

A.B.C. Television

To the Senate Enquiry:

I am appalled at the actions of Mr. Scott & Kim Dalton. Kim Dalton for carrying on the work he used to do in the private sector – making insipid programmes for people with a room temperature I.Q. and Mr. Scott for giving him the go-ahead for this vandalism.

My outrage is divided between the loss to the A.B.C. of all that talent (which will go over to the commercial networks at three times the salary) and the loss to the A.B.C. of all the cash from the residual sales of the programmes it makes.

Of course, there is also the question of the range of axed programmes. No-one asked me!! **And I OWN THE A.B.C.!!**

As matters stand, we (the owners) are faced with a vertiginous slide into programming mediocrity – something from which we were saved (I thought) by the departure of the odious Shier of unhappy memory.

Could you **PLEASE** tell Mr. Scott that he is merely the steward of the A.B.C. – not its owner. A little more notice of intentions for the future would not go amiss either.

Yours in RAGE,
Michael White.
