

Dear Sir/Madam,

I am waiting for the results of 485 application since 15<sup>th</sup> March 2008 & 886 application since 31<sup>st</sup> July 2008 even though it was under the priority.

At present I own 2 hospitality related businesses

**A Kebab Café = 60,000.00 AUD with 4 staff members.**

**A bottle shop = 120,000.00 AUD with 2 staff members.**

I have spent almost 45,000.00 AUD as a tuition fees to complete Diploma of Hospitality Management and then Bachelor of Hospitality Management.

I have created jobs and paying Taxes. I felt this place as my home as it is been 5 years living here. I personally believe that no one has right to throw me out of my home. But today I realized that I am a migrant and this is not my home, this is neither my people nor my community. I am not like them. I have no right to live happily.

Mr. Evans wants to give \$2250.00 in my hands and leave the country in 28 Days.

Major part of the capital I spent to start the businesses came from loans in Australia as well as from India.

**Who is going to pay my loan amounts?**

**What will happen to my life now as I have spent all my savings along with friends & family savings?**

The idea of terminating the applications is unacceptable as it will allow one men to destroy the life of 147,000 people living in this country.

I would request to the Senate that do not give authority to the immigration minister to play with the life of innocent human beings. Please consider us as human beings not a demand supply concept.

I love AFL, I love my cricket & I support Socceroos as a True Aussie.

Be Fare.....and make all Aussies proud.

Yours Faithfully,
