103041-19SA-RTR	SA	South Australian Local Government Grants Commission	King William Road, Unley	The work proposed for year 2 includes reconstructing a 500 m section of King William Road with a pavement that is fit for purpose and suitable to maximise the useful life and overall management of the asset. The new road will provide a distinctive and smooth surface for all users. The reconstruction of the existing roadway will provide a catalyst to the redesign of the main street precinct including presentation, safety and appeal to the main street with the replacement works.	\$2,500,000	\$14,500,000	Jul-19	Sep-20
109878-20SA-RTR	SA	South Australian Local Government Grants Commission	Basedow Road (Rural Road)	Work proposed includes reconstruction of failed pavement and kerb and gutter infrastructure on Basedow Road from Walden Street to Menge Road, including widening of the wings at the Basedow Road / Menge Road intersection. The present road pavement width will be retained, with kerb to kerb distance of 10 metres - plus compacted rubble footpath verge and 1.5 metre wide sealed footpath on both sides. The road pavement is to be a bituminous hotmix pavement wearing course. Works will include consideration of a range of construction techniques such as full depth pavement reconstruction, subgrade conditioning and use of mechanical Geogrid technology. The road horizontal alignment will be maintained along the straight. At the intersection of Basedow Road and Menge Road, the wings will be widened as required to accommodate the PBS level 2B design vehicle, to provide a consistent speed environment commensurate to the vehicle type and local physical constraints such as boundaries and stobie pole infrastructure. This project will upgrade Basedow Road to a level of service sufficient to accommodate its designated freight and community access level of service requirements.	\$600,000	\$1,200,000	Sep-20	Oct-21
109891-20SA-RTR	SA	South Australian Local Government Grants Commission	Beach Road (Rural Road)	Full construction of an 8 metre sealed pavement with 1.5 m unsealed shoulder to Austroads standards. Installation of drainage culverts where required and application of a 14/7 C130 sprayed seal.	\$700,000	\$1,050,000	Sep-20	Sep-21
109894-20SA-RTR	SA	South Australian Local Government Grants Commission	Stonewell Road (Rural Road)	The current sealed width will be increased from 6.4 m (average) to a total width of 9 m that will include 2 x 3.3m traffic lanes and a minimum of 1.3 m sealed shoulders on either side. Widening the shoulders will also provide a safer route for cyclists to travel on this road and provide connection to the Seppeltsfield Road Bike Path that terminates at the intersection of Seppeltsfield Road and Stonewell Road.	\$581,000	\$871,000	Sep-20	Sep-21
109941-20SA-RTR	SA	South Australian Local Government Grants Commission	Springs Road (Mount Barker)	Stage 4 and final stage of the road upgrade will provide wider traffic lanes and a sealed shoulder. (Proposed 3.3m traffic lanes and 1.5 m sealed shoulders) The sealed shoulder will improve the safe operation of the road by providing greater sealed width for vehicles and also provide an area for cyclists. The project will provide improvements to delineation and lighting of the existing junctions with Waterford Avenue, Burnbank Way and Ruben Pope Crt. In addition the junction to the wetlands and school oval will be upgraded. The road upgrade will also include the installation of guard fence including 5 box-beam sites to provide protection within the clear zone of significant trees and also fill embankments.	\$893,000	\$1,340,000	Sep-20	Oct-21
109965-20SA-RTR	SA	South Australian Local Government Grants Commission	One Tree Hill Road (Playford)	The work proposed includes widening and reconstructing of the 2.6 km section of One Tree Hill Road with a new pavement, seal, increased shoulder width, new line marking and signage, including the intersections of One Tree Hill Road and Shillabeer Road, One Tree Hill Road and Melville Road and One Tree Hill Road and Hannaford Hump Road. The works identified as part of this project will appropriately mitigate the items raised through the Road Safety Audit. At the completion of the works this section of road will be increased from 6.50 m to 7.40 m, 3.20 m lane widths with 1.0 m shoulders (0.5 m sealed and 0.5 m unsealed) Works also include, review guidepost location, alignment and spacing and removing redundant posts behind beams/barriers. Install double barrier line and yellow RRPm's to standards along the road section. Install edge lines and RRPm's. Remove/trim roadside vegetation to improve approach sight distance and visibility to and from property accesses. Improve property access transition to roadway. Grading verge areas where possible to reduce ponding and scouring; improve clear zone by trimming/removing vegetation encroachment/overhang along the roadside and clear roadside debris.	\$1,100,000	\$2,200,000	Sep-20	Feb-22

## Roads to Recovery Program - Projects approved for funding (as at 18 October 2024)

Project ID	Location	Funding Recipient	Project	Description	Program funding	Total project cost	Start date	End date
109967-20SA-RTR	SA	South Australian Local Government Grants Commission	Duthy Street (Unley)	The work proposed includes re-kerbing both sides of the road, as most of the kerbing is in poor condition and surface water pools in many locations, contributing to the pavement and surface failures. This will alleviate the water pooling issues currently and will also assist in creating a safer environment for pedestrians, cyclists and vehicles. Therefore, new kerbing will be laid both sides of the road, followed by a deeplift reseal of the road surface.	\$336,000	\$953,000	Sep-20	Sep-21
110004-20SA-RTR	SA	South Australian Local Government Grants Commission	Flagstaff Road (Murray Bridge)	The work proposed includes widening and reconstructing the 2.5 km section of Flagstaff Road with a pavement that is suitable for long term (future projections with growth) heavy vehicle loading of adequate width and shoulders/clear zones. There are also works proposed for traffic treatment at intersections. BAL treatment will be included at the driveway into major operations along Flagstaff Road. The overall carriageway width will be increased from 6.6 m to 9 m sealed width with pavement to be surfaced to 300 mm. The finished surface is proposed to be two coat spray seal and asphalt to be incorporated at intersections and major driveways.	\$1,150,000	\$1,725,000	Sep-20	Dec-21
110030-20SA-RTR	SA	South Australian Local Government Grants Commission	Railway Terrace (Rural Road)	Stage 1 work proposed includes re-alignment and construction of southern intersection with RM Williams Way, construct 11 metre wide formation and 300 mm pavement with 8 metre wide 14/7 spray seal to new alignment, including aprons to North Tce, Eighteenth Street and Paratoo South Road along the current Railway Terrace (630 metres).  Includes the survey and final design of the full 1500 metre length of the proposed Ororoo "Heavy Vehicle Bypass project" which comprises, the current railway terrace, new bypass road between Railway Terrace and Weighbridge Road and the realignment of Weighbridge Road.	\$715,000	\$1,018,000	Sep-20	Sep-21
116377-21SA-RTR	SA	South Australian Local Government Grants Commission	Alexander Avenue (Playford)	The work proposed includes widening and reconstructing of the 3320 m road length of Alexander Avenue with a new pavement, seal, increased shoulder width, new ling marking and signage. At completion of the works, the sealed section will be increased from 6.0 m to 7.0 m. The existing unformalised shoulder will be formalised (well compacted) at a width of 1.0 m each side.	\$1,105,000	\$2,209,000	Sep-21	May-23
116368-21SA-RTR	SA	South Australian Local Government Grants Commission	Cowell Kimba Road (Rural Road)	Stage 1 of 3 will construct and seal shoulders and reseal pavements where required to achieve a 3.6 m lane width and 400 mm sealed shoulder on all curves. The Project will be staged, in year 1, curves on the Cowell Kimba Road will be addressed plus the Story Road intersection. In year 2, straight sections totaling 14.5 km and in year 3, the remaining sections plus an application will be submitted to address Lucky Bay Road from CH0 (Lincoln Highway) to CH690 (T. Peter Barker Site).	\$617,000	\$926,000	Oct-21	Sep-22
116374-21SA-RTR	SA	South Australian Local Government Grants Commission	Beach Road (Rural Road)	Full construction of an 8 metre sealed pavement with 1.5 m unsealed shoulder to Austroads standards. Installation of drainage culverts where required and application of a 14/7 C130 sprayed seal	\$466,000	\$700,000	Oct-21	May-23
116375-21SA-RTR	SA	South Australian Local Government Grants Commission	Mudla Wirra Road (Rural Road)	The proposed road upgrade of Mudla Wirra Road includes a full pavement reconstruction and spray sealed road surface. This section of Mudla Wirra Road is currently an unsealed compacted rubble road with a nominal width of 7.0 metres, including a 3.0 metres wide carriageway plus 0.5 metres unsealed shoulder on each side. The upgrade will widen the overall road formation width of Mulda Wirra Road to 9.6 metres, includes a 3.3 metre sealed carriageway lane, 1.0 metre sealed shoulder and 0.5 metres unsealed shoulder in each direction. The new pavement will include a typical 300 mm compacted rubble overlay with a minimum of 2 coats of spray seal wearing course, to accommodate heavy vehicles up to PBS Level 3A (36.5 m A	\$755,700	\$1,600,000	Oct-21	Sep-22
116376-21SA-RTR	SA	South Australian Local Government Grants Commission	Gerald Roberts Road (Rural Road)	Existing Gerald Roberts Road has a nominal width of 7.0 metres, which consists of a 3.0 metres wide unsealed carriageway plus 0.5 metres unsealed shoulder in each direction. The upgrade will widen the overall road formation width of Gerald Roberts Road to 9.6 metres, which includes a 3.3 metre sealed carriageway lane, and a 1.0 metre sealed shoulder and 0.5 metres unsealed shoulder in each direction. Road pavements will be strengthened with stabilisation of 150 mm existing pavement and construction of an additional 150 mm compacted rubble overlay to accommodate heavy vehicles up to PBS Level 2B (30 m Road Train) with a minimum of 2 coats of spray seal wearing course. Some segments of Gerald Roberts Road where the site condition could be challenging for the proposed road widening, such as embankment cuttings or steep slopes, major utility services, native and/or significant vegetation. In those instances, the roadside hazards will be mitigated through various means most appropriate to the conditions, which may include the installation of safety barriers, vegetation removal and signage. As part of the upgrade, selected intersections will be also improved by sealing up to 20 m on the side road approaches to Gerald Roberts Road, as well as realignment of some tight curves for better sightlines when required. This ensures safe turning movements for large vehicles and reduce future maintenance requirement. Furthermore, the proposed sealing of Gerald Roberts Road would significantly reduce the dust/air pollution, and vibration currently experienced by residents, and reduce the requirements for regular maintenance grading by the Council in the future.	\$990,000	\$1,573,000	Oct-21	Sep-22
116378-21SA-RTR	SA	South Australian Local Government Grants Commission	Kulkami Road (Rural Road)	The proposed works includes widening and reconstructing 16 km of road shoulder to Kulkami Road and will consist of new pavement incorporating crushed rock base coarse to a depth of 300 mm and a 2 coat bitumen spray seal . There will be an increase to the sealed width of Kulkami Road from 6 meters to 7.2 meters with a 1 meter unsealed shoulder giving an overall carriageway width of 9.2 meters.	\$1,000,000	\$1,500,000	Oct-21	Sep-22
116379-21SA-RTR	SA	South Australian Local Government Grants Commission	Duthy Street (Unley)	The work proposed includes re-kerbing both sides of the road, as most of the kerbing is in poor condition which causes surface water to pool, contributing to the pavement and surface failures. These kerbing works will alleviate the water pooling issues currently and will also assist in creating a safer environment for pedestrians, cyclists and vehicles. Therefore, proposed works will be new kerbing both sides of the road (including better crossing access points), followed by a deeplift reseal of the road surface (including dedicated bike lanes).	\$388,000	\$766,000	Oct-21	Oct-22

116405-21SA-RTR	SA	South Australian Local Government Grants Commission	Forktree Road (Rural Road)	Resealing of the 0.4 km existing sealed section of Forktree Road located adjacent to existing rural living allotments (including shoulder sealing). The construction and sealing of 1.8 km of existing unsealed road to provide a 9.3 m carriageway and 7.3 m sealed width including the following associated work. Improved road geometry, installation of guard rail to provide protection from drop-offs, installation of delineation signage and line marking, installation of a 250 mm min deep road pavement to cater for expected traffic loadings, installation of erosion control measures on steep side slopes and batters.	\$753,300	\$1,130,000	Oct-21	Sep-22
120394-22SA-RTR	SA	South Australian Local Government Grants Commission	Cape Jaffa Road (rural road)	The Cape Jaffa Road project will include widening sections of some 13.7 km of the Cap Jaffa Road, with a key focus on breakaway and problem areas at intersections and through corners due to severe edge break, edge drop and cracking within the existing pavement which is evident in a number of locations.	\$450,000	\$1,200,000	Sep-22	Feb-23
120399-22SA-RTR	SA	South Australian Local Government Grants Commission	Boddingtons West Road (Rural road)	The proposed works is to construct an alternative route utilising an existing road reserve which has been designed to achieve Supplementary Local Road Program "Fit of Purpose" standards. This will improve the carriageway width and strength. This will improve road user safety through improved passing widths, improved intersection treatment and sight distance and improved roadside drainage. The intersection approach gradient will also be reduced resulting in safer braking and approach. Additional widening and traffic control works will be undertaken on the highway to also improve road user safety and reduce congestion.	\$1,000,000	\$2,000,000	Sep-22	Jun-24
120407-22SA-RTR	SA	South Australian Local Government Grants Commission	Regency Road, Happy Valley (City of Onkaparinga)	The work proposed includes widening and reconstructing the 0.8 km section of Regency Road with a pavement that is suitable for long term heavy vehicle loading of adequate width for the inclusion of safe travel for buses adjacent parked cars. The overall carriageway width will be increased by 300 mm and travel lanes will be delineated from parking areas. The pavement will be refreshed and surfaced with a thicker asphalt layer to accommodate increasing traffic demands. The remaining council requested funding is being part funded from the FA Grants - Identified Local Roads (Special Local Roads Program).	\$213,000	\$2,670,000	Sep-22	Apr-23
120408-22SA-RTR	SA	South Australian Local Government Grants Commission	Billiatt Road (Rural Road)	The work being proposed will entail undertaking shoulder widening of Billiatt Road over 10 km which will increase the width of the road from 6.4, to a 7.6 m seal. This will include new shoulder works constructed with imported rubble, compacted and trimmed for a 2- coat seal. The project will include a reseal of the existing road identified by an external road condition audit to address current road deficiencies.	\$540,000	\$810,000	Sep-22	Jun-23
120409-22SA-RTR	SA	South Australian Local Government Grants Commission	Nangkita Road (Rural road)	The work proposed includes pavement reconstruction and surface sealing of the 2 sections - Section 1 commences 521 m east of Victor Harbor Road through to Enterprise Rd (3.8 Km). Section 2 commences at Willowburn Dve through to Stone Ford Rd (1.6 Km). The new pavement and surface will be designed to be suitable for a long-term (future projections with growth) heavy vehicle loading of adequate pavement strength. The pavement strength will be improved by the proposed pavement strength methods (Constructing new pavement /Full Depth Asphalt and Foam Bitumen Stabilisation (FBS) with Concrete Overlay on FBS on full depth subgrade).	\$600,000	\$900,000	Sep-22	Jun-23
120396-22SA-RTR	SA	South Australian Local Government Grants Commission	Pine Hall Avenue (Rural Road)	1. Pavement Stripping of top seal and lay 150 mm crushed rock after condensing the existing rubble base layer for the whole width. Scrapped seal will be re-used before putting the crushed rock base in. 2. 2 coat seal with 7/15 aggregate. 3. Median strip for separation of the Bike track. 4. Line Marking 5. Moving the shared path lane 500 mm towards center and creating a shoulder and shape the batter with jute mesh.	\$212,000	\$424,000	Oct-22	Jun-23
120395-22SA-RTR	SA	South Australian Local Government Grants Commission	Gray Street (Rural road)	The project will upgrade Gray street to deliver much-needed improvements on road safety, accessibility and connectivity for the local community and business. The treatment proposed to be undertaken is: • Pavement rehabilitation/reconstruction, stabilisation and widening to accommodate vehicular traffic and cyclists from 6.4 m to 10 m carriageway width; • 2.3m indented parking (approximately half of the total length of road, at least two parking spaces for each residential allotment) on both side of the road; length of road to be upgraded; • Upgrade to pavement including geogrid or similar stress alleviating membrane; • 40 mm AC10 Asphalt wearing course; and	\$794,000	\$1,191,000	Dec-22	Sep-23
120410-22SA-RTR	SA	South Australian Local Government Grants Commission	Moculta Road (Rural road)	The planned upgrade work is for widening of the Moculta Road pavement between west of Perry Road and Truro Road, a distance of 4.9 kilometres, with improved signage and, line marking and associated infrastructure and replacement upgrade of the narrow creek bridge located midway between Gruenberg Road and Bastion Hill Road, to safely accommodate the required vehicle movements. The existing sealed road width of nominal 5.8 metres is proposed to be increased to the desired road formation width of Moculta Road is 9.6 metres - with 3.3 metre sealed carriageway lane plus 1.0 metre sealed shoulder and 0.5 metre unsealed shoulder in both directions. The road pavement is to have a 2 coat bituminous spray seal pavement wearing course.  The design objective is to safely accommodate the mix of community access vehicles and regular large heavy vehicles, including PBS Level 1 over size / over mass vehicles frequently used by local agricultural and farming enterprises. The road widening will be designed and	\$1,200,000	\$2,400,000	Dec-22	Jun-23
120392-22SA-RTR	SA	South Australian Local Government Grants Commission	Ballumbah-kinnaird road (Rural road)	The proposed work on Ballumbah-kinnaird road will include widening of the carriage way by undertaking profiling and shoulder reconstruction between Darke Peak township and Old Darke Peak Road/Ballumbah-Kinnaird Intersection.	\$400,000	\$600,000	Jan-23	Jun-24
120406-22SA-RTR	SA	South Australian Local Government Grants Commission	Kulkami Road (rural road)	The proposed works includes widening and reconstructing the remaining 10 km of kulkami Road road shoulder and will consist of new pavement incorporating crushed rock base coarse to a depth of 300 mm and a 2 coat bitumen spray seal. There will be an increase to the sealed width from 6 meters to 7.2 meters with a 1 meter unsealed shoulder giving an overall carriageway width of 9.2 meters.	\$666,000	\$1,000,000	Jan-23	Aug-23

124368-23SA-RTR	SA	South Australian Local Government Grants Commission	Ballumbah-Kinnairst Road (Rural road)	The proposed works on Balumbah/Kinnairst Road will include widening of the carriage way by undertaking profiling and shoulder reconstruction between Plane Road / Balumba Kinnairst intersection to Kielpa/Gum flat Road/Balumbah Kinnairst intersection. This will greatly improve the safety along as this is now major route for heavy vehicles	\$534,000	\$800,000	Sep-23	Jun-24
124406-23SA-RTR	SA	South Australian Local Government Grants Commission	Magazine Road (Rural Road)	The work proposed includes widening and reconstructing the whole section of Magazine Road with a pavement that is suitable for long term (future projections with growth) heavy vehicle loading of adequate width and shoulders/clear zones. The road surface suffers from heavy rutting and poor drainage. All road requires full reconstruction. The overall carriageway width will be increased from 6 m to 8.6 m with pavement to be surfaced to a thicker from 300 mm to 335 mm	\$899,000	\$1,796,000	Sep-23	Jun-24
124407-23SA-RTR	SA	South Australian Local Government Grants Commission	Seppeltsfield Road (Rural Road)	The proposed project works include pavement rehabilitation/reconstruction including localised road widening. Kerb and gutter reconstruction in areas. Local Area Traffic Management devices to manage the contrast between speed and road dimensions to promote a safer road environment. The pavement rehabilitation/reconstruction is proposed to include pavement thickening to accommodate the current traffic loadings and those anticipated in conjunction with the approved developments of the Seppeltsfield Winery, including heavy vehicle movements. The typical desired cross-section for the upgrade is proposed to include: 3.5 m wide lanes with 2 m wide shoulders (1 m sealed, 1 m unsealed) in each direction, or on-street parking and kerb and gutter, where applicable adjacent Seppeltsfield Winery as is existing. The preliminary pavement design indicating a pavement thickness with a thin bituminous surface of between 440 and 470 mm and a 40 mm asphalt wearing surface is proposed. The desired road widening, to the full desired width will prove challenging in some areas of this proposed section of Seppeltsfield Road, due to the State Heritage Date Palms lining Seppeltsfield Road. As such, in these width limited areas the use of Local Area Traffic Management devices is proposed, promoting a lower speed environment. Allowing the utilisation of 3.0 m wide traffic lanes. It is also proposed to request the Department for Infrastructure and Transport to approve the lower posted speed limit in these areas to 50 km/hr. The inclusion of formal stormwater management infrastructure, such as kerb and gutter is also proposed to be installed in areas of high flow rates and limited existing infrastructure.	\$1,400,000	\$2,100,000	Sep-23	Jun-24
124408-23SA-RTR	SA	South Australian Local Government Grants Commission	Billiatt Road (Rural Road)	The work proposed includes stabilisation 3m wide, 150 mm deep on each side of Koolunga Road from the centre of the travel lane. The seal will be widened from the existing 7 m to 8.5 m by applying a two coat 14/7 mm C170 spray seal on the 5.05 km section of Koolunga Road from the end of the kerb and water table at the Brinkworth township heading north to Boucaut Road. Line marking will include centre and edge lines to help prevent heavy vehicles from straying off the sealed surface	\$535,000	\$810,000	Sep-23	Jun-24

124410-23SA-RTR	SA	South Australian Local Government Grants Commission	Range Road (Rural Road)	Full depth pavement reconstruction for 830 m of road between Tunkalilla Road and Illawong Road. current Australian Standards. Establishment, reinstatement, and reconstruction of road shoulders from Tappanappa Road to Parawa road to provide a minimum 0.5 m Sealed shoulder and 1.0 m unsealed shoulder for the length of this project. Undertake minor pavement remediation though bitumen patching based on visual pavement failure assessment for the remaining 4.77 km of Range Road, from Tappanappa Road to Parawa Road. Re-seal of 5.6 km of Range Road from Tappanappa Road to Parawa Road with two coat spray seal. Update of line marking and review and update of advisory signage for the 5.6 km of Range Road identified, to ensure that all traffic management devices meet, and signage meets current Australian Standards	\$800,000	\$1,200,000	Sep-23	Jun-24
124411-23SA-RTR	SA	South Australian Local Government Grants Commission	North Coast Road (Rural Road)	Reshape table drains and other water management, including the installation of stormwater drainage infrastructure. Provision of culverts and crossroad drainage to coastal reserves. Road alignment geometric shape correction. Prepare foundation and provision of kerb and channel where needed. Top the reshaped alignment with PM2 pavement material and then undertake cement stabilisation strengthening with 2% GB cement to a depth of 250 mm over a width of 9 m followed by compaction of the same to 100% Modified MDD. 103501-19WA-RTR	WA	Shire of Manjimup	Pozzi Road, (Rural Road)	Box out and fill failing sections, form the subgrade to even, two way cross fall and place and form 100 millimetres of gravel over the section of the road.	\$36,448	\$36,448	Dec-19	Jun-20
103602-19WA-RTR	WA	Shire of Manjimup	North Walpole Road (rural road)	Remove vegetation that is within the required pavement construction width. Reconstruct the road so that the pavement width is 8 metres and the sealed width is 6 metres. Replace failing storm water culvert. Place a new seal and evidenceposts as required.	\$10,000	\$450,000	Dec-19	May-20
103605-19WA-RTR	WA	Shire of Manjimup	Seven Day Road (rural road)	Import gravel to add 50 millimetre of material over four sections of the road, undertake cement stabilisation and reform those sections with a 2 percent crossfall. Apply a two coat spray seal to these sections and a single coat spray seal to the sections of road that were not reformed. Replace centre and edge line marking.	\$129,269	\$129,269	Dec-19	May-20
104209-19WA-RTR	WA	Shire of Manjimup	Balbarrup Road (rural road)	Grade table drains to ensure flow of stormwater, shape the existing surface to correct crossfalls then import and place 100 millimetres of compacted gravel.	\$44,359	\$44,359	Dec-19	May-20
106184-19WA-RTR	WA	Shire of Manjimup	Eastbourne Road (rural road)	Import and spread gravel to add 50 millimetres in pavement depth. Undertake cement stabilisation then reform the road with 2 percent crossfalls and place a 2 coat spray seal.	\$75,566	\$75,566	Dec-19	Jan-20
108507-20WA-RTR	WA	Shire of Manjimup	Windy Harbour Road (rural road).	Replace existing culverts that are failing. Reform/reconstruct the road by importing gravel so that a 6 metre seal can be applied with 1 metre of unsealed shoulder each side and crossfalls and super-elevation meet the required standards. Place signs and evidenceposts as required.	\$117,787	\$454,309	Jul-20	Apr-21
108516-20WA-RTR	WA	Shire of Manjimup	Perup Road (rural road)	remove a number of trees that are close to the road; replace pipes in four culverts that have been built with butt joint pipes and are failing. Rip the existing seal and import gravel to form an 8 metre wide pavement with a 6 metre seal. Place signs and evidenceposts as required.	\$142,340	\$454,701	Jul-20	Apr-21
108519-20WA-RTR	WA	Shire of Manjimup	North Walpole Road (rural road)	Replace the culvert with a larger diameter pipe at a higher reduced level and install headwalls. Import fill to lift the level of the road, import gravel and shape the road to the required crossfall and super-elevation with a 6 metre wide seal and a 1 metre unsealed shoulder each side. Place signs and guide posts as required.	\$134,171	\$478,706	Jul-20	Jun-21
108508-20WA-RTR	WA	Shire of Manjimup	Wheatley Coast Road, Quininnup	Replace one culvert that is failing. Form table drains to accepted standards. Rip the road and import gravel; form gravel to the required shape of the road and place a 7 metre wide seal with a 1 metre unsealed shoulder each side. Place signs and guide posts as required.	\$121,924	\$450,000	Sep-20	May-21
108520-20WA-RTR	WA	Shire of Manjimup	Springdale Road (rural road)	Shape the existing road to form a base with 6 percent crossfalls. Import gravel to form a 100 millimetre thick compacted layer.	\$46,462	\$46,462	Oct-20	Dec-20
108549-20WA-RTR	WA	Shire of Manjimup	Karri Street, Manjimup	Place a 25 millimetre asphalt seal.	\$79,886	\$79,886	Nov-20	Mar-21
108550-20WA-RTR	WA	Shire of Manjimup	Pritchard Street, Manjimup	Remove existing kerbing, kerb ramps and drain grates. Install new side entry pits and channel drains to ensure surface water can run off the road surface. Form new kerb ramps and adjoining footpaths, place corrector asphalt where required then place a 30 mm asphalt seal over the area. Place new kerbing including new driveway crossovers to match changed levels.	\$73,661	\$97,541	Nov-20	May-21
108521-20WA-RTR	WA	Shire of Manjimup	Kemp Road (rural road)	Form the existing road base to a shape that keeps surface water running along the edges of the road then import, shape and compact 100 mm of gravel.	\$22,165	\$22,165	Jan-21	May-21
108543-20WA-RTR	WA	Shire of Manjimup	Richardson Road (rural road)	Shape the existing road to form crossfalls of 6 percent; import and compact 100 millimetres of gravel.	\$21,314	\$21,314	Mar-21	Apr-21
113362-20WA-RTR	WA	Shire of Manjimup	Yanmah Road (rural road)	Add gravel to the low spots and engage contractors to undertake cement stabilisation; grade to 2% cross falls and apply a two coat spray seal.	\$83,731	\$118,731	Apr-21	Jun-21
113376-20WA-RTR	WA	Shire of Manjimup	Froome Road (rural road)	Import, spread and compact 100 millimetres of gravel.	\$32,730	\$32,730	May-21	Jun-21
114607-21WA-RTR	WA	Shire of Manjimup	Perup Road (rural road)	Place a second coat spray seal over the first 1 kilometre. Replace drainage culverts as required, remove a small number of trees, construct an 8 metre wide road and place a 6 metre wide spray seal.	\$149,030	\$449,030	Sep-21	May-22
114620-21WA-RTR	WA	Shire of Manjimup	Windy Harbour Road, Northcliffe	Between Meerup Road and Mill No. 1 Road, reconstruct the road with suitable gravel including boxing out areas where the sub-grade is substandard. Construct a 8 metre wide pavement and place a 6 metre wide spray seal. For 1000 metres south of Mill No. 1 Road place a second coat spray seal.	\$190,107	\$540,107	Oct-21	May-22
114648-21WA-RTR	WA	Shire of Manjimup	Old Vasse Road (rural road)	At the end of winter identify the sections in poorest condition then form the existing surface to evenly graded crossfalls, and import gravel to form a 100 millimetre thick unsealed pavement.	\$63,642	\$63,642	Nov-21	Apr-22
114612-21WA-RTR	WA	Shire of Manjimup	Wheatley Coast Road (rural road)	Replace one stormwater culvert then reconstruct the road to form a 10 metre wide pavement and place an 8 metre wide spray seal surface.	\$156,121	\$450,000	Dec-21	May-22

Project ID	Location	Funding Recipient	Project	Description	Program funding	Total project cost	Start date	End date
118284-21WA-RTR	WA	Shire of Manjimup	West Boundary Road, Manjimup	Rip the existing road surface and gravel, engage contractors to cement stabilise the gravel, form the road to a 3 percent crossfall. compact and apply a two coat spray seal. Place guide posts.	\$71,643	\$109,151	Dec-21	Apr-22
114652-21WA-RTR	WA	Shire of Manjimup	Paganini Road (rural road)	Form the existing road surface to evenly graded crossfalls and import and place a 100 mm thick gravel pavement.	\$50,844	\$80,092	Feb-22	Apr-22
118288-21WA-RTR	WA	Shire of Manjimup	Diamond Tree Road (rural road)	Rip the existing road and import gravel where required, shape the road to form a good running surface with crossfalls of 2 percent then apply a two coat spray seal.	\$51,139	\$51,139	Feb-22	Apr-22
114649-21WA-RTR	WA	Shire of Manjimup	Fox Road (rural road)	On the section that is affected by water during winter, box out to remove unsuitable material, line the excavation with geo-textile and fill with quartzite then form a gravel pavement over the top. On other sections where little or no gravel exists, form the existing surface to evenly graded crossfalls and import and place a 100 millimetre thick compacted gravel pavement.	\$65,810	\$86,624	Mar-22	May-22
118285-21WA-RTR	WA	Shire of Manjimup	Waughas Road (rural road)	Place a layer of imported gravel that is compacted to a thickness of 100 millimetres.	\$24,692	\$24,692	Mar-22	Apr-22
118286-21WA-RTR	WA	Shire of Manjimup	Bottomley Road (rural road)	Import and place a 100 millimetre layer of compacted gravel over the full width of the road.	\$26,788	\$26,788	Mar-22	Apr-22
118287-21WA-RTR	WA	Shire of Manjimup	Riverway Road (rural road)	Form the natural surface so that surface water is kept in the table drains then import and place a 100 millimetre compacted layer of gravel.	\$26,355	\$26,355	Mar-22	Apr-22
119321-22WA-RTR	WA	Shire of Manjimup	Perup Road (rural road)	Undertake a feature survey of the full width of the existing road corridor to enable an engineering redesign of the road; identify and remove any trees that are within the proposed road corridor, remove and replace stormwater culverts as required the form the road table drains and subgrade as per the new design then import, spread and compact gravel to form an 8 metre wide pavement and place a 6 metre wide bitumen spray seal. Replace or reconstruct road side signage and place new guideposts.	\$176,388	\$526,388	Sep-22	Feb-23
119653-22WA-RTR	WA	Shire of Manjimup	Wheatley Coast Road, Quininnup	Undertake a feature survey of the road reserve, redesign the road so that the geometry meets the requirements of Ausroads Guidelines then reconstruct the road and drainage with a 9 metre pavement width and a 7 metre wide spray sealed surface. Place guideposts, roadside signage and guideposts.	\$157,703	\$513,924	Sep-22	Feb-23
119724-22WA-RTR	WA	Shire of Manjimup	Yanmah Road (rural road)	The road requires placement of gravel over the culverts so that good crossfalls can be constructed to aid in shedding of water. Additional gravel is required on sections where corrugations occur. Remove old gravel and vegetation to ensure water can flow off the road effectively. Cut back overhead vegetation where required.	\$54,754	\$54,754	Sep-22	Apr-23
119748-22WA-RTR	WA	Shire of Manjimup	Mordalup Road (rural road)	Extend storm water culverts if required. On hill tops and bends where the vision of on coming vehicles is restricted, add gravel if required to build up and or widen the shoulders then place a strip of new spray seal on the shoulder before placing a spray seal across the full width of the road.	\$85,977	\$85,977	Sep-22	Dec-22
119755-22WA-RTR	WA	Shire of Manjimup	Sherman Road (rural road)	Clear the table and cut off drains to ensure good flow of surface water, form the existing road surface with 6 percent crossfalls then import and compact a 100 mm thick layer of gravel. Reinstall signs and guideposts as appropriate.	\$45,599	\$45,599	Sep-22	Dec-22
119644-22WA-RTR	WA	Shire of Manjimup	Black Georges Road (rural road)	Clear table and cut off drains then grade and form the existing road surface so that it has a 6 percent crossfall in each direction from the crown then import new gravel, water bind and compact it to form a minimum 100 millimetre thick layer.	\$38,946	\$38,946	Oct-22	Dec-22
119700-22WA-RTR	WA	Shire of Manjimup	O'Connor Street, Manjimup	Place an asphalt reseal.	\$90,137	\$90,137	Nov-22	Dec-22
119691-22WA-RTR	WA	Shire of Manjimup	Graphite Road, Manjimup	Remove and replace with new all underground drainage pipes and pits. Excavate failure in the area of the spring and place geotextile and slotted drain coil in the excavation to drain the spring into the stormwater system and place suitable construction material in the excavation. Remove the existing pavement, kerbing and footpath and place a geotextile layer over the entire subgrade followed by imported gravel; compact the gravel and shape to the design crossfalls, place new kerbing and concrete footpath and an asphalt seal. Install signs and line marking as required.	\$100,000	\$450,000	Jan-23	Jun-23
119694-22WA-RTR	WA	Shire of Manjimup	Channybearup Road, (rural road)	Where required, reconstruct shoulders and sections of the road that are failing, place a new 600 millimetre wide edge seal then place a reseal/second coat seal of the width of the road. Place signs and guideposts as required.	\$126,667	\$453,680	Jan-23	Jun-23
122500-23WA-RTR	WA	Shire of Manjimup	Channybearup Road (rural road)	Remove the existing culvert and replace it with new pipes and headwalls; import, spread and compact gravel to for a 9 metre pavement for a 7 metre spray seal with 1 metre unsealed shoulders each side of the road.   3. **Where there have been changes (particularly delays) in scheduled project completion times, a list of projects by program which at the time of the 2023-24 Budget Estimates (May 2023) hearings were scheduled for completion in 2023-24 and the corresponding revised completion date, as well as explanation for the change in scheduled completion time.**
    - Not applicable.

4. **A list of projects by program that have been discontinued since 9 May 2023, including projects that have been contractually committed, and committed but not yet contracted.**
  - Not applicable.
5. **A list of all projects by program that were provided to the Committee on 23 October 2023 that have since been withdrawn, declined or assessed as unsuccessful or not complying with program guidelines.**
  - Not applicable.
6. **A list of projects by program scheduled for completion in the 2024 calendar year.**
  - Not applicable.
7. **A list of projects by program scheduled for completion in the current (2024-25) financial year.**
  - LCSRI023 Swinburne University, 15 January 2025.
  - LCSRI044 Main Roads Western Australia, 24 January 2025.
  - LCSRI049 Cordel Pty Ltd, 30 April 2025.
8. **Details of any variations since 9 May 2023 to how funding is to be allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply), and, for projects approved since 1 July 2022, details on recipients have been identified.**
  - The funding allocation for the Research and Innovation Grant has increased by \$1.47m in 2024-25, as it has been moved from 2023-24.
  - The Regional Australia Level Crossing Safety program allocation over each year of the Forward Estimates is:

Year	24-25 \$M	25-26 \$M	26-27 \$M	27-28 \$M
Administered	3.099	1.500	0.000	0.000
Treasury Specific Purpose Payment (SPP) (level crossing upgrade component)	40.000	40.000	40.000	0.000
			<b>Overall total</b>	124.599

- Funding under the infrastructure component of the program is outlined below. This funding requires a matched contribution (50 percent co-funding) from the state or territory government.

	2024-25	2025-26	2026-27	2027-28
Regional Level Crossing Upgrade Fund – NSW	10,860,000	9,710,000	5,430,000	0.00

## Response to Senator Canavan Request

---

The following information is provided in relation to the Domestic Aviation and Reform Division and the International Aviation, Technology and Services Division in response to Senator Canavan's request in correspondence to the Department for the following programs:

- Western Sydney Airport
- Managing PFAS at Australian Airports
- Regional Airports Program
- Regional Airports Screening Infrastructure (Enhanced Regional Security Screening)
- Emerging Aviation Technologies Programs
- Remote Airstrip Upgrade

Not all requested data is captured by the Department, or captured in an easily reportable, reliable, and consistent format.

In the Program overview tables below:

- Budget figures align with the 2024-25 Portfolio Budget Statements.
- Contracted, committed but not yet contracted and unallocated figures are as at 18 October 2024
- Figures in the tables below are dollars with rounding.

Underspends go back into an unallocated pool to be committed. The total unallocated pool is managed at a program level within the financial year allocations, how individual underspends get repurposed is not tracked.

Additional project level information is included at:

- Regional Airports Program project-level listings are detailed at **Attachment A**.
- Managing PFAS at Australian Airports project-level listings are provided at **Attachment B**.
- Remote Airstrip Upgrade Program project-level listings are detailed at **Attachment C**.
- Emerging Aviation Technologies Programs project-level listings are detailed at **Attachment D**.

Unallocated	30,004,838	9,030,381	17,493,571	9,519,469	-	<b>66,048,259</b>

Note: Excludes appropriation across 2021/22 – 2022/23, total Administered funding commitment to the Program equals \$95,750,000. Contracted, committed but not yet contracted and unallocated figures are as at end of 18 October 2024. Note that a reduction in the “contracted” figure in any year compared to previous reports relates to project delays which have resulted in project milestone payments being deferred to future years.

### **Managing PFAS at Australian Airports (PFAS) (Departmental funding)**

Appropriation	2023-24	2024-25	2025-26	2026-27	2027-28	Total

Committed but not yet contracted	-	-	-	-	-	<b>-</b>
Unallocated	1,248,453	199,868	-	-	-	<b>1,448,321</b>

Note: Excludes appropriation across 2021/22 – 2022/23, total Departmental funding commitment to the Program equals \$34,742,000. Contracted, committed but not yet contracted and unallocated figures are as at end of 18 October 2024. Note that a reduction in the “contracted” figure in any year compared to previous reports, and equivalent increases to the “unallocated” figure, relates to projected underspends in program departmental funding. “Unallocated” amounts in the current financial year remain available to the department to support Program delivery requirements.

Not all requested data is captured by the Department, or captured in an easily reportable, reliable, and consistent format.

In the Program overview tables below:

<sup>1</sup>Budget figures align with the last published May 2024 Budget. Unless otherwise requested/stated, the funding profile provides the full or life of program totals.

<sup>2</sup>Contracted, Committed but not yet contracted and Unallocated figures are as at end of September 2024.

Figures in the tables below are dollars without rounding.

### Q1, Q8. Program overviews and funding over forward estimates

The tables below show contractually committed, committed but not yet contracted and unallocated by program for each year over the forward estimates where relevant. Project-level listings for these programs are at [Attachment A](#).

#### **Armstrong Creek Stadium** (national partnership funding to VIC)

Unallocated <sup>2</sup>		0	0	103,426,761	<b>103,426,761</b>

Note: Over-commitment in CDG for 2024-25 is temporary due to the recently approved out of session MoF (which is included in the Budget numbers and will be published at PAES or the next budget paper update). It is anticipated that as variations are processed to move payments the over-commitment will be offset before the end of 2024-25.

### Darwin Cyclone Tracy Memorial (national partnership funding to NT)

Appropriation	2023-24	2024-25	2025-26	Total
Budget <sup>1</sup>	0	600,000	0	<b>600,000</b>

### **Q2, Q3. Changes since the previous 2023-24 Additional Budget Estimates**

---

Revised project completion dates are reflected in **Attachment A** which have been provided in a format that allows for comparison of changes. Generally, changes to completion dates are to take account of administration to close projects or variations for extensions.

### **Q4, Q5, Q6, Q7. Projects discontinued, completed, scheduled for completion**

---

Details for projects by program (i) discontinued since 9 May 2023, including projects that have been contractually committed, and committed but not yet contracted; (ii) completed in 2023-24 financial year; (iii) scheduled for completion in the current (2023-24) financial year or forthcoming (2024-25) financial year; and (iv) withdrawn, declined, assessed as unsuccessful or not complying with program guidelines, are reflected in **Attachment A**.

### **Q9. Details of how any underspends have been repurposed**

---

Underspends go back into an unallocated pool to be committed or returned to consolidated revenue. The total unallocated pool is managed at a program level within the financial year allocations - how individual underspends get repurposed is not tracked.
