Date: Friday, 21 December 2012 4:46:11 PM

Please consider this email a formal submission by me to the Senate Standing Committee on Community Affairs Inquiry into the National Disability Insurance Scheme Bill 2012.

The current disability system has many problems that need to be addressed.

I feel good support for Disability deaf & impaired people is good well and can do to learn for good skills about technical and quality of employment career jobs in the future time
and support to Federal and State Parliament of Australia
Thanks

The main features of the NDIS that will make a difference to the community are:

People with a disability can choose the types of support to use, Better access to education and work opportunities, People with a disability can plan their lives and pursue their goals and dreams, People with disability can choose who comes into their home, People with disability/family will influence the types of support and services offered

The most important services for the NDIS to provide are:

Therapy and allied health services, Equipment and home/vehicle modifications, Life-skills, Employment support, Recreation and community access, In-home care and domestic assistance, Interpreters and other communication support

I support the introduction of the NDIS.

good support for interpreter about Deaf people and disability people to learn more good skills and communication for education and good course about good goal in the future time
Thanks

I agree for my submission to be made public

Mr Geoffrey Kellock
