DGCFI-ID/OUT/2018/AF33575542

Mr Scott Buchholz MP
Chair
Parliamentary Standing Committee on Public Works
Parliament House
CANBERRA ACT 2600

Dear Mr Buchholz,

**COMMUNITY CONSULTATION REPORT: LAND 2110 PHASE 1B AUSTRALIAN
DEFENCE FORCE CHEMICAL, BIOLOGICAL, RADIOLOGICAL AND
NUCLEAR DEFENCE CAPABILITY FACILITIES PROJECT**

1. This letter is to inform the Parliamentary Standing Committee on Public Works (PWC) of the nature and extent of community consultation undertaken as part of the proposed LAND 2110 Phase 1B Australian Defence Force Chemical, Biological, Radiological and Nuclear Defence Capability Facilities Project (the Project).
2. The community consultation undertaken by the Department of Defence aimed to ensure the community and other stakeholders were:
 - a. Well informed about the Project's details through the use of effective and proven communication channels.
 - b. Provided the opportunity to raise issues of concern or seek further information so that, wherever feasible, they could be addressed by Defence in its program of works.
3. The Stakeholder and Community Consultation Plan activities listed below were delivered in accordance with the project's comprehensive Community Engagement Strategy, namely:
 - a. Formal letters advising the upcoming Community Information Sessions and offering project briefings were email to Federal and State members, local government and community groups. A list of the members and groups consulted is at Annex A, with a short description of the outcomes of the consultation. An example of the correspondence sent on 20 June 18 to the members and respective groups offering a briefing is provided at Annex B.
 - b. Advertisements advising of the project and promoting four community information sessions were placed in The Australian and a number of targeted local newspapers across the nation. An example of the advertisements is provided at Annex C.
 - c. A dedicated project website outlining the project scope, locations, plans/designs and engagement opportunities, including the PWC process, was launched to coincide

UNCLASSIFIED

UNCLASSIFIED

with the public materials. An example of the website homepage and navigation menu is provided in Annex D.

- d. A flyer was delivered to approximately 3,000 residents informing them of the information session in Gallipoli Barracks near Enoggera, Queensland. An example of the flyer and distribution zone is provided in Annex E.
- e. Four Community Information Sessions were held between 4 June and 8 June 2018; two in Queensland, and one each in South Australia and Victoria as detailed at Annex F. A summary of the displays and printed materials available at the Community Information Sessions is provided in Annex G.
- f. A dedicated project email inbox was set up to enable project members to monitor and respond to enquiries in a timely manner. A summary of email enquiries received along with responses is provided in Annex H.

4. The overall feedback from the consultation sessions was supportive with much interest around local benefits, job creation and traffic management during and post construction. The community is aware of the role of Defence and is supportive of the project. The community was interested in the proposal and appreciated the opportunity to find out more information about the project. There were no issues raised at the sessions that required further action. This was reinforced by the submission from the Gallipoli Barracks Action Group reinforcing the positive engagement Defence has had with the community on this project.

5. In conclusion, no issues have been identified during Defence's community consultation that will impact on the proposed works. Defence is satisfied that it has taken all reasonable steps to inform the community and stakeholders about the Project, and has provided opportunities for the community to raise any concerns and questions.

Yours sincerely

M. J. GAETON, DSC
Brigadier

19 July 2018

Annexes:

- A. Stakeholder briefings and follow up action
- B. Example correspondence sent to key stakeholders
- C. Newspaper advertisements
- D. Project website
- E. Letterbox drop distribution
- F. Community Information Session attendance summary
- G. Display and printed materials
- H. Email correspondence summary

Mr Darren Chapman
Project Director Mediums Program
Capital Facilities and Infrastructure

File Ref: AF33826719

Ms Jane Prentice
Federal Member for Ryan
636 Moggill Road
Chapel Hill QLD 4069

Email: jane.prentice.mp@aph.gov.au

Dear Ms Prentice,

CONSTRUCTION AND UPGRADE OF DEPARTMENT OF DEFENCE LAND 2110 CAPABILITY FACILITIES

Department of Defence wishes to inform you of planned facilities works proposed for your electorate under the infrastructure component of LAND 2110 Phase 1B Australian Defence Force (ADF) Chemical, Biological, Radiological and Nuclear Defence (CBRND) Project (the Project) at multiple sites across Australia. These works were referred to the Parliamentary Standing Committee on Public Works on 10 May 2018. The Project, subject to Parliamentary approval, can be viewed on the Committee's website at the following link:

https://www.aph.gov.au/Parliamentary_Business/Committees/Joint/Public_Works/CBRNDefenceProject

The Project will provide a range of infrastructure works to improve CBRND capability and preparedness through the provision of training facilities and storage of associated equipment. The proposed works include upgraded or new Mask Testing Facilities (MTF) comprising an enclosed building, outdoor shelter, car parking and service connections; and Integrated Logistics Plan (ILP) Storage Solutions consisting of hardstand, lighting and fencing.

It is proposed that facilities and infrastructure associated with the Project will be delivered at the following fourteen sites:

Location	New MTF	Refurbished MTF	ILP Storage
HMAS <i>Sirling</i> , WA		x	x
Bindoon Training Area, WA		x	
Robertson Barracks, NT	x		x
RAAF Base Edinburgh, SA	x		x
Lavarack Barracks, QLD	x		x
Gallipoli Barracks, QLD			x
RAAF Base Amberley, QLD	x		x
Holsworthy Barracks, NSW			x
Kapooka, NSW	x		x
RAAF Base Wagga, NSW			x
HMAS <i>Creswell</i> , ACT		x	x
Majura Range, ACT	x		
HMAS <i>Cerberus</i> , VIC			x
RAAF Base East Sale (Dutton Range), VIC	x		

Defending Australia and its National Interests

Further information about the Project is available at <http://www.defence.gov.au/id/J0090>, alternatively please feel free to contact myself if you would like further information on the works relevant to your electorate.

Yours sincerely,

Darren Charman

Australian Government
Department of Defence

Upgrade Works at Bindoon Training Area

The Department of Defence would like to inform the local community about proposed upgrade works at Bindoon Training Area.

The works are part of the Chemical, Biological, Radiological and Nuclear Defence Capability Facilities Project and involve the construction of new training and storage facilities for defence personnel across Australia.

The proposed works at Bindoon Training Area include a refurbishment of the existing Mask Testing Facility (MTF) to support individual and collective training.

The Project has been referred to the Parliamentary Standing Committee for Public Works (PWC) and is currently accepting public submissions at: <https://www.aph.gov.au/pwc>

For more information please visit the project website at www.defence.gov.au/idx/10090 or email 10090@rpa.gov.au

NT News, 26 May 2018

Australian Government
Department of Defence

Upgrade Works at Robertson Barracks

The Department of Defence would like to inform the local community about proposed upgrade works at Robertson Barracks.

The works are part of the Chemical, Biological, Radiological and Nuclear Defence Capability Facilities Project and involve the construction of new training and storage facilities for defence personnel across Australia.

The proposed works at Robertson Barracks include the construction of a new Mask Testing Facility (MTF) and Integrated Logistics Plan (ILP) storage solution to support individual and collective training. The MTF will include:

- An enclosed building for individual and collective training
- A four-vehicle car park near the facility
- An access road to connect the facility to the nearest road
- An undercover training shelter (waiting area) suitable for use by 30 personnel
- A six-vehicle car park at the waiting area

The Project has been referred to the Parliamentary Standing Committee for Public Works (PWC) and is currently accepting public submissions at: <https://www.aph.gov.au/pwc>

Community Walk-in Session

Upgrade Works at RAAF Base Edinburgh

The Department of Defence is holding a Community Walk-in Session to provide local residents and business owners with an opportunity to discuss upgrade works at RAAF Base Edinburgh.

The works are part of the Chemical, Biological, Radiological and Nuclear Defence Capability Facilities Project and involve the construction of new training and storage facilities for defence personnel.

The session will provide the community with an opportunity to find out information about the planned works and to ask questions one-on-one with Defence representatives.

Details for the event are as follows:

Thursday 7 June
John Harvey Gallery
12 James Street, Salisbury
Drop in any time between 2pm-6pm

The Project has been referred to the Parliament of South Australia for Public Works (PWC) and is currently accepting public submissions at: <https://www.defence.gov.au/pwc>

For more information please visit the project website at: www.defence.gov.au/cbrn or email: communityengagement@defence.gov.au

Land 2110 Phase 1B Australian Defence Force Chemical, Biological, Radiological And Nuclear Defence Capability Facilities Project

Welcome to the public website for the LAND 2110 Phase 1B Australian Defence Force (ADF) Chemical, Biological, Radiological and Nuclear Defence (CBRND) Capability Facilities project.

The aim of the project is to provide new and upgraded facilities at 14 sites nationwide to support the training of personnel against exposure to Toxic Industrial Materials and Chemical, Biological, Radiological and Nuclear weapons.

The information contained within this web page is intended to complement the information provided to the Parliamentary Standing Committee on Public Works. For more information on the committee, please refer to: https://www.apb.gov.au/Parliamentary_Business/Committees/Joint/Public_Works/Role_of_the_Committee.

The proposed works are categorised into three main elements:

- **New Mask Testing Facilities (MTFs)** - construction of new facilities within Defence land to undertake individual and collective CBRND training. The MTFs include an enclosed building, undercover outdoor shelter,

LETTERBOX DROP DISTRIBUTION

The local community surrounding the Gallipoli Barracks in Queensland were identified as highly engaged and interested about all proposed works at the base. To ensure the community was made fully aware of the project, the ADF conducted a letterbox drop of the local area to distribute flyers notifying the community about the proposed works at the barracks and to advertise the local information session.

Around 3000 flyers were distributed to homes and businesses during the week of 28 May 2018.

The distribution area of the flyer is shown in the map below. The area was chosen to ensure those most likely to be interested or affected by the project would receive the information directly. The distributors were tracked by GPS to ensure delivery to the identified area.

Letterbox Distribution Area, Enoggera, QLD

Australian Government
Department of Defence

Upgrade works at Gallipoli Barracks

The Department of Defence is planning an upgrade of its facilities at multiple sites across Australia, including Gallipoli Barracks.

The proposed upgrades include a range of infrastructure works to provide new and upgraded facilities at 14 sites nationwide to support the training of personnel against exposure to Toxic Industrial Materials and Chemical, Biological, Radiological and Nuclear (CBRN) weapons and storage of associated training equipment.

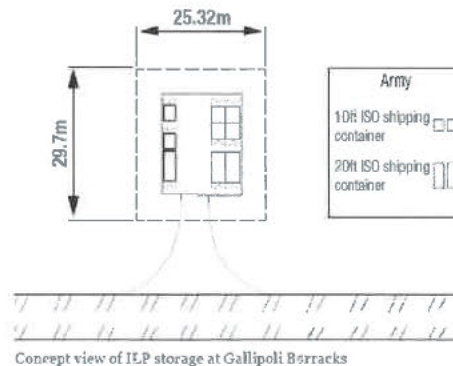

At Gallipoli Barracks, the works include the construction of a new Integrated Logistics Plan (ILP) storage solution facility consisting of a hardstand area, lighting and fencing.

The ILP storage facility will enable the safe and secure storage of safety gear associated with CBRN equipment for Defence personnel. All works are contained within Defence land.

The Project has been referred to the Parliamentary Standing Committee for Public Works (PWC) and is currently accepting public submissions at:

<https://www.aph.gov.au/pwc>

The Department of Defence is hosting a community information session in your area to provide an update on the proposed works. Defence personnel will be in attendance to answer your questions.

Details of the community information session are:

MONDAY 4 JUNE 2018

Ashgrove Golf Club ~

863 Waterworks Road, The Gap

You are welcome to drop in anytime between
2:00pm and 6:00pm

If you are unable to attend or would like more information, please visit <http://www.defence.gov.au/id/J0090>.
Alternatively, you can email the Project Team at J0090@rpsgroup.com.au

COMMUNITY INFORMATION SESSION ATTENDANCE

A total of 16 community and industry members attended the four Community Information Sessions that were held at the Ashgrove Golf Club (Ashgrove, QLD), Metro International Hotel (Ipswich, QLD), John Harvey Gallery (Salisbury, SA) and the Wellington Centre (Sale, VIC) on the following dates respectively:

- a. Monday 4 June 2018 between 2:00pm and 6:00pm (10 attendees)
- b. Tuesday 5 June 2018 between 2:00pm and 6:00pm (1 attendees)
- c. Thursday 7 June 2018 between 2:00pm and 6:00pm (2 attendees)
- d. Friday 8 June 2018 between 1:30pm and 5:30pm (3 attendees).

These attendees were from various postcodes surrounding the proposed works sites as demonstrated below, noting that five attendees did not complete the registration form:

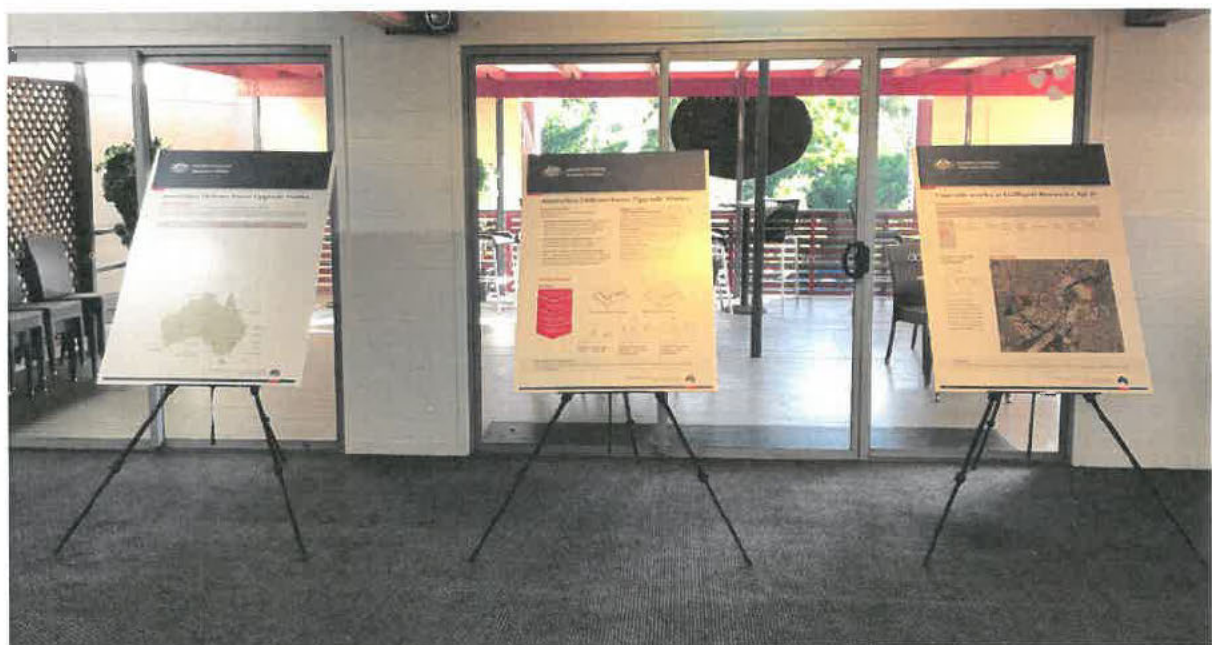

POSTCODE	SUBURBS	ATTENDEES
4060	Ashgrove, Ashgrove West, Dorrington, St Johns Wood (QLD)	4
4051	Alderley, Enoggera, Gaythorne, Grange, Newmarket, The Grange, Wilston (QLD)	3
5109	Brahma Lodge, Salisbury East, Salisbury Heights, Salisbury Heights, Salisbury Park, Salisbury Plain (SA)	2
3850	Giffard, Guthridge, Sale Wurruk (VIC)	1
3127	Mont Albert, Surrey Hills (VIC)	1
Total		11

Further details about the four sessions are as follows:

DISPLAY AND PRINTED MATERIALS

Defence used a combination of large display boards and fact sheets to inform the community about proposed works as part of the CBRND Project at the Community Information Sessions.

Three display boards were used at each of the community information sessions, consisting of two which provided a project overview and one with specific details about works proposed for the nearby base.

Examples of these display and printed items are shown on the following pages:

Australian Government
Department of Defence

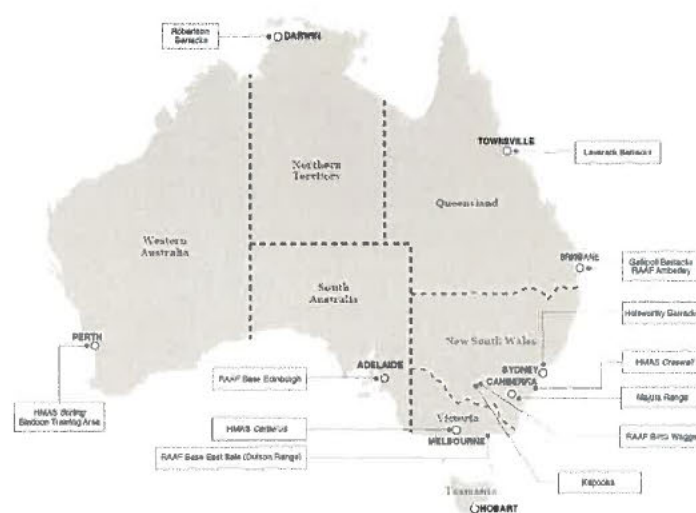

Australian Defence Force Upgrade Works

Scope of works:

The proposed works are categorised into three main elements:

- **New Mask Testing Facilities (MTFs)** – construction of new facilities within Defence land to undertake individual and collective CBRND training. The MTFs include an enclosed building, undercover outdoor shelter, car parking and service connections.
- **Refurbished Mask Testing Facilities** – update and refurbish existing facilities to undertake individual and collective CBRND training.
- **Integrated Logistics Plan Storage Solutions (ILP)** – construction of a new hardstand area, lighting and fencing within Defence land. The facility will enable the safe and secure storage of safety gear associated with CBRND equipment for Defence personnel.

Project benefits

Training and Operations:

Supports future defence personnel's capability to ensure preparedness through detection, identification and monitoring, warning and reporting, physical protection, hazard management and medical support.

Eco-sensitive:

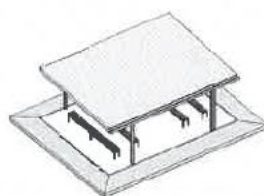

The new Mask Testing Facilities will comply with the Ecologically Sustainable Development targets to reduce the impact on the environment.

Construction jobs:

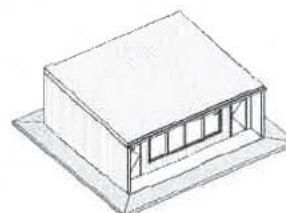

The proposed works will generate short-term employment opportunities predominantly in the building, construction and labour markets including opportunities for local businesses.

Construction of an undercover training shelter (waiting area) suitable for use by 30 personnel.

Mask Testing Facility (MTF)
Construction of a new facility within Defence land to undertake individual and collective CBRND training. The MTF includes an enclosed building, undercover outdoor shelter, car parking and service connections.

Site Location:

Timelines:

Subject to Parliamentary approval, construction is expected to commence in early 2019, with the project completed by late 2019.

Department of Defence – Upgrade Works

Overview:

The Department of Defence is planning an upgrade of its facilities at 14 sites across Australia.

The proposed upgrades include a range of infrastructure works to provide new and upgraded facilities to support the training of personnel against exposure to Toxic Industrial Materials and Chemical, Biological, Radiological and Nuclear Defence (CBRND) weapons.

The works will be delivered under the J0090 LAND 2110 Phase 1B ADF CBRND Capability Facilities project. The proposed works will enable defence personnel updated training facilities to ensure preparedness and improved CBRND capabilities through detection, identification and monitoring, warning and reporting, physical protection, hazard management and medical support.

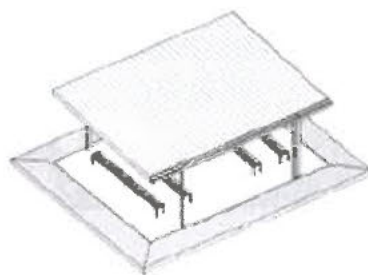

The proposed works will generate short-term employment opportunities predominantly in the building, construction and labour markets including opportunities for local businesses.

Scope of works:

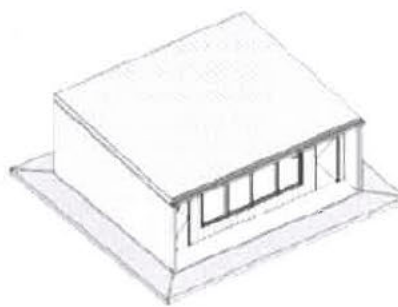

The proposed works are categorised into three main elements:

1. New Mask Testing Facilities (MTFs) – construction of new facilities within Defence land to undertake individual and collective CBRND training. The MTFs include an enclosed building, undercover outdoor shelter, car parking and service connections.
2. Refurbished Mask Testing Facilities – update and refurbish existing facilities to undertake individual and collective CBRND training.
3. Integrated Logistics Plan (ILP) Storage Solutions – construction of a new hardstand area, lighting and fencing within Defence land. The facility will enable the safe and secure storage of safety gear associated with CBRND equipment for Defence personnel.

Project Locations:

The proposed works have a national footprint with the project elements delivered at multiple sites as follows:

Location	New Mask Testing Facility	Refrurbished Mask Testing Facility	Integrated Logistics Plan Storage
HMAS Stirling, WA		✓	✓
Bindoon Training Area, WA		✓	
Robertson Barracks, NT	✓		✓
RAAF Base Edinburgh, SA	✓		✓
Lavarack Barracks, QLD	✓		✓
Gallipoli Barracks, QLD			✓
RAAF Base Amberley, QLD	✓		✓
Holsworthy Barracks, NSW			✓
Kapooka, NSW	✓		✓
RAAF Base Wagga, NSW			✓
HMAS Creswell, ACT		✓	✓
Majura Range, ACT	✓		
HMAS Cerberus, VIC			✓
RAAF Base East Sale (Dutson Range), VIC	✓		

Parliamentary Standing Committee for Public Works:

The J0090 LAND 2110 Phase 1B ADF CBRND Capability Facilities Project has been referred to the Parliamentary Standing Committee for Public Works and is currently accepting public submissions at: <https://www.sph.gov.au/pwc>

Timelines:

Subject to Parliamentary approval, construction is expected to commence in early 2019, with the project completed by late 2019.

A dedicated email inbox relating to the project was established. A total of 14 emails were received during the consultation process with the majority of e-mails seeking additional information about potential hazardous contents and location of the ILP storage solution within Gallipoli Barracks. Further details about the email correspondence are as follows:

EMAIL CORRESPONDENCE SUMMARY

DATE OF ENQUIRY	ENQUIRER (LOCAL RESIDENT, INDUSTRY, LOCAL BUSINESS)	SUMMARY OF ENQUIRY	RESPONSE DATE	SUMMARY OF RESPONSE	FURTHER ACTIONS REQUIRED (Y/N)
23 May 2018	Industry	Interest in attending one of the community information sessions.	25 May 2018	Notified that there is no pre-registration process for the community information sessions. Referred to the project website for information about each session.	N
29 May 2018	Local resident – Gallipoli Barracks	Where the facility will be built inside the barracks and whether chemical, biological radiological or nuclear materials would be stored, tested or used at the facility.	1 June 2018	Notified that the facility is for the safe and secure storage of safety gear for Defence personnel and that it would be centrally located within the barracks, away from residential areas. Provided with the dimensions of the facility, no road closures anticipated and that environmental impacts are expected to be minimal.	N
29 May 2018	Local resident – Gallipoli Barracks	Where the facility will be built inside the barracks and whether any dangerous chemicals would be stored there.	1 June 2018	Notified that the facility is for the safe and secure storage of safety gear for Defence personnel and that it would be centrally located within the barracks, away from residential areas. Provided with the dimensions of the facility, no road closures anticipated and that environmental impacts are expected to be minimal.	N
