* This email contains attachments (copies of correspondence) that have been removed to ensure there is no prejudice to the coronial inquest or other proceedings or disclosure of personal information.

[^] This email refers to tabs 3 and 4 of a spreadsheet of search results. Items on these tabs were out of scope for the Joint Commonwealth-NSW Review into the Martin Place siege. Tab 3 of the spreadsheet (ministerial submissions in TRIM) did not contain any submissions that were in AGD's possession. The records in tab three, being two Customs submissions and three AFP submissions, are solely metadata records consisting of submission numbers, titles and dates created in AGD's system in order to provide the other agency with a ministerial submission reference number. The fourth tab (ministerial submissions in ExecCorro) contained one additional submission that was out of scope as it was a submission on High Court proceedings.

[†] This email relates to the search of Departmental records for the Hizbullah letter. The Martin Place Siege Review had been provided with a copy. A hard copy of the letter was found on AGD files on 5 June 2015.

[°] This email encloses digital links to locations on the Department's electronic records management system rather than documents.
