Subject: HPRM: RE: ITC Proof Transcript 19 February 2019 Public Hearing Canberra
Date: Tuesday, 26 February 2019 3:55:43 PM

Hi Kelly

Further to my email below, below is a marked up correction of the Hansard transcript. Apologies for not attaching it.

I also took one question on notice – the market share of rail following inland rail. My answer is:

“According to the Inland Rail Business case, the market share of rail of Melbourne to Brisbane inter-capital freight is expected to be approximately 62% (2049-2050). The current rail market share is approximately 26%.”

Please note, my colleague Emma Woods may also respond in relation to her evidence to the committee.

Regards

Duncan

Kind regards,
Duncan
