

ABC

One would hope you would take this seriously. I have not seen the parameters of your enquiry, however I am normally quite skeptical re government enquiries.

The ABC is essential to the well being of this nation's collective psyche. Simply put: without the ABC and SBS we are left with nonsense from the commercial stations. Governments have a vested interest in keeping the electorate in the dark, so media like the aforementioned are probably anathema to ALL political parties- though the Labor Party is a bit more sympathetic.

I could modify my previous comment re enquiries: often they produce sensible and reasonable results- which are not acted on. Anyway, I support the ABC, and see any attempt to subvert its role as moral cowardice, and an insult to my intelligence. Good luck with your enquiry.

Michael Collins.
