NSW	Lachlan Shire Council	3	Community	Companion Animal Surrender Cages at Lake Cargelligo	Surrender cages for stray animals. - Community facilities other. The project involves the establishment of cages which members of the public can access to surrender animals. The Lachlan Shire Council Local Government Area covers an area of 14,965 square kilometres. The main administration office is located in Condobolin and the village of Lake Cargelligo is located approximately 94km from Condobolin. Council's regulations officer (ranger) works primarily from the main administration office in Condobolin. Council proposes to construct Companion Animal Surrender Cages at Lake Cargelligo to ensure that animals that are surrendered or found by members of the public are housed appropriately until such time that Council's regulations officer can attend to the animals and return them to Council's main animal shelter located in Condobolin. The cages will be Council owned and located on Council owned land and will be accessible to the general public. The project will provide a suitable location for animals to be surrendered and the facility will be appropriately designed to ensure that the animals that are surrendered are housed under appropriate conditions that ensure their health and welfare, providing a benefit to the community by ensuring that animals are not at large within the community and are housed appropriately until Council's regulations officer can attend to them. NSW	Lake Macquarie City Council	2	Road	The Weir, Barnsley – replacement bridge Weir Road, Barnsley. Bridge works	The existing Weir Road crossing over Cackle Creek is a single lane, two-way concrete causeway constructed in the 1920's. Barnsley Weir is closed to all traffic and freight vehicles during moderate rainfall events. The alternative route of 13.5km includes a number of signalised intersections and adds considerable travel time and costs to residents and businesses. The proposal is to construct a new bridge to address safety issues regarding the approach on both sides of the creek to the bridge. This plan will provide increased safety and ability for residents to use Weir Road to travel between local centres. The project will improve freight routes in the west of Lake Macquarie, supporting local jobs and underpinning economic growth. It will also enable all in the community to reach their destination safer and sooner.	Aug-21	Jun-22	\$ 8,414,739	\$ 2,730,744

NSW	Lord Howe Island Board	3	Combination	Depot pavement renewal	<p>Lord Howe Island is a remote island in the south Pacific with the local Authority being the Lord Howe Island Board (LHIB) and a community population of around 400 people. LHIB manages numerous Civil Infrastructure Services streams from its operational depot and well as providing community mechanics services from the same space.</p> <p>LHIB depot pavement area is in immediate need of renewal and requires hard stand and resealing to make safe for depot operations – enabling various service delivery streams to operate from this facility such as civil infrastructure reconstructions, maintenance works and vehicle maintenance services. Large failures in the pavement area have expanded over time causing the area to become difficult to manoeuvre machinery such as forklifts in a safe and efficient manner as well as other mobile plant such as cranes, excavators and general light vehicles – all used to delivery works for the local community. The depot is used to house numerous materials and equipment to enable delivery and construction of community assets such as facilities, roads and walkways across the island. It is also used to store both public and private and community building materials that would otherwise be exposed to harsh marine conditions. Other works undertaken at the depot include providing community services such as car registration checks and community vehicle maintenance works - LHIB is the only vehicle registration mechanic operating on the island servicing the populations' vehicle and machinery maintenance needs. If the depots pavement area is not treated soon it may pose safety risks to the local community users. The depot is a multi-purpose facility that without it operating effectively a reduction in infrastructure delivery and maintenance service delivery across the island could occur rapidly.</p> <p>The project proposed consists of designing a treatment option for the existing depot pavement area to increase hardstand area as well resealing its existing aged flexible pavement. An adjoining section of road and community carpark is also planned to be resealed as part of the works.</p>	Jul-22	Jun-23	\$ 250,000	\$ 102,858

NSW	Moree Plains Shire Council	3	Community	Bank Art Museum Moree (BAMM) 25 Frome Street, Moree, NSW – Improve access and upgrade climate control.	Improvement to Community facility BAMM is located in a century old building with non-compliant access representing a barrier to the less mobile in our community. The climate control in the Museum does not meet modern standards to protect art. The sub-standard climate management also inhibits access to touring art collections. Moree community has less equitable access to collections available to larger centres with appropriate climate control. Improve access and equity for community members and visitors with mobility restrictions. Upgrade climate control in the building to maintain the condition of the existing collection and enable visiting collections that require a higher standard of climate control. NSW	Narrabri Shire Council	1	Road	The proposed works to be conducted are to fully reconstruct the pavement in the three main CBD blocks.	The current road surface in in very poor condition and in its current condition, is not meeting traffic demand. The sub-standard condition has resulted in increased maintenance, which has a flow on effect of increased cost to Council. In addition, the poor road surface provides rough and uneven driving conditions for road users. This impacts on CBD aesthetics and results in decreased willingness to access the CBD which can be assumed impacts on business economics for CBD businesses. NSW	Orange City Council	1	Road	Extension of Southern Feeder Road in Orange NSW from Anson Street to Pinnacle Road. The construction of the Civil Works component of a 2km section of the Orange Southern Feeder road between Anson Street and Pinnacle Road. The completion of this section will compliment works already completed on stages 1 and 2 of the overall Southern Feeder road route. Some grant funding has been allocated from Restart NSW however civil construction works have been on-hold pending the sourcing of additional co contributions.	The Southern Feeder Road Stage 4 (Anson St to Pinnacle Rd) serves as a southern city bypass route that links the Northern Distributor Road and forms a ring road around the City of Orange. The road serves a newly created suburb called Shiralee but its main benefit is in reducing the time travelled going through Orange.	Jun-22	Feb-23	\$ 14,530,696	\$ 720,809
NSW	Orange City Council	2	Road	Southern Feeder Road Stage 4 - Roundabout	Construction of the SFR4/Shiralee Rd Roundabout to trafficable chip sealed surface as component of the SFR4a between Anson St and Shiralee Rd. NSW	Orange City Council	3	Road	Southern Feeder Road (Stage 4 – Anson St to Pinnacle Rd)	The Southern Feeder Road (Stage 4 - Anson St to Pinnacle Rd) is the next stage in a six stage process to develop Orange's Southern Economic Development Corridor, a strategic east-west link to, from and around the city. The Corridor is vital to Orange City's future economic growth and regional strength. The Southern Feeder Road (Stage 4), will increase freight and traffic efficiencies. Safety, connectivity and productivity for the city and region more broadly will be improved. The road will take traffic off indirect and inefficient routes through residential streets or the heavily congested Mitchell Highway/main street. It will improve access and connection to key employment precincts and the city's newest 1800-lot residential suburb.	Apr-22	Jun-23	\$ 14,530,696	\$ 1,241,618
NSW	Orange City Council	3	Community	Youth multipurpose sporting area	10 sports in 1 to be constructed in Moulder Park using an old netball surface. A Rage Cage is an all ages, all-in-one permanent outdoor sport and recreational complex that is designed to incorporate over ten of the most popular Australian and International sports. It will be installed in the youth precinct adjacent to the skate park, Learn to push bile ride course, velodrome and swing / play equipment.	Apr-22	Dec-22	\$ 88,000	\$ 88,000
NSW	Orange City Council	3	Community	Community cycleway / Footpath extension at Glenroi Oval	Community cycleway / Footpath extension north to connect to existing infrastructure at Glenroi Oval. Council is installing a new footpath to connect up to the existing path network in Glenroi oval to provide access through the precinct to the nearby shopping precinct. The RFQ for works is attached and works are illustrated below. Solar lighting will also be installed along the path to complement existing lighting in the park.	Apr-22	Dec-22	\$ 56,000	\$ 56,000
NSW	Orange City Council	3	Community	Glenroi Oval playground -	Council is creating a district level playground within Glenroi Oval. In line with a district level playground, the equipment has been selected to provide a variety of play options across a wide range of age groups. This places the Glenroi Oval playground at the same level as the popular facilities at Elephant Park and Gosling Creek Reserve. The materials used in the design are generally more robust than standard play equipment so we certainly hope that the playground will be able to withstand a lot of the vandalism that occurs in our parks from time to time. We have included rubber softfall in higher wear areas (e.g. under swings and slide exits) to reduce maintenance requirements. Total investment for supply and install is \$170K. Council is contributing \$120k to the project.	Apr-22	Mar-23	\$ 56,000	\$ 56,000
NSW	Parkes Shire Council	1	Community	Woodward Oval Parkes - tennis courts upgrade	All courts now require resurfacing, 6 of them urgently (according to advice from Tennis NSW). Project will provide a safe and fit-for-purpose facility for the local community and visiting players during regional tournaments, sporting and school events, social tennis and local competitions - supporting more than 1000 players. The courts are now too dangerous to use and some have needed to be closed.	Feb-21	Jun-21	\$ 245,000	\$ 175,000
NSW	Parkes Shire Council	1	Community	Spicer Oval Parkes - new lighting	Spicer Oval is currently without any lighting and is unable to host any training at site for rugby in winter or cricket in summer. These sports are now sharing Northparkes Oval with Little Athletics and AFL.	Oct-20	Jun-22	\$ 526,000	\$ 400,000
NSW	Parkes Shire Council	1	Road	Parkes East School - pedestrian safety upgrades	Currently parents are either stopping in the middle of a busy regional road link to drop off and pick up students or causing near misses to park their cars at the edge of the school which is without a proper parking area.	Jan-21	Apr-21	\$ 200,000	\$ 200,000
NSW	Parkes Shire Council	1	Community	Newell Highway and Rawson Street Parkes - road and footpath repairs	To address flooding concerns with new drainage pit, extend footpath network for accessibility for all community members and pram ramps to assist with crossing the road safely.	Apr-21	Nov-21	\$ 66,000	\$ 66,000
NSW	Parkes Shire Council	1	Community	Peak Hill main street (Caswell Street) - CCTV installation	The CCTV cameras are being installed to address issues of vandalism and anti-social behaviour which has become an increased concern in the CBD of Peak Hill. The cameras will provide increased security for community members and businesses alike.	Feb-21	Jun-21	\$ 20,000	\$ 20,000
NSW	Parkes Shire Council	1	Community	Parkes Shire Council - Coventry Room - cultural space refurbishment	Ongoing need for a dedicated community art space for workshops and the exhibiting of local and travelling exhibitions. At present there is no suitable purpose-built facility in the Parkes Shire that can adequately provide for exhibitions of local artists' work, professional or touring exhibitions, cultural performances, Aboriginal arts and cultural practice or exhibitions, cinema or venue for screenings, programs of community workshops, cultural hub for young people.	Oct-21	Jun-22	\$ 100,000	\$ 100,000
NSW	Parkes Shire Council	1	Community	Parkes Shire Library and Cultural Centre - Wiradjuri Keeping Place	The Parkes Library and Cultural Centre will provide a welcoming and inclusive cultural hub where Indigenous and non-Indigenous groups and individuals can meet and where Wiradjuri cultural expression is visible and celebrated. This project involves curation of a public display of local Aboriginal artefacts, development of digital and print educational materials to detail local Wiradjuri history.	May-21	Jun-22	\$ 85,000	\$ 85,000
NSW	Parkes Shire Council	1	Community	Parkes CBD smart pole banners	The traditional banner systems which Council has installed on existing lighting poles in other sections of the street, requires the procurement of a suitably qualified contractor to undertake the changing of the banners each time a new event or campaign is in market. This includes time and cost in the development of traffic management plans, safe work method statements, machinery hire and staff time in terms of procurement and supervision. Because of these time and cost factors (up to \$10,000 annually), along with disruption to commerce on the main street during changeover, Council can only change these promotional banners twice a year.	Nov-20	Jun-21	\$ 30,000	\$ 30,000
NSW	Parkes Shire Council	1	Community	Alectown Cemetery - fencing, memorial wall and seating	There is no current 'fit for purpose' space in which cremated remains can be interned. Meaning that people who choose cremation over burial are unable to be interned within their own community but rather at either the Peak Hill cemetery (to the north) or the Parkes cemetery to the south. The erection of a fence and Memorial Wall will alleviate both issues	Sep-20	Mar-21	\$ 30,000	\$ 30,000
NSW	Parkes Shire Council	1	Community	Henry Parkes Centre repairs	There are a number of areas within the Motor Museum where a gap exists between the wall and the roof. As a result unwanted debris (eg dust and leaf litter) blows into the facility, settling on the vehicles on display and onto the floor. Additionally, there is no a/c in the Motor Museum which, given the extremes of temperature experienced at its location, does nothing to enhance the visitor experience.	Apr-21	Nov-21	\$ 50,000	\$ 50,000
NSW	Parkes Shire Council	1	Community	Rose Street and Coleman Street Parkes - footpath	The new shared pathway will mitigate stormwater damage caused to current walking area which makes it uneven and dangerous. The new pathway will also connect this area to existing pathways to the CBD.	Apr-21	Jun-21	\$ 35,000	\$ 35,000

NSW	Parkes Shire Council	1	Community	Woodward Oval tennis courts - stormwater drainage improvements	Currently storm water is unable to leave the court area quickly in rain events, causing it to run back over the courts causing damage to the surface and subsurface. The most severely affected courts are being resurfaced, so this work is a priority to protect the new asset of resurfaced courts.	Jan-21	Mar-21	\$ 66,613	\$ 66,613
NSW	Parkes Shire Council	1	Community	Cooke Park - Improvements	Cooke Park is Parkes' premium event Park. One of the challenges that we face during events is if there has been rain the Park can be very wet and we have had to bring in bark chip in the past to allow events to go ahead. Improving the storm water drainage across the park will help alleviate the problem. Additionally the irrigation system in the park is nearly 20 years old, the aging infrastructure is prone to leaks and breakages and is not as water efficient as it could be. Additionally Council is constructing a new Multipurpose stage facility in the Park which will create the opportunity for water to be captured off the roof and reused in the Park. It is timely that Council upgrades the irrigation system to minimise water usage in the park and allow for the preparation of events in the Park (including the Parkes Elvis Festival) but also help with the recovery of the park after events.	Sep-20	Feb-21	\$ 80,000	\$ 80,000

NSW	Singleton Council	2	Community	Civic Administration Building Roof Replacement	Replacement of the roof sheeting, gutters and downpipes on Council administration building, along with investigation of the structural capacity of the existing roof structure to support the future installation of solar panels. The Civic Administration Building was built in 1983. The original roof structure is still in place and has deteriorated due to its age. Recently there have been significant and continual incidents of water ingress during storm events resulting in damage to the ceiling and disruption to Council staff. In addition, Council wishes to pursue renewable energy options to reduce Councils carbon footprint and improve future sustainability. The installation of solar panels onto the administration building roof is currently being investigated.	Aug-21	Nov-21	\$ 472,577	\$ 467,434
NSW	Singleton Council	2	Community	Baileys Union Park Beautification Project	The beautification of Baileys Union Park is an extension to Stage 2 of the Town Centre Development which is currently being undertaken. It includes the provision of picnic tables and shelters, a drinking fountain, paved walkways, gardens and other landscaping works. The proposed upgrades will address connectivity issues within the area and encourage additional patronage to the town centre. NSW	Singleton Council	2	Community	Townhead Park Amenities Replacement	Council adopted the Townhead Park Masterplan in October 2018, which provides a vision for the long-term development and management of the Park. As a response to community feedback during the exhibition of the Masterplan, it was proposed that the existing public toilets in Townhead Park would be replaced with new toilets. The project entails the demolition of the existing public toilet block located in Townhead park and the construction of new accessible facilities. The existing toilets do not meet current accessibility guidelines, are dated and are not in keeping with the surrounding structures and the high profile nature of the site, being the gateway to the town and a rest stop for visitors	Dec-21	Jun-22	\$ 296,895	\$ 295,957
NSW	Singleton Council	3	Community	OOSH Building Roof Replacement (Withdrawn from LRCI Phase 2)	The roof sheeting on the OOSH building is to be replaced and improvements be made to the roof structure to prevent ongoing issues.  Council's Out of School Hours (OOSH) Building is currently utilised by Hunter Prelude and Singleton Council's OOSH services. The building was constructed in 1984 and is now 36 years old. The original roof structure is still in place and has deteriorated due to its age. In addition, the roof was originally constructed with a low pitch and building extension works have been undertaken, both have impacted on the capacity of the roof to effectively discharge stormwater. As a result, there have been significant and continual incidents of water ingress during storm events resulting in damage to the ceiling, flooring and walls and disruption to staff. NSW	Singleton Council	3	Community	Sports Fields Floodlighting Improvements	This project entails the upgrade of floodlighting at Howe Park and Cook Park #4.  Howe Park is the premier cricket and football facility in Singleton. LED lighting upgrades will provide 300 lux across the field to support the implementation of night cricket within the Singleton LGA. Smart lighting will enable the lights to be dimmed to 100 lux to provide appropriate and sustainable lighting for football.  The sportsground floodlights at Cook Park #4 (AFL) were significantly damaged in the floods of March 2021 and require replacement. LED lighting to 100 lux will be provided across the field.  This project has been partially funded through Resources for Regions.	Apr-22	Aug-22	\$ 741,226	\$ 150,000
NSW	Singleton Council	3	Community	Singleton Rugby League – Clubhouse Development – New Amenities and Function Area	Improving the clubhouse facilities are desirable to support both the functional requirements of the game as well as enhancing the player, member, supporter, and sponsor experience. The key outcome of the development extension is not only social but economic. The social benefits are derived from the improved involvement of women in the sport of Rugby League in Singleton, the Clubhouse amenities extension development will be ready to welcome growth in not only the club but the surrounding community.  The development for the ground floor facilities will introduce an additional female change facility as well as a female officials' room. Developing female change rooms will continue the encouragement of more women in Rugby League. The upgrade will not only allow for female ground-level change room facilities but also for an upstairs function/meeting room, which will consist of a fully functional and sustainable meeting/function room.  The development will pioneer the way for additional female involvement and increased registration in the sport of Rugby League and the overall clubhouse upgrade will incorporate many other requirements and desirability's for the club in the long term.  This project has been partially funded through Resources for Regions.	Oct-22	Jun-23	\$ 1,600,000	\$ 255,000

NSW	Singleton Council	3	Community	Singleton Track and Field Club New Amenities & Storage Building	In collaboration with the Singleton Track and Field Club, Council is relocating the club to Cook Park, requiring the construction of an inclusive and fully accessible amenities and equipment storage facility. The new building will provide a safe and inclusive space for the community to connect, improving liveability and recreational opportunities in Singleton.  The standard and quality of the new infrastructure will expand the capacity of the club to offer training, inter-club carnivals, zone competitions and specialised clinics. Many of the additional activities would attract sports visitors to Singleton & provide a potential boost to local retailers.  This project has been partially funded through Stronger Country Community Fund.	Jun-22	Dec-22	\$ 1,107,036	\$ 333,492

NSW	Strathfield Municipal Council	2	Community	Fragrant Garden Strathfield District Park Mitchell Street, Strathfield	Community – Landscaping Improvements Community Infrastructure – other The Strathfield District Park is an area that was formerly a golf course and is being converted to meet the active and passive recreational needs of residents and visitors from surrounding areas. The Park is surrounded by medium and high density housing. To date, the community needs for active recreation are being met through walking and bicycle routes through the park, extensive parkland areas that allow for personal exercise and “workouts” and it is planned that in the future, there will be a number of hard courts constructed for mainly ball sports. The park also adjoins Council’s Golf Driving range that is constantly patronised.  In terms of areas for passive recreation such as family gatherings there are extensive lawn and BBQ areas, a feature lake and currently under construction with Federal funding support is an amenities facility that will allow for extended stays.  For children with disability and their carers Council is constructing a Maze and play area that will be available to all children, regardless of their abilities.  The missing component of this park is an area for singular, quiet passive recreation that would appeal to older residents or those needing to access a peaceful and stimulating area. The Fragrant Garden will provide this space and allow Strathfield District Park to respond to the health and wellbeing needs of all residents	Sep-21	Apr-22	\$ 801,335	\$ 801,335
NSW	Strathfield Municipal Council	3	Combination	Hudson Park Stage 2	The Hudson District Park was formerly a golf course with sections of the park both east and west of Centenary Drive, Strathfield. The eastern section is a land area of 14.1 hectares and is under recreational development at this time. The western section will provide an additional 2 hectares of recreational space that will be a Turpentine Forest setting. The intersecting roadway between the east and west precincts is a major transport link for Sydney and a very daunting situation for any one attempting to cross this roadway, even when they do use traffic light controls. For anyone wishing to move between the two precincts, this barrier creates a clear barrier. In the past, when this was a golf course, a tunnel under the roadway was constructed. It is 40m long, 2.1 m wide and 1.88 m wide. It is in a state of disrepair and is not fit for general public use (uninviting, dark and major drainage issues) and is not accessible for all users. Council is attaching photos of the current tunnel and condition of same. Using this funding, Council will: 1:Improve drainage 2: Improve interior conditions including improved lighting and installation of CCTV 3: Improve access and make inclusive 4:Improve floor surface	Mar-22	May-23	\$ 5,121,216	\$ 371,216

NSW	Tweed Shire Council	3	Community	Anchorage Island Retaining Wall and Boardwalks	Public access to various areas of the Anchorage Island Harbour is via walkways located immediately adjacent to the existing boulder retaining wall on an approximately 2.0m wide strip of community land behind private properties. This wall, approximately 600m in length, is in a very poor condition which has resulted in the deterioration of the public access way. This deterioration has reached such an extent that Council has been forced to close a considerable portion of the access due to safety concerns. Further, the timber boardwalks and access structures located over the harbour are in poor condition and requiring of considerable works to bring them into a reasonable state of repair.  It is intended that this project will serve to replace the existing boulder retaining wall with a rubble revetment which will allow for the stabilisation of the footpath and reinstatement of public access as well as the renewal of the existing timber structures which serve to provide the general public with access around the harbour and local areas. NSW	Wingecarribee Shire Council	1	Community	The Mittagong SES Volunteer Centre building repair and refurbishment project is to replace roofing, address structural issues, improve storm water drainage and construct a retaining wall to restore the centre.  NSW SES members work closely with residents to build stronger, more resilient communities to reduce the impact from natural disasters. The volunteers in the Wingecarribee SES have for several years regularly conducted community resilience programs. These public programs have included local initiatives such as the award winning "Get Ready Girls" program that builds confidence in local women and their resilience skills along with the "SES Youth Forum" a program informing youth on safety measures in times of emergencies.  The local SES have in the past have made their training room available to Council, Police and other emergency services for bookings as well as local community organisations. It is also an alternate Emergency Operations Centre available for use by the by the Local Emergency Management Committee.  The community service provided by the Mittagong SES Volunteers cannot be understated. They have responded to an average of 473 requests for assistance per year over the past 4 years related to floods and storms. The Wingecarribee Shire residents rely on the SES volunteers for emergency response.  Due to water intrusion and mould issues as well as structural defects, the volunteer centre cannot be safely occupied and the community programs and volunteer training cannot be held. By restoring the centre for safe use, these programs will be able to continue.	Due to stormwater and drainage issues for the building and site, water ingress has resulted in mould contamination to several rooms within the centre. At present, the offices cannot be safely occupied. Further, a structural issue with the converted garage walls has been identified by a structural engineer and requires rectification before the area can be safely reoccupied. NSW	Wingecarribee Shire Council	1	Community	Church Road Oval Amenities Building, The Church Road Oval is Council's most utilized soccer field in the district and is used by the 1,600 registered participants to the Highlands Soccer Association.  The Church Road Oval Amenities Building Refurbishment project is designed in 2 stages. Stage 1 is currently funded and programmed for delivery in 2020/21 in Council's capital works program. The works commenced in August 2020. Stage 2 is fully designed and shovel ready, but remains unfunded. Stage 2 works include construction of the second story clubhouse, access ramp, provision of awning and conversion of existing public toilets to storage.  Should this funding application be successful, it would enable Council to construct the second stage of the amenities building immediately.	Currently there is no indoor training facility on site to facilitate rainy-day training and strategy sessions. The construction of the second story clubhouse will provide an indoor venue for rainy day training. Further, the planned improvements include an access ramp to the first floor, kitchenette and awning. This will provide access to people with disabilities and carers pushing prams. NSW	Wingecarribee Shire Council	1	Community	Eridge Park Netball Courts	The courts are at the end of useful life and are in poor condition with significant cracking present. One court has been closed due to safety concerns, which has reduced Netball's playing courts and is impacting their members. Netball is the leading women's sport in the Southern Highlands comprising of over 420 females in the reduced 2020 competition. To continue another season on minimal court availability could see a downturn in membership and reduces the ability of Southern Highlands Netball Association (SHNA) to hold mini-carnivals that can bring players and monies to the local district. SHNA have part funding to complete the required court renewal through a mixture of grant funding and fundraising by the Association. They have appealed to Council to help fund the shortfall to successfully complete the court renewal immediately.	Dec-20	Feb-21	\$ 451,000	\$ 80,000

QLD	City of Gold Coast	3	Combination	Tallebudgera Creek Boardwalk Renewal and Upgrade	Renewal and upgrade of boardwalk The project will renew and upgrade the boardwalk on the southern bank of Tallebudgera Creek which forms a connection between the Oceanway and the shared path that runs through the Tallebudgera Creek Park. Previous remediation works, involving replacement of the substructure, were undertaken 12 years ago to extend the life of the timber structure. In early 2021, temporary protection works were undertaken to protect part of the structure from scouring of the creek bank. Recent condition assessments have shown the structure is approaching the end of its useful life. The project will upgrade the boardwalk to a more suitable standard to improve its capacity and align with future works in the area, including the GC Light Rail off-corridor active transport projects. The replacement boardwalk will be widened from 2 to 4 metres and will include a viewing platform along part of the boardwalk to allow users to step to the side of the pathway to experience views of the creek, Burleigh Headland and the ocean. Permanent scour protection works will be installed at the location of the recent temporary works.	Feb-23	Jun-23	\$ 2,473,650	\$ 2,473,650

QLD	Croydon Shire Council	1	Community	Croydon Heritage Precinct - upgraded fencing	Croydon's renowned Heritage Precinct is a hot spot tourist attraction comprising of an original Court House, Town Hall, Police Residence and Police Station with Goal House. The buildings are maintained to preserve their historical accuracy and are complimented, at the eastern end, by a traditional white picket fence with working replica lamp posts and original sandstone kerbing. The rear area of the buildings, at the eastern end, are secured with high colourbond fencing which provides privacy for neighbouring residential buildings. Whilst the working replica lamp posts and original sandstone kerbing continues to the western end of the precinct the fence does not. The current western end fencing is dilapidated and does not compliment the existing eastern end fencing which supports the heritage look and feel of these beautiful old buildings, whilst ensuring privacy to the adjoining residences. The western end fence upgrade will promote tourism to the entire precinct whilst completing and preserving the history and heritage of the town of Croydon.	Oct-20	Jun-21	\$ 145,000	\$ 145,000
QLD	Croydon Shire Council	1	Road	Intersection of the Croydon to Richmond Road and Gulf Developmental Road 92B road works	Significance and is 390kms in length, of this, 216 kilometres is located in Croydon Shire. The road is part of the inland road network linking cattle properties to major freight routes on the Landsborough and Flinders Highway and the Gulf Developmental Road, essentially connecting the Gulf of Carpentaria to the Southern Downs Region. Council is committed to the upgrade and maintenance of the Richmond Road and has been proactive in upgrading the road to a seal standard. The intersection of the Richmond Road and the Gulf Developmental Road 92B comprises of a single width (single lane) grid and poses a serious safety hazard to all road users. The upgrade of the grid to a double width (two lanes) at the intersection will improve traffic flow and significantly alleviate road safety issues associated with the current single lane grid. QLD	Goondiwindi Regional Council	3	Community	Inglewood Rising Water Main Replacement Corner of Chilcott and Callandoon Streets, Inglewood	The project is to replace a non-serviceable existing potable water rising main which is one of a pair connecting the Inglewood WTP with the storage reservoirs, and the storage reservoirs with the reticulation system. The replacement potable water rising main will be 680 m in length, constructed from 250 mm HDPE and will be bored under Macintyre Brook.  The project will significantly reduce the major risk of water supply interruption due to failure of the single remaining main; as well as allowing GRC to pump to the reservoirs and release to reticulation simultaneously, addressing GRC's current limited ability to maintain supply under high demand conditions or to meet firefighting demand if required.	Mar-22	Aug-22	\$ 630,000	\$ 600,000
QLD	Goondiwindi Regional Council	3	Community	Texas Reservoir Mixer Installation Texas town reservoir, Stanthorpe-Texas Road, Texas	Installation of a WEARS reservoir mixing system and chlorine dosing system to the Texas town reservoir.  During low demand periods, the treated water reservoir experiences very low turnover which leads to the degradation of treated water quality and causes difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine immediately downstream of the WTP filtration stage and prior to treated water entering the town reservoir. Because of the need to ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by products during low turnover periods, and increased cost due to excessive chlorine consumption. QLD	Goondiwindi Regional Council	3	Community	Inglewood Reservoir Mixer Installation Inglewood town reservoirs	Installation of a WEARS reservoir mixing system and chlorine dosing system to the Inglewood town water reservoirs.  The combined storage capacity of Inglewood's two reservoirs is 2.45 ML and serves a population of approximately 850, with an average daily water demand of approximately 420 kL/day. During low demand periods, the treated water reservoirs can experience very low turnover, leading to a degradation of the stored treated water quality and causing difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine at the WTP, immediately downstream of the point where filtered surface water and bore water are blended. Because of the need to maintain chlorine residual in the potable water rising main and ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by-products during low turnover periods, and increased cost due to excessive chlorine consumption. QLD	Goondiwindi Regional Council	3	Community	Wild Dog Check Fence Replacement As per coordinates	This project is to replace sections of the wild dog check fence in key strategic locations within the Goondiwindi Region. Our local economy benefits from a diverse agricultural sector, and invasive animal pests have a wide variety of impacts on the economy, the environment and society. The Goondiwindi area has witnessed increasing agricultural losses because of vertebrate pests such as wild dogs. The Wild Dog Check Fence is strategic infrastructure which is pivotal in protecting our Landholders from the potential impacts of Wild Dogs. It gives them the confidence to still run small stock in our region, adding to the diversified nature of our agricultural sector. The ongoing maintenance costs associated with the check fence's deteriorating condition is increasing, along with the risk of wild dogs breaching the fence line. This will result in significant impact to local livestock producers.	Mar-22	Feb-23	\$ 381,106	\$ 381,106

QLD	Goondiwindi Regional Council	3	Community	Talwood Recreation Grounds Improvements Recreation St, Talwood	The Talwood Recreation Grounds is a hub for community activity for that area. It serves as a sporting oval, camping grounds for travellers and a playing space for children.  The last major works on the facility occurred in July 2018, with an installation of new playground equipment. Through community consultation, it has been identified that improvements to the facility are required for the community moving forward. Specific improvements include the installation of bollards at the playground, design and installation of signage and landscaping improvements in the recreational grounds area.  The key benefits of this project to the town incorporate town beautification and improved local aesthetics and subsequent enhanced tourism support.	Mar-22	Oct-22	\$ 40,000	\$ 25,000
QLD	Goondiwindi Regional Council	3	Community	Brennans Rd Bike Path (Wilga to Sandalwood) Brennans Rd, Goondiwindi	This project involves the construction of a reinforced concrete shared path in the Brennans Rd precinct of the Goondiwindi township to connect a missing link in the local path network.  Incidents involving pedestrians or cyclists with motor vehicles are a concern in all communities. Footpaths are a solution to reducing crash risk by providing space to separate vehicles, pedestrians and cyclists.  The major benefit of this project is the increased safety for pedestrians and cyclists, along as providing greater accessibility for residents to utilise the nearby Goondiwindi Botanic Gardens, which itself has walking trails within. The addition of the bike path will also encourage residents to consider walking and cycling, which has significant personal health benefits.	Jul-22	May-23	\$ 70,000	\$ 65,000

QLD	McKinlay Shire Council	3	Community	McIntyre Park Facility Enhancement	<p>McIntyre Park is a community facility which supports a range of community groups and events including thoroughbred racing, campdrafting, rodeo and horse sports. It is essentially the local Show grounds.</p> <p>The facility will undergo a number of upgrades including:</p> <p>Refurbishment of Amenities blocks – replacing of existing damaged floor tiles, re-painting of interior, replacement of toilets and tapware to meet standards and improving accessibility. For large events, crowds can often reach nearly 1000 people and the current state of the facility is not well equipped to handle these demands.</p> <p>Upgrade Arena Lighting – The current lighting used is dated and expensive to run and maintain. The lights will be upgraded to new energy efficient LED lights. The works will involve the removal of the original Halogen lighting to be replaced by new LED lights. Council has had discussions with a sporting lighting specialist to create lighting plans to ensure there is sufficient lighting in the arena to ensure safety for all users.</p> <p>Yard Improvement – enhance the stock yards to ensure easy handling of stock for volunteers and also ensure welfare of the stock..</p> <p>Phase 1, Project 9 (McIntyre Park): The works undertaken in Phase one were shade sails, the planned works in this phase do not involve any similar works.</p>	Sep-22	Jun-23	\$ 290,000	\$ 290,000
QLD	McKinlay Shire Council	3	Community	Peter Dawes Park Enhancement	<p>Peter Dawes Park will see a refurbishment of the toilets, by painting the facility and replacing dated fixtures, e.g. tap ware, toilets and cisterns.</p> <p>Remediate Drainage – fix a low spot which pools water following rain and inhibits access to facilities by users. This will include the removal of the current failed cement and installation of a new slab that will have the appropriate fall to ensure water runs off following rain events.</p> <p>Playground Softfall – replacing the dated softfall under the playground equipment at the Park which is starting to deteriorate to such a condition that a trip hazard is forming.</p>	Sep-22	Jun-23	\$ 105,968	\$ 105,968
QLD	McKinlay Shire Council	3	Community	Kev Bannah Oval Lighting	<p>Replacing the aged lighting system at Kev Bannah Oval (multi-use sporting facility) with more energy efficient lighting (LED Lights) which will enhance the night visibility.</p> <p>The works will involve the removal of the original Halogen lighting (which currently does not emit enough light due to their age) and replace with new LED lights. QLD	McKinlay Shire Council	3	Community	Mini Golf	<p>Design and construct of new mini-golf course adjacent to Caravan Park for community and tourist use.</p> <p>The main aim is to provide an activity for families of our community to enjoy and be active. Further we believe the facility will attract visiting families to the town which will enhance tourism and have many economic benefits to the entire community.</p> <p>We are an isolated community, and we endeavour to provide facilities to our families to lead an active lifestyle and also connect as a family. Due to the size of our population, it is not intended to be a profit-making facility and we expect potentially the operational costs will outweigh the revenue received. Though will have in-direct benefits to the liveability of the community and flow on benefits to the people it attracts.</p>	Sep-22	Jun-23	\$ 200,000	\$ 200,000

QLD	Pormpuraaw Aboriginal Shire Council	3	Community	Admin Store Compound (Marranthan St) – Stage 2	Concrete Seal of Heavy Vehicle Access for Road Transport Vehicles. All Community supplies are delivered to the Admin Store on a weekly basis by Road Transport and Unload and Distributed. The unload area is currently shell grit and dirt and in the rain often becomes quite boggy for the heavy vehicles. Concreting this area will ensure all weather access for heavy vehicles. Sealing this area will also minimise the dust that is lifted and spread into adjoining Community businesses such as: PUBSC, Kiosk & Contractors Camp.  The project will provide an all-weather access into the Admin Store Freight Shed, which is the loading and unloading point for Heavy Vehicles that bring the freight requirements for the community into Pormpuraaw. Our Admin Store unloads the freight and distributes the freight to community members.  Stage 1 – Admin Store Project consists of concrete driveway from Wirran Street to the Admin Store Freight Shed Heavy Vehicle Loading Area. This project also has an element of paving on Wirran St. This project is being funded under R2R funding for the amount of \$168,000.  Stage 2 – Admin Store Project consists of the second stage of the concrete driveway (385m2 approx) which will be from the Admin Store Freight Heavy Vehicle Loading Area through to Marranthan Street. This project is being requested to be approved under our LRCI Phase 3 for the amount of \$108,860. The bridge is currently in pool condition and is requiring replacement due to Pile and Pier One which has subsided 150mm on the LHS. The bank supporting the Pier has eroded and the concrete footing is not supported. The Pier is mainly supported by Pile Two and connection bolts in the Headstock. There is potential for Pier One to drop further which may damage the water main connected to the underside of the deck.</p>	Oct-21	Mar-22	\$ 437,001	\$ 406,134
QLD	Redland City Council	2	Community	ANITA STREET PEDESTRIAN BRIDGE REPLACEMENT, REDLAND BAY	<p>Improved Accessibility of Community Facilities and Areas</p> <p>The eastern end of Anita Street connects to North Street Redland Bay via a 41.5m long pedestrian bridge structure which crosses Moogurrapum Creek. The bridge provides the only access across Moogurrapum Creek north of Boundary Street and as such provides an important link connecting the areas on the western and eastern sides of Moogurrapum Creek for pedestrians and cyclists.</p> <p>In January 2021, this bridge had a failure in a supporting beam. However, based on preliminary assessment, full replacement of this bridge at this point will be the most cost effective option for this bridge long term due to the extent of deterioration of bearers which will likely require extensive repair and replacement.</p>	Oct-21	Mar-22	\$ 456,700	\$ 409,564

QLD	Tablelands Regional Council	1	Road	Bridge Works	Investigation of the bridge in August 2021, recommended a 13.5T load limit and a 5km/h speed limit be imposed (previously 40T load limit), owing to rotten/split timber girders, and termite activity where the girders fix to the abutments. This means empty trucks can still access the quarry at very low speed, but the loaded trucks are not able to legally cross the bridge to exit the site. The 13.5T load limit effectively prohibits quarry cartage operations.	Nov-21	Dec-21	\$ 120,000	\$ 59,736

Motorists enter Coromandel Place from Pirie Street, turn right onto French Street, right onto Chesser Street and exit out onto Pirie Street. The Grenfell Street end of both Coromandel Place and Chesser Street has bollards to prevent entering or exiting the precinct. These bollards are removable to allow for two-way vehicle movement under traffic control during special event road closures. This section operates under two-way conditions for motorists parking/unparking and those entering/exiting private property.</p> <p>All three streets have kerbs however the narrowness of these and bin placement forces pedestrians, etc. to use the road. On-street parking consists of 17 x Loading Zones as follows;</p> <ul style="list-style-type: none"> <li>Coromandel Place consists of two spaces between Pirie and French Streets and five between French and Grenfell Streets,</li> <li>There is one space on French Street, and</li> <li>Chesser Street consists of five spaces between Grenfell and French Streets and four spaces between French and Pirie Streets.</li> </ul> <p>The narrowness of the streets, particularly Chesser, forces motorists manoeuvring around a parked vehicle to mount the kerb which poses a significant risk to pedestrians exiting the properties on the east side between French and Pirie Streets. It is recommended that approval be sought from Department of Planning, Transport and Infrastructure for the introduction of a Shared Use zone.</p> <p>In principle support for the Shared Use zone has already been received. This support is based on ensuring that changes are made to all three streets to ensure that a motorist is aware of the differing environment. These changes are the removal of parking on Coromandel Place and Chesser Street between Pirie and French Streets and installation of planter boxes to create a chicane effect to assist in slowing of motorists.</p>	Nov-20	May-21	\$ 203,129	\$ 88,067

SA	City of Holdfast Bay	1	Community	Somerton and Glenelg Beaches Installation of three new sand groynes to reduce sand loss, increase beach width, improve access at high tide to enhance recreation and tourism, and protect dunes and seawall infrastructure. This works is recommended by the Coastal Protection Board (SA)	Sand lost as a result of littoral drift depletes our beaches of sand and increases risk of damage to coast, dune and seawall. Small groynes are beneficial to maintain sand on our beaches to retail beach height. This provides benefit to beach users, supports local tourism and also assists in protecting the coast from major damage during storm events	Feb-21	Mar-21	\$ 80,641	\$ 80,641
SA	City of Holdfast Bay	1	Combination	Harrow Road / Esplanade Somerton Park It is proposed to support the existing retaining wall by placing rock seawall in front of the retaining wall to match the adjoining seawall. This would then prevent the wall from failing. WE propose to extend the stormwater pipe to the edge of the new rock wall.	The retaining wall / stormwater headwall located between the beach and the Esplanade path and road has been identified as high risk of failure. This would result in loss of a section of the coast path and adjoining road, and potential safety issues for those on the coast path and on the beach.	Mar-21	Jun-21	\$ 263,003	\$ 263,003

SA	City of Port Adelaide Enfield	3	Community	Barker Inlet Tidal Gates Upgrade	Drainage/Other/Improved accessibility to community facilities: The Barker Inlet Wetland receives stormwater from the approximately 50% of the City of Port Adelaide Enfield Council area as well as water from City of Charles Sturt, City of Prospect and City of Salisbury Councils. The wetlands are a crucial piece of infrastructure which provides habitat for flora and fauna, walking paths, bike paths and also provides stormwater flood storage. The tidal gates form an integral part of the sea wall between the Barker Inlet Wetlands and North Arm Creek and allow stormwater out and limit the ingress of seawater. Currently the tidal gates are in extremely poor working condition and require significant upgrade works. Due to the inability to operate the tidal gates the wetlands are currently holding an additional 300mm of water. This has meant that the Northern Connector shared use path and the internal walking paths are often under water and unable to be used. With sea levels rising there is also significant concerns that rising water levels will also increase flooding in the commercial/industrial areas of Wingfield and Dry Creek. This project requires the replacement of the dilapidated tidal gates including automation and upgrade of the access ways to ensure the gates can be maintained and operated within work health and safety guidelines. This will ensure better stormwater management and protection of councils infrastructure including bike, pedestrian paths and significant vegetation.	Oct-22	Jun-23	\$ 2,116,000	\$ 2,100,000

SA	Coorong District Council	3	Road	Seven Mile Road Sealing	Road – Sealing. Seven Mile provides direct access to the settlement of Noonamena which is situated on the edge of the Coorong national park. Seven Mile Road has been identified as a regionally significant route in terms of Community access and tourism within the Murraylands and Riverland 2030 Regional Transport Plan Council has committed funds to reconstruct the unsealed pavement of Seven Mile Road to improve road condition and in order to deliver on the communities' expectation. Sealing the 4.0km stretch of unsealed road between the Princess Highway and the Noonamena Settlement is the next step.  [REDUCED SCOPE OF WORKS] The scope of works under Phase 3 is only sealing the 1.3km (instead of 4km) stretch of unsealed road, starting from 2.6km from the Princes Highway and ending at the Noonamena Settlement. This is stage 2 of the sealing (with stage 1 being nominated under Phase 1)	May-22	Dec-22	\$ 100,000	\$ 100,000
SA	Coorong District Council	3	Road	Poltalloch Road	Road – Reconstruction of Sealed Road. Poltalloch Road is classified as a class 3 route in accordance with Councils Road Management Hierarchy and has been identified as a route of regional significant within the Murraylands and Riverland LGA Roads Data Base because of the community access it provides. A 12km section of Poltalloch Road that runs between Princes Highway and the Poltalloch Station Homestead was not previously reconstructed by Council and over the past winter has deteriorated dramatically and is in a state that is not considered serviceable requiring intervention. This failing section closely follows the southern bank of Lake Alexandrina and crosses several low-lying swampy flats. This 12km section is exhibiting several modes of failure and will require a targeted approach by way of pavement treatment. Council has commenced geotechnical investigation that will inform the construction methodology that will include treatments such as, full pavement reconstruction, in situ lime/cement/foam bitumen stabilisation. SA	Corporation of The City of Unley	1	Community	Landscaping of an important walking and cycle corridor, following path widening to be undertaken by the State Government. The works involve vegetation clearance, soil improvements, irrigation and extensive planting of shrub, grasses and ground covers, as well as advanced trees. In addition to the corridor greening, improved way finding signage and upgrade LED path lighting will be installed.	The Mike Turtur is the most popular off-road cycle route for daily commuters into the CBD. Over time, the popularity has placed increased pressure on the path width and its capacity to accommodate increased cyclists and pedestrians. The State Government has chosen to increase the path width to improve the safety and efficiency of the route, between Musgrave Street, Goodwood and King William Road, Wayville. The Bikeway runs parallel to the existing tram corridor and adjoining side and rear fences of residential homes. To enable the construction of a wider path, extensive vegetation clearance is required. Much of the existing planting is old, self-seeded and overgrown, and inappropriate along the bikeway due to sightlines, CPTED, form or seed drop. The LRCI Program allows Council to invest in a new corridor landscaping to improve the safety, amenity and biodiversity for all users, and adjacent residents. A sustainable palette of predominantly native plants will be carefully chosen to ensure long term sightlines are maintained along the corridor, support the Council's long term tree canopy growth targets, and increase local biodiversity. Once established, the Council will take the longer term maintenance responsibility of the bikeway and corridor greening.	Feb-21	Jun-22	\$ 340,054	\$ 340,054

SA	District Council of Robe	3	Community	Town Beach - Lake Butler Marina, Robe	Bicycle and Walking Paths/ Improved Accessibility of Community Facilities and Areas/ Resealing: The Foreshore walks in Robe are very popular. At the town beach the existing old and dilapidated path does not reach the main street and public toilets, meaning people who need wheels, or a smooth walking surface can access these areas. A new section of path will be built where it is required (65m) and the old path will be resealed from the new section all the way from the foreshore to Marina entrance (412m) & Marina entrance to Arthur Fennell Way boardwalk (300m) and a (32m) new path from Arthur Fennell Way to boat ramp carpark. These works align with our Disability Access and Inclusion Plan 2020	Jun-22	Sep-22	\$ 73,000	\$ 73,000
SA	District Council of Robe	3	Community	Seafarers Crescent, Robe	Sealing/Bicycle and Walking Paths/ Improved Accessibility of Community Facilities and Areas/ Street lighting equipment: Sealing of the Drain L to Seafarers Crescent walking trail 1,114m long and installation new solar lighting for safety. This popular walking trail has historically been limestone road base and dirt and is responsible for an increasing number of injuries and issues, along with silt and soil erosions in the waterway. Providing a sealed connection from the large, long beach residential area, beaches and parks is a key action in the Disability Access and Inclusion Plan 2020. Currently people who are not fit and able bodied need to walk in the bicycle lanes of the Department of Transport's main road to access town. The lack of seal on the path means children, families pushing prams, children on small bikes and people who use disability aids can't enjoy a safe and scenic walk.	Jun-22	Sep-22	\$ 230,000	\$ 230,000
SA	District Council of Robe	3	Combination	Victoria Street, Robe	Traffic Improvement/ Improved Accessibility of Community Facilities and Areas: Council will establish additional parking off the main street in side streets of Robe through the realignment and line marking of existing parking and the use of one way sections. In the main street we will replace carparks with 2 loading zones (there aren't any currently) and an additional disabled carpark. Currently main street parking is at capacity and delivery vehicles double park and block the street. The use of the existing disabled parks indicates and additional one is required. This work will create 20 additional parks. These works align with our Disability Access and Inclusion Plan 2020	Feb-22	Mar-22	\$ 41,534	\$ 41,534
SA	District Council of Streaky Bay	1	Combination	Streaky Bay Signage upgrades	Current signage is inadequate, not to standard or non-existent in key locations. SA	District Council of Streaky Bay	1	Community	Redevelopment of the public Streaky Bay Boat Launch and Retrieval facility (Moore's Boat Ramp).	The current facility poses safety and access risks due to its age and is no longer considered fit for purpose. The ramps are dilapidated with holes making it difficult for some vessels and the current pontoons are not suitable for larger style vessels. The walkways are also considered unsafe and makes access difficult for elderly users. The Boat Ramp is a critical asset to our community for both our residents and our visitor, it provides a valuable asset to add to our liveability and economic return through both use by visitors and commercial fishing operations. SA	District Council of Streaky Bay	3	Community	Wirrulla Oval Playground Development	Playgrounds and Skate parks (including all ability playgrounds). The existing playground has become outdated and in need of replacement. The playground will be replaced with a new built to standard, modern, fit for purpose facility and equipment. The Playground is located at the Wirrulla Oval Sporting Precinct and is regularly utilised by the community and visitors. The Wirrulla Oval is the major recreational precinct for the district and the main play space location. The grounds supports netball, football, tennis, social gatherings and community events. The nearest play facility of this nature is located in Streaky Bay a 65km drive. The development will provide a space for members of this remote community to gather whilst also continuing to support its recreational and sporting activities.	Aug-22	Jun-23	\$ 70,000	\$ 35,000
SA	District Council of Streaky Bay	3	Community	Streaky Bay Youth Precinct Development	Playgrounds and Skate parks (including all ability playgrounds). The current skate park facility is dated, limited to a certain demographic of users and reaching its end of useful life and is in need of repairs. There are limited facilities at the site including no toilets. The scope of the works is to complete landscape the site, refurbished and expanded skate park, shelters, seating, bbq, greened areas, nature play space, pump track and toilets installed. Concept planning has been completed. The revised concept will provide a safe and inclusive community youth precinct where the youth of the district and our visitors can play, engage and connect with each other. SA	District Council of Streaky Bay	3	Community	Streaky Bay Township Entrance Statements	Landscaping Improvements. The township of Streaky Bay currently does not have in place any kind of welcoming or identity branding into the township. The project would involve design of a number of concepts, followed by community consultation to ensure the design meets the need of the community. The entrance statements to be located at each entrance to the township will include reference to local traditional custodians, whilst also providing the entire community with an entrance that provides them with a place of identity and welcoming. Entry statements can grow tourism, attract investment and even become a destination on their own right. Then entry signs will showcase the region, convey the vibrancy of the local culture and maintain a strong harmony with the surrounding environment. In total there will be two (2) entrance statements constructed. The entrance statements will be permanent fixed structures.	Aug-22	Jun-23	\$ 150,000	\$ 150,000
SA	District Council of Streaky Bay	3	Combination	Streaky Bay – Bay Road Streetscape Development	Landscaping Improvements. The Bay Road (reserve development) will aim to develop an undeveloped nature reserve that runs adjacent to Dodgson Drive and Bay Road (between Wallshutzky and Centenary Road) in Streaky Bay. The reserve is a 30m wide x 600m wide nature reserve with existing tree canopy and stormwater catchments. The proposed development is to activate the space with landscaping, seating, pathways, vegetation and stormwater management. The overall beautification of the site will provide safe passage for pedestrians, play space for local children, a connection between the southern entrance to the CBD of Streaky Bay. The reserve shall consider stormwater mitigation measures such as swales, rain gardens and physical infrastructure that will alleviate flooding that is sometimes prevalent in the area. SA	The Berri Barmera Council	1	Community	The revitalisation of Berri's Colin Jennings Apex Park (Apex Park) will incorporate improvements including an upgrade of the previous BMX track to a versatile pump track which can be used by bike riders, skateboarders and scooter riders of all abilities. Complimenting this will be an off-grid solar BBQ shelter and associated amenities so park users can spend extended time enjoying this space and the additional play equipment that will accompany it. Concrete connecting footpaths, that double as a junior scooter track meander through the native vegetation to connect the different zones of the park. Finalising the upgrades is new fencing for the current dog park, bringing the whole area together to deliver a unique and enjoyable public open space that provides positive health and wellbeing opportunities for the Berri and wider Riverland community.	The Berri township does not currently have a suitable community open space that provides adequate facilities for people to connect and enjoy together, while meeting the needs for families that are transport disadvantaged and unable to access other facilities within the district. Additionally, Berri has no free active public facilities for older age groups (pre-teens and teens) such as a skate park.  This project will provide a pump track (amongst other infrastructure) which caters for a variety of ages and wheeled users. This is a community facility that is not currently provided by any of the other Riverland Councils and will be a distinctive point of difference for the park.  The space currently has ad-hoc infrastructure including; a dog park, two small pieces of playground equipment, asphalt multi-use court and shaded gazebo. The existing layout lacks connectivity between the current facilities which reduces the appeal of the area. By teaming the pump track up with dedicated concrete connecting footpaths, that double as a junior scooter track, provides the safe connectivity required for the individual areas and is the perfect combination for families with children of varying ages.  To ensure that the new features of the park are fully maximised, complimentary facilities such as; a fully solar BBQ, solar lighting, seating and drinking fountain will be installed to enable visitors to extend their time and utilise all that the park has to offer leading to enhanced positive health and wellbeing for our residents and other users..  Given that much of the groundwork is already in place within the site, the additional enhancements will enable the Berri Barmera Council to provide a quality green space which offers a range of passive and active opportunities for our community which differ from the traditional playground layout. SA	The City of Burnside	2	Combination	Bike paths/Cycling infrastructure	The project identified is about joining up the bottom of the South Eastern Freeway cycle track with the top end of our Glen Osmond local cycle route which currently finishes at Boucaut Street adjacent to the former Colonial Inn. There is some footpath connection to the bottom of the Freeway cycle route but does not operate as a proper shared use path. The proposal is to excavate some land and establish retaining walls in order to create a wide enough space to construct a safe shared use path between Boucaut Street and the bottom of the Freeway route, obviating the need for cyclists to Cross the Freeway at the current crossing point	Nov-21	Sep-22	\$ 142,504	\$ 142,504
SA	The City of Burnside	3	Combination	Mount Barker Road Shared Cycling and Pedestrian Path	The Mount Barker Shared Use Path will provide a safe and viable link for Cyclists to ride between an established bicycle route currently terminating at Boucaut St Glen Osmond. The off street path will link from Boucaut St to Gill Tce. A separate but related project will link this path to the Crafers Bikeway. The first part of this project was funded through the LRCI Stage 2, therefore this funding allows the completion of this project in its entirety. LRCI 2 funding was used to fund a third of the overarching project. LRCI 3 funding will be used to complete the remainder of the project as a separate stage.	Aug-22	Nov-22	\$ 337,000	\$ 195,000

Since opening it has been very well received by residents. In the first stage of construction, some works were not able to be undertaken, including additional irrigated garden beds to meet community demand, columns to support shade cloth, storage bays for mulch and soil, bike racks and a pergola. These additional items will ensure the garden is able to be enjoyed by all members of the community.	Apr-22	Dec-22	\$ 30,000	\$ 30,000
SA	The City of Burnside	3	Community	Penfold Park Playground (increased scope)	The Penfold Park Playground Upgrade will revitalise the play space by providing a variety of play opportunities including inclusive play, sensory play, cooperative play, independent play, imaginative play, musical play and tactile play. Council plans to include a mix of off the shelf play items with a ninja obstacle course, musical instruments and garden areas with accessible pathways, seating and a shade sail covering a large part of the play area. We will also be providing elements such as a non-verbal communication sign and plenty of play opportunities for children and adults with a variety of skill levels and abilities to ensure the playground is inviting and fun for the whole community. The additional funding allows Council to increase its original scope and design providing a much improved play space for the community.	Apr-22	Nov-22	\$ 645,227	\$ 200,000
SA	The City of Burnside	3	Community	Dulwich Community Centre	The purpose of this project is to renovate and revitalise the much loved but ageing Dulwich Community Centre to ensure it is accessible, functional and usable for the broader community for many years to come. Works will include demolishing and rebuilding the front of the centre, ensuring provision of facilities to make the centre suitable for a wide range of community uses. The works will also include making the building DDA compliant, providing accessible access, parking and toilet facilities, as well as improving the environmental performance of the site by installing solar panels and incorporating water sensitive urban design principles in the surrounding yard. SA	Town of Gawler	1	Community	Seven roads within four pockets where there are no walking paths and propose for the construction of new walking paths to link them to surrounding walking path networks.	There are pockets without walking paths within Council area where local community does not have safe walking access to surrounding footpath networks for their daily living activities such as shopping and exercising. Constructing missing links to connect existing walking path networks can reduce crash risk by separating vehicles and pedestrians.	Feb-21	Apr-21	\$ 259,875	\$ 250,000
SA	Town of Gawler	1	Community	Install shade sails over four playgrounds: Fifth Street, Hemaform Grove, Willaston Nature and Apex Park	At present, there is no protection from sun, UV and wet weather conditions at playgrounds. Children get burns from hot play equipment and from playing in the sun on hot days. The lifespan of play equipment will be reduced with fading and cracking that can happen from sun exposure over time. These issues will be addressed by installing shade sails over playgrounds and it is widely recognised shade provides beneficial outcomes for the community to encourage active play at times when they may not have played due to hot weather conditions. Council has three existing other playgrounds with shade sails over them, and due to these beneficial outcomes, is seeking to expand these over more playgrounds as part of this community infrastructure program. SA	Wattle Range Council	2	Combination	Penola to Coonawarra Walking / Cycling Track	The concept of a walking and cycling trail from Penola to the Coonawarra was developed following investigations into a regional trails network that was completed in 2015. With the increasing awareness of the value of outdoor recreation in relation to health and wellbeing, and the Coonawarra Wine Region being acknowledged as an excellent tourism attraction, the development of a multi-use walking and riding trail would add strongly to the region. A well planned and constructed trail network in this area would cater to a range of users including recreational walkers and runners, cyclists, and tourists wanting to visit wineries and other destinations. The section of trail proposed for development runs for approximately 16km (excluding links to wineries and tourist attractions) from the town of Penola through several vineyards and wineries to Coonawarra. Additionally, Naracoorte Lucindale Council is currently developing a 16km connecting the Naracoorte township and the world-heritage listed Naracoorte Caves to strengthen the high-quality visitor experiences offered in the region. This Stage 2 of the project, to link the caves to cabernet via a shared-use rail trail, will be managed directly by the Naracoorte Lucindale Council.	Oct-21	Mar-22	\$ 2,064,648	\$ 736,052
SA	Wattle Range Council	3	Combination	Coonawarra Rail Trail (Extension)	The rail trail network between Coonawarra and Penola would cater to a range of users including recreational walkers and runners, cyclists, and tourists wanting to visit wineries and other destinations. The rail trail proposed for development runs approximately 30 kms (including links to wineries and tourist attractions) from the town of Penola through several vineyards and wineries in Coonawarra. Council received funding for the development of 16 kms of rail trail under LRCI Phase 2. Council is seeking funding for the development of the remaining 14 kms of the rail trail under LRCI Phase 3. SA	Yorke Peninsula Council	2	Community	Marion Bay Desalination Plant Improvements. 1 Willyama Drive (Plant) & 73 Slow Street (beach well erosion area), Marion Bay. Category: Painting /Improvements to community facilities.	Marion Bay does not have mains water supply and hence a Desalination Plant was built to support residential properties and the caravan park. This project will see desalination plant water quality improvements and measures to address beach well site erosion problems undertaken. The beach well supplies water to the plant and due to seawater level rising and winter storms, beach well infrastructure is now under threat from the ocean; if not addressed flooding of the beach well infrastructure and electrical controls will stop water production. In addition, water quality is shortening hot water infrastructure life to the caravan park and supply network.	Feb-21	Dec-21	\$ 65,000	\$ 65,000

SA	Yorke Peninsula Council	3	Community	Arthurton Main Street beautification. Category: Bicycle and Walking Paths	Arthurton's main street features an impressive sporting complex that hosts a variety of sporting and recreational activities, as well as the fast-growing Arthurton Pop-up Markets, which are this year nominated for our region's Event of the Year. This section of the main street has a sealed footpath, but it does not continue down to where the actual businesses are. The poor condition of the unsealed footpath in this section means visitors often track mud and dirt in to the markets, making a mess of the courts and indoor clubrooms. This project proposes to create a sealed footpath from the current footpath site along to the main street businesses. Arthurton Progress Association, a volunteer group working to improve the town, also plans to beautify the section with some lawn and planter boxes, although that will be funded from the community and not the LRCIP. SA	Yorke Peninsula Council	3	Community	Marion Bay – User pays system upgrade - Desalination Plant. Category: Painting/Improvements to community facilities	Modernisation of desalination water supply infrastructure to allow for an electronic payment system for water supply. The township does not have a water supply other than rainwater and the desalination plant. The desalination plant provides water to those that do not have access to, or are low on, rainwater. The upgraded system will remove the current usage booking system and occurrence of water theft. It is expected usage will increase due to improved ease of access, along with an increase in supply to travellers (who currently are not accessing due to the booking system).	Sep-22	Jun-23	\$ 45,000	\$ 45,000
SA	Yorke Peninsula Council	3	Community	Various Southern Yorke Peninsula Water Tower Upgrades. Category: Bicycle and Walking Paths	Installation of recycled plastic interpretive signage near each water tower. These signs will feature information about the individual murals including key aspects relating to each town, and the recovery effort from the '19 bushfires which spawned the mural trail project. The community benefit will be added interest for tourists (increasing the tower visitation experience, with added visitors more likely to result in spending in towns) and preserving local history (background of project/bushfires etc.) for improved community connectedness. The signs will be fixed in place and complement the towers which are our biggest non-coastal tourism drawcard.	Nov-22	Jun-23	\$ 10,000	\$ 10,000

TAS	Break O'Day Council	1	Combination	MTB Trail Head and Flagstaff Road - Sealing	A segment of Flagstaff Road and internal vehicle roads at the MTB trailhead are constructed in a gravel road base, which is prone to vehicle and weather wear and fine dust generation.  Sealing of the road surfaces will benefit the community, especially the users of the trailhead area and adjacent properties in the vicinity. The newly constructed trail network which is focussed around the Flagstaff trailhead is already attracting large numbers of people who are using the world class mountain bike trails for exercise and to explore our diverse and wonderful natural environment. The sealing of the road will improve stormwater quality, ensure longevity of pavement, reducing maintenance costs and ensure the experience at the trailhead is enhanced by reducing dust.  By undertaking these works we are encouraging community members and visitors to participate in exercise safely and promote healthy lifestyles.	Nov-20	Mar-21	\$ 94,322	\$ 94,322

TAS	Central Coast Council (TAS)	1	Community	Ulverstone Skate Park Redevelopment Major redevelopment of c.1970s existing skate park to provide modern activity hub with the adjacent, new MTB pump'n'jump courses. Includes new 'street' style skate elements, with proper zoned design to allow all ages and wheelchair access, separate parkour obstacle area, new outdoor ball arena (half-court basketball and football), and refurbishment of existing picnic shelter area, including new bicycle parking.	Existing skate park facility is aged (c.1970s) and near end of serviceable life. Current layout and design reflects age, with style and zoning of elements not suitable for all-ages/all-skills use. Current surface and layout is not suitable for wheelchair access and use. Shape and design of some current ramps is not as safe as modern design. Existing ball court is too small (less than 3-point arc) for even casual use.  The location is a popular active recreation area, particularly for youth and teen activities. It is adjacent a new mountain bike pump and jump track, at the end of a popular regional coastal parkland with various playgrounds, and only 100m from local surf club and amenities. The redevelopment project will help consolidate the zone as a regional destination for active recreation, particularly among youth and teenagers.	Aug-21	Dec-21	\$ 570,000	\$ 361,000

TAS	Dorset Council	1	Road	Carisbrook Lane Legerwood between the Junction of Tasman Highway and McDougalls Road upgrades to cater for heavy vehicles	The current carriageway is narrow and uneven with areas of pavement failure which creates increasing safety and operator cost issues. The road is classified as 'Heavy Rural' and while it is a gazetted HML/HPV route it does not currently meet the required geometric standards. Carisbrook Lane is used extensively by B-Double and Hi Production Combinations as well as 9 axle Articulated Vehicles transporting close to 200,000T of products into and out of the region. It is also the local school bus route. The prohibitive costs of an upgrade and conflicting demands on resources has meant that short term annual maintenance fixes have been required to be utilized to ensure ongoing safety compliance. This project will enable investment into the much needed longer term solution of a reconstruction and ensure an increased standard of safety for both heavy vehicle operators and the local community. TAS	Glenorchy City Council	3	Community	Construction of Montrose Skate Park	This Project has 2 phases, one for design and the second for the construction phase. These additional funds are for the construction phase for a project. The majority of the project is already grant funded, but a shortfall has been created by Covid-19 cost escalations and a poor sub-base. The construction work being carried out in connection with the development of the new skate park located within Montrose Foreshore Community will include: -Initial set out of the area including the confirmation of services. - Excavation and shaping of an area, which will cover approximately 700sqm – this is completely within Council owned land. - Installation of drainage lines which will be connected to various locations / features within the final skate park e.g. the 'bowl' - Importation of structural sub-base material to form a stable base – the present ground has through geotechnical assessment been assessed as unstable. - Following the importation of stabilizing material, a base layer of concrete will be laid, this will form the initial foundation on which the skate park will be constructed. - Form work forming the features as showing in the design along with final connection to drainage system. - Concrete pours and installation of exposed steel elements - Apply the finishing concrete across the site (this is fine grained coating which is designed to withstand the impact of skaters)- The whole of the skate park is then treated with an anti-graffiti coating. - Re-instatement of the surrounding ground / landscaping works. - Addition funds are required to stabilize the area prior to construction – the unstable nature of the site was identified during the geotechnical investigation as part of the design process. TAS	Hobart City Council	1	Community	Queens Domain The project consists of the complete development of a whole new cycleway along with car park and associated infrastructure. The cycleway will be constructed on a steep gradient of land by the side of the old Tas rail line which is currently unused. The project rectifies many ongoing issues/complaints about the surface of the car park and road ways in this area.	The project brings together the "missing link" the missing connection of cycleway between the Regatta grounds car park and the Macquarie point development. Currently the cycleway ends requiring riders and other users to travel through an active car park and thoroughfare to the water. The potential conflict for users currently poses significant risk to public safety. The lack of connectivity to the new cycleway at Macquarie point often causes confusion throughout the cycling community and this is often addressed through our network / stakeholders meetings with cycling groups as a major area for improvement. The project will allow you to enter the cycleway throughout Glenorchy providing a continuous, safe path away from traffic directly into the heart of the Hobart central district. Streetscape upgrade of New Town retail precinct to create a more vibrant, inviting and accessible local shopping area along New Town Road. The project scope has been developed through an extensive community participatory planning (co-design) process to promote a sense of local ownership amongst community and business stakeholders in the evolving, mixed use main-street environment. Improvements to pedestrian access, safety and amenity are prioritised. Anticipated health and wellbeing benefits and the improved local business environment delivered by the project, will enhance local community resilience in a post COVID-19 context. The Project will: Deliver improved active travel outcomes, especially walking, further enhancing connectivity throughout New Town, with a focus on pedestrian safety, access and amenity. -Enhance liveability of the precinct with greening including a new 'pocket urban park', and new trees and ground level plantings, which will support the growing population. -Upgrade mobility and public transport support infrastructure, including bicycle lanes, improved bus shelters and lighting. - Improved digital connectivity future proofing. -Feature engaging and enduring public artwork that reflects the identity of the area. - This zone will reinvigorate New Town's heart at the junction of Cross and Valentine streets with a flexible, traffic calmed space that will improve pedestrian safety and can also be used for temporary events, markets and other community activities. This area will feature: - a raised pedestrian threshold, new footpaths and reconfigured intersection to calm traffic and improve pedestrian access. - Removable bollards will allow for occasional community events. -Raised pedestrian thresholds on side streets to assist pedestrian access and safety. - A high quality public bus shelter and landscaping adjacent to the new 'community hub' on New Town road, delivering improved DAA access, lighting, weather protection and safety outcomes for bus passengers. - Addition of greening and amenity with new trees, plants, art and street furniture. - Complementing the above works and funded separately will be a new pedestrian crossing facility on New Town Road with kerb buildings and median island, North of Cross Street. See below**) - A landscaped 'pocket park' with public art, planting and seating for community use on New Town Road in front of the Salvation Army complex. -Renewed footpaths in the area.- Complementing the above will be a separately funded pedestrian crossing facility on New Town Road near the Salvation Army complex. Currently the road is subject to frequent wash-outs, has poor alignment and dangerous corners and resulting major ongoing maintenance costs.	Oct-21	Jun-22	\$ 300,000	\$ 44,676
TAS	King Island Council	3	Road	Second Seal Programme	Sealing. The project involves placing the second seal on approximately 13.5 kilometres of road. These roads were previously gravel roads and had a first seal applied circa 2017. In accordance with good road construction practice a second seal should be applied to complete the works. This usually takes place some after the initial seal and this work is now overdue to be completed. The roads involved are Old Grassy Road, Cape Wickham Road and South Road.  A significant difference with this project and other projects undertaken by Council is that it will be utilising external contractors who will bring machinery and workforce to the island. This approach is due to the scale of the works involved and the resulting efficiency that they can achieve with their equipment resources. Also, to attract contractors to the island there has to be a substantial body of works to make it attractive to them at a reasonable price. Smaller projects are able to be undertaken by the Council utilising its internal resources	Mar-22	Apr-22	\$ 965,000	\$ 599,062

TAS	Launceston City Council	3	Community	Launceston Aquatic Centre Air Handling Unit Replacement	Sporting and recreation facilities - Air Handling Unit (AHU) Replacement in Leisure & 50M Pool Halls Benefits: • Existing AHUs are approaching end of life and need replacing. • New AHU reduces load on new heat pumps, therefor extending their useful life. • New AHU will give more redundancy / capacity during winter • Includes return air bypass which has huge reduction on amount of air heating needing to be done, therefore increasing efficiency and reducing energy costs • Self-contained AHUs re-use waste heat for their internal heat pumps and are more energy efficient than the bluebox heat pumps. The project will improve the air quality within the centre thereby increasing the amenity and overall comfort of users. The upgraded air handling system will also continue to support public health guidance regarding appropriate ventilation in buildings.	Mar-22	May-23	\$ 870,000	\$ 870,000
TAS	Launceston City Council	3	Community	Asbestos Removal	Other - Removal of asbestos from community facilities, updating of asbestos registers as required. Preliminary investigations indicate that building structures within the St Leonards Sports Precinct, and several Memorial Halls within the municipality contain asbestos. Whilst compliance checks have indicated the sites are compliant, Council would like to reduce any risk to negligible by removing the asbestos. Updating asbestos registers are a legislative requirement. The final outcome will mean any future renewal or maintenance works can be completed with a higher degree of certainty and be more cost effective to execute. The resultant risk of exposure to users will be negligible as the asbestos will no longer be present. The nominated locations are: 1. Dilston Memorial Hall 2. St Leonards BMX Centre 3. TAS	Waratah-Wynyard Council	1	Combination	Installation of new virtual fencing to stop Tasmanian Devils (among other animals) crossing the road in the Rocky Cape National Park environmentally sensitive area. Virtual Fencing is an active electronic protection system that alerts animals before crossing the road when a vehicle is approaching between dusk to dawn. It is proven to be extremely effective in preventing wildlife-vehicle collisions in Australia and around the world. The device is triggered by vehicle headlights and emits a buzzing sound and flashing light to warn nearby wildlife of approaching vehicles. The devices are not visually intrusive and are currently used in Tasmanian National Parks such as Cradle Mountain.	Reducing the amount of wildlife killed on council roads is an action in council's recently adopted Integrated Community Environmental Plan and supports the Tas. Govt. Save the Devil Program. VIC	Baw Baw Shire Council	1	Road	changeover existing inefficient old street lighting in Baw Baw Shire with the most energy efficiency LED Street lighting available currently. The shovel ready program covers the replacement of 1,230 old and inefficient street lights which includes high-pressure sodium vapour and high wattage mercury vapour to the most energy-efficient LED lighting.	The changeover program will generate local employment, improve community safety, reduce impact on our environment and save money for our local community. Energy Efficient street LED lighting are up to 60 percent more energy efficient than traditional high pressure sodium bulbs or mercury vapour and can last 15 to 20 years. LED lights are free of all harsh chemicals and therefore minimise impact on our environment. LED lights are also 100% recyclable and can significantly reduce your carbon footprint. LED street lighting potentially make public transportation easier, as well as improving visibility on roads.	Feb-21	Jun-21	\$ 598,046	\$ 575,027
VIC	Baw Baw Shire Council	1	Community	The project will develop an intertown connection for use for pedestrians and cyclists between Erica and Rawson that aligns with Baw Baw Shire's Paths and Trails Strategy. The project will include a granitic sand path approximately 4.7km in length from Henty Street, Erica to Pinnacle Drive, Rawson. The proposed route of this path begins at the intersection of Henty Street and School Road. From here the proposed path follows the East side of School Road/ Moe-Rawson Road, crossing Collins Road and Thomson Valley Road. The proposed route turns East at the intersection with Knotts Siding Road, and runs along the South side of Knotts Siding Road into Rawson via Tyers-Walhalla Road (West side).	The project will achieve the following solutions as identified in Council's Paths and Trails Strategy: - Meet demands for connectivity for pedestrians and cyclists to key public points of interest in the Shire. - Growing demands for new paths and trails to connect our smaller communities. - Providing additional leisure and recreation opportunities to our communities aimed to encourage the community to stay healthy and increase community connectedness and participation. - Offer an additional tourism experience for visitors to the region to benefit businesses in communities where tourism is a major contributor to economic output and job creation. VIC	City of Greater Dandenong	3	Combination	Railway Parade Noble Park Shopping Centre Upgrade.	Stage 1 - Renewal and upgrade of the shopping centre, works include car park improvements, renewal of paving and other related infrastructure including furniture trees and landscaping.  Stage 1 scope of works includes: construction of streetscape upgrade works including street tree planting and landscape improvements; paving and street tree cut outs; supply and installation of street furniture (seats, bike racks and bins) on the north-east (shop-front) side of Railway Parade. A subsequent stage not part of the scope of Stage 1 and not part of the LRCIP-funding request will be for the opposite (car park/railway reserve interface). The LRCIP-funded works are not staged. VIC	City of Greater Shepparton	2	Community	Vibert Reserve Pavilion Stage 3 Redevelopment, 290-300 Archer Street, Shepparton Victoria 3630	The redevelopment of the Vibert Reserve Pavilion will see a large extension to accommodate the South Shepparton Community Centre who will relocate from their current facility. This part of the project has already been approved to be funded under the LRCI Phase 1 allocation.  The balance of the project, will see the sports clubhouse extended and upgraded to facilitate appropriate sports club social use for the 3 main sports clubs and other casual use clubs that currently utilise this pavilion. The new social club space will also provide for further opportunities within this South Shepparton community to utilise this space for community gatherings and meetings. The extension works will now be part of the overall Vibert Reserve Pavilion Stage 3 redevelopment including new car parking, with security lighting, relocated and upgraded playground, landscaping and improved accessibility for neighbourhood house users and the sports club users. Plans are available and can be provided if further clarification is required on the extent of this project, and the 2 stages of works that can be completed with both Phases of funding. There is significant benefit in completing this project as a single contract and approval to include this under Phase 2 will see the project more efficiently delivered under one contract as opposed to a staged approach. VIC	City of Greater Shepparton	2	Community	Victoria Park lake Power Upgrade [NEW PROJECT]	It is proposed to install permanent power supply boxes to the open space area at Victoria Park Lake, Wyndham Street, Shepparton. Costs to Council's Events Team for electrical/generator/electrician services and hire were \$90,094.86 over the past 5 years. This does not include community and private event company costings and having in excess of 18 annually events where they all have to source power, there is a need to address and implement improved infrastructure for availability, consistency, and safety of all users. Having this upgrade in place will also improve the capacity for the location to be marketed appropriately to a broader range of events organisers and companies as this area will have the capacity to deliver event needs without the requirement of temporary infrastructure inclusions, which all come at a cost to either Council or event organisers, thus giving the site improved capabilities and attractiveness for events and reducing the outlay for temporary infrastructure. VIC	City of Greater Shepparton	3	Road	Fryers Street / Thompson Street Upgrade	The key focus of this project is to improve the safety of the intersection and this comes hand in hand with increasing the capacity of the intersection and the flow of traffic. The traffic modelling report completed by Stantec (2021) demonstrates that the existing T intersection will hit capacity due to the increase in traffic in 2022. Therefore, a new roundabout on the eastern side of the railway has been recommended to bring significant traffic flow and safety benefits. Without the intersection improvements the northeast approach will perform very poorly, resulting in long queues and motorists trying to turn into smaller gaps in the oncoming traffic flow, challenging geometry for vehicles, limited queuing space, level-crossing and introduction of the SCC. All these factors, demonstrate that this project will provide a crucial safety upgrade and will reduce risks of accidents occurring in the future.	Jul-22	May-23	\$ 6,340,000	\$ 1,000,000

VIC	City of Port Phillip	1	Combination	Rotary Park, St Kilda Foreshore	The playground at Rotary Park was removed during the construction of The Stokehouse restaurant – which used this space as a building site. The playground is in a high tourism visitation area on St Kilda Foreshore, an area that attracts over 2m people each year. The playground is a high priority for reconstruction given there are no other playgrounds in the area. The project has strong support from the community and Rotary Club of St Kilda, who originally created the park and have been advocating for improvements. Upgrading the full park enhances the gateway to the foreshore and creates more usable public space, through improvements to pathways, access points, infrastructure and through safety improvements such as upgrades to lighting. The park has been identified for critical security upgrades to minimise the danger of unauthorised vehicle access to the foreshore.	Mar-22	Jun-22	\$ 862,000	\$ 277,686

VIC	Colac Otway Shire Council	1	Road	Road repairs at main entry and emergency entry and nearby roundabout at Colac Hospital	The roundabout and section of Connor Street are heavily used for everyday access to Colac Hospital, Bulla Factory, and various medical centres. Repair of this road will improve the safety of the road surface for users, especially ambulances and other medical vehicles entering the hospital and people visiting the various medical services in this area. The asphalt works will also assist in reducing traffic noise for aged care residents and patients who are situated in hospital wards and wings adjacent to this roadway. Undertaking rehabilitation works now will avoid the need for full road reconstruction when the road fails. If a full reconstruction were required it would cause substantial disruption in the area and interrupt hospital access.	Feb-21	Apr-21	\$ 193,334	\$ 193,334
VIC	Colac Otway Shire Council	1	Community	Resurfacing two tennis courts and one netball court	The condition of the existing asphalt surface of these courts has reached a point where it is no longer safe to play. There are cracks with weeds and during rainfall, water pools on the surface causing slipperiness and poses a risk to the users. The courts are used by the Apollo Bay Netball club, casual and social tennis players from the townships of Apollo Bay, Skenes Creek and Marengo and visitors to the adjacent camping ground. VIC	Colac Otway Shire Council	1	Community	Construct footpath in Birregurra (and associated crossing treatments)	There are currently no all weather connections or dedicated pedestrian crossing points to the train station. This station provides a connection to the major centres of Geelong (45 mins journey) and Colac (30mins journey), and is used as a sustainable transport connection to jobs and services. VIC	Colac Otway Shire Council	1	Community	Construction of concrete footpaths in multiple locations	Many key connections that link schools, shopping precincts, tourist destinations, community facilities, open space and off road shared paths do not have existing hard surface, accessible paths on either side of the road. This limits access to recreational and community destinations for many residents and visitors, particularly for the elderly and mobility impaired and in high rainfall areas such as Gellibrand, Lavers Hill and Apollo Bay.	Sep-21	Feb-22	\$ 413,500	\$ 403,700
VIC	Colac Otway Shire Council	1	Road	Sealing of 700m of road	The main benefit this project will deliver is improved safety by providing all weather access constructed to a higher standard, for adjoining property owners and other road users in general. It will provide an attractive alternative access route for residents in the Swan Marsh community. It will provide a viable option for heavy vehicle access (milk tankers, stock trucks, quarry vehicles) into and out of the Swan Marsh district. It will provide and attractive alternative access point for emergency responders (Fire Safety Victoria, etc.), both into and away from the Swan Marsh district. Safety at night or in foggy circumstances will be greatly improved through road side delineation, the advantage of a sealed surface, and through the addition of solid edge lines. Routine maintenance of the unsealed surface (maintenance grading) will be substantially reduced – shoulders will still require periodic maintenance.	Mar-21	Mar-22	\$ 325,000	\$ 325,000
VIC	Colac Otway Shire Council	1	Community	Construction of new play space	Residents of the Petjuli Street park catchment do not currently have access to a playground within walking (500m) distance, with the nearest playground being more than a kilometre away. The park is currently undeveloped with some trees and park benches. This development will create a social destination for the many children, families and carers in the area, activities for a range of age groups and access to these facilities with the creation of a hard surface path connecting to the existing footpaths. VIC	Colac Otway Shire Council	1	Community	Construction of pedestrian and cycling bridge and paths	In 2016 a pedestrian bridge that forms part of the Barongarook Creek Shared Trail was washed away by flood waters. The bridge connection forms a critical off-road link for users of the Barongarook Creek shared trail and, once completed, will provide a continuous, 1.3 kilometre off-road walking and cycling connection from the Coles on Bromfield Street and the Visitor Information Centre on the corner of Murray and Queen Streets, via picnic/toilet facilities and a recently constructed Traditional Owner memorial space to Lake Colac. If the bridge is not replaced, pedestrians, wheelchair users and cyclists are diverted 360 metres via a car park, up to busy Murray Street (Princes Highway) and must cross at traffic lights and journey along Murray Street to arrive at the continuation of the shared path. VIC	Colac Otway Shire Council	1	Road	Installation of speed humps outside school	Speeding vehicles currently pose a safety risk to children accessing the Specialist School in Wilson Street, Colac. Students aged 5-18 with special needs and their carers currently use the crossing daily during school term. Cars and heavy vehicles use this local road as a short-cut between the C155 (Colac-Lavers Hill Road) and Queen Street (north south collector road). The installation of speed humps either side of the crossing aims to slow vehicles and deter heavy vehicles, generally improving pedestrian safety in this area.	Nov-20	Dec-20	\$ 17,536	\$ 17,536

For those people requiring access a portable ramp is provided on request at a door to the rear of the building to provide access.	Jul-21	Oct-21	\$ 26,553	\$ 26,553
VIC	Corangamite Shire Council	1	Community	This project will see an upgrade to the existing netball infrastructure, including court lighting, shelters and inclusive design change rooms for players, officials and spectators.	The upgrades have been identified as a priority to improve the safety for participants, increase the chances of clubs attracting and retaining participants and to increase access and usage. These works are identified as a priority in the Great South Coast AFL, Netball and Cricket Strategy and are supported by the Recreation Reserve Committee of Management, Cobden Football Netball Club and Cobden Tennis Club.  In addition, there is a demand for female facilities at the Cobden Recreation Reserve with the establishment of an under 18's female football team. If funding can be secured through this program, it is expected that there will be an increase in the number of females participating at the reserve. Currently, there are three under 18 female football teams across the Corangamite Shire. The upgrade allows Cobden Recreation Reserve to become a venue for further female teams including the development of female senior sides.	Feb-21	Jun-22	\$ 300,000	\$ 300,000
VIC	Corangamite Shire Council	1	Community	This project will involve the construction of a skate park in Skipton.	The Skipton community have identified a Skate park as a key priority in its community plan and as a key project highlighted by a petition signed by more than a hundred young people from around Skipton and district. The skate park will provide an important year-round recreational opportunity for young people.	Feb-21	Mar-21	\$ 120,000	\$ 120,000
VIC	Corangamite Shire Council	1	Community	This project will include the replacement of the roof over the two court basketball stadium and minor facility upgrades.	The existing roof is over 20 years old and at the end of its useful life. It is leaking during certain rain and wind events and presents safety risk to participants using the courts, so much so that competition was postponed last season. This project will ensure the safety for players, officials and spectators and have been identified several years ago as a priority by the Committee of Management.	Dec-20	Mar-21	\$ 119,962	\$ 119,962

VIC	East Gippsland Shire Council	3	Community	Old Slipway, Lakes Entrance	The Old Slipway is a historic site situated on the Esplanade in Lakes Entrance and overlooks the stunning Cunninghame Arm waterway. It is a high-profile site but has remained largely unused for the past 15 years due to it being inaccessible and unsafe for public use.  This project will redevelop the iconic Old Slipway site in Lakes Entrance by constructing a flexible public open space in the form of a 600 square meter terraced deck and staging area atop the existing slipway surface. The deck will create a community area that is enjoyable, safe, and universally accessible. It will enable the Old Slipway site to become an idyllic waterfront location for events, gatherings and recreation.	Sep-22	Jun-23	\$ 1,030,000	\$ 400,000
VIC	East Gippsland Shire Council	3	Community	Nowa Nowa Boat Ramp	The township of Nowa Nowa has one boat ramp facility which caters for all recreational boating activities in the area. The timber jetty is in poor condition due to its age and nearing the end of its useful life. Furthermore, it is at times unusable for many months of the year due to extreme high and low water levels encountered at the site.  This project will improve this important community facility through replacement of the existing fixed timber jetty with a universally accessible floating pontoon jetty, installation of a solar light and rehabilitation of the gravel carpark area. These improvements will greatly improve the functionality, accessibility and safety of the site as well as stimulate economic growth and recovery through increased visitation and spending. VIC	Manningham City Council	1	Community	Ruffey Lake Park is a Council reserve, 66 hectares in area. The proposed works include the sealing of paths between the boardwalk at the main carpark, The Boulevard public toilets and picnic shelters. Marking of a new DDA parking bay in The Boulevard off road carpark. Installation of solar powered lights along this path to the toilets. Construction of footpath connections, in several cases to residential park interfaces including Victoria Street and King Street, including associated landscaping and works.	Council is in the process of completing improvements to The Boulevard public toilet block, to in part achieve DDA compliance. Council commissioned a Building DDA Inspection report for the public toilets and the recommendations included sealing of existing gravel paths to access the toilets, lighting improvements and the provision of an additional DDA compliant parking bay in closer proximity to the toilets. The previous Council project scope was limited to the public toilet improvements. This project also seeks to improve access to Ruffey Lake Park, by providing further pedestrian linkages to abutting streets.	May-21	Jun-21	\$ 141,402	\$ 141,402
VIC	Manningham City Council	1	Community	Sealing of existing granitic sand carpark with asphalt, construction of kerb and channel and a footpath along the northern boundary, construction of a footpath connection to George Street and line marking of the carpark including the marking of pedestrian islands between George Street and the proposed northern footpath.	There is no safe, defined pedestrian access path through the carpark to the Athletics Track or for pedestrian visitors entering the site from George Street. The maintenance demand associated with the existing granitic sand carpark pavement is excessive. Under traffic the ride quality of the granitic sand is poor particularly after rain, when large numbers of potholes develop.	Apr-21	Jun-21	\$ 345,859	\$ 345,859

VIC	Mount Alexander Shire Council	1	Road	Barker Street, Castlemaine, Pedestrian crossing treatment to be determined by Regional Roads Victoria. More details can be provided by mid-August if required.	Barker Street (the Midland Hwy), is a 4 lane hwy that runs through the centre of Castlemaine. There is a 1.8km stretch that links from the town entrance to the CBD. There are no pedestrian crossing points along this section of highway. This section is used by students accessing the only high school in the region, Castlemaine North Primary School (the primary school with the highest enrolments in the Shire), Windarring - an organisation that provides a day care service for adults with a disability, along with connections to Castlemaine Botanical Gardens - the Shire's most used public space for informal recreation.  The lack of pedestrian crossing creates a huge risk for residents and is a barrier to those with mobility issues.	May-21	Jul-22	\$ 500,000	\$ 500,000
VIC	Mount Alexander Shire Council	1	Community	Castlemaine Botanical Gardens Flora and Fauna Reserve, Repair to deteriorated path network sections within the Castlemaine Botanical Gardens Flora and Fauna Reserve - an important environmental area of the gardens which is of national significance due to the population of the endangered Eltham Copper Butterfly as well as numerous other local ecological features and examples of our Indigenous heritage.	The path rehabilitation works will improve accessibility to the Flora and Fauna Reserve. This network of paths is essential to providing visitors with opportunities to learn and engage with our Indigenous history as well as discouraging visitors from venturing into and disturbing the habitat of the Eltham Copper Butterfly. The path network is used regularly by residents and visitors undertaken informal recreation pursuits such as walking and running. The current state of the path network acts as barrier to access for all of the above listed activities.	Apr-21	May-21	\$ 60,000	\$ 60,000
VIC	Mount Alexander Shire Council	1	Road	High Street, Harcourt Installation of electric vehicle charge point to be delivered in partnership with Central Victorian Greenhouse Alliance (CVGA) and Dept of Environment Land Water and Planning (DELWP) who are delivering a regional project rolling out EV charge points across the region.	There is currently only one other electric vehicle charge point in the shire. The existing point is located in Newstead and is several years old, which means that it takes a long time for vehicles to charge.  The charge point will be located on Crown land managed by Council.  The new vehicle charge point will be located in Harcourt. A township that is identified as a small town with capacity for growth. It is located just off the Calder Hwy, making it an easy exit point for people travelling between Bendigo and Melbourne.  With the prevalence of electric vehicles increasing, it is important for the shire to provide the infrastructure necessary to promote this sustainable choice of travel. VIC	Mount Alexander Shire Council	1	Road	Level crossing on Rowe Street, Castlemaine, 1. Close the level crossing to road and rail traffic for 36 hours, dismantle the rail track and dig out the railway roadbed approximately 750mm below road level and 4m wide for at least 8m either side of the roadway; 2. Install a base layer of 150mm of compacted road base material, then install drainage, lay 300mm of railway ballast, compact and grade to 315mm below road level; 3. Lay new railway track using concrete sleepers and heavy rail to line and level; and 4. Lay 150mm depth of hot mix asphalt between the rails and 3m outside them.	The current level crossing was constructed with timber sleepers which require regular replacement. The proposed works will replace the rotting timber sleepers with concrete sleepers which will provide a lifespan of 20-25 years. The works will maintain safety for both road and rail traffic. This section of road has no road shoulders, with drop offs into deep table drains that pose as a safety hazard for motorists.  Ferrier Street, Korumburra - assets including footpaths, kerb & channel and road pavement have reached the end of their usable lives based on condition surveys and need to be upgraded.  Old Waratah Road, Fish Creek - the kerb and channel and road surface are in poor condition and this section of road has complaints of excessive speed along the road from local residents, hence the decision to include slow points to reduce traffic speeds. VIC	Stonnington City Council	3	Community	Orrong Romanis Recreation Centre: Roof Repairs	Improvements to community facilities  Water comes in through holes in the roof and it falls to the floor causing a safety hazard especially during netball and basketball games. There are also vermin inside the building and they are nesting in the roof. Both of these items are major health and safety issues. A new roof will also provide better insulation and thermal comfort for the players and families who use the recreation centre daily. If the roof is not fixed this year, we will not be able to support local netball games because it is too much of a risk.	Jun-22	Jul-22	\$ 200,000	\$ 200,000

VIC	Strathbogrie Shire Council	3	Combination	1-3 Kennedy Street, Euroa Drainage	Drainage expansion The problem is the stormwater drain from Granite Hill hospital is continually discharging water into the open drain which is always full and preventing the property owner from mowing and it is breeding mosquitoes.  Proposal is to construct a section of underground drain to improve the shallow open drain that is very poorly graded, at an estimated cost of \$22,000. The issue is a result of on-site detention which benefits peak flow but imposes that stormwater discharges from the hospital site move slowly and at a controlled rate, meaning that the flat poorly graded drain will appear to be constantly holding water. VIC	Surf Coast Shire	1	Community	The project includes the development of a drainage and irrigation system	Council officers are attending to unauthorised bike trail building in the bushland adjacent to the Ocean Acres Reserve and at other locations in Torquay. This proposal presents an opportunity to engage interested members of the community in the planning, design and ongoing maintenance of a bike park facility in an appropriate open space area. The large area of open space that is the 'drainage basin' holds water in some areas rather than the water draining to where it was intended (into the drainage outlet within the basin) and as a result the space is wet and boggy for close to 6 months of the year.
