2 September 2020

Committee Secretary  
Senate Scrutiny of Delegated Legislation Committee  
PO Box 6100  
Parliament House  
Canberra ACT 2600

Dear Committee Secretary

**Correction to a submission made to the Senate Inquiry into the Exemption of delegated legislation from parliamentary oversight**

As you are aware, the Department of Agriculture, Water and the Environment (the department) made a submission to the committee's inquiry into the Exemption of delegated legislation from parliamentary oversight on 26 June 2020. In the submission, reference was made to a number of instruments that are prescribed under the *Legislation (Exemptions and Other Matters) Regulation 2015* (LEOMR).

I would like to clarify and correct the evidence provided in relation to those instruments listed below. While those instruments listed below are prescribed under LEOMR as stated in the original correspondence, they are done so for the purposes of Part 5 – Particular legislative instruments that are not subject to sunset; not for legislative instruments not subject to disallowance under Part 4.

- *Basin Plan* adopted under section 44 of the *Water Act 2007*;
- an amendment of a *Basin Plan* adopted under section 23B or 48 of that Act;
- an amendment of a *Basin Plan* made under a regulation made under that Act;
- a decision to accredit a water resource plan under section 63 of that Act;
- a decision to accredit an amendment of a water resource plan under section 65 of that Act;
- a rule made under section 92 or 97 of that Act;
- a regulation made under that Act.

a. Each of the following:

- a declaration made under subsection 3(3) of the *Torres Strait Fisheries Act 1984*
- a Proclamation made under section 15 of that Act;
- an arrangement made under section 31 of that Act;
- a legislative instrument made by or on behalf of the Protected Zone Joint Authority in the exercise of a power under subsection 35(1) of that Act.

References made in the submission in relation to the above instruments for the purposes of not being subject to disallowance under s 44(2)(b) and the LMEOR therefore require correction.

T +61 2 6272 3933  
F +61 2 6272 5161

18 Marcus Clarke Street  
Canberra City ACT 2601

GPO Box 858  
Canberra ACT 2601

awe.gov.au  
ABN 34 190 894 983

For completeness some of those listed, however, are not disallowable because the Water Act makes express provision to that effect (see s 44(2)(a) of the Legislation Act), in particular:

- decision to accredit a water resource plan under section 63 of that Act;
- a decision to accredit an amendment of a water resource plan under section 65 of that Act.

While Attachment A lists many of the provisions captured under s 44(2)(a) for the portfolio's Acts it is not intended to be an exhaustive list.

Some legislative instruments made by or for the purposes of an intergovernmental body (the Protected Zone Joint Authority) or scheme, for the purposes of the *Torres Strait Fisheries Act 1984*, have been specified as exempt from disallowance on the basis that they meet the criteria for exemption under subsection 44(1). However, this does not extend to legislative instruments made for the purposes of the *Basin Plan*.

I have attached an amended submission with the above changes for clarity. With the Committee's agreement, I request that the original submission be withdrawn and be replaced by the attached amended submission.

Yours faithfully

Andrew Metcalfe AO

Committee Secretary  
Senate Scrutiny of Delegated Legislation Committee  
PO Box 6100  
Parliament House  
Canberra ACT 2600

Dear Committee Secretary

**Senate Inquiry into the Exemption of delegated legislation from parliamentary oversight**

Thank you for your invitation to make a submission to the 'Inquiry into the Exemption of delegated legislation from parliamentary oversight' (Inquiry).

I note that the Inquiry's terms of reference seek to inquire and report on:

1. the appropriateness and adequacy of the existing framework for exempting delegated legislation from parliamentary oversight; and
2. whether the existing framework for exempting delegated legislation from parliamentary oversight should be amended, and, if so, how?

The Department of Agriculture, Water and the Environment (department) has responsibility for over 630 legislative instruments which provide the underpinning for much of the department's work. This covers diverse areas of national and international importance including managing biosecurity risk, maintaining and protecting our natural environment, including the Murray-Darling Basin (in coordination with the states and territories), ensuring the sustainable use of our natural resources and providing assistance during times of natural disasters or emergencies (including prolonged drought).

The department is responsible for a number of legislative instruments that are exempt from disallowance. Section 44 of the Legislation Act provides for those instances where legislative instruments are not subject to disallowance (under Section 42) and are set out below.

1. Paragraph 44(2)(b) of the Legislation Act provides that section 42 (disallowance) does not apply if:
  - a. the legislative instrument is prescribed by regulation for the purposes of this paragraph.

Such exemptions are provided for under the *Legislation (Exemptions and Other Matters) Regulation 2015* (LEOMR). The department has a number of instruments that are prescribed under LEOMR, including:

- a. an instrument made under section 303CA, 344 or 350 of the Environment Protection and Biodiversity Conservation Act 1999; and

- b. a Proclamation made under section 31 of the *Great Barrier Reef Marine Park Act 1975*.

The Attorney-General's Department (AGD) is responsible for administering the Legislation Act and LEOMR and I understand that AGD will be making a submission to the Committee setting out the principles that support the exemptions to disallowance under the Legislation Act. LEOMR is subject to tabling and disallowance under Chapter 3, Part 2 of the Legislation Act.

2. Subsection 44 (1) of the Legislation Act provides that section 42 (disallowance) does not apply when the enabling legislation for the instrument:
- facilitates the establishment or operation of an intergovernmental body or scheme involving the Commonwealth and one or more States or Territories; and
  - authorises the instrument to be made by the body or for the purposes of the body or scheme,
- unless the instrument is a regulation, or the enabling legislation or some other Act has the effect that the instrument is disallowable.

Some legislative instruments made by or for the purposes of an intergovernmental body (the Protected Zone Joint Authority) or scheme, for the purposes of the *Torres Strait Fisheries Act 1984*, have been specified as exempt from disallowance on the basis that they meet the criteria for exemption under Subsection 44(1).

3. Paragraph 44(2)(a) of the Legislation Act provides that section 42 (disallowance) does not apply if:
- an Act declares, or has the effect, that section 42 does not apply in relation to the instrument or provision.

The department has responsibility for a number of enabling Acts which declare that section 42 (disallowance) does not apply to certain legislative instruments or provisions, these Acts include:

- *Biosecurity Act 2015* (Biosecurity Act)
- *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act)
- *Water Act 2007* (Water Act)

The *Biosecurity Act 2015*, for example, exempts determinations made under subsection 229(1) which provides that the Director of Biosecurity or the Director of Human Biosecurity may determine that a specified port in Australian territory is a first point of entry for any of the following:

- vessels generally, or a specified class of vessels, that are subject to biosecurity control;
- specified goods, or a specified class of goods:
  - that are subject to biosecurity control;
  - in relation to which an exposed goods order is in force.

It is appropriate that the power to make determinations that involve technical and scientific decisions about the management of biosecurity risk have been delegated to the Director of Biosecurity. This is because political considerations may interfere with what should be a strictly technical and scientific decision making process. Disallowance could potentially frustrate risk management processes and lead to the inadequate management of biosecurity risks, especially if an instrument were to be disallowed and not be able to be remade for six months. As such, these exemptions from disallowance are necessary for the effective operation of the legislative

scheme and would have been subject to Parliamentary scrutiny during debate of the enabling legislation.

Attachment A lists some of the provisions which are captured under paragraph 44(2)(a) for each of the above listed Acts. Primarily, those legislative instruments made under the Biosecurity Act and EPBC Act, which are exempt due to paragraph 44(2)(a) are required as they are made on technical and scientific grounds. As noted above, disallowance could potentially frustrate risk management processes and result in unintended consequences for animal and human health.

The department notes the Committee's specific focus on legislative instruments made in response to the COVID-19 pandemic and advises that the *Great Barrier Reef Marine Park Amendment (Coronavirus Economic Response Package) Regulations 2020* were made on 11 June 2020. These regulations are subject to parliamentary disallowance.

Yours faithfully

Andrew Metcalfe AO
