

ABC programming decisions

Hi,

Please keep telecasting the state football leagues (VFL, SANFL, WAFL). I, along with many of my mates, watch these each Saturday or through iView during the week. They are a great way to see the local football talent and also see the young AFL listed players potential draftees.

I can't understand how the ABC doesn't want to make more of their rights to telecast these considering the interest in football in Australia. At the very least, there could be limited coverage made available through iView of matches. With all the media players and smart tv options this on demand type of telecast will only get more popular.
