Local Roads and Community Infrastructure Program - Projects approved for funding (as at 18 October 2024)

Phase	Infrastructure type	State	Funding Recipient	Project Name	Problem Description	Status	LRCI Funding (approved)	Start date	End date
1	Community	NSW	Wingecarribee Shire Council	<p>The Mittagong SES Volunteer Centre building repair and refurbishment project is to replace roofing, address structural issues, improve storm water drainage and construct a retaining wall to restore the centre.</p> <p>NSW SES members work closely with residents to build stronger, more resilient communities to reduce the impact from natural disasters. The volunteers in the Wingecarribee SES have for several years regularly conducted community resilience programs. These public programs have included local initiatives such as the award winning “Get Ready Girls” program that builds confidence in local women and their resilience skills along with the “SES Youth Forum” a program informing youth on safety measures in times of emergencies.</p> <p>The local SES have in the past have made their training room available to Council, Police and other emergency services for bookings as well as local community organisations. It is also an alternate Emergency Operations Centre available for use by the by the Local Emergency Management Committee.</p> <p>The community service provided by the Mittagong SES Volunteers cannot be understated. They have responded to an average of 473 requests for assistance per year over the past 4 years related to floods and storms. The Wingecarribee Shire residents rely on the SES volunteers for emergency response.</p> <p>Due to water intrusion and mould issues as well as structural defects, the volunteer centre cannot be safely occupied and the community programs and volunteer training cannot be held. By restoring the centre for safe use, these programs will be able to continue.</p>	<p>Due to stormwater and drainage issues for the building and site, water ingress has resulted in mould contamination to several rooms within the centre. At present, the offices cannot be safely occupied. Further, a structural issue with the converted garage walls has been identified by a structural engineer and requires rectification before the area can be safely reoccupied.</p>	Complete	\$38,404	Oct-20	Mar-21
1	Community	NSW	Wingecarribee Shire Council	<p>Church Road Oval Amenities Building, The Church Road Oval is Council's most utilized soccer field in the district and is used by the 1,600 registered participants to the Highlands Soccer Association.</p> <p>The Church Road Oval Amenities Building Refurbishment project is designed in 2 stages. Stage 1 is currently funded and programmed for delivery in 2020/21 in Council's capital works program. The works commenced in August 2020. Stage 2 is fully designed and shovel ready, but remains unfunded. Stage 2 works include construction of the second story clubhouse, access ramp, provision of awning and conversion of existing public toilets to storage.</p> <p>Should this funding application be successful, it would enable Council to construct the second stage of the amenities building immediately.</p>	<p>Currently there is no indoor training facility on site to facilitate rainy-day training and strategy sessions. The construction of the second story clubhouse will provide an indoor venue for rainy day training. Further, the planned improvements include an access ramp to the first floor, kitchenette and awning. This will provide access to people with disabilities and carers pushing prams.</p>	Complete	\$241,000	Oct-20	Apr-22
1	Community	NSW	Wingecarribee Shire Council	Eridge Park Netball Courts	<p>The courts are at the end of useful life and are in poor condition with significant cracking present. 2	Road	NSW	Lake Macquarie City Council	The Weir, Barnsley – replacement bridge  Weir Road, Barnsley.  Bridge works	The existing Weir Road crossing over Cockle Creek is a single lane, two-way concrete causeway constructed in the 1920's. Barnsley Weir is closed to all traffic and freight vehicles during moderate rainfall events. The alternative route of 13.5km includes a number of signalised intersections and adds considerable travel time and costs to residents and businesses. The proposal is to construct a new bridge to address safety issues regarding the approach on both sides of the creek to the bridge. This plan will provide increased safety and ability for residents to use Weir Road to travel between local centres. The project will improve freight routes in the west of Lake Macquarie, supporting local jobs and underpinning economic growth. It will also enable all in the community to reach their destination safer and sooner.	Complete	\$2,771,018	Aug-21	Mar-23

2	Community	NSW	Strathfield Municipal Council	Fragrant Garden Strathfield District Park Mitchell Street, Strathfield	<p>Community – Landscaping Improvements Community Infrastructure – other</p> <p>The Strathfield District Park is an area that was formerly a golf course and is being converted to meet the active and passive recreational needs of residents and visitors from surrounding areas. The Park is surrounded by medium and high density housing. To date, the community needs for active recreation are being met through walking and bicycle routes through the park, extensive parkland areas that allow for personal exercise and “workouts” and it is planned that in the future, there will be a number of hard courts constructed for mainly ball sports. The park also adjoins Council’s Golf Driving range that is constantly patronised.</p> <p>In terms of areas for passive recreation such as family gatherings there are extensive lawn and BBQ areas, a feature lake and currently under construction with Federal funding support is an amenities facility that will allow for extended stays.</p> <p>For children with disability and their carers Council is constructing a Maze and play area that will be available to all children, regardless of their abilities.</p> <p>The missing component of this park is an area for singular, quiet passive recreation that would appeal to older residents or those needing to access a peaceful and stimulating area. The Fragrant Garden will provide this space and allow Strathfield District Park to respond to the health and wellbeing needs of all residents</p>	Complete	\$801,335	Sep-21	Apr-22

3	Community	NSW	Carrathool Shire Council	<p>Refurbishment of Hillston Water Tower</p> <p>Project location: 197 High Street, Hillston NSW 2675</p> <p>Work category: Other</p>	<p>Hillston Water Tower provides water to the regional community of Hillston. The water tower has exhibited vertical and horizontal cracking which has led to a leak, approximately three quarters of the way up the tower. To alleviate the leak, the tower has been set to not fill past the leak which has resulted in a noticeable loss of pressure in the water distribution network.</p> <p>To rectify the issue and to prolong the effective life of the water tower, the Scope of Works consists of high-pressure water blasting of the interior surfaces, sandblasting of the cracks, the application of relining material and sealing of the interior of the water tower. These rehabilitation works are essential in ensuring the continued operation of this critical water infrastructure component in the Hillston community.</p> <p>Council would like to request a following variation. In addition to the abovementioned works, the contractor has determined that additional essential repairs are needed in order to preserve the water tower and ensure its usability in the future. The additional essential works include replacing damaged pipework, removing internal and external access ladders and fixing the roof structures to prevent any future water contamination.</p>	Complete	\$269,713	Apr-22	Jun-22

3	Combination	NSW	Lord Howe Island Board	Depot pavement renewal	<p>Lord Howe Island is a remote island in the south Pacific with the local Authority being the Lord Howe Island Board (LHIB) and a community population of around 400 people. LHIB manages numerous Civil Infrastructure Services streams from its operational depot and well as providing community mechanics services from the same space.</p> <p>LHIB depot pavement area is in immediate need of renewal and requires hard stand and resealing to make safe for depot operations – enabling various service delivery streams to operate from this facility such as civil infrastructure reconstructions, maintenance works and vehicle maintenance services. Large failures in the pavement area have expanded over time causing the area to become difficult to manoeuvre machinery such as forklifts in a safe and efficient manner as well as other mobile plant such as cranes, excavators and general light vehicles – all used to delivery works for the local community. The depot is used to house numerous materials and equipment to enable delivery and construction of community assets such a facilities, roads and walkways across the island. It is also used to store both public and private and community building materials that would otherwise be exposed to harsh marine conditions. Other works undertaken at the depot include providing community services such as car registration checks and community vehicle maintenance works - LHIB is the only vehicle registration mechanic operating on the island servicing the populations’ vehicle and machinery maintenance needs. If the depots pavement area is not treated soon it may pose safety risks to the local community users. The depot is a multi-purpose facility that without it operating effectively a reduction in infrastructure delivery and maintenance service delivery across the island could occur rapidly.</p> <p>The project proposed consists of designing a treatment option for the existing</p>	Complete	\$102,858	Jul-22	Jun-23

3	Road	NSW	Orange City Council	Southern Feeder Road (Stage 4 – Anson St to Pinnacle Rd)	The Southern Feeder Road (Stage 4 - Anson St to Pinnacle Rd) is the next stage in a six stage process to develop Orange's Southern Economic Development Corridor, a strategic east-west link to, from and around the city. The Corridor is vital to Orange City's future economic growth and regional strength. The Southern Feeder Road (Stage 4), will increase freight and traffic efficiencies. Safety, connectivity and productivity for the city and region more broadly will be improved. The road will take traffic off indirect and inefficient routes through residential streets or the heavily congested Mitchell Highway/main street. It will improve access and connection to key employment precincts and the city's newest 1800-lot residential suburb.	Under construction	\$1,241,618	Apr-23	Jun-25
3	Community	NSW	Orange City Council	Youth multipurpose sporting area	10 sports in 1 to be constructed in Moulder Park using an old netball surface. 3	Community	NSW	Orange City Council	Glenroi Oval playground -	Council is creating a district level playground within Glenroi Oval. In line with a district level playground, the equipment has been selected to provide a variety of play options across a wide range of age groups. This places the Glenroi Oval playground at the same level as the popular facilities at Elephant Park and Gosling Creek Reserve. The materials used in the design are generally more robust than standard play equipment so we certainly hope that the playground will be able to withstand a lot of the vandalism that occurs in our parks from time to time. We have included rubber softfall in higher wear areas (e.g. under swings and slide exits) to reduce maintenance requirements. Total investment for supply and install is \$170K. Council is contributing \$120k to the project.	Complete	\$50,000	Jul-22	Dec-22

4	Community	NSW	Bogan Shire Council	Female Changerooms – Larkin Oval Bogan St, NYNGAN NSW The construction of a new building to create a set of female change rooms for home and away teams at Nyngan’s Larkin Oval. The building also accommodates new male and female public toilets to replace existing dated structures which are to be demolished.  The new building will be 152.6 square metres in extent, containing 4 toilets and 12 showers in each change room. There will also be 4 additional female toilets, male toilets, and a unisex disabled toilet with a baby changing room. Co-contribution from NSW Government grant.	The new change rooms and toilets are in a public area. The toilets will be available to the wider public whilst the changerooms will be available to the wider public undertaking a specific activity.  There are currently no female change facilities at Larkin Ova and female athletes are forced to change in their cars. The project will give the growing number of female sports participants a dedicated area to change and shower before and after games, and therefore encourage greater participation. In recent years there has been strong growth in female sports participation, especially in rugby league, rugby union, and touch football – all of which are played at Larkin Oval. 4	Community	NSW	Bogan Shire Council	Early Learning Centre – Landscaping Dandaloo St, NYNGAN NSW: Landscaping on 1,000 square metres of land adjoining the existing Bogan Shire Early Learning Centre (ELC) playground area, including approximately 400 square metres of turf, pathways and new children’s play spaces. This scope is distinct from works funded under Project 5 LRCI Phase 3 which was to make good the area immediately surrounding the new building extensions (such as new turf and remaking garden beds) as well as some redesign of existing children’s garden play spaces and new fencing.	This area is available for a limited age group of the community as a whole but all young children within the Bogan Shire Council have access to the ELC subject to a waitlist. Access to quality childcare and education is recognised for its potential influence on a child’s development. The ELC was developed in response to needs of this rural community. Families petitioned Council to provide early childhood education and care. As a result a purpose built long day care facility with 43 childcare places was opened in 2016. The Service has grown significantly and is now at capacity for the younger age groups resulting in a wait list with 60+ children on it. The ELC is the only Service in Nyngan providing long day care for working families including those employed by Aeris Resources, NSW Health, NSW Police, all Nyngan schools, the Bogan Shire Medical Centre, Bogan Shire Council and farming families. Grants from the NSW Government have enabled the extension of the ELC buildings which will allow for 60 childcare places. Part of the project involves the incorporation of a block of land alongside the existing ELC. To be usable as a play area for children it requires landscaping, pathways and turf as the existing ground surface is mostly bare earth and thorns.	Complete	\$40,000	Jun-24	Sep-24
4	Community	NSW	Bogan Shire Council	Mitchell Highway Exercise Pathway – Shade Mitchell Highway, NYNGAN, NSW Installation of four shade structures covering 9 square metres each.	The Mitchell Highway exercise and recreational pathway, located in a public area next to the Mitchell Highway provides an opportunity for all members of the community, and visitors to Nyngan, to safely walk, run, cycle or use mobility aids to commute along Nymagee Street in Nyngan and over the railway line and to the Bogan River precinct.  Whilst rest stops incorporating benches were constructed along the pathway, there is no shade over them exposing people to the full effects of the Western NSW sun.  Shade structures will address sun safety and provide a safe haven from the soaring summer temperatures that Nyngan experiences.	Complete	\$16,000	Jun-24	Aug-24
4	Community	NSW	Bogan Shire Council	Bushcare education shelter Lower Weir, NYNGAN, NSW Installation of a shade shelter of approximately 24 square metres and seating for up to 16 people.	The Bogan River Bushcare Program is a community program open to all community members which benefits the local community and also provide public benefit by establishing and supporting a community group to rehabilitate weed affected and otherwise degraded public areas of the banks of the Bogan River at Nyngan to form a healthier community of native plants and animals. The program engages the general community, local school students, senior’s groups and the Aboriginal community in an intergenerational project which will include environmental education through passing on knowledge of local indigenous plants, including their propagation, to young people. There is currently no shade shelter available at the Bogan River Lower Weir area which is the key focal point for the group’s bush regeneration activities. All members of the community participating in the program will benefit from a shade shelter for Bushcare related educational talks / community meetings. The project addresses sun safety concerns and increases capacity to engage the community.	Complete	\$20,000	Jun-24	Aug-24
4	Community	NSW	Bogan Shire Council	Nyngan Showground Hoskins St, NYNGAN NSW: Fold down shelving for Showground’s Wye Pavilion Kitchen upgrade and storage room for Showground’s Walker Pavilion	The showground’s Wye and Walker Pavilions are used throughout the year by a variety of community groups and organisations for events. For example, The Nyngan Show is an annual two-day event that showcases a wide variety of local produce, skills and talent from within our shire. The Pavilions are essential to the success of the Show, and subsequent sense of community pride and ownership, as they house the community’s creative exhibits and allow community groups to provide catering, the proceeds of which support said community group and stimulate the local economy. These pavilions are available for general community use – generally free of charge - therefore the upgrades to the kitchen, shelving and additional storage will benefit any community group, individual, or organisation wishing to use the pavilions. It is proposed to replace the existing stands along the walls in the Wye Pavilion with retractable shelves that can be folded back to the wall for storage when not in use. This will also allow access to display items on the wall above the shelves and prevent the need for volunteers to climb on existing stands. Stands will only need to be unlocked and opened into position when required for display purposes rather than carried into position. This will remove the need for extensive manual handling and exhibitors standing on the shelves, removing any unsafe practices. Replacing the stands with these fold down shelves lends the pavilion more multifunctionality. The current stands take up a lot of room in the space, but the fold down shelves are much sleeker and would allow the pavilion to be used for a wider range of activities. The pavilion kitchen is very old with open shelving. It is proposed to replace the open shelves with cabinets that can be closed and locked to keep out vermin and dust and allow the kitchen’s crockery and utensils to be stored securely. This will improve the functionality and workflow of the kitchen and provide a more	Complete	\$40,000	Mar-24	Jun-24

4	Community	NSW	Bourke Shire Council	New Garbage bin enclosures Purchase new garbage bin enclosures for public spaces. Purchase of public bins enclosures for Central Park and wharf precinct to beautify area providing stronger rubbish enclosure to deter vandalism of council property. Clearing of area for placement of garbage bins and the purchase of 20 units to be placed at 5 different locations. Each unit is a dual rubbish/recycling to encourage members of the community to sort their rubbish to reduce waste.	Increased improvements to public recreational spaces Purchase of public bin enclosures for Central Park and the Wharf Precinct to beautify the area and provide additional bins to remove rubbish from the area. The bin enclosures will deter vandalism and reduce bin fires that are a significant problem. The bin encloses Council currently has in place have reduce such vandalism and have improved the aesthetics of the area. The 5 locations have been selected as they are high use areas and litter is regularly found in these locations. Adding these bins will beautify the area and make it more inviting for members of the community to use the available facilities.	Complete	\$30,000	Apr-24	Aug-24
4	Community	NSW	Bourke Shire Council	North Bourke Oval Fence Purchase and erect fence for the North Bourke Oval Fence 430 metres of fence with access gate. The fence is 900mm high.	Improvements to public recreational spaces There is currently no fencing around the oval, the oval backs onto a truck stop, this presents a rick with children utilising the facility and running out into the truck stop whilst chasing a ball. The fence will also allow for the oval to be closed off to vehicular traffic and prevent access to maintain the facility for sporting activities. It is expected that the wider community will use the facility more once the fencing is completed, there will be access gates that will not be lacked, allowing access to all pedestrian users. The visual aspect of the fence around the oval will also attract users to the facility. Also included is a fenced area as a barrier between the ovals carpark and general sitting area defining the area to help with Risks identified for all users.	Complete	\$150,000	Mar-24	Jun-24
4	Community	NSW	Bourke Shire Council	Bourke Pool furniture Purchase outdoor furniture for Bourke Swimming Pool Purchase will be of new seating that will form an integral part for the Learn to Swim Pool Splash park and 50M Olympic pool, seating will made from recycled material and covers area between the Splash park and learn to swim pool and the 50m Olympic pool these areas currently do not have adequate seating available for local users of the pool to provide supervision and to sit underneath a shaded area. The seating will cover approximately 30m are area that people will be able to sit and enjoy the complex. The seating will be permanent and fixed.	Improvements to public recreational spaces Bourke Shire Council has completed major upgrade in the past 6 years to the Swimming Pool Complex including the addition of a splash Park upgrade to the 50m Olympic pool and the installation of a program pool which includes a learn to swim area and toddlers. As with all pool seating is critical and has been identified by both council and local users of the pool that more seating is required around the new infrastructure. The current seating at the pool is very old and dilapidated. The new seating will be placed in strategic locations for parents to supervise their children and other users to benefit usage of the pool complex. New seating which will be under shade covers will be a drawcard for the locals to come and use the facility as this is something the facility has lacked in the past.	Complete	\$60,000	Mar-24	May-24

4	Community	NSW	Waverley Council	Williams Park Walking Track Fencing Construction of fencing for Williams Park Walking Track	The coastal fencing project is part of a walking track project to fill in a missing link in the greater clifftop walk by creating a walking track on the eastern boundary of Williams Park. The project is approved under the adopted Williams Park and Hugh Bamford Reserve Plan of Management. The clifftop walk has a regional visitation catchment attracting high visitation connecting Bondi Park northwards to South Head via a combination of clifftop parks and local footpath networks. The project will open up an 800m walking track link creating freater access to this park, and the coastal edge and its spectacular views, to the wider community and visitors of the clifftop walk. The fence will protect areas of significant remnant vegetation and provide a barrier to steep cliff edges which pose a high fall risk for walkers and golfers. Council cannot activate this walking track link until fencing is in place to safely support its use. Currently walkers are required to use the local footpath network along Military Road.	Complete	\$277,817	Oct-23	Mar-24
4	Road	NSW	Wentworth Shire Council	Loop Road Upgrade. Upgrade of existing 3.41km road (existing natural material – clay) to formed/paved road. Works include the following: •Re-align road in sections containing substandard curves/sight distance issues •Removal of vegetation contributing to road safety •Form road to 10m width and construct drainage (table drainage/cut-out drains) •50mm overlay at 5.5m width of limestone pavement •Installation of associated traffic control devices (signage) where required.	Problems Addressed are as follows: •Improper drainage and profile in existing road •Unsuitable natural material (clay) that becomes slippery after any rain event •Poor sight distance around curves due to vegetation •Sub-standard curves (curve radii) Community Benefit •Provide all-weather alternate route for residents and emergency services to and from properties on the Western side of Wentworth to be able to access the Wentworth township from during a flood event. Flooding has occurred twice in the last 7 years (2016 & 2022) preventing access to Wentworth via Log Bridge Road. (Safety Benefit) •Due to the existing road deteriorating immediately after rain events, the public tend to traverse around areas of water ponding/failed sections, degrading the natural vegetation and soil profile. (Environmental Benefit)	Complete	\$200,000	Jan-24	Jun-24
4	Community	NSW	Wentworth Shire Council	Wentworth Riverfront Mooring Rectification Modification to existing concrete concourse by increasing the height of the concrete pavement to allow for safe mooring of houseboats.	The work will allow safe mooring frontage to accommodate a range of different river craft and houseboats reducing the risk of damage currently caused to vessels and the mooring site frontage together with reducing the safety risks to pedestrian access to the mooring site and vessels.	Complete	\$100,000	Feb-24	Mar-24

4	Community	NSW	Wentworth Shire Council	George Gordon Oval Lights Upgrade. Upgrade of 4 existing oval lights to LED including improved lux standard and control.	The existing 10 year old Metal Halide lights are starting to fail and it is becoming difficult to source new replacement lights. LED lights are more energy efficient and allow for an improved lux standard (by weight of light). LED lights also enable an upgrade to support better control of the lights (i.e. they can be dimmed). George Gordon Oval is a public recreation reserve that is controlled and maintained by Council. The Oval is currently utilised by the Wentworth & District Football and Netball Club and the Coomealla/Wentworth Cricket Club.	Complete	\$150,000	Jan-24	Mar-24
4	Community	NSW	Wentworth Shire Council	Dareton Men in a Shed Fire Services Installation. Installation of new fire services at the Dareton Men in a Shed facility.	The Dareton Men in a Shed group have recently moved from a privately owned building to a Council controlled building. This move prompted a review of the building to ensure that the activities of the Men in a Shed group were compliant with the relevant Building Code. The change in use of the building to facilitate the occupancy of the Men in a Shed group necessitates the installation of additional fire services to ensure compliance with the building code.  This project will address an issue that has a direct use and benefit for the community. The building whilst only available for a limited age group of the community, is used for the provision of an essential community service.  The Men in a Shed program provides a place where men can pursue hobbies and interests with other men and support each other. It provides an important place for men to stay engaged with the community. The health and wellbeing benefits of the Men in a Shed program have been well documented.	Complete	\$100,000	Apr-24	Jun-24

4	Community	NSW	Bathurst Regional Council	Senior Citizens Centre Roof – Replace This project is to replace the roof to the Bathurst Senior Citizen's Hall. Replace roof tiles with colour bond sheeting (approx. 490m2). Lift back section of roof due to being too flat and water leaking into the building. (approx. 130m2 of roofing to be modified).	Existing roof of Senior Citizen's Hall currently leaks which causes a safety issue and public health concerns.	Under construction	\$100,000	Jun-24	Jun-25
4	Community	NSW	Bathurst Regional Council	Russell Street Pop-Up Bollards Installation of 13 removable bollards across the 23m width of Russell St, at each end between William and George St (26 bollards in total) allowing a full traffic closure. Works include service locating, saw cutting, excavation, supply of bollards and sleeves, installation of concrete footing and sleeves and pavement repair.	Russell street is frequently closed for community event or community groups (10+ per year). These closures are completed at a cost to Council or the community group and depending on the event utilise either barrier boards or concrete barriers. Barrier boards only provide a visual deterrent and concrete barriers are costly, unsightly, act as a barrier to pedestrians and result in pavement damage during installation and removal. The adoption of removable barriers will provide a more cost-effective, better-looking road closure solution, with improved safety for the community and user groups.	Under construction	\$150,000	Mar-24	Jun-25
4	Community	NSW	Bathurst Regional Council	Streetlight Lampstands – Rehabilitation Undertake conservation works to the 100-year-old street and park lamp standards to rectify ongoing corrosion and water ingress issues. There are 114 lamp standards with their locations within the Bathurst Township.	The project will conserve local and state listed heritage items. The streetlamp standards are an iconic element of Bathurst’s CBD streetscapes. Their conservation will ensure that the historic amenity of the Bathurst CBD is retained. The project is supported by the Heritage Lamp Standards Condition Assessment 2023.	Under construction	\$200,000	Jun-24	Jun-25

Phase	Infrastructure type	State	Funding Recipient	Project Name	Problem Description	Status	LRCI Funding (approved)	Start date	End date
4	Community	NSW	Blacktown City Council	Install drainage - Corbin Reserve, Quakers Hill. Install sub-surface and surface drainage and irrigation to improve playing surface and access during wet periods.	The sporting field is unplayable during periods of prolonged weather. The irrigation is aged, inefficient and does not provide adequate irrigation to the entire playing surface. This project will enable greater participation in community sport by providing a playing field that is fit for purpose, safe and can be used during climatic extremes of wet weather and/ or high temperatures. This in turn provides satisfaction to the local sporting community	Under construction	\$467,000	Aug-24	Mar-25
4	Community	NSW	Blacktown City Council	Installation of LED lights at Morgan Power Reserve and Popondetta Reserve Installation of LED lights, power and poles for 2 sport facilities at the following locations: 1. Morgan Power Reserve, Kings Langley – install 28 LED lights, install power and 2x25 metre poles 2. Popondetta Reserve, Emerton – Install 30 new LED lights at the netball courts. Install power and 2x25 metre poles.	This will enable the sporting club to use fields at night for training and games	Under construction	\$560,000	Dec-23	Dec-24
4	Community	NSW	Blacktown City Council	Upgrade playground at 4 various locations Upgrade aged and failing playground area, reserve embellishments such as planting, project also includes park shelter and seating at the following locations: 1. 4	Community	NSW	Bland Shire Council	New Wyalong Pound Facility Demolition of existing pound facility and replacement with a custom designed pound facility to accommodate cats and dogs including the following : New building, dog and cat cages, dog run, watering facilities, internal fitout	Existing facility at end of useful life, building in poor condition non-compliant in regards to animal welfare and WHS for staff utilising facility. Current Pound facility handles approximately 500 cats and dogs per year. New facility will enable easier access for community to drop off. Also enable healthier facility for animals to be homed prior to rehoming. Majority of animals that access our pound are rehomed either locally or to rehoming organisations across the state	Under construction	\$631,000	Feb-24	Jun-25
4	Community	NSW	Bland Shire Council	RSL Walk completion Addition of lighting, signage, art that celebrates our armed forces using metal cutouts that represent each of the armed services, painting of facility, drainage channel stabilisation approx. length 400m to support the walkways from potential erosion.	Completion of a long term project, to celebrate the history of Bland Shire representation in armed conflicts from Boer War through to Afghanistan with recognition of each of the armed services. This will be the final stage for the project with installation of new components	Under construction	\$220,000	Feb-24	Jun-25
4	Community	NSW	Bland Shire Council	Rose Garden Beautification Replacement Footbridge approximately 3m in length, internal paths to provide access to seating and defined pathways across internal drainage channel, solar lighting to enhance access at night time, garden edging and irrigation system renewal	Beautification of main entry into town. Improved community safety around open drain by properly defined pathways	Under construction	\$157,000	Feb-24	Jun-25
4	Community	NSW	Bland Shire Council	Rugby Union / Camp Draft Precinct water project Extension of recycled water main (1400m) installation of pumping infrastructure and earthworks at the dam, 2x potable water connections	Improvements to playing surface of Rugby Union facility and more secure supply of water for dust suppression for Camp draft facility, supply drinking water for facilities. 4	Community	NSW	Bland Shire Council	Community Building Maintenance and improvement projects Water saving taps on public amenities, External painting of School of Arts and Wyalong Hall, Pool residence- internal maintenance including floor levelling, bathroom modernisation and kitchen upgrade, floor repairs Barmedman Hall	Ageing buildings requiring major maintenance to protect and maintain. Barmedman Hall used for public events floor unstable, School of Arts and Wyalong Hall are both Heritage buildings with significant history within Bland Shire. Barmedman Hall, Wyalong Hall and School of arts are open for hire by the community for events which include weddings, Have been used as polling booths.	Under construction	\$186,827	Feb-24	Jun-25
4	Community	NSW	Bogan Shire Council	Skate Park – O’Reilly Park Bogan St, NYNGAN NSW: Installation of new concrete skate park.  Together with a co-contribution from NSW Government, funding is expected to be sufficient to construct a facility of up to 500 square metre in extent.	The skate park is in a public area and is available to the wider public. From community consultation with young people from the three schools in Nyngan, as well as the wider community, Bogan Shire Council has identified a need for more outdoor physical activities for the 10-15 year old age group. The existing skate park is dated and comprises steel structures which get very hot in the sun causing safety issues. Council has received complaints of children being burned from the hot metal surfaces.	Under construction	\$200,000	Jul-24	Oct-24
4	Community	NSW	Bogan Shire Council	Youth and Community Centre – acoustic improvements 46 Cannonbar St, NYNGAN NSW: This project relates to the ceiling and walls of the main community space (196 square metres in extent) of the Bogan Shire Youth and Community Centre which was constructed in 2021. The scope of works includes the commissioning of a report from an acoustic engineer to identify and understand acoustic issues, design a solution and then the installation of a range of acoustic measures to address these.	The Bogan Shire Youth and Community Centre is available to the wider public, including youth drop-in sessions every weekday afternoon with other facilities subject to a booking system. The building includes a high, vaulted ceiling in the main community space. Since opening the Centre, strong community feedback has been received concerning the noise levels in the building when events are occurring, including youth drop-in sessions every afternoon. Advice suggests that the elevated noise levels from teenagers yelling and having fun in the Centre contributes to heightened tensions within the group whereas a quieter environment would have a calming effect. In addition, having held the annual Bogan Shire Senior’s Week morning tea in the main hall area, strong feedback from the senior members of our community was that they were unable to hear the Mayor’s address because of echoes and poor acoustics.	Under construction	\$30,000	Aug-24	Dec-24

4	Community	NSW	Bogan Shire Council	Bushcare Community Hub – Shade 197 Pangee St, NYNGAN NSW Installation of shade sails to cover 36 square metres of volunteer work area.	The Bogan River Bushcare Program is a community program which benefits the local community and also provides a public benefit by establishing and supporting a community group to rehabilitate weed affected and otherwise degraded public areas of the banks of the Bogan River at Nyngan to form a healthier community of native plants and animals. The program engages the general community, local school students, senior’s groups and the Aboriginal community in an intergenerational project which will include environmental education through passing on knowledge of local indigenous plants, including their propagation, to young people. The project includes the creation of a Bushcare Hub with an accessible plant nursery as a community space to facilitate all of this. The Hub is open to all community members who wish to be part of the program and comprises a growing area with fixed propagation benches and irrigation, accessible parking and pathways, a storage shed and an outdoor seating area for community education and group meetings. There is currently no shade over some of the propagation benches which exposes volunteers to the full effects of the Western NSW sun. Shade will address sun safety.	Under construction	\$30,000	Sep-24	Jan-25
4	Community	NSW	Bogan Shire Council	Larkin Oval and Parks – CCTV and lighting Bogan St, NYNGAN NSW Installation of five CCTV cameras and associated LED lighting.	The cameras will be in public areas available to the wider public and benefit public safety. There has, unfortunately, been an increase in vandalism and petty crime within the township of Nyngan. Our newly installed children’s playground equipment was vandalised on the evening of the first day it was installed, for example. There are certain hot-spot areas where lighting and cameras would provide a deterrent to those contemplating anti-social behaviour. Placement of cameras is in consultation with NSW Police.	Under construction	\$80,000	Sep-24	Mar-25
4	Community	NSW	Bogan Shire Council	Extension of Mitchell Highway Exercise and Recreational Pathway – Mick Glennie Aged Care Facility to Heritage Park Hoskins St / Mitchell Highway, NYNGAN, NSW Construction of approximately 500 metres of concrete path and 50m of walkway decking to extend the existing Mitchell Highway Exercise and Recreational Pathway	There is currently no safe walking path linking Nyngan’s main street and the recreational precinct with Mick Glennie Aged Care Facility and north Nyngan. The exercise and recreational pathway located in a public area will provide an opportunity for all members of the community, and visitors to Nyngan, to safely walk, run, cycle or use mobility aids to commute along this busy roadway which includes a heavy vehicle truck stop. The following groups will derive benefit: - Those wanting a free of charge outdoor exercise opportunity - Those with young children and prams wanting a safe pathway along this busy route - Those with mobility issues, including the elderly and disabled who currently travel on the busy street. - Visitors to town wanting to sight-see and exercise - Those living in north Nyngan, including Mick Glennie Aged Care Facility requiring a safe accessible pathway to the CBD.	Under construction	\$190,000	Aug-24	Feb-25
4	Community	NSW	Bogan Shire Council	Footpath / Walkway – Tabratong Street Hoskins St, NYNGAN NSW: Construction / reconstruction of approximately 250 metres of concrete footpath / walking path	There is currently no adequately formed footpath linking the network of paths around the Larkin Oval Recreational Precinct with the Main Street of Nyngan. Part of this route includes old, broken concrete pavers whilst in other parts there is no formed footpath. The route carries significant volumes of pedestrian traffic and many pedestrians, including parents with prams and young children on their way to the town swimming pool and O’Reilly Park playgrounds choose to walk in the road as a result of the existing poor surface.	Under construction	\$50,000	Aug-24	Feb-25
4	Community	NSW	Bogan Shire Council	Youth and Community Centre – Garden landscaping 46 Cannonbar St, NYNGAN NSW: Irrigation and planting to five garden areas at the Bogan Shire Youth and Community Centre totalling approximately 100 square metres.	The Bogan Shire Youth and Community Centre is available to the wider public, including youth drop-in sessions every weekday afternoon with other facilities subject to a booking system. Newly constructed in 2021, funding has not been available to develop the garden areas surrounding the Centre. It is anticipated that youth attending the drop-in sessions at the Centre will participate in some planting activities which will promote inclusiveness and a sense of ownership for them. In addition, having nice garden beds will increase the visual amenity of the surroundings as well as lowering ambient air temperatures, helping to reduce the urban heat island effect.	Under construction	\$5,000	Aug-24	Dec-24
4	Community	NSW	Bogan Shire Council	Nyngan Tennis Court Fencing 46 Cannonbar St, NYNGAN NSW: Replacement of approximately 30 metres of fencing.	The Nyngan tennis courts are in a public area and are available to the wider public. Sections of fencing surrounding the courts have deteriorated over the years to the extent that they are rusted, leaning over and have damaged sections with gaps in them. This prohibits the effective use of the courts as tennis balls cannot be contained within the court area. In addition, there are safety concerns around the structural integrity of the fence. Replacement of the fence will also improve the visual amenity of the area.	Under construction	\$10,000	Sep-24	Dec-24

4	Community	NSW	Bogan Shire Council	Girilambone Train Station Museum Mitchell Highway, GIRILAMBONE, NSW A key attraction at the newly renovated Girilambone Train Station Museum, which was built in 1884, are the two 1950's era rail carriages that once actually ran on this now defunct line. Bogan Shire Council acquired the two carriages for public display. Works include removal of graffiti from the carriages, repainting them in original colours and partially refitting the interiors with assistance from a volunteer group.	The village of Girilambone is located 44 kilometres from Nyngan, itself 700 kilometres west of Sydney on the main highway to Bourke and Western Queensland. The museum as a heritage railway station is very popular and the renovated carriages will encourage more people to this facility which is free and open to the whole community, including providing a function centre which is available to all and free for use by local community groups. Currently the carriages, parked at the station platform, are in a poor condition which is not visually attractive. Internal work needs to be done to the carriages to make them safely accessible to the public. This project addresses safety concerns and visual amenity. In addition, their restoration by a group of volunteers will build community cohesion in this isolated village and engender a sense of ownership in the local community.	Under construction	\$35,000	Aug-24	Jun-25
4	Community	NSW	Bogan Shire Council	Rotary Park Entrance Mitchell Highway, NYNGAN, NSW Widen access road into Rotary Park from single lane to dual lane and improve visual appeal of entrance by creating a feature entranceway comprising two 6 metre long walls out of sandstone blocks.	Rotary Park is just on the western boundary of Nyngan, on the Bogan River and the Mitchell Highway which is the main highway to Bourke and Western Queensland The current entrance to Rotary Park is not visually appealing and has a narrow, single-vehicle access ramp over the drain that crosses it. Many people access the park to use the boat ramp into the Bogan River and the narrow entranceway creates a traffic hazard with accidents reported in this location. This project will enhance the visual appeal of the park entrance, encouraging more people into the park as well as improving accessibility and safety by widening the narrow crossing.	Under construction	\$30,000	Oct-24	Mar-25
4	Community	NSW	Bourke Shire Council	Community Tree Planting Program Tree planting	Landscaping Improvements as a result of prolonged drought This program is to replace the many trees that died in the drought with trees that are potentially drought tolerant. They will provide shade for pedestrians and users on the various footpaths, also providing shade for vehicles who park along the verge. Bourke has long hot summers and shade for the community is important. The project will expects to plant 300 trees.	Under construction	\$100,000	Mar-24	Mar-25
4	Community	NSW	Bourke Shire Council	New Park and Public Spaces Public space/outdoor furniture/ signage 6 Shade shelter and seating (including wheelchair friendly tables) 10 Signs for remote supervision of designated park Inclusive playground equipment at existing playgrounds	Increased accessibility and improvements to public recreational spaces 6 Shade Shelters and seating will be installed in Councils current parks, the seating is also going to include accessible tables to be inclusive for person in wheel chairs. There is current a shortage of public seating for users of the facilities. The tables and chairs will encourage users to utilise the parks. This will encourage community to use the facility for Birthday Parties, Mothers groups and play group as an example. 10 signs for remote supervision to be installed at Council parks, identifying risks and hazards. Also, detail aspects of the park and what is included at that park. Inclusive playground equipment to be installed, to cater for users with disabilities, for visitors and locals.	Under construction	\$100,000	Apr-24	Dec-24
4	Community	NSW	Bourke Shire Council	Swimming Pool Club House upgrade Purchase and erect new Pool Club House for Bourke Swimming Club 65m2, kitchen facilities and unisex toilet	Improvements to public recreational spaces The Club House will be 65m2, the facility will include small office space, kitchen and unisex toilet. The old clubhouse contains asbestos and has white ant damage. The new club house will have an area for storage for Bourke Swimming Pool equipment such as lane ropes and learn to swim equipment use by the Bourke Community. A small kitchen will be included for food preparation for users of the facility including Swimming Club, School Carnivals both local and regional and community groups utilising the Pool facility. Users of the facility will also have access to the unisex toilet, this has been raised as a problem with the schools and supervision of children, currently they have to walk approximately 100m to access the pool complex toilets. The clubhouse will also be used by local community groups that access the pool complex for meetings and exercise area.	Under construction	\$100,000	Jun-24	Dec-24
4	Road	NSW	Bourke Shire Council	Off road facility and truck parking bay Road works and structures to accommodate 24 hour, All weather parking that will support the community economy.  Sealed truck and community parking area 4000m2 to incorporate 2 disability parking bays, 20 general community and car parking bays, 12 Truck parking bays, 120m x 1.2m monument aluminium fencing to segregate designated areas and provide safety barriers for community and users of the facility. Accessible unisex toilets and shower facilities 46m2 which will include 2 accessible unisex toilets and 2 accessible unisex showers (Meet Australian standards AS1428.1-2009 Design for access and mobility, Colourbond and steel construction with concrete paths for entry and accessibility, graffiti resistant surface coatings, vandal resistant fixing methods, visibility enhancements including indoor lighting and landscaping, robust design to deduce damage opportunities, 4 outdoor solar lighting) - 3 x community picnic park shelters 75m2 (Aluminium design, concrete floor and paths to integrate with toilet and shower area, 4 solar lighting, 6 accessible aluminium table and chair settings, landscaping around picnic park shelters to include native drought tolerant plantings for visibility enhancement)	The facility will allow overnight stays for heavy vehicle and persons within the community. 4	Road	NSW	City of Parramatta Council	Hunts Creek Culverts Replacement at North Rocks Road, North Rocks, NSW Replacement of existing Hunts Creek’s twin-cells corrugated steel culverts (approx. 3500mm diameter) with a 35m long single span bridge structure	Problem Addressed: heavy vehicles breaching the limit have been observed, raising significant safety concerns. Additionally, the current culverts are vulnerable to blockage during significant storm events. The structure’s flood immunity is approximately 1:2 ARI years, and the road has experienced regular overtopping during significant storm events. Addressing these concerns is imperative to ensure the safety, efficiency and productivity of North Rocks Road.  Community Benefits: the project aims to improve community access for heavy vehicles, offering most direct route from main roads to the south of the industrial park. The proposed improvements include an improved hydraulic capacity underneath the bridge, a reduction in flood levels and extents, and improved flood immunity, transitioning from 1:2 ARI years to 1:5 ARI years. 4	Community	NSW	City of Sydney	Park Evening Lighting Project– Joynton Park Design, Supply and Installation of estimated seven new park lights complying with City of Sydney Park lighting code and relevant Australian Standards to provide park evening lighting. The actual number of lights is dependent on the final design. Once installed, lights will be added to City of Sydney lighting network and the Council will be the asset owner.	Currently there is no lighting of the open space areas within the Joynton Park. New lighting will improve evening recreational activities and public safety. The project was initiated following strong public interest and support. Evening lighting is a sustainable service that will make our open spaces more inclusive and available to more diverse range of community members. Park lighting and night time activation of open spaces with lighting is an identified action in the City of Sydney’s long term strategic direction to enhance the open spaces.	Under construction	\$450,000	Sep-24	Jun-25
4	Road	NSW	City of Sydney	Christies Lane road drainage upgrade Design and construction of road drainage upgrade to address the road flooding issue including upgrade of exiting Kerb inlet pits, upgrade of existing road drainage pipes (approximately 90 metres), localised re-grading of road surface, re-instatement of kerb and footpath on Christies Lane, Frog Lane, and Portman Street (approximately 90 metres).	Inadequate and under-capacity road drainage infrastructure causes significant flooding on Christies Lane and surrounding area affecting safety of the road user, pedestrians, and adjoining properties. The proposed project will upgrade the drainage capacity of the underground stormwater infrastructure and improve the functionality to drain the water from the road quicker and avoid water pooling. This will improve the safety of road users and pedestrians around the area. The project will also mitigate the flooding impact on adjoining properties.	Under construction	\$415,560	Aug-24	Jun-25

4	Community	NSW	Cobar Shire Council	Lilliane Brady Village Upgrades Stage 1 Council proposes to upgrade the Lilliane Brady Village to improve the quality of the facility. The upgrade will include improving the main entrance, expanding office space, building new storage space, and upgrading the current bathroom facilities. The works will include general repairs, internal extensions, and building upgrades.	The Lilliane Brady Village is an aged care facility that requires some much-needed upgrades to ensure the residents have access to quality and well-maintained service. The entrance to the building has minimal space and no room for an appropriate area for visitors to complete their mandatory RAT test. Currently visitors to the facility have to wait outside in the elements until they have completed a test. Upgrading this entrance will ensure there is sufficient space for a RAT testing area inside the facility and an adequate reception area. The current bathroom facilities within the LBV do not comply and requires upgrades to meet standards and achieve compliance. The administration area within the facility requires an internal extension, currently there is minimal office space and storage space. Administration staff are currently using resident rooms to utilise for office space and store equipment. This is not ideal as it is reducing the number of residents that could be using the facility. The internal extension will ensure the resident rooms are used for their purpose and an adequate office space is created, along with appropriate storage areas. These works will benefit the residents most importantly but also improve the visitor experience to the facility.	Under construction	\$885,211	Sep-23	Jun-25
4	Community	NSW	Cobar Shire Council	Town Enhancement Program Council proposes to invest in the value and quality of our public community spaces in our LGA. Improvements will consist of but not to be limited to <del>•</del> New bins and covers (\$25,000) at Ward Oval and Cobar’s Miners Heritage Park <del>•</del> Planting of trees and plants (\$80,000) throughout the town <del>•</del> New seating (\$25,000 ) at Ward Oval, Cobar’s Miners Heritage Park, and the CBD area <del>•</del> Landscaping within the CBD (\$70,000)	The enhancement program invests in creating attractive public spaces that have quality facilities for our community and visitors. Cobar CBD area, public carparks and community parks require more seating, bins for the public to use. Our town also requires more plant and tree planting to make the public space more vibrant and to provide shade. By providing accessible, comfortable, and quality facilities at public spaces, it enhances the ‘liveability’ and good image for our town. Which in return invites and can bring more residents, tourists, and businesses to town, which also helps the local economy.	Under construction	\$200,000	Sep-23	Jun-25
4	Community	NSW	Coffs Harbour City Council	Thompsons Park Off Leash Area Upgrades Installation of approx.. 100m of fencing around a dedicated ‘small dog’ enclosure and minor plantings and revegetation works	Currently the off-leash park area does not have allocated areas for dogs of differing sizes. The objective of the project is to provide a dedicated area for small dogs only.	Under construction	\$35,096	Aug-24	Nov-24
4	Community	NSW	Coolamon Shire Council	Coolamon Showground Multipurpose Exhibition & Adaptive Space Construction of community facility at the Coolamon Showground that can be used for public and private events. The facility will be a two storey building 20m x 14.5m in size. The ground floor will comprise of male, female and disabled toilets, bar accessible to the outside, meeting room, store and kitchen. The second floor will comprise a function room, kitchen, store, bar accessible to the balcony, disabled toilets and balcony.	The township of Coolamon does not have a community owned multipurpose space that can cater for events greater than 100 people. Coolamon Shire Council has undertaken a business plan and strategy development for improvements to the Coolamon Showground and the construction of this space would be part of the overall proposed phased development. Longevity with Astro turf.	Under construction	\$25,000	Dec-23	Dec-24
4	Community	NSW	Cootamundra-Gundagai Regional Council	Cootamundra, Nicholson Park, Sports Field, Drainage Replacement Scope of works. • Install drainage mains and sumps; 50ml. piped laterals @ 4 mt. centres east-west. • Install unpiped gravel-sand carrier lines @ 5 mt. centres north south. • Install new irrigation system, class 12 high pressure PVC piping and T7 stadium sprinklers. • Trench- compact all areas with aggravator and apply sand growing medium blanket • Fertilize and encourage re-growth to a desirable turf surface.	Cootamundra experiences harsh winters and summers. Inefficient drainage in winter leads to the ground retaining water, unable to be maintained with even the basics of mowing and grounds being unplayable and inaccessible. An existing inefficient irrigation system hinders grass growth in summer, leading to bare sections within the playing area and during very hot periods with no water, cracks appear, the surface then becomes unsafe and the risk of participant injury is heightened. This will ensure the park is truly multi-purpose and able to be used by multiple community groups.  The upgrade also aligns with Council's "Cootamundra 2050 Strategy", to ‘Establish precincts across Cootamundra - Create a master plan for Murray Street/Sports Precinct’ with ‘Sporting facilities and recreation areas noted as being synonymous with Cootamundra for most people during community engagement.’	Under construction	\$264,500	Feb-24	Dec-24

4	Road	NSW	Dubbo Regional Council	Brisbane Street K&G and Footpath Reconstruction The Brisbane Street K&G and Footpath Reconstruction between Reakes Avenue to Mitchell Street. This will involve the removal and replacement of the existing footpath, K&G, driveway crossovers, street tree assets, and installation of some minor stormwater drainage assets. The length of footpath being replaced is approximately 113m.	This footpath is in a poor condition and drainage issues on the road shoulder have been raised. The solution to these issues is reconstruction with minor level improvements to the drainage infrastructure. This footpath provides an important link between large residential areas of Dubbo and commercial services. These stormwater works will also help reduce water ponding issues identified in this area which will benefit both pedestrians and road users.	Under construction	\$342,136	Sep-24	Oct-24
4	Road	NSW	Dubbo Regional Council	Gipps Street K&G and Footpath Reconstruction The Gipps Street K&G and Footpath Reconstruction between Wingewarra Street and Bultje Street-. This will involve the removal and replacement of the existing footpath, K&G, driveway crossovers, street tree assets, and installation of some stormwater drainage assets. The length of footpath being replaced is approximately 120m.	This footpath is in a very poor condition and is subject to both localised property flooding and road shoulder ponding issues. The road shoulder, footpath, and kerb line have all been damaged by existing street trees which contributed to uneven levels and safety concerns. This area also hosts a community group with a large elderly contingent who have difficulty navigating the area. The solution to these issues is reconstruction of these assets with level improvements to and the addition of four new stormwater inlets. These works will help reduce water ponding/flooding issues benefiting both pedestrians and road users.	Under construction	\$428,000	Oct-24	Jan-25

4	Community	NSW	Muswellbrook Shire Council	Replacement/refurbishment of sand filters and associated improvements at the Muswellbrook Water Treatment Plant, Scott Street, Muswellbrook NSW 2333 Project management, preparation of tender schedules and other documents for the project, engineering design, awarding tender (advertising, submission, Council decision and contracting), source media (possibly USA), site preparation, removal of existing media including backwash modification, underdrain clean and repair, install new air scour grill, media replacement, filtered access points, and commissioning. The cost of Project management will be covered by the Regional NSW Infrastructure Betterment Fund.	The filters at Muswellbrook Water Treatment Plant are older style filters designs that do not meet typical modern design standards. The Plant’s sand filters are therefore challenged in achieving Health Critical Control Limit targets in the water treatment process, particularly during heavy rain events when the ‘run of river’ raw water supply becomes high in turbidity. There are several areas which could be upgraded to improve their operation/performance: •Launders: The filters are not equipped with launders. The travel distance between the walls of the filter cell to the washout gullet is much longer than typical design targets. •Media configuration: low L/d ratio and limited backwash bed expansion. •Underdrains: nozzle density is low. •Backwash and air scour rates: backwash rates insufficient to achieve bed expansion and there is no control of air scour rate. The refurbishment of the sand filters will provide an efficient barrier to the removal of chlorine resistant pathogens such as Cryptosporidium from the water supply, reducing health risks, which were identified in a recent Drinking Water Management System risk assessment review for high priority investigation and rectification.	Under construction	\$240,814	Aug-24	Jun-25
4	Community	NSW	Nambucca Valley Council	Further upgrade of drainage for EJ Biffin Playing Fields (No. 2) Improve the drainage to the playing field with the installation of sub-surface drainage mainlines (150mm PVC) with risers installed at 3m intervals and carrier lines (laterals) spaced 3m apart, utilising 50mm ag pipe. Carrier lines connected to main lines with industry approved connectors. Finishing is to be sand grooving, covered with Coffee sand spread evenly of playing surface, and eventual seeding to re-establish grassed playing surface.	Maintenance to prevent field flooding and inundation in wet weather events	Under construction	\$250,000	Jul-24	Dec-24
4	Community	NSW	Nambucca Valley Council	Partridge Street Playground Shade Structure and Landscaping Install metal posts and UV stable shade cloth. Provide footpath link to adjacent path, upgrade seating and landscaping in Park and installation of new bin.	No shade over existing playground and additional landscaping required for better amenity	Under construction	\$115,000	Jul-24	Jun-25
4	Community	NSW	Nambucca Valley Council	Hodge Street Park/Playground Refurbishment Remove old play equipment and failed soft fall edging, and replace with new equipment and edging.	Refurbishment of playground for better safety and amenity	Under construction	\$80,000	Jul-24	Jun-25
4	Community	NSW	Nambucca Valley Council	Adin Street Reserve Meeting Area Provide a sitting area in the Adin Street Reserve, Scotts Head at the south western end adjacent to the road reserve. Utilise recycled timber in the construction of the seating.	No established meeting point in Scotts Head community	Under construction	\$20,000	Jul-24	Jun-25
4	Community	NSW	Nambucca Valley Council	Valla Beach – Anderson Park Skate park upgrades Engage contractor to perform a Light Grind of all concrete surfacing; repair spider/settlement cracking; Undertake Hone of all surfaces; two applications of densifier; apply hard wearing semi-penetrative Penshield Ultra Sealer.	Surface of skate park rough and unsafe in sections	Under construction	\$35,000	Jul-24	Jun-25
4	Community	NSW	Nambucca Valley Council	Marion Wood Netball Courts, Macksville - Lighting Renewal Remove all aging non spec electrical fixtures, fittings and equipment; install commercial grade LED lighting upgrade including new lights, new cross arms to existing poles, new roadside public area spec site main switchboard with safety switches, new wiring where required and replacement of all conduits and wiring to existing lighting poles.	Current lighting insufficient for dull days and night matches	Under construction	\$85,000	Jul-24	Jun-25
4	Community	NSW	Nambucca Valley Council	Gordon Park Splash Park Provide concrete slab with rubberised UV stable surface with in-ground and above-ground low water use features and smart controller. Project includes minor landscaping.	Need for community facility for benefit of families with young children (safe water play) – both locals and visitors – to the Nambucca River Foreshore	Under construction	\$183,865	Jul-24	Jun-25
4	Road	NSW	Narrabri Shire Council	Drainage Narrabri Bowen Street, Narrabri (65m) – Between Maitland Ln and Barwan Street (LHS) Hinds Street, Narrabri (340m) – Between Wilga and Violet Street (LHS) Replacement kerb and guttering	Improve kerb and guttering to protect the road from water entering under the surface by improving drainage. This means the road condition is improved and there will be less potholes and defects in the road surface.	Under construction	\$225,176	Dec-23	Jun-25
4	Community	NSW	Narrabri Shire Council	Lighting at sport field ovals (three locations) •Collins Park, Narrabri •Jubilee Oval, Boggabri •Book Oval, Wee Waa Install LED lighting at sports field ovals	Upgrade to multi-level lighting for increased participation on two ovals for local and regional activities at Collins Park Narrabri and Jubilee Oval Boggabri. Providing adequate lighting increases sport participation, especially in winter when it is becomes darker earlier in the evening. In Summer, the lighting will allow for sports to be played later in the evening when the temperature has dropped.	Under construction	\$900,000	Dec-23	Jun-25
4	Community	NSW	Narrabri Shire Council	Boggabri Court House (historical significance) Stage 2 – kitchen renovation, plaster, painting, toilet upgrades, verandah improvements	Manage and renovate infrastructure and other assets on public reserves to optimise value to the community and comply with regulatory obligations, to ensure public safety and work health and safety is maintained.  The former courthouse is now Boggabri’s only community centre. Similarly, to a town hall, it is not open for anyone to wander around, instead community groups can book to use it. Currently, only two groups are using it a couple of hours, four days per week. More groups are keen to use the facility, if the 50 years old kitchen and toilets were in usable condition. Council is keen to improve the facility so it can be more widely used and occupied fully every day.	Under construction	\$90,000	Dec-23	Jun-25
4	Community	NSW	Narrabri Shire Council	Drainage - Narrabri Lawn Cemetery Replacement kerb and guttering (1400m)	Improve kerb and guttering to protect the road from water entering under the road surface by improving drainage. This means the road condition is improved and there will be less potholes and defects in the road surface.	Under construction	\$200,000	Dec-23	Jun-25

4	Community	NSW	Narromine Shire Council	Narromine Shire Chambers Roof replacement To replace the existing roof on Council's Chambers and Administration building, this includes installing a new roof (with new roofing material – corrugated iron) new gutters and downpipes minor internal repairs to ceilings and walls (water damage).  The current roof design of this building will NOT be altered from the existing roof line.	Prevent the Chambers and Administration Building from leaking during rain events and to improve the integrity of the roof infrastructure. The Narromine Shire Council Chambers and Administration Building is integral to the day-to-day decision-making of local government and governance this includes housing the functions of the Mayor and elected members, General Manager, Engineering and Infrastructure, Community Economic Development and Planning, Governance and Human Resources staff members.	Under construction	\$250,000	Apr-24	Jun-25
4	Community	NSW	Narromine Shire Council	Trangie Library Extension The scope of this extension project is to extend the library by 43 m² (at the rear of the building) i) demolish the existing bathroom facilities; ii) create a storage area that does not exist currently at the Library, and iii) construct a new disabled toilet that will have both internal and external access, using the same construction materials (brick) of the current Library.	There is no storage space at Trangie Library premises, this construction project will allow for additional space that will include a storage area and a new disabled bathroom. There is no storage space at Trangie library under the current footprint and the bathrooms are dated and difficult to access for patrons in wheelchairs.	Under construction	\$220,000	Apr-24	Jun-25
4	Community	NSW	Narromine Shire Council	Narromine Library UPGRADE To alter the internal layout of the existing Narromine Library that will include a disabled bathroom facilities. The area in total is 40 m² and will be internal alterations only.	This upgrade project will increase the capacity of rooms within the library and for a generous disabled toilet area for all patrons visiting the Library.	Under construction	\$180,000	Apr-24	Jun-25
4	Road	NSW	Narromine Shire Council	Gainsborough Road intersections (Tullamore Road and Tomingley Road) To allow for a slip lane at both intersections for turning traffic Under LRCIP funding Round 1, Council has upgraded Gainsborough Road to a Hierarchy 1 Road, ensuring the road can be used as a heavy vehicle bypass. To meet Australian Road Standards and Transport for NSW guidelines, Council must construct new intersections at the entrances to Gainsborough Road. The new intersections will be expanded from one lane with turning lanes and slip-lanes incorporated. On Tomingley Road an additional three lanes will be added, a left and right turn on the southbound carriageway and an acceleration lane on the northbound carriageway. The additional lanes have a chainage of 210 metres. On Tullamore road an additional two lanes will be added over a chainage of 200 metres, left turn lanes on both the southbound and northbound carriageways. At the completion of the intersection upgrade Council will classify the route as an official heavy vehicle bypass, significantly reducing traffic into the town’s centre, reducing dust, noise, odour and risk to the residents of Narromine.	Safety and traffic movement improvements	Under construction	\$149,690	Apr-24	Jun-25
4	Community	NSW	Newcastle City Council	Footpath – Frederick St, Merewether (Coane to Berner) Construction of 94m of new footpath	Lack of footpath along busy Regional Road in residential and recreational area. 4	Road	NSW	Richmond Valley Council	Broadwater Bridge Replace the centre span of the Broadwater Bridge removing the current timber deck and steel girders with concrete deck and concrete girders.	The bridge crossing the Richmond River at Broadwater is the key link between the sugarcane growing region of the Richmond Valley, Lismore City, and the Broadwater Sugar Mill. The Richmond Valley produces more than 776,000 tonnes of sugar cane each year (45% of regional production) with an estimated value of \$32m.  It also provides access for other agricultural and residential traffic from this region to the Pacific Highway interchange at Broadwater.  Inspections and risk assessments have required the bridge to be load limited and reduced to one lane which is having a significant impact on travel time and business efficiencies.	Under construction	\$1,002,214	Oct-24	Apr-25
4	Community	NSW	Snowy Monaro Regional Council	John Connors Oval Lighting Upgrade Installation of 4 field light towers, upgrading from halogen to 5 LED sport lights to AS playing standards at John Connors Oval, Jindabyne.	Current lighting system has ongoing maintenance concerns with bulbs failing with no ease of replacement, which leads to sports clubs training in low-light conditions. By upgrading to an LED system, minimal maintenance would be required and will provide significantly improved lighting for the field. Current lighting does not meet Australian Standards for ball sports and existing towers have reached end of life and do not meet current engineering standards. Upgrade will ensuring safer, increased use and enhanced user experience.	Under construction	\$80,000	Sep-24	Dec-24
4	Community	NSW	Snowy Monaro Regional Council	Dalgety Oval Irrigation Repair and Safety Upgrade Replacement of existing 100m rural grade water line that crosses the Oval with town-grade blue line poly pipe with isolating valves at Dalgety Oval	The existing water line for irrigation at Dalgety Oval is deteriorating leading to regular leaks which impacts use of the site by community and sporting groups. By upgrading the water line, it reduces the risk of impacting the field and reduces risk of injury to the public.	Under construction	\$10,000	Sep-24	Dec-24
4	Community	NSW	Snowy Monaro Regional Council	Cooma Showground Tree Amenity Removal and Replacement Arborist report for the site, removal of 6 mature, 20-30m tall cottonwood poplar trees at Cooma Showground and replacement with more suitable, semi-advanced tree varieties.	There are end-of-life cottonwood poplar trees that overhang the horse stables which have dropped large limbs that leads to damage to the stables and is a significant safety risk to the public. By removing the trees, the risk to public safety is mitigated. This funding will also allow replacement of trees which improves the amenity of the site, with safer tree options.	Under construction	\$50,000	Sep-24	Mar-25
4	Community	NSW	Snowy Monaro Regional Council	Cooma Library Roof Upgrade External sheeting replacement & guttering (as required) to mitigate water ingress for long term sustainable use of the facility.	Asset protection, as this will increase useful life of the asset and delivers risk mitigation for the public.	Under construction	\$40,000	Sep-24	Jun-25
4	Community	NSW	Snowy Monaro Regional Council	Cooma Multifunction Centre Roof Repair and Access Control Improvements External sheeting replacement & guttering (as required) to mitigate water ingress; and improvement to building access control system & lock changes to facilitate efficient user group access and elevate security.	Asset protection, as this will increase useful life of the asset and risk mitigation for the public and the asset. These works will also improve user experience in accessing the site.	Under construction	\$40,000	Sep-24	Jun-25
4	Road	NSW	Snowy Monaro Regional Council	Jarake Road Segment 20 Approximately 4,800m2, 100mm of compliant gravel overlay of unsealed road	Road asset renewal which will contribute to safer road user experience and improved condition of the asset.	Under construction	\$33,960	Oct-24	Jun-25
4	Road	NSW	Snowy Monaro Regional Council	Numeralla Road Heavy Patching Insitu stabilisation and sealing the surface	Will improve the performance of pavement, assist with safety and reduce maintenance burden	Under construction	\$29,562	Sep-24	Jun-25
4	Community	NSW	Snowy Valleys Council	Tumut Pool Works Replace and upgrade Retention management system (balance tanks) to meet EPA requirements. Re-grout main pool to enable safe usage fully funded by LRCI	Meet upgrade EPA requirements for water retention, re-grouting of pool tiles for OHS and to address community concerns	Under construction	\$300,000	Jul-23	Jun-25

4	Community	NSW	Sutherland Shire Council	Cooper Street Reserve Amenities, Engadine This project will replace existing public amenities with a new, inclusive, high-quality amenities block within this regional reserve constructed upon the existing site.  The scope includes taking design concept to detailed design and construction of the building and accessible pathways, demolition of the existing structure, upgrading existing sewer pump to gravity fed system and erecting temporary toilet facilities during construction.  The concept design features a two-building facility with five (5) cubicles sitting on a concrete slab, curved walls, and curved concrete roof. The building footprint has been estimated at 103m2.  The new facility will provide three (3) Ambulant cubicles, one (1) Accessible cubical (unisex) with baby change facilities and one (1) Adult Accessible Change Room.	The existing amenities block has reached the end of its useful life and does not meet the needs of facility users due to poor accessibility. The new amenities block will be a high quality, inclusive design for people of all-abilities. 4	Community	NSW	Wentworth Shire Council	Buronga Riverfront Toilet Block Installation of a new toilet block inclusive of disabled access at the Buronga Riverfront Nature Play Area, including the installation of new sewer rising main connections, sewer pump station and electrical connection.	In 2021 Council installed a new nature play area incorporating an adventure playground and pump track at the Buronga Riverfront. This new infrastructure has been overwhelming supported by the community, to the point that numerous requests have been received for the installation of a toilet block. The nearest toilet block is 1.6km away. The new toilet block will be open for the primary use of the local community and provide benefits to the local community by improving access to Community facilities. This access not only includes the toilet block, but it is expected that the installation of the toilet block will lead to increased patronage of the nature play area by community members who were previously reluctant to access the area due to its lack of toilets and the distance to the nearest toilet facility.	Under construction	\$170,000	Apr-24	Dec-24

4B	Road	NSW	Cobar Shire Council	Footpath reinstatement in Marshall Street Cobar Council will remove approximately 120m of existing concrete footpath and replace with a concrete design that matches the existing pavers in Marshall Street. There will be localised adjustments to the concrete levels to accommodate for the level differential between the existing path level and the shop front levels.	The footpath between 27 Marshall Street (Harvey Norman, Cobar) and 3 Marshall Street (vacant block opposite the Cobar Memorial Services Club) northern side of Marshall Street requires improvements. The current footpath is cerement and does not match the rest of the main CBD red pavers on the southern side. However, the bigger problem is the footpath is uneven, splitting and is causing a safety risk to pedestrians. This footpath is in the main CBD area which is used frequently with 10 shops fronts along the northern side and a new development of a supermarket in planning stages on the vacant corner at 3 Marshall Street. This new development will increase the pedestrian traffic and increase the urgency to improve this footpath for the community. The footpath upgrades will invest in a safer footpath, which directly links to the NSW Active Transport plan action of providing safer, and better precincts and main streets.	Under construction	\$350,974	Sep-23	Jun-25

4B	Road	NSW	Junee Shire Council	Wantabadgery Road Culvert Upgrade Stage 2 Road Realignment Realignment.. of the approach roads to the new three span box cell/culvert across Wantiool Creek at 9.1km South of Gundagai Road intersection. This includes undertaking geotechnical investigation for the road works, designing the road realignment, and constructing a 500mm deep gravel pavement including drainage layers alongside the new culvert/bridge.	This road realignment will correct road safety issues and support improved safe access to the rural town of Wantabadgery, NSW. The road approaching the curve currently has steep vertical grades and sharp horizontal turns.	Under construction	\$339,133	Oct-24	Jun-25
4B	Road	NSW	Kiama Municipal Council	Curramore Road Resurfacing Stabilisation and spray seal of 600m of road from the start of Curramore Road to North Curramore Road	Currently Curramore Road has many patches and extensive crocodile cracking, the proposed road resurfacing at Curramore Road will be an economical way to extend the road assets life, improve skid resistance and improve safety.	Under construction	\$186,512	Oct-24	Jun-25
4B	Road	NSW	Lachlan Shire Council	Albert Road Upgrade Bridgeworks, 2km of road reconstruction and seal. Install new and increased sized culverts, wingwalls, headwall, guard rails, reinstate gravel, pavement strengthening and seal of the road, bank stabilisation and table drain construction.	Increase size of flood waters that can pass through drainage structure before the causeway is overtopped and increase flood resilience of road infrastructure when it is overtopped by extreme flood events. Increased safety and accessibility for school bus route.	Under construction	\$1,227,771	Dec-23	Jun-25
4B	Road	NSW	Lake Macquarie City Council	Bridge Street and Yambo Street Morisset – Road rehabilitation and road safety improvements • Road rehabilitation of Bridge Street between Dora Street and Terrigal Street (about 360m). • Traffic improvements at the intersection of Bridge Street and Newcastle Street constructing a mini roundabout, including raised pedestrian crossings, kerb extensions, kerb ramps, street lighting and connecting footpaths. Rehabilitate an 80m section of Yambo Street from its intersection with Bridge Street.	The existing pavement on Bridge Street and Yambo Street is in poor condition and has a short-term life remaining in the pavement. The rehabilitation will extend the useful life of Bridge Street and Yambo Street for 50 years, with periodic maintenance. The upgrade of the Bridge Street and Newcastle Street intersection to a mini roundabout will improve pedestrian safety, footpath connectivity and road safety.	Under construction	\$1,010,816	Apr-24	Mar-25
4B	Road	NSW	Lismore City Council	Wyrallah Road, East Lismore from Arnett Street to Conte Street Pavement Rehabilitation Works including base stabilisation and new two-coat spray seal. 4	Community	NT	West Daly Regional Council	Net Zero Secure Vehicle Parking Construction of six secure vehicle parking utilising net zero building materials, low carbon concrete, perforated metal sheets and installation of solar panels.	The Net Zero secure vehicle parking facility serves as a critical solution to the longstanding issue of secure overnight parking for community stakeholders, government agencies, and visitors in the Wadeye community. By incorporating environmentally conscious practices, the facility aims to utilise up to 40% recycled materials in its construction, encompassing recycled concrete mix material and repurposed scrap metal for reinforced steel.  The installation of solar panels will revolutionise the facility's energy consumption, providing sustainable power for security lighting and cameras. Beyond its security features, the structure will offer sun protection to users and facilitate a rainwater capture system, contributing to water conservation efforts. The harvested rainwater will be utilised in the adjacent vehicle washing bay, promoting resource efficiency and assisting in the reduction of localised flooding. The overall community benefit lies in creating a secure, eco-friendly, and sustainable parking facility that addresses pressing parking needs while minimising environmental impact and enhancing community resilience. 4	Road	NT	Department of Logistics and Infrastructure	Fleming Road Upgrade to Seal from 2.9 to 8.5 km The proposed work is to upgrade the section from 2.9 to 8.5 km from unsealed to sealed standards.	Fleming Road is a key access road for Douglas Daly region cattle and agriculture industry to transport livestock and timber to interstate and Darwin Port. Fleming road is unsealed after 2.9 km from the intersection with Oolloo Road. The unsealed section of the Fleming Road gets bogged down and underwater during wet, obstructing livestock transport mainly access to trade destinations. The road also get restrictions for vehicle mass and/or weight. Upgrading the road surface to sealed standards will improve the access for heavy vehicles, thus optimising the economic benefits and providing better access for local communities, agriculturalists and pastoralists to major towns and port.	Under construction	\$6,569,766	Oct-23	Jun-25

4	Community	NT	Litchfield Council	Knuckey Lagoon Recreation Reserve Adventure play equipment. Installation of all age adventure play equipment with 8x3m sand soft fall.	Knuckey Lagoon Recreation Reserve is a volunteer run facility that has several community buildings used by various community user groups. The facility has a basketball court, but no playground. The proposed adventure playground will provide the facility with additional features to continue to encourage community use across all age demographics.	Under construction	\$30,000	Apr-24	Jun-25
4	Community	NT	Litchfield Council	Howard Park Recreation Reserve Carpark Upgrade Install 75m of concrete curbing in the carpark with Litchfield Council recycled mulched garden beds.	Upgrading the carpark curbing in a recreation reserve to allow for landscaping options provides several benefits and justifies the investment. Adding landscaping options in the carpark enhances the overall appearance of the recreation reserve and encourages visitors to spend time in the reserve. Landscaping and recreational opportunities in the carpark can include recreational features and green spaces that reduce the heat island effect and provide shade. These would increase usage and have the additional benefit of increased safety and accessibility due to increased usage which in turn will increase economic value: A well-maintained and aesthetically pleasing recreation reserve becomes a valuable asset to a community that could attract events or gatherings. This economic value justifies the initial investment required for the carpark curbing upgrade.	Under construction	\$20,000	Apr-24	Jun-25
4	Community	NT	Litchfield Council	Wi-Fi & CCTV – Council Building Installation of 5x 4K LED CCTV cameras to the Litchfield Council Office building	<p>A community benefit of installing closed-circuit television (CCTV) in council offices is improved security. CCTV cameras can help deter criminal activities such as theft, vandalism, and trespassing. Cameras can act as a deterrent, preventing potential wrongdoers from targeting the council offices and ensuring the safety of staff, visitors, and public property. If any incidents occur, CCTV footage can provide evidence for investigations and assist in apprehending the individuals involved. Sadly, the council has recently had an incident of dog theft from our dog enclosure area.</p> <p>Installing CCTV systems can also enhance public confidence in local government by promoting transparency and accountability. The cameras can monitor the activities within council offices, ensuring that all interactions are conducted appropriately and transparently. This transparency helps build trust between council and the community, demonstrating a commitment to integrity and responsible governance.</p> <p>Also, CCTV installation can contribute to the overall well-being and liveability of the community. By securing council offices, CCTV systems indirectly protect the services and resources vital for the community's welfare. This includes essential records, documents, and equipment that might be housed in the council offices. Protecting these assets ensures that the council can operate efficiently, delivering essential services to the community without disruption.</p>	Under construction	\$100,000	Apr-24	Jun-25
4	Community	NT	Litchfield Council	Whitewood Road Shared Path Construct new shared path 1.1km in length from Hillier Road to Hicks Road to enable the safe and efficient movement of bike riders of all ages and abilities. Utopia To Artekerr (3 Bore Road) - 7.5 Kms  Total = 146.5 Kms	These paths play a major role as they lead to extremely remote communities and camps. They include flat blade track-formed roads and need to be graded to prepare for the wet season. Many of these areas are prone to extreme flooding and may become submerged. Maintaining these roads before the wet season can prevent conditions from worsening, ensuring public access and allowing Urapuntja Health to reach remote communities to provide emergency health services. 4B	Road	NT	Department of Logistics and Infrastructure	Gorrie Dry River Road Seal Jump Up section 181.0 to 182.5 kilometres The proposed work is to upgrade from unsealed to seal the jump up section from 181.0 to 182.5 km.	Gorrie Dry River Road is located between Stuart and Victoria Highways. The road runs through the Sturt Plateau region and has several pastoral leases along the route. This region also produces hay and other growing products. The number of heavy vehicles has significantly increased over time due to increase in production on Sturt Plateau region.  The unsealed road section with the jump up on Gorrie Dry River Road is a steep gradient (8% to 10% grade). Road trains have the potential to lose traction on the gravel surface and become stuck causing road block to other vehicles. Road train is required to break up each trailer resulting in trailer haulage on the jump up section that become hazardous to other road users. There are also several tight curves at the bottom of the jump up that restrict road trains to gain reasonable speed to avoid becoming stuck halfway up the jump up and trailers have potential to go over the edges.  The proposed work is to seal the jump up section from 181.0 to 182.5 km, providing better access to heavy vehicles and eliminating road safety risk for motorists.	Under construction	\$2,000,000	Aug-24	Jun-25
4B	Road	NT	Department of Logistics and Infrastructure	Kintore Road Gravel Resheet 241.0 to 254.0 km The proposed treatment is to lift and gravel re-sheet and improve drainage. The Fraser Coast has an aging population with a higher than average incidence of cancer. The opportunities for treatment and support of people in the community is limited. Complementary or integrative care has proven to greatly enhance the quality of life for those experiencing cancer and provide support for their families. The extension of the Urangan Centre will allow for specialist counselling, meditation and mindfulness training, cancer specialist massage, remedial therapies and other types of integrative therapies to be offered to people locally. The extensions of the Urangan Centre will also create another “safe place” in the community for socially isolated, financial disadvantaged and vulnerable members in the community. The mission of the Urangan Centre is to expand to provide a sustainable quality community hub with a focus on wellness and wellbeing. The Urangan Centre will integrate services on the Fraser Coast which complement existing programs.	Complete	\$1,612,895	May-21	Nov-22

1	Community	QLD	Moreton Bay Regional Council	Installation of new traffic signals at the intersection of Bonnet Parade and Mango Hill Boulevard including adding a left turn lane on the eastern leg of Mango Hill Boulevard and increasing the length of the right turn lane on the western leg of Mango Hill Boulevard.	This project has originated as a result of regular park inspections, maintenance works and monitoring by MBRC staff. The existing deficiencies include structural deterioration of the timber posts and fasteners, deterioration of paintwork and the constraints of the current asset do not meet DDA compliance. The expected outcome of the project is to renew the shelters with one larger shelter to provide cover to the existing BBQ, associated concrete slabs and park furniture to provide a useful asset for park users and to reduce maintenance costs.	Complete	\$35,000	Oct-20	Nov-20
1	Community	QLD	Moreton Bay Regional Council	Stage 1a of the project for which the LRCI application applies includes construction of two new Car Parking bays (includes 1 x PWD bay).	This project has originated as a result of direct representations from the Queensland Police Service. The expected outcome of the project is to reduce the risk of crimes and anti-social behaviour and support the detection of crime. The positioning of the pole will allow MBRC to monitor access to the South Pine Sports Precinct thereby supporting improved site security. The location will also afford tactical CCTV coverage of South Pine Rd and Eatons Hill Crossing Rd via licence plate recognition cameras which allow the tracing of stolen vehicles, or vehicles of interest.	Complete	\$45,000	Oct-20	Feb-21
1	Community	QLD	Moreton Bay Regional Council	Jim Hassall Park: Renewal and Consolidation of All Playground Equipment	This project has originated as a result of an external audit and regular park inspector findings. The existing deficiencies include deteriorated paintwork on all equipment and the large climbing element has structural issues from UV affects and does not offer much play value. The expected outcome of the project is to renew playground equipment within a consolidated area and install underground drainage and concrete edging to retain bark softfall.	Complete	\$94,000	Jun-21	Jun-21

1	Road	QLD	Tablelands Regional Council	Bridge Works	Investigation of the bridge in August 2021, recommended a 13.5T load limit and a 5km/h speed limit be imposed (previously 40T load limit), owing to rotten/split timber girders, and termite activity where the girders fix to the abutments. This means empty trucks can still access the quarry at very low speed, but the loaded trucks are not able to legally cross the bridge to exit the site. The 13.5T load limit effectively prohibits quarry cartage operations.	Complete	\$59,736	Nov-21	Dec-21

2	Road	QLD	City of Gold Coast	New Proposed Project Ron Penhaligon Way, Robina (Cheltenham Dr to Manly Dr)	The Road Rehabilitation and Reseal Program is the primary renewal program to address surface renewal demand. This program identifies roads in accordance with the Traffic Assets Management Plan and the Sustainable Road Pavement Management Plan.  Preventive maintenance is the single most influential component in the network strategy that allows the Council to manage pavement condition. It creates the ability to postpone costly reconstruction or rehabilitation activities, by extending the remaining service life of the original pavement. The effectiveness of long-term preventive maintenance and rehabilitation is based on asset life cycle performance, asset rehabilitation program and life cycle costing. A significant benefit of a comprehensive pavement preservation and proactive maintenance program is that it manages future network condition and funding requirements, thus reducing whole of life pavement construction and management costs. Condition assessment undertaken in March 2019 on a 375-metre section of Ron Penhaligon Way, Robina identified heavy ravelling, wheel path cracking and rutting with an average PCI of <5. Given this result and applying the prioritisation criteria detailed above, this road is priority for immediate intervention. The proposed section for rehabilitation is between Cheltenham Drive and Manly Drive, is 10m in width with two active traffic lanes and a small width shoulder. Ron Penhaligon Way is a residential collector road and facilitates a bus route. The proposed rehabilitation scope is 4,250m2 of asphalt consisting of a 50mm structural layer and a 50mm wearing course (total depth 100mm).	Complete	\$331,247	Oct-21	Oct-21

Previous remediation works, involving replacement of the substructure, were undertaken 12 years ago to extend the life of the timber structure. In early 2021, temporary protection works were undertaken to protect part of the structure from scouring of the creek bank. Recent condition assessments have shown the structure is approaching the end of its useful life. The project will upgrade the boardwalk to a more suitable standard to improve its capacity and align with future works in the area, including the GC Light Rail off-corridor active transport projects. The replacement boardwalk will be widened from 2 to 4 metres and will include a viewing platform along part of the boardwalk to allow users to step to the side of the pathway to experience views of the creek, Burleigh Headland and the ocean. Permanent scour protection works will be installed at the location of the recent temporary works.	Complete	\$2,473,650	Feb-24	Jun-24

3	Community	QLD	City of Gold Coast	Burleigh Waters Community Centre Improvements	Improvements to Community Facilities The Burleigh Water Community Centre is City-operated to provide a range of hireable spaces for local community benefit. The facilities and finishes are reaching end of life resulting in high maintenance and cleaning costs as well as reduced visitor experience. The scope of work is to refurbish the kitchen and amenities, replace the flooring and repainting to extend the asset life and improve the customer experience. This project was identified to replace the Varsity Lakes Improvement project after the previously proposed project was found to have enhanced delivery risks due to the changed planning conditions (since the building was built) and the integrity of the building footings which could jeopardise completion within the program guidelines.	Complete	\$540,000	Jan-23	May-23

3	Community	QLD	Goondiwindi Regional Council	Inglewood Rising Water Main Replacement Corner of Chilcott and Callandoon Streets, Inglewood	The project is to replace a non-serviceable existing potable water rising main which is one of a pair connecting the Inglewood WTP with the storage reservoirs, and the storage reservoirs with the reticulation system. The replacement potable water rising main will be 680 m in length, constructed from 250 mm HDPE and will be bored under Macintyre Brook.  The project will significantly reduce the major risk of water supply interruption due to failure of the single remaining main; as well as allowing GRC to pump to the reservoirs and release to reticulation simultaneously, addressing GRC’s current limited ability to maintain supply under high demand conditions or to meet firefighting demand if required.	Complete	\$600,000	Mar-22	Mar-23
3	Community	QLD	Goondiwindi Regional Council	Texas Reservoir Mixer Installation Texas town reservoir, Stanthorpe-Texas Road, Texas	Installation of a WEARS reservoir mixing system and chlorine dosing system to the Texas town reservoir.  During low demand periods, the treated water reservoir experiences very low turnover which leads to the degradation of treated water quality and causes difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine immediately downstream of the WTP filtration stage and prior to treated water entering the town reservoir. Because of the need to ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by products during low turnover periods, and increased cost due to excessive chlorine consumption. 3	Community	QLD	Goondiwindi Regional Council	Inglewood Reservoir Mixer Installation Inglewood town reservoirs	<p>Installation of a WEARS reservoir mixing system and chlorine dosing system to the Inglewood town water reservoirs.</p> <p>The combined storage capacity of Inglewood’s two reservoirs is 2.45 ML and serves a population of approximately 850, with an average daily water demand of approximately 420 kL/day. During low demand periods, the treated water reservoirs can experience very low turnover, leading to a degradation of the stored treated water quality and causing difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine at the WTP, immediately downstream of the point where filtered surface water and bore water are blended. Because of the need to maintain chlorine residual in the potable water rising main and ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by-products during low turnover periods, and increased cost due to excessive chlorine consumption.</p>	Complete	\$255,000	Mar-22	May-24
3	Community	QLD	Goondiwindi Regional Council	Wild Dog Check Fence Replacement As per coordinates	<p>This project is to replace sections of the wild dog check fence in key strategic locations within the Goondiwindi Region.</p> <p>Our local economy benefits from a diverse agricultural sector, and invasive animal pests have a wide variety of impacts on the economy, the environment and society. The Goondiwindi area has witnessed increasing agricultural losses because of vertebrate pests such as wild dogs.</p> <p>The Wild Dog Check Fence is strategic infrastructure which is pivotal in protecting our Landholders from the potential impacts of Wild Dogs. It gives them the confidence to still run small stock in our region, adding to the diversified nature of our agricultural sector. The ongoing maintenance costs associated with the check fence’s deteriorating condition is increasing, along with the risk of wild dogs breaching the fence line. This will result in significant impact to local livestock producers.</p>	Complete	\$381,106	Mar-22	May-23
3	Community	QLD	Goondiwindi Regional Council	Talwood Recreation Grounds Improvements Recreation St, Talwood	<p>The Talwood Recreation Grounds is a hub for community activity for that area. It serves as a sporting oval, camping grounds for travellers and a playing space for children.</p> <p>The last major works on the facility occurred in July 2018, with an installation of new playground equipment. Through community consultation, it has been identified that improvements to the facility are required for the community moving forward. Specific improvements include the installation of bollards at the playground, design and installation of signage and landscaping improvements in the recreational grounds area.</p> <p>The key benefits of this project to the town incorporate town beautification and improved local aesthetics and subsequent enhanced tourism support.</p>	Complete	\$25,000	Mar-22	Oct-22

3	Community	QLD	McKinlay Shire Council	McIntyre Park Facility Enhancement	<p>McIntyre Park is a community facility which supports a range of community groups and events including thoroughbred racing, campdrafting, rodeo and horse sports. It is essentially the local Show grounds.</p> <p>The facility will undergo a number of upgrades including:</p> <p>Refurbishment of Amenities blocks – replacing of existing damaged floor tiles, re-painting of interior, replacement of toilets and tapware to meet standards and improving accessibility. For large events, crowds can often reach nearly 1000 people and the current state of the facility is not well equipped to handle these demands.</p> <p>Upgrade Arena Lighting – The current lighting used is dated and expensive to run and maintain. The lights will be upgraded to new energy efficient LED lights. The works will involve the removal of the original Halogen lighting to be replaced by new LED lights. Council has had discussions with a sporting lighting specialist to create lighting plans to ensure there is sufficient lighting in the arena to ensure safety for all users.</p> <p>Yard Improvement – enhance the stock yards to ensure easy handling of stock for volunteers and also ensure welfare of the stock..</p> <p>Phase 1, Project 9 (McIntyre Park): The works undertaken in Phase one were shade sails, the planned works in this phase do not involve any similar works.</p>	Complete	\$639,497	Aug-22	Jun-24
3	Community	QLD	McKinlay Shire Council	Peter Dawes Park Enhancement	<p>Peter Dawes Park will see a refurbishment of the toilets, by painting the facility and replacing dated fixtures, e.g. tap ware, toilets and cisterns.</p> <p>Remediate Drainage – fix a low spot which pools water following rain and inhibits access to facilities by users. This will include the removal of the current failed cement and installation of a new slab that will have the appropriate fall to ensure water runs off following rain events.</p> <p>Playground Softfall – replacing the dated softfall under the playground equipment at the Park which is starting to deteriorate to such a condition that a trip hazard is forming.</p>	Complete	\$54,802	Apr-23	Dec-23
3	Community	QLD	McKinlay Shire Council	Kev Bannah Oval Lighting	<p>Replacing the aged lighting system at Kev Bannah Oval (multi-use sporting facility) with more energy efficient lighting (LED Lights) which will enhance the night visibility.</p> <p>The works will involve the removal of the original Halogen lighting (which currently does not emit enough light due to their age) and replace with new LED lights. Council has had discussions with a sporting lighting specialist to create lighting plans to ensure there is sufficient lighting in the arena to ensure safety for all users.</p>	Complete	\$113,000	Aug-22	Dec-23
3	Road	QLD	McKinlay Shire Council	Mathew Street Access Upgrade	<p>Drainage issues at the end of Mathews St is causing water from adjacent properties to lay in the roadway causing pavement failure and also limiting access during wet weather periods. To resolve this problem, Council will remedy the drainage issues with proper concrete drainage structures and renew the areas of failed pavement.</p>	Complete	\$98,653	May-23	Sep-23
3	Community	QLD	McKinlay Shire Council	Swimming Pool Upgrade	<p>The current state of the flooring tiles utilized on the splash pad area at the Water Park is beginning to cause trip hazards for users. This will be rectified by fully replacing the flooring tiles with improved materials to prevent further issues. Additionally, Council will erect another small storage shed to store pool and water play equipment that is used by the local community and members of the Julia Creek Swim Club.</p>	Complete	\$85,700	Apr-23	Dec-23
3	Community	QLD	McKinlay Shire Council	Skate Park Enhancement	<p>Install a shade structure (including support poles and shade sails) over the Skate Park recreation facility to allow the facility to be used more frequently in sun safe conditions. Currently there is no shade over the facility which does limit use during the day.</p>	Complete	\$102,952	Nov-22	Jun-23
3	Community	QLD	McKinlay Shire Council	Mini Golf	<p>Design and construct of new mini-golf course adjacent to Caravan Park for community and tourist use.</p> <p>The main aim is to provide an activity for families of our community to enjoy and be active. Further we believe the facility will attract visiting families to the town which will enhance tourism and have many economic benefits to the entire community.</p> <p>We are an isolated community, and we endeavour to provide facilities to our families to lead an active lifestyle and also connect as a family. Due to the size of our population, it is not intended to be a profit-making facility and we expect potentially the operational costs will outweigh the revenue received. Though will have in-direct benefits to the liveability of the community and flow on benefits to the people it attracts.</p>	Complete	\$263,352	Feb-23	Jun-23
3	Community	QLD	McKinlay Shire Council	Lions Park	<p>Replace playground Softfall</p>	Complete	\$43,012	Apr-23	Jun-23

All Community supplies are delivered to the Admin Store on a weekly basis by Road Transport and Unload and Distributed. The unload area is currently shell grit and dirt and in the rain often becomes quite boggy for the heavy vehicles. Concreting this area will ensure all weather access for heavy vehicles. Sealing this area will also minimise the dust that is lifted and spread into adjoining Community businesses such as: PUBSC, Kiosk & Contractors Camp.  The project will provide an all-weather access into the Admin Store Freight Shed, which is the loading and unloading point for Heavy Vehicles that bring the freight requirements for the community into Pormpuraaw. Our Admin Store unloads the freight and distributes the freight to community members.  Stage 1 – Admin Store Project consists of concrete driveway from Wirran Street to the Admin Store Freight Shed Heavy Vehicle Loading Area. This project also has an element of paving on Wirrant St. This project is being funded under R2R funding for the amount of \$168,000.  Stage 2 – Admin Store Project consists of the second stage of the concrete driveway (385m2 approx.) which will be from the Admin Store Freight Heavy Vehicle Loading Area through to Marranthan Street. The scope of this project will improve user experience at this facility through provision of the upgraded covered outdoor area and renewed facilities within the Pavilion.  This need was highlighted during the 2022 flood events when the facility was used for an extended period as an evacuation centre. Whilst the facility was functional, the experience of patrons seeking shelter who were already under extreme duress during the disaster event was diminished due to the aging facilities at the Pavilion. Council has secured separate funding to install a generator for the Pavilion to further improve its functionality as an evacuation centre.  A review is currently underway on the availability of sports fields in the Gympie Region. The review has highlighted an immediate shortage in indoor sports facilities. The multifunctional covered outdoor facility will assist Council in reducing this gap but will not totally resolve this issue for Council.	Complete	\$1,361,802	Nov-23	Jun-24
4	Community	QLD	Isaac Regional Council	Corp – Playground Impact Attenuation Surfacing Upgrade Renew impact attenuation surfacing in identified playgrounds as required across the region over multiple years. The existing surfacing will be replaced with tiles which meet safety compliance requirements (AS4422:2016 and AS4685.1:2021) for our playgrounds. The new tile surfacing will be Disability Discrimination Act (DDA) compliant to improve accessibility, environmentally friendly, durable and colourful to be inviting to youngsters of all ages.  This program provides approximately 570m2 of new surfacing at prioritised playgrounds around the region.	Playgrounds and Skate parks (including all ability playgrounds) - Community satisfaction; meet playground safety standards; economic benefits; product life span.	Complete	\$242,853	Dec-23	Jun-24
4	Community	QLD	Isaac Regional Council	Corp – Sports and Recreational Area Lighting Upgrade of existing metal halogen playing facility lights to LEDs to provide improved community access to playing facilities and reduce operational energy demands.  The LRCI funding and Council contribution will deliver upgrades for 2 playing facilities providing improved facilities for 3 playing codes in Moranbah. This will include a total of 12 poles and associated lights as required for the applicable playing code regulations.  It is noted that outside of formal playing times these sporting facilities are available for general public use. Council will retain asset ownership on completion of installation. 4	Community	QLD	Moreton Bay Regional Council	Deception Bay - Boama Park - Park Upgrade (Playgrounds and Skate Parks) The project is located at Boama Park foreshore, adjoining Esplanade South, between Seaview Parade and Webster Road, Deception Bay. The project scope comprises upgrade of existing foreshore embellishments and reduction in car park area to improve safety. The objective of the project is to include more comprehensive play facilities and exercise equipment upgrade in one of few locations where sufficient space exists along the relatively narrow foreshore.	This project has originated as a result of the Urban Recreation Park Plan 2012-2031 identifying the need for park embellishments in the short term as per Appendix E. The existing deficiencies include the park embellishments not meeting Council's Desired Standard of service and the community expectations. The expected outcome of the project is to enhance the foreshore facilities to service the existing community and cater for population growth with increased residential densities in the local area.	Complete	\$132,000	Jul-24	Sep-24

4	Community	QLD	South Burnett Regional Council	Kingaroy to Murgon Rail Trail Reseal The scope of works includes performing reseal preparation works and bitumen reseal works to the entire trail area. The reseal preparation works include herbicide spraying to restore the available width of the trail, surface sweeping to remove loose aggregates, ant beds and other foreign materials, tree trimming where appropriate to allow the free passage of users and construction equipment, crack sealing to eliminate dangerous, wide cracks which are a hazard to bicycle riders, asphalt correction and pot hole patching to provide a smooth even surface for users.	The Kingaroy to Murgon Rail Trail is extensively used by cyclers and walkers from both within the local community, and external visitors alike. The trail is currently requiring a bitumen reseal to extend the bitumen surface life, and to restore the condition of the trail where various defects have impacted on user safety and amenity. Accordingly, prior to the reseal various reseal preparation activities are required to restore the surface condition. The proposed project works supports improved road safety outcomes and will benefit the community as it supports visitor economy.	Complete	\$794,465	Oct-23	Feb-24

4	Community	QLD	Southern Downs Regional Council	Urban Development Framework - Other Implementation of selected actions/strategies from the Leyburn and Pratten Urban Design Frameworks (UDFs): •Pratten: 1) a basic shade structure with a picnic table in Heritage Park; and 2) Provision of a Drinking foundation, to be located near the water main. •Leyburn: Initial tidy up of the Leyburn Tennis Court area, removal of old tennis court surfaces, replace boundary fencing and position bins, BBQ and shelters, etc, in line with a developed concept plan (with community input). •Plus, project management associated with the above projects.	Shaping Southern Downs identified that with population growth, there is a need to manage the environment and distinctive regional landscapes. Residents are attracted to diverse, active and connected communities living in sustainable, well-designed, safe, accessible places with high participation in community life. To achieve this, Council set an action to consult, prepare and develop a number of urban design frameworks (UDF) for the villages and smaller towns aimed at enhancing the liveability of Southern Downs Region. For Pratten, additional shade and picnic tables will increase usability of Heritage Park for both local residents and tourists. Heritage Park is the only open space in Pratten, therefore additional infrastructure will benefit the community, particularly during events which are held in the park, and it will also encourage tourists to stop for a picnic. There is a single shop in Pratten, which is located to the south of this park, therefore this additional infrastructure is in easy walking distance and will provide an option for tourists (and locals) to enjoy the park setting to enjoy their takeaway meal. The inclusion of a drinking fountain provides for an additional amenity for the users of the park, enabling them to extend their stay. For Leyburn, the tidy up and re-development of this prominent community space will improve the streetscape, and provide an attractive open space for the community to meet and socialise, and tourists to enjoy a break. This space is in the main street of town, and located between the shop and CWA hall, which are highly visited areas by both local residents and tourists (Leyburn is quite a popular “Sunday drive” destination). Currently the site is in a state of disrepair, and has limited functionality currently given its state. The former tennis court surface has not been appropriately maintained and therefore doesn’t facilitate any recreational use.	Complete	\$280,000	Dec-23	Jun-24
4	Community	QLD	Southern Downs Regional Council	Replacement of 3x CCTV (Closed Circuit TeleVision) NVR (Network Video Recorder) at 64 Fitzroy Street, Warwick QLD, Replacement of 1x CCTV (Closed Circuit TeleVision) NVR (Network Video Recorder) at 61 Marsh Street, Stanthorpe QLD, Replacement of 2x CCTV Cameras in Stanthorpe CBD, replacement of two rust-damaged data cabinets in Warwick CBD, replacement of two Canopy wireless network bridge units in Warwick CBD.- Closed Circuit TV (CCTV) To conduct a renewal program that will replace out-of-date CCTV cameras, recorders and associated communications hardware The replacement of 4x CCTV recorders, components with a condition assessment of poor & 2 weather-damaged PTZ cameras.	CCTV can sometimes be used in court as evidence to prove someone was in a certain place or that they committed an offence. It can also improve community safety and prevent crime. For example, you may deter someone from committing a crime (like robbery) if they know CCTV will record their actions. These upgrade works will be of direct benefit to the community by ensuring that incidents that occur within the CCTV precincts are captured at a sufficient frame size, frame rate and retained for a sufficient period so as to allow the law enforcement agencies to investigate, extract footage and prosecute. For example, at present the current NVR records at 8 frames-per-second. This frame rate is below the standard of 30 frames-per-second, which could mean the difference between obtaining a positive identification or license plate, or a motion blur. In addition, the current NVR retains the footage for only 30 days which is often insufficient time for investigation requests. This in turn will provide safer community spaces through better security.	Complete	\$50,000	Dec-23	Apr-24
4	Community	QLD	Sunshine Coast Regional Council	Power Memorial Park Inclusive Play Project Playground renewal, BBQ shelter and furniture refurbishment, tree protection works, path upgrades and landscaping. 4	Community	QLD	Whitsunday Regional Council	Bicentennial Boardwalk Stage 2 Replace 330 metres of boardwalk between Whitsunday VMR car park to Shingley Drive cul-de-sac at Peninsula Apartments. Composite fibre product that provides minimal maintenance, high durability, and long product life. The new sections of boardwalk will be typically 3.5m wide.	Existing boardwalk at end of life. Boardwalk provides access from Cannonvale to Airlie Beach	Complete	\$1,050,537	Sep-23	Dec-23
4	Community	QLD	Balonne Shire Council	Mungindi Flood Pole Installation at the Barwon River of historical flood height indicator showing the years and levels reached during previous flood events.	The Mungindi Progress Association have requested the installation of this flood height marker to signify these important historical flood events. Mungindi is a border town; the flood pole will be positioned in a prominent location on the Barwon River. The Mungindi Progress Association aim is to educate the community by providing an informative historic flood height marker, which can be referred to during a significant event enabling the community to consider steps they need to take to prepare, therefore better protecting the community.	In Planning	\$16,450	Nov-24	Jun-25
4	Combination	QLD	Balonne Shire Council	Dirranbandi Kerb & Channel South Side Railway Street Replacement of kerb and channel, on the South side of Railway Street in Dirranbandi to improve drainage for residents, this will include 300m of kerb and channel replacement including pavement repair (stabilise and jet patcher).	The project will enable the improvement of the drainage on Railway Street, which is the CBD of Dirranbandi. Recent rainfall has demonstrated the need to improve the drainage and will also be a visual improvement to the existing infrastructure that is frequented by the community. In May 2021 a significant rain event caused shops including Food Works, Chemist, and the Linen Cupboard etc in the CBD to be inundated by the stormwater. This project aims to improve the drainage of the stormwater to be more effective and therefore safer for the community of Dirranbandi.	In Planning	\$280,000	Dec-24	Jun-25

4	Community	QLD	Balonne Shire Council	Bollon Cemetery Landscape Project Implementation of the Bollon Cemetery Concept Design. The design includes a shelter, seating (4 x timber circular), 2 x curved Columbarium walls, paving, landscaping, irrigation, and tree planting x 3 as per the agreed concept design for the site size of 10m x 15m.	The Bollon community via consultation have expressed their wish to have the concept design implemented for the Bollon Cemetery, this has also been approved at the Parks and Gardens Committee in December 2023. This implementation of the concept design will provide a compassionate area for those to grieve and reflect on those who have passed on in an aesthetically pleasing space. It will provide a defined accessible pathway suitable for those with mobility issues and add structure to the area which will assist families to navigate the cemetery.	In Planning	\$80,000	Jan-25	Jun-25
4	Community	QLD	Balonne Shire Council	Nindigully Landscaping and Carpark Improvements To undertake landscaping, installation of picnic settings at the free camping area and supply gravel to improve drainage to the existing parking area and roads as well as grading the road and carpark area.	This project will improve the aesthetics appeal of the township and usability to the existing free camping area. It will provide the washed-out areas which were created due to recent heavy rainfall to be filled in and the general parking area levelled out with gravel to provide an improved experience for the general public and community. This project will benefit the whole community of Nindigully and surrounding landholders as the proposed location of works is directly in the heart of the small rural and remote township that consists of 3 streets. The community host regular events including the annual Nindigully pig races, live music, and car rally events etc.	In Planning	\$60,000	Feb-25	Jun-25
4	Community	QLD	Barcoo Shire Council	Windorah Playground – 19 Albert Street, Windorah Replacement of existing playground equipment and softfall. Area of approx. 280m2.	Condition of existing playground equipment and softfall has deteriorated significantly.	In Planning	\$460,542	Mar-25	May-25
4	Community	QLD	Barcoo Shire Council	Stonehenge Playground – 14 Stratford Street, Stonehenge Replacement of existing playground equipment and softfall. Area of approx. 120m2.	Condition of existing playground equipment and softfall has deteriorated significantly.	In Planning	\$250,000	May-25	Jun-25
4	Community	QLD	Carpentaria Shire Council	Normanton Pool Change Rooms/Amenities, and Kiosk – Philp Street Construct a structure to accommodate public/children change rooms, amenities, kiosk and gated entrance.	There are currently no onsite changerooms or amenities in the swimming pool fenced area and access is via a side entry gate causing monitoring and collecting fee issues. The new structure will facilitate a new gated entrance facing Philp Street and allow the pool manager/life saver/swimming coach to monitor the wading and main swimming pool from the kiosk which will be located centrally. The change and amenity rooms will allow community members and visitors privacy to change onsite and use toilets and showers. Most especially, the facilities will be used for school swimming carnivals and intertown swim meets. There are two schools in Normanton and a kindergarten.	In Planning	\$711,924	Nov-24	Jun-25
4	Community	QLD	Charters Towers Regional Council	Kennedy Regiment Memorial Pool Redevelopment - Plummer and Church Street; roadway, parking and footpath works – BICYCLE AND WALKING PATHS / DRAINAGE Plummer Street realignment; construction of additional parking areas, footpaths and kerb and channelling on both Plummer and Church Streets.	Associated works for the Kennedy Regiment Memorial Pool Redevelopment project to improve safety and accessibility to facility elements to enhance user experience.	In Planning	\$435,000	Jan-25	Jun-25
4	Road	QLD	Flinders Shire Council	Stamford – Marathon Road Repairs to Grid Approaches Work locations are situated between Ch. 0.600 to Ch. 61.290	Improving safer access for motorists	In Planning	\$200,000	Feb-25	Feb-25
4	Community	QLD	Goondiwindi Regional Council	Moffat / McDougall Street Footpath Link Construct 150 metres of concrete footpath 2m wide	This path will link a significant residential area, including the Aged Care Facility with paths to access commercial areas. Pedestrians currently use the roadway which presents a significant safety issue.	In Planning	\$24,053	Dec-24	Mar-25
4	Community	QLD	Livingstone Shire Council	Paramount Park Playground Design and Construct New Playground at Rockyview which will incorporate an access walkway to the playground and provision of shade shelter and picnic tables. The Playground will have various types of equipment to suit a range of ages, including shade, softfall, edging, water fountain, fencing and access to playground from the kerb	The provision of a playground within the Rockyview community will enable local families to have a gathering space that will provide an interactive learning and physical activity space for children to play and socialise. A dedicated playground will provide a space for children to play in a natural setting within a safe environment.	In Planning	\$272,876	Mar-25	Jun-25
4	Community	QLD	Livingstone Shire Council	Amenities Block, Thwaite Park Supply and install of Pureablu anti vandal series CAB1 to complies with AS.1428.1	Provide public amenities to park	In Planning	\$150,000	Nov-24	Dec-24
4	Community	QLD	Livingstone Shire Council	Beaman Park Amenity Upgrade Modernized renovation of existing amenities, removing lower section of glass bricks	Decrease vandalism, due to location amenities has very high use, improvements to old amenities.	In Planning	\$100,000	Feb-25	Apr-25
4	Road	QLD	Mapoon Aboriginal shire Council	Traffic calming speed bumps and school bus drop off area on Clermont Street Install speed bumps and create a school bus safe drop off area to ensure safe drop off and pick of children daily. Plus white lines	Safety of children attending school has been identified at the local Thriving Community meeting by parents, as the area gets very congested during the drop off and pickup time of the school day, the school is on a main route through town and parents worry that a child will be injured or killed if traffic calming solutions are not added.	In Planning	\$26,740	Dec-24	Apr-25
4	Community	QLD	North Burnett Regional Council	Eidsvold Pool - shelter over pool filters Install a shelter over the Eidsvold pool filters.	Will extend the life of the filters by reducing exposure to the elements that are causing the top of the filters to rust. This will ensure Council can continue to provide swimming pool services to the community in a safe and compliant manner. Failure of the filters through rust would force an immediate closure of the pool.  A functional swimming pool provides a recreational space for community members of all ages. It offers opportunities for exercise, relaxation, and socializing, contributing to the overall well-being and quality of life in the community.	In Planning	\$35,000	Dec-24	Jan-25
4	Community	QLD	North Burnett Regional Council	Monto Pool - acid shed replacement Construct a replacement acid shed for Monto swimming pool.	Replacement of the existing acid shed as stored acid is undermining the structure of the existing building.  Acidic chemicals such as sodium hypochlorite are critical to ensuring the pool water quality is safe for community use. The chemicals need to be housed in infrastructure that meets WHS requirements and ensures the potency of the chlorine does not deteriorate through exposure to sunlight. Poor control of the chlorine will result in closure of the swimming pool as the operators will not be able to keep the water quality within acceptable limits.  A functional swimming pool provides a recreational space for community members of all ages. It offers opportunities for exercise, relaxation, and socializing, contributing to the overall well-being and quality of life in the community.	In Planning	\$50,000	May-25	Jun-25

4	Community	QLD	North Burnett Regional Council	Monto Pool 25m and toddler pool repaint and reseal. De-water the toddler and 25m swimming pools and undertake repairs to expansion joints and repaint the pools’ shells.	Reduction in water loss and ensuing cost of water due to water loss. A functional swimming pool provides a recreational space for community members of all ages. It offers opportunities for exercise, relaxation, and socializing, contributing to the overall well-being and quality of life in the community.	In Planning	\$300,000	Apr-25	Jun-25
4	Community	QLD	North Burnett Regional Council	Counter upgrades for Mundubbera and Biggenden Libraries Replace customer service counters in libraries with a fit for purpose WHS compliant solution.	Customer Service Centres and Libraries in each community were progressively merged into combined centres providing single point of contact for effective and efficient service provision. Mundubbera was the last site to transition to this model in January 2022. The merge of two sites occurred quickly by adding an extra workstation in the library. To date, staff are working in an environment where customers walk freely behind their counter space. This is a safety risk with the increase in Unreasonable Customer Conduct and cash transactions (higher cash during rating periods). This counter design and upgrade is necessary to improve the centre and safety of staff.	In Planning	\$150,000	Feb-25	Jun-25
4	Community	QLD	Rockhampton Regional Council	New footpath Cambridge Street (from Lennox Street to Murray Lane) Construction of a new 1.5m wide 140m long footpath	Improved pedestrian access on the frontage of a retirement village	In Planning	\$100,000	Mar-25	Jun-25
4	Community	QLD	Rockhampton Regional Council	New footpath Norman Road (from German Street to Dodgson Street) Construction of a new 1.5m wide 140m long footpath	Completion of a missing link in the footpath network that provide access to a bus stop and school	In Planning	\$150,000	Mar-25	Jun-25
4	Road	QLD	Rockhampton Regional Council	Rehabilitation of Murray Street (between Fitzroy Street and Denham Street) Replacing of kerb and channel and pavement repairs in selected locations, asphalt overlay of full section of road, line marking and signs, Total length 200m	Kerbs is no longer free draining and road surface has reached intervention levels. Improved access for road users and improved drainage	In Planning	\$483,455	Nov-24	Mar-25
4	Community	QLD	Aurukun Council	LRCI 4 Aurukun Access Road Maintenance Control and removal of vegetation regrowth on approx. 70km of road and shoulders involving use tractor slasher and herbicide spray on regrowth	This will provide safer travel for public vehicles on access road by providing greater visibility and decreasing the risk of collision with wildlife and stock such as wallabies, cattle, emus and feral pigs crossing the road.	Under construction	\$22,746	Sep-24	Jun-25
4	Community	QLD	Balonne Shire Council	St George Cultural Centre Audio Visual Upgrade The upgrade will replace projectors in the main auditorium with display screens, microphones, and speakers with operating panels. This will make it easier for event organisers to operate and enhance performances and presentations. The adjoining Bar Area – Breakout Room will also include audio speakers to provide seamless sound throughout the facility – and onwards to the outdoor garden space. This will enable events/presenters to share their audio across all spaces in the facility that is often used for community events that are held indoor/outdoors. It would also enable performances to recall people following breaks to enter back into the main auditorium.	The Cultural Central St George includes a range of meeting and event spaces that benefits the community, supporting recreation, community, education, and business events. The current sound and visual equipment require an upgrade to offer state of the art facilities with quality sound and visual systems. The St George Cultural centre is accessible to the whole community via booking through Council and is utilised regularly for industry conferences, workshops, meetings, training sessions, art and cultural shows, school formal and awards night, annual Mayorall ball, Christmas events, concerts, comedy shows, NAIDOC celebrations etc.	Under construction	\$155,000	Aug-24	Jun-25
4	Community	QLD	Balonne Shire Council	Thallon Playground Purchase and installation of new Australian Standard play equipment and approved soft fall to the existing playground. The scope does include the removal of the current outdated playground and the used sand.	Community consultation and feedback has occurred on the proposed design for the new play equipment with this project being a priority for the community as there are safety concerns for users. Currently, the sand that has been installed as soft fall for the old equipment is not playground certified sand and has become extremely hard causing number of complaints to council, as well as it not being up to the Australian Standards for playground soft fall.	Under construction	\$300,000	Sep-24	Jun-25
4	Community	QLD	Balonne Shire Council	Hebel Showground Amenities Supply and install a new permanent amenity block at the Hebel Showgrounds and dispose of the existing old demountable. Project cost includes lighting, plumbing, electrical and full purchase, and installation costs of the new permanent fixed amenities block. Also includes the removal of the expired demountable located near the old bar and a preferred community location installation near the new canteen/bar for accessibility.	The Hebel Showground User Group have prioritised an upgrade of the Hebel Showground amenities as their number 1 project/budget priority. The current amenities are estimated to have been built in the 1960’s and are no longer compliant to current Australian standards. With the installation of the new amenities, it is envisaged that further community and sporting groups will utilise the facilities at the Hebel Showgrounds. This project will benefit the whole community, as it is currently used for events including camp drafts, rodeos, pony club and the annual community Christmas celebrations.	Under construction	\$250,000	Oct-24	Jun-25
4	Community	QLD	Banana Shire Council	Jambin Dakenba Road Pathway Extension of Biloela’s pathway network along Jambin Dakenba Road from Tognolini Baldwin Road to Teys Australia Biloela	Improved safety for pedestrians and cyclists travelling between Biloela and Teys Australia while extending the pathway network from Tognolini Baldwin Road which is currently used recreationally. Construction of this pathway would also significantly decrease the interaction between vehicles and pedestrians/cyclists within a 100km/h speed zone.	Under construction	\$770,000	Aug-24	Nov-24
4	Road	QLD	Barcaldine Regional Council	Regional Floodway Upgrade Program Improve floodways and crossings including Tumber Road, Craven Road Floodway 1 & Craven Road Floodway 2 and Ballyneety Road Pipes, various Gravel Crossings on Bowen Downs Road	This program will see \$600,000 of investment into improving floodways and crossings across the region which during periods of wet weather become troublesome due to constant washouts, or debris build up. Additionally, the projects will look to rectify safety issues identified as well.	Under construction	\$600,000	Dec-23	Jun-25
4	Road	QLD	Barcaldine Regional Council	Rural Road Sealing Program – Star Downs Rd (Ch 3.20km – 3.50km) and Home Creek Moonbria Rd The sealing Star Downs Road Ch3.20km to 3.50km and Sealing of Home Creek Moonbria Road Ch11.88km to Ch14.38km	Aimed at increasing wet weather durability on our Council’s local roads. These projects will minimize maintenance demands while providing an improved running surface for road users.	Under construction	\$491,666	Jan-24	Dec-24
4	Community	QLD	Blackall-Tambo Regional Council	Beautification of Shamrock median strip Removal of several failing trees in the median strip and installation 2 x dimensional steel cutouts spaced along the median strips of the CBD. Topics for inclusion in these artworks include: First Nations connections, Significant Blackall Individuals such as Governor Samuel Blackall, Paralympian Shooter Ashley Adams, A connection to the Perry Bros Circus Story with the two Blackall children who ran away to join the circus, first European settlers, connection to the Melbourne Cup legendary racehorse “Carbine”.	Give the main street a much-needed face lift and provide items of interest to visitors and locals both young and old.	Under construction	\$100,000	May-24	Dec-24

4	Community	QLD	Brisbane City Council	Community Facility Improvement Projects The scope of works will include repairs and upgrades to community facilities. Examples of repair and upgrade works to be undertaken include roof repairs/replacement, internal spaces, drainage repairs, building services upgrades, termite/water damage repairs and car park repairs/upgrades. Improvements may include the addition of fire hydrants or community facilities such as storage sheds. In some instances, demolition of existing structures may be required. – See Appendix 1 on following page for full location list	Many Council community facilities are in need of repairs or improvements to both the internal structures and external infrastructure. The program will improve Council’s assets used directly by the community, and in some instances allow vacant facilities to be leased providing new community services.	Under construction	\$7,710,003	Oct-23	Jun-25
4	Community	QLD	Brisbane City Council	Empowering Brisbane’s Aquatic and Sports Centres The scope will include upgrades to lighting, heat pumps, solar, batteries switchboards and smart energy monitoring and control systems across many of Council’s aquatic centres. In some instances, upgrades to car park lighting will also be included – See Appendix 1 on following page for full location list	The project seeks to address energy use and improve energy management at Council’s aquatic centres and the Hibiscus sports facility. The community will benefit through significantly reduced operating cost and carbon footprint. The project will support Council’s 30%+ emissions reduction target by 2032 and a zero net emissions target by 2050.	Under construction	\$4,000,000	Nov-23	Jun-25
4	Road	QLD	Bulloo Shire Council	Thargomindah Rodeo Grounds – Road Extension and Parking Access Crushed gravel material will be spread across existing clay pan access road to bolster all-weather driveability, along with parking areas defined for local community event organisation. Total road length to be covered is 1.01km. Road shaping will also be included to increase resilience during wet weather events.	Following any significant rain event, the Rodeo Grounds becomes inaccessible as the road around the facility and parking area are clay compound soil. Access is required to monitor/feed livestock kept at the Grounds and for community sporting events.	Under construction	\$45,000	Mar-24	Dec-24
4	Community	QLD	Bulloo Shire Council	Thargomindah Town Common Fence – Stage 2 Works include removal of old timber posts and fencing, overgrowth vegetation, clean and reline fencing with 1.8m high exclusion fence.	Continuing whole town common fence replacement from Stage 1 (Works 4 Queensland Round 4 funding), with the aim to reduce animal pests entering into town public areas and increase health and safety aspects for community members.	Under construction	\$136,000	Feb-24	Jun-25
4	Community	QLD	Bulloo Shire Council	Thargomindah Golf Club Upgrade – Stage 1 Removal of all existing external fixtures; excavate existing drainage and install new main drain; disconnect for removal external water supply piping, reinstate with tails for internal fixtures; remove all internal water and drainage to reinstate piping; and, provisional works for septic, wall sheeting replacement and any asbestos handling.	The Thargomindah community golf club facility is currently in a state of disrepair due to ageing building components reaching end of life. Once rehabilitation has been achieved, community groups will have a chance to utilise the facility for public events to better support the town and shire.	Under construction	\$75,000	Feb-24	Dec-24
4	Community	QLD	Bulloo Shire Council	Thargomindah Memorial Park Softfall Replacement Works include removal of the existing sand-based softfall and replacing with recycled rubber-based softfall as per AS 4685 (series), Playground equipment and surfacing Australian Standards requirements.	The existing softfall base at the Thargomindah Memorial Park playground is considered outdated by Australian Standards. In order to ensure public community safety when using the playground, Council will replace the sand with a recycled rubber material at required standards with appropriate testing methods.	Under construction	\$75,000	Feb-24	Dec-24
4	Community	QLD	Bulloo Shire Council	Hungerford Park Softfall Replacement Works include removal of the existing sand-based softfall and replacing with recycled rubber-based softfall as per AS 4685 (series), Playground equipment and surfacing Australian Standards requirements.	The existing softfall base at the Hungerford Park playground is considered outdated by Australian Standards. In order to ensure public community safety when using the playground, Council will replace the sand with a recycled rubber material at required standards with appropriate testing methods.	Under construction	\$75,000	Feb-24	Dec-24
4	Community	QLD	Bulloo Shire Council	Noccundra Park Softfall Replacement Works include removal of the existing sand-based softfall and replacing with recycled rubber-based softfall as per AS 4685 (series), Playground equipment and surfacing Australian Standards requirements.	The existing softfall base at the Noccundra Park playground is considered outdated by Australian Standards. In order to ensure public community safety when using the playground, Council will replace the sand with a recycled rubber material at required standards with appropriate testing methods.	Under construction	\$75,000	Feb-24	Dec-24
4	Community	QLD	Bulloo Shire Council	Thargomindah Sports Oval Canteen Shade Enhancement Installation of a shade structure on the Thargomindah Sports Oval canteen, including all necessary delivery and installation	Currently there is no shade protection provided to event attendees when utilising the Sports Oval canteen, causing potential health risks to the community and visitors. To reduce this impact, a Colorbond corrugated annex will be erected to increase available shade for visitors during Council and community events.	Under construction	\$85,000	Oct-24	Dec-24
4	Road	QLD	Bundaberg Regional Council	Hughes Road, Bargara Traffic Improvement - Install urban roundabout with single-lane approaches and departures, splitter islands and raised crossing on all approaches at the intersection of Hughes Road and Blain Street	Provides a safe intersection, highly aligned with Safe System principles, that will allow connectivity of adjacent new development to the road network.	Under construction	\$2,014,577	Jul-24	Feb-25
4	Community	QLD	Burdekin Shire Council	Millaroo Community Entertainment Precinct Creation of a raised mound as a community performance space. The project involves removal of part of the existing swimming pool walls, filling with appropriate materials, and landscaping of the site to provide a raised area for entertainment purposes (approximately 1 metre above the surrounding natural ground level). Refurbish the existing swimming pool amenities block to ensure the facilities meet current standards and complete the Council’s performance space. Refurbishing of the pool amenities block will include replacement of fixtures and fittings, renewal of external cladding, upgrade of electrical components to meet safety requirements and internal and external painting. These works will ensure that the facilities meet current standards.	Re-purposing of the old Millaroo swimming pool site will create a community entertainment precinct to complement the adjoining Millaroo Social Club site. The mound and adjoining space will be used by locals for entertainment purposes including concerts, school awards nights and other social events and gatherings. Since closure of the pool, Council has been working collaboratively with the community on other formal and informal opportunities in the area to provide community benefit for the residents of Millaroo and surrounds. At a meeting on 13 February 2024 including Council staff, elected members and members of the Millaroo community, the proposal outlined above was fully supported.	Under construction	\$200,000	Jul-24	Jun-25
4	Community	QLD	Burdekin Shire Council	Clare Pool Facilities Upgrade Project The Clare Swimming Pool amenities block requires upgrades to ensure it complies with all safety standards and associated codes of practice. This project will involve repairing and replacing key components within the amenities block to ensure the facility is functional and meets the needs of the community. The works will include replacing toilets, urinals, handbasins and all tapware. Rusted seating within the changerooms will be replaced along with all damaged tiles. The existing shade structure that provides shade to the only bench seat and table is unsafe and the timber has rotted. This project will replace the shade structure with a purpose-built structure rated to be used in a pool environment.	The Clare community has limited entertainment precincts or infrastructure that can be used by families or children. The swimming pool is therefore an important asset for the community and requires upgrades to ensure it complies with all Australian standards and codes. This project will compliment other work Council is undertaking at the facility that is focusing on ensuring the quality of the pool water meets guidelines and is of a high standard. It is envisaged that community usage will increase following the upgrade of the facility. The Clare Pool also supports two schools with school based learn to swim classes.	Under construction	\$75,000	Jul-24	Nov-24

4	Community	QLD	City of Gold Coast	Viney Park Club House, 2 Yuan Street, Coomera  Project Work Category – Community Facilities, Sporting and Recreational Facilities Works will consist of design and construction of a universal change facility (474m2) to accommodate community groups at Viney Park (in particular the soccer club). This project will include: •Demolish existing change facility •Construction of 6 universal change room facilities (2 to be expanded into a breakout space for further recreational activity) •A first aid / medical room •Storage space x 2 •2 universal match official rooms •Female and male amenities •Accessible change facility (including parents’ room) •Service room •All services are to be included in the works •Connecting paths to meet accessibility requirements  This facility will complement the precinct upgrade consisting of new sport fields, recreation facilities and car parking being delivered by the facility. The additional \$2m of funding being requested through LRCI – Phase 4 Program will take the total investment in the precinct to \$8m.	Viney Park is one of the City of Gold Coast’s (City) fastest growing football (soccer) sites in the Northern area of the city. The growth of the northern Gold Coast has increased dramatically with 219,000 residents residing in this catchment. This has placed significant pressures on the City’s aging infrastructure. With an annual growth of 4.6%, there is a strong need for recreational assets to meet the populations health and social needs.  The Coomera Soccer Club currently caters for 768 active members. This includes 108 female participants and 609 junior players. The club has strong community affiliations and supports several community groups and schools within the area without adequate changeroom spaces.  In 2023 there were 135 bookings for interschool competitions and a further 104 bookings for school use to meet their recreational requirements. As a result of the demand on this site, the change facilities are inadequate, non-compliant and often unavailable due to needing regular repairs and maintenance.  In 2020 the City commissioned a building condition report which outlined that the structure was reaching end of life and required replacement and in turn, an all purpose change facility has been designed to meet the needs of the soccer community.  The new universal changeroom facility will provide both increased capacity for users and provide -greater gender equity to the sport, allowing female athletes the ability to change in a safer environment which will ultimately enhance participation rates.	Under construction	\$2,000,000	Aug-24	Jun-25

4	Community	QLD	City of Gold Coast	<p>Helensvale Pedestrian Tunnel Safety Improvement Project – Gold Coast Highway, Helensvale</p> <p>Community – Closed Circuit TV (CCTV) The Helensvale Pedestrian tunnel is a heavily utilised accessway connecting two major shopping centres as well as being adjacent to the Helensvale heavy and light rail stations.</p> <p>This project will involve installation of 4 permanent CCTV cameras, as part of the City’s Safety Camera Network public safety program, along with an urban art mural which will prevent graffiti and improve amenity.</p> <p>The mural has been proposed as part of this project as a complementary community safety measure, alongside the installation of the CCTV cameras.</p> <p>Monitored CCTV cameras, public art (mural) and associated signage is a combined strategy to strengthen community safety outcomes near and in the Helensvale Pedestrian Tunnel.</p> <p>The installation of a mural will further enhance safety by facilitating community pride and ownership and reduce crime in the space including graffiti vandalism.</p> <p>The tunnel is a connection point from the Helensvale area to public transport including bus, and heavy and light rail. Residents along with visitors to the city are likely to travel through the space to access the public transport options. A mural will support positive perceptions of safety and enhance City reputation supporting community wellbeing.</p> <p>The Queensland Police Service are supportive of safety improvements in this location.</p>	<p>A temporary mobile CCTV unit was previously deployed in this location with anti-social behaviour and crime issues being detected.</p> <p>This project will reduce crime, including graffiti, and improve perceptions of safety due to the presence of monitored CCTV cameras and public art (mural).</p>	Under construction	\$348,800	May-24	Mar-25
4	Community	QLD	City of Gold Coast	<p>Federation Walk Littoral Rainforest – Seaworld Drive Main Beach</p> <p>Project Work Category – Landscaping Improvements The Federation Walk Coastal Reserve Littoral Rainforest project is a key outcome of The Spit Master Plan (May 2019).</p> <p>This funding will provide for the expansion of the irrigation system to an additional 15 hectares of rainforest which requires connection to mains power. It will also contribute to the funding of park management, which includes fencing and boundary security upgrades to protect the rainforest revegetation site from illegal 4WD access and maintenance of internal management tracks along with ecological restoration activities (biodiversity plantings) associated with the establishment of the littoral rainforest. Works will include:-</p> <ul style="list-style-type: none"><li>-Expansion of the irrigation system to a further 15 hectares of rainforest. To facilitate this expansion and enhance the sustainability of the project the leasing of the temporary diesel generator will cease, and the pump station infrastructure will be connected to the local electricity grid. To connect to mains power, approximately 350 metres of trenching/undergrounding of power and switchboard upgrades are required.</li><li>-Significant biodiversity plantings to increase the species richness of the existing mature forest in the south of Federation Walk Coastal Reserve – plantings will be undertaken in areas identified as disturbed and low in species richness (this is the Southern section, approximately 19.5 hectares)</li><li>-Boundary security upgrades to protect the rainforest revegetation site from illegal 4WD access and will include maintenance of internal management tracks that provide for both nature-based recreation opportunities as well as maintenance of the park and the rainforest project. Existing trail networks within reserve are approximately 5km.</li></ul>	<p>The Littoral Rainforest project will create one of the most iconic natural areas in the city for future generations to enjoy as Federation Walk Coastal Reserve transitions into this critically endangered ecosystem.</p>	Under construction	\$1,000,000	Jan-24	Jun-25

4	Community	QLD	Hinchinbrook Shire Council	Rehabilitation of CBD footpath – Herbert Street Rehabilitation of CBD footpath – Herbert Street between Francis Street and Palm Terrace The key components of this project include: Aesthetic Upgrades: Implementing visually appealing design elements, such as decorative paving, improved lighting, greenery, and street furniture, to create an attractive and vibrant pedestrian environment.	Project Description: Enhancing the Footpath Adjacent to Rotary Park, Ingham The footpath adjacent to Rotary Park, while experiencing high traffic, currently lacks the appeal and functionality that befits its location in the Central Business District (CBD). To address this issue and ensure the safety and convenience of pedestrians, we propose a comprehensive beautification and upgrade project for the footpath.	Under construction	\$378,323	Apr-24	Oct-24
4	Road	QLD	Hope Vale Aboriginal Council	Sandy Creek Bridge, Cooktown McIvor Road Deck Replacement Category: Bridge works -Any work involving bridges or culverts Replacement of the Sandy Creek Bridge Deck Unit.	Problems Addressed & Community Benefit Structural Integrity: •The aging and deteriorating bridge decks poses a safety hazards due to cracks, spalling, and structural weaknesses. A new deck unit will restore the bridge's load-carrying capacity and ensure safe usage. Maintenance Costs: •The older bridge decks requires frequent repairs, leading to high maintenance costs. A new deck unit will reduce these costs by providing a longer-lasting solution. Load Capacity: •The older bridge is no longer able to handle heavy traffic loads. A new deck will increase the load capacity to accommodate heavier vehicles, including trucks and emergency vehicles. Safety Enhancement •A new bridge deck enhances the safety for all users, by providing a structurally sound and reliable surface. Resilience to Natural Disasters: •The modern bridge decks has been designed to be more resilient to natural disasters such as floods and extreme weather, ensuring long-term reliability and safety. Job Creation: •The construction of a new bridge deck unit generates jobs, both during the construction phase and in the ongoing maintenance and operation of the improved infrastructure. By addressing critical structural, economic, and environmental issues, constructing a new bridge deck unit provides tangible benefits that enhance the overall well-being and development of the community. 4	Community	QLD	Ipswich City Council	Silver Jubilee Sports Facility Clubhouse, Spring Mountain New clubhouse and amenities	Clubhouse upgrades will benefit new and regular user groups, community users and schools throughout the year.	Under construction	\$1,977,860	Dec-23	Dec-24
4	Community	QLD	Ipswich City Council	Nicholas Street Library Solar System Installation of new solar system. Size of system is approx. 200kw with approx. 500 panels	Project supports transition to net zero for council owned assets. The Nicholas Street library solar panel project was identified as part of the 2023/24 FY Capital Works Program Development. However, due to budget constraints, 2022/23 FY unbudgeted carryover works, increased costs of projects and competing priorities within Ipswich City Council's Capital Works Program, this renewable energy project will most likely be deferred to future financial years for delivery when/if budget becomes available. If external funding was to be received, it would be highly favourable to retain it within the 2023/24 FY for delivery.	Under construction	\$280,000	Dec-23	Jun-25
4	Community	QLD	Ipswich City Council	Urban Greening Street Tree Planting Project Street tree planting to priority greening locations	Locations identified through heat mapping data (undertaken to identify the hottest areas), lowest canopy % and socially vulnerable community groups within the urban footprint of Ipswich, Raceview, Goodna, Central, Brassall	Under construction	\$70,000	Oct-23	Jun-25
4	Community	QLD	Isaac Regional Council	Middlemount Skate Park Upgrade. Upgrade/extension of existing Skate Park to improve useability for community use. The works will include new LED lighting (existing facility does not have any lighting) and the extension of existing ramps and bowls from the existing skate park to improve the useability and accessibility of the facility based on community feedback. Council will retain asset ownership on completion of installation.	Playgrounds and skate parks (including all ability playgrounds) - Improved useability for community use.	Under construction	\$250,000	Mar-24	Oct-24
4	Community	QLD	Isaac Regional Council	Community Hubs St Lawrence and Dysart Detailed design work for the projects is currently being finalised, but the intent for both the Dysart and St Lawrence locations is to construct and deliver an integrated facility in each of these locations which has: - council customer service functions (including QLD Gov agency services in Dysart), - library and children’s education services, - youth space, - community meeting space, and - digital installations/videoconferencing booths to enable connection of community to services which cannot be feasibly provided in Dysart or St Lawrence. The project scope entails fit out costs for each facility in existing underutilised or repurposed council buildings – data and technology, furnishings and cabinetry, flooring, painting/wall coverings, signage and the like – to be confirmed by the final design.	Improved Accessibility of Community Facilities and Areas - The co-location of these facilities in each town will improve community connectiveness – bringing all community members to a central location to access a range of community services – rather than the current piecemeal location of services across these towns – which in many cases are approaching end of life or requiring significant investment to maintain functionality. The Community Hub model for service delivery revolutionises the touchpoints between community, Council and the wider world – providing a space for business transactions, library and education services, community meeting spaces and access to digital technologies not afforded to our smaller communities generally, all under one roof.	Under construction	\$400,000	Nov-23	Apr-25

4	Community	QLD	Lockyer Valley Regional Council	Lockyer Valley Regional Council Accessibility Project Renewal program will include facilities such as upgrading Lake Dyer amenities, Laidley Youth Centre Access Ramp, Laidley Cultural Centre stairs and veranda accessibility and upgrading Lake Clarendon amenities. New accessibility infrastructure is proposed for Laidley Pioneer Village and Gatton Works Depot which currently do not have compliant access.	Council-owned community facilities will receive much-needed upgrades to their accessibility infrastructure ensuring that all members of the community are able to safely and easily access Council's facilities. A number of Council owned and operated community infrastructure facilities have ageing or non-compliant accessibility infrastructure. Renewal of prioritised accessibility infrastructure is needed in order to ensure compliance, service standards and performance outcomes	Under construction	\$857,079	Oct-23	Jun-25
4	Road	QLD	Logan City Council	Beenleigh Road, Underwood Upgrade (Millers Road to Cascade Drive) The scope of this project is to upgrade Beenleigh Road (Eastbound) from one lane to two lanes from Millers Road to Cascade Drive (~0.31 kilometres) to achieve a four lane Urban Arterial Road standard.  Works include: oConstruction of new and widened pavement. oConstruction of kerb and channel, stormwater gully pits and pipe to connect the existing stormwater system. oTurfing and retaining where required of existing batters. oReconfiguration of existing line marking	The project completes a missing link in the road network, increases traffic capacity, safety and achieves the ultimate road configuration standard.	Under construction	\$1,887,130	Jun-24	Nov-24
4	Road	QLD	Logan City Council	Ann Street Jimboomba Local Road Upgrade (Cross Street to Tamborine Street) The project involves the reconstruction and sealing of Ann Street an existing unsealed road within the Jimboomba CBD from Cross Street to Tamborine Street (~0.67 kilometres).  Works include: oClean out and reinstate of the existing earth surface/table drains oReinstate formation to correct profile including new and widened pavement. oSealing of the new pavement formation.	The reconstruction and sealing of the existing unsealed road within the Jimboomba city centre will increase the trafficability, capacity and safety of the road as well as minimising ongoing maintenance costs and reducing nuisance dust.	Under construction	\$1,600,000	Sep-24	Mar-25
4	Community	QLD	Maranoa Regional Council	Wallumbilla Community Precinct Development Construction of new community centre, including upgraded library, visitor information services, upgraded Calico Cottage and professional service spaces. The project will also include carparking, landscaping and parklands open space area. LRCI Project work categories include: Landscaping improvements, off-road carparks, improvements to community facilities & toilet blocks	The new development will enhance the capacity of community facilities, including increased library amenity for the community, as well as supporting local businesses with the development of a professional service space servicing a variety of purposes (e.g. training and education opportunities/workshops/ meetings etc).  The existing Wallumbilla Calico Cottage is a significant source of pride for the community. The new facility will provide significant improvements including off road car parks and toilet blocks.  The development of the precinct will encourage tourists to stop and support the small rural town including supporting local community run businesses, as well as volunteer organisations such as Calico Cottage & the Wallumbilla Heritage Association.  Landscaping improvements around the precinct will increase green spaces within the community, improved shade and beautification through garden plantings. The off-road carpark will also improve parking amenity to the precinct, including formalised disability parking & separate spaces for car and caravan parking. New public amenities will be constructed that will be available for community use outside of the facilities operating hours.	Under construction	\$2,576,007	Aug-24	Apr-25

4	Community	QLD	McKinlay Shire Council	Julia Creek Community Children Services Hub Construct a purpose built Early Learning Centre for babies, toddlers, kinder and school age children, the facility will have ancillary facilities for administration offices, store rooms kitchen and consult room for visiting allied health services. The proposed building internals will be approx.. 1272m2, with outdoor play areas approx.. 290m2, plus carparking spaces of approx. 356.5m2.	Provide childcare, out of school hours care, playgroup space and consult room for children’s health professionals. Enables parents to participate in paid employment while children are being educated and cared for in a purpose built facility. Currently no availability to provide formalised care for children under 12 months of age and no Out of School Hours care currently available in the community.	Under construction	\$700,484	Mar-24	Apr-25
4	Community	QLD	Moreton Bay Regional Council	Banksia Beach - Solander Esplanade - Amenities Upgrade (Improved Accessibility of Community Facilities and Areas) The project is located within Solander Esplanade Park, located at Banksia Beach. The project scope includes the design and consequent demolition and construction of a public amenity facility. The objective of the project is to provide an amenity facility that is compliant with the Disabilities Discrimination Act (DDA). The amenities block is to consist of a block work/pre-cast concrete construction, one DDA compliant unisex cubicle, two ambulant toilets, and a change facility. All of the cubicles will be capable of remote self-lock after dark.	The existing deficiencies include no DDA compliant toilet and an aged amenity block. The expected outcome of the project is to rectify this by creating a new DDA compliant facility which is visually appealing. The amenities block is to consist of a block work/pre-cast concrete construction, one DDA compliant unisex cubicle, two ambulant toilets, and a change facility. All of the cubicles will be capable of remote self-lock after dark.	Under construction	\$312,000	Oct-24	May-25
4	Road	QLD	Moreton Bay Regional Council	Burpengary - Aquatic Centre Drive - Road Rehabilitation (Rehabilitation) The project is located on Aquatic Centre Drive, largely servicing the Moreton Bay Central Sports Complex, Burpengary. The scope of works involves the rehabilitation of a 1242 m long and 8.5 m wide section of road. The objective of this project is to bring the road pavement, which is showing signs of age, to a desirable level of service. The design of the street will be reviewed consistent with the principles of complete streets which may include improved active transport facilities and street tree planting.	Road asset management database, condition data and visual inspection have identified that this road has fallen below its desired level of service and rehabilitation is required	Under construction	\$762,000	Jul-24	Mar-25
4	Road	QLD	Moreton Bay Regional Council	Morayfield - William Berry Drive - Intersection Upgrade (Reconstruction) The project is located at William Berry Drive, at the intersection with Dickson Road, Morayfield. The project scope includes the reconfiguration of intersection approaches to improve lane designations, widening of Dickson Road to provide a left and right turn lane from Dickson Road into William Berry Drive, reconfiguration of the existing zebra crossing, installation of three pedestrian refuges (one on William Berry Drive and two on Dickson Street), removal and reconstruction of the retaining wall on the western side of Dickson Road, construction of a 2.0 m wide concrete pathway, associated plantings of shade/street trees and street lighting. The objective of the project is to improve pedestrian connectivity between retail centres, improve intersection capacity, increase safety for all road users (with an emphasis on safety improvements for pedestrians), meet the streetscape objective of the Caboolture/Morayfield Activity Centre Master Plan and to bring the road pavement to a desirable level of service.	Previous investigation of this intersection included a review of factors including the growth of commercial and retail businesses in the area, history of requests from the community about the intersection, current and projected traffic volumes, crash history and observations on site. Deficiencies identified with the existing layout include: •Capacity is limited by no provision of turning lanes; •Vehicle turning movements not accommodated for the types of vehicle expected to use the intersection to access the existing retail and light industrial land uses on Dickson Road; •No provision of pedestrian crossing facilities on Dickson Road; and •The pedestrian zebra crossing on William Berry Drive is located very close to the intersection and is not supplemented with street lighting. Concerns have been raised by various members of the community relating to pedestrian safety and vehicle corner cutting, consistent with the deficiencies noted above. Crash data obtained from the Department of Transport and Main Roads WebCrash database indicated that there were two reported crashes between 2009 and 2014 relevant to the project. The first crash in February 2009 occurred between a vehicle travelling along William Berry Drive and another vehicle turning right out of the northern access to Morayfield Shopping Centre. The second crash in January 2010 occurred as a result, of a vehicle crossing the centreline of Dickson Road while making a turning manoeuvre. The proposed layout restricts right turns out of the Morayfield Shopping Centre access in order to reduce the number of conflicts and includes the installation of a splitter island at the intersection.	Under construction	\$893,061	Jun-24	Apr-25
4	Community	QLD	Moreton Bay Regional Council	North Lakes - Aurora Boulevard - Aurora Skate Park Upgrade (Playgrounds and Skate Parks) The project is located at Aurora Boulevard, North Lakes. The project scope includes the renewal and upgrade of the existing skate park to meet the demands of current and future users. The objective of the project is to design the upgrade of the skate facility to address current defects and to improve skate-ability. The age and condition of the facility is limiting its use and design changes are required to meet contemporary and predicted recreation needs and to meet the current network demand.	This project has originated as a result of Council's Skate Park and BMX facility audit. The existing deficiencies include cracking, unstable coping and overall poor surface conditions. The expected outcome of the project is to renew and upgrade the existing facility to create future street plaza skating opportunities while incorporating other styles of skating.	Under construction	\$462,000	Jul-24	Dec-24

4	Community	QLD	Moreton Bay Regional Council	Kippa-Ring - Atkinson Park - Playground Renewal (Playground and Skate Parks) The project is located within Atkinson Park, Henzell Street, Kippa-Ring. The project scope includes the renewal of all playground equipment, soft fall installation and the construction of a new shade facility. The objective of the project is to rectify unsafe and non-compliant findings in a playground audit and reduce maintenance costs.	The expected outcome of the project is to renew the playground equipment. A shade structure will also be included in the project to provide additional sun shade.	Under construction	\$112,000	Jul-24	Dec-24
4	Community	QLD	Moreton Bay Regional Council	Redcliffe - Corscadden Park - Playground Renewal (Playground and Skate Parks) The project is located at Corscadden Park, Anzac Avenue, Redcliffe. The project scope includes the renewal of all playground equipment and soft fall installation. The objective of the project is to provide compliant playground facilities.	The expected outcome of the project is to renew the playground equipment and install concrete edging to retain bark soft fall.	Under construction	\$112,000	Jul-24	Dec-24
4	Combination	QLD	Moreton Bay Regional Council	Kallangur - Kallangur State School - Active School Travel Infrastructure (Traffic Improvement) The project is located along the Active School Travel routes for Kallangur State School, Kallangur. The project scope includes the upgrade and installation of critical infrastructure improvements around Kallangur State School. These projects include transport upgrades such as, pedestrian priority crossings, 'Park and Go' alterations, satellite parking, cycling infrastructure, and signage and line marking improvements. The objective of the project is to upgrade and deliver infrastructure to promote walking and cycling to schools resulting in fewer car trips, and provide positive health and well-being outcomes in-line with the Integrated Transport Strategy Outcome 1 and Outcome 2, and the draft Active Transport Plan.	This project has originated as a result of investigating the identified Active Travel Route's at Kallangur State School, Kallangur. The existing deficiencies include a lack of critical safety infrastructure for people accessing schools close to where they live. The expected outcome of the project is to increase the amount people accessing the school by active or public transport, resulting in fewer car trips. The project will deliver outcomes with the measure of success being in line with the ITS, Outcome 1; Community participation in public and active transport.	Under construction	\$512,000	Jul-24	Mar-25
4	Road	QLD	Moreton Bay Regional Council	Bray Park - De Havilland Drive - Road Rehabilitation (Rehabilitation) The project is located on De Havilland Drive, Bray Park and extends from Catalina Avenue to Baker Street and Auster Avenue. The project scope includes the rehabilitation of the subject section of road over a length of 440m. The existing pavement is currently showing signs of significant cracking, rutting and pavement fails. The project objective is to renew the pavement and achieve the required level of service.	Both Road Asset Database and visual inspection have identified that this road has fallen below its desired level of service and rehabilitation is required.	Under construction	\$182,000	Jul-24	Mar-25
4	Community	QLD	Moreton Bay Regional Council	Eatons Hill - Drapers Road - Pathway Construction (Bicycle and Walking Paths) The project is located over a 950m section of Drapers Road, from Bunya Crossing Road to Bunya Pine Circuit, Eatons Hill. The project scope includes the construction of a 1.5m - 2.0m wide reinforced concrete pathway on the southern side of the road. The objective of the project is to create a high quality walking environment and to encourage increased levels of walking in and around Eatons Hill.	This project has originated as a result of a network wide review of missing pathway links in residential areas. This review identified deficiencies in the existing pedestrian pathway network (i.e. missing links), which included Drapers Road. The expected outcome of the project is to improve pedestrian connectivity and accessibility in Eatons Hill.	Under construction	\$262,000	Jul-24	Mar-25
4	Road	QLD	Moreton Bay Regional Council	Ferny Hills - Gordon Road and Ferny Way - Intersection Upgrade (Reconstruction) This project is located at the intersection of Ferny Way and Gordon Road, Ferny Hills. The scope of work includes installation of traffic signals and other intersection improvements designed to reduce congestion and delay and to improve safety, particularly for pedestrians. The project includes modifying and reconstructing the existing left turn slip lanes, footpaths, electricity poles and street lights. The objective of this project is to improve safety for all road users and to increase the capacity of the intersection and provide safer manoeuvring when exiting Gordon Road and turning right into Ferny Way. The project will ensure continued intersection operation within an acceptable level of service, and significantly improve the walkability and safety for pedestrians at this location.	The current layout is assessed as acceptable for current traffic volumes, however, an assessment of the intersection performance into the future shows that the Level of Service (LoS) will continue to fall and the degree of saturation will continue to increase to unacceptable levels. In addition, concerns have been raised regarding the safety for pedestrians crossing at or near the intersection. It is noted that significant pedestrian demand exists at this site due to proximity to the nearby Ferny Grove rail station and commercial/business opportunities close by. No crossing facilities across Gordon Road currently exist and the existing pedestrian crossing on Fern Way is not considered the most suitable crossing facility given the function and traffic volume on Ferny Way. The installation of signals is recommended to address the capacity and safety issues prior to 2023 to improve motorist and pedestrian safety and retain the operation of signals within acceptable operating parameters. 4	Community	QLD	Pormpuraaw Aboriginal Shire Council	Community Hall Refurbishment Works – Lot 190 Rirranth St, Pormpuraaw QLD 4892 [SP270888] 1. Remove 6 x existing industrial roller doors. 2. Install 6 x new industrial roller doors C2 rated 4350mm high x 4615mm wide with drive motors. 3. Install external lighting to community hall. 4. Refurbishment bathroom amenities.	1. Existing roller doors are an extreme safety issue and only 2 of the 6 roller doors can be manually lifted currently. Injuries have occurred to employees and community members through manual handling of these roller doors. 2. The installation of new roller doors will enable the community hall to be fully functional and be used more regularly for community events and sporting requirements. The new roller doors will also be cyclone rated which will improve the resistance of this building against cyclones. The new roller doors will also have drive motors which enables staff and community members to easily operate the roller doors. 3. Installation of external lights to community hall. Currently there are 2 entry spotlights that cover only 20% of the front entry area of the community hall. The lack of external entrance lighting at the front of the community hall is a safety issue for the community and staff. 4. Refurbishment of bathroom amenities within the community hall are quite aged and require constant repair works.	Under construction	\$112,686	Sep-24	Jun-25

4	Community	QLD	Pormpuraaw Aboriginal Shire Council	Beach Front Ablution Amenities Refurbishment Works – Beach Front Rd (Front of Airport), Pormpuraaw QLD 4892 1. Remove current non-functioning septic tank system at beach front ablution amenities. 2. Install new advanced secondary wastewater treatment system. 3. Replacement of water pipes, toilets, basins & showers in the ablution amenities building.	1. Current unit is continuously failing. The current unit is a safety issue to the community due to the current blockages and overflow of wastewater into the beach front environment. Major health risk to community members due to exposure of untreated wastewater which is pooling at times with community kids seen playing in these pools of water at the beach front which is a common area for community members to gather and undertake fishing and picnic recreational activities. 2. Installation of new advanced secondary wastewater treatment system will ensure that this community facility is accessible and able to be utilised and the community has access to working ablution amenities, rather than constantly locked up due to the continual blockages in the septic system for this facility. 3. Refurbishment of the internal plumbing fixtures will ensure that this community facility is able to be fully utilised and the community has working ablution amenities. Water leaks are continuous which is resulting in water wastage.	Under construction	\$75,000	Sep-24	Jun-25
4	Road	QLD	Pormpuraaw Aboriginal Shire Council	Strathgordon Road - Murray Crossing Stabilisation Works for Floodway Extension [Chainage: 175.768], Pormpuraaw QLD 4892 1. Stabilisation Works in preparation of installation of concrete floodway extension on Strathgordon Rd at Murray Crossing [Chainage: 175.768]	1. Stabilisation works of road section to prepare road for installation of proposed concrete floodway extensions (which have been proposed in Part B of LRCI Phase 4 Funding. This will eliminate roadway scouring that occurs during every severe flood event. It will improve access from the community to the Peninsula Developmental Road providing a safer passing opportunity for vehicles traveling in dusty conditions. Every wet season flooding reaches levels that completely cut off road access to the community for three to four months per year. It will provide a safer roadway for motorists, minimising the potential for impassable conditions and vehicle damage. It will assist to minimise the time of closure due to rain/flooding events. This will provide better access to health, employment and education and training for the local community. Closure of road-based access results in the community being isolated with goods needing to be delivered by sea or air, which can have significant cost implications. In addition, goods must be freighted in and stored in anticipation of closures during the wet season, which can again incur significant costs, especially with those items that need to be kept refrigerated. 4	Community	QLD	South Burnett Regional Council	Murgon PCYC(Police-Citizens Youth Clubs - Queensland) Bathroom Renovations The project scope involves renovating the existing main toilet facilities and the construction of two facilities for People with Disabilities (PWD). The scope of works include new internal walls, waterproofing all floors, wall and floor/wall junctions, replacement of toilet entrance doors, repainting of ceilings, new fixtures and fittings for the Unisex PWD facilities and for the existing female and male toilet facilities located at the Murgon PCYC building. The Murgon PCYC building is located at 40 Macalister Street, Murgon, Queensland 4605.	The Murgon PCYC building is a community asset owned by the South Burnett Regional Council and managed by PCYC-Queensland. The current male and female toilet and shower facilities in the building are aged and in generally poor condition. There is currently no compliant PWD facility on the site. Council plans to renovate the toilets to an improved standard and in conjunction build two new, compliant PWD facilities. The project benefits the local community and visitors to Murgon, as it provides improved service and accessibility to community facilities and areas.	Under construction	\$650,000	Jul-24	Oct-24
4	Combination	QLD	South Burnett Regional Council	Maidenwell Transfer Station Access The project scope for which funding is being sought under LRCI Phase 4 involves the design and construction of the Maidenwell Waste Transfer site access crossover and accessway on the Kingaroy-Cooyar Road, including but not limited to clearing of trees and vegetation, erosion and sediment control, earthworks, table drain realignment, culvert pipe extension, rock scour protection, pavement works for the shoulder widening and new access road to the property boundary, two-coat chip seal, signs, pavement markings, and traffic management / control.	The current Transfer Station Access facility at Maidenwell is located within a road reserve. The Maidenwell Waste Transfer Station is one of the 17 waste facilities that Council operates to accept general refuse from the public. Council has purchased land adjacent to the current facility to design and construct a modern transfer station. On completion of the project, the community benefit (subject of this variation request) is the provision of a safer, designed road and access off the Kingaroy-Cooyar Road to the new community waste facility. Improved traffic signage, coupled with safer ingress and egress lanes to the facility will provide improved sight lines for motorists utilising the waste facility and the Kingaroy-Cooyar road in general. A map showing the location of the proposed modern transfer station and the Kingaroy-Cooyar Road is attached.	Under construction	\$200,000	Sep-24	Apr-25
4	Community	QLD	Southern Downs Regional Council	WIRAC, SFC and Pools (Air-conditioning/Air Handling) - Sporting and recreation facilities To repair and/or replace the air conditioning through the building to ensure ongoing compliance with minimum standards. 4	Combination	QLD	Sunshine Coast Regional Council	Mountain View Road Maleny Lookout Area Parking – Francisco Creation of a 950 m2 sealed car park area including drainage, 1 x shelter and seats, landscaping and approximately 100 metres of balustrade.	There is a current “informal” lookout gravel carpark used by the community and visitors that looks towards the Glass House Mountains. There is evidence of cars pulling up from both ways of the road to get into this gravel lookout, this creates a safety issue for the road users as cars may pull in and out of the gravel carpark at any point throughout the length of it and in both directions. This project will help improve the safety in the area for all road users. Apart from the safety improvements, this project will create a formal lookout spot with a beautiful view of the Glass House Mountains, as well as a nice rest area for road users with amenities such as picnic tables, seats and accessible parking.	Under construction	\$500,000	May-24	Oct-24
4	Community	QLD	Sunshine Coast Regional Council	Kawana Waters Regional Aquatic Centre – Nathan Walker-Edwards New main administration building will include changing places change room to maximise inclusive opportunities, offices, kiosk, reception area, staff meeting room, community meeting space, unisex change area and gender specific change rooms.	The current Aquatic Centre is not keeping up with demand owing to the growing population and increased use of the facility. The facility also does not meet current accessible standards. The project will provide increased active and passive recreation facilities as well as expanded amenity facilities. Access facilities will also be updated to meet modern building standards for people with mobility issues. The upgraded facilities will be available to all populations including children, elderly, First Nations and people with mobility challenges. There are fees associated with the use of the facility, but subsidies are offered for concessional card holders.	Under construction	\$938,532	Jul-24	Mar-25
4	Community	QLD	Sunshine Coast Regional Council	Lions and Norrie Job Park Upgrade Upgrade of existing toilets and amenities, 3 additional BBQ shelters with BBQs, improved pathways, tree planting, landscaping and additional fitness area.	Norrie Job park is a central location in Coolum Beach that is heavily used by both locals and visitors. Community consultation has indicated there is a need for an upgrade of some existing facilities, additional BBQ areas and shelter as well as improved access. 4	Community	QLD	Sunshine Coast Regional Council	Charles Clarke Park This renewal will ensure the parkland and footpath are protected from coastal hazards and will include: • reconstructing up to 180 lineal metres of the revetment wall • rebuilding the degraded coastal path, along with other minor parkland improvements • installing a new compliant handrail and balustrades.	The ageing revetment wall has become ineffective and requires replacement. The project will capitalise on the opportunity to renew the associated coastal path and upgrade infrastructure to modern access standards. The project will protect the community from tidal surge and flooding while also providing a passive recreation area.	Under construction	\$500,000	May-24	Nov-24
4	Community	QLD	Sunshine Coast Regional Council	Nambour-Yandina United Football Clubhouse Demolition of existing changerooms and construction of new facility including 6 x changerooms to cater for multiple games, new toilets, accessible toilet, referee changerooms. Existing canteen, kitchen and social room to be retained.	Consultation with the club identified the need to have multiple change facilities to cater for multiple games for both female and male teams as well as upgrading the outdated toilet and referee facilities.	Under construction	\$400,235	Sep-24	Mar-25
4	Combination	QLD	Sunshine Coast Regional Council	Maleny Streetscape – Alissa Huie The streetscape design focuses on 4 key locations within the street for improvement, centred around pedestrian crossings and connected by upgraded footpaths. The streetscape responds to safety needs and accessibility to ensure that it can be enjoyed by whole of community. Amenity will include four new raised pedestrian crossings, new landscaped seating areas, additional street trees to provide shade, decorative lighting and opportunity for cultural heritage and storytelling.	The streetscape design has been developed through a process of extensive consultation since 2005. Key drivers of the project are to contribute to the liveability of the township into the future, and as a key tourism centre of the Sunshine Coast, support the trading environment for local businesses and their economic sustainability, and be developed in line with broader environmental sustainability objectives. A key outcome of the project will be improved safety for pedestrian movement in the main business area.	Under construction	\$600,000	Aug-24	Dec-24
4	Community	QLD	Tablelands Regional Council	Ravenshoe Netball Court – Court resurfacing and lighting Resurfacing of courts to Netball Australia specification Additional lighting to improve usability and CPTED principals, including hi-bay lighting, cabling, and sundry items	Current court surface is not compliant to Netball Australia specifications. An all-weather cover was recently constructed, allowing extended use of the court however due to surface condition there are limitations on use for competition purposes. Additional lighting has been identified as required to enable all-hours utilisation of the site, and improvement in safety and visibility.	Under construction	\$200,000	Oct-24	Dec-24
4	Community	QLD	Tablelands Regional Council	Priors Creek Development – Installation of Electrical Services Installation electrical services and components across parklands and carpark, including: •Lighting (overhead and bollard style) to improve site usability, visibility of site and safety •Electric BBQ’s and picnic shelters – available for community to utilise	The development of the Priors Creek area will result in a family orientated mixed use and leisure area. At present, the site is underdeveloped and attracts anti-social behaviour. The installation of an electrical supply and components (BBQ’s, picnic shelters, overhead and bollard style lighting) will enable the site to be utilised by the community at a wide range of times including after dark and for a wide range of purposes, including community gatherings, family BBQ’s, cycling, walking etc. The installation of electrical components is critical to ensure CPTED standards are met to ensure site usability and safety. 4	Community	QLD	Winton Shire Council	Showgrounds Bar and Kitchen •Demolition and Site Preparation: Remove the old tin shed bar and clear the site. Prepare the ground for the new construction with a stable foundation and appropriate drainage. •New Bar Construction: Build a new bar using durable materials suitable for the local climate. The design should be practical, offering essential amenities like cold storage and adequate serving space. •New Kitchen Construction: Construct a commercial-grade kitchen with necessary appliances and a functional layout. Ensure the kitchen meets current health and safety regulations. •Accessibility: Incorporate basic accessibility features like ramps and wide doorways to accommodate all community members.	Problems Addressed: •Outdated Bar: The current bar is unsafe and inadequate for local community needs. •Non-Compliant Kitchen: The existing kitchen does not meet necessary food safety standards, limiting its use by local groups. Community Benefit: •Enhanced Community Hub: The new facilities will serve as a central, modern gathering place, encouraging more frequent use by local community members. •Broader Access: With a compliant kitchen, the showgrounds can support a wider range of community-led events, such as local group meetings, fundraisers, and social gatherings, ensuring it is a valuable resource for the entire community. •Safety and Compliance: The project will ensure that the new facilities meet health and safety standards, providing a safer environment for all community users.	Under construction	\$600,000	Oct-24	Jun-25
4	Community	QLD	Winton Shire Council	Neighbourhood Centre Carpark Shade Structure •Site Assessment: Assess the existing sealed carpark in Winton, Queensland, with dimensions approximately 16m x 24m. Given the local climate, consider the extreme summer temperatures that often exceed 40 degrees Celsius, as well as the need for rain protection. •Design and Planning: Develop a shade structure that provides effective coverage from both the intense sun and occasional rain. The design should incorporate materials that are highly UV-resistant to withstand the harsh sunlight and durable enough to manage heavy rains. The structure should be engineered to handle the high temperatures and the potential for strong winds, common in Winton. •Construction: Construct the shade structure with a focus on durability and resilience to the local weather conditions. This includes securely anchoring the structure, installing robust support columns, and ensuring that the shading material is properly tensioned and water-resistant. Consideration should also be given to facilitating proper drainage to prevent water pooling.	Problems Addressed: •Extreme Heat and Rain Exposure: The existing carpark is fully exposed to Winton's extreme summer heat, where temperatures can exceed 40 degrees Celsius, as well as occasional rain. This creates discomfort for users and can lead to vehicle damage. Community Benefit: •Enhanced Protection and Comfort: The shade structure will offer vital protection from the intense sun and rain, making the carpark more comfortable and usable throughout the year, particularly during the extreme summer months. •Vehicle Preservation: By shielding vehicles from the harsh sunlight and rain, the structure will help prevent heat-related damage, such as fading paint and interior deterioration, and protect against water damage, thus extending the lifespan of vehicles. •Increased Community Engagement: The added comfort and protection are likely to encourage more frequent use of the Neighbourhood Centre and its carpark, promoting greater community involvement and support for local events and activities.	Under construction	\$251,440	Oct-24	Jun-25
4	Community	QLD	Winton Shire Council	Showgrounds Footpath •Footpath Construction: Construct approximately 400m of durable, all-weather footpath that provides a safe and direct route for pedestrians. The footpath should be designed to handle the local climate, with materials that are resistant to wear from high temperatures and occasional rainfall. •Safety Features: Include signage and possibly handrails or bollards in areas where additional safety measures are needed. •Landscaping and Aesthetics: Enhance the footpath with basic landscaping to improve its visual appeal and integrate it with the surrounding environment.	Problems Addressed: •Pedestrian Safety: Currently, pedestrians walking to and from the Winton Showgrounds, especially after events, are at risk due to the lack of a designated walking path, which can lead to accidents or injuries.  Community Benefit: •Enhanced Safety: The new footpath will significantly improve the safety of pedestrians by providing a dedicated route to and from the Showgrounds, reducing the risk of accidents. •Increased Accessibility: The footpath will make it easier and safer for all community members, including those with mobility challenges, to attend events at the Showgrounds. •Community Engagement: By improving access to the Showgrounds, the project will encourage greater participation in events and activities, fostering a stronger sense of community.	Under construction	\$215,345	Oct-24	Jun-25
4	Road	QLD	Woorabinda Aboriginal Council	Water Treatment Plant Access Road Loop – Paving Paving.. of unsealed loop road off Water Treatment Plant Access Road around reservoirs (approximately 260m long x 4m wide)	There is an existing partially formed track around the town water storage reservoirs which is the only access for vehicles and trucks to undertake routine inspections, routine maintenance, and repairs to the reservoirs. 4B	Road	QLD	South Burnett Regional Council	Wondai Memorial Swimming Pool - 101 Mackenzie Street Wondai – Construction of 2 x PWD Parking Spaces The project scope provides for the construction of 2 new parking spaces at Mackenzie Street, Wondai to achieve compliance with parking and disability standards. The new parking spaces will be located at the entrance to the pool complex and construction will require re-grading and re-building both the road verge area and the footpath to be traversed to access the pool.	The Wondai memorial swimming pool has recently undergone a significant upgrade with the construction of an accessible water play area, upgrades to the existing toilet facilities and the construction of a new, compliant, toilet facility including shower for use by people with disabilities. The main pool is to be fitted with a “Pool Pod” to further enhance accessibility to the entire complex. There is currently no suitable and accessible PWD parking space for use by pool patrons. The provision of these parking spaces will complete the upgrade to the complex ensuring compliant and equitable access throughout.	Complete	\$75,000	Jul-24	Sep-24
4B	Road	QLD	South Burnett Regional Council	Haly Street Wondai, Roundabout Medians Upgrade The scope of works includes demolition and removal and then full re-construction of new roundabout medians, including the central roundabout island as well as the approach islands. The reconstruction works include new kerb, new coloured concrete apron to the central island and new decorative concrete approach medians. The drainage is to be upgraded with additional drains to be installed in the central island. New landscaping will be provided in the central island as well as new signage.	The Haly Street Roundabout is Wondai’s most prominent intersection. The roundabout caters for the through traffic on the Bunya Highway as well as traffic accessing Wondai’s town centre. The roundabout is located at the Southern end of the Scott Street shopping strip. The upgrade will deliver improved safety, by reducing vehicle speeds through the roundabout and commercial precinct. It will also deliver improved drainage and replacement of existing aging assets along with beautification of the town.	Complete	\$873,564	Apr-24	Jun-24

4B	Road	QLD	Moreton Bay Regional Council	Narangba - Oakey Flat Road - Road Rehabilitation (Rehabilitation) The project is located on Oakey Flat Road from Rifle Range Road to O'Mara Road, Narangba. The project scope includes the rehabilitation of the subject section of road over a length of 2700m. The existing pavement is currently showing significant signs of rutting and pavement failures as evidenced by the high percentage of pavement repairs currently evident. The project objective is to renew the pavement and achieve the required level of service.	Both the Road Asset Database and visual inspection have identified that this road has fallen below its desired level of service and rehabilitation is required.	Under construction	\$2,345,878	Oct-24	Jun-25
4B	Road	QLD	Moreton Bay Regional Council	Bellmere - Riverwood Drive, Parkwood Place and Belle Air Drive - Package of Work (Rehabilitation) The project is located on Riverwood Drive, Parkwood Place and Belle Air Drive, Bellmere. The project scope includes the rehabilitation of the total three sections of road over a length of 650 metres. The three projects are adjacent to each other and hence are being rehabilitated as a package of work. The existing pavements are currently showing significant signs of rutting and pavement fails. The project objective is to renew the pavements and achieve the required levels of service.	Both the Road Asset Database and visual inspection have identified that these roads have fallen below the desired levels of service and rehabilitation is required. 4B	Road	QLD	Burdekin Shire Council	Thompson Road Floodway Upgrade The proposed work consists of the construction of a 25m long x 6.6m wide concrete floodway over new 1200x750 RC box culverts with 100m long bitumen sealed approaches on each side.	With each flooding event an unsealed section of Thompson Road suffers loss of materials and scouring which then necessitates closure of the road as it becomes unsafe for travel. Thompson Road is the secondary route to the township of Alva with the main arterial road, Beach Road often being closed due to water over the road in a number of places. Under the Local Resilience Action Plan key hotspots identified after each event are highlighted for works. Thompson Road has been identified and included in the Local Resilience Action Plan. By constructing a concrete floodway over culverts, as well as bitumen approaches, the risk of the road being affected by flooding would be reduced. This in turn would ensure a secondary route to the residents, services and emergency response teams to the township of Alva.	Complete	\$357,780	Dec-23	May-24

Associated works include relocate power poles and improved bridge approaches. Project location: From Mary Valley Road to McIntosh Creek Road (0 to 650m)	The existing sealed road width is deficient for the current traffic volumes resulting in excessive unsealed shoulder wear and frequent road maintenance. The rapid shoulder deterioration is a risk to road users which this project will resolve.	Complete	\$785,518	Jun-24	Sep-24
4B	Road	QLD	Ipswich City Council	Adelong Avenue, Thagoona Culvert Rehabilitation Works Replacement of existing culvert and road	With the existing headwalls, base slab and apron severely displaced in a number of locations, the entire structure has been identified for replacement. To ensure Council can economically maintain a fit for purpose structure it is intended to replace the entire structure with a suitable replacement compliant to the current standards. The new structure will significantly reduce the ongoing maintenance cost associated to Council and inevitably the community based rate payers. The culvert in this location enables local street connectivity as well as direct access to the Thagoona Train Station. Benefits directly associated to the culvert replacement consist of the social and environmental benefits of maintaining the current location as well as maintaining the mobility and safety of the current users. In the event of this culvert being closed to road users, local residents will be forced to utilise alternate routes impacting on operation of other rural roads and associated intersections (increased congestion onto Karrabin Rosewood Road Intersections). Existing layout is considered high risk due to interactions with public lv and hv when traversing to the current weighbridge. The entrance to the site has no gate house, CCTV or lighting. Utilising substandard demountable office, no designated pedestrian access, minimal car parking for public which hinders the community usage. The proposed work scope will provide a safe and simplified system for the public to use, creating an increased recycling target within the community. The new entrance will provide staff with a safe place to manage the public, providing security and efficiency to manage the dual weigh bridge. The system will provide separation between operations and of public movements. Shade from trees will create a safe parking space for the public and MICC staff/ visitors. Staff and Public usage area (office, tip shop, RRC) to be landscaped which will provide shade for the community whilst using the facility	Complete	\$582,313	Jan-24	Jun-24

4B	Road	QLD	Central Highlands Regional Council	Currently there is an inability to access the road in times of wet weather. This additional material will allow for an all-weather road. Reconstruction of road formation, addition of 150mm of both crushed and raw road base	Lack of suitable gravel has led to significant areas of ‘bull dust’ loose material which has created both a safety issue and restricts access during period of wet weather.	Under construction	\$248,900	Oct-24	Dec-24
4B	Road	QLD	Charters Towers Regional Council	Myola Road Gravel Re-sheeting - SHEETING / RE-SHEETING Gravel Resheet 7km of Myola Road	Myola Road is an Arterial Road under Council’s Road Risk Management Policy and therefore, considered a critical route in the road network. This road requires substantial maintenance each year and in the event of an extreme weather event often restricts access to multiple properties from this area of the region due to minimal gravel base over the top of the road’s subgrade. Although this road has been under DRFA restoration works, these works do not replenish the recommended depth of gravel required under the Australian Road Research Board or Austroads standards, as these works are to only restore the road to the standard when the damage occurred. This project will replenish a priority local road to the recommended depth of gravel required per the Australian Road Research Board and Austroads standards.	Under construction	\$474,265	Oct-24	Apr-25

4B	Road	QLD	Hope Vale Aboriginal Council	Replacement of Traffic Signage for structures and roads Category: Traffic improvement - Works involving traffic calming devices, traffic lights, pedestrian islands, lighting, warning signs and roundabouts Council intends to replace either the aging traffic signage and bridge load limit signage around the Shire in Manual of Uniform Traffic Control Devices (MUTCD): The primary reference for standardized traffic control devices.	Replacing missing or aging traffic signage and bridge load limit signage provides several key benefits to the community, addressing both safety and efficiency concerns: Accident Prevention •Missing or illegible signs lead to confusion and accidents. Proper signage helps drivers understand traffic rules and navigate roads safely. Structural Integrity •Signs indicating bridge load limits prevent overweight vehicles from crossing, reducing the risk of structural damage and potential bridge failure. Legal and Regulatory Compliance: Regulatory Adherence •Ensuring all traffic and bridge signage meets current regulations helps Council avoid fines and legal issues associated with non-compliance. Liability Reduction •Up-to-date and visible signage reduces the risk of accidents and injuries, thereby minimizing legal liabilities for local governments and road authorities. Enhanced Safety •Accurate and visible traffic signs reduce the likelihood of accidents, protecting drivers, passengers, and pedestrians. Emergency Response •Proper signage aids emergency vehicles in navigating roads quickly and safely, improving response times. Economic Benefits •Maintenance Cost Reduction: By preventing damage to bridges from overweight vehicles, proper signage can significantly reduce repair and maintenance costs. By addressing these issues, the replacement of missing or aging signage plays a crucial role in enhancing safety and improving traffic flow.	Under construction	\$36,759	Aug-24	Feb-25

4B	Road	QLD	Ipswich City Council	Culvert Rehabilitation on Talegalla Road Replacement of existing culvert and road	<p>This part of Tallegalla Road is a Rural Sub-arterial road that provides a vital link between the township of Rosewood in the south, to both the Warrego Highway and Marburg to the north. The route enables better connectivity, improved mobility, shorter travel times and improved safety for the road users compared to the alternatives. The proposed culvert replacement will ensure Council can economically maintain a fit for purpose structure that is compliant with the current standards.</p> <p>Council have previously undertaken temporary maintenance repairs to the structure but are unlikely to provide the necessary long term solution to address the global movement and settlement of the structure that is being experienced. Due to the road and culvert asset reaching its end of useful life, the maintenance costs to keep this asset functioning. in an acceptable manner, are increasing and therefore costing the community more each financial year.</p> <p>This culvert and road replacement project will significantly reduce these costs with the only activities being required at this location being the routine inspections of the asset on an annual basis. If these culverts are not replaced over the coming years then the road will have to be closed with motorists having to travel a considerable distance as a detour on lesser standard rural roads. Length of road to be redone is 101m.</p>	Under construction	\$671,381	Oct-24	Dec-24

4B	Road	QLD	Pormpuraaw Aboriginal Shire Council	Murray Crossing Floodway Extension 1. Installation of concrete floodway extension (2 x 180m2 sections) at Murray Crossing	1. The proposed concrete floodway extensions will eliminate roadway scouring that occurs during every severe flood event. It will improve access from the community to the Peninsula Developmental Road providing a safer passing opportunity for vehicles traveling in dusty conditions. Every wet season flooding reaches levels that completely cut off road access to the community for three to four months per year. It will provide a safer roadway for motorists, minimising the potential for impassable conditions and vehicle damage. It will assist to minimise the time of closure due to rain/flooding events. This will provide better access to health, employment and education and training for the local community. Closure of road-based access results in the community being isolated with goods needing to be delivered by sea or air, which can have significant cost implications. In addition, goods must be freighted in and stored in anticipation of closures during the wet season, which can again incur significant costs, especially with those items that need to be kept refrigerated. 4B	Road	QLD	Sunshine Coast Regional Council	Bowman Road / Gosling Street Intersection Upgrade – Adam Hatfield Upgrade existing 3-way, unsignalised intersection at Bowman Road and Gosling Street to a 4-way, signalised intersection. Includes: 6,000m2 of full depth new and reconstructed pavement; new road kerb and drainage, intersection signals and lighting; pedestrian pathways and crossings; concrete median islands and dedicated turn lanes on intersection approaches; landscaping to intersection verges.	Current problem: •Unsignalised intersection at Gosling St and Bowman Rd does not provide for current and future traffic demand or safe movement for pedestrians. •Insufficient facilities for vulnerable user groups to move through existing intersection •Congestion at adjacent intersections and along adjacent routes causing delays and safety issues accessing Caloundra town centre and other major community centres.  Benefit: •Signalised intersection provides safe, prioritised crossings for pedestrians •Increased intersection capacity and signalisation reduces congestion and improves safety for vehicles accessing Caloundra •Expansion to 4 way intersection provides alternate options for vehicles and pedestrians accessing Caloundra, relieving congestion on local network and adjacent intersections	Under construction	\$1,757,575	Oct-24	Jan-25

4B	Road	QLD	Winton Shire Council	Replace existing culverts at One Mile Creek •Structural Assessment: Address the findings from the last inspection, which revealed significant cracking and displacement of batter protection around the abutments, along with the loss of embankment material from the carriageway. Regular monitoring will be conducted, and the culverts will be placed on a Level 1 and Level 2 bridge inspection program as a priority. •Culvert Replacement: Replace the existing Reinforced Concrete Box Culverts at One Mile Creek on the Winton Jundah Road Ch 13.2km. The replacement will involve the removal of the failing structures and the installation of new, robust culverts. The culverts currently consist of 4 cells, each measuring 2100 x 1670. •Batter Protection and Embankment Stabilisation: Repair and reinforce the batter protection around the abutments to prevent further displacement. Stabilise the embankment to prevent material loss and ensure the integrity of the roadway. •Traffic Management: Implement traffic management measures during the replacement works to ensure the safety of road users and construction personnel. This may include temporary road closures, detours, and clear signage.	Problems Addressed: •Structural Failures: The existing culverts are showing early signs of failure, including significant cracking, displacement, and embankment material loss, which pose a risk to road users. Community Benefit: •Enhanced Safety: Replacing the failing culverts will ensure the safety of all road users on the Winton Jundah Road, reducing the risk of accidents due to structural failures. •Continued Accessibility: By addressing the early signs of failure, the project will help maintain the accessibility and usability of the Winton Jundah Road, which is crucial for the local community and economy. 1	Road	SA	City of Adelaide	Road resurfacing of Chesser Street and pavement surfacing (DuraTherm) upon entrance to Coromandel Place	<p>The Historian Precinct consists of three public roads that operate mainly in a one-way direction. Motorists enter Coromandel Place from Pirie Street, turn right onto French Street, right onto Chesser Street and exit out onto Pirie Street. The Grenfell Street end of both Coromandel Place and Chesser Street has bollards to prevent entering or exiting the precinct. These bollards are removable to allow for two-way vehicle movement under traffic control during special event road closures. This section operates under two-way conditions for motorists parking/unparking and those entering/exiting private property.</p> <p>All three streets have kerbs however the narrowness of these and bin placement forces pedestrians, etc. to use the road.</p> <p>On-street parking consists of 17 x Loading Zones as follows;</p> <ul style="list-style-type: none"><li>• Coromandel Place consists of two spaces between Pirie and French Streets and five between French and Grenfell Streets,</li><li>• There is one space on French Street, and</li><li>• Chesser Street consists of five spaces between Grenfell and French Streets and four spaces between French and Pirie Streets.</li></ul> <p>The narrowness of the streets, particularly Chesser, forces motorists manoeuvring around a parked vehicle to mount the kerb which poses a significant risk to pedestrians exiting the properties on the east side between French and Pirie Streets.</p> <p>It is recommended that approval be sought from Department of Planning, Transport and Infrastructure for the introduction of a Shared Use zone.</p> <p>In principle support for the Shared Use zone has already been received. This support is based on ensuring that changes are made to all three streets to ensure that a motorist is aware of the differing environment.</p> <p>These changes are the removal of parking on Coromandel Place and Chesser Street between Pirie and French Streets and installation of planter boxes to create</p>	Complete	\$88,067	Nov-20	May-21

1	Community	SA	City of Tea Tree Gully	Lyons Reserve on Lyons Road – Irrigation  The project will include the design, supply and installation of an fully automated overhead rotor sprinkler irrigation system.	The existing manual irrigation system has reached the end of its serviceable life. The reserve is unusable for its intended purpose in its current condition following the introduction of water restrictions in 2007. Watering of the reserve did not resume following the lifting of these restrictions primarily due to the condition of the watering system. The replacement of the irrigation system will increase the accessibility of the reserve to all users.	Complete	\$85,000	Apr-21	Jun-21
1	Community	SA	City of Tea Tree Gully	Upgrade/Enhance Sports Field Lighting - Tilley Reserve	Uniformity and Lux levels across the site do meet the minimum standards required by those sporting clubs outlining the site.  Enhance the utilisation of the site through the additional lighting. This will increase the amount of playing surface available at night and contribute to turf preservation through increased pitch rotation.  While it is expected that some elements of this project could begin in November 2020, this is dependent on equipment availability.	Complete	\$300,000	Feb-21	Jun-21
1	Community	SA	City of Tea Tree Gully	Road & Cycle Safety Centre Upgrade	Currently inaccessible to the public when not in use, the mini road network track is in need of upgrade, no on-site car parking available creating potential safety issues along Hazel Grove and no bus parking available either for school/user groups.	Complete	\$220,000	Nov-21	Mar-22
1	Community	SA	City of Tea Tree Gully	Waterworld - replace the existing boilers with two larger high efficiency boilers	The existing boilers which have reached the end of their serviceable life. The new system will provide for increased reliability as the condensing boilers will be far more reliable than the existing style of system. This is because the boiler heats non-pool water and the heat is then transferred to the pool water via a separate titanium plate heat exchanger. This removes a large portion of the corrosion from the boiler itself.	Complete	\$250,000	Apr-21	Jun-21
1	Community	SA	City of Victor Harbor	Railway Goods Shed Address building access and maintenance issues connected to this publicly available building. Works to include installing a lift, upgrade of toilets, upgrade building insulation and building comfort, adjusting foyer area to support the consolidation of the Visitor Information Centre and SA Whale Centre that improves the visitor experience.	The building has a number of access related issues. Council resolved in mid-July 2020 to consolidate the Visitor Information Centre and SA Whale Centre into one facility to improve operational efficiencies and direct resources into digital and online visitor servicing measures. This decision was not planned for in the 2020/21 budget. This requires a significant upgrade to the building to support the integration. Improvements to building and merger of services will allow Council to invest savings into online destination marketing efforts.	Complete	\$355,740	Dec-20	Mar-22

1	Community	SA	Corporation of The City of Unley	Landscaping of an important walking and cycle corridor, following path widening to be undertaken by the State Government. The works involve vegetation clearance, soil improvements, irrigation and extensive planting of shrub, grasses and ground covers, as well as advanced trees. In addition to the corridor greening, improved way finding signage and upgrade LED path lighting will be installed.	The Mike Turtur is the most popular off-road cycle route for daily commuters into the CBD. Over time, the popularity has placed increased pressure on the path width and its capacity to accommodate increased cyclists and pedestrians. The State Government has chosen to increase the path width to improve the safety and efficiency of the route, between Musgrave Street, Goodwood and King William Road, Wayville. The bikeway runs parallel to the existing tram corridor and adjoining side and rear fences of residential homes. To enable the construction of a wider path, extensive vegetation clearance is required. Much of the existing planting is old, self-seeded and overgrown, and inappropriate along the bikeway due to sightlines, CPTED, form or seed drop. The LRCI Program allows Council to invest in a new corridor landscaping to improve the safety, amenity and biodiversity for all users, and adjacent residents. A sustainable palette of predominantly native plants will be carefully chosen to ensure long-term sightlines are maintained along the corridor, support the Council's long term tree canopy growth targets, and increase local biodiversity. Once established, the Council will take the longer-term maintenance responsibility of the bikeway and corridor greening.	Complete	\$340,054	Feb-21	Jun-22
