Re	Further to Committee	Pages	

Dear Senator,

If you recall, I appeared before the Senate Committee last Friday. I was absolutely stunned to hear DCCEE refute industry's claims that you could get 1.5kW of solar for free.

The absolute arrogance of the department to deny that this is happening is just amazing.

So here is the proof of the pudding in black and white. This was faxed to me by a small installer in Dubbo who is trying to compete against a \$0 installation and things are not going well.

There is a gross feed in tariff in NSW so it is even more attractive to take it up at \$0.

So industry's concerns are real and we do not understand what the driver is for DCCEE to deny it.

Yours sincerely,

Fiona O'Hehir

Zone 2 June Special Offer*

Dear Valued Customer,

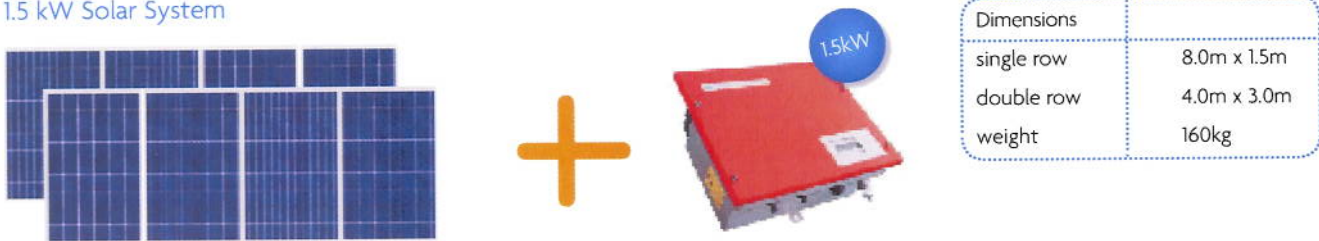

There's never been a better time to go solar with Nu Energy. You can take advantage of the extraordinary solar offer and save on your electricity bills as well as reduce your carbon footprint. Due to an overwhelming response, Nu Energy's Free* Solar system offer with standard installation in selected solar zone 2 NSW and QLD postcodes is available until June 30 2010.

Even though the Australian dollar has dropped significantly and the Renewable Energy Certificates price has also dropped, Nu Energy, as Australia's leading Solar company, has renegotiated with suppliers to offer this fantastic deal until June 30 2010.

Nu Energy has been installing solar in Australian homes for 25 years. We not only guarantee our workmanship, our panels also come with a 25 year efficiency warranty. So, like the sun, we plan to be around for the long term.

Extraordinary Solar Package

1.5 kW Solar System

8 x 190 Watt solar modules by QSE (1,520 Watts Total) or equivalent & 1 x AEROSHARP 1.5 kW Inverter
