Dear Secretary

Re: Inquiry into the factors affecting the supply of Health Services and Medical professionals in Rural Areas.

Great Lakes Council covers some 3,300km² with many inland villages. These communities are finding it increasingly difficult to attract and retain Doctors.

One issue that I would like to raise is the accreditation of overseas trained doctors (OTD's). I am advised that the accreditation progress in Australia for OTD's is lengthy and cumbersome.

A solution the committee could examine is whether the training that Doctor's receive in their country of origin could be accredited by Australian authorities. This would enable Doctor's to move more freely between countries.

Yours faithfully

 Glenn Handford
GENERAL MANAGER
