This letter is to inform the Parliamentary Standing Committee on Public Works (PWC) about the nature and extent of community consultations undertaken as part of the LAND 121 Stage 2 – Unit Sustainment Facilities Project (the Project).

Broadly, the strategy for community consultation adopted by Defence was undertaken with the following objectives:

- ensuring that the public was informed about the Project using cost effective, wide ranging communication channels; and
- ensuring the public had every opportunity to raise issues of concern or seek further information.

The consultation activities undertaken included:

- Detailed email correspondence with local groups, State and Federal members, with individual briefings conducted where requested. The members and groups consulted, with a short description of the outcomes of the contact are detailed in Annex A. An example of the correspondence sent to the respective groups is detailed at Annex B;
- Advertisements in the local newspapers, listed in Annex C;
- A letter box drop in Enoggera, Brisbane and Garbutt, Townsville, providing residents a project specific pamphlet and invitation to attend a Public Consultation Session, details at Annex D;
- A series of Public Consultation Sessions undertaken, details listed at Annex E;
- Provision of a project specific website to provide information to the public, <http://www.defence.gov.au/id/land121>; and
- Provision of a project specific email to receive community feedback, [land121@jacobs.com](mailto:land121@jacobs.com).

Key issues raised by the Community through the Consultation sessions are listed at Annex F.

In conclusion, no signification issues have been identified during Defence's community consultations that will impact on the proposed works, and Defence is satisfied that it has taken all reasonable steps to inform the Community about the Project and to provide opportunities for the Community to raise concerns.

Yours sincerely,
