WA	City of Fremantle	3	Community	Construct Fremantle Leisure Centre Pool Roof	Improvements to community facilities – re-sheeting of pool roof at Fremantle Leisure Centre.  The original sheeting was damaged during storms which required the entire roof sheeting to be removed as a safety precaution to protect patrons. The existing steel frame is to be treated for any corrosion and painted ready to receive new cladding. The structure has been assessed by the original design engineers, Airey Taylor and deemed fit to receive new cladding. The facility caters for approximately 100,000 patrons annually with the enclosed structure catering for swimming lessons during the school holidays, leisure activities for younger age groups and fitness/squads throughout the year. The roof provides UV protection year- round and thermal insulation during the heat of summer and cool of winter which helps provide a temperate atmosphere for patrons. The roof also provides protection from wind and rain in the cooler months. The addition of skylights, translucent wall sheeting and clear blinds together with new, efficient LED lighting, provides illumination to code requirements at a fraction of the cost of conventional lighting. The roof also aids in reducing evaporation and water loss with vastly improved running costs. The new roofing and cladding will provide patrons with a comfortably optimum environment to undertake their activities, whether leisure, fitness or lessons, protected from the elements and UV.  The City of Fremantle owns the asset (the Leisure Centre and the Leisure Centre Pool roof).	Jul-22	Oct-22	\$ 1,302,571	\$ 587,804

WA	City of Rockingham	3	Road	Sixty Eight Road (Percival Place to Baldivis Road) – Resurfacing works	Resealing – Second or subsequent sealing of roads Sixty Eight Road in Baldivis, between Percival Place and Baldivis Road, is in very poor condition with bad edge breaks, it has deteriorated much more quickly than previously anticipated when developing previous 5 year road renewal programmes and would benefit from being brought forward for renewal during the spring resurfacing works in 2022 to provide a safe and well maintained road to the public	Mar-22	May-22	\$ 96,390	\$ 96,390
WA	City of Rockingham	3	Road	Willmott Drive – Traffic treatments	Traffic Improvement - Works involving traffic calming devices, traffic lights, pedestrian islands, lighting, warning signs and roundabouts The City is proposing road traffic treatments along Willmott Drive to improve road safety. The road operates as a local distributor designed to take up to 6000 vehicle per day with a speed limit of 60Km/h, but currently carries up to 9371 vehicles per day in some sections. The project was scoped in 2019 with 4 year crash data showing 17 crash incidents, one of which was fatal.  Traffic treatments to target safety issues are proposed as follows:  1. Construction of roundabouts at 5 key locations to improve safety at intersections. 2. Lower speed limit from 60 Km/h to 50 Km/h to make the road less attractive to vehicles travelling between Ennis and Read to lower overall volumes.	Jan-23	Jun-23	\$ 1,200,000	\$ 1,200,000
WA	City of Rockingham	3	Road	Grange Drive – Traffic treatments	Traffic Improvement - Works involving traffic calming devices, traffic lights, pedestrian islands, lighting, warning signs and roundabouts The City is proposing road traffic treatments along Grange Drive to improve road safety. The road operates as a local distributor designed to take up to 6000 vehicle per day with a speed limit of 50Km/h, but experiences speeding issues with 85% percentile of speeds of ~ 58 km/h. The project was scoped in 2019 with 4 year crash data showing 25 crash incidents, one involving hospitalisation.  Traffic treatments to target safety issues are proposed as follows:  1. Raised plateau at Murchison road and Arrow Way to slow vehicles and improve road safety 2. Treatment at Coo loongup SUPA IGA entrance / exit (ban turns) to improve road safety	Oct-22	Jun-23	\$ 450,000	\$ 450,000
WA	City of Rockingham	3	Community	Naval Memorial Park – New footpath and pedestrian lighting (Weld Street to Governor Road)	Bicycle and walking paths - Works involving cycling and pedestrian infrastructure Construct a 2.5m wide lit path to deliver a safe and accessible connection between surrounding community facilities. Currently a person with mobility issues, or people pushing prams and suchlike would need to navigate either steep and uneven grass/sand surface or car parks and road crossing to navigate through or past the Naval Memorial Park which presents safety issues and barriers to accessing the community facilities and amenities including accessible toilets, accessible parking bays, accessible beach paths with matting, play equipment, picnic facilities, view seating and public transport. WA	City of Rockingham	3	Community	Lake Richmond – New footpath (Safety Bay Road to boardwalk)	Bicycle and walking paths - Works involving cycling and pedestrian infrastructure Construct a pedestrian path that will deliver a safe and accessible connection between Safety Bay Road and the Richmond Lake boardwalk around the edge of the lake. In doing so it also provides accessible connections to sheltered picnic amenities.	Jul-22	Jun-23	\$ 78,000	\$ 78,000
WA	City of Rockingham	3	Community	Churchill Park – Play equipment upgrades and accessibility improvements	Playgrounds and Skate parks (including all ability playgrounds) Play equipment in Churchill Park is reaching end of life, is non accessible and accessed from sandpits with no pathway linkages to surrounding facilities. It is proposed that the City seek LRCI grant funding to bring the planning of the works forward, increase the scope of works to deliver additional bespoke play equipment that offers improved interactive play, connectivity to the foreshore and accessible equipment that connects to upgraded picnic facilities, toilets and existing accessible parking. The project would include increased and upgraded play equipment, installation of rubber soft fall and shade sails. This is a very popular and high use area and would deliver significant community benefits for families and young children from the local community and those visiting from further afield. WA	City of Rockingham	3	Combination	Stan Twight – Car park upgrade and extension	Off-road Car Parks - Such as off-road car parks at sporting grounds or parks Project involves the upgrade and extension of an existing car park including drainage and landscaping to service the growing number of sporting group and general community users of this significant District level reserve. Parking has been identified as a major issue for all users and adjoining residents. The lack of available car parking results in cars parking on the verges of the reserve and adjoining homes. This creates safety and amenity issues as footpaths become blocked and lines of sight on the adjoining roads are reduced.  The expansion and upgrade of the car parking will further support the future redevelopment of the clubroom facilities on the reserve and increase the accessibility of the site to people of all abilities with hardstand connection improvements. Consultation and preliminary design have been completed to confirm the projects suitability and feasibility to be delivered under the LRCI Phase 3 grant.	Jan-23	Jun-23	\$ 451,694	\$ 451,694
WA	City of South Perth	1	Community	Reserve north of Kwel Court, Karawara - Installation of CCTV to provide 8250m2 of coverage	Karawara has the 16th highest crime rate in the state. A combination of a high density of public housing and extensive greenways with no passive surveillance contribute to the statistics. CCTV will provide surveillance of the greenways which will deter crime and enable the police to prosecute criminals to make Karawara a safer place	Oct-21	Mar-22	\$ 140,000	\$ 140,000

WA	City of South Perth	1	Combination	South Perth Esplanade, Cycle path upgrades	This segment of cycle path is part of the top priority actions in the City's Joint Bike Plan 2018 because the adjacent road has the highest number of recorded cycle crashes of any City-managed road. The road caters for high volumes of recreational cyclists and a wide range of path users, which introduces potential conflicts. This project will provide a safe dedicated cycle path to reduce crashes. The works will form part of a regionally significant bike path that, once fully constructed, will provide a continuous red asphalt cycle path for all the parklands on the popular bridge to bridge trail enabling safe cycling between Perth City and the City of South Perth. WA	City of South Perth	3	Community	Neil McDougall Park - new wetlands to improve drainage of the surrounding road network and treat stormwater entering the lake.	Rezoning as part of the Canning Bridge Activity Centre has resulted in an increase of impermeable surfaces in the catchment of Neil McDougall Lake. The lake is at capacity and further development will exacerbate flooding of the road network and parkland. The stormwater is also high in pollutants and needs to be filtered it enters the lake to improve the overall greenspace. This project involves the construction of new culverts and drainage outflows and new wetlands that will improve drainage by increasing the water holding capacity of the drainage system. The project also involves landscape improvements as the new wetlands will be planted with additional trees to increase shade and will improve the overall greenspace with native planting and cleaner water. WA	Collie Shire Council	3	Road	Gastaldo Road Gastaldo Road : Road Widening	Widen and seal shoulders with full reseal and audible line marking (4km). Road provides access to a major work place with high traffic. Works will improve road safety by making the surface and pavement of road wider with audible edge marking to reduce road run off.  Gastaldo Road is a public road accessible by the community and links to the state forest areas and to the major local employer Worsley Alumina plant. The proposed treatment is known to reduce or eliminate run off road crashes and will deliver and support improved road safety outcomes. In the proposed treatment area, this road has an average of +1400 vehicles per day and between 300 to 550 vehicles during morning and afternoon peak hour traffic. Reducing road trauma and crashes on regional roads is an enormous benefit to the local community and aligns with the Australian and State Government long term goal of eliminating road crashes as a major cause of death or serious injury. WA	Shire of Bruce Rock	1	Community	Bruce Rock Caravan Park, Dunstall St - Various upgrades	The existing ablution facility is very old and is well and truly due for an upgrade. When Council investigated costings it was deemed more cost-effective to demolish the current facility and build a new structure rather than renovating. The current facility does not have adequate equal accessibility, which will be rectified in the new building.	Feb-21	Jun-21	\$ 333,674	\$ 333,674

The installation of power will prevent the carting of a generator to the facility each week, and makes the facility more user friendly.	May-21	Jun-21	\$ 4,500	\$ 4,500
WA	Shire of Bruce Rock	1	Community	Johnson Street, Bruce Rock - Parklet upgrades	Before Council installed the temporary parklets, there were no attractive outdoor seating and dining options on the main street, especially near operating food businesses. The temporary parklets have made our main street more vibrant and have been deemed a great success. The parklets make it obvious to passing travellers that the food businesses are open, and encourage them to stop and spend, which boosts our local economy. Making the parklets permanent will increase all these benefits and ensure we can continue to reap them well into the future.	Apr-21	Oct-21	\$ 126,003	\$ 126,003
WA	Shire of Bruce Rock	1	Community	Railway Dam, off Bruce Rock East Road - Improvements to water catchment system	The project will improve the water catchment system as well as increase the capacity of the catchment, which will allow us to retain more water during rainfall events. In previous years where poor weather conditions have occurred, Council has had to purchase water to keep our oval and gardens alive. This project will not only save Council funds in the future, but makes our town attractive to tourists, and allows our sporting clubs to still be able to participate in their sporting activities. WA	Shire of Bruce Rock	2	Community	Bruce Rock Supermarket. Corner of Johnson and Bath Street, Bruce Rock, WA.	The only supermarket in the Bruce Rock town site burnt down as a result of arson in March 2020. The Shire seeks to construct a new supermarket building to ensure residents have access to a secure food supply. This is paramount for vulnerable community members who are unable to travel 40km to the next town for grocery shopping with no support system present. Currently, the Shire are operating a temporary supermarket from the Town Hall, resulting in the hall being unavailable for community events and sporting activities. A retail consultant determined that the Shire of Bruce Rock would be extremely unlikely to attract a retailer to operate a grocery store if the retailer had to also construct a building. The Shire intend to build the supermarket, fit it out, and lease it to an independent retailer. Building a new supermarket contributes to the local economy by creating jobs during construction and ensuring the continued future of the local retail economy. At present, many retail businesses in Bruce Rock have been negatively impacted by people travelling out of town for grocery shopping, as the current supermarket is unable to stock all the stock lines they require. Specific components of the construction of the Supermarket Phase 2 funding will be used for include: substructure, trenching and conducting for Electrical and Communication Services, and power supply head works. WA	Shire of Bruce Rock	3	Community	Bruce Rock Supermarket. Corner of Johnson and Bath Street, Bruce Rock, WA.	OTHER. The only supermarket in the Bruce Rock townsite burnt down as a result of arson in March 2020. The Shire of Bruce Rock seek to construct a new supermarket building to ensure our residents have access to a secure food supply. This is especially important for vulnerable members of our community who are unable to travel 40km to the next town for grocery shopping and lack a support system who could do this for them. At present, the Shire are operating a temporary supermarket out of the Town Hall, which was not designed for this purpose and has resulted in the hall being unavailable for community events and sporting activities. After engaging a retail consultant, it was determined that the Shire of Bruce Rock would be extremely unlikely to attract a retailer to operate a grocery store if the retailer had to construct a building as well. The Shire intend to build the supermarket and fit it out, and then lease it to an independent retailer. Constructing a new supermarket will contribute to the local economy by creating jobs during the construction phase and ensuring the continued future of the local retail economy. At present, many retail businesses in Bruce Rock have been negatively impacted by people travelling out of town for grocery shopping, as the temporary supermarket is unable to stock all the stock lines they need/desire, and then completing the rest of their retail shopping in the other town for conveniences sake. WA	Shire of Capel	3	Road	Hasties Road Footpath, Drainage and Kerbing Upgrade	Hasties Road is the principle entry road to the Gelorup townsite. The road has inconsistent edge treatments with some sections kerbed and other areas unkerbed. This leaves the impression that the road is unfinished or unimportant. Steep verges contribute to considerable surface runoff during heavy rain events. This has resulted in excessive erosion and deposition of sand and gravel onto the roadway - generally near the Bussell Highway. Stormwater drainage along Hasties Road is limited, resulting in flooding of the road. The proposal includes additional pits and soakwells to address this issue. The installation of embayed parking spaces along Hasties Road will provide formal parking during community events and will provide quick turnover parking for users of the adjacent community center. The proposed path alongside the embayed parking will provide safe universal access between the parked vehicles; the existing path network and the community facilities. The scope of works involves construction of stormwater drainage, reshaping of verge, construction of 716m of kerb, realignment of existing footpath, construction of 215m of footpath and construction of 11 embayed parking bays. WA	Shire of Capel	3	Road	Peppermint Grove Beach School Bus Turnaround	The Peppermint Grove Road car park was originally built in early 1980's. Currently the school bus drivers use the car park as a turnaround area. Turning in the car park area is difficult. When some of the car parking spaces are occupied, it is near impossible. Moreover, there is an existing safety issue where children are being picked up and dropped off in a live carpark. The Shire has received many complaints from residents/parents to improve this safety issue. This project will provide safe pick up and drop off for school buses and provide better storage of runoff during storms and minimize nuisance flooding of the road and adjacent property. The scope of works involves construction of formal asphalt roundabout, allowing buses to turn around away from the carpark with a central drainage basin, construction of sealed bus pull in bay, construction of 45m of new footpath, replacement of 54m of footpath, relocating existing soakwells, installation of new bus shelter, and install line marking and signage. The grounds are used by 5 clubs of different disciplines and boast 6 major regional, state and international events per year. Membership includes men and women, ages ranging from 4 – 84 years. The grounds and buildings are occasionally used for local music events accessible by all community members. The management committee is financially sound and manages all grounds management and development assets. Volunteering is strong in the equestrian community, where leasing and managing facilities require dedication and leadership. Stage One Includes: •demolish existing buildings; and construct new pavilion including ablutions, kitchen, scoring office and meeting space.	Jan-23	Apr-23	\$ 650,217	\$ 305,217

WA	Shire of Donnybrook Balingup	3	Community	Balingup Footpaths	Upgrading and provision of new footpaths and associated infrastructure. The existing asphalt paths in Balingup are nearing the end of their useful life due to age, ground movement and tree roots intrusion and are unsightly, unsafe and inhibit the use of gophers, wheelchairs etc. which has implications for access and inclusion. In consultation with key community stakeholders, the Shire has planned to replace these paths with new concrete paths, to provide better connectivity and all ability access to existing Shire infrastructure and local businesses. Approximately 250m of path will be replaced/upgraded by this project.	Apr-22	Jun-22	\$ 130,000	\$ 130,000
WA	Shire of Donnybrook Balingup	3	Community	Donnybrook Arboretum	The Arboretum is a key reserve which forms an entry statement at the entrance to the Donnybrook townsite and contains a range of historical trees (over 100 years old) and vintage timber milling machinery which was established in the 1970s as an interpretive heritage display. The reserve has been neglected in recent years, however the Shire has formed a coalition with a local volunteer group to restore the historical machinery display and rejuvenate the reserve through providing a low-key rest stop for visitors. New infrastructure will include picnic tables, an information bay, footpaths, provision of bins and interpretive signage. The local community has a strong attachment to the reserve and the project will foster civic pride and create an attractive entry statement for the Donnybrook town.	Mar-22	Dec-22	\$ 51,840	\$ 32,000
WA	Shire of Donnybrook Balingup	3	Road	Newlands Rd	The project involves the upgrading of the final gravel section of Newland Road (approx. 500m) to a sealed standard. 1km of Newlands Road was upgraded to a sealed standard under Phase 1 of the LRCI funding, and this Phase 3 project continues from where the Phase 1 project finished. As part of the Phase 3 project, a second coat seal is applied to the 1km upgraded in Phase 1. WC: Bicycle and Drainage Budget constraints has limited Council's capacity to undertake a renewal and addition work to its foot and bicycle path network within its five town sites. Many of the older paths are individual slabs which, over time, have become trip hazards requiring ongoing maintenance. They are also narrow limiting access to all users. Increases in road and pedestrian traffic also require installation of paths where no path exists. The installation of new paths and the renewal of existing paths will provide a safer trip for pedestrians, bike riders and vehicles using these roads.	Mar-22	Apr-22	\$ 200,000	\$ 100,000

WA	Shire of Jerramungup	3	Community	Fishery Beach Boat Ramp and Jetty Construction	Construction of a 2 new boat ramps and jetty. The ramps and jetty are now more than 25 years old. The jetty is narrow, corrosion of steelwork and damage to fenders and ladders is evident, timber kerbing is subject to marine growth, and numerous concrete ramp units have been displaced with degradation to the running surface. The structures have exceeded their intended design life the jetty does not meet current standards and the ramps are in very poor condition. The predominant benefit of this project is ensuring that Bremer Bay continues to have recreational boat access to its waters. A widened Jetty will provide safer access for the Volunteer Marine Rescue Service to access and egress their boat having noted that it is very difficult to carry a stretcher along the existing jetty. A widened jetty will also provide universal access of which the existing facility currently restricts. Bremer Bay's attractiveness as both a destination and as a place to live is largely attributed to the marine environment and a reliable recreational boat launching facility is a fundamental part of this. WA	Shire of Moora	3	Community	Moora Weir	Moora Water Security, Climate Resilience and Drought Proofing Programme. The project addresses the town's dependency on reducing aquifer supplied water and significant limitations on the availability of secondary water supplies. This involves the construction of a 1-1.5 gegalitre weir to collect seasonal flood water from the Moore River via two sluice gate-controlled channels which direct into the weir, some of the high floor water that passes the town each wet season. The project also involves the redesign of existing storm water mains to capture and direct storm water to the weir via three pumping stations and collector reservoirs. This project will provide the town with greater water certainty – last year, the town's secondary water supply contained 2 days water supply when May rains arrived. The reservoir will reduce demand on the town's aquifer fed water supply.	Feb-22	Mar-23	\$ 2,000,000	\$ 400,000
WA	Shire of Moora	3	Community	Moora Aerodrome, Airstrip Road Moora	Moora Aerodrome Emergency Services & Safety Upgrade. The project addresses a dangerous situation at the town's aerodrome because the current single runway is unsealed, and access to the aerodrome is via the runway threshold. The project also addresses the region's limited firefighting capacity in what is a region highly prone to bushfires fed by enormous fire loaded crops. Construction involves the sealing of turning and power-up runway nodes, creation of sealed taxiways, hardstands and aprons, the installation of 4x350,000 litre water storage tanks and high-volume pumps, radio navigation and communications equipment and the construction of a cross (second) runway; these works will create a forward operating firefighting base for water bombers operated by the Departments of Fire and Emergency Services, Parks and Wildlife service and Biodiversity and Conservation. WA	Shire of Moora	3	Community	Moora Shire Administrative Complex, Padbury Street, Moora	Early Childhood Development Centre. The project addresses the paucity of specialist early childhood development services in region. Currently, families either travel considerable distances to Perth or relocate from the region to Perth to access specialist services. This project will link major teaching hospitals, specialists and facilities with a regional centre of clinical expertise. The Centre will incorporate a specialist Indigenous child health unit to serve the significant indigenous population of the region. Construction involves the construction of a brand new 55 place childcare centre and a separate early childhood development centre that provides specialist medical and clinical services. The early childhood development centre will be the only facility of its type outside Perth. It will provide specialist services medical and clinical services to address childhood issues such as physical, developmental, behavioural, mental health, hearing, visual, gastrointestinal, orthopaedic and skin disorders. The facility will be linked to the Perth Children's Hospital, Telethon Children's Institute, Joondalup Health Campus, Moora Regional Hospital and private practitioners. The current 28 place day care centre building is very old, has substantial cracking due to deep flooding and requires regular treatment to manage mould infestations following major flooding. WA	Shire of Sandstone	3	Community	Sandstone Caravan Park extensions	The project would enable the construction of up to three on site units at the Sandstone Caravan Park. As of 31st December our caravan income was 70% greater than the same period last year. A result of people now looking at their own back yard instead of going overseas. In addition to having to turn people away due to no vacancies, council had a number of enquiries regarding onsite accommodation. This project aims to resolve this issue. We envisage that the accommodation will house up to 6 persons which would equate to 1095 persons at 50% occupancy. The benefit to the community is that additional persons in town would help the local economy, without impinging on current accommodation available. This project will be the first stage of a proposed caravan park extension with additional bays being currently planned as stage II. At this stage the \$700,000 is only an indicative figure with council agreeing to fund any requirement over the grant amount.	Jul-22	Jun-23	\$ 700,000	\$ 643,584

WA	Shire of Shark Bay	3	Community	Denham Town beach (Knight Terrace)	Other - Beach accessibility project. Purchase and installation of matting and beach wheelchair to allow beach/water access for those living with a disability. There is currently no access at the Denham Town Beach for wheelchairs. A floating beach wheelchair is a wheelchair that has specialised wheels and large armrests that become stable floatation devices, meaning the wheelchair can be pushed into the water. The Shire has received many requests from our older residents to improve beach access and they currently find it difficult to get to the water (ABS statistics show that 45% of Denham's population is aged 50 or over). This wheelchair will allow those with disability and the elderly to access the water (via the matting which will be installed from the footpath to the water) so older residents and people living with a disability can swim and experience water activities. WA	Town of Cambridge	3	Road	Lake Monger Car Park South West	Off-road Car Parks: Lake Monger Reserve currently has four car parks located on its south side. Three of these have been servicing visitors to Lake Monger Reserve for the past 50 years. Their combined number of parking spaces is 64. In July 2021, the Town completed construction of a fourth car park on the south east side of Lake Monger Reserve.  The three older car parks are ageing and require resurfacing work if they are continued to be utilised. Entry and exit points of each car park with Lake Monger Drive present safety issues with crossing the shared path that traverses Lake Monger lake and with traffic along Lake Monger Drive.  It is proposed to construct a new car park (60-80 bays) in the south west area of Lake Monger Reserve (adjacent to the newly constructed all-inclusive playground). Once this car park has been opened, the three existing, ageing car parks will be removed and decommissioned. Consolidating parking for Lake Monger Reserve over two car parks will improve safety for pedestrians using the shared path, vehicles entering and exiting Lake Monger Drive, and assist with asset management in future. WA	Town of Claremont	1	Community	Claremont Aquatic Centre works Renewal of the Town's aquatic centre disabled change room and toilet facility and the addition of a family change room, improvements to the associated universally accessible access ramp, and the retaining and landscaping of the surrounding garden area.	The existing disabled facilities at the aquatic centre are in a poor condition and require renewal. The original aquatic centre complex was constructed in 1960. The change rooms and toilets that are still in use today were constructed in 1971 without dedicated disabled facilities. Around 2004 a demountable disabled toilet and change room was added to the south of the change rooms with a short access ramp connection provided. Having originally been constructed as a temporary measure, this disabled toilet and change facility is still in use today and is in urgent need of renewal. The disabled access path to this area is also in need of enlargement and improvements. Due to the vertical grades of the site, retaining of the land will be required to accommodate this work. The community facility also lacks a dedicated family change room with some patrons instead using the disabled change room in this capacity. New family change rooms will be added adjacent to the disabled facilities. All proposed renewals and upgrades will be designed to comply with universal access requirements in accordance with the Town's Disability Access and Improvement Plan. WA	Town of Claremont	2	Community	Claremont Aquatic Centre. 12 Davies Rd Claremont, WA 6009. Aquatic Centre Roof.	Improvements to community facilities Sporting and recreation facilities The aquatic centre changing facilities are in a poor condition and require renewal. The original aquatic centre complex was constructed in 1960. The change rooms and toilets that are still in use today were constructed in 1971. The tile roof installed at that time is fifty years old and has numerous leaks which cause damage to the internal walls, ceilings, and wiring and needs total renewal. The solar system on the roof has not functioned fully for many years and would need removing to replace the roof. When the new roof is installed a new 33kw system will be installed to replace this old system.	Jul-21	Jul-22	\$ 115,925	\$ 115,925
WA	Town of Claremont	2	Community	Claremont Tennis Club. 2 Davies Rd Claremont, WA 6009. Synthetic Court and Flood Light Renewal.	Improvements to community facilities. Improved Accessibility of Community Facilities and Areas. Sporting and recreation facilities. The Tennis Club has two old synthetic courts which are heavily worn and in need of resurfacing. They have excessive wear in high use areas. The existing lights illuminating the courts have failed and, due to the type and condition of the poles, cannot easily be replaced. The existing brick shade structure is in a poor condition and requires renewal. The retaining structure and shade structure does not comply with current building code requirements for accessibility and require renewal. The project will be to remove worn and ripped non-seam synthetic court surface. Decommission and remove old lighting. Demolish shade structure and retaining walls. Undertake earthworks. Construct new BCA compliant retaining and shade structures. Install new light poles and LED lighting. Resurface two courts with seamless synthetic materials.	Nov-21	Jan-23	\$ 185,000	\$ 125,000

WA	Town of Claremont	3	Road	Leura Ave Roundabout	Reconstruction of damaged roundabout. The existing roundabout was originally constructed using rubber materials and since installation the road network usage has intensified significantly due to developments occurring within the Town inclusive of a new public bus terminal and the Metronet Project. Unfortunately, the intensification in use has seen the existing roundabout materials break up and fall apart leaving it in a very poor condition. We intend to reconstruct the roundabout using more durable materials inclusive of reinforced concrete and kerb.	Jul-22	Sep-22	\$ 150,000	\$ 88,020
WA	Town of Claremont	3	Community	Meals on Wheels Facility Refurbishment	Refurbishment including replacement of kitchen used for Meals on Wheels (MOW) services and as a community recreational club facility. The facility is a Council owned facility with a multipurpose room, toilets, and a large kitchen. It is for public use with bookings being made through application to the Town. It is often used for local clubs and not-for-profits meetings and gatherings. A user group of the facility is the Meals on Wheels team which is co-funded by the Town. This group prepares meals for vulnerable/at need community members, delivering them throughout the week. Unfortunately, the kitchen is approximately 50 years old, and although minor repairs and additional pieces of equipment have been organised over the years, the entire kitchen is in need of renewal. We intend to refurbish these rooms, replacing all fixtures and fittings with modern commercial type equipment while also undertaking other minor repairs and improvements to the fabric of the building. ### Urban Policy, Precincts and Partnerships Branch Response

	2023-24	2024-25	2025-26	2026-27	TOTALS
rPPP	\$100m	\$150m	\$150m		\$400m
uPPP		\$50m	\$50m	\$50m	\$150m

How will funding be distributed: Both programs will be merit-based open grants programs, subject to the Commonwealth Grants Rules and Guidelines.

Both programs are under development, with rPPP Guidelines to be released in coming months, in anticipation of funding commencing on 1 July 2023.

uPPP was announced in the recent budget and has funding commencing on 1 July 2024. Guidelines will outline any co-funding arrangements and eligibility requirements.

### Northern Australia Investments and Projects Branch Response

The 2023-24 Budget has made no changes to the Australian Government's October 2022-23 Budget decision to provide \$1.9B in planned equity to support the development of the Middle Arm Sustainable Development Precinct and Regional Logistics Hubs. The Australian Government is working with the Northern Territory Government to design an equity vehicle that could implement the equity investment.

The Northern Territory Government is finalising its relevant business cases for Infrastructure Australia's consideration.

The Australian Government remains committed to providing \$565M in funding to support common user marine infrastructure in the Pilbara. In accordance with a request from the Western Australian Government, the 2023-24 Budget has reprofiled the funding to match anticipated construction timeframes. The Budget has also moved the funding to the Treasury so that it be administered as a payment to the WA Government in accordance with existing government processes.

## **City & Regional Partnerships Branch Response**

### **Hobart & Launceston – place based co-investment**

The Australian Government is providing \$305.0 million from 2023-24 to 2027-28 to deliver urban renewal projects in Hobart and Launceston, with \$240.0 million to help unlock the potential of the Macquarie Point precinct in Hobart and \$65.0 million for an upgrade to UTAS Stadium in Launceston.

### **Port of Bundaberg – multi-use conveyor**

The Australian Government is providing an additional of \$7.7million in 2023-24 financial year for a multi-use conveyor at the Port of Bundaberg. This funding is in addition to the Hinkler Regional Deal funding for this project.

## **City and Regional Deal Input**

The Australian Government has committed to honouring projects agreed under the existing City and Regional Deals, to provide certainty for Deal partners and the communities they serve. There have been no funding cuts to the Deals.

The majority of Deals and commitments are progressing well toward delivery with a minority experiencing issues and delays that partners are working collaboratively to resolve.

Given the limited timeframe to collate the information requested by the Senator, the City and Regional Partnerships branch has been unable to provide all the information requested.

To assist the Committee to undertake its obligations to scrutinise Commonwealth expenditure on behalf of the Australian public, the City and Regional Partnerships branch have prepared Deal Summary Tables (attached) which include information on all commitments in each of the Deals. This includes:

- A description of each commitment;
- The organisation leading each commitment;
- Australian Government and co-contribution funding;
- The relevant Local Government Association; and
- The commitment status.

## Response to Senator Canavan Request dated 16 May 2023

The following information is provided in relation to the Regional Development and Local Government Division in response to Senator Canavan's request in correspondence to the Department on 16 May 2023 for the following programs of interest:

- Building Better Regions Fund, Rounds 1, 2, 3, 4, 5, and 6
- Cairns Regional Development
- Community Development Grants Programme
- Drought Communities Programme and Drought Communities Programme Extension
- Growing Regions Program
- Hunter region – supporting clean energy
- Investing in Our Communities Program
- National Stronger Regions Fund
- Priority Community Infrastructure Program
- Regional Growth Fund
- Regional Jobs and Investment Packages
- Regional Recovery Partnerships
- Stronger Communities Programme, by round
- Thriving Suburbs Program
- Financial Assistance Grants paid to each council (listing separately general purpose and local roads components)

Not all requested data is captured by the Department, or captured in an easily reportable, reliable, and consistent format.

Figures provided in this response may not align to other SE briefing materials which were prepared broadly across the Department using the period ending 31 March 2023.

In the Program overview tables below:

<sup>1</sup>Budget figures align with the May 2023 Budget. Unless otherwise stated, the funding profile provides the full or life of program totals.

<sup>2</sup>Contracted, Committed but not yet contracted and Unallocated figures are as at end of April 2023 to align with our most recent full month acquitted information.

Figures in the tables below are dollars without rounding.

The Murray Darling Basin Plan and National Water Grid Fund are not programs of this Department.

### **Q1&7. Program overviews and funding over forward estimates**

---

The tables below show contractually committed, committed but not yet contracted and unallocated by program for each year over the forward estimates where relevant.

- Project-level listings for the Regional Recovery Partnerships, Drought Communities Programme and Drought Communities Programme Extension are detailed at **Attachment A**.
- Project-level listings for all other regional programs of interest are provided at **Attachment B**, noting this attachment, consistent with the previous response, only includes rounds 6-7 for Stronger Communities Program due to the very large number of low value grants in this program (i.e. we have excluded 10,590 projects under Rounds 1-5).
- Details for the Financial Assistance Grant paid to Councils is at **Attachment D**. This attachment is based on the following principles:
  - Financial allocations represent actual cash payments made to councils,
  - Payments are made to councils in four equal quarterly instalments – August, November, February and May.

## Response to Senator Canavan Request dated 16 May 2023

- Cash payments in 2022-23 do not include the bring forward payment of \$2.1 billion from 2022-23 paid on 11 April 2022.

LGA recommendations are only available for the current year or historically. LGA recommendations for the forward estimates are only determined at the beginning of each fiscal year by the state and territory governments. There are no estimates beyond 2026-27.

### Q9. Programs which have been discontinued since 23 May 2022

---

A list of project applications received for discontinued programs is at [Attachment C](#).

The Australian Government announced on 24 October 2022 that CDG will cease. Projects contracted since 23/5/22 are shown in this list. Five projects shown were not approved. Fourteen other projects not able to be listed where funding commitments were withdrawn as either the department was unable to complete an assessment as no or insufficient information was received, or at the written request from the proponent that funding was no longer required.

BBRF [Round 6] was discontinued as advised at October 2022 Budget. A list of applications is not able to be provided at this time as that information has not been publicly released.

### Q10. Identification of Federal electorate information

---

Program and project decisions are not based on electorates and this information is not a standard reporting item. LGA/post code/location information has been included where that was readily available.

## Response to Senator Canavan Request dated 16 May 2023

### Financial Assistance Grant Program - as per 2023-24 Budget (Budget Paper No.3)

Figures for the forward estimates are correct as at 2023-24 Budget.

Figures may not add due to rounding.

All dollar figures are rounded to the nearest \$0.1 million.

Cash payments to Councils do not equal Budget amounts, as these are prepared on an accrual basis.

Total Project Cost (General Purpose & Local Roads) does not include the bring forward of \$2.1 billion from 2022-23 paid in 2021-22.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.
