19 May 2023

Dear Committee Members

I write to you following the letter received on 16 May 2023 from Senator the Hon Matthew Canavan, Deputy Chair of the Rural & Regional Affairs & Transport (RRAT) Legislation Committee, ahead of the RRAT Budget 2023-24 Senate Estimates hearings on Monday 23 and Tuesday 24 May 2023. As is our normal practice to support the process of Budget Estimates, the Department will endeavour to provide the Committee with the information requested by Senator Canavan, as early as possible prior to the commencement of hearings.

Infrastructure Investment Program projects with forward funding

As an initial response, tabled as part of this letter is the list of projects within the Infrastructure Investment Program with forward funding, which includes their status as recorded in our Infrastructure Management System as at the May 2023-24 Budget.

The list has been updated from the version tabled at the October 2022-23 Budget Estimates hearings. Changes have principally arisen from removing projects that have been completed since October and amending project funding profiles to reflect updated information provided by jurisdictions.

This table reflects proposed Australian Government funding profiles which are set out in the National Partnership Agreement on Land Transport Infrastructure Project Budget 2023-24 schedules, which were sent to jurisdictions on 9 May 2023. These schedules will be published on the Federal Financial Relations system once responses from jurisdictions have been received.

Independent Strategic Review (the Review) of the Infrastructure Investment Program (IIP)

On 1 May 2023 the Minister for Infrastructure, Transport, Regional Development and Local Government announced the Review of the IIP. The Review is expected to be undertaken within 90 days and was supported by National Cabinet on 28 April 2023. In the context of the Review, the Government has made it clear that it is committed to maintaining a 10-year \$120 billion infrastructure pipeline, with no funding being removed from the pipeline.

The Review will be undertaken by three eminent Australians, Ms Clare Gardiner-Barnes, Mr Reece Waldock AM and Mr Mike Mrdak AO, each chosen due to their extensive expertise in land transport infrastructure and

Commonwealth-State and Territory relations. The Department is providing secretariat support to the Reviewers.

The outcomes of the Review will help guide decision-making so that federally funded Infrastructure projects meet government policy objectives and deliver benefits for all Australians. In addition to consulting with relevant government and industry stakeholders, the Reviewers will consider advice from Infrastructure Australia as part of the Review.

To assist the Reviewers with their task, the Department will provide them with the same information as a starting point for their consideration and engagement with states, territories and local governments. While the Australian Government has made it clear that projects which are under construction and Commonwealth election commitments will continue to progress, providing the Reviewers with a complete list of projects within the IIP will help them make informed recommendations towards delivering a more sustainable and credible pipeline of nationally significant infrastructure projects.

It is important to note, when reading the tabled IIP projects list, that projects are marked 'under construction' once they have progressed beyond the scoping and development phases, and either major construction or (for projects with a Commonwealth funding contribution of \$250 million or above) substantial early works have commenced. For the purposes of the Review, where projects do not obviously fall within this definition of 'under construction', the Reviewers will seek to confirm their status, not least to give effect to the Government's undertaking that projects under construction will proceed.

The Reviewers have also been asked to make recommendations on reforms to both ongoing and time-limited Infrastructure Investment subprograms. The effectiveness and efficiency of these subprograms and their administration will be considered as part of the Review. The Review will not consider deferring or cancelling any projects within the subprograms. The Government is keen to ensure that subprograms deliver strategic priorities, including supporting safety, resilience and maintenance outcomes.

The department will make itself available, should the Committee consider it appropriate, to respond to any questions in relation to the outcomes of the Review once completed. Further correspondence regarding the balance of information requested in Senator Canavan's letter will be sent as soon as available

Sincerely

Jim Betts

Secretary

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

NSW	M12 Motorway	Asset Recycling Fund-Infrastructure Growth Package	2,039.0	1,631.4	80	95.4	250.0	351.1	218.5	40.7	860.2	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Under Construction	Fairfield City Council, Liverpool City Council, Penrith City Council	The project will involve the construction of a 16 kilometre east-west motorway between the M7 Motorway near Cecil Hills and The Northern Road at Luddenham. The M12 Motorway will serve as a major access route to the Western Sydney Airport and connect to Sydney's motorway network.  The project includes: • Construction of a four-lane motorway (with provision for up to six lanes), approximately 16 kilometres in length and divided by a central median, between the M7 Motorway, Cecil Hills and The Northern Road, Luddenham. • Motorway design speed of 110 kilometres per hour (lower on access ramps/roads). • Grade separated interchanges at: - the Western Sydney Airport main access including a dual-carriageway airport access road, - Elizabeth Drive at the entrance to the Western Sydney Airport, and - the interchange with Elizabeth Drive at the M7 Motorway. • Signalised intersection with The Northern Road. • Provision for future grade separated interchanges in the vicinity of Manre Road/Devonshire Road and The Northern Road. • Off-road shared pedestrian and cyclist paths.
NSW	M5 Motorway - Moorebank Avenue - Hume Highway Intersection Upgrade	Investment Roads	305.0	152.5	50	0.0	14.7	43.3	45.3	33.5	136.7	15.8	0.0	0.0	0.0	0.0	0.0	15.8	In Planning	Liverpool City Council	This project includes two components: • The M5 Westbound Traffic Upgrade, which provides a new two-lane bridge over the Georges River and rail line, connecting the M5 Motorway and Moorebank Avenue to the Hume Highway. It will also include a new underpass at Moorebank Avenue, which will connect M5 Motorway westbound traffic to the Hume Highway, enabling the closure of the M5 Motorway westbound Hume Highway exit; and • The M5 Motorway/Moorebank Avenue Intersection Upgrade, which will widen three of the four interchange ramps. The additional funding will enable the full scope of the project to be delivered.
NSW	M7-M12 Interchange	Off-Network - Road - States	NFP	116.0	NFP	0.0	0.0	0.0	50.0	40.0	90.0	26.0	0.0	0.0	0.0	0.0	0.0	26.0	In Planning	Fairfield City Council, Liverpool City Council, Penrith City Council	The M7-M12 Interchange will provide free-flowing connection between the M7 and M12 Motorways. The Interchange will also improve access to the Western Sydney International (Nancy-Bird Walton) Airport from Sydney's motorway network, and will increase road capacity to support the growth of Western Sydney and increased traffic volume to the new Airport.
NSW	Macquarie Park Precinct and Bus Interchange	Off-Network - Road - States	100.0	80.0	80	6.9	25.0	35.7	7.1	1.0	68.7	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Council of the City of Ryde	The project will plan and upgrade the Macquarie Park Precinct and Bus Interchange, optimising bus operations and pedestrian access to and from the interchange precinct, as well as future proofing transport operations in the area. This project will deliver new roundabouts at the Gateway Boulevard and Wyee Road intersections and a dual carriageway link in between.
NSW	Mandalong Road Upgrade	Investment Roads	94.0	56.0	60	0.0	3.0	10.0	13.0	13.0	39.0	17.0	0.0	0.0	0.0	0.0	0.0	17.0	In Planning	Lake Macquarie City Council	
NSW	Manns Road - Intersection Upgrades at Narara Creek Road and Stockyard Place	Investment Roads	66.0	52.8	80	0.0	0.0	11.0	27.0	14.8	52.8	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Central Coast Council (NSW)	This project involves intersection upgrades along Manns Road, including two key intersection upgrades at Manns Road and Stockyard Place, West Gosford and Manns Road and Narara Creek Road. Manns Road connects the Central Coast Highway to the industrial area of West Gosford and Pacific Highway at Narara. The section of Manns Road proposed for upgrade has a history of crashes mainly near intersections and driveways.  This project supports improved road safety, improved pedestrian and cyclist safety, reduced travel times and reduced congestion on the Central Coast.
NSW	Middleton Drive Extension - M7 Underpass	Investment Roads	9.0	6.0	67	0.0	4.0	2.0	0.0	0.0	6.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Liverpool City Council	The project will construct a new road extending Middleton Drive, Middleton Grange, to connect with Aviation Road, Austral, under the M7 Motorway. Includes the construction of a shared path overbridge parallel to the M7 Motorway.
NSW	Milton Ulidulla Bypass	Off-Network - Road - States	940.0	752.0	80	0.0	22.0	96.0	160.0	200.0	478.0	200.0	71.5	0.0	0.0	0.0	0.0	271.5	In Planning	Shoalhaven City Council	The project is expected to construct a bypass of Milton and Ulidulla. The scoping phase will involve primary data collection, consultation, strategic design works, corridor planning and strategic options development and analysis.
NSW	Mount Ousley Interchange	Investment Roads	300.0	240.0	80	10.0	48.0	65.8	55.0	35.0	203.8	5.0	21.2	0.0	0.0	0.0	0.0	26.2	In Planning	Wollongong City Council	This project involves the upgrade of the intersection of the Princes Motorway and Mount Ousley Road. The interchange will replace the existing intersection, which is a significant pinch point of the Motorway network, and currently experiences long queues and delays during peak periods. As the primary access point to Wollongong and Port Kembla, issues at this intersection also create significant flow-on effects across the transport network. This project will improve travel times, as well as access to the Wollongong central business district and the University of Wollongong. It will ensure safer access to and from the Motorway to Mount Ousley Road, and improve safety by separating cars and heavy vehicles travelling down Mount Ousley.
NSW	Mt Lindesay Road - Legume to Woodenbong	Off-Network - Road - States	24.0	12.0	50	0.0	0.5	0.0	0.0	0.0	0.5	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Under Construction	Tenterfield Shire Council	Realignment, widening and upgrade of a number of sections of Mt Lindesay Road between Legume and Woodenbong.
NSW	Mulgoa Road Stage 2 - Glenmore Parkway to Jeanette Street, Stage 5A Blaikie Road to Jamison Road and Stage 5B Jamison Road to Union Road	Investment Roads	465.0	232.5	50	0.0	10.0	62.5	50.0	45.0	167.5	65.0	0.0	0.0	0.0	0.0	0.0	65.0	In Planning	Penrith City Council	The Mulgoa Road Stage 2 - Glenmore Parkway to Jeanette Street upgrade will widen approximately 850 metres of Mulgoa Road from an undivided four lane carriageway to a divided six lane carriageway with medians and active transport facilities. The Mulgoa Road Stage 5A - Blaikie Road to Jamison Road upgrade and Mulgoa Road Stage 5B - Jamison Road to Union Road upgrade will widen both sections from a divided four lane carriageway to a divided six lane carriageway with medians and active transport facilities.
NSW	Mulgoa Road Upgrade	Investment Roads	226.3	171.2	76	21.5	61.0	56.0	7.1	1.2	125.3	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Under Construction	Penrith City Council	The project will upgrade road capacity from four lanes to six lanes, upgrade Wolsley Street, Glenbrook Street, and Blaikie Road intersections, construct a noise wall and decommission the Wolsley street tunnel. The project also includes providing the concept design, a detailed design, a review of environmental factors and property acquisition.
NSW	Murrumbidgee Bridge Upgrade, Cobargo	Roads of Strategic Importance - Off-Network	5.2	2.3	44	0.6	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Completed	Bega Valley Shire Council	This project will replace the existing timber bridge with a new two-lane concrete structure.

NSW	Narrandera Shire Council - Heavy Agricultural Vehicle Route Upgrade on Erigolia Road, Binya	Investment Roads - Remote Roads Upgrade Pilot Prog	1.1	0.9	80	0.0	0.9	0.0	0.0	0.0	0.9	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Narrandera Shire Council	Undertake road shoulder widening and seal of approximately 11.7km of Erigolia Road, between the townships of Barelán/Binya and Rankin Springs
NSW	New England Highway - Belford to Muswellbrook safety and capacity upgrades - Planning	Investment Roads	10.0	8.0	80	0.0	2.0	2.0	3.0	1.0	8.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Muswellbrook Shire Council	This planning project will develop a staging strategy for duplication of the southern end of the section which would continue the existing two-lane two-way carriageway, with identification of priority areas for overtaking lanes.
NSW	New England Highway - Bolivia Hill Upgrade	Investment Roads	133.7	98.0	73	2.8	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Completed	Tenterfield Shire Council	Realignment and widening of approximately 2.1 kilometres of the New England Highway at Bolivia Hill, including construction of a 320 metre long bridge.
NSW	New England Highway - Muswellbrook Bypass	Investment Roads	336.0	268.8	80	0.0	39.5	65.0	95.0	69.3	268.8	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Muswellbrook Shire Council	This project will construct a bypass of Muswellbrook on the New England Highway.
NSW	New England Highway - Singleton Bypass	Investment Roads	700.0	560.0	80	14.0	71.8	139.0	140.0	100.0	450.8	40.0	35.0	11.7	8.5	0.0	0.0	95.2	In Planning	Singleton Council	This project involves construction of a New England Highway bypass of Singleton. It will improve traffic flow, travel times and safety through Singleton town centre, by reducing traffic including heavy freight. The Highway currently carries around 26,000 vehicles, including more than 3,700 heavy vehicles, through the centre of Singleton each day.
NSW	New England Highway - Tenterfield Heavy Vehicle Bypass	Investment Roads	10.0	10.0	100	0.0	3.8	0.0	0.0	0.0	3.8	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Underway	Tenterfield Shire Council	Development Phase activities including: - concept design - environmental assessment; - property acquisition; and - detailed design.

The bypass will be built between Rankin Park and Jesmond, to the west of John Hunter Hospital. It will provide traffic relief to the surrounding road network. This instrument covers the development and delivery phases of the project.
NSW	Newell Highway - Mungie Back Creek to Boggabilla - Stage 2	Roads of Strategic Importance	81.1	81.1	100	0.0	0.0	0.0	0.0	0.0	0.0	6.1	0.0	0.0	0.0	0.0	0.0	6.1	Completed	Moree Plains Shire Council	This project involves widening the existing formation and providing an improved heavy duty pavement on the Newell Highway between Mungie Back Creek and Boggabilla, extending south of Stage 1 by 4.1km and north of Stage 1 by 5.2km, as well as tie in works at both ends.
NSW	Newell Highway - Mungie Back Creek to Boggabilla Heavy Duty Pavement Construction	Investment Roads	122.0	61.4	50	0.0	0.0	0.0	0.0	0.0	0.0	0.7	0.0	0.0	0.0	0.0	0.0	0.7	Completed	Moree Plains Shire Council	The project involves widening the existing formation, providing an improved heavy duty pavement and constructing two overtaking lanes on the Newell Highway between Mungie Back Creek and Boggabilla.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

This instrument covers the Delivery Phase of this project.
NSW	Newell Highway Upgrade - Heavy Duty Pavement Upgrades - North Moree	Investment Roads	330.0	264.0	80	0.0	5.1	46.0	78.0	71.4	200.5	50.0	13.5	0.0	0.0	0.0	0.0	63.5	In Planning	Moree Plains Shire Council	This project will deliver heavy duty pavement upgrades to three sections of the Newell Highway with a combined length of about 30 kilometres of upgrades. The project will also deliver road widening, upgrade a number of intersections along the Newell Highway, install painted medians and shoulders on either side of property accesses. The project will also deliver upgrades to the Tycannah heavy vehicle rest area. The project will complement Stage 1 of an existing Australian Government funded project which is delivering similar upgrades at four locations between Narrabri and Moree. This project will improve flood immunity along the Newell Highway, and increase freight productivity, network reliability and road safety for all road users.
NSW	Newell Highway Upgrade - Overtaking Lanes	Investment Roads	75.0	60.0	80	14.5	16.3	3.8	0.0	0.0	20.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Under Construction	Dubbo City Council, Gilgandra Council, Coolamon Shire Council, Moree Plains Shire Council, Berrigan Shire Council, Bland Shire Council, Forbes Shire Council, Murrumbidgee Shire Council, Narrabri Shire Council, Narrandera Shire Council, Parkes Shire Council, Weddin Shire Council, Warumbungle Shire Council, Federation Council, Murrumbidgee Council, Dubbo Regional Council	This project involves the construction of approximately 20 overtaking lanes on the Newell Highway to improve safety, reduce crash numbers and travel times, allow more accurate travel planning and improve freight productivity.
NSW	Newell Highway Upgrade - Parkes Bypass	Investment Roads	187.2	149.7	80	32.0	40.0	17.6	15.0	0.0	72.6	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Under Construction	Parkes Shire Council	This project involves the construct of a 10.5 kilometre bypass approximately 1.5 to 2.0 kilometres in length west of the existing Newell Highway in Parkes. The project will improve connectivity, road transport efficiency and safety for local and interstate motorists.
NSW	North West Growth Corridor - Planning and Early Works	Investment Roads	150.0	75.0	50	0.0	12.5	25.0	12.5	25.0	75.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	The Hills Shire Council, Blacktown City Council, Hawkesbury City Council	The project will finalise planning and commence early works on the North West Growth Corridor. The project will focus on improvements road to infrastructure to support the expected increase in population in the area. Roads to be considered include Bandon Road and Garfield Road.

NSW	Pacific Highway - Harrington Road Intersection Upgrade, Coopernook	Investment Roads	60.0	48.0	80	0.0	1.3	6.7	25.0	15.0	48.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Mid-Coast Council	This project involves constructing a full grade separated interchange at the junction between the Pacific Highway and roads connecting to Harrington and Coopernook. Concerns have been raised about the safety of this intersection, including following a recent fatal accident. This project will improve road safety at the intersection, ensuring local road users can join the highway more safely. There may also be opportunities to improve flood immunity as part of this upgrade.
NSW	Pacific Highway - Raymond Terrace to Karuah - Planning	Investment Roads	9.0	7.2	80	0.0	0.8	3.0	3.0	0.5	7.2	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	Port Stephens Council	This planning project will scope and develop works for the removal of three high-risk at grade intersections on the Pacific Highway between Raymond Terrace and Karuah, including Buckets Way, Medowie Road and Italia Road. There are known safety issues at these intersections, particularly related to heavy vehicle movements which are likely to worsen given population growth and increased tourism along the Pacific Highway corridor. Grade separation will address the safety issues, improve efficiency, and also support the development of industries utilising these intersections.
NSW	Pacific Highway - Woolgoolga to Ballina	Investment Roads	4,735.4	3,744.5	79	0.0	10.0	0.0	0.0	0.0	10.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	Completed	Ballina Shire Council, Coffs Harbour City Council, Richmond Valley Council, Clarence Valley Council	The project will, through the use of a Delivery Partner, construct 155 kilometres of four-lane divided road comprising approximately 93 kilometres of Class M (motorway) standard with the remainder being Class A (arterial) standard. This duplication excludes the existing divided four-lane sections at Halfway Creek, Glenugie and Devils Pulpit. The upgrade will link the Sapphire to Woolgoolga upgrade with the Ballina bypass. The project includes: • Nine grade-separated interchanges. • Construction of two major river crossings over the Clarence River at Harwood and Richmond River at Wardell which comply with higher mass limit (HML) requirements. • Numerous bridges over rivers, creeks and floodplains. • Access roads to maintain connections to existing local roads and properties. • Rest areas located at Arrawarra, Pine Brush (Tyndale) and north of Mororo Road. • Many fauna underpasses as well as dedicated animal land bridges to mitigate impacts on the surrounding natural environment. • The design allows for the highway to be upgraded to a full motorway style highway in the future when warranted by increased traffic volumes. • Increased flood protection to 1 in 20 year flood events on the Clarence and Richmond River floodplains, and 1 in 100 year flood events on the remaining highway and major bridge structures. • Upgrades to the northbound carriageways of the existing divided four-lane sections at Glenugie and Devils Pulpit and improvements to intersections at Halfway Creek.
NSW	Pacific Highway - Wyong Town Centre	Investment Roads	420.0	336.0	80	0.0	9.0	22.0	36.0	11.0	78.0	133.0	98.0	27.0	0.0	0.0	0.0	258.0	In Planning	Central Coast Council (NSW)	This project will upgrade the Pacific Highway through Wyong, including duplication of the highway between Johnson Road and Cutler Drive, Wyong. It will also replace the existing Wyong River road bridge with two new road bridges, improving overhead clearance heights for River Road and South Tacoma Road.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expended in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

The signalised intersection will provide access to Marsden Park Precinct (MPP) to the west and Marsden Park North Precinct (MPNP) to the east. There is an increasing demand on Richmond Road to provide connectivity for the North West region. Current access to the MPP via Elara Boulevard is heavily congested and without additional access points to the development areas, congestion is expected to increase. This project will help alleviate congestion in Western Sydney and support the current Hawkesbury River Third Crossing project.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

VIC	Business Case for Melbourne Inland Rail Intermodal Terminal	Major Project Business Case Fund (Rail)	20.0	10.0	50	4.8	0.0	0.0	0.0	0.0	0.0	5.3	0.0	0.0	0.0	0.0	0.0	5.3	Underway	Moreland City Council, City of Maribyrnong, Melton City Council, City of Whittlesea, Brimbank City Council, Hume City Council, Mitchell Shire Council	Currently, there is no terminal in Melbourne that is capable of accommodating the Inland Rail service offering of double-stacked 1,800-metre trains. The recommendations made by the Dr Kerry Schott AO-led review into Inland Rail, supports the delivery of two new independent intermodal terminals in Melbourne, one at Beveridge in Melbourne's north and the other at Truganina in Melbourne's west. Government involvement will ensure that an intermodal terminal at Beveridge with sufficient capacity to accommodate such trains is available to support Inland Rail from the commencement of services running from Beveridge through to Parkes and Naromine by 2027. An initial stage 1 terminal for Beveridge to offer interstate rail services is planned to be delivered by 2025. National Intermodal Corporation Limited will lead the development of an independent, open access terminal at Beveridge on behalf of the Australian Government. A business case jointly to be undertaken by both Governments will examine the Truganina terminal location and connecting Outer Metropolitan Ring (OMR) Rail South infrastructure as well as matters including market access/operating models, financing options and value capture opportunities. Funding for this project has been allocated under the Major project Business Case Fund.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expended in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

**Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget**

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expended in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

**Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget**

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

**Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget**

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expended in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

## Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

**Infrastructure Investment Program - Australian Government Committed Projects as at 2023-24 Budget**

Figures reflect profiles considered in the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.  
 Projects with no future funding from 2022-23 are omitted.  
 All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.  
 Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.  
 Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.  
 Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.  
 Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.  
 Completed projects are included where final payments are to be made (awaiting project closure report).  
 Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

### Black Spot Program

Eligible proponents - State, Territory or Local Government Entities.

Scope: Black Spot Projects approved since 2018. Data is as reported by jurisdictions as at 5 May 2023.

Program Objectives:

The Black Spot Program provides up to \$2 million per project in Australian Government funding for the treatment of road locations where known vehicle crashes are occurring or at risk of occurring.

Eligible projects include traffic signals, roundabouts, turning lanes, safety barriers and lighting.

New project selection:

- Nominations for Black Spot locations are invited from state and territory governments, local councils, community groups and associations, road user groups, industry and individuals.

- On receipt of a completed Black Spot nomination form, the relevant state and territory transport agency will examine the nominated site's eligibility for funding.

- Eligible projects are then assessed by a Consultative Panel. Each state and territory have their own Consultative Panel. The Panels consists of representatives drawn from community and road user groups, industry, Australian and local government, and state road and transport agencies.

- Only projects that have been recommended for funding by a Consultative Panel are provided to the Minister for funding approval.

## Bridges Renewal Program

Eligible proponents - State, Territory or Local Government Entities.

Scope: All approved projects as at 5 May 2023

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Bridges Renewal Program funds the upgrade and replacement of bridges to enhance access for local communities and facilitate better vehicle access leading to higher productivity.

Eligible projects include bridge replacements, bridge upgrade proposals and new bridges replacing an existing water crossing.

New project selection:

- Applications undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- Only proposals which are eligible and provide the Australian Government value for money are recommended to the approving Minister for funding.
- Ministers do not approve recommended proposals in their own electorate / jurisdiction.

### Emerging Aviation Technology Partnerships Program (the EATP Program)

#### General Program Details

The Australian Government has committed \$32.6 million (\$30.518 million Administered Funding available for grants) over three years from 2022-23 to 2024-25 to deliver the *Emerging Aviation Technology Partnerships Program* (the EATP Program). The EATP Program will help fast-track the Australian emerging aviation technology sector by encouraging the development and deployment of innovative technologies and demonstrating their benefits for Australian businesses and communities, particularly in regional Australia. The EATP Program is intended to improve supply chain and market efficiency and improve connections with regional and remote communities, with a particular focus on improving outcomes for Indigenous communities.

Under the EATP Program, the government is partnering with industry to test emerging aviation technologies and the underpinning frameworks to support them. Pilot projects will have a regional focus, with specific focus areas including connecting regional communities; boosting regional supply chains; improving outcomes for regional and remote Indigenous communities; digital farming; and growing manufacturing in emerging aviation technology.

The application period for Round One of the EATP Program was open from 20 December 2021 to 31 March 2022 and 12 successful projects commenced in late 2022. Round Two of the EATP Program opened for applications on 15 May 2023. The application period will close on 27 July 2023, with projects expected to commence in late 2023.

#### 1. Details of funding of committed/contracted funding

EATP Program - \$30.518 committed

EATP Round One - \$18.159 million allocated – all contracted

EATP Round Two - \$12.359 million allocated – not yet contracted

#### 2. Details of any changes that have occurred since the 2022-23 (October) Budget

A Movement of Funds was approved at the 2023-24 Budget to push \$3.36 million out to 2024-25 to allow sufficient time to deliver worthwhile projects under Round Two

EATP Administered Funding (both rounds)	2022-23	2023-24	2024-25	Total
Pre-Movement of Funds	11,521,000	18,997,000	-	30,518,000
Post-Movement of Funds	10,869,274	16,289,891	3,358,835	30,518,000

## Heavy Vehicle Safety and Productivity Program

Eligible proponents - State, Territory or Local Government Entities

Scope: All approved projects as at 5 May 2023

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- Only proposals which are eligible and provide the Australian Government value for money are recommended to the approving Minister for funding.
- Ministers do not approve recommended proposals in their own electorate / jurisdiction.

IOT	Cocos (Keeling) Islands Shire Council	1	Community	Upgrades to parks and community centre - Multiple Locations.	The islands playgrounds currently have limited suitability for use due to the exposure to the heat and sun. Shade sails will enable children and families to utilise the playgrounds not just in the early mornings and late afternoons, but also during the peak of the day. It will protect from harm from sun but also safety of users as equipment tends to get to hot for use.  The Shelter at the spot will provide a community gathering opportunity for picnics, observing of wildlife and water sports. The location is also popular with tourists enabling them to maximise the use of this location.	Nov-21	Jun-22	\$ 136,739	\$ 136,739

IOT	Shire of Christmas Island	1	Community	Smith Point Trail Reconstruction	Much of the Smith Point Trail infrastructure was destroyed in a cyclone in 2017. Large trees fell across boardwalks, rails and other safety infrastructure destroying much of it. It had to be closed for safety reasons since then.  The Smith Point Trail is the premier walking trail site in the north-east corner of the island starting at the historic Tai Jin House Museum and ending at the top of the mountain at Territory Day Park. The project will repair and replace trail infrastructure to re-establish a safe walking/hiking experience for tourists and locals.	Oct-20	Nov-20	\$ 20,705	\$ 20,527
IOT	Shire of Christmas Island	1	Road	One km sealing of North-South Baseline Road	This unsealed road is utilised daily by heavy vehicles for the mining company as well as provides access from the settled north-east corner of the island to the national parks, immigration centre and mining sites spread out across the island. It is heavily trafficked and unsealed, being a chalk road at present. Combined with the average 2.3m of rain a year, with the heaviest years nearing 6, degradation is quick and severe. The sealing of the road way will save on recurring maintenance grading immediately in the next wet season and beyond.	Dec-20	Mar-21	\$ 65,040	\$ 63,993

IOT	Shire of Christmas Island	3	Community	Foreshore Precinct, Christmas Island, -Lingiari Electorate NT	Project Name: Foreshore Bicycle Path - Category: Bicycle and Walking Paths -This will create the first ocean side bicycle path on Christmas Island for visitors and residents to enjoy. It will span the length of the foreshore padang precinct with a 180 degree view of the Indian Ocean.	Feb-22	Apr-22	\$ 298,500	\$ 298,500
IOT	Shire of Christmas Island	3	Community	Foreshore Precinct, Christmas Island, -Lingiari Electorate NT	Project Name: Foreshore Artwork - Category: Painting / Improvement to Community Facilities - Brightening up the 40m blank wall looking over the Foreshore Padang Park area with colour, creativity and community stories. The Shire has just completed a successful public art program 'Our Streets Are Our Museums' which featured 7 walls around the township depicting images from local history. We were looking to continue this public art theme with the LRCI grant by beautifying the Foreshore Padang, which is a leisure and recreation precinct of some size on the Foreshore. The site used to be an outdoor cinema in the past, so we were looking at some creative documentation of that in the artworks to interpret that history onsite. It is also the precinct where the historical Chinese Literary Association resides. Thus the artist will be given a brief to not only make the art fit a rec/leisure precinct, but to also add the dimension of local history and culture to the place.	Jun-22	Jul-22	\$ 40,000	\$ 40,000
IOT	Shire of Christmas Island	3	Community	Foreshore Precinct, Fencing upgrade	Project Name: Foreshore Padang Railing- Category: Repairs / Replacement of Fencing -Replacement of aged railing looking over the Foreshore Padang Park. NSW	Bega Valley Shire Council	1	Community	Renewal of the Berrambool footbridge and construction of an off road connecting path	Berrambool sporting complex is one of Council's major sporting facilities and is currently disconnected from the CBD via any means of continual active transport options. There is currently a carpark, skate park clubhouse and a small footpath network within the sporting facility. There is a footbridge over the creek that is in desperate need for renewal but not connected to a path network. The bridge was built by community volunteers many years ago and is a warranted piece of infrastructure that needs to be renewed. By extending the path network from the existing path along the service lane to the existing path at the Berrambool Sporting complex we will be closing a vital missing link in our active transport network. NSW	Bogan Shire Council	1	Community	Swimming Pool - Water Slide	Nyngan in western NSW has long hot summers, and like many rural and regional towns there is a lack of recreational options for children and youth. Bogan Shire Council would like to install a slide at the pool to enhance the experience for children and youth and to encourage them outside during the summer. Council installed the stage 1 of a water splash play at the pool in 2019 to cater for very small children to make the pool attractive to young families. This project will comprise stage 2 of that with the purchase and installation of four aquatic water play features which can be attached to existing fittings.	Jan-21	Jul-21	\$ 200,994	\$ 200,000
NSW	Bogan Shire Council	1	Community	Netball Oval - Sealing	Nyngan has no all-weather netball courts which rules it out of hosting competitive games. The five grass courts in town were recently improved with lighting to enable weeknight competition, but the grass surface is slippery in winter, and requires constant maintenance and line marking. Netball is a popular sport in Nyngan, but with no suitable facilities for local competition, the teams must travel 160km to Dubbo to compete.	Nov-20	May-21	\$ 111,253	\$ 111,253
NSW	Bogan Shire Council	1	Community	Upper Bogan River Development	The upper weir area is a popular location for fishing, birdwatching, walking and camping. The site is undeveloped with no amenities. It requires tidying up the existing overgrown vegetation and repairs to the gravel access road. The installation of a toilet block, picnic table, seats, garbage bins and a bird watching platform will make the destination a more attractive and hygienic place for residents and visitors. It will also provide a free of charge option for recreation close to the township.	Nov-20	Nov-21	\$ 97,507	\$ 97,507
NSW	Bogan Shire Council	1	Community	Hermidale Park - Upgrade	The village of Hermidale is located between Nyngan and Cobar on the Barrier Highway. It is 50km from Nyngan. The playground and park are very old and the equipment is broken and unsafe. The existing wire fencing is not in good order. This is the only play equipment available for the village children.	Jun-21	Nov-21	\$ 39,386	\$ 30,000
NSW	Bogan Shire Council	1	Community	Coolabah Village - Toilets	There is currently no public toilet in Coolabah. This toilet would be built near the coach stop on the highway where it is needed.	Feb-21	Sep-21	\$ 53,620	\$ 30,000
NSW	Bogan Shire Council	1	Community	Nyngan Cemetery - Re-fencing	Nyngan cemetery includes a modern irrigated lawn plot which during dry time is invaded by hungry wildlife, particularly kangaroos, which cause damage to gravesites. This is distressing for those who visit, and also makes it difficult for the Bogan Shire to maintain	May-21	May-21	\$ 48,415	\$ 48,415
NSW	Bogan Shire Council	1	Community	Lower Bogan River Development	Although the Bogan River flows through Nyngan it has not been recognised by previous town planners as a feature for tourists and residents. In recent years Bogan Shire Council has been gradually developing this area, building a pontoon and a pathway. It has been well received and is a popular exercise and meeting area. Council would like to further develop this area to provide more alternatives for recreation and leisure and to capitalise on the Bogan River. It would also add a new tourism opportunity to the Shire. NSW	Bogan Shire Council	1	Community	Frank Smith Oval - Upgrades	Frank Smith Oval is used for senior and junior cricket and touch football in summer and soccer in winter. The main pitch does not have a boundary fence which means for cricket a boundary has to be made from rope or poly pipe before the games. There is currently no all weather shelter at the oval which means players and spectators must sit in their cars or gather under trees in the typically hot summer. There are no existing cricket sight screens on the oval. There is currently no designated pathway through the scrub between the oval and the nearby Dandaloo Street. NSW	Carrathool Shire Council	3	Community	Refurbishment of Hillston Water Tower  Project location: 197 High Street, Hillston NSW 2675  Work category: Other	Hillston Water Tower provides water to the regional community of Hillston. The water tower has exhibited vertical and horizontal cracking which has led to a leak, approximately three quarters of the way up the tower. To alleviate the leak, the tower has been set to not fill past the leak which has resulted in a noticeable loss of pressure in the water distribution network.  To rectify the issue and to prolong the effective life of the water tower, the Scope of Works consists of high-pressure water blasting of the interior surfaces, sandblasting of the cracks, the application of relining material and sealing of the interior of the water tower. These rehabilitation works are essential in ensuring the continued operation of this critical water infrastructure component in the Hillston community.  Council would like to request a following variation. In addition to the abovementioned works, the contractor has determined that additional essential repairs are needed in order to preserve the water tower and ensure its usability in the future. The additional essential works include replacing damaged pipework, removing internal and external access ladders and fixing the roof structures to prevent any future water contamination. These Schemes equate to hundreds of kilometres of pipelines that supply raw water to rural properties in the Shire. Some of these Schemes have been providing this service for over 40 years. An inspection of the waterlines across the Yoolaroi Scheme revealed that 54 kilometres of waterlines require vegetation management. Vegetation has grown along the top of the existing waterlines covering the maintenance track.  The Scope of Works consists of approximately 54km of vegetation clearing across the Yoolaroi Water Supply Scheme. Rehabilitation of the maintenance track will allow for the necessary machinery to travel along the waterline and provide maintenance to the underground pipeline when required. Accessibility to the pipeline remains a necessity as it delivers water to the rural members of the community for stock and domestic services.	May-22	Aug-22	\$ 178,200	\$ 178,200

NSW	Central Coast Council (NSW)	1	Road	New carpark on the existing grassed area at the frontage of Lake Munmorah High School.	Carters Road has two primary schools, two high schools, a preschool. With the local area having a growing population and only one way in and out along Carters Road, a traffic solution is needed in this education precinct. The morning and afternoon peak hours cause congestion with an influx of parents/carer givers dropping off and picking up students.	Mar-21	Dec-21	\$ 785,709	\$ 785,709
NSW	Central Coast Council (NSW)	1	Community	Upgrade of Narara District Skate Park	<p>The Narara District Skate Park will service the Gosford Central and Narara Valley and Ourimbah social planning precincts which are inclusive of 8,263 young people. Consultation undertaken throughout the development of the Central Coast Youth Strategy identified that young people are concerned about their own and other young people's mental health along with their physical health and are worried about the increasing numbers of young people who are overweight and obese.</p> <p>The provision of no cost recreation opportunities such as the proposed upgraded Narara District Skate Park will provide equitable access for all ages to develop physical, emotional, social and cognitive skills. Providing free active facilities helps combat obesity and allows socialisation opportunities for young people from all demographics and socio-economic backgrounds to engage in an unprejudiced environment resulting in improved behavioural development and social integration.</p> <p>The ability to stage low cost or no cost skate events and programs at the upgraded facility will also create an avenue to increase social connectedness and inclusion leading to enhanced positive relationships between community members and a decrease in anti-social behaviours.</p>	Apr-21	Dec-21	\$ 956,388	\$ 956,388

NSW	City of Canada Bay Council	1	Road	McKinnon Avenue is a local street that links Lyons Road and Great North Road. Lyons Road is a state road while this portion of Great North Road is maintained by Council. This street is used by motorists who is heading east towards Drummoyne to bypass Lyons Road & Great North Road signal during peak hours. Due to the number of vehicles uses this road, pavement has deteriorated over the time and is now due for renewal. The pavement rehabilitation works will include provision of deeplift pavement where required and resurfacing McKinnon Avenue. Under this project, on-street parking bays will be resurfaced on southern side of McKinnon Avenue.	McKinnon Avenue shows signs of pavement deterioration and isolated pavement failures. The project will see a deeper pavement constructed to address the pavement issues and to cater for increase in vehicle traffic as a result of recent development at the north-east corner of Lyons Road & Great North road. NSW	Dubbo Regional Council	1	Community	Dubbo Aquatic Leisure Centre - Upgrades	The Dubbo Aquatic Leisure Centre (DALC) is a well-loved community recreation facility, however it is aging facility and is in need of an upgrade. Recent audits of the Centre's security, lighting and pump room facilities, as well as a number of security breaches that have occurred have highlighted major deficiencies in the safety and security of the site. As previous upgrades have been completed in an ad-hoc manner, parts of the existing lighting and security infrastructure are obsolete and do not meet current environmental standards. Lighting: A December 2020 audit of lighting at the DALC highlighted a safety concern for after-hours use of the Centre. At least half of the current floodlights are inoperative and there is no lighting directed at the public car park, staff car park, splash park or waterslide. No lighting exists outside the entrance to the DALC's new foyer and the current floodlights directed at the 50m pool are insufficient for evening events and carnivals. Replacing the existing Metal Halide Flood Lights with LED Flood Lights will reduce the existing energy use by up to 70% and reduce operational costs - every \$100 it costs to run the existing metal halide lights will be reduced to \$30 if replaced by an LED equivalent. Maintenance costs will be significantly reduced as the proposed LED fittings have a three year replacement warranty excluding labour and have a life span of approximately 35,000 hours.  2. Security: A November 2020 audit of security at the DALC, as well as two concurrent break-ins, theft and damage to the centre, highlighted major gaps in the current security measures. The audit found that the facility has insufficient, incompatible and outdated security systems, with major sections of the facility (such as the club room and outdoor spaces) lacking even the most rudimentary alarms or monitoring.  An integrated, comprehensive and custom-installed security system would protect property and infrastructure, alleviate the risk associated with unauthorised trespassers drowning or injuring themselves, allow improved access for Council staff and reduce the cost of ongoing maintenance and replacement of keys and locks.  3. External Smart Digital Signage Digital signage would boost visitors to the facility, allow promotion of upcoming events and carnivals and allow customers to see whether the facility is open for business. State	Council/Eligible Funding Recipient	Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commenced (01/07/2020)	Date construction completed (30/06/2024)	Total Project Cost	LRCI Program Funding Required (LRCI Funding Actual Expenditure)
NSW	Gilgandra Shire Council	1	Road	Undertaking erosion restoration works, including batter and bed scour protection which will improve stability of the area. This project supports stabilisation of Biddon Creek banks, contributing to natural resource management outcomes. Public safety outcomes will also be achieved through stabilisation of the eroded area, which is encroaching on the power lines located in close proximity to Biddon Creek. The project is in addition to Council's existing work schedule for 2020/21. The proposed expenditure items under the LRCI funding include labour costs and material to complete the works, which are all eligible expenditure items.	Biddon Creek at Biddon is a location where heavy rainfall and flood events cause significant damage to the creek channel. Stabilisation of the area will reduce the potential for recurrent erosion issues to occur. A number of power lines in close proximity to the creek are also at risk of falling over, creating a safety concern.	Jan-21	Jun-22	\$ 150,717	\$ 150,717
NSW	Gilgandra Shire Council	1	Road	The project involves construction of a concrete causeway over the existing culvert on Dooroombah Road which will support improved road safety outcomes. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users on an existing unsealed road. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Dooroombah Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. The existing culvert is continually being washed away, preventing access for road users. Construction of concrete causeway over the culvert will improve stability of the area, along with improving accessibility, conditions and overall safety for road users.	Apr-21	Jun-22	\$ 90,000	\$ 90,000
NSW	Gilgandra Shire Council	1	Road	The project involves extending the sealed section to the floodway over Gundy's Creek crossing. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users during times of wet weather. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Tooraweenah-Mendooran Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. Extension of the sealed section to the floodway will prevent longitudinal erosion of the road which is currently occurring in the location and improve stability of the area. Accessibility and overall road condition in the area will also be improved for road users, contributing to overall safety outcomes.	Apr-21	Jun-21	\$ 60,000	\$ 60,000
NSW	Gilgandra Shire Council	1	Road	The project involves construction of a retaining wall at the existing culvert located on the overflow channel at Paddys Creek. This project supports improved road safety outcomes through enhanced stability of the area and road edges. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing culvert area is regularly washed out during periods of heavy rainfall, impacting the stability of the area, and the ability for landholders to move farm machinery across it. Construction of the retaining wall will improve drainage and stability of the area, along with improving usability and safety for road users.	Feb-21	Jun-21	\$ 25,000	\$ 25,000
NSW	Gilgandra Shire Council	1	Road	The project involves construction of an approach slab to Milpulling Creek to improve stability of the area. The project supports improved road safety outcomes through enhanced access and improved conditions for road users. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing causeway over the culvert is being eroded, impacting on the stability of the area and creating a traffic hazard. Construction of the approach slab will improve stability of the area, along with improving accessibility, conditions and overall safety for road users.	Mar-21	Sep-21	\$ 30,000	\$ 30,000
NSW	Gilgandra Shire Council	1	Community	The project will deliver Stage 2 upgrades to the Armatree War Memorial Precinct within the Armatree Village. The proposed upgrades include soft landscaping, signage board and lighting at the Big Armatree sculpture, along with pathways linking the key elements within the Precinct. The proposed works are in addition to 2020/21 work plans. Expenditure items under the LRCI funding include labour costs, materials to construct the walkway, establish landscaping, installation of lighting and interpretive signage board which are all eligible expenditure items.	Armatree is a small village located approximately 5km off the Castlereagh Highway, north of Gilgandra. Stage 1 of the upgrades to the War Memorial precinct are nearing completion, which includes development of History Boards and the Big Armatree Sculpture in close proximity to the existing War Memorial. LRCI funding will be used to deliver Stage 2 which addresses the lack of wayfinding signage and connectivity between the precinct elements, ultimately creating a circuit for visitors to engage with and learn about the village and district's history. Community safety and sense of place will also be enhanced through improved lighting and soft landscaping features.	Apr-21	Jun-22	\$ 72,727	\$ 72,727
NSW	Gilgandra Shire Council	1	Community	The project involves the following elements: <ul style="list-style-type: none"> <li>* redevelopment of the CHC car park area</li> <li>* relocation of the old visitor information building and existing BBQ shelter to the recreation area out the back of the CHC and fronting the Castlereagh River</li> <li>* establish driveable access linking the CHC to the nearby Rural Museum</li> <li>* installation of irrigation system and soft landscaping.</li> </ul> The proposed works will improve connectivity and accessibility between the CHC and Rural Museum, linking these two culturally significant spaces and encouraging community interaction and enjoyment of the facilities. The upgraded car parking spaces will be located on the northern side of the CHC, where visitors will be able to clearly observe and experience some of the main upgrade features such as the outdoor deck and Aboriginal garden. The proposed LRCI activities are in addition to Council's 2020/21 work plan and will enhance the overall CHC upgrades. The CHC upgrade project will result in improved functionality of the building and exhibition opportunities, incorporation of our Aboriginal Heritage, and improved accessibility and appreciation of the natural surroundings and view of the Castlereagh River. The proposed expenditure items are all eligible under the LRCI funding including: <ul style="list-style-type: none"> <li>* labour costs</li> <li>* material to construct the car parking spaces, establish driveable access, landscaping and irrigation systems.</li> </ul>	The proposed project will address the inadequate available parking at the CHC and establish linkages between the CHC and Rural Museum as key elements of Gilgandra's Cultural precinct. The existing carpark space will be enhanced considerably, creating designated caravan parking spaces on the western side of the CHC along with car parking spaces on the northern side of the carpark. The CHC and Rural Museum are currently not directly linked, meaning visitors and locals alike are not invited or encouraged to explore past their immediate stopping point. Establishing driveable access and landscaping connecting the two spaces will enhance the general aesthetics and linkages between these two culturally significant facilities. Freedom camping opportunities are currently being explored for Cooee Oval, located between the CHC and Rural Museum, which will enhance the overall opportunities for the Precinct. NSW	Gwydir Shire Council	1	Combination	Batterham Lookout Bingara makeover	The lookout road is not compliant with current Australian Standards and safety requirements. This project will ensure that the area is brought up to Standards. Further there is little signage to direct and inform visitors and residents. The existing furnishings are dated and hard to maintain and clean. The existing pathway to the bird watching platform is uneven and weather worn. The upgrade will improve safety and usability. These will be replaced which will make the whole area more aesthetically pleasing, safe and easier to maintain.	Oct-20	Dec-22	\$ 240,242	\$ 240,000
NSW	Gwydir Shire Council	1	Community	Warialda and Bingara CBD improvements	Gwydir Shire is a popular regional tourist destination for day trips and weekend stays. This project improves the amenity of the towns. Further Gwydir Shire has a high percentage of senior residents and young families, Council will increase the number of shaded resting places for their enjoyment and use. This is particularly beneficial given our extreme summers.	Apr-21	Jun-22	\$ 132,365	\$ 132,365

NSW	Gwydir Shire Council	1	Community	Warialda and Bingara Dog Exercise Area fencing and park furniture	The off leash areas currently are not fenced and have no other infrastructure. Without fencing there is a danger that dogs will run onto the roads surrounding the park areas. The fencing will increase patronage and permit appropriate unleashing of dogs for exercise. The access to bags and bins will encourage users to keep the area tidy and dispose of dropping appropriately. The exercise obstacles will offer alternative activities for the dogs and their owners. The plantings will increase the visual amenity of the area making it a pleasant place to take dogs for exercise. In the warmer months access to water is essential for dogs after exercising. Seating and will allow owners to sit, rest and socialize with other community members.	Feb-21	Jun-22	\$ 120,600	\$ 106,000
NSW	Gwydir Shire Council	1	Community	Renovate Warialda Medical Centre	The project will see the internal layout of the Centre altered so as to allow for a more COVID19 safe environment for patients, staff and visitors. The project will also create a designated ambulance entry/exit which will make the facility compliant and preserve the dignity of patients who currently have to wheeled from the premises through the main reception area. The renovation will increase the functionality of the centre particularly for the doctors and a new and modern centre will attract more allied health service providers to the town.
