Dear Committee Members,

After visiting the in Melbourne CBD, I feel that I have been well looked after with my Chronic Condition. I understood exactly why I was referred to by my GP. It was for consideration of a dental appliance.

I was made fully aware of the treatment and was also made aware that there were no out of pocket expenses beyond the Medicare rebate. I was very satisfied with the treatment.

I understand he is being audited by Medicare and in my opinion the practice operates with great care and ethics.

If you wish to contact me, please don't hesitate to do so on the below.

Regards,
Zoe Klein
