1	Community	NSW	Wingecarribee Shire Council	The Mittagong SES Volunteer Centre building repair and refurbishment project is to replace roofing, address structural issues, improve storm water drainage and construct a retaining wall to restore the centre. NSW SES members work closely with residents to build stronger, more resilient communities to reduce the impact from natural disasters. The volunteers in the Wingecarribee SES have for several years regularly conducted community resilience programs. These public programs have included local initiatives such as the award winning "Get Ready Girls" program that builds confidence in local women and their resilience skills along with the "SES Youth Forum" a program informing youth on safety measures in times of emergencies. The local SES have in the past have made their training room available to Council, Police and other emergency services for bookings as well as local community organisations. It is also an alternate Emergency Operations Centre available for use by the by the Local Emergency Management Committee. The community service provided by the Mittagong SES Volunteers cannot be understated. They have responded to an average of 473 requests for assistance per year over the past 4 years related to floods and storms. The Wingecarribee Shire residents rely on the SES volunteers for emergency response. Due to water intrusion and mould issues as well as structural defects, the volunteer centre cannot be safely occupied and the community programs and volunteer training cannot be held. By restoring the centre for safe use, these programs will be able to continue.	Due to stormwater and drainage issues for the building and site, water ingress has resulted in mould contamination to several rooms within the centre. At present, the offices cannot be safely occupied. Further, a structural issue with the converted garage walls has been identified by a structural engineer and requires rectification before the area can be safely reoccupied.	Complete	$542,000	Oct-20	Mar-21
1	Community	NSW	Wingecarribee Shire Council	Eridge Park Netball Courts	The courts are at the end of useful life and are in poor condition with significant cracking present. 4	Community	QLD	City of Gold Coast	Federation Walk Littoral Rainforest – Seaworld Drive Main Beach Project Work Category – Landscaping Improvements	The Federation Walk Coastal Reserve Littoral Rainforest project is a key outcome of The Spit Master Plan (May 2019). This funding will provide for the expansion of the irrigation system to an additional 15 hectares of rainforest which requires connection to mains power. It will also contribute to the funding of park management, which includes fencing and boundary security upgrades to protect the rainforest revegetation site from illegal 4WD access and maintenance of internal management tracks along with ecological restoration activities (biodiversity plantings) associated with the establishment of the littoral rainforest. Works will include:- -Expansion of the irrigation system to a further 15 hectares of rainforest. To facilitate this expansion and enhance the sustainability of the project the leasing of the temporary diesel generator will cease, and the pump station infrastructure will be connected to the local electricity grid. To connect to mains power, approximately 350 metres of trenching/undergrounding of power and switchboard upgrades are required. -Significant biodiversity plantings to increase the species richness of the existing mature forest in the south of Federation Walk Coastal Reserve – plantings will be undertaken in areas identified as disturbed and low in species richness (this is the Southern section, approximately 19.5 hectares) -Boundary security upgrades to protect the rainforest revegetation site from illegal 4WD access and will include maintenance of internal management tracks that provide for both nature-based recreation opportunities as well as maintenance of the park and the rainforest project. Existing trail networks within reserve are approximately 5km. The general public will continue to have access to the reserve. Contractors are to provide safety and traffic/pedestrian management plans prior to commencement of works within the reserve to ensure the public have safe access to the reserve during works. Please note that Phase 1 of the LRCI Program helped fund 17 ha out of the 37 ha of the Federation Walk Coastal Reserve Littoral Rainforest with irrigation system and pump station (including early works to enable a future electrical supply and currently supply by a generator). 3	Road	QLD	City of Gold Coast	42 Marine Parade, Southport Footpath Renewal	Renewal of Footpath (including equitable access for all users) Renewal of the footpath directly outside the eastern frontage of Australia Fair shopping centre to address the asset's end of life renewal and accessibility standards. The project is 240 metres long along the full eastern frontage of Australia Fair Shopping centre and includes replacement of the hardstand that fills the full width of the verge, width varies from 2.5 metres to 5 metres. The path will comply with AS1428.1 for Access and Mobility to provide equitable access for all users. The existing brick pavement is in poor condition, presenting loose and cracked bricks which over time have become difficult for City Maintenance to replace when damaged. This asset does not meet current pathway standards and is not DDA Complaint, limiting access and use for those with a disability.	Complete	$1,200,000	Apr-23	Jun-24
3	Combination	QLD	City of Gold Coast	Tallebudgera Creek Boardwalk Renewal and Upgrade	Renewal and upgrade of boardwalk The project will renew and upgrade the boardwalk on the southern bank of Tallebudgera Creek which forms a connection between the Oceanway and the shared path that runs through the Tallebudgera Creek Park. Previous remediation works, involving replacement of the substructure, were undertaken 12 years ago to extend the life of the timber structure. In early 2021, temporary protection works were undertaken to protect part of the structure from scouring of the creek bank. Recent condition assessments have shown the structure is approaching the end of its useful life. The project will upgrade the boardwalk to a more suitable standard to improve its capacity and align with future works in the area, including the GC Light Rail off-corridor active transport projects. The replacement boardwalk will be widened from 2 to 4 metres and will include a viewing platform along part of the boardwalk to allow users to step to the side of the pathway to experience views of the creek, Burleigh Headland and the ocean. Permanent scour protection works will be installed at the location of the recent temporary works.	Complete	$2,473,650	Feb-24	Jun-24
4	Road	QLD	City of Gold Coast	Road Rehabilitation – Pine Ridge Road, Coombabah - Lensgate Road to Gold Coast Highway Project Work Category - Road Rehabilitation	The road rehabilitation project is to renewal the existing end of life pavement. 3	Road	QLD	City of Gold Coast	Alexander Drive, Highland Park Footpath	Replacement of Footpath (including equitable access for all users) This project is to replace an existing non-compliant existing footpath. The current footpath is 1.5 metres wide and has a steep crossfall that makes use by people with mobility challenges or in wheelchairs challenging and potentially unsafe. The driver of this project is to correct the footpath crossfall to improve outcomes for equitable access along the southern side of Alexander Drive between Quigan Terrace and Cozens Way. The correction of the footpath crossfall requires modifications to the verge, parking lane and private driveways. The footpath carries significant pedestrian traffic towards William Duncan School and nearby Medical Facilities. The path will comply with AS1428.1 for Access and Mobility to provide equitable access for all users.	Complete	$1,600,000	Dec-22	Dec-23
3	Community	QLD	City of Gold Coast	Runaway Bay Precinct East Soccer New Lighting Project	Sporting and recreation facilities (Sports Lighting) Funding is required to bring forward this new lighting project due to an increase in community demand & growing membership rates due to population growth. This lighting project will provide additional junior playing space for night time use. Council has funded preliminary design studies and gained Land Use approval for the new lighting infrastructure however there is no budget identified to deliver these works. If funding is provided, construction will be able to commence immediately after the Winter season.	Complete	$500,000	Mar-23	Jul-23
3	Community	QLD	City of Gold Coast	Pedestrian Access from Pimpama Sports Hub Overflow Carpark	Improved Accessibility of Community Facilities and Areas Funding is required to bring forward the establishment of an accessibility pedestrian footpath from a completed overflow car park (approximately 300 car spaces, with 140 sealed) at the soon to be completed Pimpama Sports Hub. Currently the car park is not able to be safely accessed directly from within the parklands with access having to be managed under traffic control down Bull Road (local road). Minor Change to Conditions has currently been submitted and a concept plan has been developed by Landscape Architects Place Design. This project will support safe access to car parking for major events and activities in the new Regional Hub that is anticipated to have close to a million visitors a year once fully operational. Includes an allowance to formalise sealed car parking arrangements.	Complete	$930,000	Jan-23	Jun-23

2	Road	QLD	City of Gold Coast	New Proposed Project Ron Penhaligon Way, Robina (Cheltenham Dr to Manly Dr)	The Road Rehabilitation and Reseal Program is the primary renewal program to address surface renewal demand. This program identifies roads in accordance with the Traffic Assets Management Plan and the Sustainable Road Pavement Management Plan. Preventive maintenance is the single most influential component in the network strategy that allows the Council to manage pavement condition. It creates the ability to postpone costly reconstruction or rehabilitation activities, by extending the remaining service life of the original pavement. The effectiveness of long-term preventive maintenance and rehabilitation is based on asset life cycle performance, asset rehabilitation program and life cycle costing. A significant benefit of a comprehensive pavement preservation and proactive maintenance program is that it manages future network condition and funding requirements, thus reducing whole of life pavement construction and management costs. Condition assessment undertaken in March 2019 on a 375-metre section of Ron Penhaligon Way, Robina identified heavy ravelling, wheel path cracking and rutting with an average PCI of <5. Given this result and applying the prioritisation criteria detailed above, this road is priority for immediate intervention. The proposed section for rehabilitation is between Cheltonham Drive and Manly Drive, is 10m in width with two active traffic lanes and a small width shoulder. Ron Penhaligon Way is a residential collector road and facilitates a bus route. The proposed rehabilitation scope is 4,250m2 of asphalt consisting of a 50mm structural layer and a 50mm wearing course (total depth 100mm).	Complete	$331,247	Oct-21	Oct-21

4	Road	QLD	Goondiwindi Regional Council	Drainage Renewal – Callandoon Street Goondiwindi	Replace 425m of kerbing and repair adjacent road surface	Complete	$190,000	Feb-25	Apr-25
4	Community	QLD	Goondiwindi Regional Council	Wild Dog Check Fence Renewal	Renew 28 kilometres of animal exclusion fencing – 1.8m height with 30cm skirt. Steel posts and galvanised netting.	Complete	$581,000	Oct-23	Mar-25
4	Community	QLD	Goondiwindi Regional Council	Moffat / McDougall Street Footpath Link	Construct 150 metres of concrete footpath 2m wide	Complete	$24,053	Dec-24	Mar-25
4	Road	QLD	Goondiwindi Regional Council	Bowen Lane Rehabilitation	Reconstruct 200m of pavement and surface between McLean and Pratten Streets	Complete	$113,000	Feb-25	Mar-25
4	Community	QLD	Goondiwindi Regional Council	Goondiwindi Tots Pool Filtration Upgrade	Increase size of pipework from pool to filters from 40mm to 80mm. Install 2 new injectors into pool shell. Install new pump and filter, automatic chemical dosing system. Replace concrete around pool that is removed for pipe work. All concrete must now be replaced not just the disturbed areas. Material costs are substantially more than when the project was originally costed.	Complete	$130,000	Oct-23	Sep-24
3	Community	QLD	Goondiwindi Regional Council	Texas Reservoir Mixer Installation Texas town reservoir, Stanthorpe-Texas Road, Texas	Installation of a WEARS reservoir mixing system and chlorine dosing system to the Texas town reservoir. During low demand periods, the treated water reservoir experiences very low turnover which leads to the degradation of treated water quality and causes difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine immediately downstream of the WTP filtration stage and prior to treated water entering the town reservoir. Because of the need to ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by products during low turnover periods, and increased cost due to excessive chlorine consumption.	Complete	$175,000	Mar-22	May-24

3	Community	QLD	Goondiwindi Regional Council	Inglewood Reservoir Mixer Installation Inglewood town reservoirs	Installation of a WEARS reservoir mixing system and chlorine dosing system to the Inglewood town water reservoirs. The combined storage capacity of Inglewood's two reservoirs is 2.45 ML and serves a population of approximately 850, with an average daily water demand of approximately 420 kL/day. During low demand periods, the treated water reservoirs can experience very low turnover, leading to a degradation of the stored treated water quality and causing difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine at the WTP, immediately downstream of the point where filtered surface water and bore water are blended. Because of the need to maintain chlorine residual in the potable water rising main and ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by-products during low turnover periods, and increased cost due to excessive chlorine consumption.	Complete	$255,000	Mar-22	May-24
3	Community	QLD	Goondiwindi Regional Council	Goondiwindi Landfill Road and Hard Stand Extension	The Goondiwindi Landfill Road and Hard Stand Extension project will see the extension of internal roads with the construction of 800 metres of formed and gravel pavement. An additional 2000 sq m of hard stand area will be created from reclaimed Dept of Main Roads Gravel laid at 150mm depth. Drainage will be formed to collect run off and divert to leachate holding dams.	Complete	$75,000	Nov-23	Feb-24
4	Community	QLD	Goondiwindi Regional Council	Inglewood landfill Stormwater management system	Earthworks to construct swale drainage and collection ponds across the 312500 sq site to move stormwater on site and into the retention ponds. Install solar Grundfos SQF pump and 6x 370W panel array. 14 Solid set sprinklers to disperse 62700 litres of water per day and encourage revegetation.	Complete	$66,000	Oct-23	Jan-24
3	Road	QLD	Goondiwindi Regional Council	Veronica Ave Pavement Rehabilitation 1-29 Veronica Ave, Goondiwindi	The Veronica Avenue Pavement Rehabilitation project is the reconstruction of failed urban pavement in Veronica Avenue, Goondiwindi. This will restore trafficability of the residential street. In its current state, the Veronica Avenue road is in state of deterioration, and has ongoing significant maintenance costs. The project will alleviate the ongoing costs associated with repair and reduce the amount of complaints from residents pertaining to the ongoing issues. [Decrease due to savings. Reallocating funds to new Project 13]	Complete	$300,000	Mar-22	Sep-23
3	Community	QLD	Goondiwindi Regional Council	Goondiwindi Airport Electrical Cabling Upgrade Goondiwindi Aerodrome, Cunningham Hwy Goondiwindi	This project involves upgrading the 60 year old underground runway lighting cable at the Goondiwindi Airport. The electrical cabling is a critical component of the airport infrastructure, which is regularly used by small fixed wing and other aircraft, including the Royal Flying Doctor Service. This project will improve the electrical safety and reliability of the facility.	Complete	$275,000	Nov-22	Jun-23
3	Community	QLD	Goondiwindi Regional Council	Wild Dog Check Fence Replacement As per coordinates	This project is to replace sections of the wild dog check fence in key strategic locations within the Goondiwindi Region. Our local economy benefits from a diverse agricultural sector, and invasive animal pests have a wide variety of impacts on the economy, the environment and society. The Goondiwindi area has witnessed increasing agricultural losses because of vertebrate pests such as wild dogs. The Wild Dog Check Fence is strategic infrastructure which is pivotal in protecting our Landholders from the potential impacts of Wild Dogs. It gives them the confidence to still run small stock in our region, adding to the diversified nature of our agricultural sector. The ongoing maintenance costs associated with the check fence's deteriorating condition is increasing, along with the risk of wild dogs breaching the fence line. This will result in significant impact to local livestock producers.	Complete	$381,106	Mar-22	May-23
3	Community	QLD	Goondiwindi Regional Council	Inglewood Rising Water Main Replacement Corner of Chilcott and Callandoon Streets, Inglewood	The project is to replace a non-serviceable existing potable water rising main which is one of a pair connecting the Inglewood WTP with the storage reservoirs, and the storage reservoirs with the reticulation system. The replacement potable water rising main will be 680 m in length, constructed from 250 mm HDPE and will be bored under Macintyre Brook. The project will significantly reduce the major risk of water supply interruption due to failure of the single remaining main; as well as allowing GRC to pump to the reservoirs and release to reticulation simultaneously, addressing GRC's current limited ability to maintain supply under high demand conditions or to meet firefighting demand if required.	Complete	$600,000	Mar-22	Mar-23
3	Community	QLD	Goondiwindi Regional Council	Hunter St Footpath 1-10 Hunter St, Goondiwindi	This project involves an installation of a reinforced concrete footpath between Frideswide Street and Delacy Street on Hunter St in Goondiwindi to connect a missing link in the local path network. Incidents involving pedestrians with motor vehicles are a concern in all communities. Footpaths are a solution to reducing crash risk by providing space to separate vehicles, pedestrians and cyclists. The major benefit of this project is the increased safety for pedestrians, as well as providing greater accessibility for residents to utilise the nearby Goondiwindi CBD shopping and services district. The addition of the footpath will also encourage residents to consider walking and which has significant personal health benefits, as well as positively contributing towards environmental considerations through encouraging less use of motor vehicles.	Complete	$50,000	Oct-22	Feb-23

3	Community	QLD	Goondiwindi Regional Council	Brennans Rd Bike Path (Wilga to Sandalwood) Brennans Rd, Goondiwindi	This project involves the construction of a reinforced concrete shared path in the Brennans Rd precinct of the Goondiwindi township to connect a missing link in the local path network. Incidents involving pedestrians or cyclists with motor vehicles are a concern in all communities. Footpaths are a solution to reducing crash risk by providing space to separate vehicles, pedestrians and cyclists. The major benefit of this project is the increased safety for pedestrians and cyclists, along as providing greater accessibility for residents to utilise the nearby Goondiwindi Botanic Gardens, which itself has walking trails within. The addition of the bike path will also encourage residents to consider walking and cycling, which has significant personal health benefits.	Complete	$65,000	Nov-22	Jan-23
3	Road	QLD	Goondiwindi Regional Council	Recreation St Drainage Improvements Recreation St, Talwood	The Recreation Street Drainage Improvements Project in the regrade of open storm water drains to improve urban storm water drainage as a solution to street flooding issues in Recreation Street, Talwood. This will include the installation of culverts, kerbing, guttering and other relative activities with purpose of improving drainage for the area. In its current state, Recreation Street is prone to extensive impact from flooding during significant rain events, with water covering large portions of the road (including at the main access to the town's only school), resulting in silt deposits and infrastructure damage, The Recreation Street precinct is a local hub for tourism, providing the only access to the Talwood Recreation Grounds, which is utilised by tourism visitors as well as travelling workers during peak farming activity times.	Complete	$12,000	Mar-22	Nov-22
3	Community	QLD	Goondiwindi Regional Council	Goondiwindi Tennis Court Fence Replacement Cnr Calandoon and Arthur St, Goondiwindi	The Goondiwindi Tennis Court Fence Replacement. Replacement of existing mesh fence to align with new fencing installed as part of the Goondiwindi Pool Refurbishment project. The existing mesh fence is dated, and this project will install new fencing that is cohesive in design, provide better security and an aesthetic improvement to the existing infrastructure.	Complete	$50,000	Mar-22	Nov-22
3	Community	QLD	Goondiwindi Regional Council	Talwood Recreation Grounds Improvements Recreation St, Talwood	The Talwood Recreation Grounds is a hub for community activity for that area. It serves as a sporting oval, camping grounds for travellers and a playing space for children. The last major works on the facility occurred in July 2018, with an installation of new playground equipment. Through community consultation, it has been identified that improvements to the facility are required for the community moving forward. Specific improvements include the installation of bollards at the playground, design and installation of signage and landscaping improvements in the recreational grounds area. The key benefits of this project to the town incorporate town beautification and improved local aesthetics and subsequent enhanced tourism support.	Complete	$25,000	Mar-22	Oct-22
3	Community	QLD	Goondiwindi Regional Council	Bowen St Footpath 53 – 57 Bowen St, Goondiwindi	This project involves the construction of a reinforced concrete footpath from the Care Goondiwindi Respite Apartments (currently under construction) to the corner of Herbert Street. Incidents involving pedestrians with motor vehicles are a concern in all communities. Footpaths are a solution to reducing crash risk by providing space to separate vehicles and pedestrians. The major benefit of this project is the increased safety for pedestrians, along as providing greater accessibility for residents to utilise the nearby Goondiwindi CBD shopping and services district. The addition of the footpath will also encourage residents to consider walking and which has significant personal health benefits, as well as positively contributing towards environmental considerations through encouraging less use of motor vehicles.	Complete	$15,000	Mar-22	Aug-22

3	Road	QLD	Gympie Regional Council	Road Resurfacing Program 23/24	Bitumen road resurfacings are programmed based on age followed by a visual assessment of the condition of the existing road surface. This program includes Surface Preparation, Pavement and Edge Repairs, Bitumen Resealing and Reinstatement of line marking. The primary outcome of these works is to extend the pavement life of the road asset and improve road surface texture (improved skid resistance) which provides an improved safety outcomes for the road user. This resurfacing program is over and above Council's existing expenditure due to the significant road renewal investment secured through DRFA funding program for flood recovery works from the devastating flood events of early and mid-2022 in the Gympie region. The works will further contribute to the economic stimulus of the region. Locations requiring urgent resurfacing include, but not limited to: Willow Grove Road, Southside – the whole road Banksia Avenue, Southside - the whole road Hill Street, Kilkivan - the whole road.	Complete	$958,784	Dec-23	Oct-24
4	Road	QLD	Gympie Regional Council	Calico Creek Road	Pavement widening works to achieve an 8 metre wide sealed formation with appropriate delineation. 3	Road	QLD	Gympie Regional Council	Excelsior Road Rehabilitation & Pathways	Excelsior Road beyond Hyne Street is a sealed urban local street servicing several local businesses and provides access to the River to Rail Trail. Insufficient stormwater drainage provisions and poor road construction has resulted in this section of road becoming hazardous to road users, pedestrians, and users of the River to Rail Trail. To resolve the above issues, this project aims to: - construct a new sealed cul-de-sac; and - construct new concrete pathways to improve pedestrian connectivity to the River to Rail Trail and the Gympie Community Place. This project aligns with eligible LRCI work categories: - Road Reconstruction; and - Bicycle and Walking Paths. Note that this project was initially funded as a Phase 2 LRCI Project. Relocation of a power pole has delayed commencement of construction (refer Council minute M07/12/21) and therefore it is requested this project as approved for funding as a Phase 3 LRCI Project.	Complete	$505,000	Jul-23	Jun-24
3	Community	QLD	Gympie Regional Council	Nelson Reserve and Gympie CBD garden bed post-flood restoration	This park is in the centre of Gympie and is a heritage listed facility. The park will be restored to pre-flood conditions and where possible, restored with more flood resilient treatments. The works include replanting trees and gardens, pedestrian path improvements, playground restoration and furniture replacements.	Complete	$11,320	May-23	Jul-23
3	Community	QLD	Gympie Regional Council	Woolooga Playground Restoration	Local playground for the Woolooga Township. The park is required to be restored to pre-flood conditions.	Complete	$36,000	May-23	Jul-23
3	Community	QLD	Gympie Regional Council	Clive Colburn Playground	Local playground for the Kandanga township. The park is required to be restored to pre-flood conditions. This project aligns with eligible LRCI work categories: •Playgrounds and Skate parks (including all ability playgrounds); and •Repairs/Replacement of fencing.	Complete	$20,000	Apr-23	Jun-23
3	Community	QLD	Gympie Regional Council	Dickabram Park post-flood restoration	Small rest area next to the impressively historic Dickabram Bridge in the township of Miva. The park is required to be restored to pre-flood conditions.	Complete	$155,000	Jan-23	Jun-23

2	Combination	QLD	Gympie Regional Council	Albert Park Touch Carpark Upgrade	Off Road Carpark. Albert Park is home to the Gympie Touch Association among other community sports groups, and provides direct access to the River to Rail Trail. The existing car park allows for informal car parking, which leads to inefficient use of the available area. This project aims to upgrade the sealed carpark to formalise car parking and provide a more efficient use of the available area.	Complete	$120,000	Jan-22	Feb-22
2	Combination	QLD	Gympie Regional Council	Pronger Parade / Smith Street Pavement - rehabilitation	Pronger Parade and Smith Street are sealed industrials roads in the Glanmire industrial area. Sections of the kerb and channelling, road pavement, and surfacing are failing, resulting in higher ongoing maintenance costs for Council. This project aims to rehabilitate Pronger Parade and Smith Street to a standard suitable for one of the regions primary industrial areas.	Complete	$441,000	Aug-21	Dec-21
1	Community	QLD	Gympie Regional Council	Mellor Street Footpath	The section of footpath experiences a high volume of foot traffic that goes between the adjacent attractors such as the Town Library, Town Hall, A Childcare Centre and the Gympie Civic Centre. The footpath has significantly deteriorated and is beyond maintenance, requiring a full replacement in concrete.	Complete	$51,143	Dec-20	Aug-21
1	Road	QLD	Gympie Regional Council	Rocks Road (Pie Creek)	A combination of high speeds, substandard horizontal and vertical curves, inadequate sight distance, narrow road seal width with unsealed shoulders contribute to the factors that cause run off road crashes along this section of Rocks Road. The existing road seal width is insufficient for two cars to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse e.g. rain or heavy fog. Additionally, there are sections where heavily vegetated areas are within the clear zone and also reduce visibility.	Complete	$455,000	Mar-21	Jun-21
2	Community	QLD	Gympie Regional Council	Mellor Street Pathway – rehabilitation	Mellor Street is a key pedestrian link within the Gympie CBD, linking Mary Street with the Gympie Library and Civic Centre and other significant attractions. This project aims to rehabilitate the existing asphalt footpath that has reached the end of its useful life.	Complete	$221,000	May-21	Jun-21
1	Road	QLD	Gympie Regional Council	Eel Creek Road	A combination of high speeds, high volume, heavy vehicles, narrow road seal width with unsealed shoulders contribute to the factors that cause issues along this section of Eel Creek Road. The existing road seal width is insufficient for two heavy vehicles to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse e.g. rain or heavy fog.	Complete	$350,000	Apr-21	May-21
1	Road	QLD	Gympie Regional Council	Amamoor Creek Road	The section of road experiences a high volume of traffic that travels between the townships of Amamoor and Dagun (471 vpd in 2019). The road is a narrow bitumen sealed road that experiences continual shoulder wear. The existing road seal width is insufficient for two cars to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse erg. rain or heavy fog. Additionally, once a year the road experiences high tourist traffic attending the Gympie Country Music Muster at Amamoor State Forest (2,000-5,000 vpd).	Complete	$153,162	Feb-21	Apr-21
1	Community	QLD	Gympie Regional Council	Excelsior Road Footpath	The section of grassed verge experiences a high volume of foot traffic that goes between bus stop and local shopping centre, to the local Community Centre. A number of users are within motorized wheel chairs and experience issues with the current grassed verge (wet slippery grass, uneven ground). The path will complete a missing link and provide accessible connection along the eastern side of Excelsior Road. The route provides access to the Gympie Community Hub via Dent Lane. A local access advisory committee has previously raised the issue with Council.	Complete	$17,491	Nov-20	Apr-21
1	Road	QLD	Gympie Regional Council	Brooloo Township road works	The township has experienced recent growth. Sections of the road network are currently unsealed and adjacent houses are experiencing increased dust issues due to the additional traffic. 2	Community	QLD	Redland City Council	ANITA STREET PEDESTRIAN BRIDGE REPLACEMENT, REDLAND BAY	Improved Accessibility of Community Facilities and Areas The eastern end of Anita Street connects to North Street Redland Bay via a 41.5m long pedestrian bridge structure which crosses Moogurrapum Creek. The bridge provides the only access across Moogurrapum Creek north of Boundary Street and as such provides an important link connecting the areas on the western and eastern sides of Moogurrapum Creek for pedestrians and cyclists. In January 2021, this bridge had a failure in a supporting beam. However, based on preliminary assessment, full replacement of this bridge at this point will be the most cost effective option for this bridge long term due to the extern of deterioration of bearers which will likely require extensive repair and replacement. 2	Community	QLD	Redland City Council	GORGE WALK CRTICIAL REPAIRS, NORTH STRADBROKE ISLAND	Improved Accessibility of Community Facilities and Areas The project is to undertake emergency repair works of The Gorge Walk located at Point Lookout, North Stradbroke Island which is accessed by the public and is a very popular tourist destination. The Gorge Walk is a large stretch of pathway that includes concrete pathways, timber boardwalk, handrails and stairs with key lookout points along the way. During an extensive rain event in March - April 2021 a section of the embankment washed away and undermined the structure, de-stabilising a section of the boardwalk. Council has undertaken a technical site condition report (including Geotechnical investigations) and have engaged a Contractor to undertake the repairs to the boardwalk, based on the specialist advice. The construction will replace the footings and make safe and reuse the existing timber of the boardwalk. The Project is to commence in October in order for boardwalk to be back in use for the public in time for the peak tourist season in December	Complete	$426,593	Oct-21	Dec-21

1	Road	QLD	Tablelands Regional Council	Bridge Works	Investigation of the bridge in August 2021, recommended a 13.5T load limit and a 5km/h speed limit be imposed (previously 40T load limit), owing to rotten/split timber girders, and termite activity where the girders fix to the abutments. This means empty trucks can still access the quarry at very low speed, but the loaded trucks are not able to legally cross the bridge to exit the site. The 13.5T load limit effectively prohibits quarry cartage operations.	Complete	$59,736	Nov-21	Dec-21

1	Road	SA	City of Adelaide	Road resurfacing of Chesser Street and pavement surfacing (DuraTherm) upon entrance to Coromandel Place	The Historian Precinct consists of three public roads that operate mainly in a one-way direction. Motorists enter Coromandel Place from Pirie Street, turn right onto French Street, right onto Chesser Street and exit out onto Pirie Street. The Grenfell Street end of both Coromandel Place and Chesser Street has bollards to prevent entering or exiting the precinct. These bollards are removable to allow for two-way vehicle movement under traffic control during special event road closures. This section operates under two-way conditions for motorists parking/unparking and those entering/exiting private property. All three streets have kerbs however the narrowness of these and bin placement forces pedestrians, etc. to use the road. On-street parking consists of 17 x Loading Zones as follows; • Coromandel Place consists of two spaces between Pirie and French Streets and five between French and Grenfell Streets, • There is one space on French Street, and • Chesser Street consists of five spaces between Grenfell and French Streets and four spaces between French and Pirie Streets. The narrowness of the streets, particularly Chesser, forces motorists manoeuvring around a parked vehicle to mount the kerb which poses a significant risk to pedestrians exiting the properties on the east side between French and Pirie Streets. It is recommended that approval be sought from Department of Planning, Transport and Infrastructure for the introduction of a Shared Use zone. In principle support for the Shared Use zone has already been received. This support is based on ensuring that changes are made to all three streets to ensure that a motorist is aware of the differing environment. These changes are the removal of parking on Coromandel Place and Chesser Street between Pirie and French Streets and installation of planter boxes to create a chicane effect to assist in slowing of motorists. The grounds are identified as a District Sportsground, are well maintained and well utilised by the Woodville Hockey Club and local soccer clubs.	The Club is actively seeking to increase participation and inclusivity, however currently cannot accommodate the diverse range of participants within their existing facilities. Also, the new building will meet the National construction code and accommodate unisex participation with multiple unisex changeroom areas. The project will also significantly improve access to this community facility for all members of the community.	Complete	$1,117,180	Apr-21	Nov-21
1	Community	SA	City of Charles Sturt	Renewal of footpaths along NE side of Nicholls Tce (between Alma Terrace, Nicholls Terrace and Emily Street, Woodville, Renewal of footpaths along NE side of Nicholls Tce (between Alma Tce and Elizabeth St), SE side of Alma Tce (between Nicholls Tce and No. 100-104 Alma Tce) and SW side of Emily St (between Elizabeth St and Alma Tce). Extension of existing Shared Use Path along Alma Tce from Nicholls Tce corner to the pedestrian access to Albert Park train station. New landscaping and tree planting along Nicholls Tce and Alma Tce verges.	The suburb of Woodville West is undergoing significant urban renewal as a result of a State Government initiated project to renew an area with a high concentration of social housing into an area with a broad mix of housing types and new public spaces. While the new development is progressing well, Council has received a number of complaints from residents in the interface area with the new development about the quality and appearance of existing assets and the public realm and a desire for Council to invest in the upgrade of these assets to be more consistent and sympathetic to the evolving urban renewal area. This funding presents an opportunity for Council to bring forward some works already identified in our Asset Management Plans and Strategic Plans for delivery within the next 4yrs and action some of the concerns raised by the local community. 2	Community	SA	City of Holdfast Bay	Seacliff Hockey Club – Safety Netting	The proposed netting project will enable the club to utilise the entire playing surface in a safe manner, whilst also taking into account the sustainability and longevity of the playing surface, which has been a significant investment. It is also fundamental in the improvement and development of all players at the club. The club is restricted in utilising all areas of the playing surface, due to wear and tear. Providing netting that runs parallel to the playing pitch will allow training to take place across all areas of the playing surface, minimising wear and tear to the Northern and Southern Ends (goal circles). Work Category: Repairs/Replacement of fencing Sporting and recreation facilities	Complete	$25,000	May-22	Jun-22
2	Road	SA	City of Holdfast Bay	Moseley Street Glenelg road upgrade – pavement rehabilitation – Robert St to Pier St	Moseley Street is due for road rehabilitation in order to repair significant defects that will soon become traffic hazards. 2	Community	SA	City of Holdfast Bay	Glenelg Oval southern Retaining wall repairs	Construction of new retaining wall on boundary of Glenelg Oval and Glenelg Primary School. This will also include improved pedestrian access to the oval from the school, landscaping and demolition of the current retaining wall. Work Category: Repairs/Replacement of fencing Sporting and recreation facilities	Complete	$116,184	Jul-21	Sep-21
1	Community	SA	City of Holdfast Bay	Glenelg Oval Both change rooms will be upgraded to meet modern standards. - New partitions and private change areas for each shower cubical. - Additional toilet pans - New ambulant WCs and doors - New partitions at entry to change rooms for added privacy - New tiling throughout both change rooms - New tapware, sanitary ware and fittings throughout - Repaint walls affected by works to match existing	Upgrades to home change rooms and visitor change rooms at Glenelg District Cricket club, Glenelg Oval are needed as existing change rooms do not meet modern standards for community sport change and toilet facilities, and are non-compliant with Cricket Australia minimum standards for female friendly facilities. Current change rooms and amenities in the community cricket club are not compliant for unisex use and not female friendly. Current facilities have communal / open showers, urinals, minimal privacy and insufficient toilet pans. The rooms do not facilitate junior sport or female participation due the outdated layout.	Complete	$24,957	Mar-21	Jun-21
1	Combination	SA	City of Holdfast Bay	Harrow Road / Esplanade Somerton Park It is proposed to support the existing retaining wall by placing rock seawall in front of the retaining wall to match the adjoining seawall. This would then prevent the wall from failing. We propose to extend the stormwater pipe to the edge of the new rock wall.	The retaining wall / stormwater headwall located between the beach and the Esplanade path and road has been identified as high risk of failure. his would result in loss of a section of the coast path and adjoining road, and potential safety issues for those on the coast path and on the beach.	Complete	$262,864	Mar-21	Jun-21
1	Community	SA	City of Holdfast Bay	Somerton and Glenelg Beaches Installation of three new sand groynes to reduce sand loss, increase beach width, improve access at high tide to enhance recreation and tourism, and protect dunes and seawall infrastructure. This works is recommended by the Coastal Protection Board (SA)	Sand lost as a result of littoral drift depletes our beaches of sand and increases risk of damage to coast, dune and seawall. Small groynes are beneficial to maintain sand on our beaches to retail beach height. This provides benefit to beach users, supports local tourism and also assists in protecting the coast from major damage during storm events.	Complete	$80,641	Feb-21	Mar-21

Improving lighting levels and safety in the streets of the City of Mount Gambier. • Improved safety due to higher lighting levels provided by LEDs. • Council's energy consumption and carbon footprint would therefore be considerably reduced; • the incidence of reported Street Lights Out should reduce. This will reduce operating costs; • LEDs have a lower lumen depreciation than HID lamps. This means that approaching the end of life a LED output is higher than that of a HID lamp; • Disposal and/or recycling or refurbishment of LED luminaires will be more efficient than disposal of lamps containing higher levels of mercury; • LED luminaires are smart ready. That is, they can facilitate control systems such as remote reporting (of parameters such as temperature, noise and air quality), control and dimming, should it be required; • A variety of existing luminaire and lamp combinations can be replaced with one LED type, with white light, which is the preferred option for P category (minor road) installations; and • Some HID light sources (e.g. Low-Pressure Sodium lamps and Mercury Vapour lamps) are no longer available. This requires the replacement of whole luminaires with an alternative replacement. LEDs meet this need	Complete	$486,995	May-22	Nov-22

1	Community	SA	Corporation of The City of Unley	Landscaping of an important walking and cycle corridor, following path widening to be undertaken by the State Government. The works involve vegetation clearance, soil improvements, irrigation and extensive planting of shrub, grasses and ground covers, as well as advanced trees. In addition to the corridor greening, improved way finding signage and upgrade LED path lighting will be installed.	The Mike Turtur is the most popular off-road cycle route for daily commuters into the CBD. Over time, the popularity has placed increased pressure on the path width and its capacity to accommodate increased cyclists and pedestrians. The State Government has chosen to increase the path width to improve the safety and efficiency of the route, between Musgrave Street, Goodwood and King William Road, Wayville. The bikeway runs parallel to the existing tram corridor and adjoining side and rear fences of residential homes. To enable the construction of a wider path, extensive vegetation clearance is required. Much of the existing planting is old, self-seeded and overgrown, and inappropriate along the bikeway due to sightlines, CPTED, form or seed drop. The LRCI Program allows Council to invest in a new corridor landscaping to improve the safety, amenity and biodiversity for all users, and adjacent residents. A sustainable palette of predominantly native plants will be carefully chosen to ensure long-term sightlines are maintained along the corridor, support the Council's long term tree canopy growth targets, and increase local biodiversity. Once established, the Council will take the longer-term maintenance responsibility of the bikeway and corridor greening.	Complete	$340,054	Feb-21	Jun-22

3	Community	SA	District Council of Streaky Bay	Streaky Bay Township Entrance Statements	Landscaping Improvements. The township of Streaky Bay currently does not have in place any kind of welcoming or identity branding into the township. The project would involve design of a number of concepts, followed by community consultation to ensure the design meets the need of the community. The entrance statements to be located at each entrance to the township will include reference to local traditional custodians, whilst also providing the entire community with an entrance that provides them with a place of identify and welcoming. Entry statements can grow tourism, attract investment and even become a destination on their own right. Then entry signs will showcase the region, convey the vibrancy of the local culture and maintain a strong harmony with the surrounding environment. In total their will be two (2) entrance statements constructed. The entrance statements will be permanent fixed structures.	Complete	$145,059	Apr-23	Jun-24
2	Community	SA	District Council of Streaky Bay	Lions Park Development	Wells Street Road Realignment as part of the Lions Park Upgrade Landscaping Improvements. The reserve development will aim to redevelop a partially developed reserve that has high community value and this was emphasised through the recent community consultation process. The Park is a 9500m2 reserve that is underutilised with very little activation, there is existing tree canopy that is nearing is end of useful life, along with play equipment and a toilet facility that are at the end of life. The proposed development is to activate the space with landscaping, seating, pathways, vegetation and stormwater management. The overall beautification of the site will provide safe passage for pedestrians, play space for local children, a connection between the eastern entrance to the CBD of Streaky Bay. The reserve shall consider stormwater mitigation measures such as swales and rain gardens. It will provide a valued recreational space that is currently unavailable to residents on the Eastern section of town and as a key to a welcoming entrance and place to gain bearings for visitors coming into the township. GPS Location -32.7950432, 134.2175872	Complete	$118,600	Sep-23	Mar-24
3	Combination	SA	District Council of Streaky Bay	Streaky Bay – Bay Road Streetscape Development	Landscaping Improvements. The Bay Road (reserve development) will aim to develop an undeveloped nature reserve that runs adjacent to Dodgson Drive and Bay Road (between Wallshuztky and Centenary Road) in Streaky Bay. The reserve is a 30m wide x 600m wide nature reserve with existing tree canopy and stormwater catchments. The proposed development is to activate the space with landscaping, seating, pathways, vegetation and stormwater management. The overall beautification of the site will provide safe passage for pedestrians, play space for local children, a connection between the southern entrance to the CBD of Streaky Bay. The reserve shall consider stormwater mitigation measures such as swales, rain gardens and physical infrastructure that will alleviate flooding that is sometimes prevalent in the area. 2	Community	SA	The Berri Barmera Council	Barmera Unisex Change room and Oval Lighting Upgrades	To construct a new modular unisex change facility, upgrade the umpire and public toilet facilities and install new oval lighting at the Barmera Sporting Precinct. This will upgrade the main oval lights to meet current standards for local football night games, as they currently do not even meet standards for night training. By replacing and expanding the functionality and community use of change room facilities and toilets, 3 sports, Netball, Lawn Bowls and Football players and officials will be better supported. The aged and outdated design of the current facilities no longer provides suitable function for the strong participation levels of female players and umpires in football nor address the shared use opportunities at this multi-sport precinct	Complete	$484,839	Oct-21	Jan-24
3	Community	SA	The Berri Barmera Council	Berri Barmera Council	The construction of a new Barmera Multi Sport Change rooms in Barmera for use of basketball and football clubs.	Complete	$599,510	Jul-22	Jan-24
1	Community	SA	The Berri Barmera Council	The revitalisation of Berri's Colin Jennings Apex Park (Apex Park) will incorporate improvements including an upgrade of the previous BMX track to a versatile pump track which can be used by bike riders, skateboarders and scooter riders of all abilities. Complimenting this will be an off-grid solar BBQ shelter and associated amenities so park users can spend extended time enjoying this space and the additional play equipment that will accompany it. Concrete connecting footpaths, that double as a junior scooter track meander through the native vegetation to connect the different zones of the park. Finalising the upgrades is new fencing for the current dog park, bringing the whole area together to deliver a unique and enjoyable public open space that provides positive health and wellbeing opportunities for the Berri and wider Riverland community.	The Berri township does not currently have a suitable community open space that provides adequate facilities for people to connect and enjoy together, while meeting the needs for families that are transport disadvantaged and unable to access other facilities within the district. Additionally, Berri has no free active public facilities for older age groups (pre-teens and teens) such as a skate park. This project will provide a pump track (amongst other infrastructure) which caters for a variety of ages and wheeled users. This is a community facility that is not currently provided by any of the other Riverland Councils and will be a distinctive point of difference for the park. The space currently has ad-hoc infrastructure including; a dog park, two small pieces of playground equipment, asphalt multi-use court and shaded gazebo. The existing layout lacks connectivity between the current facilities which reduces the appeal of the area. By teaming the pump track up with dedicated concrete connecting footpaths, that double as a junior scooter track, provides the safe connectivity required for the individual areas and is the perfect combination for families with children of varying ages. To ensure that the new features of the park are fully maximised, complimentary facilities such as; a fully solar BBQ, solar lighting, seating and drinking fountain will be installed to enable visitors to extend their time and utilise all that the park has to offer leading to enhanced positive health and wellbeing for our residents and other users.. Given that much of the groundwork is already in place within the site, the additional enhancements will enable the Berri Barmera Council to provide a quality green space which offers a range of passive and active opportunities for our community which differ from the traditional playground layout.	Complete	$299,755	Apr-21	Dec-22
4	Community	SA	The City of Burnside	George Bolton Swimming Centre Electrical and Heater Upgrade	Replace the aging gas pool heater with a new all-electric heating system	Complete	$567,219	May-24	Dec-24
3	Community	SA	The City of Burnside	Dulwich Community Centre	The purpose of this project is to renovate and revitalise the much loved but ageing Dulwich Community Centre to ensure it is accessible, functional and usable for the broader community for many years to come. Works will include demolishing and rebuilding the front of the centre, ensuring provision of facilities to make the centre suitable for a wide range of community uses. The works will also include making the building DDA compliant, providing accessible access, parking and toilet facilities, as well as improving the environmental performance of the site by installing solar panels and incorporating water sensitive urban design principles in the surrounding yard.	Complete	$709,438	Sep-23	Nov-23
3	Combination	SA	The City of Burnside	Mount Barker Road Shared Cycling and Pedestrian Path	The Mount Barker Shared Use Path will provide a safe and viable link for Cyclists to ride between an established bicycle route currently terminating at Boucaut St Glen Osmond. The off street path will link from Boucaut St to Gill Tce. A separate but related project will link this path to the Crafers Bikeway. The first part of this project was funded through the LRCI Stage 2, therefore this funding allows the completion of this project in its entirety. LRCI 2 funding was used to fund a third of the overarching project. LRCI 3 funding will be used to complete the remainder of the project as a separate stage.	Complete	$195,000	Aug-22	May-23
3	Community	SA	The City of Burnside	Laurel Avenue Community Garden Part 2	A new community garden was designed in conjunction with the community in 2020/21, and constructed in 2021 using previous stages of LRCI funding. Since opening it has been very well received by residents. In the first stage of construction, some works were not able to be undertaken, including additional irrigated garden beds to meet community demand, columns to support shade cloth, storage bays for mulch and soil, bike racks and a pergola. These additional items will ensure the garden is able to be enjoyed by all members of the community.	Complete	$30,000	Apr-22	Mar-23
3	Community	SA	The City of Burnside	Penfold Park Playground (increased scope)	The Penfold Park Playground Upgrade will revitalise the play space by providing a variety of play opportunities including inclusive play, sensory play, cooperative play, independent play, imaginative play, musical play and tactile play. Council plans to include a mix of off the shelf play items with a ninja obstacle course, musical instruments and garden areas with accessible pathways, seating and a shade sail covering a large part of the play area. We will also be providing elements such as a non-verbal communication sign and plenty of play opportunities for children and adults with a variety of skill levels and abilities to ensure the playground is inviting and fun for the whole community. The additional funding allows Council to increase its original scope and design providing a much improved play space for the community.	Complete	$200,000	Apr-22	Dec-22

1	Community	SA	Town of Gawler	Install shade sails over four playgrounds: Fifth Street, Hemaford Grove, Willaston Nature and Apex Park	At present, there is no protection from sun, UV and wet weather conditions at playgrounds. Children get burns from hot play equipment and from playing in the sun on hot days. The lifespan of play equipment will be reduced with fading and cracking that can happen from sun exposure over time. These issues will be addressed by installing shade sails over playgrounds and it is widely recognised shade provides beneficial outcomes for the community to encourage active play at times when they may not have played due to hot weather conditions. Council has three existing other playgrounds with shade sails over them, and due to these beneficial outcomes, is seeking to expand these over more playgrounds as part of this community infrastructure program. 4	Community	SA	Wakefield Regional Council	Celebrating Port Wakefield's Cultural Connection: Stage 1 - Port Wakefield Town Entry Cultural Art and Wayfinding; new Town Plaza	Develop, design and construct town entry art piece inspired by cultural history. The exact art work will be determined following initial concept design and consultation with key stakeholders. The work will capture the town's role as a cultural meeting place for neighbouring Indigenous nations. This will be developed in consultation with Elders from these nations. The final design will also encapsulate a wayfinding element to promote attractions within the township to passing travellers. Artists, led by lead artist Mike Makatron (https://www.makatron.com/sculpture) and Harley Hall (https://www.facebook.com/Aboriginalartdesigns/) will then construct and install the art piece, complete with feature lighting to ensure it is visible at all times. This project will commence the Indigenous Art Trail, which will be funded in future stages. For the Town Plaza, the scope of works includes demolition of existing surface, site preparation and paving of town centre plaza. Total paving area is approx.. 670m2 for the road + 440m2 for the footpath. Little Hampton Clay brick will be used for the road way and the footpath. Road way and driveways will be in herringbone pattern, while the footpath in a Stretcher bond pattern. 2	Combination	SA	Wattle Range Council	Penola to Coonawarra Walking / Cycling Track	The concept of a walking and cycling trail from Penola to the Coonawarra was developed following investigations into a regional trails network that was completed in 2015. With the increasing awareness of the value of outdoor recreation in relation to health and wellbeing, and the Coonawarra Wine Region being acknowledged as an excellent tourism attraction, the development of a multi-use walking and riding trail would add strongly to the region. A well planned and constructed trail network in this area would cater to a range of users including recreational walkers and runners, cyclists, and tourists wanting to visit wineries and other destinations. The section of trail proposed for development runs for approximately 16km (excluding links to wineries and tourist attractions) from the town of Penola through several vineyards and wineries to Coonawarra. Additionally, Naracoorte Lucindale Council is currently developing a 16km connecting the Naracoorte township and the world-heritage listed Naracoorte Caves to strengthen the high-quality visitor experiences offered in the region. This Stage 2 of the project, to link the caves to cabernet via a shared-use rail trail, will be managed directly by the Naracoorte Lucindale Council.	Complete	$736,052	Oct-21	Mar-22

3	Community	SA	Yorke Peninsula Council	Arthurton Main Street beautification. Category: Bicycle and Walking Paths	Arthurton's main street features an impressive sporting complex that hosts a variety of sporting and recreational activities, as well as the fast-growing Arthurton Pop-up Markets, which are this year nominated for our region's Event of the Year. This section of the main street has a sealed footpath, but it does not continue down to where the actual businesses are. The poor condition of the unsealed footpath in this section means visitors often track mud and dirt in to the markets, making a mess of the courts and indoor clubrooms. This project proposes to create a sealed footpath from the current footpath site along to the main street businesses. Arthurton Progress Association, a volunteer group working to improve the town, also plans to beautify the section with some lawn and planter boxes, although that will be funded from the community and not the LRCIP. Category: Bicycle and Walking Paths	Installation of recycled plastic interpretive signage near each water tower. These signs will feature information about the individual murals including key aspects relating to each town, and the recovery effort from the '19 bushfires which spawned the mural trail project. The community benefit will be added interest for tourists (increasing the tower visitation experience, with added visitors more likely to result in spending in towns) and preserving local history (background of project/bushfires etc.) for improved community connectedness. The signs will be fixed in place and complement the towers which are our biggest non-coastal tourism drawcard.	Complete	$3,631	May-22	Jul-23
3	Community	SA	Yorke Peninsula Council	Two Bush Camping Locations. Category: Toilet Blocks	Installation of bush camp toilets and associated works to manage waste and associated health and environmental impacts.	Complete	$57,649	Apr-22	Jun-23
3	Community	SA	Yorke Peninsula Council	Port Vincent – Institute. Category: Improved Accessibility of Community Facilities and Areas	Institute improvements with main works consisting of upgrades to disability access to improve access for individuals with a disability and ensure continued community use. The Port Vincent Institute has an external entrance to the main hall facing south which is used on a frequent basis as it is conveniently on even floor/ground level. However due to the frequent severe weather and wind that is experienced at Port Vincent, Council in conjunction with the Port Vincent Progress Association is seeking to build a Breezeway to facilitate an entry protected from the weather and an additional emergency exit access. The breezeway will also provide disabled access to the building. It is anticipated the breezeway will be approx.. 2.4 x 1.9 metre fully covered enclosed and stand approx.. 3.6 metre in height with an access ramp (leading to the entrance from the footpath) which will require concreting and footings etc.	Complete	$36,200	Jul-22	Jun-23

1	Community	TAS	Central Coast Council (TAS)	Ulverstone Skate Park Redevelopment Major redevelopment of c.1970s existing skate park to provide modern activity hub with the adjacent, new MTB pump'n'jump courses. Includes new 'street' style skate elements, with proper zoned design to allow all-ages and wheelchair access, separate parkour obstacle area, new outdoor ball arena (half-court basketball and footsal), and refurbishment of existing picnic shelter area, including new bicycle parking.	Existing skate park facility is aged (c.1970s) and near end of serviceable life. Current layout and design reflects age, with style and zoning of elements not suitable for all-ages/all-skills use. Current surface and layout is not suitable for wheelchair access and use. Shape and design of some current ramps is not as safe as modern design. Existing ball court is too small (less than 3-point arc) for even casual use. The location is a popular active recreation area, particularly for youth and teen activities. It is adjacent a new mountain bike pump and jump track, at the end of a popular regional coastal parkland with various playgrounds, and only 100m from local surf club and amenities. The redevelopment project will help consolidate the zone as a regional destination for active recreation, particularly among youth and teenagers.	Complete	$371,486	Aug-21	Oct-22

3	Combination	TAS	Hobart City Council	New Town Retail Precinct Upgrade - Cross Street and Salvation Army Zones. - Reconstruction; Bicycle and Walking Paths; Other (Bus Shelter), Landscaping Improvements.	Streetscape upgrade of New Town retail precinct to create a more vibrant, inviting and accessible local shopping area along New Town Road. The project scope has been developed through an extensive community participatory planning (co-design) process to promote a sense of local ownership amongst community and business stakeholders in the evolving, mixed use main-street environment. Improvements to pedestrian access, safety and amenity are prioritised. Anticipated health and wellbeing benefits and the improved local business environment delivered by the project, will enhance local community resilience in a post COVID-19 context. The Project will: Deliver improved active travel outcomes, especially walking, further enhancing connectivity throughout New Town, with a focus on pedestrian safety, access and amenity. -Enhance liveability of the precinct with greening including a new 'pocket urban park', and new trees and ground level plantings, which will support the growing population. -Upgrade mobility and public transport support infrastructure, including bicycle lanes, improved bus shelters and lighting. - Improved digital connectivity future proofing. -Feature engaging and enduring public artwork that reflects the identity of the area. - This zone will reinvigorate New Town's heart at the junction of Cross and Valentine streets with a flexible, traffic calmed space that will improve pedestrian safety and can also be used for temporary events, markets and other community activities. This area will feature: - a raised pedestrian threshold, new footpaths and reconfigured intersection to calm traffic and improve pedestrian access. - Removable bollards will allow for occasional community events. -Raised pedestrian thresholds on side streets to assist pedestrian access and safety. - A high quality public bus shelter and landscaping adjacent to the new 'community hub' on New Town road, delivering improved DAA access, lighting, weather protection and safety outcomes for bus passengers. - Addition of greening and amenity with new trees, plants, art and street furniture. - Complementing the above works and funded separately will be a new pedestrian crossing facility on New Town Road with kerb buildings and median island, North of Cross Street. See below**) - A landscaped 'pocket park' with public art, planting and seating for community use on New Town Road in front of the Salvation Army complex. - Renewed footpaths in the area.- Complementing the above will be a separately funded pedestrian crossing facility on New Town Road near the Salvation Army complex. 1	Community	TAS	Hobart City Council	Queens Domain The project consists of the complete development of a whole new cycleway along with car park and associated infrastructure. The cycleway will be constructed on a steep gradient of land by the side of the old Tas rail line which is currently unused. The project rectifies many ongoing issues/complaints about the surface of the car park and road ways in this area.	The project brings together the "missing link "the missing connection of cycleway between the Regatta grounds car park and the Macquarie Point development. Currently the cycleway ends requiring riders and other users to travel through an active car park and thoroughfare to the water. The potential conflict for users currently poses significant risk to public safety. The lack of connectivity to the new cycleway at Macquarie Point often causes confusion throughout the cycling community and this is often addressed through our network / stakeholders' meetings with cycling groups as a major area for improvement. The project will allow you to enter the cycleway throughout Glenorchy providing a continuous, safe path away from traffic directly into the heart of the Hobart central district. These roads were previously gravel roads and had a first seal applied circa 2017. In accordance with good road construction practice a second seal should be applied to complete the works. This usually takes place some after the initial seal and this work is now overdue to be completed. The roads involved are Old Grassy Road, Cape Wickham Road and South Road. A significant difference with this project and other projects undertaken by Council is that it will be utilising external contractors who will bring machinery and workforce to the island. This approach is due to the scale of the works involved and the resulting efficiency that they can achieve with their equipment resources. Also, to attract contractors to the island there has to be a substantial body of works to make it attractive to them at a reasonable price. Smaller projects are able to be undertaken by the Council utilising its internal resources	Complete	$599,062	Mar-22	Apr-22

2	Community	VIC	City of Greater Shepparton	Victoria Park lake Power Upgrade [NEW PROJECT	It is proposed to install permanent power supply boxes to the open space area at Victoria Park Lake, Wyndham Street, Shepparton. Costs to Council's Events Team for electrical/generator/electrician services and hire were $90,094.86 over the past 5 years. This does not include community and private event company costings and having in excess of 18 annually events where they all have to source power, there is a need to address and implement improved infrastructure for availability, consistency, and safety of all users. Having this upgrade in place will also improve the capacity for the location to be marketed appropriately to a broader range of events organisers and companies as this area will have the capacity to deliver event needs without the requirement of temporary infrastructure inclusions, which all come at a cost to either Council or event organisers, thus giving the site improved capabilities and attractiveness for events and reducing the outlay for temporary infrastructure.	Complete	$131,760	Jun-22	Dec-22

2	Community	VIC	City of Greater Shepparton	Vibert Reserve Pavilion Stage 3 Redevelopment, 290-300 Archer Street, Shepparton Victoria 3630	The redevelopment of the Vibert Reserve Pavilion will see a large extension to accommodate the South Shepparton Community Centre who will relocate from their current facility. This part of the project has already been approved to be funded under the LRCI Phase 1 allocation. The balance of the project, will see the sports clubhouse extended and upgraded to facilitate appropriate sports club social use for the 3 main sports clubs and other casual use clubs that currently utilise this pavilion. The new social club space will also provide for further opportunities within this South Shepparton community to utilise this space for community gatherings and meetings. The extension works will now be part of the overall Vibert Reserve Pavilion Stage 3 redevelopment including new car parking, with security lighting, relocated and upgraded playground, landscaping and improved accessibility for neighbourhood house users and the sports club users. Plans are available and can be provided if further clarification is required on the extent of this project, and the 2 stages of works that can be completed with both Phases of funding. There is significant benefit in completing this project as a single contract and approval to include this under Phase 2 will see the project more efficiently delivered under one contract as opposed to a staged approach. Local Roads and Community Infrastructure Program - Projects approved for funding (as at 1 September 2025)

Phase	Infrastructure Type	State	Funding Recipient	Project Name	Project Description	Status	LRCI Funding (approved)	Start Date	End Date
1	Community	VIC	Colac Otway Shire Council	Construction of concrete footpaths in multiple locations	Many key connections that link schools, shopping precincts, tourist destinations, community facilities, open space and off road shared paths do not have existing hard surface, accessible paths on either side of the road. This limits access to recreational and community destinations for many residents and visitors, particularly for the elderly and mobility impaired and in high rainfall areas such as Gellibrand, Lavers Hill and Apollo Bay.	Complete	$410,619	Sep-20	Apr-22
2	Community	VIC	Colac Otway Shire Council	Barongarook Creek, Colac: bicycle and walking paths	Upgrade shared pathway to improve connectivity	Complete	$240,112	May-21	Apr-22
1	Road	VIC	Colac Otway Shire Council	Sealing of 700m of road	The main benefit this project will deliver is improved safety by providing all weather access constructed to a higher standard, for adjoining property owners and other road users in general. It will provide an attractive alternative access route for residents in the Swan Marsh community. It will provide a viable option for heavy vehicle access (milk tankers, stock trucks, quarry vehicles) into and out of the Swan Marsh district. It will provide and attractive alternative access point for emergency responders (Fire Safety Victoria, etc.), both into and away from the Swan Marsh district. Safety at night or in foggy circumstances will be greatly improved through road side delineation, the advantage of a sealed surface, and through the addition of solid edge lines. Routine maintenance of the unsealed surface (maintenance grading) will be substantially reduced – shoulders will still require periodic maintenance.	Complete	$290,816	Mar-21	Mar-22
1	Community	VIC	Colac Otway Shire Council	Construction of new play space	Residents of the Petjuli Street park catchment do not currently have access to a playground within walking (500m) distance, with the nearest playground being more than a kilometre away. The park is currently undeveloped with some trees and park benches. This development will create a social destination for the many children, families and carers in the area, activities for a range of age groups and access to these facilities with the creation of a hard surface path connecting to the existing footpaths.	Complete	$106,000	May-21	Mar-22
1	Community	VIC	Colac Otway Shire Council	Resurfacing two tennis courts and one netball court	The condition of the existing asphalt surface of these courts has reached a point where it is no longer safe to play. There are cracks with weeds and during rainfall, water pools on the surface causing slipperiness and poses a risk to the users. The courts are used by the Apollo Bay Netball club, casual and social tennis players from the townships of Apollo Bay, Skenes Creek and Marengo and visitors to the adjacent camping ground.	Complete	$39,416	Nov-21	Dec-21
2	Community	VIC	Colac Otway Shire Council	Warrion: painting/improvements to community facilities	Upgrade Warrion Public Hall kitchen to commercial grade for increased use and income	Complete	$70,000	Mar-21	Dec-21
1	Road	VIC	Colac Otway Shire Council	Construction of new kerb and channel, and associated drainage	n 2019 Colac Otway Shire adopted a masterplan for Forrest Common Reserve, the main community park servicing the Forrest township. The plan identified that road run-off from Station Street was causing damage to the reserve, particularly the playground and car park. High volumes of stormwater sheet across the reserve carrying debris and spreading playground soft fall into the car park, creating slippery surface	Complete	$63,319	May-21	Jun-21
1	Road	VIC	Colac Otway Shire Council	Road repairs at main entry and emergency entry and nearby roundabout at Colac Hospital	The roundabout and section of Connor Street are heavily used for everyday access to Colac Hospital, Bulla Factory, and various medical centres. Repair of this road will improve the safety of the road surface for users, especially ambulances and other medical vehicles entering the hospital and people visiting the various medical services in this area. The asphalt works will also assist in reducing traffic noise for aged care residents and patients who are situated in hospital wards and wings adjacent to this roadway. Undertaking rehabilitation works now will avoid the need for full road reconstruction when the road fails. If a full reconstruction were required it would cause substantial disruption in the area and interrupt hospital access.	Complete	$193,334	Mar-21	Apr-21
1	Road	VIC	Colac Otway Shire Council	Installation of speed humps outside school	Speeding vehicles currently pose a safety risk to children accessing the Specialist School in Wilson Street, Colac. Students aged 5-18 with special needs and their carers currently use the crossing daily during school term. Cars and heavy vehicles use this local road as a short-cut between the C155 (Colac-Lavers Hill Road) and Queen Street (north south collector road). The installation of speed humps either side of the crossing aims to slow vehicles and deter heavy vehicles, generally improving pedestrian safety in this area.	Complete	$17,536	Nov-20	Dec-20

1	Community	VIC	Corangamite Shire Council	This project will see an upgrade to the existing netball infrastructure, including court lighting, shelters and inclusive design change rooms for players, officials and spectators.	The upgrades have been identified as a priority to improve the safety for participants, increase the chances of clubs attracting and retaining participants and to increase access and usage. These works are identified as a priority in the Great South Coast AFL, Netball and Cricket Strategy and are supported by the Recreation Reserve Committee of Management, Cobden Football Netball Club and Cobden Tennis Club. In addition, there is a demand for female facilities at the Cobden Recreation Reserve with the establishment of an under 18's female football team. If funding can be secured through this program, it is expected that there will be an increase in the number of females participating at the reserve. Currently, there are three under 18 female football teams across the Corangamite Shire. The upgrade allows Cobden Recreation Reserve to become a venue for further female teams including the development of female senior sides.	Complete	$300,000	Feb-21	Jun-22

1	Community	VIC	Manningham City Council	Ruffey Lake Park is a Council reserve, 66 hectares in area. The proposed works include the sealing of paths between the boardwalk at the main carpark, The Boulevarde public toilets and picnic shelters. Marking of a new DDA parking bay in The Boulevarde off road carpark. Installation of solar powered lights along this path to the toilets. Construction of footpath connections, in several cases to residential park interfaces including Victoria Street and King Street, including associated landscaping and works.	Council is in the process of completing improvements to The Boulevarde public toilet block, to in part achieve DDA compliance. Council commissioned a Building DDA Inspection report for the public toilets and the recommendations included sealing of existing gravel paths to access the toilets, lighting improvements and the provision of an additional DDA compliant parking bay in closer proximity to the toilets. The previous Council project scope was limited to the public toilet improvements. This project also seeks to improve access to Ruffey Lake Park, by providing further pedestrian linkages to abutting streets.	Complete	$141,402	May-21	Jun-21
