

Dear Senator Scott Ludlam,

I am writing to you in support of your 10c refund of bottles, cans and cartons to all Australian states.

This is an urgent matter that will only be helped by those people out there that collect littered bottle, cans and cartons for the money.

The 10c incentive is needed or there will be no-one out there that will stop to pick up this type of litter if seen while walking.

Regards,

Bret Leversha

P.S. Will there ever be a system in recycling collection where we leave the bottles, cans and cartons with the recycling bin and receive the money for the bottles (bank deposit or PayPal?!)?
