert is being eroded, impacting on the stability of the area and creating a traffic hazard. Construction of the approach slab will improve stability of the area, along with improving accessibility, conditions and overall safety for road users.	Apr-21	Jun-21	30,000	30,000
NSW	Gilgandra Shire Council	Phase One	Road	Undertaking erosion restoration works, including batter and bed scour protection which will improve stability of the area. This project supports stabilisation of Biddon Creek banks, contributing to natural resource management outcomes. Public safety outcomes will also be achieved through stabilisation of the eroded area, which is encroaching on the power lines located in close proximity to Biddon Creek. The project is in addition to Council's existing work schedule for 2020/21. The proposed expenditure items under the LRCI funding include labour costs and material to complete the works, which are all eligible expenditure items.	Biddon Creek at Biddon is a location where heavy rainfall and flood events cause significant damage to the creek channel. Stabilisation of the area will reduce the potential for recurrent erosion issues to occur. A number of powerlines in close proximity to the creek are also at risk of falling over, creating a safety concern.	Apr-21	Jun-21	150,717	150,717

NSW	Gilgandra Shire Council	Phase One	Road	The project involves construction of a retaining wall at the existing culvert located on the overflow channel at Paddys Creek. This project supports improved road safety outcomes through enhanced stability of the area and road edges. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing culvert area is regularly washed out during periods of heavy rainfall, impacting the stability of the area, and the ability for landholders to move farm machinery across it. Construction of the retaining wall will improve drainage and stability of the area, along with improving usability and safety for road users.	Apr-21	Jun-21	25,000	25,000
NSW	Gilgandra Shire Council	Phase One	Community Infrastructure	The project will deliver Stage 2 upgrades to the Armatree War Memorial Precinct within the Armatree Village. The proposed upgrades include soft landscaping, signage board and lighting at the Big Armatree sculpture, along with pathways linking the key elements within the Precinct. The proposed works are in addition to 2020/21 work plans. Expenditure items under the LRCI funding include labour costs, materials to construct the walkway, establish landscaping, installation of lighting and interpretive signage board which are all eligible expenditure items.	Armatree is a small village located approximately 5km off the Castlereagh Highway, north of Gilgandra. Stage 1 of the upgrades to the War Memorial precinct are nearing completion, which includes development of History Boards and the Big Armatree Sculpture in close proximity to the existing War Memorial. LRCI funding will be used to deliver Stage 2 which addresses the lack of wayfinding signage and connectivity between the precinct elements, ultimately creating a circuit for visitors to engage with and learn about the village and district's history. Community safety and sense of place will also be enhanced through improved lighting and soft landscaping features.	Feb-21	Jun-21	72,727	72,727
NSW	Gilgandra Shire Council	Phase One	Community Infrastructure	The project involves the following elements: <ul style="list-style-type: none"> * redevelopment of the CHC car park area * relocation of the old visitor information building and existing BBQ shelter to the recreation area out the back of the CHC and fronting the Castlereagh River * establish driveable access linking the CHC to the nearby Rural Museum * installation of irrigation system and soft landscaping. The proposed works will improve connectivity and accessibility between the CHC and Rural Museum, linking these two culturally significant spaces and encouraging community interaction and enjoyment of the facilities. The upgraded carparking spaces will be located on the northern side of the CHC, where visitors will be able to clearly observe and experience some of the main upgrade features such as the outdoor deck and Aboriginal garden. The proposed LRCI activities are in addition to Council's 2020/21 work plan and will enhance the overall CHC upgrades. The CHC upgrade project will result in improved functionality of the building and exhibition opportunities, incorporation of our Aboriginal Heritage, and improved accessibility and appreciation of the natural surroundings and view of the Castlereagh River. The proposed expenditure items are all eligible under the LRCI funding including: <ul style="list-style-type: none"> * labour costs * material to construct the carparking spaces, establish driveable access, landscaping and irrigation systems. 	The proposed project will address the inadequate available parking at the CHC and establish linkages between the CHC and Rural Museum as key elements of Gilgandra's Cultural precinct. The existing carpark space will be enhanced considerably, creating designated caravan parking spaces on the western side of the CHC along with car parking spaces on the northern side of the carpark. The CHC and Rural Museum are currently not directly linked, meaning visitors and locals alike are not invited or encouraged to explore past their immediate stopping point. Establishing driveable access and landscaping connecting the two spaces will enhance the general aesthetics and linkages between these two culturally significant facilities. Freedom camping opportunities are currently being explored for Cooee Oval, located between the CHC and Rural Museum, which will enhance the overall opportunities for the Precinct. LRCI Funding Rounds: Phase One - \$500 million for construction by June 2021, Phase Two - \$1 billion announced in 2020-21 Budget for construction by December 2021

Construction on projects can be extended if approved by the Department in exceptional circumstances or where LRCI funding is less than 50% of total project cost.

State	Council/Eligible Funding Recipient	LRCI Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commence	Date construction completed	Total project cost	LRCI Program Funding Required
NSW	Gilgandra Shire Council	Phase One	Road	The project involves extending the sealed section to the floodway over Gundy's Creek crossing. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users during times of wet weather. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Tooraweenah-Mendooran Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. Extension of the sealed section to the floodway will prevent longitudinal erosion of the road which is currently occurring in the location and improve stability of the area. Accessibility and overall road condition in the area will also be improved for road users, contributing to overall safety outcomes.	Apr-21	Jun-21	60,000	60,000
NSW	Gilgandra Shire Council	Phase One	Road	Rehabilitation and sealing a section of the existing unsealed Leeches Creek Road at the intersection of Berida-Innisfail and Leeches Creek Road. This section of road is regularly impacted by local floodwaters during periods of heavy and persistent rainfall. This project supports improved road safety outcomes through improved access for road users during times of wet weather, as the section of road becomes inundated and is unsafe for vehicles to drive through the water. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Targeted area is regularly inundated by local floodwaters, restricting access for road users and impacting on road conditions.	Apr-21	Jun-21	250,000	250,000
NSW	Glen Innes Severn Council	Phase One	Road	Wyaliba Road seal intersection	Major and recurring flood damage to road, and safety issues due to this flood damage.	May-21	May-21	72,429	72,429
NSW	Glen Innes Severn Council	Phase One	Road	Polhill Road rehabilitation	Major road failure, potholes and dangerous road surface	May-21	May-21	300,000	300,000
NSW	Glen Innes Severn Council	Phase One	Road	First 5 kilometres of the unsealed section of Old Grafton Road to be sealed	Major and recurring flood damage to road, and failure of road under high traffic volumes.	Mar-21	Apr-21	500,000	500,000
NSW	Goulburn Mulwaree Council	Phase One	Community Infrastructure	Construction of replacement and new footpaths at the locations indicated above in Goulburn, Marulan and Tarago.	Maintenance of the existing footpath network in Goulburn city will improve safety and amenity, improving the quality of infrastructure available to the local community for walking for transport and recreation. Expanding the footpath network in Marulan and Tarago will provide infrastructure for walking for transport and recreation in areas where it isn't currently in place	Jan-21	Jun-21	400,000	400,000
NSW	Goulburn Mulwaree Council	Phase One	Community Infrastructure	Tallong Memorial Park	The current public amenities located in Tallong Memorial Park are the only public toilets in the village of Tallong and are in very poor condition. The project will replace the current toilet with a new prefabricated structure and fixtures. The new toilet will include a disabled cubicle, which is not currently available.	Mar-21	Jun-21	100,000	100,000
NSW	Goulburn Mulwaree Council	Phase One	Community Infrastructure	Construction of new sporting pavilion at Cookbundoon - Soccer facility	The current clubhouse is aged, in poor condition and does not have sufficient change-rooms to properly accommodate female participants. The condition of the facility, including toilets, does not meet contemporary community standards. Soccer has the highest participation levels of any organised sport in Goulburn Mulwaree, with approximately 1,200 regular participants, including growing numbers of girls/women at both junior and senior levels.	Dec-20	Jun-21	1,074,884	574,884
NSW	Goulburn Mulwaree Council	Phase Two	Community Infrastructure	Infrastructure in our Villages	Bicycle and Walking Paths	Feb-21	Dec-21	300,000	300,000

NSW	Gwydir Shire Council	Phase One	Community Infrastructure	Warialda and Bingara Dog Exercise Area fencing and park furniture	The off leash areas currently are not fenced and have no other infrastructure. Without fencing there is a danger that dogs will run onto the roads surrounding the park areas. The fencing will increase patronage and permit appropriate unleashing of dogs for exercise. The access to bags and bins will encourage users to keep the area tidy and dispose of dropping appropriately. The exercise obstacles will offer alternative activities for the dogs and their owners. The plantings will increase the visual amenity of the area making it a pleasant place to take dogs for exercise. In the warmer months access to water is essential for dogs after exercising. Seating and will allow owners to sit, rest and socialize with other community members.	Feb-21	Apr-21	120,600	106,000
NSW	Gwydir Shire Council	Phase One	Community Infrastructure	Nicholson Oval Warialda - lighting	Gwydir Shire has a long and hot summer and the installation of lights will allow sports to be played at night in the cool. In addition teams in winter will be able to train safely with adequate lighting. The installation will allow a safe and well light green space for families to enjoy night concerts and activities.	Nov-20	Jun-21	490,878	313,859
NSW	Gwydir Shire Council	Phase One	Community Infrastructure	Warialda and Bingara CBD improvements	Gwydir Shire is a popular regional tourist destination for day trips and weekend stays. This project improves the amenity of the towns. Further Gwydir Shire has a high percentage of senior residents and young families, Council will increase the number of shaded resting places for their enjoyment and use. This is particularly beneficial given our extreme summers.	Feb-20	Jun-21	132,365	132,365
NSW	Gwydir Shire Council	Phase One	Community Infrastructure	Renovate Warialda Medical Centre	The project will see the internal layout of the Centre altered so as to allow for a more COVID19 safe environment for patients, staff and visitors. The project will also create a designated ambulance entry/exit which will make the facility compliant and preserve the dignity of patients who currently have to be wheeled from the premises through the main reception area. The renovation will increase the functionality of the centre particularly for the doctors and a new and modern centre will attract more allied health service providers to the town. NSW	Lake Macquarie City Council	Phase Two	Road	The Weir, Barnsley – replacement bridge Weir Road, Barnsley. Bridge works	The existing Weir Road crossing over Cockle Creek is a single lane, two-way concrete causeway constructed in the 1920's. Barnsley Weir is closed to all traffic and freight vehicles during moderate rainfall events. The alternative route of 13.5km includes a number of signalised intersections and adds considerable travel time and costs to residents and businesses. The proposal is to construct a new bridge to address safety issues regarding the approach on both sides of the creek to the bridge. This plan will provide increased safety and ability for residents to use Weir Road to travel between local centres. The project will improve freight routes in the west of Lake Macquarie, supporting local jobs and underpinning economic growth. It will also enable all in the community to reach their destination safer and sooner.	Jul-21	Dec-21	5,300,000	2,730,744

NSW	Mid-Western Regional Council	Phase Two	Road	Glen Willow to Putta Bucca link road approaches. Glen Willow Regional Sporting Complex Mudgee (Putta Bucca)	The new road from Glen Willow south loop toward Putta Bucca Road will reduce the traffic loads in the existing one Glen Willow Complex entrance. The new entrance (north) will allow people traveling from north of Mudgee to access Complex parking easily, and leave the Glen Willow Stadium easily. This will save travel time of up to 45 minutes on significant events, and expand the shared pathway from Putta Bucca to Glen Willow; aligning with the Mid-Western Regional Council Pedestrian Access and Mobility Plan (PAMP). NSW	Moree Plains Shire Council	Phase One	Community Infrastructure	Moree Civic Precinct	Currently, the Moree township does not have any multi-purpose venue that is capable of hosting large-scale dinners and entertainment events. This problem was to be resolved during the course of the originally scoped and budgeted Moree Civic Precinct Redevelopment Project (Original Project). However, during the course of the scheduled Building Investigation studies, additional critical works have been identified due to the age and the condition of the building. The Original Project cannot proceed without these newly identified works being rectified. In addition, there are key upgrade elements needed for usability.	Feb-21	Jun-21	640,959	640,959
NSW	Moree Plains Shire Council	Phase One	Road	Shire Wide - Gravel Resheeting	Currently, there is a lack of suitable road pavement cover resulting in access issues during wet periods. This is due to natural soils being exposed as the wearing course road layer. Currently many of the Shire's roads provide critical access for primary producers to transport their produce to market, and with the incoming harvest, gravel re-sheeting has never been more important. NSW	Narrabri Shire Council	Phase One	Road	The proposed works to be conducted are to fully reconstruct the pavement in the three main CBD blocks.	The current road surface in in very poor condition and in its current condition, is not meeting traffic demand. The sub-standard condition has resulted in increased maintenance, which has a flow on effect of increased cost to Council. In addition, the poor road surface provides rough and uneven driving conditions for road users. This impacts on CBD aesthetics and results in decreased willingness to access the CBD which can be assumed impacts on business economics for CBD businesses. Failure to receive project approval will result in further road degradation which may increase vehicle wear and tear and result in increased safety issues over time.	Sep-20	Apr-21	1,860,983	1,475,176

NSW	Oberon Council	Phase One	Road	Mozart Road Gravel resheet and widen and remove vegetation on a 1500m section at the western end of Mozart Road near Abercrombie Road to improve road safety.	Pavement is in poor condition and road too narrow. Mozart Road will be used for haulage of logs from pine forests in the next few years Mozart Road is on a school bus route.	Sep-20	Nov-20	104,500	104,500
NSW	Orange City Council	Phase One	Road	Extension of Southern Feeder Road in Orange NSW from Anson Street to Pinnacle Road The construction of the Civil Works component of a 2km section of the Orange Southern Feeder road between Anson Street and Pinnacle Road. The completion of this section will compliment works already completed on stages 1 and 2 of the overall Southern Feeder road route. Some grant funding has been allocated from Restart NSW however civil construction works have been on-hold pending the sourcing of additional co contributions.	The Southern Feeder Road Stage 4 (Anson St to Pinnacle Rd) serves as a southern city bypass route that links the Northern Distributor Road and forms a ring road around the City of Orange. The road serves a newly created suburb called Shiralee but its main benefit is in reducing the time travelled going through Orange.	Feb-21	Sep-21	8,798,715	720,809
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Alectown Cemetery - fencing, memorial wall and seating	There is no current 'fit for purpose' space in which cremated remains can be interned. Meaning that people who choose cremation over burial are unable to be interned within their own community but rather at either the Peak Hill cemetery (to the north) or the Parkes cemetery to the south. The erection of a fence and Memorial Wall will alleviate both issues	Sep-20	Mar-21	30,000	30,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Parkes Shire Library and Cultural Centre - Wiradjuri Keeping Place	The Parkes Library and Cultural Centre will provide a welcoming and inclusive cultural hub where Indigenous and non-Indigenous groups and individuals can meet and where Wiradjuri cultural expression is visible and celebrated. This project involves curation of a public display of local Aboriginal artefacts, development of digital and print educational materials to detail local Wiradjuri history.	Mar-21	Jun-21	35,000	35,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Parkes CBD smart pole banners	The traditional banner systems which Council has installed on existing lighting poles in other sections of the street, requires the procurement of a suitably qualified contractor to undertake the changing of the banners each time a new event or campaign is in market. This includes time and cost in the development of traffic management plans, safe work method statements, machinery hire and staff time in terms of procurement and supervision. Because of these time and cost factors (up to \$10,000 annually), along with disruption to commerce on the main street during changeover, Council can only change these promotional banners twice a year.	Jun-21	Jun-21	30,000	30,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Peak Hill main street (Caswell Street) - CCTV installation	The CCTV cameras are being installed to address issues of vandalism and anti-social behaviour which has become an increased concern in the CBD of Peak Hill. The cameras will provide increased security for community members and businesses alike.	Jan-21	Jun-21	20,000	20,000

NSW	Parkes Shire Council	Phase One	Community Infrastructure	Parkes Shire Council - Coventry Room - cultural space refurbishment	Ongoing need for a dedicated community art space for workshops and the exhibiting of local and travelling exhibitions. At present there is no suitable purpose-built facility in the Parkes Shire that can adequately provide for exhibitions of local artists' work, professional or touring exhibitions, cultural performances, Aboriginal arts and cultural practice or exhibitions, cinema or venue for screenings, programs of community workshops, cultural hub for young people	Oct-20	Apr-21	100,000	100,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Woodward Oval Parkes - tennis courts upgrade	All courts now require resurfacing, 6 of them urgently (according to advice from Tennis NSW). Project will provide a safe and fit-for-purpose facility for the local community and visiting players during regional tournaments, sporting and school events, social tennis and local competitions - supporting more than 1000 players. The courts are now too dangerous to use and some have needed to be closed.	Mar-21	Jun-21	245,000	175,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Henry Parkes Centre repairs	There are a number of areas within the Motor Museum where a gap exists between the wall and the roof. As a result unwanted debris (eg dust and leaf litter) blows into the facility, settling on the vehicles on display and onto the floor. Additionally, there is no a/c in the Motor Museum which, given the extremes of temperature experienced at its location, does nothing to enhance the visitor experience.	Mar-21	Jun-21	50,000	50,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Cooke Park - Improvements	Cooke Park is Parkes' premium event Park. One of the challenges that we face during events is if there has been rain the Park can be very wet and we have had to bring in bark chip in the past to allow events to go ahead. Improving the storm water drainage across the park will help alleviate the problem. Additionally the irrigation system in the park is nearly 20 years old, the aging infrastructure is prone to leaks and breakages and is not as water efficient as it could be. Additionally Council is constructing a new Multipurpose stage facility in the Park which will create the opportunity for water to be captured off the roof and reused in the Park. It is timely that Council upgrades the irrigation system to minimise water usage in the park and allow for the preparation of events in the Park (including the Parkes Elvis Festival) but also help with the recovery of the park after events.	Sep-20	Mar-21	80,000	80,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Spicer Oval Parkes - new lighting	Spicer Oval is currently without any lighting and is unable to host any training at site for rugby in winter or cricket in summer. These sports are now sharing Northparkes Oval with Little Athletics and AFL.	Feb-21	Apr-21	526,000	400,000
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Rose Street and Coleman Street Parkes - footpath	The new shared pathway will mitigate stormwater damage caused to current walking area which makes it uneven and dangerous. The new pathway will also connect this area to existing pathways to the CBD.	Mar-21	Jun-21	35,000	35,000

NSW	Parkes Shire Council	Phase One	Community Infrastructure	Woodward Oval tennis courts - stormwater drainage improvements	Currently storm water is unable to leave the court area quickly in rain events, causing it to run back over the courts causing damage to the surface and subsurface. The most severely affected courts are being resurfaced, so this work is a priority to protect the new asset of resurfaced courts.	Nov-20	Feb-21	66,613	66,613
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Newell Highway and Rawson Street Parkes - road and footpath repairs	To address flooding concerns with new drainage pit, extend footpath network for accessibility for all community members and pram ramps to assist with crossing the road safely.	Mar-21	Jun-21	66,000	66,000
NSW	Parkes Shire Council	Phase One	Road	Parkes East School - pedestrian safety upgrades	Currently parents are either stopping in the middle of a busy regional road link to drop off and pick up students or causing near misses to park their cars at the edge of the school which is without a proper parking area.	Dec-20	May-21	250,000	250,000
NSW	Parkes Shire Council	Phase Two	Community Infrastructure	Cheney Oval	The proposed works at Cheney Oval, home of Parkes Touch Football, is to provide clean fill and laser level the area, irrigation lateral construction, and installation of turf to complete the work at the oval to address salinity issues which have plagued the grounds. The project will complete a suite of works recently undertaken to improve the drainage across the oval which has plagued touch football for a number of years and affected their ability to bid for regional and state carnivals. The considered works will enable the oval to once again be used for sport.	Feb-21	Jun-21	145,000	145,000
NSW	Penrith City Council	Phase One	Community Infrastructure	Various throughout the Penrith, construction of approximately 50 bus stop boarding points	The program works toward meeting DDA compliance for bus stop boarding points and will enable the community equitable access to public transport. NSW	Port Stephens Council	Phase One	Community Infrastructure	Mullabula Sports Complex - playground	The existing playground is in poor condition, limited play opportunities and inaccessible due to lack of pathways and poor location. The new playground will be larger and offer a diverse playing experience including inclusive play items and supporting infrastructure such as pathways, bubbler and seating.	Apr-21	May-21	150,000	150,000
NSW	Port Stephens Council	Phase One	Road	School Drive - Rehabilitation	The existing pavement servicing School Drive has reached the end of its useful life. It is now subject to significant failures including major cracking, rutting, edge break and potholes. Much of this is due to the large percentage of heavy vehicle traffic that frequent the industrial area where this road is located. However, the poor pavement strength, in combination with the poor drainage, further add to the problem. By overlaying the road and reshaping the tabledrains the road will continue to service adjoining businesses and other road users for many years to come.	Nov-20	Mar-21	300,527	300,527

NSW	Shellharbour City Council	Phase One	Road	Civil construction works to improve access and safety off Tongarra Road, Albion Park into Shellharbour Airport. This would include Tongarra Road widening and new access road pavement and drainage works, as well as line marking and signage to finalise the intersection in it's final arrangement. While the design of this intersection has been completed (attached), this section of works is not currently earmarked for delivery in Council's 2020/21 Delivery Program and allocation of funding to this project would expedite delivery to satisfy the stimulus objectives of the grant program. Further to this, the completion of this work would contribute towards the Airport redevelopment which aims to encourage investment and improve access to the local economy.	Completion of these works prior to the development of the Airport Business Precinct would improve the safety of the intersection by ensuring the appropriate turning and merging lanes are in place. NSW	Singleton Council	Phase Two	Community Infrastructure	Townhead Park Amenities Replacement	Council adopted the Townhead Park Masterplan in October 2018, which provides a vision for the long-term development and management of the Park. As a response to community feedback during the exhibition of the Masterplan, it was proposed that the existing public toilets in Townhead Park would be replaced with new toilets. The project entails the demolition of the existing public toilet block located in Townhead park and the construction of new accessible facilities. The existing toilets do not meet current accessibility guidelines, are dated and are not in keeping with the surrounding structures and the high profile nature of the site, being the gateway to the town and a rest stop for visitors	Jul-21	Nov-21	270,000	270,000
NSW	Singleton Council	Phase Two	Community Infrastructure	OOSH Building Roof Replacement	The roof sheeting on the OOSH building is to be replaced and improvements be made to the roof structure to prevent ongoing issues. Council's Out of School Hours (OOSH) Building is currently utilised by Hunter Prelude and Singleton Council's OOSH services. The building was constructed in 1984 and is now 36 years old. The original roof structure is still in place and has deteriorated due to its age. In addition, the roof was originally constructed with a low pitch and building extension works have been undertaken, both have impacted on the capacity of the roof to effectively discharge stormwater. As a result there have been significant and continual incidents of water ingress during storm events resulting in damage to the ceiling, flooring and walls and disruption to staff. NSW	Snowy Monaro Regional Council	Phase One	Road	Replace bridge with a single lane concrete bridge with. The proposed concrete structure will increase the Bridge stability during high volume river flows. Renewed abutment protections will reduce the impact of erosion at the structure."	The existing single lane is significantly deteriorated and at risk of failure. The pile condition and the condition of many of the superstructure elements, put the bridge at risk of damage during mid to high water flows.	Nov-20	Jun-22	1,744,322	872,161
NSW	Snowy Monaro Regional Council	Phase One	Road	A nominal 60m crossing over the Michelago River. Construction of a twin cell box culverts (3.0 m x 0.9 m) under Micalago Road at the Booroomba Creek crossing. Construction of approx 100m of sealed approach roads either side of the crossing.	Access to community facilities along the Micalago Road currently requires all traffic to travel via the Monaro Highway. This results in significant delays and safety risks for the residents. The RFS and SES are also required to travel via the highway, resulting in delays to response times. The existing dirt track is hazardous, trafficable by four wheel drive only in low flows, and has required vehicle salvage on several occasions from	Nov-20	Jun-21	872,161	872,161
NSW	Snowy Valleys Council	Phase One	Community Infrastructure	Reconstruction of only toilet block in a 30km radius, within Snowy Valleys LGA. Provide disabled access to toilet.	Toilets in poor condition and non-compliant for disabled access.	May-21	May-21	130,000	64,816
NSW	Snowy Valleys Council	Phase One	Road	Replacement of twin span timber road bridge, with an estimated age of 55 years.	Aging bridge with a high chance of failure. No alternative access for 12 lots and 7 owners if bridge was to fail.	Apr-21	Jun-21	600,000	300,000
NSW	Snowy Valleys Council	Phase One	Road	Widening of entry to Rifle Range Road to allow for large vehicles to enter and exit safely. The volunteers in the Wingecarribee SES have for several years regularly conducted community resilience programs. These public programs have included local initiatives such as the award winning "Get Ready Girls" program that builds confidence in local women and their resilience skills along with the "SES Youth Forum" a program informing youth on safety measures in times of emergencies.</p> <p>The local SES have in the past have made their training room available to Council, Police and other emergency services for bookings as well as local community organisations. It is also an alternate Emergency Operations Centre available for use by the by the Local Emergency Management Committee.</p> <p>The community service provided by the Mittagong SES Volunteers cannot be understated. They have responded to an average of 473 requests for assistance per year over the past 4 years related to floods and storms. The Wingecarribee Shire residents rely on the SES volunteers for emergency response.</p>	<p>Due to stormwater and drainage issues for the building and site, water ingress has resulted in mould contamination to several rooms within the centre. At present, the offices cannot be safely occupied. Further, a structural issue with the converted garage walls has been identified by a structural engineer and requires rectification before the area can be safely reoccupied.</p>	Oct-20	Mar-21	542,000	542,000

NSW	Wingecarribee Shire Council	Phase One	Community Infrastructure	Eridge Park Netball Courts	The courts are at the end of useful life and are in poor condition with significant cracking present. One court has been closed due to safety concerns, which has reduced Netball's playing courts and is impacting their members. Netball is the leading women's sport in the Southern Highlands comprising of over 420 females in the reduced 2020 competition. To continue another season on minimal court availability could see a downturn in membership and reduces the ability of Southern Highlands Netball Association (SHNA) to hold mini-carnivals that can bring players and monies to the local district. SHNA have part funding to complete the required court renewal through a mixture of grant funding and fundraising by the Association. They have appealed to Council to help fund the shortfall to successfully complete the court renewal immediately.	Dec-20	Jan-21	451,000	80,000
NSW	Wingecarribee Shire Council	Phase One	Road	Various Reseal Program	The selected road seals are at the end of life and need to be renewed to improve road safety, level of service and protect the road pavement. The works will extend the pavement life of Council's sealed roads through best practice reseal program.	Nov-20	Mar-21	321,041	321,041
NSW	Wingecarribee Shire Council	Phase One	Community Infrastructure	Church Road Oval Amenities Building, The Church Road Oval is Council's most utilized soccer field in the district and is used by the 1,600 registered participants to the Highlands Soccer Association. The Church Road Oval Amenities Building Refurbishment project is designed in 2 stages. Stage 1 is currently funded and programmed for delivery in 2020/21 in Council's capital works program. The works commenced in August 2020. Stage 2 is fully designed and shovel ready, but remains unfunded. Stage 2 works include construction of the second story clubhouse, access ramp, provision of awning and conversion of existing public toilets to storage. Should this funding application be successful, it would enable Council to construct the second stage of the amenities building immediately.	Currently there is no indoor training facility on site to facilitate rainy-day training and strategy sessions. The construction of the second story clubhouse will provide an indoor venue for rainy day training. Further, the planned improvements include an access ramp to the first floor, kitchenette and awning. This will provide access to people with disabilities and carers pushing prams. QLD	Brisbane City Council	Phase One	Community Infrastructure	Maintenance works at King George Square toilets and Library rooves	Painting to public toilets in King George Square to provide a level of service expected by the customers who are using the facility. Cleaning, repairing and painting of rooves at libraries to extend the remaining useful life of the roofs by up to 10 years and to ensure the facilities are water tight, so that there is no unplanned closures or collection damage at the facilities due to any roof leaks.	Feb-21	May-21	200,000	200,000
QLD	Brisbane City Council	Phase One	Community Infrastructure	Queen Street Mall repairs	Ongoing surface rectification works are required each year - a more permanent solution and new surface treatment is required to meet modern standards and provide economic development opportunities. Water penetration into pavers and subsurface is causing paved surfaces to move and grout wear, which requires ongoing filling and securing. There is consistent and high use of public furniture in the Queen Street Mall as it is a high profile outdoor space. Ongoing maintenance of these assets is required to maintain modern standards to provide economic development opportunities and social infrastructure benefits.	Mar-21	Jun-21	170,000	170,000
QLD	Brisbane City Council	Phase One	Community Infrastructure	Hangar 7 replacement roof. Replace the corrugated sheeting on the roof and repair any issues with the underlying timber structure on the WW2 heritage listed hangar	The building was structurally unsound due to extensive termite damage and a lack of maintenance over a considerable period of time. The roof sheeting is badly corroded with numerous holes.	Feb-21	Jun-21	950,000	800,000
QLD	Brisbane City Council	Phase One	Community Infrastructure	City Botanic Garden infrastructure upgrades	The City Botanic Gardens is a highly significant cultural heritage landscape requiring ongoing investment to ensure it is protected and enhanced, and amenity is maintained for its high volume of visitors. There is an impetus on Council to demonstrate that it is using water efficiently, including in its significant heritage botanic gardens. This project provides an opportunity to investigate and implement measures to improve water efficiency at the gardens. Further, many of the drinking fountains and furniture in the gardens are in fair to poor condition. Investment in new gardens fixtures/furniture will reduce water leaks, improve amenity and cater to increasing numbers of gardens users.	Dec-20	Jun-21	1,000,000	1,000,000
QLD	Brisbane City Council	Phase One	Road	Coronation Drive and Bicentennial Bikeway retaining wall repairs	A seven metre length of stacked block retaining wall supporting Coronation Drive roadway and footpath has failed. Further movement of the wall will impact on the footpath, roadway and the bikeway running along the river bank. The Coronation Drive roadway and Bicentennial Bikeway carry high volumes of vehicle and cycle/pedestrian traffic.	Apr-21	Jun-21	1,300,000	1,000,000
QLD	Brisbane City Council	Phase One	Community Infrastructure	Sports field lighting	The aim of this project is to identify and rectify high risk electrical faults/issues at sporting clubs across Brisbane therefore ensuring the safety of community as a whole and assisting grass roots clubs with ongoing electrical maintenance costs.	Jul-20	Jun-21	6,700,000	5,500,000

QLD	Croydon Shire Council	Phase One	Community Infrastructure	Croydon Heritage Precinct - upgraded fencing	Croydon's renowned Heritage Precinct is a hot spot tourist attraction comprising of an original Court House, Town Hall, Police Residence and Police Station with Goal House. The buildings are maintained to preserve their historical accuracy and are complimented, at the eastern end, by a traditional white picket fence with working replica lamp posts and original sandstone kerbing. The rear area of the buildings, at the eastern end, are secured with high colourbond fencing which provides privacy for neighbouring residential buildings. Whilst the working replica lamp posts and original sandstone kerbing continues to the western end of the precinct the fence does not. The current western end fencing is dilapidated and does not compliment the existing eastern end fencing which supports the heritage look and feel of these beautiful old buildings, whilst ensuring privacy to the adjoining residences. The western end fence upgrade will promote tourism to the entire precinct whilst completing and preserving the history and heritage of the town of Croydon.	Oct-20	Apr-21	145,000	145,000
QLD	Croydon Shire Council	Phase One	Community Infrastructure	Installation of rubber softfall surfacing around the Croydon Pump Track	A pump track is a circuit of rollers, banked turns and features designed to be ridden by cyclists of all ages and skill levels. The Croydon pump track is made of asphalt with hard gravel batters. Installation of rubber softfall surfacing (OneSafe wet pour) around the track will create a deceleration zone and absorb impact thus reducing damage to push bikes and injury to riders using the track. QLD	Fraser Coast Regional Council	Phase One	Community Infrastructure	Urangan Community Centre Expansion	Expansion of the Urangan Community Centre, Hervey Bay to better meet the needs of our residents, allowing for the provision of a cancer recovery 'Wellness Centre'. The Fraser Coast has an aging population with a higher than average incidence of cancer. The opportunities for treatment and support of people in the community is limited. Complementary or integrative care has proven to greatly enhance the quality of life for those experiencing cancer and provide support for their families. The extension of the Urangan Centre will allow for specialist counselling, meditation and mindfulness training, cancer specialist massage, remedial therapies and other types of integrative therapies to be offered to people locally. The extensions of the Urangan Centre will also create another “safe place” in the community for socially isolated, financial disadvantaged and vulnerable members in the community. The mission of the Urangan Centre is to expand to provide a sustainable quality community hub with a focus on wellness and wellbeing. The Urangan Centre will integrate services on the Fraser Coast which compliment existing programs.	Apr-21	Nov-21	1,500,000	1,500,000

QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Installation of new traffic signals at the intersection of Bonnet Parade and Mango Hill Boulevard including adding a left turn lane on the eastern leg of Mango Hill Boulevard and increasing the length of the right turn lane on the western leg of Mango Hill Boulevard.	This project has originated as a result of regular park inspections, maintenance works and monitoring by MBRC staff. The existing deficiencies include structural deterioration of the timber posts and fasteners, deterioration of paintwork and the constraints of the current asset do not meet DDA compliance. The expected outcome of the project is to renew the shelters with one larger shelter to provide cover to the existing BBQ, associated concrete slabs and park furniture to provide a useful asset for park users and to reduce maintenance costs.	Jan-21	Jan-21	40,000	40,000
QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Albany Creek, Lemke Park: Access Renewal	This project has originated as a result of the current footbridge nearing its end of life. The existing deficiencies include splitting and rotting piles, rails, decking and joists. The expected outcome of the project is to provide replacement access that is safe, low maintenance and low whole of life cost.	Feb-21	Jun-21	51,000	51,000
QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Roderick Cruise Park: Netball Court Construction	This project has originated as a result of an external audit and regular park inspector findings. The existing deficiencies include deteriorated paintwork on all equipment and the large climbing element has structural issues from UV affects and does not offer much play value. The expected outcome of the project is to renew playground equipment within a consolidated area and install underground drainage and concrete edging to retain bark softfall.	Feb-21	Jun-21	100,000	100,000

QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Summerfield Drive Park Upgrade	The objective of the project is to rectify unsafe and non-compliant findings in a playground audit and reduce maintenance costs.	Dec-20	Feb-21	500,000	367,687
QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	This project will deliver a new fit for purpose building on the existing site and will include new features such as disability compliant access and car parking, as well as outdoor lighting.	The project objective is to increase and enhance the CCTV surveillance in the children's playground thereby increasing security and public safety.	Dec-20	Jan-21	50,000	50,000
QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Stage 1a of the project for which the LRCI application applies includes construction of two new Car Parking bays (includes 1 x PWD bay).	This project has originated as a result of direct representations from the Queensland Police Service. The expected outcome of the project is to reduce the risk of crimes and anti-social behaviour and support the detection of crime. The positioning of the pole will allow MBRC to monitor access to the South Pine Sports Precinct thereby supporting improved site security. The location will also afford tactical CCTV coverage of South Pine Rd and Eatons Hill Crossing Rd via licence plate recognition cameras which allow the tracing of stolen vehicles, or vehicles of interest.	Jan-21	Feb-21	50,000	50,000
QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Bob Brock Park Soccer Lighting Upgrade	Currently the sports ground only has lighting for one field. This has the effect of limiting game/training opportunities and puts additional strain on the field contributing to overuse issues. This has a constraining effect on the club that utilises this facility. This project will ensure lighting is appropriate for the intended use of the facility and compliant with State Sporting Organisation guidelines.	Apr-21	May-21	682,000	500,000

QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	North Lakes Netball Club: construction of Four netball courts	Currently, the carpark and amenities are not suitable for disability access. This causes accessibility issues for some in the community.	Aug-21	Jan-22	1,900,000	375,000
QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Clontarf Beach Scouts Building Renewal	The objective of the project is to demolish the existing building and construct the Clontarf Beach Scouts a new facility on the same location. The new facility will be DDA compliant one-storey facility which will be fit for purpose.	Feb-21	Apr-21	760,000	467,687
QLD	Moreton Bay Regional Council	Phase One	Community Infrastructure	Warner - Delawar Road Park: Playground Renewal	This project has originated as a result of an external audit and regular playground inspections. The existing deficiencies include non compliance of elements in relation to current standards, timber components will split with age, steel posts showing signs of rust at ground level. The expected outcome of the project is to replace all play equipment, install underground drainage, rubber wear pads at high wear area's and bark softfall.	Feb-21	Jun-21	110,000	110,000

SA	City of Charles Sturt	Phase One	Community Infrastructure	Robert Haigh Reserve Clubroom, Park Avenue Woodville North, A new clubroom has been designed to replace the existing which no longer complies with Australian Standards and contains no unisex facilities and is in poor condition. The grounds are identified as a District Sportsground, are well maintained and well utilised by the Woodville Hockey Club and local soccer clubs.	The Club is actively seeking to increase participation and inclusivity, however currently cannot accommodate the diverse range of participants within their existing facilities. Also the new building will meet the National construction code and accommodate unisex participation with multiple unisex changeroom areas. The project will also significantly improve access to this community facility for all members of the community.	Dec-20	Jun-21	1,000,000	1,000,000

Extension of existing Shared Use Path along Alma Tce from Nicholls Tce corner to the pedestrian access to Albert Park train station. New landscaping and tree planting along Nicholls Tce and Alma Tce verges.	The suburb of Woodville West is undergoing significant urban renewal as a result of a State Government initiated project to renew an area with a high concentration of social housing into an area with a broad mix of housing types and new public spaces. While the new development is progressing well, Council has received a number of complaints from residents in the interface area with the new development about the quality and appearance of existing assets and the public realm and a desire for Council to invest in the upgrade of these assets to be more consistent and sympathetic to the evolving urban renewal area. This funding presents an opportunity for Council to bring forward some works already identified in our Asset Management Plans and Strategic Plans for delivery within the next 4yrs and action some of the concerns raised by the local community. SA	City of Holdfast Bay	Phase One	Mixed	Harrow Road / Esplanade Somerton Park It is proposed to support the existing retaining wall by placing rock seawall in front of the retaining wall to match the adjoining seawall. This would then prevent the wall from failing. WE propose to extend the stormwater pipe to the edge of the new rock wall.	The retaining wall / stormwater headwall located between the beach and the Esplanade path and road has been identified as high risk of failure. This would result in loss of a section of the coast path and adjoining road, and potential safety issues for those on the coast path and on the beach.	Mar-21	Jun-21	265,000	250,000

SA	City of Mount Gambier	Phase One	Community Infrastructure	Review of existing lighting levels across the City of Mount Gambier compared to Australian Standards, including modelling the improvement in lighting that will be achieved through the installation of LED lights.	Improving lighting levels and safety in the streets of the City of Mount Gambier. <ul style="list-style-type: none"> Improved safety due to higher lighting levels provided by LEDs. Council's energy consumption and carbon footprint would therefore be considerably reduced; the incidence of reported Street Lights Out should reduce. This will reduce operating costs; LEDs have a lower lumen depreciation than HID lamps. This means that approaching the end of life a LED output is higher than that of a HID lamp; Disposal and/or recycling or refurbishment of LED luminaires will be more efficient than disposal of lamps containing higher levels of mercury; LED luminaires are smart ready. That is, they can facilitate control systems such as remote reporting (of parameters such as temperature, noise and air quality), control and dimming, should it be required; A variety of existing luminaire and lamp combinations can be replaced with one LED type, with white light, which is the preferred option for P category (minor road) installations; and Some HID light sources (e.g. Low-Pressure Sodium lamps and Mercury Vapour lamps) are no longer available. SA	Corporation of The City of Unley	Phase One	Community Infrastructure	Landscaping of an important walking and cycle corridor, following path widening to be undertaken by the State Government. The works involve vegetation clearance, soil improvements, irrigation and extensive planting of shrub, grasses and ground covers, as well as advanced trees. In addition to the corridor greening, improved way finding signage and upgrade LED path lighting will be installed.	The Mike Turtur is the most popular off-road cycle route for daily commuters into the CBD. Over time, the popularity has placed increased pressure on the path width and its capacity to accommodate increased cyclists and pedestrians. The State Government has chosen to increase the path width to improve the safety and efficiency of the route, between Musgrave Street, Goodwood and King William Road, Wayville. The Bikeway runs parallel to the existing tram corridor and adjoining side and rear fences of residential homes. To enable the construction of a wider path, extensive vegetation clearance is required. Much of the existing planting is old, self-seeded and overgrown, and inappropriate along the bikeway due to sightlines, CPTED, form or seed drop. The LRCI Program allows Council to invest in a new corridor landscaping to improve the safety, amenity and biodiversity for all users, and adjacent residents. A sustainable palette of predominantly native plants will be carefully chosen to ensure long term sightlines are maintained along the corridor, support the Council's long term tree canopy growth targets, and increase local biodiversity. Once established, the Council will take the longer term maintenance responsibility of the bikeway and corridor greening.	Jan-21	Jun-21	260,000	260,000
SA	Corporation of The City of Unley	Phase One	Community Infrastructure	The project aims to re-activate three existing Council owned Cottages which interface with the Village Green, within the Civic Precinct. The Cottages are to be re-purposed to provide a greater range of business and innovation services to support the local community, and to better activate the central Village Green open space as well as re-establishing 'front gardens' to each of the cottages along Edmund Avenue. The scope of work involves the demolition of blank, aged lean-to's at the rear of each Cottage, with new contemporary extensions which re-orientate to look out onto the Village Green with new DDA access provide into the Cottages. The interface with the Village Green will be enhanced with a new public realm of paving, tree planting, garden beds and furniture to improve pedestrian accessibility, amenity and increased visibility / safety. The cottage improvements will include repainting and the refurbishment and upgrade of existing public toilets.	The Unley Civic Precinct is considered the heart of the City of Unley, providing a range of community, cultural and civic facilities that support the needs of our residents. However, the Precinct lacks a cohesive identity, legibility and a range of services that suit the contemporary needs of our residents. The existing historic cottages are tired, provide limited value to the local community and turn their back onto the surrounding Village Green. The Village Green is an open grassed area, which is underutilised and perceived to be inaccessible to most. Council in collaboration with community representatives, has developed a long term vision for the wider Civic Precinct which seeks to bring new life to the Cottages, to create new 'front door's onto the Village Green, and improve the accessibility, amenity and appeal of the Village Green for the local community. SA	Tatiara District Council	Phase One	Road	Widening of Wirrega North Road, Complete staged widening of narrow section of Wirrega North Road for heavy vehicle use. Widen sealed pavement from 4m to 6.2m to allow for trucks to pass and meet the South Australian Local Government Transport Advisory Panel fit for purpose standards.	Current road width is insufficient for heavy vehicles to pass each other and stay on the sealed road surface increasing the likelihood of head-on crashes	Apr-21	Jun-21	250,000	250,000
SA	The Barossa Council	Phase One	Community Infrastructure	District wide footpath renewal and upgrade programme. Work scope includes site preparation (clearing of top soil and vegetation and old footpath where necessary) placement and compaction of sub-grade and laying asphalted concrete surface. Minor other associated works includes kerb and gutter repairs, small retaining walls and replacement driveway crossovers where required. Out of scope is the verge upgrade/beautification works.	The accelerated capital works programme will create linkages that improve connectivity and access in and between strategic destinations such as town centres and key service areas. This will encourage pedestrian movement in these retail, commercial and industrial precincts to support economic, social and recreational activity	Mar-21	Jun-21	1,015,108	565,108
SA	The Barossa Council	Phase Two	Community Infrastructure	Barossa United Football Club (BUFC), Nuriootpa Centennial Park, Penrice Road Nuriootpa - regional soccer facility construction	Funding will be applied to the upgrade of playing surface facilities through construction of an additional soccer pitch (artificial) and lighting to required code guidelines	Jun-21	Dec-21	4,110,303	1,034,462
SA	The Berri Barmera Council	Phase One	Community Infrastructure	The revitalisation of Berri's Colin Jennings Apex Park (Apex Park) will incorporate improvements including an upgrade of the previous BMX track to a versatile pump track which can be used by bike riders, skateboarders and scooter riders of all abilities. Complimenting this will be an off-grid solar BBQ shelter and associated amenities so park users can spend extended time enjoying this space and the additional play equipment that will accompany it. Concrete connecting footpaths, that double as a junior scooter track meander through the native vegetation to connect the different zones of the park. Finalising the upgrades is new fencing for the current dog park, bringing the whole area together to deliver a unique and enjoyable public open space that provides positive health and wellbeing opportunities for the Berri and wider Riverland community.	The Berri township does not currently have a suitable community open space that provides adequate facilities for people to connect and enjoy together, while meeting the needs for families that are transport disadvantaged and unable to access other facilities within the district. Additionally, Berri has no free active public facilities for older age groups (pre-teens and teens) such as a skate park. This project will provide a pump track (amongst other infrastructure) which caters for a variety of ages and wheeled users. This is a community facility that is not currently provided by any of the other Riverland Councils and will be a distinctive point of difference for the park. The space currently has ad-hoc infrastructure including; a dog park, two small pieces of playground equipment, asphalt multi-use court and shaded gazebo. The existing layout lacks connectivity between the current facilities which reduces the appeal of the area. By teaming the pump track up with dedicated concrete connecting footpaths, that double as a junior scooter track, provides the safe connectivity required for the individual areas and is the perfect combination for families with children of varying ages. To ensure that the new features of the park are fully maximised, complimentary facilities such as; a fully solar BBQ, solar lighting, seating and drinking fountain	Feb-21	Jun-21	299,755	299,755

SA	Town of Gawler	Phase One	Community Infrastructure	Install shade sails over four playgrounds: Fifth Street, Hemafor Grove, Willaston Nature and Apex Park	At present, there is no protection from sun, UV and wet weather conditions at playgrounds. Children get burns from hot play equipment and from playing in the sun on hot days. The lifespan of play equipment will be reduced with fading and cracking that can happen from sun exposure over time. These issues will be addressed by installing shade sails over playgrounds and it is widely recognised shade provides beneficial outcomes for the community to encourage active play at times when they may not have played due to hot weather conditions. Council has three existing other playgrounds with shade sails over them, and due to these beneficial outcomes, is seeking to expand these over more playgrounds as part of this community infrastructure program. SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Warooka Standpipe Upgrade. Section 54 White Hut Road. Category: Painting /Improvements to community facilities	Modernisation of standpipe infrastructure to allow for an electronic payment system for water supply. The filling station (standpipe) provides a water supply to those that do not have access to water. The upgraded station will remove the current usage booking system and occurrence of water theft. It is expected usage will increase due to improved ease of access, along with an increase in supply to travellers (who currently are not accessing due to the booking system).	Feb-21	Dec-21	55,000	55,000
SA	Yorke Peninsula Council	Phase Two	Road	Patch Sheeting. Bussenschutt Road and Moorowie Station Road. Category: Sheeting/re-sheeting.	The patch sheeting methodology is utilised to remedy small sections of lower use roads. 5 segments (14,400sqkm) of Bussenschutt Road and 3 segments (14,000 sqkm) of Moorowie Station Road will be remedied. The works will improve ridability and minimise hazards for road users. The patch sheeting model also increases the useful life of the road.	Feb-21	Dec-21	225,000	225,000
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Marion Bay Desalination Plant Improvements. 1 Willyama Drive (Plant) & 73 Slow Street (beach well erosion area), Marion Bay. Category: Painting /Improvements to community facilities.	Marion Bay does not have mains water supply and hence a Desalination Plant was built to support residential properties and the caravan park. This project will see desalination plant water quality improvements and measures to address beach well site erosion problems undertaken. The beach well supplies water to the plant and due to seawater level rising and winter storms, beach well infrastructure is now under threat from the ocean; if not addressed flooding of the beach well infrastructure and electrical controls will stop water production. In addition, water quality is shortening hot water infrastructure life to the caravan park and supply network.	Feb-21	Dec-21	65,000	65,000

Edithburgh (x2), HD Melville, HD Warrenben, Marion Bay, HD Moorowie, HD Wauraltee, Port Victoria, Balgowan (x2), HD Tiparra, Wool Bay (x3), Stansbury (x2), Port Vincent, Ardrossan, Category: Improved Accessibility of Community Facilities and Areas	Implementation of works identified in the Coastal Management Strategy to manage community access to key coastal locations, including fencing, bush camping toilet amenities, installation of traffic and pedestrian signage, and vehicle and pedestrian access works (such as car park formalisation, and walkway/access upgrades).	Feb-21	Dec-21	175,281	175,281
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Walk the Yorke Upgrades – Various. Category: Bicycle and Walking Paths	Upgrade to trail surface and infrastructure where needed across 120km of the 500km trail.	May-21	Dec-21	50,000	50,000
SA	Yorke Peninsula Council	Phase Two	Road	Spoon Drain Replacement Program. Maitland, Yorketown, Stansbury, Warooka, Edithburgh, Port Vincent, Curramulka, & Coobowie. Category: Drainage.	Replacement of spoon drains. Works involve civil works to remove existing spoon drains and replace with new concrete spoon drains and kerbing. The problem being addressed is the spoon drains have reached their functional capacity and require upgrade to ensure appropriate drainage.	Feb-21	Dec-21	225,000	225,000
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Black Point Water Supply Storage Tanks. Lot 3014 Black Point Drive, Black Point. Category: Painting /Improvements to community facilities	Removal of old leaking concrete water storage tank and installation of new poly tank and required plumbing. This will address water loss and supply restrictions to the nearby Black Point community.	Mar-21	Dec-21	30,000	30,000
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Minlaton Town Hall Maintenance. 57 Main Street Minlaton. Category: Painting /Improvements to community facilities	Replacement of gutters and windows at the Town Hall to ensure adequate drainage and management of draughts and light. This will see continuation of community use of the Town Hall.	Feb-21	Dec-21	55,000	55,000

TAS	Break O'Day Council	Phase One	Community Infrastructure	Multiple Locations - Tourism Information Signs	After reviewing Tourist Information sites in the municipality, Council has found that existing information is outdated and not conducive to emphasising visitor experiences in the area. Therefore, Council has decided to develop, design and implement new information for three of the sites, Fingal, St Marys and Scamander	Feb-21	Mar-21	9,000	9,000
TAS	Break O'Day Council	Phase One	Mixed	MTB Trail Head and Flagstaff Road - Sealing	A segment of Flagstaff Road and internal vehicle roads at the MTB trailhead are constructed in a gravel road base, which is prone to vehicle and weather wear and fine dust generation. Sealing of the road surfaces will benefit the community, especially the users of the trailhead area and adjacent properties in the vicinity. The newly constructed trail network which is focussed around the Flagstaff trailhead is already attracting large numbers of people who are using the world class mountain bike trails for exercise and to explore our diverse and wonderful natural environment. The sealing of the road will improve stormwater quality, ensure longevity of pavement, reducing maintenance costs and ensure the experience at the trailhead is enhanced by reducing dust. By undertaking these works we are encouraging community members and visitors to participate in exercise safely and promote healthy lifestyles.	Nov-20	Feb-21	100,000	100,000

TAS	Central Coast Council (TAS)	Phase One	Community Infrastructure	Ulverstone Skate Park Redevelopment Major redevelopment of c.1970s existing skate park to provide modern activity hub with the adjacent, new MTB pump'n'jump courses. Includes new 'street' style skate elements, with proper zoned design to allow all-ages and wheelchair access, separate parkour obstacle area, new outdoor ball arena (half-court basketball and footsal), and refurbishment of existing picnic shelter area, including new bicycle parking.	Existing skate park facility is aged (c.1970s) and near end of serviceable life. Current layout and design reflects age, with style and zoning of elements not suitable for all-ages/all-skills use. Current surface and layout is not suitable for wheelchair access and use. Shape and design of some current ramps is not as safe as modern design. Existing ball court is too small (less than 3-point arc) for even casual use. The location is a popular active recreation area, particularly for youth and teen activities. It is adjacent a new mountain bike pump and jump track, at the end of a popular regional coastal parkland with various playgrounds, and only 100m from local surf club and amenities. The redevelopment project will help consolidate the zone as a regional destination for active recreation, particularly among youth and teenagers.	May-21	Jun-21	570,000	320,000
TAS	Central Coast Council (TAS)	Phase One	Community Infrastructure	Upper Preston Falls Upgrades The development at Upper Preston Falls would include a new car park, signage, disability support tracks and two viewing platforms to improve visual amenity of the waterfall and support natural values of the site. Upgraded visitor signage and interpretations at Preston Falls adds value for the project and builds critical mass for the two waterfall attractions.	Creating nature-based visitor experiences at Upper Preston Falls and building awareness through economies of scale for two waterfall destinations in close proximity on Preston Creek are needed to provide economic benefits to local and regional businesses affected by the COVID-19 pandemic. This project aims to enhance and develop sustainable tourism destinations and to build competitive advantage for local businesses and the regional visitor economy.	Nov-20	Jun-21	496,586	451,586

TAS	Devonport City Council	Phase One	Community Infrastructure	Devonport urban road tree planting program	Devonport's urban road network is lacking in trees, which can provide a wide range of benefits for road users and adjacent residents and businesses. Tree planting on major roads can improve the user experience for locals and tourists alike.	Jun-21	Jun-21	10,000	10,000
TAS	Devonport City Council	Phase One	Community Infrastructure	Foreshore Path Link	Lack of accessibility between urban footpath network and foreshore path	Mar-21	Jun-21	25,000	25,000
TAS	Devonport City Council	Phase One	Community Infrastructure	Rooke Street Mall Devonport - Christmas Tree	Existing tree the feature of public Christmas decorations, but is old and lacks vibrancy. A new tree will rejuvenate the area and attract families during the Christmas shopping period, boosting local retailers.	Aug-20	Jan-21	53,000	53,000
TAS	Devonport City Council	Phase One	Community Infrastructure	Pioneer Park Devonport - footpath between Pioneer Park and Wright Street and accessible parking bay	No accessible path between East Devonport retail area and nearby Pioneer Park, discouraging pedestrian travel. No accessible parking bays, which may be limiting access for some potential park users.	Mar-21	Dec-21	50,000	50,000
TAS	Devonport City Council	Phase One	Road	Greenway Avenue Devonport - traffic calming	Traffic data indicates a significant portion of vehicles traveling above the 50km/h speed limit. Volume of traffic is higher than other local streets. Residents have approached Council about reducing speeds in the street.	Mar-21	May-21	82,733	82,733
TAS	Devonport City Council	Phase One	Community Infrastructure	Ronald Street Devonport - new footpath (Oldaker Street to Parker Street)	Footpath that only partially complete, with three missing sections. The proximity to schools and shops means this street has high 'walkability' and there is a demand for a continuous footpath.	Jan-21	Feb-21	44,000	44,000
TAS	Devonport City Council	Phase One	Community Infrastructure	Don Reserve Devonport - path renewal (Parker Street to Nicholls Street)	Existing path in poor condition, with cracked asphalt and tree roots. This is making path unusable for less mobile people and people riding small wheeled devices like skateboards, scooters and children's bikes.	Sep-20	Mar-21	130,000	130,000
TAS	Devonport City Council	Phase One	Community Infrastructure	Mary Binks Wetlands East Devonport – path upgrade	The Wetlands is an important recreational space for adjacent aged care residents, but parts of the path network are gravel limiting accessibility. Path also used by families accessing the nearby recreation centre. Upgrading path and adding park furniture will allow a wider range of users to benefit.	Feb-21	Apr-21	55,000	55,000
TAS	Devonport City Council	Phase Two	Road	Coastal Pathway – River Road, Oakwood to Ambleside	Bicycle and walking paths: construction of 820m of new path, replacing substandard pedestrian and cycling facilities on the coastal pathway route	Jun-21	Dec-21	880,000	880,000

TAS	Dorset Council	Phase One	Road	Carisbrook Lane Legerwood between the Junction of Tasman Highway and McDougalls Road upgrades to cater for heavy vehicles	The current carriageway is narrow and uneven with areas of pavement failure which creates increasing safety and operator cost issues. The road is classified as 'Heavy Rural' and while it is a gazetted HML/HPV route it does not currently meet the required geometric standards. Carisbrook Lane is used extensively by B-Double and Hi Production Combinations as well as 9 axle Articulated Vehicles transporting close to 200,000T of products into and out of the region. It is also the local school bus route. The prohibitive costs of an upgrade and conflicting demands on resources has meant that short term annual maintenance fixes have been required to be utilized to ensure ongoing safety compliance. This project will enable investment into the much needed longer term solution of a reconstruction and ensure an increased standard of safety for both heavy vehicle operators and the local community. TAS	Flinders Council	Phase One	Community Infrastructure	Whitemark: Repair drainage washout for public access and review storm water requirements	Storm water drainage. Culverts have been damaged and eroded due to rusting of the valve at the bulkhead, storm surges the water flooded up the drain and broke many of the culverts. Broken culverts have eroded Bluff Track, a steep drop off the edge of the track and narrowing of the path.	Mar-21	Jun-21	42,665	30,665
TAS	Flinders Council	Phase One	Community Infrastructure	Replacing existing fencing throughout Flinders Island	Unsafe fencing, unsightly, unclear entrance ways, and gates no longer functional due to disrepair. New fencing to protect underground plumbing works and prevent access by the public.	Feb-21	Jun-21	19,700	17,700
TAS	Flinders Council	Phase One	Road	Whitemark Landfill improvements	Extension of the life of the existing landfill site by segregating waste, baling, and using the site more economically increasing the current cell life. Improving EPA compliance by introducing sorting and baling waste. Clear signage for community to deposit their waste efficiently. Reduction in safety hazards, due to restricted access to work areas. Improved road safety due new road infrastructure and new signage. Ability to monitor waste disposal improved. Reduction in fire hazard of green waste. Safety of community patrons visiting the giving shed is improved through car parking. Allows sorting at transfer stations.	Feb-21	Jun-21	213,031	132,231
TAS	Flinders Council	Phase One	Community Infrastructure	Flinders Island Airport: Repaint, repair and where necessary landscape existing council owned building and facilities	The project aims to address both safety issues, building deterioration and visual aesthetic. Removes the complexity of maintaining numerous buildings with several varying colour combining and unifies Council buildings for future ease of maintenance. Addresses the unsightly and deteriorated assets and restores them to a more appealing visual aesthetic for community and tourists.	Dec-20	Jun-21	125,804	117,404

TAS	Hobart City Council	Phase One	Mixed	Queens Domain The project consists of the complete development of a whole new cycleway along with car park and associated infrastructure. The cycleway will be constructed on a steep gradient of land by the side of the old Tas rail line which is currently unused. The project rectifies many ongoing issues/complaints about the surface of the car park and road ways in this area.	The project brings together the "missing link" the missing connection of cycleway between the Regatta grounds car park and the Macquarie point development. Currently the cycleway ends requiring riders and other users to travel through an active car park and thoroughfare to the water. The potential conflict for users currently poses significant risk to public safety. The lack of connectivity to the new cycleway at Macquarie point often causes confusion throughout the cycling community and this is often addressed through our network / stakeholders meetings with cycling groups as a major area for improvement. The project will allow you to enter the cycleway throughout Glenorchy providing a continuous, safe path away from traffic directly into the heart of the Hobart central district. TAS	Waratah-Wynyard Council	Phase One	Mixed	Installation of new virtual fencing to stop Tasmanian Devils (among other animals) crossing the road in the Rocky Cape National Park environmentally sensitive area. Virtual Fencing is an active electronic protection system that alerts animals before crossing the road when a vehicle is approaching between dusk to dawn. It is proven to be extremely effective in preventing wildlife-vehicle collisions in Australia and around the world. The device is triggered by vehicle headlights and emits a buzzing sound and flashing light to warn nearby wildlife of approaching vehicles. The devices are not visually intrusive and are currently used in Tasmanian National Parks such as Cradle Mountain.	Reducing the amount of wildlife killed on council roads is an action in council's recently adopted Integrated Community Environmental Plan and supports the Tas. Govt. Save the Devil Program. VIC	Baw Baw Shire Council	Phase One	Community Infrastructure	The project will develop an intertown connection for use for pedestrians and cyclists between Erica and Rawson that aligns with Baw Baw Shire's Paths and Trails Strategy. The project will include a granitic sand path approximately 4.7km in length from Henty Street, Erica to Pinnacle Drive, Rawson. The proposed route of this path begins at the intersection of Henty Street and School Road. From here the proposed path follows the East side of School Road/ Moe-Rawson Road, crossing Collins Road and Thomson Valley Road. The proposed route turns East at the intersection with Knotts Siding Road, and runs along the South side of Knotts Siding Road into Rawson via Tyers-Walhalla Road (West side).	The project will achieve the following solutions as identified in Council's Paths and Trails Strategy: - Meet demands for connectivity for pedestrians and cyclists to key public points of interest in the Shire. - Growing demands for new paths and trails to connect our smaller communities. - Providing additional leisure and recreation opportunities to our communities aimed to encourage the community to stay healthy and increase community connectedness and participation. - Offer an additional tourism experience for visitors to the region to benefit businesses in communities where tourism is a major contributor to economic output and job creation. VIC	Baw Baw Shire Council	Phase One	Road	Improving access to the new Early Learning Centre co-located at Warragul Primary School by upgrading and sealing the road pavement, improving drainage with new kerb and channel, improved footpaths and carparking in the existing road reserve.	To meet the needs of our rapidly growing community an Early Learning Centred was co-located at Warragul Primary School and the increased traffic has resulted in access and safety issues for parents and children, increased damage to existing unsealed road surface, access and amenity for local residents, and parking challenges. This project is supported by the Council Plan under the following initiatives: - Quality community focused services, facilities and infrastructure to support a growing community - Develop a coordinated approach to the planning and delivery of early years services to support Baw Baw's growing population - Parking provisions are also key to providing a safe and sustainable environment for our communities and residents	Sep-20	Jan-21	259,190	259,190
VIC	Baw Baw Shire Council	Phase One	Road	changeover existing inefficient old street lighting in Baw Baw Shire with the most energy efficiency LED Streetlighting available currently. The shovel ready program covers the replacement of 1,230 old and inefficient street lights which includes high-pressure sodium vapour and high wattage mercury vapour to the most energy-efficient LED lighting.	The changeover program will generate local employment, improve community safety, reduce impact on our environment and save money for our local community. Energy Efficient street LED lighting are up to 60 percent more energy efficient than traditional high pressure sodium bulbs or mercury vapour and can last 15 to 20 years. LED lights are free of all harsh chemicals and therefore minimise impact on our environment. LED lights are also 100% recyclable and can significantly reduce your carbon footprint. VIC	City of Monash	Phase One	Road	To improve pedestrian and cyclist safety along Park Road in Oakleigh at Scotchmans Creek Trail shared path and to encourage more people to the Oakleigh Recreation Centre, the construction of pedestrian and cyclist priority crossings is proposed.	There is a high pedestrian and cyclist volume along Park Road generated by the Scotchmans Creek Trail and Oakleigh Recreation Centre and it is proposed to highlight and enforce priority for pedestrians and cyclists at suitable locations. These will also improve accessibility in and around these community facilities.	Feb-21	Jun-21	100,000	100,000
VIC	City of Monash	Phase One	Community Infrastructure	The renewal and upgrade to current standard width (3m) of the popular Gardiners Creek Trail shared path. High standard shared path connections provides safety and amenity improvements for both pedestrians and cyclists.	The current narrow path width (2.0-2.5m) is creating conflicts between pedestrians and cyclists, with complaints of crashes and near misses becoming more frequent. This affects the community's perceptions of safety when using on the path.	Feb-21	May-21	550,000	550,000
VIC	City of Monash	Phase One	Road	Improve road safety in the local area, a 'Flat-top' road hump is to be installed to slow the speed of traffic down.	There is a length (250m) of road along Lawrence Road between the road hump outside 261 Lawrence Road and the raised T-intersection at Taroona Avenue, which does not have any physical treatment to slow down the traffic speed. VIC	City of Port Phillip	Phase One	Mixed	Rotary Park, St Kilda Foreshore	<p>The playground at Rotary Park was removed during the construction of The Stokehouse restaurant – which used this space as a building site.</p> <p>The playground is in a high tourism visitation area on St Kilda Foreshore, an area that attracts over 2m people each year.</p> <p>The playground is a high priority for reconstruction given there are no other playgrounds in the area.</p> <p>The project has strong support from the community and Rotary Club of St Kilda, who originally created the park and have been advocating for improvements.</p> <p>Upgrading the full park enhances the gateway to the foreshore and creates more usable public space, through improvements to pathways, access points, infrastructure and through safety improvements such as upgrades to lighting.</p> <p>The park has been identified for critical security upgrades to minimise the danger of unauthorised vehicle access to the foreshore.</p>	May-21	Sep-21	662,686	277,686
VIC	City of Warrnambool	Phase One	Community Infrastructure	<p>Pertobe Road</p> <p>The project involves the reconstruction and formalisation of an existing car park off Pertobe Road. The works will include reconstruction and strengthening of the car park pavement, formalisation of the parking areas and creation of safe pedestrian pathways and walkways to the Lake Pertobe public open space adjoining the car park.</p>	Failing car park surface and informal parking areas creating a safety risk to users and pedestrians.	Feb-21	May-21	500,000	425,024
VIC	City of Wodonga	Phase One	Community Infrastructure	<p>refurbishment of the old Wodonga Council's Visitor Information Center (VIC) to enable its re-purposing as a top-end venue to attract visitors to the Gateway Island precinct - the subject of an extensive masterplanning project approximately 12 months ago. The works will include insulation to the building, specialist installation of heating and cooling, upgraded and DDA toilets and consideration of an elevator to the second-floor facilities.</p>	This Council-owned building has had a multitude of tenants over the past years - but is in need of significant refurbishment if it is to become the centre-piece of visitor attraction. Its current condition can be described as a somewhat deteriorated asset, in need of major works.	Dec-20	Jun-21	541,081	541,081
VIC	City of Wodonga	Phase Two	Community Infrastructure	<p>Kelly Park Pavilion Redevelopment (Stage 2)</p> <p>Lawrence Street, Wodonga.</p> <p>Sporting and recreation facilities</p>	These works are to provide a new female-friendly pavilion to service existing soccer and cricket grounds, including umpire facilities, new first aid room and kitchen.	Feb-21	Sep-21	802,000	460,000
VIC	City of Wodonga	Phase Two	Mixed	<p>Birallee Park Outdoor Cricket Nets, Access Road and Landscaping (Stage 2)</p> <p>Marshall Street, Wodonga.</p> <p>Sporting and recreation facilities</p>	These works are to complete the cricket precinct by providing new facilities in Stage 2 which include outdoor cricket nets, access roadway and landscape to compliment the recently opened Indoor Cricket Facility. VIC	City of Wodonga	Phase Two	Community Infrastructure	Wodonga Racecourse Toilet Block Reconstruction Wilson Street, Wodonga. Toilet Blocks	This project is for the demolition of the existing deteriorated toilet block and the construction to full accessibility requirements of a new enhanced public toilet block.	Jan-21	Jun-21	325,000	175,000
VIC	City of Wodonga	Phase Two	Community Infrastructure	Birallee Park Pump Track (Stage 2) Marshall Street, Wodonga. Sporting and recreation facilities	These works are to upgrade and enhance the Birallee Pump Track project by completing Stage 2, an additional pump track and providing a new water supply to the precinct.	Mar-21	Jun-21	150,000	150,000
VIC	City of Wodonga	Phase Two	Community Infrastructure	Belvoir Park Playground (Stage 2) Huon Street, Wodonga. Playgrounds and Skate parks	Stage 2 of this projects will enhance and add to the Stage 1 works currently being designed and prepared for tender and will complete the works at this location.	Mar-21	Dec-21	775,000	306,950
VIC	Colac Otway Shire Council	Phase One	Road	Installation of speed humps outside school	Speeding vehicles currently pose a safety risk to children accessing the Specialist School in Wilson Street, Colac. Students aged 5-18 with special needs and their carers currently use the crossing daily during school term. Cars and heavy vehicles use this local road as a short-cut between the C155 (Colac-Lavers Hill Road) and Queen Street (north south collector road). The installation of speed humps either side of the crossing aims to slow vehicles and deter heavy vehicles, generally improving pedestrian safety in this area.	Nov-20	Dec-20	20,000	20,000
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Resurfacing two tennis courts and one netball court	The condition of the existing asphalt surface of these courts has reached a point where it is no longer safe to play. There are cracks with weeds and during rainfall, water pools on the surface causing slipperiness and poses a risk to the users. The courts are used by the Apollo Bay Netball club, casual and social tennis players from the townships of Apollo Bay, Skenes Creek and Marengo and visitors to the adjacent camping ground.	Nov-20	Dec-20	40,000	40,000
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construct footpath in Birregurra (and associated crossing treatments)	There are currently no all weather connections or dedicated pedestrian crossing points to the train station. This station provides a connection to the major centres of Geelong (45 mins journey) and Colac (30mins journey), and is used as a sustainable transport connection to jobs and services. State	Council/Eligible Funding Recipient	LRCI Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commence	Date construction completed	Total project cost	LRCI Program Funding Required
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construction of concrete footpaths in multiple locations	Many key connections that link schools, shopping precincts, tourist destinations, community facilities, open space and off road shared paths do not have existing hard surface, accessible paths on either side of the road. This limits access to recreational and community destinations for many residents and visitors, particularly for the elderly and mobility impaired and in high rainfall areas such as Gellibrand, Lavers Hill and Apollo Bay.	Sep-20	Jun-21	318,000	318,000
VIC	Colac Otway Shire Council	Phase One	Road	Sealing of 700m of road	The main benefit this project will deliver is improved safety by providing all weather access constructed to a higher standard, for adjoining property owners and other road users in general. It will provide an attractive alternative access route for residents in the Swan Marsh community. It will provide a viable option for heavy vehicle access (milk tankers, stock trucks, quarry vehicles) into and out of the Swan Marsh district. It will provide an attractive alternative access point for emergency responders (Fire Safety Victoria, etc.), both into and away from the Swan Marsh district. Safety at night or in foggy circumstances will be greatly improved through road side delineation, the advantage of a sealed surface, and through the addition of solid edge lines. Routine maintenance of the unsealed surface (maintenance grading) will be substantially reduced – shoulders will still require periodic maintenance.	Mar-21	Jun-21	285,000	285,000
VIC	Colac Otway Shire Council	Phase One	Road	Construction of new kerb and channel, and associated drainage	In 2019 Colac Otway Shire adopted a masterplan for Forrest Common Reserve, the main community park servicing the Forrest township. The plan identified that road run-off from Station Street was causing damage to the reserve, particularly the playground and car park. High volumes of stormwater sheet across the reserve carrying debris and spreading playground softfall into the car park, creating slippery surface	Apr-21	Jun-21	155,000	155,000
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construction of new play space	Residents of the Petjuli Street park catchment do not currently have access to a playground within walking (500m) distance, with the nearest playground being more than a kilometre away. The park is currently undeveloped with some trees and park benches. This development will create a social destination for the many children, families and carers in the area, activities for a range of age groups and access to these facilities with the creation of a hard surface path connecting to the existing footpaths. VIC	Colac Otway Shire Council	Phase One	Road	Road repairs at main entry and emergency entry and nearby roundabout at Colac Hospital	The roundabout and section of Connor Street are heavily used for everyday access to Colac Hospital, Bulla Factory, and various medical centres. Repair of this road will improve the safety of the road surface for users, especially ambulances and other medical vehicles entering the hospital and people visiting the various medical services in this area. The asphalt works will also assist in reducing traffic noise for aged care residents and patients who are situated in hospital wards and wings adjacent to this roadway. Undertaking rehabilitation works now will avoid the need for full road reconstruction when the road fails. If a full reconstruction were required it would cause substantial disruption in the area and interrupt hospital access.	Feb-21	Apr-21	200,000	200,000
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construction of pedestrian and cycling bridge and paths	In 2016 a pedestrian bridge that forms part of the Barongarook Creek Shared Trail was washed away by flood waters. The bridge connection forms a critical off-road link for users of the Barongarook Creek shared trail and, once completed, will provide a continuous, 1.3 kilometre off-road walking and cycling connection from the Coles on Bromfield Street and the Visitor Information Centre on the corner of Murray and Queen Streets, via picnic/toilet facilities and a recently constructed Traditional Owner memorial space to Lake Colac. If the bridge is not replaced, pedestrians, wheelchair users and cyclists are diverted 360 metres via a car park, up to busy Murray Street (Princes Highway) and must cross at traffic lights and journey along Murray Street to arrive at the continuation of the shared path.	Apr-21	Jun-21	390,000	390,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will see an upgrade to the existing oval to provide improved safety and ground condition for players.	The current cricket ground has issues with drainage and surface cover. This project will see the drainage improved and better surface cover provided.	Mar-21	Apr-21	15,000	10,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide fixed fitness equipment at the existing playground.	This project has been identified as a priority by the Derrinallum Progress Group to provide access to fitness and exercise equipment and encourage a healthy lifestyle as well as boost local economy by incentivising visitors and users to the area.	Dec-20	Feb-21	25,000	20,000
VIC	Corangamite Shire Council	Phase One	Road	This project will seal Windham Street which provides access from and to the Skipton Roadhouse service station and is used by heavy vehicles to access the key routes north of Skipton.	Upgrading an unsealed road to a sealed road to improve access to heavy and other vehicles. Windham Street is partly sealed (50m). This will extend the seal along the entire road.	Feb-21	Feb-21	50,000	50,000
VIC	Corangamite Shire Council	Phase One	Road	This project will seal the truck and long vehicle parking area located opposite the Skipton Roadhouse service station on the Glenelg Highway.	Upgrading an unsealed truck parking area to a sealed parking area will improve the conditions for heavy vehicle drivers exiting the parking area and safety for users of the adjoining highway as well as reduce dust for nearby business and residents.	Feb-21	Feb-21	80,000	80,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will renew the boardwalk infrastructure on the pedestrian link from Hennessy Street to Morris Street behind the Port Campbell Public Purpose Reserve.	The existing boardwalk is at the end of its useful life and at the stage of requiring ongoing maintenance.	Apr-21	Jun-21	95,000	95,000

VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will replace bridge structures on the Camperdown Timboon Rail Trail which have been identified as requiring replacement in the recent Management Plan.	The upgrades will improve the safety of all users of the trail.	Oct-20	Jun-21	100,000	50,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide all abilities access to the Camperdown Court House which the local visitor information centre operates within.	The Camperdown Courthouse is leased by a volunteer community group who provides visitor information services, local art displays and various events and functions. The Court House does not currently provide permanent all abilities access. For those people requiring access a portable ramp is provided on request at a door to the rear of the building to provide access.	Mar-21	Jun-21	125,000	125,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will include the replacement of the roof over the two court basketball stadium and minor facility upgrades.	The existing roof is over 20 years old and at the end of its useful life. It is leaking during certain rain and wind events and presents safety risk to participants using the courts, so much so that competition was postponed last season. This project will ensure the safety for players, officials and spectators and have been identified several years ago as a priority by the Committee of Management.	Dec-20	Mar-21	120,000	120,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	To replace the existing Estcourt Street public toilet block.	The Estcourt Street public toilet block is in poor condition. It services the main central business area of Terang and has been identified by Council through its asset management plan for removal and replacement. Providing improved public toilets will ensure appropriate amenity for users and equity of access for users.	Feb-21	May-21	175,000	175,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	To replace the existing Derrinallum public toilet block.	The Derrinallum public toilet block is in fair condition and has been identified by the community through its community plan as requiring either replacement or an upgrade to provide contemporary facilities for visitors and users. Derrinallum is located on the Hamilton Highway and these toilet blocks are heavily used by travellers. Providing improved public toilets will ensure an inviting amenity and encourage people to stop in the town.	Mar-21	Jun-21	175,000	175,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will involve the construction of a skatepark in Skipton.	The Skipton community have identified a Skatepark as a key priority in its community plan and as a key project highlighted by a petition signed by more than a hundred young people from around Skipton and district. The skate park will provide an important year-round recreational opportunity for young people.	Feb-21	Apr-21	160,000	120,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide all abilities access to the War Memorial in Camperdown and streetscape infrastructure upgrades in Finlay Avenue between Pike Street and the War Memorial.	Camperdown's War Memorial does not currently enable all abilities access. For ANZAC Day celebrations, Councils' building team erect a temporary ramp to provide access for those unable to use the existing steps. Renewal of existing infrastructure will also be undertaken.	Apr-21	Jun-21	200,000	200,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will see an upgrade to the existing clubrooms to provide an inclusive design and provide improved functionality for users.	The current facilities are ageing and require ongoing and increasing maintenance. The layout is not functional and there are issues with accessibility for both participants that are ageing and those with a disability.	Mar-21	Jun-21	400,000	300,000

VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide upgrades to infrastructure in Cobden's main streets which have been identified as a priority by the Cobden community.	Cobden's streetscape requires a refresh. The various works will help to improve the aesthetic of the main street in Cobden whilst addressing safety and access issues identified by the community.	Feb-21	Jun-21	300,000	300,000
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	Project Management resources to deliver on funded projects will include 1 temporary full time staff member and a part time or contracted resources as available and where required.	Project management resources delivers on the LRCI program's key outcome to 'protect and create short term employment opportunities through funded projects'. With the extent of stimulus funding initiated from local, state and federal government AND the eligible projects being additional to Council's 20-21 work plan, additional resources are required to assist with project management and delivery.	Jul-20	Jun-21	165,555	165,555
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will see an upgrade to the existing netball infrastructure, including court lighting, shelters and inclusive design changerooms for players, officials and spectators.	The upgrades have been identified as a priority to improve the safety for participants, increase the chances of clubs attracting and retaining participants and to increase access and usage. These works are identified as a priority in the Great South Coast AFL, Netball and Cricket Strategy and are supported by the Recreation Reserve Committee of Management, Cobden Football Netball Club and Cobden Tennis Club. In addition, there is a demand for female facilities at the Cobden Recreation Reserve with the establishment of an under 18's female football team. If funding can be secured through this program, it is expected that there will be an increase in the number of females participating at the reserve. Currently, there are three under 18 female football teams across the Corangamite Shire. The upgrade allows Cobden Recreation Reserve to become a venue for further female teams including the development of female senior sides.	Feb-21	Jun-22	600,000	300,000

VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The Mitre Hall is a focal point for the small rural community of Mitre, based at the foot of Mt Arapiles. The 100-year-old hall regularly hosts community events. This project will upgrade the kitchen facilities in this essential community hub.	Existing kitchen facilities are over 40 years old, and in urgent need of replacement, to provide a hygienic and modern community asset.	Feb-21	Apr-21	40,000	40,000
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The Taylors Lake Hall is a focal point for the small rural community of St Helens Plains. The hall regularly hosts community dinners, trivia nights and music. This project will replace the ceiling in the hall to a safe standard, and upgrade the lighting to energy-efficient LED lighting.	The existing ceiling sheeting in the hall is dislodged and in danger of falling, and the lighting is via old fluorescent tubes. This project will improve energy efficiency.	Feb-21	Apr-21	12,000	12,000
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The Quantong Community Centre is a focal point for the small rural community of Quantong (population 308). The Community Centre regularly hosts birthdays, funerals and weddings. This project will repair Corella damage to the roof, and install solar power and upgrade to LED lights internally.	The galvanised iron roof has been damaged by Corellas, who pull out the roofing screws. The installation of solar power and LED lights will reduce costs to the local community who pay for services to the Centre.	Mar-21	May-21	20,000	20,000
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Install solar powered lights in the park.	The park currently has no lighting, and is not illuminated by street lighting. Installation of lighting will improve the safety and amenity of the public space allowing it to be used in the evenings for recreational purposes	Feb-21	Apr-21	20,000	20,000
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Enlarged culvert structure to provide capacity for increased flow in river, and sufficient capacity for fire vehicles, as the site is an existing fire access crossing and a popular walking path which has developed at the western end of Horsham township below the Wimmera River weir.	During periods of environmental releases or other small-medium flows in the Wimmera River, this crossing is inaccessible to pedestrians. A larger capacity culvert will enable the walking loop to be accessed throughout the year	Mar-21	Jun-21	80,000	80,000
VIC	Horsham Rural City Council	Phase One	Road	To replace the existing kerb & channel on both sides of Roberts Ave between Urquhart & McPherson Sts	The kerb and channel in this area is degraded, causing drainage failure and safety issues. This section of street contains a primary school and a childcare centre.	Mar-21	Jun-21	156,000	156,000
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Horsham Town Hall was redeveloped in 2016 with the addition of a new theatre auditorium. The room is ideal for un-amplified acoustic events e.g. Melbourne Symphony Orchestra. Motorised adjustable sound banners were included in the initial design but have not been installed due to budget constraints. This project will install the adjustable acoustic banners.	In the original auditorium design banners were used to absorb sound for live amplified performances. Currently the sound reflects off the walls and causes a distortion for patrons and artists on stage who hear the sound coming back at them.	Mar-21	May-21	150,000	150,000
VIC	Hume City Council	Phase One	Road	Reconstruction of the road between Johnstone Street and Kinniard Street	The road is in need of reconstruction to ensure long-term asset performance and for safe access in and out of residential properties. The project will also provide additional on street car parks to reduce impact on residents from Broadmeadows Hospital overflow parking	Nov-20	Mar-21	730,000	730,000
VIC	Hume City Council	Phase One	Road	Reconstruction of the road and upgrade of the underground storm water drainage.	The road is in need of reconstruction to ensure long-term asset performance and for safe access in and out of residential properties	Nov-20	Mar-21	920,000	888,480

State	Council/Eligible Funding Recipient	LRCI Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commence	Date construction completed	Total project cost	LRCI Program Funding Required
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Stanley Street - Footpath	There is only a small dirt walking track between the Indigo Creek Park and the Sports Park which gets very muddy over winter and has hazardous long grass (snake habitat). This new path will create a safe link from the school to the sports park.	Jul-20	Oct-20	25,000	25,000
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Kiewa East Road - Footpath	The existing footpath is very old and narrow (700mm) and does not provide for wheelchairs or support the high volume of pedestrian traffic now accessing the school. The existing path is also very cracked with multiple significant tripping hazards	Jul-20	Oct-20	78,750	78,750
VIC	Indigo Shire Council	Phase One	Road	Rutherglen Roundabout - Maintenance	As the main entrance to the town the roundabout planting is shabby. Road user line of sight is poor and directional signage unclear.	Mar-21	Jun-21	90,000	90,000
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Chiltern Senior Citizen - Footpath	There is no direct footpath link between the town center and the recreation reserve. Residents are walking down the roads. There is only one section of path remaining to complete the link. There senior citizens need more DDA parking and compliant access to the hall.	Jan-21	Apr-21	50,000	50,000
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Barkley Street - Footpath	A large number of Wahgunyah residents either walk down the edge of the busy road because there is no footpath or on the road side in the long grass which is a hazard. In previous years Council have supplied solar lighting for the future footpath.	Jul-20	Dec-20	95,000	95,000
VIC	Indigo Shire Council	Phase One	Community Infrastructure	High Street, Beechworth - Footpath	The existing footpath is gravel which can get muddy over winter and dusty throughout summer. High Street has high volume of local and tourist pedestrian traffic and does not cater well for wheelchair users.	Aug-20	Jan-21	122,250	122,250
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Ford and Camp Street Roundabout - Renewal	The existing concrete path has cracked over the years largely due to the heritage elms trees. This cracking has significantly damaged the tactile indicators which are now no longer compliant.	Aug-20	Dec-20	15,000	15,000
VIC	Indigo Shire Council	Phase One	Road	Skerry Street - Drainage	This is a low lying area with several residents that are often impacted by flooding. There is often significant water damage done to the road surface.	Jan-21	Jun-21	40,000	40,000
VIC	Indigo Shire Council	Phase One	Road	Blanch Street - Widening	Blanch Street is a vital link between the residential area of town and the Wahgunyah sporting precinct. There is no footpath at this crossing creating a dangerous situation with vehicles and pedestrians using the road to cross Sunday Creek.	Mar-21	May-21	120,000	120,000
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Main Street, Chiltern - Footpath	The existing footpath is narrow and has multiple significant hazardous trip hazards. One section of the path is still dirt.	Jul-20	Feb-21	90,000	77,000
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Yackandandah Creek - Footpath	The naturally challenging terrain and dividing busy roads have created pockets around the town without direct accessible routes of access. The new path will connect these pockets and provide a safe underpass under the Myrleford-Yackandandah road connecting Wellsfor street and the primary school to families on the other side. VIC	Macedon Ranges Shire Council	Phase Two	Mixed	Provision and upgrade of active transport infrastructure in Baynton Street Kyneton, from Mollison Street to Campaspe River Trail. Project include footpaths, pram crossing upgrades, DDA compliance, pedestrian crossings / connectivity along Baynton Street.	Provision of a bus pull off bay, shelter, parking, and footpaths in Main Street Romsey. There are approximately 30 students currently standing in the open during school drop off and pick up times. This has been raised with Council by the school, concerned parents and local MP's.	Aug-21	Dec-21	108,000	75,865
VIC	Manningham City Council	Phase One	Community Infrastructure	Ruffey Lake Park is a Council reserve, 66 hectares in area. The proposed works include the sealing of paths between the boardwalk at the main carpark, The Boulevard public toilets and picnic shelters. Marking of a new DDA parking bay in The Boulevard off road carpark. Installation of solar powered lights along this path to the toilets. Construction of footpath connections, in several cases to residential park interfaces including Victoria Street and King Street, including associated landscaping and works.	Council is in the process of completing improvements to The Boulevard public toilet block, to in part achieve DDA compliance. Council commissioned a Building DDA Inspection report for the public toilets and the recommendations included sealing of existing gravel paths to access the toilets, lighting improvements and the provision of an additional DDA compliant parking bay in closer proximity to the toilets. The previous Council project scope was limited to the public toilet improvements. This project also seeks to improve access to Ruffey Lake Park, by providing further pedestrian linkages to abutting streets.	Apr-21	May-21	141,402	141,402
VIC	Manningham City Council	Phase One	Community Infrastructure	Sealing of existing granitic sand carpark with asphalt, construction of kerb and channel and a footpath along the northern boundary, construction of a footpath connection to George Street and linemarking of the carpark including the marking of pedestrian islands between George Street and the proposed northern footpath.	There is no safe, defined pedestrian access path through the carpark to the Athletics Track or for pedestrian visitors entering the site from George Street. The maintenance demand associated with the existing granitic sand carpark pavement is excessive. Under traffic the ride quality of the granitic sand is poor particularly after rain, when large numbers of potholes develop.	Feb-21	Mar-21	395,000	395,000

This network of paths is essential to providing visitors with opportunities to learn and engage with our Indigenous history as well as discouraging visitors from venturing into and disturbing the habitat of the Eltham Copper Butterfly. The path network is used regularly by residents and visitors undertaken informal recreation pursuits such as walking and running. The current state of the path network acts as barrier to access for all of the above listed activities.	Apr-21	May-21	50,000	50,000
VIC	Mount Alexander Shire Council	Phase One	Community Infrastructure	Upgrades to facilities and access to 6 Parks and Reserves within the Council	Repair, create better access, risk of injury reduction	Jan-21	Apr-21	93,500	93,500
VIC	Mount Alexander Shire Council	Phase One	Road	Level crossing on Rowe Street, Castlemaine, 1. Close the level crossing to road and rail traffic for 36 hours, dismantle the rail track and dig out the railway roadbed approximately 750mm below road level and 4m wide for at least 8m either side of the roadway; 2. Install a base layer of 150mm of compacted road base material, then install drainage, lay 300mm of railway ballast, compact and grade to 315mm below road level; 3. Lay new railway track using concrete sleepers and heavy rail to line and level; and 4. Lay 150mm depth of hot mix asphalt between the rails and 3m outside them.	The current level crossing was constructed with timber sleepers which require regular replacement. The proposed works will replace the rotting timber sleepers with concrete sleepers which will provide a lifespan of 20-25 years. The works will maintain safety for both road and rail traffic. VIC	Mount Alexander Shire Council	Phase One	Road	Barker Street, Castlemaine, Pedestrian crossing treatment to be determined by Regional Roads Victoria. More details can be provided by mid-August if required.	Barker Street (the Midland Hwy), is a 4 lane hwy that runs through the centre of Castlemaine. There is a 1.8km stretch that links from the town entrance to the CBD. There are no pedestrian crossing points along this section of highway. This section is used by students accessing the only high school in the region, Castlemaine North Primary School (the primary school with the highest enrolments in the Shire), Windarring - an organisation that provides a day care service for adults with a disability, along with connections to Castlemaine Botanical Gardens - the Shire's most used public space for informal recreation. The lack of pedestrian crossing creates a huge risk for residents and is a barrier to those with mobility issues.	May-21	Jun-21	500,000	500,000

VIC	Towong Shire Council	Phase One	Road	Widening of Towong Street East, installation of kerb and stormwater pipes, Towong Street East, Tallangatta	Towong Street East is the primary entrance into Tallangatta from the East. The street is lined with houses and has a large open stormwater drain on the Southern side. The northern side of the road has kerb. This provides a poor first impression of the town and makes this side of the street inaccessible to pedestrians. There is also limited on street residential parking. and requires improvement.	Jan-21	Jun-21	481,232	481,232
VIC	Towong Shire Council	Phase One	Road	Installation of a heavy vehicle compliant weighbridge to service the Corryong community	Corryong area generates a significant amount of heavy vehicle traffic that is loaded locally including a saw mill, concrete batching plant and stock trucks. These trucks have no way of knowing if they have exceeded their weight limits until they drive to the Logic Centre at Barnawartha which is over 100km away. There is a history of truck rollovers on the Murray Valley Highway between Corryong and Wodonga enroute to Barnawartha.	Jan-21	Jun-21	300,000	300,000
VIC	Towong Shire Council	Phase Two	Community Infrastructure	Bellbridge Walking Track Upgrade, Lake Road: Bicycle and Walking Paths	The Bellbridge Walking Track is planned to be sealed to improve community safety and outdoor exercise equipment installed along the track. The Bellbridge Walking Track has poor surface condition and does not facilitate safe off road community recreation and exercise opportunities for the community.	Feb-21	Jun-21	85,000	85,000

VIC	Wellington Shire Council	Phase One	Community Infrastructure	Rosedale and Maffra Pool - Pool Blanket Installation	Installation of pool blankets will provide multiple benefits. Blankets reduce overnight heat loss and improve bather comfort and appeal. By maintaining water temperature, the pools become more enjoyable to a wider age and range of potential users. Improved stability of water temperature also assists programming – of swim lessons, exercise program and more. Blankets reduce evaporation and water loss when the pools are not in use. Blankets reduce solar degradation of swimming pool water treatment chemicals, thereby reducing the amount of chemical required as well as reducing the volume of chemical that must be transported and stored. WA	Morawa Shire Council	Phase One	Community Infrastructure	This project will see the formal expansion of the Caravan Park to the north for larger, heavier vehicles in the season (August - November). Works will consist of earth works, fence erecting, trenching, tree pruning and levelling.	Currently, large RVs have no place to park their vans and are being placed on a reserve north of the park on a bushy area. This area needs to be developed and fenced off to accommodate larger RVs with access to the park. RVs should be self-contained without power, water or ablution need. Drive through sites comprised of dirt	Mar-21	Jun-21	70,000	70,000
WA	Morawa Shire Council	Phase One	Road	Removal of old street light poles, disconnect power. Purchase and install solar powered poles	Expensive (40k per year) and old street poles - one came down a few months ago. Rust had bitten through the pole's iron base and the pole fell over. Replacement is more economical (solar powered), brighter, and fewer poles are required.	Feb-21	May-21	78,927	78,927
WA	Morawa Shire Council	Phase Two	Community Infrastructure	Renovation of Sport Precinct Clubhouse	Sport and Recreation Facility used by the bowling and golf club and broader community as a socialisation space. WA	Shire of Bruce Rock	Phase One	Community Infrastructure	Railway Dam, off Bruce Rock East Road - Improvements to water catchment system	The project will improve the water catchment system as well as increase the capacity of the catchment, which will allow us to retain more water during rainfall events. In previous years where poor weather conditions have occurred, Council has had to purchase water to keep our oval and gardens alive. This project will not only save Council funds in the future, but makes our town attractive to tourists, and allows our sporting clubs to still be able to participate in their sporting activities.	Feb-21	Mar-21	62,125	62,125
WA	Shire of Bruce Rock	Phase One	Community Infrastructure	Johnson Street, Bruce Rock - Parklet upgrades	Before Council installed the temporary parklets, there were no attractive outdoor seating and dining options on the main street, especially near operating food businesses. The temporary parklets have made our main street more vibrant and have been deemed a great success. The parklets make it obvious to passing travelers that the food businesses are open, and encourage them to stop and spend, which boosts our local economy. Making the parklets permanent will increase all these benefits and ensure we can continue to reap them well into the future.	Feb-21	May-21	126,003	126,003
WA	Shire of Bruce Rock	Phase One	Community Infrastructure	Bruce Rock Caravan Park, Dunstall St - Various upgrades	The existing ablution facility is very old and is well and truly due for an upgrade. When Council investigated costings it was deemed more cost-effective to demolish the current facility and build a new structure rather than renovating. The current facility does not have adequate equal accessibility, which will be rectified in the new building.	Feb-21	Jun-21	333,674	333,674

WA	Shire of Carnamah	Phase One	Community Infrastructure	Carnamah Town Hall The hall flooring is comprised of the original tongue and groove wandoo boards and has now been sanded down so many times that the edges of the boards are splintering. It's proposed to lay 14mm select grade Jarrah boards over the top of the existing wandoo boards.	The hall is used regularly for children's dancing and gymnastic classes and these activities have to be restricted to a certain section of the hall to prevent participants getting splinters	Jan-21	Jun-21	84,636	84,636
WA	Shire of Carnamah	Phase One	Community Infrastructure	Carnamah Recreation Centre The recreation centre was built in the early 1980s and has served the community well, however due to its age is in desperate need of major repairs / improvements.	The parquetry flooring in the stadium includes a small section with sustained water damage along with several spots with chips or indentations. The parquetry floor area in the function room has sustained water damage. The floors will be sanded back, damaged sections repaired, new lines marked where required and resealed with MVP waterborne polyurethane timber sports seal. Carpeted area in the function room has also suffered from water damage and needs to be replaced. Remedial work will be undertaken to prevent water ingress	Apr-21	Jun-21	56,000	56,000

WA	Shire of Cunderdin	Phase One	Community Infrastructure	This Floodlighting Project for the Cunderdin Football oval and Basketball/Netball courts, involves the replacement of current insufficient lights and installing new lights, light poles and power supplies. The project involves two different areas of playing	Currently our facilities does not comply to the Australian Standards for lighting, and thus the Shire would like to improve the facilities to ensure our community keeps on playing and participating in sports; encouraging social wellbeing within our community. The new lights will comply with Australian Standards for training purposes and also utilise a lighting control system, to give clubs easy access to turning on/off lights. The lights will also comply with the Shire of Cunderdin Community Strategy Plan – Sustainable Environmental Strategies; reducing energy consumption through LED lamps and the utilising lighting control system. The dimmable option or the option to turn on only certain lights further support the Shire’s Sustainable Environmental Strategies; by reducing energy consumption.	Feb-21	Jun-21	270,000	180,000
WA	Shire of Cunderdin	Phase One	Community Infrastructure	Installation of disability friendly pathways, landscaping, seating, lighting and bbq area at Sandalwood Village (Independent Lifestyle Village).	Currently the area within Sandalwood Village is under developed, with only a dirt/gravel area as their community space. WA	Shire of Kondinin	Phase One	Community Infrastructure	Gordon Street Kondinin - toilet block	Current public toilet no longer operable experiencing maintenance and plumbing issues and does not comply with disability standards; also poorly positioned in the middle of the lawn area in the Shire Caravan Park. By locating the new toilet and shower closer to the information bay and travel stop, BBQ, gazebo and historic interpretation will make it much more accessible to the uses including truck drivers and tourists, and will not conflict with the guests at the caravan park who have their own amenities for paying guests.	Mar-21	May-21	102,000	102,000
WA	Shire of Kondinin	Phase One	Community Infrastructure	Wave Rock Precinct Hyden - toilet block screening	Since a second toilet block was installed to match increase in demand, the Shire has received regular feedback from visitors to Wave Rock that they feel exposed using these toilets and have suggested installing some screening to offer greater privacy coming in and out of the toilets and to make them more accessible. A screen would also improve the aesthetics of the toilet block and tie in with the older one on site which is screened.	Mar-21	Apr-21	6,234	6,234
WA	Shire of Kondinin	Phase One	Community Infrastructure	Tolland Road, Hyden - Sandpipe Controller	At the moment the Shire has a number of community water sites and unlike all surrounding Shires does not charge for water use. The two water tanks at Tolland Road are currently accessed by connecting straight into the tank for agricultural and emergency purposes. In this current scenario there is no way of tracking who is using the water or how much water is being used each day. By installing a standpipe controller will enable the Shire to monitor the use and user of the water and also establish a user pay system through the swipe cards. This will ensure that the Shire can manage a more equitable water use system accessible to the local community.	Feb-21	Mar-21	30,000	30,000

WA	Shire of Yalgoo	Phase One	Community Infrastructure	Yalgoo Community Hall - Renovation	The Community Hall has been assessed as structurally sound, however, as a historic building constructed in the 1930's/1940's, it is in need of significant restoration internally. Being located in a very remote area of outback Western Australia, there are limited buildings within the Shire of Yalgoo for the community to gather and undertake social and interactive indoor activities. The Community Hall is an important community facility and is used by the local Yalgoo community for various events such as social gatherings (dances, Yalgoo Race Ball, etc.), regular arts/craft activities of indigenous ladies, church for the indigenous as part of funeral services, various children activities, etc. The community have been consulted and they prefer to retain and restore the original building due to its historic and cultural connections, rather than have the building demolished and a more modern construction take its place. WA	Shire of Yilgarn	Phase One	Community Infrastructure	Purchase of Swimming Pool Blankets	Increased utilisation of the the Southern Cross Aquatic Centre. The provision of blankets will add a further 2 months to the swimming season (1 additional month either side of the swimming season).	Jan-21	Jan-21	60,000	60,000
WA	Shire of Yilgarn	Phase One	Community Infrastructure	New skatepark will incorporate a bowl that allows skateboarders and BMX riders to fully utilise the facility.	The Skate Park will provide the youth of the district with a facility to recreate at, something that has been lacking for some time in the Southern Cross town site. It will also act as a meeting place for the youth and compliment other facilities at the Park.	Mar-21	Jun-21	220,000	220,000
WA	Shire of Yilgarn	Phase One	Community Infrastructure	Upgrade Public BBQs at Constellation and Rotary Parks	Both Park's are heavily used by locals and tourists and to have larger BBQ's with 2 hotplates as to the current 1 hotplate BBQ's will cater for usage.	Sep-20	Jan-21	24,000	24,000
WA	Shire of Yilgarn	Phase One	Community Infrastructure	Construction of rear Court Yards to 8 Yilgarn Homes for the Aged Units.	Each Unit to have dedicated rear Court Yard to improve privacy of tenants but also to enable tenants to keep small animals as a companion which will add to their mental health and well-being in COVID-19 times.	Sep-20	Mar-21	169,500	169,500
WA	Shire of Yilgarn	Phase One	Mixed	Re-construct Beaton Road between Antares Street and Three Boys Road	Beaton Road services the Southern Cemetery and Southern Cross Train Station. The re-construction of the road will provide for a safer road to these locations. The construction of the footpath will allow pedestrians to better access same.	Jan-21	Mar-21	370,000	370,000
WA	Shire of Yilgarn	Phase One	Road	Construction of turning lane at the intersections of Moorine South and Bennett Roads	Greater safety for vehicles entering/exiting intersection, particularly road trains mixing with lighter vehicles.	Sep-20	Jan-21	100,000	100,000
WA	Town of Bassendean	Phase One	Community Infrastructure	Bindaring Park North - Instalation of stabilised limestone footpaths and revegetation	The lack of formalised pathways is causing several informal paths to form. This is causing soil compaction spreading weeds and damaging vegetation.	Mar-21	Jun-21	50,000	50,000
WA	Town of Bassendean	Phase One	Community Infrastructure	Mary Crescent Reserve - Path installation and earth works	The current path is a straight line between Second Ave. and Gallager St. The incline from Second Ave is very steep and bikes take the path at speed. The new path will curve the alignment and reduce the incline to make it more use friendly, wheelchair accessible and encourage bikes to slow down.	Jun-21	Jun-21	72,531	72,531

Local Roads and Community Infrastructure Program - Projects Approved - Details

Information as at 12 March 2021.

LRCI Funding Rounds: Phase One - \$500 million for construction by June 2021, Phase Two - \$1 billion announced in 2020-21 Budget for construction by December 2021

Construction on projects can be extended if approved by the Department in exceptional circumstances or where LRCI funding is less than 50% of total project cost.

State	Council/Eligible Funding Recipient	LRCI Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commence	Date construction completed	Total project cost	LRCI Program Funding Required
WA	Town of Bassendean	Phase One	Community Infrastructure	Padbury Park, Palmerston Square - Replacement of playground equipment	Old assets are rundown and no longer to standard.	Nov-20	Jun-21	80,246	53,246
WA	Town of Cambridge	Phase One	Community Infrastructure	New nature based adventure playground	Bring facility up to date and add social and recreational value	Mar-21	Jun-21	350,000	281,804
WA	Town of Claremont	Phase One	Community Infrastructure	Claremont Aquatic Centre works Renewal of the Town's aquatic centre disabled change room and toilet facility and the addition of a family change room, improvements to the associated universally accessible access ramp, and the retaining and landscaping of the surrounding garden area.	The existing disabled facilities at the aquatic centre are in a poor condition and require renewal. The original aquatic centre complex was constructed in 1960. The change rooms and toilets that are still in use today were constructed in 1971 without dedicated disabled facilities. Around 2004 a demountable disabled toilet and change room was added to the south of the change rooms with a short access ramp connection provided. Having originally been constructed as a temporary measure, this disabled toilet and change facility is still in use today and is in urgent need of renewal. The disabled access path to this area is also in need of enlargement and improvements. Due to the vertical grades of the site, retaining of the land will be required to accommodate this work. The community facility also lacks a dedicated family change room with some patrons instead using the disabled change room in this capacity. New family change rooms will be added adjacent to the disabled facilities. All proposed renewals and upgrades will be designed to comply with universal access requirements in accordance with the Town's Disability Access and Improvement Plan.	Oct-20	Apr-21	160,000	104,010

WA	Town of Victoria Park	Phase One	Mixed	install dedicated on-road cycle lanes and narrow existing traffic lane widths. The design includes 360m of dedicated cycle lanes and 60m of protected cycle lanes.	Existing users have to deal with high traffic speeds and traffic volumes of 8000-12000vpd with no on-road cyclist facilities.	Feb-21	Mar-21	50,000	50,000
WA	Town of Victoria Park	Phase One	Mixed	Refurbishment and modernisation of changeroom facilities to accommodate for all gender players. Shower partians, ambulent toilet. Paint.	Old ageing facilities are not suitable for women's teams, due to privacy. Compliance with disability access standards. Modernise facilities with fresh paint to improve amenity.	Oct-20	Feb-21	80,000	80,000
WA	Town of Victoria Park	Phase One	Road	Bow River Crescent and The Circus, Burswood, Replacement and upgrade of existing street lighting through the area bounded by Bow River Crescent and Victoria Park Drive	Lighting is old and subject to continuing faults which has a high yearly maintenance cost to Council. Upgrading the lights will reduce maintenance cost and allow future handover to Western Power	Feb-21	Jun-21	144,425	144,425

"Black Spot Program

As at 1 March 2021"

Eligible proponents - State, Territory or Local Government Entities.

Program Objectives:

The Black Spot Program provides up to \$2 million per project in Australian Government funding for the treatment of road locations where crashes are occurring or at risk of occurring.

Eligible projects include traffic signals, roundabouts, turning lanes, safety barriers and lighting.

New project selection:

- Nominations for Black Spot locations are invited from state and territory governments, local councils, community groups and associations, road user groups, industry and individuals.

- On receipt of a completed Black Spot nomination form, the relevant state and territory transport agency will examine the nominated site's eligibility.

- Eligible projects are then assessed by a Consultative Panel. Each state and territory have a Consultative Panel. The Panels consists of representatives drawn from community and road user groups, industry, Australian and local government, and state road and transport agencies.

- Only projects that have been recommended for funding by a Consultative Panel are provided to the Deputy Prime Minister for funding approval.

"Bridges Renewal Program

As at 1 March 2021"

Eligible proponents - State, Territory or Local Government Entities.

Program Objectives:

The Bridges Renewal Program funds the upgrade and replacement of bridges to enhance access for local communities and facilitate higher productivity vehicle access.

Eligible projects include bridge replacements, Bridge upgrade proposals, new bridges replacing an existing water crossing.

New project selection:

- **Applications initially undergo a four stage process within the Department: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.**
- **The Departmental process identifies proposals which are eligible and value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.**
- **Projects found to represent value for Australian Government funding and located within the Deputy Prime Minister's Electorate of Riverina are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to another Minister within the Infrastructure Portfolio.**

"Heavy Vehicle Safety and Productivity Program

As at 1 March 2021"

Eligible proponents - State, Territory or Local Government Entities									
Program Objectives:									
<p><i>The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia. Eligible projects include rest Areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.</i></p>									
New project selection:									
<ul style="list-style-type: none"> • <i>Applications initially undergo a four stage process within the Department: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.</i> • <i>The Departmental process identifies proposals which are eligible and value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.</i> • <i>Projects found to represent value for Australian Government funding and located within the Deputy Prime Minister's Electorate of Riverina are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to another Minister within the Infrastructure Portfolio.</i>

Response to Senator Sterle Request dated 11 March 2021

The following information is provided in response to Senator Sterle's requests contained in his correspondence to the Department on 11 March 2021. This relates to information for Regional Development and Local Government. The response has been broken down into four components:

1. Program Overview and Funding (funding as at October 2020-21 Federal budget)
2. COVID Relief and Recovery Fund - Initiatives
3. Detailed project Listings (including Attachment A)
4. Local Roads Component of grants paid to each Council (including Attachment B)

1. Program Overview and Funding

This component of the Department's response is addressing the following requests from Senator Sterle:

"Please provide detail on the funding by program that has been contractually committed, committed but not yet contracted, and any funding that has not yet been allocated".

"I would also be grateful if you could provide detail on how funding is allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply), and how recipients have been identified".

Community Development Grants Programme (CDG)

The Community Development Grants Programme (CDG) provides funding for projects identified by the Australian Government, including 2013, 2016 and 2019 election commitments, as well as other government priority commitments.

Successive governments have delivered their election commitments through a specific program established for that purpose. The CDG Programme was established in 2013 to deliver the Australian Government's election commitments and other identified projects for community or regional infrastructure. It is not a competitive grants program. Projects receiving a funding commitment under the CDG Programme are required to undergo a value-with-relevant-money assessment in accordance with published guidelines.

The program guidelines for CDG can be found at the following link:

<https://www.regional.gov.au/regional/programs/community-development-grants.aspx>

Funding profile over the life of the program is as below – data as at 31 December 2020

Building Better Regions Fund (BBRF)

The Australian Government announced \$200 million in the 2020-21 Budget towards a fifth round of the Building Better Regions Fund (BBRF), bringing the total commitment for this program to \$1.042 billion from 2017-18 to 2023-24.

The BBRF is an open, competitive grants program. BBRF applicants must be a local government body or incorporated not-for-profit organisation.

Round 5 will be delivered like the previous rounds; with Infrastructure Project and Community Investment streams:

- \$100 million will be dedicated to supporting tourism-related infrastructure projects which are focussed on mitigating the economic impacts of the COVID-19 pandemic on a region's tourism industry; and
- The other \$100 million will support regional and remote Australia more broadly by funding general infrastructure and community investment projects

The program guidelines for BBRF, including co-funding requirements, can be found at the following links - (there is a separate link for each of the Infrastructure Projects and Community Investment streams).

National Stronger Regions Fund (NSRF)

The National Stronger Regions Fund (NSRF) was established in 2014, to deliver priority infrastructure in Australia's regions.

Grants range from \$20,000 to \$10 million and require at least a 50 per cent co-contribution to eligible project expenditure.

The objective of the NSRF is to support economic growth and sustainability in Australia's regions, particularly disadvantaged regions.

The program guidelines for NSRF, including co-funding requirements, can be found at the following link:

- <https://www.regional.gov.au/regional/programs/national-stronger-regions-fund.aspx>

Regional Deals – Barkly Regional Deal

The Barkly Regional Deal (the Deal), is a \$78.4 million commitment between the Australian Government, the Northern Territory (NT) Government and the Barkly Regional Council (BRC). The Deal was signed on 13 April 2019, with Commonwealth funding commencing from 1 July 2019.

The Deal details 28 economic, social and culture and place-making initiatives that are being delivered over a 10 year period to 2028-29 to address local priorities. The Australian Government is supporting 18 of the 28 initiatives with direct funding for 12 of these initiatives.

The Australian Government's \$45.4 million investment for the Deal will deliver local priorities identified through extensive community consultation. Funding was announced in the 2019-20 Budget and includes:

- a \$22.4 million measure from the 2019-20 Budget (including a \$8.5 million offset from the National Indigenous Australians Agency (NIAA) portfolio);
- \$7.6 million from the Building Better Regions Fund; and
- a \$15.4 million measure from the 2019-20 Budget to support the weather radar.

3. Detailed Project Listings

A detailed project listing is provided at **Attachment A**. Project data is at 31 December 2020, and includes projects which are:

- Active – includes projects which have commenced, and projects which have been announced but may not have yet commenced;
- Completed - projects which have been completed, including the project completion date where recorded.

BBRF has a number of completed projects where the completion date has not been provided by the DISER Grants Hub. There are also instances in other programs where the project completion date has not been recorded for every project.

Assumptions and additional information:

Not all requested data is either captured by the department, or captured in an easily reportable, reliable and consistent format.

- Package identifier is not relevant to regional programs.
- Commitment is not assigned on a project-by-project basis.
- Total Project Cost is not recorded in a way that is able to be reliably reported and is not relevant for all projects/programs.
- Forecast expenditure has not been provided across the forward estimates. Individual projects are constantly subject to project variations, which can be caused by slippages due to external factors (e.g. COVID, bushfires and planning delays), as well as delays experienced by internal issues associated with the grantee themselves. Where projects are multi-stage or have multiple co-funding partners, changes to project expenditure can vary considerably over the life of the project.
- Project description is published on GrantConnect at www.grants.gov.au.
- Electoral Division information is not provided. This information is not relevant to the Department's assessment of projects and does not form part of the Department's advice to government for regional programs. Information relating to the grant recipient's location can be found on GrantConnect at www.grants.gov.au.

4. Local Roads Component of the Financial Assistance Grant paid to Councils

The Local Roads component of the Financial Assistance Grant paid to Councils is contained in **Attachment B** below.

There are no FA Grant/Local Road estimates provided at the state level at MYEFO. Therefore 2020-21 Budget estimates provided (BP3 refers).

LGA recommendations are only available for the current year. LGA recommendations for the forward estimates are only determined at the beginning of each fiscal year by the State and Territory governments.

There are no estimates beyond 2023-24.

Where an amount is shown as "-", no funding is provided. Where an amount is shown as "0.0"m, a positive amount between \$1 and \$49,999 inclusive is provided.

Figures may not add precisely due to rounding.

Financial Assistance Grant Program - Local Roads Component - Projects announced in 2020-21 MYEFO

Figures correct as at 2020-21 MYEFO.

All dollar figures are rounded to the nearest \$0.1 million and prepared on a cash basis.

Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Financial Assistance Grant Program - Local Roads Component - Projects announced in 2020-21 MYEFO

Figures correct as at 2020-21 MYEFO.

All dollar figures are rounded to the nearest \$0.1 million and prepared on a cash basis.

Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Financial Assistance Grant Program - Local Roads Component - Projects announced in 2020-21 MYEFO

Figures correct as at 2020-21 MYEFO.

All dollar figures are rounded to the nearest \$0.1 million and prepared on a cash basis.

Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2020-21 MYEFO.

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

The package is expected to include the development of a corridor plan, and individual projects consistent with this plan that are prioritised and agreed between the Australian and ACT governments. Subject to planning outcomes, projects could include upgrades to the Tuggeranong Parkway (including between the Cotter Rd and Glenloch Interchange), improvements to intersections and feeder roads along the corridor (such as the Athlon Drive), or pavement rehabilitation along the Parkway. It will help address congestion areas identified by Infrastructure Australia, with parts of the Tuggeranong Parkway some of the busiest sections of road in the ACT (transporting about 40,000 vehicles a day). Dear Mr Atkinson

SIMON

I have previously written on behalf of Opposition Senators to request certain information ahead of forthcoming Senate Estimates hearings.

This year I am requesting you provide similar information but in a different format that I expect will be simpler for your officers to prepare, while still supporting meaningful discussions at Senate Estimates.

I would appreciate if a table like the one you provided beginning on page 352 of Part 3 of the documents you tabled on 19 October 2020 at the beginning of the last Senate Estimates hearings could serve as a template for the information to be provided later this month. By way of example, the first page of that table is at Attachment A.

I request the following information be provided both in hard copy and in searchable PDF format at the hearings later this month.

In addition, please provide detail on the funding by program that has been contractually committed, committed but not yet contracted, and any funding that has not yet been allocated.

The tables should also make clear what changes have occurred since the last Estimates hearings, and a list of completed projects for each financial year should also be included, as well as projects scheduled for completion in the 2020-21 financial year.

I would also be grateful if you could provide detail of how funding is allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply), and how recipients have been identified.

Previous information provided through Estimates have not contained sufficient information regarding the breakdown of planned government spending

- Detail on each of the funded initiatives not already covered above

I also ask that Departmental officials come prepared to answer questions on the progress of individual projects delivered through each Program, including detail of when projects commenced, expenditure to date, reasons for any delays, and expected completion of all funded projects.

Officials should also be sufficiently briefed to expand on the payment of funds to individual groups or companies and the decision-making process surrounding allocation of all funds.

Answering questions by officials

Finally I wish to take this opportunity to again remind you of your obligation, and the obligation of senior officials from your Department, to directly answer questions asked by Senators during Estimates hearings.

Consistent with the resolution of the Senate on [25 June 2014](#):

- there are no areas in connection with the expenditure of public funds where a person has the discretion to withhold details or explanations from the Parliament or its committees unless the Parliament has expressly provided otherwise;
- any claim to withhold information must be on an established ground (noting the Senate Order of 13 May 2009 which sets out the proper process for raising public interest immunity claims);
- the statutory values which Australian Public Service agency heads and employees are required to uphold which include a requirement to be open and accountable; and
- the constitutional framework of checks and balances which places the Parliament in prime position as the agent of accountability.

In relation to Cabinet matters, [Odgers Australian Senate Practice](#) provides the following:

It is accepted that deliberations of the Executive Council and of the cabinet should be able to be conducted in secrecy so as to preserve the freedom of deliberation of those bodies. This ground,

however, relates only to disclosure of deliberations. There has been a tendency for governments to claim that anything with a connection to cabinet is confidential. A claim that a document is a cabinet document should not be accepted; as has been made clear in relation to such claims in court proceedings, it has to be established that disclosure of the document would reveal cabinet deliberations. The claim cannot be made simply because a document has the word "cabinet" in or on it.

[Government guidelines for official witnesses before Parliamentary Committees and related matters](#) provide further guidance on the making of public interest immunity related to advice to Government:

4.6.2. The Senate Order of 13 May 2009 made it clear that committees will not accept a claim for public interest immunity based only on the ground that the document in question has not been published, is confidential, or is advice to or internal deliberations of government; a minister must also specify the harm to the public interest that may result from the disclosure of the information or document that has been requested.

I thank you in advance for your cooperation with this request and look forward to your attendance before the committee.

Yours sincerely

GLENN STERLE

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2020-21 Budget
 All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments. Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs. Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding). Project start and end dates are based on when a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies. Some project commitments are shared by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update. Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Domestic Aviation Network Support Announced on 16 April. Australian Government purchased two separate networks (one from Qantas and the other from Virgin Australia) to deliver minimum levels of domestic aviation services consisting of over 220 return flights per week (approx. 2% of normal activity). This assistance recognised that a strong domestic aviation network is critical to Australia's success and is necessary to maintain transport connectivity during this pandemic. On 7 June 2020 it was announced that DANS would be extended from 1 July 2020 to 30 September 2020 and would focus support on the top 50 routes for the 2018-19 financial year as identified by the Bureau of Infrastructure, Transport and Regional Economics (BITRE). <p>Returning Australians Home (Identified as the International Aviation Support in the 2020-2021 PBS).</p> <p>Announced on 4 April. The Government established a network of flights to four key international hubs— London, Los Angeles, Hong Kong and Auckland — for four weeks to help Australians get home. The Federal Government worked with Australia’s two major international airlines, Qantas and Virgin Australia, to establish the network. Supporting these four routes ensured that there was a backbone to global travel options for Australians wanting to come home. On 8 May a further \$50m to continue a network of international flights to London and Los Angeles for a further four weeks and also further non-scheduled flights was announced (see below).</p> <p>Returning Australians Home (Facilitated Repatriation Flights) In addition to the international aviation network detailed above, the Federal Government facilitated a number of non-scheduled flights to destinations where no other commercial options were available. 1	Energy Data for Smart Decision Making	Spatial data and data on solar exposure, energy generation and consumption will be used to develop an open modelling platform.	\$402,220	\$430,517	\$832,737	Byron Bay NSW, Bendigo VIC, Kuring-gai NSW, Waverly NSW, Banyule VIC, Canterbury NSW, Bankstown NSW, Northern Beaches of Sydney NSW, Manningham, Towong	NSW and VIC	Richmond, Mackellar, Wentworth, Jagajaga, Mackellar, Indi	17-Nov-17	13/02/2018NS	17-Nov-17	Completed
1	Energy Efficient Housing, South East Perth	This project will use Wi-Fi temperature loggers and infrared drone images to collect data on the effect of roof colour on home temperature and display this data on a smart sign at the front of new housing estates in outer metro Perth.	\$132,781	\$132,782	\$265,563	City of Gosnells, Shire of Serpentine Jarrahdale and City of Armadale council areas	WA	Canning, Burt	17-Nov-17	06-Feb-18	17-Jan-18	Completed
1	Goldenfields MyH2O App	This project will invest in the development of a MyH2O mobile app to allow council consumers to access their hourly water usage via smart phones or tablets to track daily water usage and costs, set consumption targets and receive alerts if targets are exceeded or leaks are detected.	\$90,349	\$90,359	\$180,708	Temora	NSW	Riverina	17-Nov-17	15-Jan-18	17-Nov-17	Completed
1	Greater Launceston Transformation Project [Original Title: Launceston City 3D modelling]	This project will deliver 3D city modelling using population mobility data derived from mobile phone towers as well as data on other variables such as education and energy, transport and land use.	\$1,580,000	\$1,920,997	\$3,500,997	Launceston, TAS	TAS	Bass, Lyons	17-Nov-17	19-Feb-18	17-Nov-17	Completed
1	Heywood Park Smart City Precinct	This project will incorporate a range of smart technologies such as lighting, CCTV, parking, signage and waste bins connected to a single control point.	\$240,000	\$240,000	\$480,000	Heywood Park Unley	SA	Adelaide	17-Nov-17	14-Feb-18	17-Nov-17	Completed
1	Interactive city management in Melbourne	This project will install a sensor network collecting data on use of public spaces and will build an interactive platform to allow for live community feedback on facilities.	\$400,000	\$471,045	\$871,045	Brimbank City, Kingston City, Port Phillip City	VIC	Fraser, Hotham, Macnamara	17-Nov-17	14-Feb-18	15-Jan-18	Completed
1	Lalrope Valley Sensor Network	This project will install a sensor network in the Lalrope Valley to collect real time data on environmental conditions.	\$731,170	\$873,030	\$1,604,200	Morwell - Lalrope Valley	VIC	Gippsland	17-Nov-17	30-Jan-18	01-Dec-17	Completed
1	Liveable Neighbourhoods in Lake Macquarie and Sydney City	This project will build and test an environmental platform providing data on heat, air quality and noise.	\$433,000	\$433,000	\$866,000	Lake Macquarie and Sydney City	NSW	Sydney	17-Nov-17	21-Dec-17	17-Nov-17	Completed
1	My Virtual Moreland [Original Title: 3D City Planning of Moreland Council]	The project will use smart data capture technologies to generate a 3D model of the Moreland City Council area.	\$396,900	\$448,229	\$845,129	Moreland City Council area	VIC	Wills	17-Nov-17	01-Mar-18	18-Dec-17	Completed
1	RailSmart Planningneroo	Real time patronage and station use data will be used to transform the way Perth metropolitan rail station precincts and employment zones along the Metronet extension.	\$500,000	\$500,000	\$1,000,000	Wanneroo	WA	Cowan, Pearce	17-Nov-17	07-Feb-18	15-Dec-17	Completed
1	Reducing Urban Impacts on the Great Barrier Reef	This project will install a connected network of environmental sensors in urban waterways to obtain real-time water quality data on discharges entering the Great Barrier Reef Marine Park.	\$699,055	\$699,055	\$1,398,110	Cairns City	QLD	Leichhardt	17-Nov-17	15-Feb-18	17-Nov-17	Completed
1	Resilient Energy and Water Systems, Fremantle	Block chain technology (distributed ledger) will be used to establish an integrated powerter and mobility system comprising of renewable energy generation, battery storage, recycled and rainwater storage and distribution and an electric vehicle shared ownership trial.	\$2,345,235	\$5,682,914	\$8,028,149	Fremantle	WA	Fremantle	17-Nov-17	05-Feb-18	17-Nov-17	Completed
1	Smart Access to Community Services, Mid Murray Region	The project will invest in a digital radio network for the Shire that can interact with the Western Australian Emergency Radio Network and the Shire's bush fire vehicles.	\$151,101	\$184,679	\$335,780	Mid Murray Region	SA	Barker	17-Nov-17	24-Aug-18	01-Nov-18	Completed
1	Smart Active Transport - Urban Heat Maps for Bendigo	This project will install information kiosks and beacons in 11 towns in the Mid Murray Region.	\$116,451	\$130,000	\$246,451	Bendigo	VIC	Bendigo	17-Nov-17	19-Jan-19	14-Dec-17	Completed
1	Smart Cities Collaboration, Perth	A platform will be developed that uses satellite surface temperature data to enable pedestrians and cyclists to map low temperature routes on hot days.	\$1,314,494	\$1,818,695	\$3,133,189	Perth	WA	Perth, Swan	17-Nov-17	07-Feb-18	17-Nov-17	Completed
1	Smart Cities, Smart Liverpool, Smart Pedestrians	This project will use smart phone detection technology for real-time measurement of pedestrian and car movements.	\$120,000	\$120,000	\$240,000	Liverpool	NSW	Fowler	17-Nov-17	19-Feb-18	17-Mar-18	Completed
1	Smart Emergency and Fire Management, Colliie	This project will provide a Smart Cities Collaboration Market Place platform enabling the city and its partners to collaborate and exchange ideas and data to evolve and scale technologies.	\$94,470	\$128,088	\$222,558	Colliie	WA	O'Connor	17-Nov-17	16-Jan-18	01-Feb-18	Completed
1	Smart Mobility, Sydney	The project will invest in walking counting technology at a large scale across the local government area to collect data on people movement.	\$132,844	\$132,844	\$265,688	Sydney	NSW	Sydney	17-Nov-17	13-Feb-18	17-Jan-18	Completed

1	Smart Monitoring and Management, Yellagonga Wetlands	This project will use sensorstellites and drones to collect real real-time environmentalter quality and public usage data to create an integrated monitoring system for the Yellagonga wetlands.	\$264,938	\$264,938	\$529,876	Yellagonga Regional Park	WA	Moore	17-Nov-17	09-Mar-18	17-Nov-17	Completed
1	Smart Move Newcastle: Intelligent Mobility, Energy and Data	The project will deliver a city-scale transport, energy and digital infrastructure network including laser-enabled roadside poles, solar and battery powered electric vehicle charge points, smart bus stops and smart parking.	\$4,983,680	\$8,535,865	\$13,519,545	Newcastle	NSW	Newcastle	17-Nov-17	07-Mar-18	17-Nov-18	Completed
1	Smart Parking, North Lakes	The project will trial smart parking technology to improve traffic congestion associated with the introduction of pay parking at the North Lakes shopping centre.	\$450,000	\$450,000	\$900,000	North Lakes	QLD	Petrie	17-Nov-17	17-Jan-18	17-Nov-17	Completed
1	Smart Precinct Woden	Sensor technology for temperature, lighting and motion will be installed in buildings and bus interchanges in Woden to provide real-time analysis of, and response, to people in the built environment.	\$110,000	\$110,000	\$220,000	Woden	ACT	Canberra	17-Nov-17	15-Jan-18	17-Jan-18	Completed
1	Smart Redevelopmenttorria	This project will use new online data and spatial analytics planning tools to identify residential precincts with high redevelopment potential.	\$225,000	\$225,000	\$450,000	City of Maroondah	VIC	Melbourne, Kooyong	17-Nov-17	22-Dec-17	19-Nov-17	Completed
1	Smart Regional City, Queanbeyan	This project will integrate smart services (parking, lighting, sensors) 3D digital city modelling and open data in Queanbeyan-Palerang.	\$452,168	\$452,168	\$904,336	Queanbeyan	NSW	Eden-Monaro	17-Nov-17	07-Feb-18	08-Feb-18	Completed
1	Smart Social Spaces: Smart Street Furniture Supporting Social Health [Original Title: Smart Social Spaces, Georges River Council]	This project will install sensors on street furniture and use behaviour and social media mapping to record real time use of urban furnishings in public spaces.	\$296,943	\$360,799	\$657,742	Georges River Council	NSW	Barton	17-Nov-17	05-Feb-18	17-Nov-17	Completed
1	Smart Strategic Planning, Byron	The project will develop 3D mapping tools that use virtual reality to engage communities directly in complex urban planning.	\$142,480	\$144,375	\$286,855	Mullumbimby	NSW	Richmond	17-Nov-17	14-Feb-18	15-Feb-18	Completed
1	Smart Tourist Town, Kapunda	Investment in technology such as CCTV, Wi-Fi, bin sensors, electric car charging systems, renewable energy generation and LED public lighting will contribute to digital transformation of Kapunda.	\$159,224	\$262,082	\$421,306	Kapunda	SA	Barker	17-Nov-17	06-Feb-18	17-Nov-17	Completed
1	Smart Transport and Precinct Planning, Atherstone	This project plans to use mobile phone location data to understand the use of Atherstone community facilities.	\$100,000	\$100,000	\$200,000	Melton	VIC	Gorton	17-Nov-17	20-Feb-18	12-Feb-18	Completed
1	Smart Transport, Macquarie Park	This project will deliver 3D city modelling using population mobility data derived from mobile phone towers as well as data on other variables such as education and energy, transport and land use.	\$499,000	\$500,000	\$999,000	Macquarie Park	NSW	Bennelong	17-Nov-17	14-Feb-18	22-Jan-18	Completed
1	Smart Wayfinding in Port Adelaide Centre	This project will develop an interactive digital platform that integrates maps, websites and destination information for Port Adelaide.	\$100,000	\$100,000	\$200,000	Port Adelaide	SA	Hindmarsh Lingiari	17-Nov-17	14-Feb-18	14-Feb-18	Completed
1	Smart Ways to Reduce Waste, Alice Springs	Separate skips for waste and recyclable materials that contain sensors that self-notify for collection will be implemented at construction sites.	\$251,410	\$251,411	\$502,821	Alice Springs	NT		17-Nov-17	22-Jan-18	22-Jan-18	Completed
1	Southern Grampians Shire Council - A Smart Connected Rural Community [Original Title: Smart Community Services for the Southern Grampians]	This project will deliver enabling technologies (network, platform, Wi-Fi) that allow smart city solutions (smart lighting, security, sensors) to be implemented.	\$146,441	\$150,000	\$296,441	Southern Grampians Shire, Hamilton	VIC	Wannon	17-Nov-17	20-Dec-17	17-Nov-17	Completed
1	Streamlined Access to Community Services, Moreton Bay	This project will apply machine learning to the council's customer service data to automatically assign requests to the appropriate work team without manual intervention.	\$100,000	\$100,000	\$200,000	Moreton Bay Regional Council	QLD	Dickson	17-Nov-17	17-Jan-18	07-Feb-18	Completed
1	Sustainable Urban Growth, Bells Creek [Original Title: Engaging local community to preserve frogs through acoustic technology]	This project will use bioacoustics technology in urban habitats of Bells Creek to monitor frog populations that are threatened by urbanisation.	\$198,379	\$227,417	\$425,796	Bells Creek	QLD	Fisher	17-Nov-17	07-Feb-18	07-Feb-18	Completed
1	Switching on Darwin	This project will implement city-scale smart infrastructure in Darwin including smart services (lighting, parking, wifi) integrated through an open IoT platform.	\$5,000,000	\$5,000,000	\$10,000,000	Darwin City	NT	Solomon	17-Nov-17	05-Feb-18	08-Feb-18	Completed
1	V2i Realtime - A Platform to Disrupt Property Development Approvals [Original Title: Interactive Development Platform, Ipswich]	This project will implement interactive 3D virtual reality that allows users to comment online, hold discussions, suggest changes and create reports on urban development plans.	\$333,000	\$407,000	\$740,000	Ripley Valley, Ipswich	QLD	Blair	17-Nov-17	15-Jan-18	01-Jan-18	Completed
1	Yeppoon Town Centre Smart Precinct Project	Development of the Yeppoon Town Centre Smart Precinct will provide street solar lighting, access to free data, data capture and analytics.	\$197,464	\$200,000	\$397,464	Yeppoon	QLD	Capricornia	17-Nov-17	15-Jan-18	17-Nov-17	Completed
