Mr Scott Buchholz MP

Chair

Parliamentary Standing Committee on Public Works

Parliament House

CANBERRA ACT 2600

Dear Mr Buchholz

**COMMUNITY CONSULTATION REPORT – JOINT HEALTH COMMAND
GARRISON HEALTH FACILITIES UPGRADE PROJECT**

This letter is to inform the Parliamentary Standing Committee on Public Works (PWC) of the nature and extent of communication and community consultation undertaken as part of the proposed Joint Health Command Garrison Health Facilities Upgrade Project (the Project).

The objective of the community consultation undertaken by Defence was to ensure that base and other stakeholders and the community were:

- a. well informed about the Project by using effective and proven communication channels to convey details of the proposed works; and
- b. had every opportunity to raise issues of concern or seek further information so that wherever feasible, they could be addressed by Defence in its program of works.

The communication and engagement activities listed below were delivered in accordance with the Project's comprehensive Communication and Engagement Plan, namely:

- a. Correspondence via email and phone to key stakeholders. A list of all internal and external stakeholders consulted is at Annex A, with a short description of the outcomes of the consultation. An example of the emails sent to stakeholders is provided at Annex B.
- b. Advertisements promoting the four Public Information Sessions, describing the project and directing people to the digital engagement platform, were placed in local newspapers and *The Australian* in the week beginning 27 November 2017. An example of these advertisements is provided at Annex C.
- c. Letterbox drops to neighbouring residential areas potentially affected by site works and construction vehicle traffic paths were conducted on 27 November 2017. Approximately 850 letters were distributed across seven out of the 13 sites, providing project information, contact details and a website address. An example of these letters and their distribution is provided at Annex D. No letterbox drops were provided to the other six sites as they were located in non-residential areas (eg, Russell in the ACT) or

UNCLASSIFIED

UNCLASSIFIED

were isolated bases. These sites were therefore captured in the digital engagement platform.

- d. A digital engagement platform was launched on 27 November 2017 and will be taken down on Tuesday, 30 January 2018. The site, *www.jhcfacilitiesupgrade.com*, consists of a home page with positioning information about the project, individual pages for each site, downloadable hard copy fact sheets in both standard and accessible format and an inbuilt survey to collect questions or feedback. A snapshot of the website homepage is at Annex E.
- e. Four Public Information Sessions and a Residents Briefing Session (at Royal Military College – Duntroon) were held in the week beginning 11 December 2017, as detailed at Annex F, with examples of display and printed materials at Annex G.

Whilst there was limited public participation across the provided communication channels and engagement activities, there were no objections raised to the proposed works. There were some minor concerns raised about traffic, dust and noise during construction; but there are no major issues or concerns that require further action. Defence will continue to manage these issues until construction is completed.

Defence is satisfied that it has taken all reasonable steps to inform the Community about the Project and to provide opportunities for the Community to raise any concerns and questions.

Yours sincerely

M. J. Galton, DSC
Brigadier
Director General
Capital Facilities and Infrastructure

23 January 2018

Annexes:

- A. List of stakeholders consulted and follow-up actions
- B. Example email correspondence
- C. Example newspaper advertisement
- D. Example letter-box drop and distribution
- E. Digital engagement platform – website homepage
- F. Public information sessions
- G. Display and printed materials used at the Community Information Sessions

EXAMPLE EMAIL CORRESPONDENCE

National Stakeholder Email

27 November 2017

By email <Australian Chamber of Commerce and Industry, Victorian Chamber of Commerce, Queensland Chamber of Commerce, Chamber of Commerce and Industry WA, Chamber of Commerce Northern Territory, Liverpool Chamber of Commerce, Canberra Business Chamber, Townsville Chamber>

Subject line: Joint Health Command Facilities Upgrade project briefing

Dear Madam Sirs,

The Joint Health Command Facilities Upgrade project aims to provide contemporary, fit-for-purpose health care facilities to Australian Defence Force personnel around Australia.

The \$212m project will centralise and co-locate most on-base health services. These facilities will support all forms of Australian Defence Force operations and personnel through the provision of primary healthcare and associated services.

The project will make a significant contribution to operational efficiencies in Garrison Health Services delivery, while ensuring facilities comply with Defence's clinical governance framework. The project is expected to provide substantial improvements and efficiencies in health support at 13 priority sites around Australia.

Investigations and health need assessments have been undertaken at each site, to understand what the facilities must deliver now and into the future.

In line with this, new health care facilities will be built at Puckapunyal Military Area (Seymour, VIC), South Bandiana (Albury-Wodonga, VIC) Simpson Barracks (Watsonia, VIC), Larrakeyah Barracks (Darwin, NT), Campbell Barracks (Perth, WA), Royal Military College Duntroon (Canberra, ACT), Oakey Army Aviation Centre (Oakey QLD) and RAAF Townsville (Townsville, QLD).

Existing health care centres at Gallipoli Barracks (Enoggera, QLD), Robertson Barracks (Darwin, NT), Holsworthy Barracks (Holsworthy, NSW) and Russell Clinic (Canberra, ACT) will be refurbished.

The project team has completed the Detailed Business Case and is progressing through the requirements to achieve second pass Government approval. Final approval through the Parliamentary Works Committee is anticipated to be achieved towards the end of 2017, and construction is expected to start in 2018.

For more information and to provide project feedback please go to the project website at ihcfacilitiesupgrade.com

Project briefing

Community consultation for the Joint Health Command Facilities Upgrade project is open from 27 November 2017 to 30 January 2018.

In line with this we invite you to contact Project Manager Kristian Wheeler on 0407 990 299 or at Kristian.wheeler@arecon.com.au to learn more about the project's scope, timelines and construction, or discuss any issues you may have.

Yours faithfully,

South Bandiana Barracks, Albury-Wodonga, Victoria	11	3	0
Robertson Barracks, Palmerston, Northern Territory	9	6	0
Holsworthy Barracks, Holsworthy, New South Wales	5	1	0

Data captured on the digital engagement platform indicated that that there was a total of 119 documents downloaded. Campbell Barracks had the highest level of interest, with a total of 29 document downloads (X 19 Campbell fact sheet and X 10 Campbell accessible fact sheet).

Online survey

Feedback collected from the online survey indicated:

- There was community concern for traffic, dust and noise issues associated with construction works at Oakey Barracks and Simpson Barracks.
- One resident from Oakey expressed frustration at the impact of current projects and issues, in particular PFAS contamination.

PUBLIC INFORMATION SESSIONS

There was limited participation across all communications channels and engagement activities, suggesting key stakeholders and the community had little interest in the project and any associated impacts.

There were no objections to the proposed works, however there were requests for further information. All four requests were in response to the project materials released, particularly emails and letters.

Base	Number	Feedback	Response
Simpson Barracks	2	A neighbouring resident to Simpson Barracks requested building plans, details around vehicle access and updated information on perimeter fencing. Another resident emailed requesting confirmation that consideration of traffic through the main gate had been considered	Both residents were emailed and issues closed.
Campbell Barracks	1	An editor from the Chamber of Commerce and Industry of Western Australia requested a high res image to accompany information on the new Campbell Barracks health centre as part of the next WA Works magazine and e-newsletter distribution.	Image provided
Puckapunyal Military Area	1	The Mitchell Shire were interested to find out more about the works at Puckapunyal Military Area. The Mayor, CEO, Director of Advocacy and Community Services and the Economic Development Coordinator requested attendance with the project team.	A meeting has been scheduled for 16 February 2018 at Mitchell Shire Council.
Gallipoli Barracks	1	Identified as a key stakeholder in the stakeholder analysis, Mary Harbeck from the Gallipoli Precinct Action Group requested the designated route for the Gallipoli Barracks letterbox drop.	Letterbox drop was undertaken in accordance with agreement with the Base Services manager. Further discussions were held with resident at Briefing sessions.

Session	Number	Feedback	Response
Duntroon Monday 11 December	1	Attendee was interested in tendering the works.	We discussed generally the size, and the facilities that would be provided.
Gallipoli Tuesday 12 December	4	<p>Three representatives from the Gallipoli Precinct Action Group attended and one attendee from the Minister's office.</p> <p>The attendee from the Minister's office was interested in the traffic around the Base and the type of work (it all being internal to the existing building), she didn't see that there were any issues.</p> <p>The representatives from the Gallipoli Precinct Action Group were concerned about the traffic calming measures that Defence should be implementing in their streets to slow cars down, and to stop them from using their streets instead of the main thoroughfare roads.</p>	Information and fact sheets provided.
Oakey Wednesday 13 December	1	Attendee who worked as a Dentist in the facility was interested in the layout, the dental department, and the location of the new facility.	Information and fact sheet provided.
Townsville Thursday 14 December	2	One attendee was interested in the construction contract and wanted to understand where it would be located, and the other was from Aurecon and was generally interested in the project.	Information and fact sheet provided.
