Dear Chair

Re: Joint Committee of Public Accounts and Audit hearing of 14 April 2021

I refer to the appearance of the Department of Infrastructure, Transport, Regional Development and Communications (the Department) at the above hearing. I would like to clarify evidence I provided to the Committee about mobile applications I have on my mobile telephone (Hansard page 49):

In addition to WhatsApp, which I noted to the Committee, I have Signal on my mobile telephone. While I have downloaded the app, I have never used Signal for work purposes.

I would appreciate if you could note this letter for the Committee.

Yours sincerely
