Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

119975-22NSW-RTR	NSW	Snowy Monaro Regional Council	Snowy River Way (rural road) - The start of construction would be 250m south of Springfield road int	The work proposed on Snowy River Way is to provide a gravel overlay to the road pavement, providing greater pavement thickness. While construction is taking place, milling, and stabilising where required, of the existing road base will also take place to provide a consistently improved pavement. The start of construction would be 250m south of Springfield road intersection and terminating at 1250m north of Springfield road intersection. The total length considered under this program is 1.5km.	2022-23	\$500,000	\$500,000	1 November 2022	1 April 2023

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

## Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

**Roads to Recovery Program**

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2022-23 and 2023-24 financial years as at 5 May 2023.

Program Objectives:

Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government is committing \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

## **Senate Estimates – Transport and Infrastructure Net Zero Assessment, Roadmap and Action Plan**

The 2023-24 Budget includes \$7.8 million over 4 years from 2022–23 to develop a Transport and Infrastructure Net Zero Roadmap and Action Plan to support the decarbonisation of the transport and infrastructure sectors

**1. Details on the funding of projects by program that have been contractually committed, committed but not yet contracted, and any funding that has not been allocated.**

Not applicable.

**2. Details of any changes that have occurred since the 2022-23 Budget (October 2022) estimates:**

Not applicable

**3. Where there have been changes (particularly delays) in scheduled project completion times, a list of projects by program which at the time of the 2022-23 Budget (October 2022) hearings were scheduled for completion in each of 2022-23 and 2023-24 and the corresponding revised completion date, as well as explanation for the change in scheduled completion time.**

Not applicable

**4. A list of projects by program that have been discontinued since 23 May 2022, including projects that have been contractually committed, and committed but not yet contracted.**

Not applicable

**5. A list of completed projects by program for the 2022-23 financial year.**

Not applicable

**6. A list of projects by program scheduled for completion in the current (2022-23) financial year and the forthcoming 2023-24 financial year.**

Not applicable

**7. Detail of how funding is allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply) and, for projects approved since 1 July 2022, details where recipients have been identified.**

Departmental funding for the program over each year of the Forward Estimates is as follows:

<b>Year</b>	<b>22-23 \$m</b>	<b>23-24 \$m</b>	<b>24-25 \$m</b>	<b>25-26 \$m</b>	<b>26-27 \$m</b>
Departmental	0.525	2.681	2.488	2.065	0.000
				<b>Overall Total</b>	7.759

**8. Details of how any underspends in completed projects and programs have been re-purposed.**

Not applicable

**9. A list of project applications received for programs which have been discontinued since 23 May 2022, including project title, applicant name, funding sought by the applicant, location of project, date of any assessment undertaken by the Department or by the Business Grants Hub which has been reported to the Department and outcome of the assessment.**

Not applicable

**10. To mirror the information presented to Senator Sterle when he was deputy chair of the Committee, and given the public interest in the integrity of grant programs and allocation of Commonwealth funds, details of projects funded under programs listed in Attachment A should include identification of the Federal electorate or electorates within which the projects are located.**

Not applicable.
