

Australian Government

Australian Government response to the Senate Community
Affairs References Committee report:

Provision of general practitioner and related primary health
services to outer metropolitan, rural and regional
Australians - Interim Report.

OCTOBER 2024

Response to the recommendations

Australian Government response

The Government notes this recommendation. However, given the passage of time since this report was tabled, in April 2022, a substantive Government response is no longer appropriate.

The report of the Working Better for Medicare Review was released on 8 October 2024. The Government will consider the recommendations and findings of this review, alongside other related reviews.
