3	Combination	WA	City of Rockingham	Stan Twight – Car park upgrade and extension	Off-road Car Parks - Such as off-road car parks at sporting grounds or parks Project involves the upgrade and extension of an existing car park including drainage and landscaping to service the growing number of sporting group and general community users of this significant District level reserve. Parking has been identified as a major issue for all users and adjoining residents. The lack of available car parking results in cars parking on the verges of the reserve and adjoining homes. This creates safety and amenity issues as footpaths become blocked and lines of sight on the adjoining roads are reduced.  The expansion and upgrade of the car parking will further support the future redevelopment of the clubroom facilities on the reserve and increase the accessibility of the site to people of all abilities with hardstand connection improvements. Consultation and preliminary design have been completed to confirm the projects suitability and feasibility to be delivered under the LRCI Phase 3 grant.	Complete	\$583,617	Mar-23	Dec-23

3	Community	WA	Shire of Bruce Rock	Bruce Rock Supermarket. Corner of Johnson and Bath Street, Bruce Rock, WA.	OTHER. The only supermarket in the Bruce Rock townsite burnt down as a result of arson in March 2020. The Shire of Bruce Rock seek to construct a new supermarket building to ensure our residents have access to a secure food supply. This is especially important for vulnerable members of our community who are unable to travel 40km to the next town for grocery shopping and lack a support system who could do this for them. At present, the Shire are operating a temporary supermarket out of the Town Hall, which was not designed for this purpose and has resulted in the hall being unavailable for community events and sporting activities. After engaging a retail consultant, it was determined that the Shire of Bruce Rock would be extremely unlikely to attract a retailer to operate a grocery store if the retailer had to construct a building as well. The Shire intend to build the supermarket and fit it out, and then lease it to an independent retailer. Constructing a new supermarket will contribute to the local economy by creating jobs during the construction phase and ensuring the continued future of the local retail economy. At present, many retail businesses in Bruce Rock have been negatively impacted by people travelling out of town for grocery shopping, as the temporary supermarket is unable to stock all the stock lines they need/desire, and then completing the rest of their retail shopping in the other town for conveniences sake. Specific components of the construction of the Supermarket Phase 3 funding will be used for the superstructure (column, roof, external & internal walls, windows, external & internal doors).	Complete	\$1,052,604	Sep-22	Sep-23
3	Road	WA	Shire of Capel	Hasties Road Footpath, Drainage and Kerbing Upgrade	Hasties Road is the principle entry road to the Gelorup townsite. The road has inconsistent edge treatments with some sections kerbed and other areas underbed. This leaves the impression that the road is unfinished or unimportant. Steep verges contribute to considerable surface runoff during heavy rain events. This has resulted in excessive erosion and deposition of sand and gravel onto the roadway - generally near the Bussell Highway. Stormwater drainage along Hasties Road is limited, resulting in flooding of the road. The proposal includes additional pits and soakwells to address this issue. The installation of embayed parking spaces along Hasties Road will provide formal parking during community events and will provide quick turnover parking for users of the adjacent community centre. The proposed path alongside the embayed parking will provide safe universal access between the parked vehicles; the existing path network and the community facilities. The scope of works involves construction of stormwater drainage, reshaping of verge, construction of 716m of kerb, realignment of existing footpath, construction of 215m of footpath and construction of 11 embayed parking bays. 3	Road	WA	Shire of Capel	Peppermint Grove Beach School Bus Turnaround	The Peppermint Grove Road car park was originally built in early 1980’s. Currently the school bus drivers use the car park as a turnaround area. Turning in the car park area is difficult. When some of the car parking spaces are occupied, it is near impossible. Moreover, there is an existing safety issue where children are being picked up and dropped off in a live carpark. The Shire has received many complaints from residents/parents to improve this safety issue. This project will provide safe pick up and drop off for school buses and provide better storage of runoff during storms and minimize nuisance flooding of the road and adjacent property. The scope of works involves construction of formal asphalt roundabout, allowing buses to turn around away from the carpark with a central drainage basin, construction of sealed bus pull in bay, construction of 45m of new footpath, replacement of 54m of footpath, relocating existing soakwells, installation of new bus shelter, and install line marking and signage. The door frames in the wet area are rusting out, the floor and wall tiles are cracking and starting to lift, and access the change rooms with a stretcher is limited. Therefore these aspects of the change rooms will be refurbished accordingly. In addition, the shower heads will be replace with water wise ones. The Shire also proposes to install split system air conditioning in the function room so that the facility is suitable to be used in both winter and summer. The proposed work will ensure that the facility will need the social and sporting needs of the community into the future.	Complete	\$143,000	Nov-22	Oct-23
3	Community	WA	Shire of Carnamah	Carnamah Swimming Pool 3 Niven Crescent Carnamah	Construction of shed for storage of chlorine and other chemicals, repairs to pool bowl, provision of BBQ facilities and other improvements. Currently the Shire purchases liquid chlorine in 200L drums which are kept in the existing plant room. The only access to room is across a grassed area which makes it very difficult to handle the drums safely. The Shire proposes to build a shed behind the existing plant room which will allow 1000L shuttles of chlorine to be placed using a fork lift without the need for manual handling. The pool bowl itself appear to be lower on one side that the other resulting in lack of water circulation in that corner. It proposed to lower the drainage channel on that side to rectify this circulation issue. Its proposed to construct a BBQ area in on corner of the pool grounds to provide a facility for the community to socialise. These items will reduce the risk of injuries to staff and provide a safer workplace as well a meeting point for the community	Complete	\$100,000	Oct-22	Jun-23

3	Community	WA	Shire of Donnybrook Balingup	Balingup Footpaths	Upgrading and provision of new footpaths and associated infrastructure. The existing asphalt paths in Balingup are nearing the end of their useful life due to age, ground movement and tree roots intrusion and are unsightly, unsafe and inhibit the use of gophers, wheelchairs etc. which has implications for access and inclusion. In consultation with key community stakeholders, the Shire has planned to replace these paths with new concrete paths, to provide better connectivity and all ability access to existing Shire infrastructure and local businesses. Approximately 250m of path will be replaced/upgraded by this project.	Complete	\$132,644	Apr-22	Oct-22
3	Community	WA	Shire of Donnybrook Balingup	Donnybrook Arboretum	The Arboretum is a key reserve which forms an entry statement at the entrance to the Donnybrook townsite and contains a range of historical trees (over 100 years old) and vintage timber milling machinery which was established in the 1970s as an interpretive heritage display. The reserve has been neglected in recent years, however the Shire has formed a coalition with a local volunteer group to restore the historical machinery display and rejuvenate the reserve through providing a low-key rest stop for visitors. New infrastructure will include picnic tables, an information bay, footpaths, provision of bins and interpretive signage. The local community has a strong attachment to the reserve and the project will foster civic pride and create an attractive entry statement for the Donnybrook town.	Complete	\$32,000	Mar-22	Jan-23
3	Road	WA	Shire of Donnybrook Balingup	Newlands Rd	The project involves the upgrading of the final gravel section of Newland Road (approx. 500m) to a sealed standard. 1km of Newlands Road was upgraded to a sealed standard under Phase 1 of the LRCI funding, and this Phase 3 project continues from where the Phase 1 project finished. 3	Community	WA	Shire of Jerramungup	Fishery Beach Boat Ramp and Jetty Construction	Construction of a 2 new boat ramps and jetty. The ramps and jetty are now more than 25 years old. The jetty is narrow, corrosion of steelwork and damage to fenders and ladders is evident, timber kerbing is subject to marine growth, and numerous concrete ramp units have been displaced with degradation to the running surface. The structures have exceeded their intended design life the jetty does not meet current standards and the ramps are in very poor condition. The predominant benefit of this project is ensuring that Bremer Bay continues to have recreational boat access to its waters. A widened Jetty will provide safer access for the Volunteer Marine Rescue Service to access and egress their boat having noted that it is very difficult to carry a stretcher along the existing jetty. A widened jetty will also provide universal access of which the existing facility currently restricts. Bremer Bay’s attractiveness as both a destination and as a place to live is largely attributed to the marine environment and a reliable recreational boat launching facility is a fundamental part of this. The upgrade of the playground will include new equipment to current standards with inclusive and accessible access and equipment and appropriate shelter. Creating pathways and that are more accessible. Complete renovation of gardens to native and endemic vegetation to fit in with the Fitzgerald Biosphere and Shire strategic planning and agreed outcomes. Addition of an amphitheatre to allow outdoor community events	Complete	\$410,130	Mar-22	Jun-24
3	Community	WA	Shire of Ravensthorpe	30-32 Dunn Street: off-road carpark	Creation of a new asphalted carpark to service the new community precinct building currently under construction and to accommodate RVs, cars and new accessible car parking. The car park area will accommodate up to 9 cars and include an EV charger station and 2 disabled bays, with parking for 6-7 RVs.	Complete	\$201,614	Feb-22	Jun-24
3	Community	WA	Shire of Ravensthorpe	28 Dunn Street: improved accessibility of community facilities and areas	New accessible ramp and entries to the community arts building. This building will become the central arts area for the town with the RaveAbout Arts, Ravensthorpe Regional Arts Council and Dunn Arts groups combining to use the facility as a gallery space and works shop area for events, showings and workshops. The buildings current design and layout is not amenable to contemporary access to premises and with the new carpark, and accessible parking as well as new pathways to the area through the landscaping upgrades, the opportunity to address access through entryways will be facilitated.	Complete	\$87,761	Jun-23	Jun-24
3	Community	WA	Shire of Sandstone	Sandstone Caravan Park extensions	This project is for the purchase of two 2-bedroom x 1 bathroom fully self-contained accommodation units for placement in the Shire caravan park. It differs from Project I which is withdrawn, in that these units will not require construction. These are good quality prebuilt units and can meet the conditions of the grant and ensure project completion by 30/06/2024.Accommodation is difficult to acquire in Sandstone especially for some of our residents who live remotely on cattle stations. Their homes are quite distant from the townsite and when visiting the town for medical, dental or other services they use this accommodation rather than drive home at night. The shire also has various medical dental and trades services that visit the town. If we can't provide accommodation for these people they will not come to Sandstone. This directly affects our residents are they are then deprived of essential services, very concerning for our elderly residents.	Complete	\$291,229	Apr-24	Jun-24
3	Community	WA	Shire of Sandstone	Street Beautification	This project involves the pruning of approximately 40 trees, removal of approximately 20 dead trees and purchasing and planting of 50 new trees Brachychiton Bella Pink (native Kurrajong). It also includes the planting of approximately 60 small flowering shrubs.	Complete	\$84,317	Jun-24	Jun-24

3	Community	WA	Shire of Sandstone	Community Centre	The Shire plans to increase the usage of its Community Centre for local residents by providing more BBQ nights, drinks and light entertainment year round. The local hotel recently closed down and we lost our popular gathering place. The Community centre is now our only place for people to get together, socialise and share meals. As our nearest supermarket is 150 kilometres away it is necessary to bulk buy foods, especially meats. To cater for the increased use of the centre this project is to purchase and install new commercial grade fridge/freezers to store a sufficient quantity of meats and other foods and ensure the health standards of food storage are met. Having these fridges reduces the times we have to travel that 150 kms to the supermarket. Community members will have full access to the fridges and will be able to use the facilities as and when they wish. Its expected there will be a minimum of 4 days a week when the Centre will be fully occupied. On the other 3 days the Centre will be accessible to and likely used by individuals or small family groups by acquiring the key from the Shire office, as they do now when they want to use the sporting equipment. Fortunately we live in a very safe community and people know if they leave their meats and salads in the fridges with their name on the packs, it will be safe.	Complete	\$23,038	Jun-24	Jun-24
3	Road	WA	Shire of Sandstone	Installation of whoa boys on Wiluna Road	This project involves the application of new gravel, grading, rolling the road surface, repairing floodways and the creation of whoa boys on the road. Spoon drains are then constructed at the site of the whoa boys. The whoa boys are like speed humps and they prevent an accumulation of water flow travelling downhill and scouring the road making it hazardous and often impassable. The whoa boys slow the water speed and the spoon drains feed the water off onto the surrounding land.	Complete	\$245,000	Jun-24	Jun-24
3	Community	WA	Shire of Serpentine Jarrahdale	Byford Hall – Library Refurbishment: Separable Portions 2 & 3  SW Highway, Byford  Work categories 1. 3	Community	WA	Shire of Shark Bay	Denham Foreshore Children’s Playground (Knight Terrace)	Playgrounds and skate parks. Purchase and installation of hard shade structures over children’s play equipment to create shaded summer play areas.	Complete	\$50,694	Jan-24	Jun-24
3	Community	WA	Shire of Shark Bay	Denham Town beach (Knight Terrace)	Other - Beach accessibility project. Purchase and installation of matting and beach wheelchair to allow beach/water access for those living with a disability. There is currently no access at the Denham Town Beach for wheelchairs. A floating beach wheelchair is a wheelchair that has specialised wheels and large armrests that become stable floatation devices, meaning the wheelchair can be pushed into the water. The Shire has received many requests from our older residents to improve beach access and they currently find it difficult to get to the water (ABS statistics show that 45% of Denham’s population is aged 50 or over). This wheelchair will allow those with disability and the elderly to access the water (via the matting which will be installed from the footpath to the water) so older residents and people living with a disability can swim and experience water activities.	Complete	\$47,495	Sep-22	May-24
3	Community	WA	Shire of Shark Bay	Denham playing surfaces (egg town oval, foreshore)	Landscaping Improvements; Sport and Recreation Facilities. Installation of new reticulation and resurfacing/regreasing of town oval playing areas and foreshore recreation areas.	Complete	\$196,314	May-23	Jun-24
3	Community	WA	Shire of Shark Bay	Denham townsite	Street lighting equipment. Installation of additional solar street lighting in dark/problematic areas in the town (approximately 12 lights)	Complete	\$96,840	Jun-23	Nov-23
3	Community	WA	Shire of Shark Bay	Denham Recreation Centre	Sporting and Recreation facilities; Bicycle and walking paths. Creation of accessible access ways into the recreation precinct. Creation of accessible access ways into the recreation precinct. There is currently no accessible access ways directly into the Recreation Precinct. This project will install 2 access ramps and create a small pathway along the side of the current carpark to enable safe access for those with wheelchairs or other mobility devices. The access ways will also be useful to parents with pushers and prams.	Complete	\$11,662	Jan-24	Jun-24
3	Community	WA	Shire of Shark Bay	Denham Townsite	Installation of five additional fixed cameras and upgrade of aged equipment. Four additional cameras will be installed at critical points along the Denham foreshore to provide complete coverage of the popular main street and beach access areas. One additional camera will also be installed in the 24 hours unstaffed community gym to ensure full coverage for patron safety in all public areas of the gym.	Complete	\$45,081	Feb-23	Jun-24
3	Community	WA	Shire of Shark Bay	Denham Recreation Centre and Town Hall	Phase 2 of the LRCI grants allowed the Shire to install an external electronic entry system to the town Recreation Centre and gym. This has allowed much easier, safer and controlled access (access can be provided via the user’s mobile phone) to these facilities. Similar external access is now requested for the Town Hall. Additionally, controlled access is needed on several internal doors within the Recreation Centre (which currently rely on users manually locking them to prevent access by unauthorized persons). Recently a number of items in the community meeting room were damaged after the door was accidentally left unlocked.	Complete	\$52,462	Feb-23	Jun-23
3	Road	WA	Shire of Tammin	Bungulla North Rd Straight Line Kilometre 7.00 to 9.00	Widening of road and reseal, currently seal width of 4m, new road will be 7m wide on a length of 2km	Complete	\$81,541	Feb-22	Apr-22

3	Community	WA	Shire of Upper Gascoyne	Gascoyne Junction Parks and Gardens Water Irrigation Stage 1	Construct a 500 metre (approx.) artesian bore. Currently the Gascoyne Junction townsite is running out of water and is unable to service its relatively small parks and gardens. The Shire are looking for a permanent solution. The pilot bore will determine the quality of the water identified by our contract hydrologist. It is assumed that the artesian bore will have a draw of 4 Giga Litres which would provide water for foreseeable future. The works will upgrade existing water reticulation infrastructure so that we can minimise our water usage and maximise the benefits rather than waste water. The water will be used on our oval and town parks and gardens.	Complete	\$85,000	May-22	Jan-23
3	Community	WA	Shire of Upper Gascoyne	Case Bore and Install Pumps and associated infrastructure Stage 2	Install the bore casing, dependent on water quality results and install the subsurface water pumps and associated infrastructure.	Complete	\$1,164,746	May-22	Apr-23

3	Road	WA	Town of Cambridge	Lake Monger Car Park South West	Off-road Car Parks: Lake Monger Reserve currently has four car parks located on its south side. Three of these have been servicing visitors to Lake Monger Reserve for the past 50 years. Their combined number of parking spaces is 64. In July 2021, the Town completed construction of a fourth car park on the south east side of Lake Monger Reserve.  The three older car parks are ageing and require resurfacing work if they are continued to be utilised. Entry and exit points of each car park with Lake Monger Drive present safety issues with crossing the shared path that traverses Lake Monger lake and with traffic along Lake Monger Drive.  It is proposed to construct a new car park (60-80 bays) in the south west area of Lake Monger Reserve (adjacent to the newly constructed all-inclusive playground). Once this car park has been opened, the three existing, ageing car parks will be removed and decommissioned. Consolidating parking for Lake Monger Reserve over two car parks will improve safety for pedestrians using the shared path, vehicles entering and exiting Lake Monger Drive, and assist with asset management in future. 3	Road	WA	Town of Claremont	Leura Ave Roundabout	Reconstruction of damaged roundabout. The existing roundabout was originally constructed using rubber materials and since installation the road network usage has intensified significantly due to developments occurring within the Town inclusive of a new public bus terminal and the Metronet Project. Unfortunately, the intensification in use has seen the existing roundabout materials break up and fall apart leaving it in a very poor condition. We intend to reconstruct the roundabout using more durable materials inclusive of reinforced concrete and kerb.	Complete	\$88,020	Jul-22	Sep-22
3	Community	WA	Town of Claremont	Meals on Wheels Facility Refurbishment	Refurbishment including replacement of kitchen used for Meals on Wheels (MOW) services and as a community recreational club facility. The facility is a Council owned facility with a multipurpose room, toilets, and a large kitchen. It is for public use with bookings being made through application to the Town. It is often used for local clubs and not-for-profits meetings and gatherings. A user group of the facility is the Meals on Wheels team which is co-funded by the Town. This group prepares meals for vulnerable/at need community members, delivering them throughout the week. Unfortunately, the kitchen is approximately 50 years old, and although minor repairs and additional pieces of equipment have been organised over the years, the entire kitchen is in need of renewal. We intend to refurbish these rooms, replacing all fixtures and fittings with modern commercial type equipment while also undertaking other minor repairs and improvements to the fabric of the building.	Complete	\$120,000	Jul-22	Jun-24

Refer to the attached layout plan. Council will be the asset owner of the light poles and switch boards	The park has been redeveloped in line with the masterplan to include: - Multi-Use formal sports area - Regional scale intergenerational playground - Basketball courts - Multi-use Events Space - Improved biodiversity - A stronger acknowledgment of cultural significance, including the Stolen Generations Memorial The upgrade has resulted in a 300% increase in usage, playing an important part as one of the largest inner-city public open spaces in the city, surrounded by a growing high-density population. The usage has encouraged users to use more avenues of the footpath Key services have been installed for future connection. Lighting to the footpath and oval is an integral piece of the project, encouraging users to extend hours and improving passive surveillance in line with CPTED Principles (Crime Prevention Through Environmental Design).	Complete	\$326,240	Jan-24	Jun-24
4	Community	WA	City of Stirling	Greek Macedonian Centre-Toilet Upgrade Renewal of existing toilets and addition of a universally accessible toilet (UAT). Providing a compliant accessible car bay in the car park. Minor paving works.	The proposed works will provide compliant male, female and unisex UAT facilities as well as improving accessibility by providing an accessible car bay and improving paving levels around the entry. These works will enable the Greek Macedonian Association to deliver a wide range of services to the community in a clean, accessible, welcoming environment. The City will maintain ownership of this asset after the refurbishment works have been completed.	Complete	\$100,000	Sep-23	Nov-23
4	Community	WA	City of Stirling	Balga Football/Cricket Club-Building Refurbishment-Robertsbridge Reserve Nollamara Sporting and recreation facilities - This project is a refurbishment to the Robertsbridge Reserve facility to bring the asset up to an acceptable standard. This includes a complete redevelopment of the currently dated changing rooms and public toilets into wet areas specifically for each changeroom. As well as change facilities the asset will also be removed of all asbestos containing materials, new ceilings, new kitchen benchtops and internal UAT installed within the social area. Additional accessibility changes will be implemented such as double doors, new flooring, changes to carparking (due to current noncompliance) and other minor aesthetical/ practical changes.	The facility is currently dated with numerous non-compliance issues such as Asbestos and accessibility issues. The facilities changerooms will become in line with current standards which will benefit all personnel associated with the clubs sporting activities. The refurbishment will bring new life to the building and ultimately improve the communities social/ open space. The City will maintain ownership of this asset after the refurbishment works have been completed.	Complete	\$125,000	Jan-24	Jun-24

4	Community	WA	City of Stirling	Yokine Accessible Toilet, Coolbinia Oval Playground-Public Toilet provision Remove/relocate existing toilet block. Make good of the current toilet area. Build a two-way public toilet which integrates into the barbecue/playground fence line but has access to the park outside of the fence line (outward facing). One toilet accessible from playground, two unisex toilets and one UAT accessible from car park side. Better location that addresses community concerns regarding proximity to the coffee van which has good surveillance. Removal of hedge required to accommodate proposed location of this option. Possible relocation of grass tree. P&S team have been consulted on this proposed action. New public toilet facility that has contemporary amenity with possibility of a privacy screen at the front. Construct a new concrete footpath to park side and roof cover to car park side. Crime Prevention Through Environmental Design outcomes and good access to park /recreational users. Include change facilities suitable for babies and young children. Hooks inside the toilet stall so handbags, nappy bags and other items can be kept off the ground. Well-lit or bright internal toilet space. Facilities for people with disability and seniors given high use of the adjacent coffee van - Location which maintains line of sight and natural surveillance. Install dog tie and bowl outside the toilets. Earlier opening times in summer to accommodate morning users. Improve the way finding around the toilet block and construct a new concrete footpath apron.	The new built will provide an improved area to meet the current and future functionality needs of the residents and users. The toilet cubicles will increase from two to four toilets, two accessible and two UAT toilets. The upgraded fixtures and fittings provide appropriate use for any user group such as park users as well as families with kids. This option will also improve accessibility for less able community members. The proposed position is close to the coffee van and visible from the playground. The location is also well suited for food truck events in the reserve. An improved appearance of the new toilet block with user friendly facilities including baby change table, external handwashing basins and dog bowl are likely to be well received and utilised by the community. The location will provide an increased level of amenity and capacity for peak times and will reduce the need for general park users to access the play space area unnecessarily. It does not require any trees removed and is located close to building services for the barbecue area. The location helps to manage anti-social activity by way of maximum passive surveillance. 4	Road	WA	City of Joondalup	RDC2030 – Moolanda Boulevard Pedestrian Footbridge The previous Moolanda Footbridge was a three-span timber structure removed in 2022 due to excessive weathering and subsequent risk to the community. The City is proposing to replace the footbridge with a fabricated three-span steel structure that will serve as a high-quality link over Moolanda Boulevard. The footbridge will re-establish the popular Robertson Road Cycleway as an uninterrupted bike boulevard reconnecting the Principal Shared Path (PSP) along the Mitchell Freeway with the Lake Goollelal pathway networks.	The Moolanda Footbridge is a key component of the Robertson Road Cycleway which links the Principal Shared Path (PSP) along the Mitchell Freeway with the Lake Goollelal pathway network. A Footbridge along a route such as the Robertson Road Cycleway is particularly important considering the number of schools that the route connects, providing parents with the confidence to support their kids in walking and riding to school. A new footbridge is critical to accessible and inclusive networks that feel comfortable and welcoming to people of all ages and ability – key to Access and Inclusion Strategies, as well as Local Bike Plans	In Planning	\$719,927	Feb-25	Jun-25

Nature play products including; steppers, sea rope balance, sand play table, sand pulley, waterplay fountain timed push button, water channel, organic water play trough, combat ramp, story telling log chair, timber post looking glass. Custom combo unit, swings, book stand, giant chimes, 4 note drum set, speaking ports, shake rattle and rool, water wall, sandstone monster.	The 2023 State of the Nation Report highlighted that more than one in five young people report that they often or always feel lonely - higher than any other age group. Loneliness is not just a mental health problem; research shows that loneliness is as bad for your physical health as a smoking a pack of cigarettes a day. Curtin University have developed research backed framework to improve mental health outcomes and connect people. The framework is called Act Belong Commit.  By providing a regional sensory play space driven by Act Belong Commit principles, we can encourage everyone to keep active, connect with others and do something meaningful, which will improve the community’s mental health and wellbeing. The project also has global ambitions. By creating a high-profile project that has a measurable improvement to community wellbeing, we can encourage others around the world to incorporate Act Belong Commit principles in community infrastructure projects.  The Sensory Monster Playground teaches parent and children about the 13 sensory profiles through play items, library programs and storytelling	In Planning	\$719,928	Feb-25	Jun-25

4	Community	WA	City of Albany	Seymour / Nelson / McLeod Shared Path Project Construction of a 2.5m wide concrete shared path – approximately length is 980metres.	Improved amenity – Seymour Street provides a link between Spencer Park and Middleton Beach. The section between Collingwood Road and Nelson Street does not currently have a shared path, forcing casual cyclists (including school children) on to the road. The project will increase safety for people on bikes providing connection and access to strategic destinations. The project will benefit a broad spectrum of the community – school students, shop users and visitors.	Under construction	\$285,543	Jul-24	Jun-25
4	Community	WA	City of Albany	Multi- Use Court, Youth Challenge Park Construction of a 500m2 outdoor multi-purpose playing court at Centennial Park Youth Challenge Park	The project fills a gap in the Centennial Park recreation precinct for freely accessible outdoor playing courts, aimed at youth but open to all ages, catering for both unstructured and programmed competition activities. 4	Community	WA	City of Armadale	Gwynne Park Tennis Club Lighting The Gwynne Park lighting project will upgrade and replace the 6 existing light poles which provide lighting to 4 tennis courts. The scope of works includes: •Distribution board modifications •Supply and installation of circuit cabling and earthing systems •Structural design, certification, supply and installation of Sports lighting poles and luminaries •Supply and installation of intelligent lighting control system	The project will provide improved lighting for the club and regular users. The old lighting did not meet Australian Standards. The proposed lights will now meet Australian Standards, providing 350 Lux lighting which is considered fit for the current and future use at the site.  In addition, a lighting control system will be installed, which will enable the City to hire out the courts for community use.	Under construction	\$350,000	Oct-24	Mar-25
4	Community	WA	City of Armadale	Cross Park Lighting Upgrade The Cross Park Lighting Upgrade project will upgrade and replace the 4 existing light poles which provide lighting to the Sporting Oval. The scope of works includes: •Distribution board modifications •Supply and installation of submain and circuit cabling, earthing systems and transient protection equipment. •Structural design, certification, supply and installation of Sports lighting poles and luminaries •Supply and installation of intelligent lighting control system	The project will provide improved lighting for the club and regular users. The existing oval light poles are estimated to be 15-18m in height which does not comply with the recommendations of AS2560.2.3 for football (all codes). When measuring the centre of the principle playing areas and calculating the pole height in accordance with AS2560.2.3. the pole heights should be 25m high based on the four-pole layout. Lower pole heights can cause lighting glare issues to the players and restrict viewing during play which could result in injury due to ball impact.  In addition, the existing system utilises metal halide lighting and the city has a programme to replace all sports lighting with LED lighting, due to operational efficiencies, sustainability and due to significant issues with global availability of replacement metal halide globes.  The proposed lights will now meet Australian Standards, providing Lux 100 lighting which is considered fit for the current and future use at the site. In addition, a lighting control system will be installed, which will enable the City and club to control the lighting	Under construction	\$253,448	Oct-24	Mar-25
4	Community	WA	City of Armadale	Piara Waters Oval Carpark In response to community feedback, extend / duplicate carparking to resolve the ongoing parking capacity issues with the existing parking. Extension of existing carpark to accommodate an estimated 80 additional parking bays. 4	Community	WA	City of Karratha	Kevin Richards Memorial Oval Redevelopment, Playing Surface Lighting and Pole Upgrade Address: Lot 3896 Balmoral Road, Millars Well WA 6714 •The scope of work includes the design, engineering, supply, installation, testing, commissioning, performance testing and warranty of new enhanced sports lighting to the football and cricket community sporting playing surface at the District Level, Kevin Richards Memorial Oval. •The sports lighting and pole upgrade shall complement the newly constructed Change and Club Room and also be energy efficient and cost effective to operate. •The procurement, fabrication, and installation of the sports oval lighting system shall include concrete footings, installation of four lighting tower poles, trenching and electrical cabling services, a lighting control system, new and repurposed luminaires, and all fixtures necessary to complete the installation. •The removal of the existing six lighting poles and forty-two (42) luminaries shall be replaced with the four new lighting tower poles. •The new 38 metres high lighting tower poles and cross arms will reuse the existing floodlights and require additional floodlights with an average horizontal illuminance of 500 lux. •The new pole circuits shall be installed in new trenches to AS 3000 with new conduits, including compaction, backfill, and making good of all surfaces.	•Council adopted the Kevin Richards Memorial Oval Master Plan in 2020 as a proposed to be a seven-year staged delivery. The completion of Stage One included the new Play Space in 2022, the northern Car Park and the Change and Club Room completed in 2023. •Following an audit undertaken by Focus WA Consulting the City has planned the replacement the existing lighting system, including some rectifications to general lighting required due to non-compliances and existing assets reaching the end of their practical life. •An initial upgrade of the existing luminaires occurred in 2020 following damage from the impact of the event of Tropical Cyclone Damien. This resulted in the existing halogen luminaires being replaced with efficient light emitting diode (LED) proprietary luminaires, from the manufacturer Musco Sporting Australia. This initial upgrade significantly increasing the lux level to some 300-lux utilising the existing light poles on site. •The sports lighting upgrade is an integral part of the Precinct redevelopment. The Precinct currently has approximately 900 people utilising the oval and supporting infrastructure each month, participating primarily in Australian Rules football (AFL), cricket and other community-based sporting activities. •The oval has six lighting tower poles for night use of the facility. There is a requirement to upgrade the current lighting from 300 lux to 500 lux for night matches. •This is a new standalone project in the sporting precinct redevelopment and differs from works which were completed under previous LRCI phases. Playgrounds and Skate parks (including all ability playgrounds) The Safety Bay Pump Track project was initiated by members of the public and will meet the need for an outdoor, risk-learning recreation facility for the City’s youth demographic. The Rockingham Youth Centre team consulted with young people aged 9 – 13 years to establish the need and scope of a pump track in the Safety Bay/Shoalwater communities. All of the young people who participated in the consultation live and/or attend school in the project location. Youth Centre Staff asked the young people to tell them more about what has been happening with unauthorised pump tracks and why the community have been advocating for a pump track. Comments from young people included: •We got into trouble for making our own tracks, it is frustrating to move on all the time •Some of the locations where we built tracks or where there were some already built were unsafe and had hazards and strange adults hanging around.  Currently the local youth are creating unauthorised jumps within a Class A Reserve. 4	Community	WA	City of South Perth	City of South Perth - Pump Track Community Infrastructure Project George Burnett Park, Manning Road, Karawara, Western Australia Pump track at George Burnett Park along with complementary park infrastructure & landscaping. A pump track is a wheeled sport/cycling facility comprised of a circuit of rollers (small mounds or bumps in the track), banked turns (berms) and features designed to be ridden completely by riders 'pumping' (generating momentum by up and down body movements), rather than pedalling or pushing. Pump tracks were originally designed for BMX and mountain bikes, but they can also be used by skateboards and other wheeled sport equipment and are accessible to wheelchairs. Pump tracks are simple to use and can be used by all ages, skill levels and abilities.	<p>Project Background:</p> <p>The City of South Perth has been planning to provide a pump track for the local community for many years, but has been unable to deliver it due to the high cost. The project site is called George Burnett Park and is located in Karawara, Western Australia, which is approximately 10km from the Perth CBD. Karawara has one of the highest levels of social disadvantage in the Perth metropolitan area, which is evidenced by its low SEIFA Index score of 970. The local population experiences high unemployment, low-income levels, low education levels, low skilled occupations and poor English proficiency.</p> <p>Community Issues/Problems to be Addressed:</p> <p>The City's pump track project will address various local community issues/problems, including: anti-social behaviour; social isolation; and childhood obesity. There are no pump tracks in the local area and there are minimal outdoor recreational facilities suitable for children and youth.</p> <p>Community Benefits of the Project:</p> <ul style="list-style-type: none"><li>• Increased social connectivity - by facilitating new opportunities for children and youth to undertake sport &amp; recreation to create a more connected community.</li><li>• Enhanced community safety - through increased activation of local public open space/eyes on the street.</li><li>• Improved community health and wellbeing - through increased participation in physical activity.</li><li>• Economic Benefits – the project will create jobs and generate expenditure within the local economy i.e. "Every \$1 spent on sporting and recreational facilities generates approximately \$6 in economic benefits by value". (Source KPMG, Value of Community Sport Infrastructure, 2018)</li></ul>	Under construction	\$300,516	Jul-24	Jun-25

4	Community	WA	Shire of Coorow	Coorow Caravan Park Amenities Upgrade. Upgrade male and female toilet amenities and create a “camp” kitchen in disused store room so members of the public have a self-contained type cooking area available for all weather conditions. Amenities are open to any members of the public who require a shower (i.e. truck drivers, itinerant farm works and some community members who access these facilities when their homes have no water sewerage issues). These are listed as a facility to the open community to access within the Shires fees and charges.	The infrastructure is ageing and beginning to fall into disrepair due to age and become unsafe. Upgrading will provide a safe environment for the community who need to access these facilities and ensure that the Shire can continue to provide these services into the long term.	Under construction	\$50,000	Jul-24	Mar-25
4	Community	WA	Shire of Corrigin	Corrigin Medical Centre Roof Replacement Replace the existing tiled roof of the Corrigin Medical Centre building at 5 Murphy Street Corrigin in Western Australia with 300m2 colour bond and tie in to 2012 colour bond roof section. Install new batons flashing, gutters and downpipes as required to meet Bushfire Attack Level Assessment and Australian Standards. Upgrade existing bathroom including retile and install accessible toilet, sink and hardware to unisex bathroom.	The building was constructed in 1965 as a doctor’s surgery and house. The eastern side of the building was upgraded and extended in 2012 to provide modern facilities for the Corrigin Medical Centre and is currently used by a general practitioner, practice nurse and visiting health professionals. The western side of the building incorporates consulting rooms for allied health practitioners including chiropractor, massage therapist, audiologist, and optometrist. Replacing the old, tiled roof section of the Corrigin Medical Centre to match the 2012 extension would ensure that the residents of Corrigin and surrounding areas continue to have access to a modern Medical Centre. The upgraded facilities will assist in attracting and retaining health professionals to address the challenges for rural people in accessing adequate health care	Under construction	\$136,000	May-24	Dec-24
4	Community	WA	Shire of Corrigin	Corrigin Airstrip Lights Upgrade. Upgrade the runway and helipad lighting at the Corrigin Airstrip to ensure compliance with Royal Flying Doctor Service (RFDS), Civil Aviation Safety Authority (CASA) and Australian Standards.	The Corrigin Airstrip is located at 8516 Brookton Corrigin Road approximately 4 kilometres west of Corrigin in the Wheatbelt region of Western Australia. The Crown Reserve 28131 is managed by the Shire of Corrigin. The airstrip is used several times per month for RFDS transfers from the Corrigin Hospital and by recreational pilots.  The original lights were installed in 1976 and Pilot Activated Landing (PAL) system was installed in 2001 to provide safe landing facilities for the Royal Flying Doctor Service. The runway lights are not compliant with the Australian Standards and spare parts are no longer available. The upgrade of the runway lights will bring the lights up to the current standard and resolve the problems with the with the Pilot Activated Landing (PAL) system which currently requires manual operation.  The RFDS provides vital emergency medical assistance to residents in rural areas. Upgrading the runway lighting and PAL at the Corrigin Airstrip will enhance patient and pilot safety significantly.	Under construction	\$336,092	Jun-24	May-25
4	Combination	WA	Shire of Cranbrook	Wingebellup Road Share Pathway and intersection crossover on Rocky Gully & Wingebellup Road, Frankland River. Removal of a non-compliant pathway and not fit for purpose ramps along Wingebellup Road from the Shopping Precinct to the Frankland River Primary School 571.5 metres. Install a shared pathway incorporating all necessary accessibility ramps and crossovers. The scope of works will include a crossover on the Rocky Gully and Wingebellup Road intersection to ensure a safe passage crossing a busy intersection.	A shared pathway will assist with providing safe road crossings and will ensure a safe connection between the local Primaru School to the shopping, business, and recreational precincts within the town. Wingebellup Road is a major agricultural road running through the town centre. It is a busy transport route with heavy vehicles which connects the west coast to the south coast of Western Australia. Community benefits would include safety, connectivity, and accessibility, linking education, business, accommodation and recreational precincts.	Under construction	\$59,125	Jan-24	Oct-24
4	Community	WA	Shire of Cranbrook	Frankland River Pathway Connections between Playground, Caravan Park, and Pump Track, Wingebellup Road Frankland River Accessibility pathways connecting the Frankland River Caravan Park to the Frankland River Community Resource Centre, Frankland River Playground and Pump Track	Installation of a network of accessible pathways which will allow access between the Frankland River Community Resource Centre, Playground, Pump Track and Caravan Park. The area is undulating and there is no connectivity between the community facilities. Safety and accessibility will be addressed with installation of these pathways. The pathways will complete the previously funded LRCI Phase 3 projects with linkage.	Under construction	\$65,000	Jan-24	May-25
4	Community	WA	Shire of Cranbrook	Wingebellup Road Carpark median strip and surrounds landscaping installation. Frankland River Landscaping to the newly installed Wingebellup Road carpark median strip, to incorporate reticulation, soil, plantings, and mulch. Completion of the Frankland Rover Playground outer surrounds landscaping, including extension and upgrade of community garden, and drinking fountain.	The community will benefit from this project by means of beautifying the entrance to showcase, promote and entice visitors and residents to the newly installed Playground and Pump Track within the Frankland River Play Space. The project will complete and make safe the areas surrounding the playground. The expansion and upgrade of the community garden will provide the community by means of food, community involvement, learning and educational experiences and life skills.	Under construction	\$20,000	Sep-23	May-25
4	Community	WA	Shire of Cranbrook	Cranbrook Community Hub - Day care/Playgroup Shade Shelter, Dunn Street, Cranbrook Design, build and construct a suitable shade shelter to connect with the Cranbrook Community Hub Building.	The shade shelter will enable the current groups utilising the facilities, an area to have outside access throughout the year. Outdoor play activities for 0-4 year olds are a critical learning tool, and the shelter would enable this to occur increasing moto skills and play opportunities. This will solve space concerns for the Day care operator along with the not-for-profit playgroups. Health benefits with providing shelter with the variations of weather for the community, including sun cancer prevention. The continuation of having a Day care business within this small rural community is a huge benefit to the community.	Under construction	\$55,000	Jan-24	May-25

4	Community	WA	Shire of Cranbrook	Cranbrook Playground Precinct Drainage and Landscaping Improvements. Grenfell/Glover/Dunn Street Cranbrook Installation of drainage, incorporating drainage pipe, connection points, submersible pump, and electricity connection within the Cranbrook Playground. Landscaping Improvements of the Cranbrook Information Bay located adjacent to Cranbrook Playground Precinct will include reticulation and solenoids.	The drainage project will address the flooding due to ground water levels being extremely high, low lying flat ground and run off. Water pooling is occurring within the playground preventing the use of equipment particularly during the winter months. The landscaping improvements are located adjacent to the Playground with ensuring the entrance way is keep beautified throughout the year. There is currently no reticulation located within the garden space which houses a native garden, this will address the long-term maintenance and re-plantings.	Under construction	\$23,000	Oct-23	Feb-25
4	Community	WA	Shire of Cranbrook	Cranbrook and Frankland River Entry Statements, Frankland-Cranbrook Road / Albany Highway / Great Southern Highway, Climie Street / Great Southern & Salt River Road Cranbrook Locally design, fabricate and install photographic entry statements emphasising the Town of Cranbrook and Frankland River. Beautify the entry surrounds with landscaping and plantings.	Due to the condition of the current town entry statements, along with having no local directional signage to Frankland River from the major highway, new entry statements will ensure that visitors will have knowledge of the locality of which they are visiting. The community will benefit economically with visitors who are informed of the locality of the townsites, and being able to stop, shop and stay along with the community being proud of promoting the Shire.	Under construction	\$19,344	Nov-23	Jun-25
4	Community	WA	Shire of Cranbrook	Frankland River Hall Improvements, 20 Wingebellup Road Frankland River Restumping the hall’s foundation, repairs to flooring, upgrade of doors, electrical upgrade	To ensure the future use, safety and accessibility of the Frankland River Hall, the foundations require changing. This will solve sagging issues with the internal flooring. Internal doors require changing to ensure they are accessible. Electrical needs to the building to ensure safety and security. 4	Community	WA	Shire of Mukinbudin	Cruickshank Road Aquatic Centre - Changeroom & Chlorination System Upgrade The ongoing enhancement of the Mukinbudin Aquatic Centre involves upgrading its changerooms, a significant part of the facility. Following the extensive \$1.8 million refurbishment in 2014 that revitalised the pool built in the 1960s into a contemporary and appealing space, the next phase involves modernizing the changerooms. This upgrade will encompass installing a new roof structure and revamping the toilet facilities, including updated flooring, toilets, showers, and changing booths. The upgrade to the chlorination system will enable a shift from a tablet-based to a liquid chlorine system. This transition will enable in-house maintenance, reducing downtime and eliminating the necessity of outsourcing maintenance to qualified tradespersons located over 300 kilometres away.	Improvements to community sporting and recreation facilities, whole community, and public benefit.	Under construction	\$150,000	May-24	Oct-24
4	Community	WA	Shire of Mukinbudin	Shadbolt Street - Memorial Hall Capital Improvements The project involves improving toilet facilities and renovating the floors of the auditorium and stage within community centres to enhance the utilisation of the Hall facilities. Stage 1 of the Memorial Hall Upgrade, completed in 2022, focused on refurbishing the former Shire office rooms. This initiative was prompted by a community group using the space to create an art gallery and historical exhibit, significantly boosting the building's use and community interest. As a result, there's a growing desire to gradually refurbish the rest of the building in stages.	Improvements to community recreation facilities (community hall), whole community benefit. 4	Community	WA	Shire of Plantagenet	Mount Barker Hill Infrastructure Project Undertake infrastructure works at Mount Barker Hill (Pwakkenbak). This will specifically include an upgraded sealed carpark with kerbing, installation of a new accessible fixed permanent toilet that will comply with building act and the Shire of Plantagenets Disability Access and Inclusion Plan providing a much-needed resource at this local meeting point. The yarning circle consisting of shelter (undercover area), inclusive seating (will cater for all ages and abilities), informative and interpretive signage and landscaping improvements that tie in with the natural landscape of the area. All infrastructure where possible will be supplied and installed by local contractors, using local and imported materials. The carpark upgrade will be a single coat of 100m2 seal, with formal line marking completed to the AS.1742.2:2009. There will be an installation of a kerbed island to route runoff into the existing drainage onsite. With this upgrade there will be an implementation of a one way road which will create for a safe driving access road for all vehicles and pedestrians at this location.	This is a culturally significant site to for our local indigenous community and currently does not cater to all ages and abilities of our community. There are no ablutions on site, there is no seating, no signage or sheltered areas for our community and visitors to attend and sit and enjoy the area. There is a small area onsite that currently pools and collects water which is damaging the existing carpark and creates an inaccessible route for wheelchairs, walkers, prams etc's to the lookout. The carpark is unsafe as it is difficult for large and towing vehicles to turn and park safely. Through upgrading this space, it will be able to be a warm and inviting space for our local indigenous community and visitors who wish to learn more about the heritage of First Nations people in the Shire of Plantagenet. The upgrade of the carpark will fix and further prevent damage to the area and formally line marking will create designated parking areas and a safer driving route on site. 4	Community	WA	Shire of Upper Gascoyne	Water Treatment Plant and Associated Equipment Supply and Installation of a Water Treatment Plant - Inclusive of but not limited to, Design, Engineering, Project Management, Earthworks, Bore Pumps, Water Cooling, Water Treatment Plant, Waste Water Disposal, Water Storage, Plumbing, Electrical and associated works.	PROBLEM- Current water source is highly unreliable, heavily reliant on irregular river flows. The River often dries up, killing all community parks and gardens. With climate change, increases in droughts, irregular weather patterns, and unpredictable river flows, it was identified a drought proof water source was required.  SOLUTION - As per Community Strategic Plan 2022-2032 – Parks and Gardens – High Importance- Creation of a Community Permeate Water Source for parks and gardens. A new underground aquifer was identified. A \$1.3M bore was drilled to 800m deep and cased, which provided brackish water in large volumes. Water treatment was identified as the solution for a viable drought proof solution to ensure a long term water supply that was not reliant on localised rain and river flows. 4	Road	WA	Shire of Williams	Brooking Street Culvert Replacement and Reseal. Brooking Street Culvert Replacement Demolition of existing culvert Preparation of new base Installation of 35 new precast bases and 1200mm x 1200mm RCB New cast in-situ headwalls 200mm 40 mpa concrete road deck and footpath 50m of AR30 handrail Additional box added to increase water flow.	PROBLEM ADDRESSED: There are stress fracture cracks beginning to form on the bridge. The bridge has been there a long time and even though it is weight restricted, the bridge isn't designed for the amount and weight of vehicles that are currently using it. If there is a closure on Albany highway, this floodway becomes the main detour for all vehicles. COMMUNITY BENEFIT: Brooking St is one of the main entries into the Williams Townsite. Every year during winter this floodway goes under water and closes the road for days to weeks at a time. The replacement of the culvert will have another box installed, allowing more water to flow under the bridge, minimising the amount of time that the flood way is underwater.	Under construction	\$152,929	Sep-24	Apr-25

4B	Road	WA	Shire of Bridgetown Greenbushes	Lake View Crescent Install 180m of subsoil drainage to intercept and redirect groundwater. Reconstruct failed road subgrade and 10mm chip seal road pavement from SLK 0.08 to SLK 0.21	The ground in the vicinity of Lake View Crescent is saturated throughout most of the year due to near-surface underground streams. The road subgrade is also saturated which has compromised the road structure causing it to breakup. This has created a significantly substandard pavement for motorists and pedestrians which is also affecting the amenity of the urban environment.	Complete	\$140,000	Feb-24	Feb-24
4B	Road	WA	Shire of Bridgetown Greenbushes	Somme Street Cul-de-sac head will be widened by relocation of a 10sqm section of concrete footpath and expansion of the existing 10mm chip seal by 50 sqm.	Historical Cul-de-sac is not to current standard and requires widening to allow service vehicles to safely turn around. Service providers have indicated that they will discontinue services to the residents on Somme St unless a safe turnaround is provided. The works are therefore needed to ensure the residents of Somme St continue to receive basic services such as kerbside rubbish collection.	Complete	\$10,000	Feb-24	Feb-24
4B	Road	WA	Shire of Bridgetown Greenbushes	Mirimiri Street, Apex Grove, Riverview Close & Carnegie Close 30mm Asphalt overlay to be applied to cul-de-sac heads of the four streets listed. Total area is 1200 sqm. Prior to asphalt application, sections where subbase has been exposed will be spray sealed and corrector applied.	Existing standard 2-coat chip seal is being constantly broken up due to turning vehicles, particularly from service trucks. Performance of the road pavement is badly compromised, and amenity of the location is also significantly impacted.	Complete	\$50,638	Feb-24	Feb-24
4B	Road	WA	Shire of Bridgetown Greenbushes	Phillips Street Full width (6.8m) 30mm asphalt overlay from railway bridge SLK 0.9 to Spencer Street SLK 0.615.	Existing aged surface is extremely rough from years of repeated patching. An asphalt overlay will restore the road performance, in particular there will be a significant improvement to ride comfort and safety.	Complete	\$35,000	Feb-24	Feb-24
4B	Road	WA	Shire of Bridgetown Greenbushes	Blechynden Street – New section This section of road has been identified as requiring resurfacing. This area has not been resurfaced under previous LRCIP funding. The scope of the project will include 30mm asphalt overlay (600 sqm) applied to the intersection of Blechynden St and Roe St. Profiling of 120 sqm of heavily compromised surface will be undertaken prior to asphalt application.	Existing aged surface is extremely rough from years of repeated patching. Being at the start of a steep grade, turning vehicles often lose traction in wet conditions. An asphalt overlay will restore the road performance, in particular there will be a significant improvement to ride comfort and safety.	Complete	\$30,000	Feb-24	Feb-24
4B	Road	WA	Shire of Brookton	Mattingly Road (SLK 0.13 to 5.26) It’s proposed to repair two damaged creek crossings with ballast stone and re-gravel and regrade the road where potholes or washouts are evident.	This roadway was also damaged following the storm that hit Brookton in March 2023 causing sections of the road to be washed away and the creek crossings damaged to a single lane width. These repairs will provide a road surface which is to a standard for all vehicle use.	Complete	\$37,000	Aug-24	Aug-24
4B	Road	WA	Shire of Broome	Sanctuary Road and Cable Beach Road West Roundabout Reconstruction of road pavement, new roundabout arrangement, pedestrian movement upgrades and stormwater drainage improvements.	Reconstruction of failing pavement, kerbs and footpaths prior to being an unacceptable hazard. New functional arrangement to improve public usage of area by minimising footprint of the roundabout. 4B	Road	WA	Shire of Capel	Barlee Road (upgrade) – Section Forrest Road to the Capel School Carpark SLK 0.17 - 0.32 The Scope of Works is to upgrade the road to an urban standard to include: -Wider footpaths -New asphalt seal -Street trees -On road parking -Compliant vehicle crossovers -Flush kerb, and; -New drainage infrastructure.	Problem addressed: Upgrade of an access road that currently does not meet the minimum standards in accordance with “Liveable Neighbourhoods” as a compliant and functional urban street, noting that it is missing key elements such as wide footpaths, compliant vehicle crossovers and pavement seal that is suitable for pedestrians, cyclists and vehicles (including vehicle movements and parking), to reduce street noise, improved access to adjacent properties and access for all users to commute directly to the nearby school. Community Benefit: Improved community access/egress, reduced vehicle noise and asset design and installation that meets the minimum design standard for urban trafficability and connectivity infrastructure. Functional use is also improved through improved parking and supporting signage installations to support the overall design and use of this infrastructure. Aesthetically, this also raises this high use precincts visual appeal and so doing creates community pride in local area expenditure which indirectly improves community and Shire relationships/interactions through shared vision and deliverables being achieved as part of the Community Strategic Plan outcomes. 4B	Road	WA	City of Karratha	Coolawanyah Road and De Witt Road Intersection Upgrade and Widening Address: Coolawanyah Road and DeWitt Road, Karratha LIA 6714 The scope of work includes widening the existing intersection of Coolawanyah Road and De Witt Road to accommodate the swept path of Tandem Drive Network 10 Restricted Access Vehicles (RAV). The works include, but are not limited to, the following key elements: a)Widening of the intersection including supply and construction of new embankment, pavement structures and seal. b)Resurfacing of existing seal. c)Supply and installation of new streetlights. d)Removal and disposal of existing seal within extent of work. e)Demolition and disposal of existing culvert under Coolawanyah Road. f)Supply and installation of three (3) new barrels of 900x600mm reinforced box culverts. g)Realignment of existing drains located north of Coolawanyah Road and west of De Witt Road. h)Supply and installation of rock pitching. i)Supply and installation of new traffic island on Coolawanyah Road. j)Supply and installation of road signage and line marking	<ul style="list-style-type: none"><li>The intersection of Coolawanyah Road and De Witt Road is located at the entrance to the Karratha Light Industrial Area (LIA) Karratha, Western Australia. The intersection has a RAV Network 10 classification. It is one of the two (2) main entrances to the industrial area providing access to all the major businesses located within the LIA.</li><li>The intersection has had several reported vehicle crashes and there has been an increasing concern from community members and truck drivers about safety of the intersection.</li><li>Road Safety Audits completed in 2014 and 2021 identified the existing geometry to be non-compliant for RAV 10 swept paths. A few of the key safety issues identified in the Road Safety Audit were the lack of adequate line marking and signage, insufficient street lighting, culvert headwalls being located within the clear zone, unsuitable give-way line setback. These issues were identified to be the main contributing factors to the increased risk of crashes at the intersection.</li><li>The Project shall address the main issue on geometry by widening both sides of Coolawanyah Road and formalising the western apron of De Witt Road. In addition, safety is to be improved by the installation of new lighting, traffic signage, line marking and traffic islands.</li><li>The intersection upgrade will address non-conformances and provide safer travel and traffic movement for all road users and businesses within the LIA.</li></ul>	Under construction	\$348,504	Aug-24	Nov-24
4B	Road	WA	City of Mandurah	Rakoa Street Road Resurface GGA10 CRMB 30mm 3,600m2 overlay • 880m MK Renewal including significant number of layback kerb • 360m2 Heavy Patching • Localised profiling - essentially overlay with minimal requirement to maintain kerb face as all pits being changed and can be raised along new kerbing • 4 SEPs to replace and 1 grated pit to Cycle Friendly	This road was assessed during the 2020 road network visual condition assessment and given an overall Visual Condition Rating (VCR) of 5. The road is in poor condition with stripping and widespread cracking. Local Roads and Community Infrastructure Program - Projects approved for funding (as at 18 October 2024)

Phase	Infrastructure type	State	Funding Recipient	Project Name	Problem Description	Status	LRCI Funding (approved)	Start date	End date
4B	Road	WA	Shire of Williams	Brooking Street Reseal. Brooking Street Reseal – 400m - Remove bitumen and asphalt, and unsuitable material; - Subbase Layer treatment with 1.2% Hydrated Lime + 1.2% Cement. Hydrated lime keeps the moisture out and the cement gives it strength; - New imported (replaced) basecourse layer stabilised with 1.2% cement; - Treating 150mm thick layers due to the fact that we cannot use vibration compaction, due to the nearby old buildings;	PROBLEM ADDRESSED: The existing road on Brooking Street is subject to pavement failure, and with several repairs over the years. COMMUNITY BENEFIT: Brooking St is one of the main entries into the Williams Townsite. Every year during winter this floodway goes under water and closes the road for days to weeks at a time, causing the pavement to fail. The resealing of the pavement will improve road safety with wider culvert crossing and eliminate the sections of pavement failure.	Under construction	\$134,358	Sep-24	Apr-25
4B	Road	WA	Shire of Wongan-Ballidu	Drainage and kerbing upgrade – Wongan Road (600m) Upgrade to the drainage and kerbing infrastructure on Wongan Road	Community safety with upgraded kerbing and future road, footpath and other infrastructure preservation with upgraded drainage system	Under construction	\$314,224	Oct-24	Nov-24
4B	Road	WA	Shire of Woodanilling	Dinwoodie Road Floodway Repairs Repair of the culvert structure and scour protection associated with the sealed floodway	Culverts, kerb and guttering and related activities where the purpose of the works is to improve drainage only.	Under construction	\$23,190	Sep-24	Jun-25
4B	Road	WA	Shire of Woodanilling	Sandplain Road Floodway Repairs Repair of the sealed pavement and improvements to the inlet and outlet drains associated with the sealed floodway	Culverts, kerb and guttering and related activities where the purpose of the works is to improve drainage only.	Under construction	\$40,000	Sep-24	Jun-25
4B	Road	WA	Shire of Woodanilling	Ashwell Road Reform and Re-sheet Reform and Re-sheet Slk 10 – 16.10	Sheeting / Re-Sheeting - Where additional gravel etc. is added on top of an existing road to improve the surface	Under construction	\$51,500	Sep-24	Jun-25
4B	Road	WA	Shire of Woodanilling	Douglas Road – Reform and Re-sheet Reform and Re-sheet road in three segments that are beginning to wear Slk 1.7 – 2.8, Slk 6.6 – 6.9 and Slk 16.1 – 16.6	Sheeting / Re-Sheeting - - Where additional gravel etc. is added on top of an existing road to improve the surface	Under construction	\$20,000	Sep-24	Jun-25
4B	Road	WA	Shire of Wyalkatchem	Minnivale North East Road Renew road asset with a gravel resheet for 1.20km.	Existing road surface is extremely rough and dangerous with exposed rocks on the running surface of the road. Renewing the asset will remove the rough and dangerous nature of the road making it safe for motorists to drive on.	Under construction	\$49,066	Sep-24	Mar-25
4B	Road	WA	Shire of Wyalkatchem	Korrelocking North Road Verge maintenance works for 3.31km.	Existing road verges are encroaching on to the travelled path of vehicles, reducing the travelled area and making it dangerous to pass another vehicle. The verge works will allow vehicles to pass each other safely once completed.	Under construction	\$16,550	Sep-24	May-25
4B	Road	WA	Shire of Wyalkatchem	Wallambin Road Renew road asset with a gravel resheet for 1.30km.	Existing road surface is rough and dangerous when wet (slippery). Renewing the asset will remove the rough and dangerous nature of the road making it safe for motorists to drive on.	Under construction	\$119,390	Sep-24	Dec-24
4B	Road	WA	Shire of Yalgoo	Morawa-Yalgoo Road Grid Replace Grid and fixed signage on Shire Boundary	Replace aged cattle grid that regularly fails resulting in stoppages to traffic	Under construction	\$60,000	Sep-24	Feb-25
4B	Road	WA	Shire of Yalgoo	Yalgoo-Ninghan Road Seal SLK 2 to SLK 4.25 from unsealed to 7.6m	Sealing of unsealed section of road will allow use all year round. Wet weather closures result in an addition 150km trip for all road users.	Under construction	\$178,867	Sep-24	Dec-24
4B	Road	WA	Shire of Yilgarn	Culvert Replacement Across Road Network Replacing 28 road culverts across the Shire including excavation of existing culverts, installation of concrete piping and headwalls, backfilling, compacting, re-gravelling and installation of guide posts.	The Shire has 38 culverts in need of upgrade, the funding will allow 28 of these priority 1 condition culverts to be upgraded in addition to the Shire's ongoing upgrade and maintenance works.	Under construction	\$272,122	Sep-24	Jun-25
4B	Road	WA	Shire of Yilgarn	Kerbing Replacement Throughout Southern Cross Townsite Replacement of 2.1 km of priority one and 6.5 kilometres of priority 2 conditioned kerbing throughout Southern Cross Townsite. Includes the removal and disposal of existing kerbing, site preparation for new kerbing and installation of new concrete kerbing.	The community will benefit from an improved road network, as well as making roads safer during wet weather, as it will assist in directing water away from roadsides. The Shire has 24 kilometres of kerbing within the Southern Cross Townsite, with 8.6 kilometres either priority 1 or 2 conditioned.	Under construction	\$272,122	Sep-24	Jun-25
4B	Road	WA	Shire of York	Mackie Siding Rd – Culvert Bridge repairs (same project as part A) Renewal of the existing trafficable culvert bridge, including replacement of 1 damaged culverts and 1 new additional pipe. This project includes determination of load capacity and remediation of the existing unsealed surface.	The project looks to resolves many of the safety risks identified with the current culvert bridge due to several flood events which have impacted the condition of river crossing. This important passage over the Avon River supports several local businesses, farmers and Emergency Services connecting Spencer Brook-York Rd with Northam-York Rd which are both important routes for commodities between the surrounding towns. This project aims to create a safe passage for local transport which will last long into the future.	Under construction	\$250,158	Feb-24	Jun-25
4B	Road	WA	Shire of Bruce Rock	Drainage Work at Bruce Rock Cemetery New drainage system to direct water stream from cemetery to stormwater catchment channel. Underground slotted piping, install headwall and Geo-cloth.	Stormwater running off the railway reserve to cemetery causes significant water seepage into existing grave sites, and also causes challenges to dig new graves. Diverting the water to open channel will help maintaining the gravesites, reducing risks and challenges while digging new ones.	Under construction	\$40,000	Aug-24	Jun-25
4B	Road	WA	Shire of Bruce Rock	Drainage Work at Narembeen Boundary Road Install HDPE Piping on one side of the floodway, diverting the overflow into a stormwater catchment to reduce overflow onto road.	Reduce road surface deterioration, increased road safety.	Under construction	\$50,000	Aug-24	Jun-25
4B	Road	WA	Shire of Bruce Rock	Footpath reconstruction at Butcher Street (L shaped Between Parry and Bruce St and Parry St to Mc Calls Motors)- Butcher St SLK 0.50 - 0.64 (~140m) and SLK 0.50- 0.60 (~140m) Install concrete footpath to reduce risks and hazards from existing loose surface. 25MPA concrete, with expansion joints.	Provide aged friendly footpath, increased safety for pedestrians	Under construction	\$66,000	Aug-24	Jun-25
4B	Road	WA	Shire of Bruce Rock	Footpath reconstruction at Railway Parade (Cnr Butler Street to Levers St)- SLK 0.20 - 0.38 (~180m) Install concrete footpath to reduce risks and hazards from existing loose surface. 25MPA concrete, with expansion joints.	Provide aged friendly footpath, increased safety for pedestrians	Under construction	\$38,000	Aug-24	Jun-25
4B	Road	WA	Shire of Bruce Rock	Footpath reconstruction at Butler St (Between Railway Pde and Farral St) SLK 0.00 - 0.11 (~110m) Install concrete footpath to reduce risks and hazards from existing loose surface. 25MPA concrete, with expansion joints.	Provide aged friendly footpath, increased safety for pedestrians	Under construction	\$26,000	Aug-24	Jun-25
4B	Road	WA	Shire of Bruce Rock	Old Beverley Road Construction (14.2 SLK – 16.2 SLK) Upgrade Gravel re-sheeting to 10 meters wide, extension of culvert pipes, sealing to 7 meters wide	This is a heavy haulage road. Upgrading the road will cater to improved safety and widening works will cater for heavy vehicles and for improved transportation in larger machinery used in modern farming	In Planning	\$83,582	Nov-24	May-25

## Roads to Recovery Program - Projects approved for funding (as at 18 October 2024)

Eligible funding recipients: Local governments, state governments for unincorporated areas and non-state entities for administered territories.

Scope: Compliant projects within the 2019-2024 funding period.

Objectives: Roads to Recovery provides direct funding for the construction and maintenance of priority local road infrastructure assets to supplement ordinary local government spending on roads.

118843-21NSW-RTR	NSW	Council of the City of Shellharbour	Ocean Beach Drive, Shellharbour	Pre construction works include service locating and geotechnical investigations to inform rehabilitation profile. Based on experience a 70/30 slag lime 2% mix at 300 mm deep is a sufficient treatment for a road of this nature, to be confirmed after investigative works. Rehabilitation will be for the travel lanes only, and resheeting an AC10 wearing course will be for both the travel lanes and parking lanes. Linemarking included after civil works are complete.	\$436,794	\$1,099,009	Dec-22	Jun-24

112827-20NT-RTR	NT	Katherine Town Council	Gory Road, Cossack NT	The present seal is a complete write-off. There is no benefit in patching or sealing the shoulders. The bitumen has lost its flexibility and bonding capacity. The original design allowed for a single vehicle to travel on a sealed surface. Traffic numbers were low and oncoming traffic could pass by putting a single wheel on the unsealed shoulder. Today, traffic count, as well as axle loads, have increased. The seal has deteriorated severely, and gravel shoulders were worn away, resulting in sharp edges and potholes in the bitumen. In addition, the bitumen has lost its flexibility and has become brittle. The design life span is normally 20-25 years, it is understood this has been well exceeded. Pritchard Francis recommends the bitumen to be milled and removed. We have allowed for a standard rural road design of a 6 m wide sealed cross-section, with drainage on both sides. The damaged existing seal is to be cold-milled and worked into the pavement, which then becomes the subbase. A new basecourse pavement layer is to be constructed on top. The following will be the scope of works Chainage 0-550 o Install new hazard sign at Florina Road opposite Gory road termination o Reprofile the road, mill, and mix the defunct seal into the subbase. o Construct 150 mm basecourse layer and profile o Construct 10 mm bitumen single seal o Tie into the floodway o Cut V-drains on both sides along the entire road alignment, following the natural contour. • Chainage 550-650 o Construct floodway as per Tonkin design, with appropriate signage. o Inspect edge beams and assess on-site extend of scope to be constructed • Chainage 650-750 o Reprofile existing gravel road to 3% crowned profile o Construct 150 mm basecourse layer and profile o Construct 10 mm bitumen single seal o Tie into floodway at cha 650. o Construct a cul-de-sac turn around at cha 750 o Cut V-drains on both sides along the entire road alignment, following the natural contour	\$226,177	\$226,177	Apr-21	Dec-21

101821-19QLD-RTR	QLD	Moreton Bay Regional Council	Aerodrome Road, Caboolture	The project involves the upgrade of the T-intersection at Lear Jet Drive with traffic signal control including pedestrian crossings. Intersection capacity will be improved by providing separate right-turn lanes and a dedicated left-slip lane from Aerodrome Road into Lear Jet Drive. The project also includes pathway renewal and widening, on-road bicycle lanes, raised medians, relocation of public utility services and some drainage works. The upgrade project includes improvements to the road pavement which will include resurfacing from 60 m north of Bribie Island Road through to the intersection of Piper Street. Road rehabilitation 113 m north from Piper Street and road reconstruction. The project will improve efficiency at the traffic signals at this intersection. The improvements are intended to improve safety and efficiency in this industrial area. The expected outcome of the project is to signalise the intersection to better regulate the movement of vehicles and to provide enhanced facilities for pedestrians and cyclists.
