

Dear sir/madam

My son was a user of Ice for a considerable period but thankfully he has turned his life around. He managed to get his ice supply through the 'legitimate' funding from short term money lenders- namely Cash Converters, Money Me, Sunshine Loans etc. They were perfectly aware what he wanted money for. They gave him loan after loan without any checks. This is where you have to stop the funding of ice.

We are still paying off the loans and these disgusting , evil companies are posting record profits. Please stop them.
