

**My Opinion re: Inquiry: Stronger Futures in the Northern Territory Bill 2011 and two related bills**

Income Management, and Alcohol Restrictions are not means of solving budgeting and alcohol consumption issues among Aboriginal people in remote communities. If government is serious and genuine then it should provide means to address POVERTY & DYSFUNCTIONAL FAMILIES in Aboriginal communities by providing infrastructure; & provide intense support to address Abuse, Mental illness, & Addiction instead of BAND-AIDE Programs that are set up to fail.
