

Submission to the Select Committee on the effectiveness of the Australian Government's northern Australia agenda

31 July 2020

The Department of Industry, Science, Energy and Resources (DISER) thanks the Select Committee for the opportunity to provide an update to our original submission (September 2019), outlining the progress occurring under the Australian Government's northern Australia economic development agenda and the impact of COVID-19 on the north.

The impact of COVID-19 in northern Australia

COVID-19 has impacted lives and livelihoods across the nation. Northern Australia has not been immune to the economic effects of COVID-19, with the depth of impact varying across sectors and localities.

Travel and hospitality restrictions were wisely imposed to protect community health. However, the absence of tourists and travelling workers and the disruption to supply chains has resulted in extremely challenging business conditions. COVID-19 exacerbated the underlying structural issues in northern Australia's economy – a narrow industry base, export dependency, transient workforce, long and inefficient supply chains, and strongly seasonal cycles.

Refer to ~~Attachment A~~ for a summary of sectoral impacts in northern Australia.

Relief and recovery measures

The Australian Government has delivered economy-wide and targeted economic assistance in response to the unprecedented disruption caused by COVID-19. DISER has worked with responsible agencies to understand and influence their application in northern Australia. A full list of national initiatives delivering support to northern Australia is at Attachment B.

Commonwealth assistance measures are focused on immediate recovery, rebuilding business confidence and re-starting the economic momentum vital to the long term development of northern Australia.

Some of the nation-wide programs delivering relief to northern Australia include the extension of the JobKeeper program which provides support for impacted business and individuals, while JobSeeker has been boosted by a COVID-19 supplement and expanded eligibility until the end of September 2020. The \$40 billion Coronavirus SME Guarantee Scheme is offering small and medium businesses guaranteed loans and an initial six month repayment holiday, and has recently been extended. The Boosting Cash Flow for Employers program is providing temporary cash flow support to small and medium businesses and not-for-profit organisations.

The \$1 billion Recovery and Relief Fund is managed by the Department of Infrastructure, Transport, Regional Development and Communications and supports a significant number of initiatives targeting sectors including tourism, agriculture, the arts and recreation. A sizeable proportion of the funding allocated to date will be directed to businesses and organisations in the north.

In summary:

- Regional Airlines Funding Assistance – Financial assistance of up to \$100 million for smaller regional domestic air service providers to manage cash flow issues. As at May 2020, funding of up to \$5.9 million has been provided for essential flight services for Cape York and the Torres Strait Islands, Darwin and Jabiru to West Arnhem Land, and Port Hedland through to the Pilbara region.
- Regional Airline Network Program Support – Underwriting of regular public transport air services to regional locations including 26 weekly routes to/from and within northern Australia.
- The International Freight Assistance Mechanism (IFAM) – Established as a temporary mechanism to restore critical global supply chains. IFAM supported the export of high value agricultural products from across Australia, with two northern flights: a Darwin-Brisbane air bridge three times a week, and a Brisbane-Hong Kong flight via Cairns twice a week.
- Crisis Relief for Regional Arts – \$10 million total, with \$3.71 million spent in the Northern Territory (NT), Queensland (Qld) and Western Australia (WA). Note that figures are state/territory-wide).
- Support for Tourism and the arts – including support for zoos and aquariums; upgrade of the Reef HQ Aquarium in Townsville; fee waivers for Commonwealth national parks (including up to \$10.1 million in the NT); fee waiver of environmental charges for the Great Barrier Reef Marine Park; construction of the Wangetti Trail in north Queensland (through the Tourism Icons Package), and crisis relief for regional arts including support for Indigenous visual arts centres.

The \$165 million domestic aviation network guarantees is supporting weekly return services to/from regional centres including 60 weekly services to/from regional centres in northern Australia. The \$715 million Australian Airline Financial Relief Package eases the costs and charges of operating domestic commercial air services in northern Australia including waiver of fuel excise and Airservices Australia charges, a rebate on domestic aviation security charges and support for enhanced regional security screening.

The \$80 million national Infection Control Training Fund will deliver accelerated uptake of infection control training to support customer-facing businesses to reopen, and is being delivered in partnership with the states and territories. \$12.5 million in funding will be going to the northern jurisdictions.

The northern agenda

Developing the north is encountering a more challenging economic baseline from which to continue the economic development agenda. Northern Australia is both heavily impacted by the economic impact of COVID-19 and also has a key role to play in supporting Australia's economic recovery. Industry recovery and growth both need to be fostered.

Pre-COVID-19, the Australian Government in partnership with northern jurisdictions through the former Ministerial Forum on Northern Development was formulating a new five year plan for the next phase of development.

Despite the stalled momentum caused by COVID-19, the potential of the region remains strong. The Australian Government is committed to support the north in reaching its economic potential through a sustained, long term economic development effort.

White Paper on Developing Northern Australia

To date, the Australian Government, together with the Northern Territory, Queensland and Western Australia governments, have delivered 45 of the 51 White Paper commitments. A summary table of the status of the 51 measures is at [Attachment C](#).

Northern Australia Infrastructure Facility (NAIF)

The NAIF is a Corporate Commonwealth entity, established under the *Northern Australia Infrastructure Facility Act 2016*. The NAIF has a special appropriation of \$5 billion to finance the construction of infrastructure that provides a basis for economic growth in northern Australia and stimulates population growth in northern Australia.

A Statutory Review of the NAIF has been underway since July 2019, considering how the NAIF can best support the economic development of the north. Since the outbreak of COVID-19, the Review has expanded to consider how the NAIF can contribute to the recovery of northern Australia from the economic impacts of the pandemic. The Review is ongoing and will be finalised in coming months.

On 17 July 2020, the Minister for Resources, Water and Northern Australia announced the Government would extend the NAIF for a further five years from 20 June 2021 to 30 June 2026. The extension was announced early to provide certainty to investors and proponents in northern Australia, especially in light of the COVID-19 pandemic.

As at 31 July 2020, the NAIF has approved loans in each northern jurisdiction to the rounded values of:

- \$914 million for Queensland across eight projects equating to 43 per cent of total approved loans.
- \$795 million for the Northern Territory across six projects (including the one current conditional approval) equating to 37 per cent of the total.
- \$438 million for Western Australia across six projects equating to 20 per cent of the total (this figure excludes Pilbara Minerals).

That investment is now over \$2 billion (\$2.148 billion), supporting projects with an estimated total capital value of some \$4.1 billion (\$4.17 billion).

These investment decisions are forecast to generate around \$6.2 billion in benefit for northern Australia. This includes a forecast of supporting over 6,500 jobs during construction and operations.

As at 31 July 2020, the department has made total payments of \$169.2 million (including capitalised interest). These payments are comprised of:

- Onslow Marine Support Base Project (\$16.8 million).
- Voyages Indigenous Tourism Australia Project (\$24.5 million).
- Humpty Doo Barramundi Project (\$7.2 million).
- Alinta Energy Project (\$67 million).
- Kalium Lakes (\$19.7 million).
- NT Airport Expansion project (\$32.3 million).
- Townsville Airport Expansion project (\$1.7 million).

It is important to note that drawdown of funds is made at the discretion of the borrower. As funds are for construction, they are not drawn down in one tranche, but rather as required by the project's design and construction timetable.

Information on NAIF Investment Decisions as at 31 July 2020 is at [Attachment D](#).

Road infrastructure

To help stimulate economic activity and road building jobs in the north, construction has been bought forward for important early works under the northern package of the Roads of Strategic Importance (ROSI) program. Construction will begin on identified projects within the next 12 months.

All 38 projects under the Northern Australia and Beef Roads Programs, announced as part of the White Paper on Developing Northern Australia are approved, with 23 of these projects completed, 12 underway and the remaining three to commence throughout 2020.

A list of all northern roads projects is at [Attachment E](#).

Remote Airstrip Upgrade

The Remote Airstrip Upgrade Program is part of the Australian Government's Regional Aviation Access Programme and provides funding for upgrades to remote airstrips in isolated outback communities.

On 13 June 2020, the Deputy Prime Minister announced \$9 million in funding for 45 access and safety upgrade projects across Australia, under Round 7 of the program. Twenty-nine of the 45 projects were based in northern Australia totalling \$6.9 million.

Water infrastructure

Water resources is a major driver of economic activity, particularly for key northern industries such as agriculture, aquaculture, mining, energy and tourism. A series of business cases remain underway and are on track for completion, all with varying timeframes and complexity.

A list of northern Australia water projects is at [Attachment F](#).

Indigenous economic development

The Northern Australia Indigenous Development Accord, an intergovernmental agreement focused on progressing Indigenous economic development in northern Australia, was launched at the Ministerial Forum on Northern Development in December 2019.

The Accord sets out the commitment of governments to strengthen Indigenous economic participation and the mechanisms for jurisdictions and the Commonwealth, led by the National Indigenous Australians Agency (NIAA), to continue to work together to progress the Indigenous Reference Group's recommendations.

The Accord is available online via the NIAA website (<https://www.niaa.gov.au/resource-centre/indigenous-affairs/northern-australia-indigenous-development-accord>).

One of the joint activities in the Accord is expanding fee-for-service opportunities for Indigenous ranger groups across the north.

Tourism sector

A Northern Australia Tourism Roundtable will be held on 4 August 2020, co-chaired by Neville Power Chairman, National COVID-19 Commission Advisory Board and Senator the Hon Simon Birmingham, Minister for Trade, Tourism and Investment, and attended by the Minister for Resources, Water and Northern Australia the Hon Keith Pitt MP and the Assistant Minister for Northern Australia the Hon Michelle Landry MP. The Forum will hear from business, industry and government on the current status of the industry and mid-term forecasts, commercial realities and potential ways to support recovery through industry-led initiatives and government support.

Resources sector

Northern Australia has abundant untapped resources in gas and critical minerals that can be a driver for growth over the longer term. The resources sector is one of the north's most productive sectors, employing almost 50,000 people in northern Australia. The sector has weathered the impacts of COVID-19 so far – iron ore exports, for example, have reported continuing growth even through the COVID-19 disruption – and it will play an important role in the national economic recovery.

In January 2020, the Critical Minerals Facilitation Office (CMFO) was established in DISER to support and coordinate the development of Australia's critical minerals sector, and support projects moving further along value chains toward midstream and downstream mineral processing.

Since its creation the CMFO has established close working relationships with critical minerals projects across Australia, including in northern Australia. As part of its role, the CMFO is working with Austrade and project proponents to help secure sources of robust offtake agreements and project investment, including financial support from Australian Government financing vehicles such as Export Finance Australia, the Clean Energy Finance Corporation and the NAIF.

The Australian Government's immediate priority is to ensure Australia's resources sector delivers a fast recovery from the economic impacts of the COVID-19 pandemic. One of Government's top priorities is developing our natural gas resources while driving down energy costs for businesses and households. The government is focused on developing gas resources in strategic locations best suited to supply existing and future demand centres. The aim is to accelerate development of Australia's gas reserves, increase domestic supply, avoid forecast shortfalls, and put downward pressure on gas prices.

Geoscience Australia commenced the first phase of the Exploring for the Future program in 2016, to better understand the mineral, energy, and groundwater resources of northern Australia to encourage exploration investment and inform resource management decisions. The program has been highly successful, implementing innovative methods and integrating multi-disciplinary data collected over 3 million square kilometres. As of 2020, the program has been extended for four years and will expand its reach nationally.

Agriculture sector

The National Drought and North Queensland Flood Response and Recovery Agency is providing support to farmers, businesses and communities affected by floods and drought, with more than \$3.3 billion committed to assist people as they continue to rebuild and recover. Eighteen Regional Recovery Officers are now based across the country working directly with rural and regional communities, including five officers covering northern Australia.

The Australian Government has committed funding to provide eligible small businesses in regional communities with access to free and confidential financial counselling. This includes \$7 million for small regional businesses in drought-affected areas and \$4.8 million for small regional businesses affected by COVID-19. Financial counselling services for rural and small businesses are available throughout northern Australia including in the NT Territory-wide via Darwin; in north Qld via Aitkenvale, Atherton, Innisfail, Isaac, Longreach, Mackay, Richmond and Townsville; and WA-wide via other regions.

The Northern Australia Biosecurity Framework Reference Group developed the Northern Australia Biosecurity Strategy in late 2019. A consultation draft of the strategy was released in April 2020. This work aligns with the Developing Northern Australia and the Agricultural Competitiveness White Papers, which focussed on increasing economic opportunities and supporting a stronger agriculture sector.

Workforce

The Australian Government has announced intentions to reform the higher education sector, including a \$400 million package to increase opportunities for regional and remote students and support for regional university campuses. The three regional universities in the north (James Cook University, Central Queensland University and Charles Darwin University) will benefit from the \$48.8 million allocated to fund research collaboration between the regional universities, industry and other higher education partners and 3.5 per cent in additional Commonwealth Grant Scheme funding. The package also commits to establishing up to eight additional Regional University Centres, which support regional and remote students to receive tertiary education, delivered locally by distance from any Australian institution. Of the 25 centres currently operating, three are located in northern Australia.

In response to the economic impacts of COVID-19, the JobTrainer fund has been established in partnership with the states and territories, with the Australian Government providing \$500 million to deliver around 340,700 additional training places nationally. The fund is complemented by a \$1.5 billion extension to the Supporting Apprentices and Trainees program, which provides a wage subsidy to employers of apprentices and trainees. This program is supporting around 70,000 businesses Australia wide to keep approximately 117,000 apprentices and trainees in work.

Research and innovation

Since the establishment of the Cooperative Research Centre for Northern Australia (CRCNA) company and board in 2017, the CRCNA has invested \$11 million towards 39 research projects. The total value of projects exceeds \$34 million which includes participant co-contributions and CRCNA contributions. Research projects cover a range of areas from infrastructure, agriculture and aquaculture and health. The CRCNA has contracted nine projects since September 2019 and has a further 11 projects in its pipeline. In addition to these, its next competitive funding call (due to open August 2020) will prioritise funding towards identified research projects from its completed sector situational analysis and other completed projects. A detailed list is at [Attachment G](#).

Trade and Investment

The Major Projects Facilitation Agency acts as a 'single point of entry' to help project proponents deal with regulatory requirements, and currently works with 23 active projects in northern Australia. Nine of these projects have been formally recognised with Major Project Status. These projects represent an estimated investment of approximately \$66.3 billion (as at 31 July 2020), detail of these nine projects is at [Attachment H](#).

Governance

The governance framework established after the 2015 White Paper on Developing Northern Australia is now under review following the Prime Minister's announcement on 29 May 2020 on changes to the federal-state relations architecture.

All Ministerial Forums, including the Ministerial Forum on Northern Development, are being considered through the Conran Review of the Council of Australian Governments and Ministerial Forums. The review will provide recommendations back to National Cabinet by September 2020. The review will undertake consultation with Commonwealth and state and territory ministers and officials on a streamlined structure, scope, reporting arrangements, and with a focus on regulatory and policy work programs.

While the Review is underway the Minister for Resources, Water and Northern Australia continues to meet with northern counterparts through multi-lateral and bilateral meetings and the Office of

Northern Australia continues to meet with senior officials from the Australian and northern state and territory governments.

Attachment A

Summary of COVID-19 economic impacts in northern Australia

The economic impacts of COVID-19 are highly localised across northern Australia and reflect the underlying economic base of each region.

The analysis presented below relates to observable economic impacts since health response measures to COVID-19 were enacted in March 2020. These impacts are ongoing and will continue to evolve over time depending on factors such as localised outbreaks and containment measures, the return of international travellers, and global economic conditions.

The tourism sector was hit the first and the hardest

Tourism is a critical driver of northern Australia's economy and has been the hardest hit by COVID-19 travel restrictions. The Great Barrier Reef, for example, is a major economic driver for all coastal communities along the reef. It contributes \$5.7 billion to the Australian economy and supports 59,000 full time jobs.¹

International tourists are higher-value visitors to northern Australia. Nationally, international and domestic visitors typically spend more in capital cities than in regional areas. However, this trend is reversed for international visitors, in regional Queensland² who spend 2.6 per cent more and in the Northern Territory spend 7.0 per cent more, outside of capital cities.³

Northern Australia has a limited tourism 'season' and it follows that up to 90 per cent of annual income is earned during the 'dry' season (April to October). International border closures and interstate travel restrictions means that many businesses will face highly restricted visitor numbers until at least April 2021. This 12-month period of very limited turnover will seriously impact cash flow and the ability of tourism-dependent businesses to survive and reopen.

Northern Australia's tourism industry is highly dependent on air travel with around 90 per cent of tourists arriving by air to locations such as Cairns, Broome and Darwin.⁴ Re-establishing air transport links and passenger numbers will be critical to sustain short term domestic visitors until high value international visitors can return.

The extent of the tourism downturn in certain parts of the north is illustrated in the JobKeeper numbers, which show around 3,600 organisations in the Cairns postcode area applied for JobKeeper during April, the fifth highest JobKeeper numbers across all Australian postcodes.⁵ Nationally, at the Australian Bureau of Statistics' (ABS) Statistical Area 4 (SA4) level, the biggest decline in payroll jobs was 8.1 per cent between 14 March and 18 April, yet Cairns experienced a 10.6 per cent decline.

It is expected that small businesses will struggle to sustain operations through a protracted period of economic uncertainty. For example, a recent national ABS survey found that 30 per cent of small

⁴ Internal advice provided by Tourism Australia.

⁵ <https://treasury.gov.au/coronavirus/jobkeeper/data> (accessed 2 July 2020). The organisation application count at the postcode level is based on the most up to date primary organisation address detail that the ATO holds on its records, as supplied by the organisation. This address does not always represent the actual organisation location and/or trading location of the organisation. The organisation may also have multiple trading locations and this is not captured in this data set. The organisation location is also not representative of where employees are based.

businesses (i.e. 0-19 employees) reported that currently available cash on hand would support business operations for less than 3 months.⁶ In the tourism sector nationally, around 95 per cent of tourism businesses employ fewer than 20 people.⁷

The agricultural sector experienced some turbulence but shows signs of resilience

The agricultural sector has experienced disruptions to its supply chains by way of limited flights and an exorbitant increase in freight costs, which for northern producers is further exacerbated by export hubs mainly being located in the south. Disruptions to the agricultural sector are reflected in recent ABS data which shows that in May 2020 rural goods exports fell by 10 per cent in seasonally adjusted terms – in the preceding ten years there have only been 11 months that recorded a fall in these exports greater than 8 per cent.

In northern Australia local producers have experienced a steep drop in income due to slackening demand from local restaurants and cafes. The Northern Territory Farmers Association reported that local growers lost 40 per cent of the market for locally-grown produce as demand dropped from hotels, restaurants and cafes.

International and interstate border closures are limiting labour mobility and availability with agricultural producers heavily reliant on seasonal workers such as working holiday makers and the Pacific Labour Scheme. While there remains a pool of seasonal workers who have stayed in Australia throughout lockdown, the ban on international travel is preventing workforce replenishment, and the accessibility of the available labour pool is hampered by the domestic travel restrictions. The mango industry, worth an estimated \$300 million annually to the north, is reporting significant concern that insufficient labour will risk full harvest of this year's crop.⁸

The resources sector remains resilient but faces longer term risks

The resources sector is one of the north's most productive sectors, employing around 49,700 people in northern Australia,⁹ and has been the least severely impacted in the short term. This cushioning is due to some commodity prices such as iron ore remaining strong. However the sector faces longer term challenges as exploration and development is delayed or halted due to border restrictions and the impact of lower oil prices – both of which risk long term investment opportunities. The Association of Mining and Exploration Companies reports 74 per cent of exploration companies nationally have ceased all or most exploration operations, and a similar number do not think their cash reserves will last the year.¹⁰ These impacts are reflected in recent ABS payroll data showing that in the Northern Territory, for example, there was a 15.7 per cent decline in mining payroll jobs since week ending 14 March.¹¹

Pre-existing higher than average unemployment and youth unemployment rates

Prior to COVID-19, northern Australia had an underlying unemployment challenge, with the unemployment rate above 6 per cent since 2014.¹² To understand the impacts of COVID-19 on the unemployment rate in northern Australia, the Department of Industry, Science, Energy and Resources (DISER) undertook internal modelling to estimate the unemployment rate by SA4 regions.¹³ There continue to be challenges with accessing robust data at the regional level to model these impacts and sensibly compare them to national headline figures produced by the ABS. This data challenge is further complicated by the ABS suspending trend estimates which is in itself an indication of how significant the COVID-19-induced shock to the economy has been and how difficult the impacts are to measure.

At a high level, our internal modelling indicates significantly higher than average unemployment rates persist in regions such as Outback Queensland and Townsville. The modelling also indicates that for all SA4 regions in northern Australia – with the exception of Darwin and Mackay/Isaac/Whitsunday – the unemployment rate is higher than the national average for May 2020.

The modelling also indicates that northern Australia's youth unemployment rate is higher than the national average in all SA4 regions except for Cairns, Mackay/Isaac/Whitsunday, and Darwin.

The overall unemployment situation in the north is also higher than the national average, reflected in JobSeeker numbers which show a high number of recipients in tourism centres such as Cairns, Broome and Airlie-Whitsundays.¹⁴ Similarly, the top two postcodes in northern Australia with the highest number of JobKeeper applications were Cairns and Mackay/Isaac/Whitsunday.¹⁵

Infrastructure challenges in northern Australia may hinder the recovery

The travel restrictions have disrupted and reshaped traditional business models across the country and the globe, resulting in an increasing reliance on the remote delivery of products and services. The size of northern Australia and remote geography of much of its population centres presents a challenge to the adoption of remote delivery. While the government continues to invest in improving digital connectivity across the north, it lags the rest of the country, making it difficult for northern residents to take up or adopt digital opportunities in the same way as other Australian regions. The combination of the north's size and climate also presents challenges to transport infrastructure, with many communities reliant on air routes, particularly for the delivery of urgent goods and services including healthcare. The government has made significant investments to support the continued functioning of regional air transport routes, but reliance on these supports presents an additional challenge for the north's recovery.

¹² Office of the Chief Economist, Department of Industry, Science, Energy and Resources, Economic analysis of northern Australia

¹³ Statistical level 4 regions in northern Australia include: Cairns, Central Queensland, Mackay/Isaac/Whitsunday, Queensland Outback, Townsville, Western Australia outback (north and south), Darwin, Northern Territory Outback,

					<p><i>North Western Australia</i></p> <ul style="list-style-type: none"> • Broome – 1,542 (11%) • Derby-West Kimberley – 1,358 (17%) • Kununurra – 871 (12%) <p><i>Northern Territory</i></p> <ul style="list-style-type: none"> • East Arnhem – 1,634 (19%) • West Arnhem – 1,352 (25%) • Charles – 1,344 (31%)
JobTrainer Package (JobTrainer Fund and extension of the Supporting Apprentices and Trainees program)	\$2 billion skills package. \$1 billion <u>JobTrainer Skills Fund</u> (in partnership with the states and territories) will provide up to an additional 340,700 training places to help school leavers and job seekers access short and long courses to develop new skills in growth sectors and create a pathway to more qualifications.	Apprentices	Wage incentive extended until March 2021.	JobTrainer Fund: \$500 million from Australian Government, to be matched by jurisdictions Supporting Apprentices and Trainees: extra \$1.5 billion	Announced 16 July 2020. Agreements with the states and territories not yet finalised. National Skills Commission to identify current and future skills needed.
	<u>Supporting Apprentices and Trainees</u> – wage subsidy (50% of apprenticeship or trainee wage). Extra \$1.5 billion to expand the wage incentive to keep apprentices in work announced in the JobTrainer package	Businesses – SMEs (~70,000 businesses keep ~ 117,000 apprentices and trainees in work)	2 April to 30 September 2020 (subsidies available for wages paid back to 1 Jan 2020)	\$1.3 billion, plus additional \$1.5 billion announced 16 July 2020	As at 31 December 2019, there were around 85,695 people enrolled in apprentice or traineeship programs in WA, Qld and NT (33 per cent of the national total) ¹⁸ . Extension announced 16 July 2020.
Homebuilder	\$25,000 grant to build a new home or substantially renovate an existing home	Construction	Time-limited. Homeowner must sign contract with builder by 31 December 2020 and	\$688 million	Applicants can apply for HomeBuilder when the relevant State or Territory Government signs the National Partnership Agreement with Commonwealth Government.

¹⁸ Apprentices and trainees 2019: December quarter data slicer, available from <https://www.ncver.edu.au/research-and-statistics/data/all-data/apprentices-and-trainees-2019-december-quarter-data-slicer> accessed 3 August 2020

		Target sector(s)	Timeframe	\$	Impact on Northern Australia
			work commence within 3 months of signing.		All states and territories are now signatories to the HomeBuilder National Partnership.
Payments to support households	Two separate \$750 payments to social security, veteran and other income support recipients and eligible concession card holders.	Individuals. (~50% of those who will benefit are pensioners)	Payment 1: 31 March 2020; Payment 2: 13 July 2020		Approximately 6.6 million social welfare recipients expected to benefit, with around 32 per cent of all social welfare recipients living in WA, Qld or the NT ¹⁹ . Specific data on distribution in northern Australia is not available.
Temporary early release of superannuation	Eligible individuals can access up to \$10,000 of their superannuation in 2019-20 and a further \$10,000 in 2020-21.	Individuals	Available in 2019-20 and 2020-21		2.7 million applications received nationally. Northern Australia specific data not available.
Temporarily reducing superannuation minimum drawdown rates by 50%	The minimum annual payment made to an account-based pensions and annuities, allocated pensions and/or annuities and market-linked pensions and annuities has been reduced by 50 per cent.	Individuals (retirees)	2019-20 and 2020-21		Northern Australia specific data not available.
Reducing social security deeming rates	Reducing the upper deeming rate to 2.25% and the lower deeming rate to 0.25% to reflect the low interest rate environment	Individuals (~900,000 income support recipients, including ~565,000 age pensioners)	As of 1 May 2020		Measure commenced 1 May, reporting not yet available.

White Paper on Developing Northern Australia – Summary of the 51 measures

As at 31 July 2020:

- 6 measures are on track for delivery
- 45 measures are delivered

(Note that page numbers refer to the White Paper)

Status	Measure	Lead department
On track	<u>2.</u> Aspiration to finalise native title claims within a decade (p22)	Attorney-General's
On track	<u>3.</u> More efficient native title processes (p23)	Attorney-General's
On track	<u>23.</u> Reforms to tourism visas (p78) [\$16.6m]	Home Affairs
On track	<u>24.</u> Improve protections and cut red tape around Indigenous cultural heritage (p79)	Agriculture, Water and the Environment
On track	<u>25.</u> Cutting red tape for fisheries (p80)	Agriculture, Water and the Environment
On track	<u>26.</u> Wildlife trade reform (p82)	Agriculture, Water and the Environment
Delivered	<u>1.</u> Pilot land reform projects in the north (p18) [\$6m] Sites for tranche two confirmed and pilots occurring under tranche 1.	National Indigenous Australians Agency
Delivered	<u>4.</u> Capacity building of native title corporations (p24) [\$20.4m] Delivered in July 2018 post-final forum.	National Indigenous Australians Agency
Delivered	<u>5.</u> Consult on options to use exclusive native title rights for commercial purposes (p25) COAG decision, December 2015.	National Indigenous Australians Agency
Delivered	<u>6.</u> Land administration and township leasing (p29, 32) [\$17m] Township leases are in place in a number of communities supporting economic development on Aboriginal land.	National Indigenous Australians Agency
Delivered	<u>7.</u> New models to manage native title funds for development (p26) Consideration of this measure (focussed on the Indigenous Community Development Corporation) has been finalised.	National Indigenous Australians Agency
Delivered	<u>8.</u> More business-friendly information on different land tenure arrangements (p33) [\$2m – note: apportioned from Measure 1] Online guides released 2016.	Austrade
Delivered	<u>9.</u> Pursue a set of principles and actions to improve the security, bankability and efficiency of pastoral land (p37) (incorporated into Measure 1 for reporting purposes) Linked with Measure 1, pastoral projects occurring under pilot land reform measure.	National Indigenous Australians Agency
Delivered	<u>10.</u> National Water Infrastructure Development Fund (NWIDF) – northern component (p44, 49) [\$231.2m (\$200m original commitment)] The NWIDF is supporting ongoing and detailed planning necessary to inform new and augmented water infrastructure investment decisions. The feasibility studies and water resources assessments completed.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>11.</u> Northern Australia Investment Forum and Northern Australia Value Proposition (p62) First Forum held Nov 2015, second Forum held Nov 2017.	Austrade
Delivered	<u>12.</u> Northern Australia Insurance Premiums Taskforce (p75) Taskforce report released March 2016.	Treasury

Status	Measure	Lead department
Delivered	<u>13.</u> Link the north with ASEAN and APEC connectivity agendas (p63) DFAT promoting northern agenda through these agendas.	Foreign Affairs and Trade
Delivered	<u>14.</u> Fostering business to business links with Indonesia, Papua New Guinea and Timor-Leste (p62) [\$2.5m] Activities occurring in Indonesia, Papua New Guinea and Timor-Leste, March 2018.	Foreign Affairs and Trade
Delivered	<u>15.</u> Expanding Entrepreneurs' Programme to include Tourism (p66) [\$13.6m] Tourism initiative launched February 2016.	Industry, Science, Energy and Resources
Delivered	<u>16.</u> Enhancing access to the Entrepreneurs' Programme (p66) Minimum turnover or operating expenditure thresholds lowered to \$750,000 in July 2015.	Industry, Science, Energy and Resources
Delivered	<u>17.</u> CRC for Developing Northern Australia (p67) [\$75m] CRCNA established July 2017.	Industry, Science, Energy and Resources
Delivered	<u>18.</u> Bolstering tropical health research capacity (p69) [\$6.8m] Tropical health research grants announced in 2016.	National Health & Medical Research Council (NHMRC)
Delivered	<u>19.</u> Turning tropical research into commercial opportunities (p71) [\$8.5m (revised to \$7.27 million as two projects expended less than initially committed and one project was withdrawn)] Tropical medicine commercialisation grants announced in 2016.	Austrade
Delivered	<u>20 & 20a.</u> Links between tropical health research institutions and world class research institutions (p71) [\$2.0m] Tropical health short course for Indonesian professionals (p71) [\$3.0m] Tropical health and research short courses delivered 2016, 2017 and 2018.	Foreign Affairs and Trade
Delivered	<u>21.</u> Increased Indigenous Ranger biosecurity activities (p73) [\$12.4m] Increased Indigenous ranger biosecurity activities implemented 2017.	Agriculture, Water and the Environment
Delivered	<u>22.</u> Single point of entry for major projects (p33, 75) [\$2m] Major Projects Facilitation Agency opened the Darwin office, January 2016	Industry, Science, Energy and Resources
Delivered	<u>27.</u> Productivity Commission inquiry into fisheries and aquaculture regulation (p82) Report submitted to government December 2016, Productivity Commission's final report and government response publicly released May 2017.	Agriculture, Water and the Environment
Delivered	<u>28.</u> Northern Australia Infrastructure Facility (NAIF) (p86) [\$5b] Established July 2016.	Industry, Science, Energy and Resources
Delivered	<u>29.</u> Northern Australia Roads Package (p88) [\$600m] All projects approved. These are commencing progressively and will be completed by 2022.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>30.</u> Improving cattle supply chains (p95) [\$100m] All projects are approved. These are commencing progressively and will be completed by 2022.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>31.</u> Northern Australia Freight Rail Feasibility Analysis (p91) [\$4.9m] The Mount Isa to Tennant Creek Strategic Operations Paper and Technical Assessment Program were released on infrastructure.gov.au website in April 2019.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>32.</u> Northern Australia pipeline of projects (p92) [\$3.7m] Northern Australia pipeline of projects published on the National Infrastructure Construction Schedule website April 2018.	Infrastructure, Transport, Regional Development and Communications

Status	Measure	Lead department
Delivered	<u>33.</u> Northern Australia infrastructure audit (p85) Report released January 2015. The 2019 National Infrastructure Audit includes a focus on northern Australia.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>34.</u> Extension to Remote Airstrip Upgrade Programme and additional support for Remote Air Services Subsidy (p99) [\$39.6m] \$10.4m for 25 aerodrome projects committed under Round 4. Round 5 \$5.8m for 21 projects and Round 6 projects announced March 2019, \$5.7m for 17 projects in the north.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>35.</u> Improving aviation & surface transport connections - business stakeholder group (Northern Australia Transport Study) (p100) The Northern Australia Transport Study was published on 24 December 2018.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>36.</u> Support enterprises in the north through the Industry Skills Fund (p108) Co-contribution rates lowered September 2015.	Education, Skills and Employment
Delivered	<u>37.</u> Employment targets for Indigenous Australians for road projects (and other relevant expenditure) funded through WP (p110) Framework for Indigenous employment targets was agreed in September 2017 and is being applied to NARP and Beef Roads projects.	Infrastructure, Transport, Regional Development and Communications
Delivered	<u>38.</u> Support the NT Government to allow workers licensed from other Australian jurisdictions to have their licences more easily recognised in the NT (p108) In June 2018 the Australian and NT Governments agreed that no further action is required.	Education, Skills and Employment

Investment Decision Project name (jurisdiction)	Max. NAIF Amount	Date of NAIF Board Investment Decision	Forecast of jobs to be supported	Net benefit estimate
Voyages Indigenous Tourism Australia (NT)	\$27.5 million	14 May 2018	80 - construction 320 -operations	\$370 million over 20 years
	<p>Project Description:</p> <ul style="list-style-type: none"> Airport runway, taxiway and apron upgrade, runway lighting and provision of contractor accommodation. The total project value is \$27.5 million. 			
Humpty Doo Barramundi Farm (NT)	\$7.18 million	3 May 2018	13 - construction 7-operations	See below
	<p>Public Benefit estimate: The expansion will contribute direct economic benefits to the local region, including the creation of an additional 50 jobs over 3 stages of the project. In accordance with the NAIF Public Benefit Guideline, the size of the loan for Humpty Doo was below the threshold requiring a detailed Cost Benefit Analysis. The proponent identified a number of compelling benefits which they outlined qualitatively including the project will help grow the NT aquaculture industry through the supply of fingerlings to third party growers; trialling processing operations will develop capability to move up the value chain from selling 'whole round' fish to selling packaged fillets and for the development of a multi user seafood processing facility; generation of renewable energy; new jobs.</p> <p><u>Project Description:</u></p> <ul style="list-style-type: none"> The loan will support construction of a solar farm and fish nursery, as well as the purchase of processing equipment. The total project value is \$14.4 million. 			
Onslow Marine Support Base (WA)	\$16.8 million	29 Sep 2017	61 - construction (12 direct - 49 indirect). 166 – operations (49 direct - 117 indirect).	\$100 million over 10 years
	<p><u>Project Description:</u></p> <ul style="list-style-type: none"> Development of a marine supply facility including wharf and harbour expansion. The total project value is \$120 million. 			

NAIF Conditional Approvals						
Investment Decision Project name (jurisdiction)	Max. NAIF Amount	Minister announced	Date of NAIF Board Investment Decision	Forecast of jobs to be supported	Public benefit estimate	State/ Territory approval (Facility signing stage)
Ammaroo Phosphate Project (Verdant Minerals Limited) (NT)	\$160 million	None. Proponent announced ASX 3 Dec 2018	28 Nov 2018	300 construction and 150 ongoing	No estimate available	TBC
<u>Project Description</u> <ul style="list-style-type: none"> The loan will support a phosphate ore mine at Ammaroo and Ammaroo South Deposits and includes the construction of a new 90km rail spur to connect with the Alice to Darwin railway and Darwin Port 						

NAIF Investment Decisions not proceeding	
Investment Decision	
Pilbara Minerals Ltd - Pilgangoora Lithium-Tantalum Project (WA)	In August 2018 the NAIF Board made an Investment Decision to offer a loan facility of up to \$19.5 million to support the Pilbara Minerals' Pilgangoora Lithium-Tantalum Project. This project will not proceed to financial close. Since NAIF's Investment Decision several changes to Pilbara Minerals' regional operating environment have resulted in the company reassessing its investment in the Pippingarra Road as its primary haulage route and as such this project will now not proceed. To support future expansion of the Pilgangoora Lithium-Tantalum Project, Pilbara Minerals is undertaking an internal infrastructure assessment to understand what investment is required to support a larger operation. Pilbara Minerals and NAIF are continuing to engage with regards to future infrastructure requirements and potential NAIF investment support.
Kalium Lakes Ltd - Beyondie Sulphate of Project (WA) Additional Finance	<p>Not announced by Minister – this decision is published on NAIF website under investment decision notifications - On 7 May 2020 the NAIF Board made an Investment Decision to offer an additional Financing Mechanism of up to \$10.5 million to support the Beyondie Sulphate of Potash Project to meet additional forecast construction costs and contingencies for the Project.</p> <p>Following a subsequent successful equity raising by Kalium Lakes Limited, the additional loan facility will not be required by the company.</p>

Progress of Northern Australia Roads and Beef Roads Projects

Northern Australia Roads Program projects	Location	Australian Government contribution (\$ million)	Completion
Completed projects:			
Kennedy Development Road (Mount Garnet – the Lynd) Pavement Widening	Qld	2.66	January 2018
Flinders Highway (Charter Towers – Richmond) Culvert Upgrades (Package 1)	Qld	14.18	November 2018
Great Northern Highway – Bow River Bridge and Approaches	WA	18.59	November 2018
Marble Bar Road – Coongan Gorge	WA	27.58	June 2019
Great Northern Highway Upgrade – Maggie Creek to Wyndham	WA	38.51	July 2019
Barkly Highway (Cloncurry – Mount Isa) Intersection Upgrades in the Mount Isa Urban Area	Qld	6.62	August 2019
Projects underway:			
Kennedy Development Road (The Lynd – Hughenden) Progressive Sealing	Qld	40.00	April 2020
Landsborough Highway (Longreach – Winton) Pavement Widening and Strengthening	Qld	19.99	April 2020
Buntine Highway Upgrading	NT	32.06	Late 2020
Plenty Highway Upgrade	NT	20.0	Mid 2020
Tjukururu Road Upgrade	NT	7.98	Late 2020
Flinders Highway (Townsville – Torrens Creek) Pavement Strengthening and Rehabilitation - Package 1	Qld	17.76	Late 2020
Capricorn Highway (Rockhampton – Duaringa) Rockhampton to Gracemere Duplication	Qld	59.99	Late 2020
Upgrade of Keep River Plains Road	NT	69.85	Late 2020
Bowen Development Road – Stage Development	Qld	23.0	Early 2021
Broome – Cape Leveque Road	WA	52.53	Mid 2021
Arnhem Highway Adelaide River Flood Plain Upgrade	NT	62.3	Late 2021
Rockhampton (Bajool – Port Alma Road) Pavement Widening Port Access Road commenced April 2020	Qld	11.6	Mid 2020

Northern Australia Roads Program projects	Location	Australian Government contribution (\$ million)	Completion
Projects yet to commence:			
Peak Downs Highway (Clermont – Nebo) Logan Creek to Nine Mile Creek – Pavement Widening and strengthening – Package 1	Qld	28.0	Late 2021
Great Northern Highway Upgrade Ord River North Section (Stage 2)	WA	34.80	Late 2020

Beef Roads Program projects	Location	Australian Government contribution (\$ million)	Completion
Completed projects:			
Ootann Road – Almaden to Kennedy Highway – Gunnawarra – Progressive Sealing (Package 1)	Qld	0.66	July 2018
Clermont – Alpha Road – Progressive Sealing (Stage 1)	Qld	2	September 2018
Cloncurry – Dajarra Road – Progressive Sealing	Qld	2.58	December 2018
Richmond – Croydon Road – Progressive Sealing (Package 2)	Qld	0.96	December 2018
Richmond – Winton Road – Progressive Sealing (Package 2)	Qld	0.8	March 2019
Diamantina Development Road (Boulia- Dajarra) Rehabilitation and Widening	Qld	4.03	May 2019
Richmond – Winton Road – Progressive Sealing (Package 1)	Qld	2.97	June 2019
Richmond – Croydon Road – Progressive Sealing (Package 1)	Qld	3.2	July 2019
Clermont – Alpha Road – Progressive Sealing (Stage 3)	Qld	0.96	August 2019
Clermont – Alpha Road – Progressive Sealing (Stage 2)	Qld	4.01	September 2019
Ootann Road – Almaden to Kennedy Highway – Gunnawarra – Progressive Package 2	Qld	4.10	September 2019
Barkly Stock Route Upgrading	NT	10.29	November 2019
Great Northern Highway – Ord and Turkey Creek Road Improvement	WA	12.51	December 2019
Projects underway:			
Burke Development Road – Chillagoe – Almaden – Progressive Sealing (package 1)	Qld	3.79	February 2020
Burke Development Road – Chillagoe – Almaden – Progressive Sealing (package 2)	Qld	2.18	February 2020
Rockhampton Road Network – Road Train Access	Qld	20.0	Mid 2020

Beef Roads Program projects	Location	Australian Government contribution (\$ million)	Completion
Tablelands Highway – Road Upgrading	NT	20.0	Mid 2020
<i>Projects yet to commence:</i>			
Gregory Development Road Widening (south of Charters Towers)	Qld	4.63	Late 2020

Roads of Strategic Importance – Northern Australia

*In-principle Agreement projects remain subject to formal approval under the *National Land Transport Act 2014*; following submission of Project Proposal Report (PPR).

Corridor/Project	Funding Overview (m)			Australian Government Contribution (m)	Status
	QLD	WA	NT		
Tennant Creek to Townsville (including \$40 million for the Kennedy Developmental Road aka 'Hann Highway')	200.0		70.0	270.0	<p>NT Section: A project to strengthen and widen, and to resurface, two short, high priority sections of the Barkly Highway was approved on 30 March 2020 (Australian Government funding \$895,000). Construction works are underway and scheduled for completion in late 2020, weather and COVID-19 restrictions permitting.</p> <p>QLD Section: <u>Corridor:</u> In-principle agreement* has been given to four projects along the Queensland section of the corridor, requiring \$48.38 million of Australian Government funding. <u>Kennedy Developmental Road:</u> Project approved. Construction scheduled to commence mid-2020.</p>
Alice Springs to Darwin (including \$15 million for Mango Industry Roads)			162.3	162.3	<p><u>Corridor:</u> Three projects have been approved for AG funding: A project to strengthen and widen, and to resurface, several high priority sections of the Alice Springs to Darwin road corridor was approved on 30 March 2020 (Australian Government funding \$8.9 million). Construction works are underway and scheduled for completion in late 2020, weather and COVID-19 restrictions permitting. A project encompassing road safety and fatigue management upgrades on several sections of the Stuart Highway was approved on 8 June 2020 (AG funding \$5 million). Construction is expected to start in late 2020. The Mango Industry Roads Upgrades project is a 2019 Election Commitment. It will upgrade approximately 15km of road in the mango production area around Litchfield, with a total project cost of \$21 million (AG \$15m, NTG \$3m with the Litchfield council also contributing \$3m). The project was approved on 27 February 2020. The construction tender was awarded on 7 July 2020 with construction expected to commence by August 2020. The Mango Roads project has been approved and publicly announced.</p>

Corridor/Project	Funding Overview (m)			Australian Government Contribution (m)	Status
	QLD	WA	NT		
Newman to Katherine		70.0	40.0	110.0	<p>NT Section: A project to strengthen, widen, and resurface two priority sections of the Victoria Highway was approved on 5 May 2020 (\$8.54 million of AG funding). Construction works are underway and scheduled for completion in late 2020, weather and COVID-19 restrictions permitting.</p> <p>WA Section: The Australian and WA government have identified three projects as a priority on its section of the corridor:</p> <ul style="list-style-type: none"> • Great Northern Highway Upgrade – Ord River North Section – Stage 3, which is under assessment. The Australian Government is providing \$31.2 million towards the \$39 million project. • The Great Northern Highway Upgrade – Broome to Kununurra, with the Australian Government providing \$20.6 million towards this \$25.8 million project, and • The Port Hedland Airport Deviation – Total cost: \$36 million; AG contribution: \$18.2 million.
Alice Springs to Halls Creek		75.0	160.0	235.0	<p>NT Section: The Northern Territory Government has identified one early works project, to seal the Tanami Road from the end of the current seal to Yuendumu (approximately 11km), with a project cost of \$11.35 million (AG \$9.08 million, NTG \$2.27 million). The project was approved on 27 February 2020. Plans to commence construction have been affected by access restrictions to remote communities as a result of COVID-19.</p> <p>WA Section: The Australian and WA governments have identified two projects as a priority on its section of the corridor:</p> <ul style="list-style-type: none"> • Duncan Road and Gordon Downs Road Upgrade is under assessment. The Australian Government is contributing \$40.8 million towards the \$51 million project. Preconstruction works began in July 2019, .major construction works began in March 2020 and both are currently underway. • Tanami Road Upgrade, with the Australian Government providing \$34.2 million towards the \$42.75 million project.
Adelaide River to Wadeye			60.0	60.0	A project to upgrade 11.7 kilometres of Port Keats Road at Saddle Rail Creek was approved on 22 May 2020 (\$20.72 million of AG funding). This project involves flood immunity measures and road sealing. The tender was awarded in June 2020 with construction to commence by the end of August 2020.

Corridor/Project	Funding Overview (m)			Australian Government Contribution (m)	Status
	QLD	WA	NT		
Mount Isa to Rockhampton (including \$64 million for Yeppoon Road)	254.0			254.0	<u>Corridor</u> : The Queensland Government has not committed funding to this corridor, other than for the Yeppoon Road Duplication project. At this stage the indicative construction timeframe for the corridor, including Yeppoon Road is 2021-22 to 2027-28. Yeppoon Road: \$8 million of the project's funding has been approved for scoping phase activities including development of a Business Case looking at options to upgrade road within available funding.
Townsville to Roma (including \$40 million for Springsure to Tambo Road)	100.0			100.0	<u>Corridor</u> : In-principle agreement* has been given to nine projects along the corridor, requiring \$37.13 million of Australian Government funding. A Project Proposal for strengthening and widening works on the Dawson Highway between Banana and Rolleston is currently under assessment. <u>Springsure to Tambo</u> : \$9.6 million of the project's funding has been approved to pave and seal a section of the road and upgrade the Barcoo River Bridge and approaches. Indicative construction timeframe is 2021 to 2025.
Cooktown to Weipa	190.0			190.0	11 packages of work on the Peninsula Developmental Road have been approved (\$152 million of Australian Government funding), with construction expected to commence in mid-2020 and be completed late 2024, weather and COVID-19 restrictions permitting. In-principle agreement* has been given to allocate \$38 million allocation to Torres Cape Indigenous Councils Alliance for feeder/connecting roads.
Karratha to Tom Price (Stages 3 and 4)		248.0		248.0	Construction commenced on Stage 3 in September 2019 and is expected to be completed by late 2020. Planning and development work has commenced for Stage 4 with construction expected to commence in Mid-2022.
Cairns to Northern Territory Border	50.0			50.0	In-principle agreement* has been given to two projects totalling \$17.23 million. \$1.2 million of the corridor's funding has been approved to replace two failed culverts on Floraville Road near Burketown with construction scheduled to commence in August 2020.
Shute Harbour Road	29.6			29.6	In-principle agreement* has been given to one project totalling \$9.6 million. Project proposal expected during 2020-21. Indicative construction timeframe 2021-22 to 2024-25.
Stanage Bay Road	21.6			21.6	Project approved. Construction expected to commence in July 2020 and be completed mid-2023.
Willies Creek Royles Road	3.0			3.0	Consultation underway with the council to determine project proposal, funding and construction timeframes. Indicative construction timeframe 2020-21 to 2021-22.
Northern Australia Total	848.2	393.0	492.3	1,733.5

Progress of northern water infrastructure projects

Project	Status
<u>Capital Projects</u>	
\$176.1 million to co-fund the Rookwood Weir (Qld), which is expected to commence construction in the 2020 dry season.	Governance arrangements progressing. Expressions of Interest for construction currently open.
\$11.6 million to co-fund the Mareeba-Dimbulah Water Supply Scheme Efficiency Project (Qld).	On Track – completion February 2022
Up to \$180 million to co-fund the Hughenden Irrigation Scheme (Qld). (A further \$2 million has been allocated to the business case through the Community Development Grants Programme).	Completed - Community Development Grants funded Business Case – March 2020 Funding agreement negotiation underway for the \$180 million construction commitment.
\$30 million for Big Rocks Weir as stage one of the Hells Gates Dam Scheme (Qld)	Business case underway.
\$10 million through the National Stronger Regions Fund (Round 3) for Charleston Dam and \$3 million through the Community Development Grants programme for the Charleston Dam final stage.	The National Stronger Regions Fund project is currently underway. The Department of Infrastructure, Transport, Regional Development and Communications is awaiting further information from the local council to progress the Community Development Grants funded project.
<u>Feasibility Projects</u>	
\$24 million for Hells Gates Dam Scheme (Qld) including Big Rocks Weir- for business case.	Completion – 19 June 2022 Funding agreement executed
\$25.5 million for 16 feasibility studies and \$15 million for the Northern Australia Water Resource Assessments:	
Oakover Valley Irrigation Prefeasibility Study – WAQ (\$268,994)	Completed – 30 April 2017
Burdekin Falls Dam Rising Feasibility Study – QLD (\$400,000)	Completed – 30 April 2018
Burdekin Houghton Channel Capacity Upgrade Feasibility Study – QLD (\$1.915m)	Completed – 30 April 2018
Clermont Water Security Feasibility Study – QLD (\$225,000)	Completed – 30 April 2018
Lower Fitzroy River Infrastructure Project Business Case (Rockwood Weir) – QLD (\$2m)	Completed – 30 April 2018
Pilbara Irrigation Agriculture Feasibility Study – WA (\$960,000)	Completed – 30 April 2018
Ord Siphon Feasibility Study – WA (\$162,000)	Completed – 30 April 2018
Hells Gates Dam prefeasibility Study – QLD (\$2.2m)	Completed – 30 April 2018
Northern Territory Irrigation Feasibility Study - NT (\$985,000)	Completed – 30 May 2018
Northern Australia Water Resources Assessment – WA, NT, QLD (\$15 million)	Completed - 30 June 2018
Urannah Dam Feasibility Study – QLD (\$3m)	Completed – 30 April 2019
North West Queensland strategic Water Storage Feasibility Study – QLD (\$1.765m)	Completed – 30 April 2019
Southern Atherton Tablelands Irrigation Development Feasibility Study – Qld (\$750,000)	Completed – 30 April 2019
Nullinga Dam Feasibility Study – QLD (\$5m)	Completed – 30 April 2019

Project	Status
Ord Stage Three Feasibility Study – WA (\$2.5m)	Completed – 30 April 2019
Lakeland Irrigation Area Feasibility Study – QLD (\$825,000)	Completed – 30 April 2019
Ord Stage Three Feasibility Study - NT (\$2.5m)	Completed – 30 November 2019
\$3.5 million Roper River Catchment (NT) water resource assessment of the development potential of the water and soil resources by CSIRO. CSIRO are providing an additional \$2 million towards this project.	On Track; Completion – 31 December 2022
\$6.5 million directly appropriated to Geoscience Australia for water modelling in the Great Artesian Basin over three years commencing in 2019/20 financial year.	On Track; Completion – 30 June 2022
\$10 million to progress the QLD Lakeland Irrigation business case, including final engineering and scoping works.	On Track; completion – 30 September 2022
\$10 million to progress the Qld Urannah Dam business case and approvals	On Track; completion – 31 August 2021
\$2 million to study the NT Adelaide River off-stream water storage project business case.	On Track; completion – 31 December 2021

Acronyms

CSIRO – Commonwealth Scientific and Industrial Research
 NTCA – Northern Territory Cattlemen's Association
 KPCA – Kimberley Pilbara Cattlemen's Association
 CCA – Cattle Council of Australia

MLA – Meat and Livestock Australia
NTDPIR – Northern Territory Department of Primary Industry and Resources
USQ – University Southern Queensland
NTDENR – Northern Territory Department of Environment and Natural Resources
DAF – Queensland Department of Agriculture and Fisheries
FNQROC – Far North Queensland Regional Organisations of Councils
PwC – PricewaterhouseCooper
JCU – James Cook University
ABFA – Australian Barramundi Farmers Association
APFA – Australian Prawn Farmers Association
ILSC – Indigenous Land and Sea Council
USC – University of the Sunshine Coast
GW3 – Greater Whitsunday Alliance

Project Pipeline July 2020

The CRCNA has committed funding to deliver the projects outlined below, many of which are still in development and brokering. In addition to these, the next competitive funding call (due to open **August 2020**) will prioritise funding towards identified research projects from the completed sector situational analysis and other completed projects.

Project name and description	CRCNA funding commitment
Improving supply chains of Kimberley barramundi will seek to enhance the genetics of fingerlings.	\$600,000
Indigenous agriculture situational analysis project will undertake SWOT of current industry & examine future opportunities	\$150,000
Growing high-value food and fibre exports from northern Australia develop technical support across a range of crops & products to grow exports from Darwin airport.	\$1,000,000
North Queensland supply chain study – Phase 2 will deliver an action plan to implement the outcomes and recommendations from the three regional supply chain projects with Greater Whitsunday Alliance, Advance Cairns and Townsville Enterprise.	\$180,000
WA Supply Chain gap analysis	\$500,000
Nutrient-dense ingredient demand scoping study – NQ Next Gen food manufacturing will develop product formulations, id and qualification of end-customer product and the demand for specific ingredients.	\$473,060
WA Ord River Traditional Owner share farming (cropping) project To develop a share farming model with MG Corp that can act as a catalyst for the development of unused land parcels on the Ord East Bank and see them developed for the purpose of agriculture using new (to this area) irrigation and farming techniques to deliver social and economic benefits.	\$200,000
Tiwi Island – Maximising northern tropical forestry A community-based enterprise development approach will be used to develop a model for the establishment and growth of tropical forestry plantations across northern Australia. This model, suitable for application across both Aboriginal and freehold land.	\$990,048
Sugar industry situational analysis – an emerging market, supply chain gap analysis and sector capacity baseline study will be conducted to assist in guiding future investment, strategy development etc.	\$250,000
Developing a Northern Australian model of care Phase I - Workforce analysis Phase II - Solutions to deliver integrated care and improved health outcomes.	\$500,000

*DISER Submission to the Select Committee on the effectiveness of the
Australian Government's northern Australia agenda*

Project name and description	CRCNA funding commitment
Agriculture and health workforce development strategy - develop a coordinated Ag and Health workforce development strategy for NA to 2035 – CRCNA research indicates that a workforce development strategy will be needed in Northern Australia (Ag and Health)	\$300,000
