Senate Inquiry on Threat of marine plastic pollution in Australia

Thursday, 18 February 2016

**Additional Information Provided as per Note#1, #2 and #3
of the witness evidence from Madhu Pudasaini**

Note #1: the litters and rubbish collected from the Environmental Volunteer Program are disposed of in a skip bin located at Council's depot at the end of each program day. The content of the bin is disposed of at landfill. Unfortunately, no separation of recycle material is undertaken at this stage.

Note #2: the Community Recycling Centre (CRC) is open and free for both Liverpool residents and non-residents. Information about the CRC is available in the Council website.

Note #3: the litters collected from cleaning of Gross Pollutant Traps (GPTs) are disposed of in a skip bin located at Council's depot. Unfortunately, no separation of recyclable material is undertaken to the materials collected before it goes to the landfill at this stage.
