

Dear Australian government,

Hope it finds you well.

We (Iranians in Australia) appreciate your time and attention in advance.

We are endeavouring hard to stop Iran's regime lethally beating its children at school which as the result, has led to death of many students like (Asra Panahi, Abolfazl Adinezhadeh, Nika Shakarami, Sarina Esmailzadeh, many many more).

Unluckily, women are particularly getting beaten to death either to get reeducated on strict Hijab code or dying under severe torture, which is persistently enforced there.

Iran's regime is spending billions of its revenue on military assistance and leverage in Ukraine, in Iraq, in Lebanon, in Yemen, in Syria, etc. to kill innocent people around the world.

Obviously this must inextricably get a tremendously strong action.

This by itself clearly alludes to the underlying fact that Iran Islamic regime is continually suffocating its defenceless protesters by depicting them in media as rioters.

The worst is that whenever a dissenting child gets beaten to death at school, though that's what that regime wants, nonetheless, authorities quickly compile certificates to indicate the death was linked to underlying diseases or suicide.

Moreover, thousands of the arrested protesters' fate is unknown. Nearly all prisoners are university intellectuals). Same prison is getting bombed by the regime then laying it on fire burst.

World must take strongest ever action against dangerous megalomaniac Iranian dictators.

In advance, greatly appreciate your attention and efforts on this.

Please, be our voice.

Please, propose to ban Iranian regime authorities: ( Iran's revolutionary gaurds (Sepah) ministers, high rank officials)

from entering or trading in Australia as other Western countries i.e., Canada, USA, UK, EU union have done and are still imposing more severe crippling sanction on Iran's regime.

Best regards,

P.S., please, let us know how you might be able to propose any such support for not Iranian people and it's women but to the world.
