

Hi Sir/Madam

The capping bill 2010, currently we are debating on it in the senate, which does not seem justice to all the student/ applicants who have applied for the tr or Pr. All, I request to the government be considerable to the both side students/migrant and Australia government and see what will the pros and cons if decision will be taken. I don't want to see anyone's to be worried about their future and dreams. On the other hand , i hope everyone should respect about the Australian government whatever the decision they will make .

Thanks
